CHAPTER 4

AVIATION RADAR TECHNICIAN/5948
 INDIVIDUAL TRAINING AND READINESS REQUIREMENTS

5.0 AVIATION RADAR TECHNICIAN /5948 INDIVIDUAL TRAINING AND READINESS REQUIREMENTS. This T&R Syllabus is based on specific goals and performance standards designed to ensure individual proficiency in Core and Mission Skills. The goal of this chapter is to develop individual and unit warfighting capabilities.

5.1 5948 TRAINING PROGRESSION MODEL. This model represents the recommended average training progression for the Aviation RADAR Technician crewmember. Units should use the model as a point of departure to generate individual training plans.

* Months indicated are training months, not calendar months.

5.3 DEFINITIONS

TERM	DEFINITION
Core Model	The Core Model is the basic foundation or standardized format by which all T&Rs are constructed. The Core model provides the capability of quantifying both unit and individual training requirements and measuring readiness. This is accomplished by linking community Mission Statements, Mission Essential Task Lists, Output Standards, Core Skill Proficiency Requirements and Combat Leadership Matrices
Core Skill	Fundamental, environmental, or conditional capabilities required to perform basic functions. These basic functions serve as tactical enablers that allow crews to progress to the more complex Mission Skills. Primarily 2000 Phase events but may be introduced in the 1000 Phase.
Mission Skill	Mission Skills enable a unit to execute a specific MET. They are comprised of advanced event(s) that are focused on MET performance and draw upon the knowledge, aeronautical abilities, and situational awareness developed during Core Skill training. 3000 Phase events.
Core Plus Skill	Training events that can be theater specific or that have a low likelihood of occurrence. They may be Fundamental, environmental, or conditional capabilities required to perform basic functions. 4000 Phase events.
Core Plus Mission	Training events that can be theater specific or that have a low likelihood of occurrence. They are comprised of advanced event(s) that are focused on Core Plus MET performance and draw upon the knowledge, aeronautical abilities, and situational awareness. 4000 Phase events.
Core Skill Proficiency (CSP)	CSP is a measure of training completion for 2000 Phase events. CSP is attained by executing all events listed in the Attain Table for each Core Skill. The individual must be simultaneously proficient in all events within that Core Skill to attain CSP.
Mission Skill Proficiency (MSP)	MSP is a measure of training completion for 3000 Phase events. MSP is attained by executing all events listed in the Attain Table for each Mission Skill. The individual must be simultaneously proficient in all events within that Mission Skill to attain MSP. MSP is directly related to Training Readiness.
Core Plus Skill Proficiency (CPSP)	CPSP is a measure of training completion for 4000 Phase "Skill" events. CPSP is attained by executing all events listed in the Attain Table for each Core Plus Skill. The individual must be simultaneously proficient in all events within that Core Plus Skill to attain CPSP
Core Plus Mission Proficiency (CPMP)	CPMP is a measure of training completion for 4000 Phase "Mission" events. CPMP is attained by executing all events listed in the Attain Table for each Core Plus Mission. The individual must be simultaneously proficient in all events within that Core Plus Mission to attain CPMP
MET Phase	This Phase represents community specific unit METs. It combines CMMR crew proficient Marines, Combat Leaders, and designated non-aviation PMOS Marines into combat capable teams.

5.4 INDIVIDUAL CORE/MISSION/CORE PLUS SKILL PROFICIENCY REQUIREMENTS

5.4.1 Management of individual CSP/MSP/CPSP/CPMP serves as the foundation for developing proficiency requirements in DRRS.

5.4.2 Individual CSP is a "Yes/No" status assigned to an individual by Core Skill. When an individual attains and maintains CSP in a Core Skill, the individual counts towards CMMR Unit CSP requirements for that Core Skill.

5.4.3 Proficiency is attained by individual Core/Mission/Core Plus skill where the training events for each skill are determined by POI assignment.

5.4.4 Once proficiency has been attained by Core/Mission/Core Plus Skill (by any POI assignment) then the individual maintains proficiency by executing those events noted in the maintain table and in the "Maintain POI" column of the T&R syllabus matrix. An individual maintains proficiency by individual Core/Mission/Core Plus Skill.

Note

Individuals may be attaining proficiency in some Core/Mission/Core Plus Skills

while maintaining proficiency in other Core/Mission/Core Plus Skills.

5.4.5 Once proficiency has been attained, should one lose proficiency in an event in the "Maintain POI" column, proficiency can be re-attained by demonstrating proficiency in the delinquent event. Should an individual lose proficiency in all events in the "Maintain POI" column by Core/Mission/Core Plus Skill, the individual will be assigned to the Refresher POI for that Skill. To regain proficiency for that Core/Mission/Core Plus Skill the individual must demonstrate proficiency in all R-coded events for that Skill.

