Introduction to Tab D

Purpose: Presents the source documentation represented in the process and procedures.

Tab B, USMC Segment Overview, defined and documented the standard operating procedures (SOPs), process flows, process memorandums, and key controls of processes within the Statement of Budgetary Resources segment, while Tab C defined the verification procedures that were performed to confirm that sufficient support exists to validate that the documented procedures were performed in accordance with Marine Corps guidance.

The documents referenced below represent the source documents described in the process documentation (Tab B) and used in the verification efforts (Tab C) as performed on the Statement of Budgetary Resources segment. The results of the analysis of the below source documentation can be found in Tab C.1 through Tab C.7. The observations found during the analysis of the below source documents can be found in Tab C.8.

DDRS B Trial Balance FY08 Q1

Methodology:

All trial balance files were extracted from DDRS per DFAS-KC and DDRS SOP guidance.

The DDRS-B trial balance is only available for extraction one appropriation at a time (0735, 1105, 1106, 1107, 1108, 1109, 1319, 1508, 5095). The DDRS-B trial balance is available in DDRS through the following procedures:

1. Log into DDRS-B and select RWA and Role. The RWA must be the appropriation type, not the general fund.
2. Select the "Reports" menu on the left side of the screen.
3. Select "View/Drill-Down Reports"
4. Select the "Accounting Period" at the top of the screen
5. Select desired appropriation.
6. Select the latest version of the report.
7. Select Trial Balance and run the report.
8. Output options are PDF, Excel, or CV file format. Note: by selecting the account balance on the PDF output format, you can drill down to see the SABRS general ledger accounts behind the amounts.

DDRS B Trial Balance FY08 Q2

Methodology:

All trial balance files were extracted from DDRS per DFAS-KC and DDRS SOP guidance.

The DDRS-B trial balance is only available for extraction one appropriation at a time (0735, 1105, 1106, 1107, 1108, 1109, 1319, 1508, 5095). The DDRS-B trial balance is available in DDRS through the following procedures:

1. Log into DDRS-B(https://ddrs.csd.disa.mil/united/html/dr_wp_fp_frontpage.html) and select RWA and Role. The RWA must be the appropriation type, not the general fund.
2. Select the "Reports" menu on the left side of the screen.
3. Select "View/Drill-Down Reports"
4. Select the "Accounting Period" at the top of the screen
5. Select desired appropriation.
6. Select the latest version of the report.
7. Select Trial Balance and run the report.
8. Output options are PDF, Excel, or CV file format. Note: by selecting the account balance on the PDF output format, you can drill down to see the SABRS general ledger accounts behind the amounts.

DDRS B Trial Balance FY08 Q3

Methodology:

All trial balance files were extracted from DDRS per DFAS-KC and DDRS SOP guidance.

The DDRS-B trial balance is only available for extraction one appropriation at a time (0735, 1105, 1106, 1107, 1108, 1109, 1319, 1508, 5095). The DDRS-B trial balance is available in DDRS through the following procedures:

1. Log into DDRS-B(https://ddrs.csd.disa.mil/united/html/dr_wp_fp_frontpage.html) and select RWA and Role. The RWA must be the appropriation type, not the general fund.
2. Select the "Reports" menu on the left side of the screen.
3. Select "View/Drill-Down Reports"
4. Select the "Accounting Period" at the top of the screen
5. Select desired appropriation.
6. Select the latest version of the report.
7. Select Trial Balance and run the report.
8. Output options are PDF, Excel, or CV file format. Note: by selecting the account balance on the PDF output format, you can drill down to see the SABRS general ledger accounts behind the amounts.
