PREFACE

This handbook is designed as a quick field reference to Marine Corps automated data systems as well as to provide references for those systems.

The material is divided by functional areas: Aviation, Financial, Logistics, Manpower, Operations, Publications, Shipboard, and Tactical. In addition to system purpose and functions, the system is also classified by status: Implemented (I), Developmental (D), or Conceptual (C). The sponsor of each system is indicated.

This handbook is for INFORMATIONAL purposes only.

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
NALCOMIS ----- DC/S Aviation (Code AAJ)	Naval Aviation Logistics Command Management Information System	Will eventually encompass the entire aviation supply and management processes such as SUADPS-EU, 3M, and FREDS	Will increase aircraft readiness by improving the aircraft carrier's and the Marine Air Group's current management information system; will result in a manpower reduction from current requirements to operate the MIS; will effect a reduction in rotable pool inventories; will increase systems capability to determine aircraft sorties available.	Marine Corps Aviation units Navy Tech Support Activities Navy Type Commands	Marine Corps Aviation units Navy Tech Support Activities Navy Type Commands	C	OPNAV INST 4790.7 CNOltr SDR 5140/ 4024 of 8 Mar 74
3M ----- DC/S Aviation (Code AAJ) in conjunction with CNO	Navy Maintenance and Material Management System	Collects, stores, and retrieves maintenance as well as material, and usage data for aviation activities	Aids the commander in producing various aviation management reports such as part failures, work output, aircraft readiness; as well as determining parts requirements	Marine Corps Aviation Units	Marine Corps Aviation Units	I	OPNAV INST 4790.2A
FREDS ----- DC/S Aviation (Code AAJ)	Flight Readiness Evaluation Data System	Collects, analyzes, and evaluates aviation flight data for use in decision making	Will measure the combat readiness percentage; will provide a measure of aircraft use; will maintain flight records of aircrewmen; will be a means of reviewing training and readiness requirements; will provide and assist with information to perform advance planning tasks	Marine Corps Aviation Units IFARS	Marine Corps Aviation Units	D	MCO 3762.1 (Proposed)
----- DC/S Aviation (Code AAJ)	FIS Standard Navy Supply System	Reports data on aviation material obtained through the Navy Supply System	Will channel SUADPS-EU information to wing or higher level headquarters to permit the coordination and location of aviation material	HQMC Wing and Force Aviation Supply	MAGS MWSG MWS	D	FMFLANT/ MC Joint Ltr of Agreement: 21A/BK/ IT-11: 4400 of 5Jul73

AVIATION

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
IFARS ----- DC/S Aviation (Code AAZ)	Individual Flight Activity Reporting System	Provides stastistical information on aircraft in terms of men and material	Flight information such as number of landings, type of approach, crew members etc., can be extracted for statistical review to aid in such areas as flight safety, budget, or the individual's flight record	Marine Corps Aviation Units	Marine Corps Aviation Units	I	MCO 3760.1 OPNAV INST. 3710.7G
NANFORMS ----- DC/S Aviation (Code AAZ)	Naval Aviator Naval Flight Resource Management System	Stores flight time information on designated naval aviators, naval flight officers, or aviation ground officers/enlisted	Periodically or on demand displays flight time reports on individuals or groups of individuals which assist in pilot transition boards, flight status selection, and related areas	HQMC	MMS and IFARS	I	DC/S Aviation memo AAZ-2-bjw of 30Aug67; Chief of Staff Decision 1-68; User's Guide 1Feb72
SUADPS-EU ----- DC/S Aviation (Code AAJ) in conjunction with NAVSUP-SYSCOM	Shipboard Uniform Automated Data Processing System for End Use	Automates supply and fiscal management for aviation units	Capable of developing inventory information, processing requisitions, as well as aiding in fiscal management activities	Marine Corps Aviation Units DOD Supply Agencies Navy Fleet Air Commanders	MAGS MWSG MWHS Marine Corps Combat Readiness Training Group	I	OPNAV 91P3, FAGLNT SUADPS Program Operation Manual dtd 15Apr72