Note

See Chapter 2 for amplifying information on POI updating.

5.5 REQUIREMENT, CERTIFICATION, QUALIFICATION AND DESIGNATION TABLES. The tables below delineate T&R events required to be completed to attain proficiency for select certifications, qualifications and designations. In addition to event requirements, all required stage lectures, briefs, squadron training, prerequisites, and other criteria shall be completed prior to completing final events. Certification, qualification and designation letters signed by the commanding officer shall be placed in training Performance Records and NATOPS. See Chapter 6 of the Aviation T&R Program Manual on regaining lost qualifications.

5.5.1 INSTRUCTOR DESIGNATIONS

Certification as a COMPTIA Security+ Technician. CERT-6202	2264, 2265, 2266, 2267, 2268, 2269, 3283
Designation as an Aviation Radar Chief (ARC). DESG-6303	2150, 2151, 2152, 2153, 2154, 2170, 2174, 2176, 2190, 2191, 2192, 2193, 2194, 2196, 2197, 2198, 2199, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2223, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2350, 2351, 2352, 2353, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2601, 2602, 2603, 2606, 2607, 2612, 2614, 2680, 2681, 2682, 2683, 2684, 2685, 2686, 2687, 2688, 2690, 2691, 3514, 3515, 3516, 3517, 3660, 3661, 3710, 3711, 3715, 6103
Designation as an Aviation Radar Chief 63 (ARC63). DESG-6304	2150, 2151, 2152, 2153, 2154, 2170, 2174, 2176, 2190, 2191, 2192, 2193, 2194, 2196, 2197, 2198, 2199, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2223, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2350, 2351, 2352, 2353, 2354, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556,

TAOC MAINTENANCE MOS 5948	
REQUIREMENTS, CERTIFICATIONS, QUALIFICATIONS, AND DESIGNATIONS (RCQD) (6000 Phase)	
RCQD	EVENTS
	2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2601, 2602, 2603, 2606, 2607, 2612, 2614, 2680, 2681, 2682, 2683, 2684, 2685, 2686, 2687, 2688, 2690, 2691, 3514, 3515, 3516, 3517, 3580, 3581, 3582, 3583, 3584, 3660, 3661, 3710, 3711, 3715, 6103
Designation as an Aviation Radar Maintenance Chief (ARMC). DESG-6305	2150, 2151, 2152, 2153, 2154, 2170, 2174, 2176, 2190, 2191, 2192, 2193, 2194, 2196, 2197, 2198, 2199, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2223, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2350, 2351, 2352, 2353, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2680, 2681, 2682, 2683, 2684, 2685, 2686, 2687, 2688, 2690, 2691, 3514, 3515, 3516, 3517, 3660, 3661, 3662, 3710, 3711, 3714, 3715, 3750, 3751, 3752, 3753, 3754, 3755, 3756, 6103
Designation as a Basic Instructor (BI). DESG-6321	2150, 2151, 2153, 2170, 2174, 2176, 2190, 2191, 2230, 2350, 2351, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2497, 2500, 2508, 2509, 2510, 2511, 2512, 3715, 5000, 5010, 5020, 6102
Designation as a Senior Instructor (SI). DESG-6325	2150, 2151, 2153, 2170, 2174, 2176, 2190, 2191, 2193, 2194, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2223, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2350, 2351, 2352, 2353, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2606, 2614, 2687, 2688, 2690, 3517, 3660, 3715, 5000, 5010, 5020, 5100, 5110, 5120, 5130, 6103
Designation as a Maintenance Safety NCO. DESG-6340	2230, 2235, 2236
Designation as a Maintenance HAZMAT NCO. DESG-6341	2230, 2235, 2236
Designation as a Maintenance Publications NCO. DESG-6342	2230, 2234
Designation as a Maintenance Tools NCO. DESG-6343	2230, 2233
Designation as a Maintenance Calibrations NCO. DESG-6344	2230, 2231
Designation as a Maintenance Modifications NCO. DESG-6345	2230, 2232, 2234
Designation as a Maintenance Embarkation NCO. DESG-6346	2230, 2237
Designation as a Marine Corps Integrated Maintenance Management System (MIMMS) NCO. DESG-6347	2159, 2230, 2602
Designation as a Maintenance Training NCO. DESG-6348	2230
Designation as a Maintenance Quality Control (QC) NCO. DESG-6350	2150, 2151, 2153, 2170, 2174, 2176, 2190, 2191, 2193, 2194, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2223, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2350, 2351, 2352, 2353, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2606, 2614, 2687, 2688, 2690, 3517, 3660, 3715, 6103

5.6 5948 PROGRAMS OF INSTRUCTION (POI). These tables reflect average time-to-train versus the minimum to maximum time-to-train parameters in the Training Progression Model.