FINANCIAL

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PRIME ----- Fiscal Director (Code FDA)	Project Prime (Priority Management Effort) (Mechanized Financial Procedures for Selected Marine Corps Posts and Stations	An automated system providing a means of collecting, processing and submitting financial data and is utilized at selected major Posts and Stations	Provides managers a System which includes monetary and quanstitative financial information that enables management to effectively and efficiently manage available resources	HQMC Marine Corps Posts and Stations Stations Navy Comptroller	Navy and Marine Corps Disbursing Officers Comptroller Marine Corps Stock Fund Local Fund Administrator	I	MCO P7300.10A
----- Fiscal Director (Code FDA)	Depot Maintenance and Production Reporting	Records, stores, and reports costs of depot level maintenance	Identifies any work performed in depot maintenance with its related cost; classifies and reports this information by a specific category such as an identifiable weapons system	HQMC MCSA Phil Local Commands	HQMC MCSA Phil MCSC's	I	MCO 7310.37
ALPS ----- Fiscal Director (Code FDA)	Automated Leave and Pay System	Gives local commands the capability to pay civilians as well as maintaining their Leave records	Pay computations and payroll records are performed by the computer for civilian employees; maintains leave records	Marine Corps Posts and Stations Navy Comptroller Treasury and Civil Service	Marine Corps Posts and Stations	I	MCO P74203
MAGFARS ----- Comptroller in conjunction with CG FMF Lant	Marine Air Ground Financial Accounting and Reporting System	Records, stores, and reports fiscal transactions	Provides such data as transaction reports, unfilled orders, and general ledger reports; is a FIS system	HQMC FMF Units Local Fund Administrators	Fiscal Officer of using command	I	
FAS/HQ PRIME ----- Fiscal Director (Code FDA)	Financial Accounting System/ Headquarters Priority Management Effort	An automated system providing a means of collecting, processing and submitting financial data and is utilized at thirteen selected major posts and stations	Provides managers a system which includes monetary and quanstitative financial information that enables management to effectively and efficiently manage available resources	HQMC All USMC Commands Navy Comptroller	HQMC Navy Comptroller	I	

FINANCIAL

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
----- Fiscal Director (Code FDA)	Class I Allotment Accounting	Automatic allotment accounting in conjunction with Class I Prime	Provides an automated means of accounting and reporting for funds appropriated by other than O&MCC	Marine Corps Posts and Stations	Marine Corps Posts and Stations	D	
DOV ----- Fiscal Director (Code FDD)	Disbursing Officer Voucher System	Mechanize the extraction of disbursing transactions to meet subsequent reporting requirements	Provide Marine Corps Disbursing Offices a system for editing accounting, balancing transactions producing NAVCOMPT forms, voucher listings, and expenditure reports	HQMC Marine Corps Finance Center Fiscal Officers and Disbursing Officers	Marine Corps Disbursing Offices	I	MCO 7240.30
JUMPS (JUMPS/MMS) ----- Fiscal Director (Code FDD) and DC/S for Manpower (Code MPI)	Joint Uniform Military Pay System/Manpower Management System	To administer and coordinate the DOD policies and objectives for the development, test, evaluation, and maintenance of JUMPS	An integrated personnel and pay system. JUMPS/MMS utilizes reports of personnel changes, entered into the system by unit diaries, to change the pay data automatically. Pay data changes are entered into the system by Unit Diaries, documents prepared by the disbursing officer or both	All command levels with reporting unit capability HQMC Marine Corps Finance Center	Marine Corps Disbursing Officers, Commanding Officers at the Reporting Unit Level, HQMC Administrative Control Units at the SDPI's, Recruit Depots and the Marine Corps, Finance Center	I	MCO P7220.31
----- Fiscal Director (Code FDA)	Retired Pay/ Personnel System	To provide for the payment of retired pay, retainer pay, and annuities for survivors of deceased Marine Corps members and Fleet Marine Corps Reservists.	The system provides: a record for each retired member, Fleet Marine Corps Reservist, and annuitant whenever a change occurs in an account; monthly checks for the listed categories of personnel; numerous reports to include accumulated taxable income and federal tax withheld for issuance of W-2's and W-2P's; and microfiche listing of the monthly retired pay account	HQMC DOD General Accounting Office	HQMC, Veterans Administration; Social Security Administration; Field Commands	I	NONE

FINANCIAL

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PMC ----- Fiscal Director (Code FDA)	Procurement Marine Corps	Produces accounting ledgers for the PMC appropriation and produces reports by procurement line number and subhead	A mechanized financial system for HQMC which provides for the recording, accumulation, reporting and administrative control of funds for the PMC appropriation	HQMC Navy Comptroller	HQMC	I	HQO 7043.3
MCIF ----- Fiscal Director Code FDA)	Marine Corps Industrial Fund	Proivdes a means of financing, budgeting, and billing for work performed by the industrial fund	The MCIF is a mechanized accounting system designed to meet DOD, DON, HQMC, and activity level requirements peculiar to industrial fund accounting requirements	HQMC MCSC, Albany MCSC, Barstow	MCSC, Albany MCSC, Barstow	I	MCO 7600.1A NAVCOMPT INST 7300.92
CERPS ----- Fiscal Director (Code FDA)	Navy Register System/ Centralized Expenditure Reimbursement Processing System (CERPS)	To provide various administrative/responsible offices and accountable activities with with financial data	The system accumulates, selects, and reports accounting data pertaining to disbursements, reimbursements for all Marine Corps disbursing offices, stock fund issues, and international balance of payments	NAVCOMPT HQMC Various administrative and responsible offices and accountable activities	Marine Corps Disbursing Offices	I	
CAREPAY ----- Fiscal Director (Code FDD)	Centralized Automated Pay System	Pays Marine Corps Reservists	Accomplishes all payments to reservists for drill attendance performance by check on a monthly basis. Effects payments for ATD periods by checks at the training location on the 1st and 2nd Friday of the training period, prepares supporting documents, and furnishes appropriation accounting data to HQMC on a monthly basis.	HQMC CG, 4th Mar Div CG, 4th MAW/ MARTC Directors of Marine Corps Districts Reserve Units Social Security Administration Internal Revenue Service	Marine Corps Reserve Units Inspector-Instructor Staffs	I	MCO 7220.R 17D

FINANCIAL

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
B&A ----- Fiscal Director of (Code FDD)	Bonds and Allotment System	Provides for the Payment of all allotments of military pay and allowances and provides for U.S. Savings Bond issuance and safekeeping services.	Provides for the control and updating of the master allotment file on all active allotments and allotment stop history and provides for the issuance, cancellation of treasury checks and savings bonds authorized by appropriate directives	U.S. Marine Corps Navy Comptroller Treasury Department All allotment recipients	All M.C. Disbursing Officer, numerous Navy Disbursing Officers May receive information from other services all recipients of allotment payments	I	MCO P7220 P7220.31A

LOGISTICS

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PWRMS ----- DC/S Installations and Logistics (Code LPC)	Prepositioned War Reserve Management System	Will assist the commander in computing his requirements for war reserve material; will also analyze and indicate Pre-D Day requirements (Revision of a MUMMS subsystem)	Will permit the insertion of staff studies into this system while a program of war reserve material requirements is being maintained or determined; will further aid the commander with its computer to computer communication capability in the rapid analysis and dissemination of these requirements; will also be of benefit to the Marine Corps Reserve in the event of mobilization	HQMC FMF Hdqs ICP Phil	HQMC FMF Hdqs ICP Phil	C	
SASSY ----- DC/S Installations and Logistics (Code LPS)	Supported Activities Supply System	Functions as supply management for the direct support echelon of the Marine Corps Supply System in the FMF	Accomplishes the supply accounting functions for the Service Support unit and commanders at the direct support echelons which includes FMF MAG's, Battalions, separate companies. Determines requirements, controls, material, provides asset visibility and furnishes a data base for management information required by the Commander in the performance of his missions	HQMC All FMF Units General Support level of Marine Corps Supply Integrated Material Manager	All FMF Units General Support Level of Marine Corps Supply Integrated Material Manager	I	MCO P4400.123 MCO P4400.123 MCO P4400.124 MCO P4400.126
MUMMS ----- DC/S Installations and Logistics (Code LPS)	Marine Corps Unified Material Management System	Acts as a supply management system with respect to obtaining and disposing of material as well as indicating the availability of material	Handles such areas as inventory control, procurement, warehousing, war reserve material; responsible for operation of direct support control point; accounts for the storage of all Marine Corps material not in the hands of the using unit	HQMC Supply Activities FMF Units and Supporting Establishments	HQMC MCSA Phil RSA DSSC DLSC DSA Requisiting Activities	D	MCO 4400.70
MEDS ----- DC/S Plans and Operations (Code POM)	Mechanized Embarkation Data System	Automates the clerical tasks associated with embarkation	Assists in embarkation through the production of various rosters and documents	Using FMF Units	Using FMF Units	I	MCO P3120.6

LOGISTICS

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
MIMMS ----- DC/S Installations and Logistics (Code LPS)	Marine Corps Integrated Maintenance Management System	Will create an equipment maintenance management system for ground units of the regular establishment as well as for aviation and ground units of the Marine Corps Reserve	Will provide maintenance management and readiness information for the management of ground equipment in Marine Corps Units at both field and Headquarters levels	HQMC Support Supply Activities All Marine Corps Units	HQMC Support Supply Activities All Marine Corps Units	D	MCO P4790.1 MCO P4790.2 MCO P4790.3 MCO P4790.6 MCO P4790.1
RESCU ----- Dir. Information Systems, Support & Management Division (Code ISMR)	Marine Corps Automatic Data Processing Resource Cost and Utilization System	Provides information on utilization of ADP resources	Currently provides ADPE utilization information to meet requirements of Department of Navy ADP Programs Reporting System (ADPPRS). Revised system (Resource Control System) will provide use reporting on all ADP resources as well as provide a standard project Control System.	Marine Corps ADP Units HQMC DON DOD GSA	Marine Corps ADP Units HQMC	I	CMC Ltr AP/9-dis-r 5230/1-3 of 14Feb73
MAGTF LIFT ----- DC/S Installations & Logisitics (Code LPS)	Marine Air Ground Task Force Requirement and Logistic Planning Model	Will automate lift requirements for baseline and notional MAGTF's, determine logistic planning factors, and create data for use in the Joint Operational Planning System	Will give a logistical profile with respect to weight and cube, personnel, and transportation for a MAGTF; is a mathematical model	JCS HQMC MCDEC FMF Hdqs	HQMC	I	

MANPOWER

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
ARDP ----- DC/S Manpower (Code MMEA)	Automated Recruit Distribution Process	Provides an objective means of assigning recruits to entry level training after the completion of recruit training	Determines quotas, number of anticipated graduates, recruit distribution plan, and also provides personal recruit information	HQMC MCRD's	HQMC MCRD's	I	Draft MCO 1100.1
GAR ----- DC/S Manpower Code MPC)	Grade Adjusted Recapitulation	Designed to illustrate future needs of the Marine Corps grade, MOS, billets, and individuals	Functions as a mathematical modeling process to predict these requirements as limited by such factors as end strength, training requirements, manning levels, and grade levels	HQMC	HQMC	I	
REMMPS ----- Division of Reserve (Code RESM) and Fiscal Director (Code FDD)	Reserve Manpower Management and Pay System	Establishes a personnel and pay system for the Marine Corps Reserve and provides interface with JUMPS/ MMS upon mobilization	Will provide manpower management information with respect to Reservists; will have the capability to issue pay to the reservists	HQMC DOD CG, 4thMarDiv CG, 4th MAW MARTC DistDir MCFC MCRFAA USMCR-(O)-Units	MCFC MCRFAA I-I/MARTD(U) Staffs USMCR-(O)-Units	D	
----- DC/S Manpower (Code MTMT)	Unit Level Training Management	Will be an inquiry system to automate an individual's training record	Could answer questions relating to individual qualifications or skills	All Marine Corps Units	All Marine Corps Units	C	MCO 1510.2H Fur. 2d.(2)
----- DC/S Manpower (Code MPI)	Recruit Reservation System	Will provide recruiting officers with the capability to schedule enlistees for specialized training at the time of enlistment	Will give the recruiting officer the capability to offer enlistment options to a prospective Marine with respect to obtaining specialized training after recruit training; will also help minimize classroom vacancies at specialized schools	HQMC Recruiters Technical Schools	HQMC Recruiters	C	

MANPOWER

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
CAMS ----- DC/S Manpower (Code MPI)	Commissioning Accession Management System	Exists as an entry system into JUMPS/MMS for the initial commissioning of officers at MCDEC as well as for Reserve officers returning to active duty	Enters personal data about the newly commissioned officer into JUMPS/MMS; also enters data about officers who come on active duty in excess of 30 days duty as well as making administrative status changes such as occur in integrating from Reserve to Regular officer	HQMC	HQMC MCDEC	I	MC Bul 1080 of 8Aug73
HAMS ----- DC/S Manpower (Code MPI)	Headquarters Accession Management System	Exists as an entry system at HQMC into JUMPS/MMS for enlisted personnel with broken time or for reservists returning to active duty	Enters personnel data about the reenlistee with broken time from the newly executed enlistment contract; also inputs the personnel data for an enlisted reservist entering active duty for a period in excess of 30 days	HQMC	HQMC Recruiter	I	MCO P1080.35B
AIMS ----- DC/S Manpower (Code MPI) System	Administrative Instructions for Manpower Management	Permits the monitor at HQMC to enter certain data elements into the JUMPS/MMS system	Is the means by which a monitor at HQMC enters data such as promotion, schools, or assignments into the individual's JUMPS/MMS file	HQMC	HQMC	I	HQMC Order P1080.1
TMR ----- DC/S Manpower (Code MPC)	Table of Manpower Requirements	Automates the production of T/O's	Produces Tables of Organization as well as updating existing T/O's on a monthly basis	HQMC All Marine Corps Units	HQMC All Marine Corps Units	I	MCO P5310.6A
GENTRAS ----- DC/S Manpower (Code MTMT)	General Training System	Operates as a quality control measure for formal Marine Corps School	Determines specific skills requirements for a billet and then provides guidance to formal schools in the formulation of objectives to meet these skill requirements; evaluates the effectiveness of training as it relates to the identified skill requirement	HQMC	Formal Schools Field units on request	I	

MANPOWER

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
MMS (JUMPS/ MMS) ----- DC/S Manpower (Code MPI)	Joint Uniform Military Pay System/Manpower Management System	Exists as major subsystem of the Manpower Management Information System is comprised of each regular Marine's complete personal and pay record as well as leave data	Provides manpower management reports; permits local commanders having access to an Automated Services Center (ASC) to extract manpower information; enhnaces the creation of a summary file from which HQMC can retrieve certain items of personnel data	HQMC	All Marine Corps Units	I	MCO P7220. 31 MCBul 7220 Series
GIMMIS ----- DC/S Manpower (Code MPI)	G-1 Manpower Management Information System, Modes, and Processes	Operates in a retrieval or inference vein to provide or predict manpower requirements; exists as a major sub system of the Manpower Management Information System	Contains several mathematical models which perform the following functions: Recommends optimum assignment to unaccompanied overseas tours by name, skill, grade, and deployability; mathces enlistments with manpower requirements Predicts a Marine Corps enlisted population by grade and MOS; Determines and evaluates end strengths; Tests unrestricted officer promotion policies against various limiting factors; Forecasts a desired grade/MOS composition for a specific future time period	HQMC	HQMC	I	
RAMS ----- DC/S Manpower (Code MPI)	Recruit Accession Management System	Exists as an entry system into JUMPS/MMS for recruits at the MCRD's	Enters personal data about the enlisted Marine into JUMPS/MMS; permits each recruit to verify the information prior to entry into the system	HQMC	MCRD's	I	MCO 1070.9A
REPMIS ----- Dir, MC Reserve (Code RESM)	Reserve Personnel Management Information System	Exists to provide the the Marine Corps Reserve with a means of accounting for Reservists while they are in an inactive Status	Provides Marine Corps Reserve manpower management information and provides personnel data to the mobilization subsystem	DOD, HQMC, CG 4th Mar Div CG 4th MAW/ MARTC, District Directors, MCRFAA, USMCR-(O)-Units	MCRFAA I-I/MARTD(U) Staffs USMCR-(O)-Units	I	MCO P1080. 20 MCO P1080. 35

OPERATIONS

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
FORSTAT ----- DC/S Plans and Operations (Code POC)	Marine Automated Readiness Evaluation System/Force Status and Identity Report	Automates the unit's reporting of its operational readiness	Reflects the state of readiness for each Marine unit with respect to personnel, equipment and training	HAMC, JCS, MAF, DOD, FMF, Hdqs., CINCS, Marine Corps Reserve, Divisions and Wings, FSR, Force Troops MARBDE	FMF Units USMCR Units HQMC Non-FMF Units outside of CONUS	I	JCS Pub 6
JOPS DC/S Plans and Operations (code POM)	Joint Operations Planning System	Provides automated support in the development of joint operation plans	Through simulation will test the plan's feasibility and then provide an evaluation; will deal with such considerations as material, personnel and movement requirements, the status of lift forces and mobility of support, physical characteristics of equipment as well as air and sea lift planning factors	HQMC CINCS FMF Planners JCS	FMF Planners	D	

PUBLICATIONS

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PUBS ----- Director of Headquarters Support (Code HQSP)	Publications	Automates the supply and accounting for Marine Corps Publications	A means by which Marine Corps Publications are distributed to various sources; will also account for the publications	All Marine Corps Units	All Marine Corps Units	I	MCO P4400.94 P5600.31C

SHIPBOARD

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I O C	REFERENCE
ASIS ----- DC/S Plans and Operations (Code POM)	Amphibious Support Information System	Acts as an information retrieval system for the CATF/CLF	Provides data such as target list information, personnel information as well as other similar data necessary for the Landing Force Commander during an Amphibious Landing	Embarked CATF/CLF Staffs	FMF Units involved in the operation	I	

TACTICAL

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PLRS ----- DC/S Plans and Operations (Code POM)	Position Location Reporting System	Will be a means for providing the commander with precise locations of friendly forces	Will provide position location information from PLRS equipped ground and air units to Landing Force Commanders for use in fire support, control and coordination. Will provide individual tactical user with his own position for use in navigation and conflict avoidance. Will provide a digital data link between user and command level.	FMF Units	FMF Units	D	
TWAES ----- DC/S Plans and Operations (Code POM)	Tactical Warefare Analysis and Evaluation System	Will assist in the operation of tactical exercises	Will be a computer assisted system for the design, conduct, control, and evaluation of FMF tactical exercises and tests	FMF Units	FMF Units	D	
MAGIS ----- Dir of Intelligence (Code INTM)	Marine Air Ground Intelligence System	Will assist the Commanders by providing more timely and accurate intelligence	Will assist in: processing and interperations of aerial imagery; processing and evaluation of electronic warfare support measures (ESM) data; managing and collection of information; processing information into finished intelligence and dissemination of intelligence to users.	FMF Units	FMF Units other Intelligence Units	D	
SIAS ----- Dir of Intelligence (Code INTS)	Signal Intelligence Analysis System	Assist the FMF commander by providing more timely and accurate intelligence	Will provide FMF units with computer assistance in Signal Intelligence analysis functions	FMF Units	FMF Units	D	
TCO ----- D/CS Plans and Operations (Code POM)	Tactical Combat Operations	Will enhance the capability of the commander and his staff to plan and conduct fire and maneuver	Will give the commander the capability to analyze large amounts of data for advance planning; will draw upon updated information from other aspects of MTACCS to permit the Commander immediate access to current information in a centralized combat operations center.	FMF Units	FMF Units	C	

TACTICAL

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
MIFASS ----- DC/S Plans and Operations (Code POM)	Marine Integrated Fire and Air Support System	Will assist in the control of supporting arms	Will provide integrated control and coordination of the MAF's fire support, both ground and air; will include organic weapons, Naval Gunfire, Artillery, close air support, and the REDEYE; will provide accurate target information reduce reaction time, and allow greater efficiency in reaction time as well as allocating fire to targets	FMF Units	FMF Units	C	
MACCS 85 ----- DC/S Aviation (Code AAU)	Marine Air Command and Control System-85	Will assist in the command and control of Marine aviation	Will evolve from the current MACCS into a semi-automated center or or system of centers to provide the commander with the means to achieve the control of aircraft in conducting offensive or defensive operations	FMF Units	FMF Units	C	
MIPS ----- DC/S Manpower (Code MPI)	Marine Integrated Personnel System	Will fulfill the need to provide personnel information of a MAGTF	Will provice personnel information such as skill shortages and requirements, both present and future; will help in determining anticipated losses and probable future capabilities and effectiveness; will supplement MMS	FMF Units	FMF Units	C	
MILOGS DC/S Installtions and Logistics (Code LPC)	Marine Integrated Logistics System	Will assist combat service support units and MAGTF's G/S 4's with respect to command and control	Is anticipated that MILOGS will be the tactical arm of MUMMS, MINMS, and SASSY	FMF Units	FMF Units	C	
TESE ----- DC/S Manpower (Code MPI)	Tactical Exercise Simulator and Evaluator	Will assist in the simulation of tactical problems for formal school programs	Will be a computer assisted educational war game to be used for the education and evaluation of ground combat commanders and staffs	Students	Students	C