5.6.1 Basic POI

TAOC MAINTENANCE 5948 BASIC POI		
WEEKS ¹	PHASE OF INSTRUCTION	UNIT RESPONSIBLE
0-44	CORE SKILL INTRODUCTION TRAINING	MCCES
45-74	CORE SKILL TRAINING	TACTICAL SQUADRON
75-123	MISSION SKILL TRAINING	TACTICAL SQUADRON
124-128	CORE PLUS	TACTICAL SQUADRON

5.6.2 Refresher POI

TAOC MAINTENANCE MOS 5948 REFRESHER POI		
WEEKS ¹	PHASE OF INSTRUCTION	UNIT RESPONSIBLE
VARIES	CORE SKILL TRAINING	TACTICAL SQUADRON
VARIES	MISSION SKILL TRAINING	TACTICAL SQUADRON
VARIES	CORE PLUS	TACTICAL SQUADRON

NOTE 1: TRAINING DURATIONS VARIES BY POSITION BEING TRAINED. SEE PROGRESSION MODEL FOR NOTIONAL TRAINING TIMES.

5.7 SYLLABUS NOTES

5.7.1 Environmental Conditions Matrix

Environmental Conditions	
Code	Meaning
D	Shall be conducted during hours of daylight: (by exception - there is no use of a symbol)
N	Shall be conducted during hours of darkness, may be aided or unaided
N*	Shall be conducted during hours of darkness must be unaided
(N*)	May be conducted during hours of darkness - If conducted during hours of darkness must be unaided
(N)	May be conducted during darkness - If conducted during hours of darkness; may be aided or unaided
NS	Shall be conducted during hours of darkness - Mandatory use of Night Vision Devices
(NS)	May be conducted during darkness - If conducted during hours of darkness; must be with Night Vision Devices
Note - If the event is to be conducted in the simulator, the Instructor shall ensure the proper environmental conditions for the event.	

5.7.2 Device Matrix

DEVICE	
Symbol	Meaning
L	Event shall be conducted live (conducted in the field/garrison, during an exercise, etc). Requires live (non-simulated) execution of the event.
L/S	Event performed live preferred/simulator optional.
S/L	Event performed in simulator preferred/live optional.
G	Ground/academic training. May include Distance Learning, CBT, lectures, self paced.
CBT	Computer Based Training
LAB	Laboratory
LEC	Lecture
CP	Command Post
TEN	Tactical Environment Network. Events designated as TEN require an approved tactical environment simulation capable of introducing both semi-autonomous threats and moving models controllable from the tactical operator station.

DEVICE	
Symbol	Meaning
TEN+	Enhanced Tactical Environment Network. Events designated as TEN+ require an approved tactical environment simulation and at least one additional, networked, man-in-the-loop simulator to meet the training objectives. A moving model controlled from the operator station does not satisfy the man-in-the-loop requirement.
Note - If the event is to be flown in the simulator the Simulator Instructor shall set the desired environmental conditions for the event.	

5.7.3 Program of Instruction Matrix

PROGRAM OF INSTRUCTION MATRIX		
Program of Instruction (POI)	Symbol	Aviation Ground
Basic	B	Initial MOS Training
Refresher	R	Return to community from non (MOS/Skill) associated tour
Maintain	M	All individuals who have attained CSP/MSP/CPD by initial POI assignment are re-assigned to the M POI to maintain proficiency.

5.7.4 Event Terms

EVENT TERMS	
TERM	DESCRIPTION
Discuss	An explanation of systems, procedures, or tactics during the brief, exercise, or debrief. Student is responsible for knowledge of procedures.
Demonstrate	The description and performance of a particular event by the instructor, observed by the student. The student is responsible for knowledge of the procedures prior to the demonstration of a required event.
Introduce	The instructor may demonstrate a procedure or event to a student, or may coach the student through the maneuver without demonstration. The student performs the procedures or maneuver with coaching as necessary. The student is responsible for knowledge of the procedures.
Practice	The performance of a maneuver or procedure by the student that may have been previously introduced in order to attain a specified level of performance.
Review	Demonstrated proficiency of an event by the student.
Evaluate	Any event designed to evaluate team/crew standardization that does not fit another category.
E-Coded	This term means an event evaluation form is required each time the event is logged. Requires evaluation by a certified standardization instructor (NATOPS I, WTI, INST Evaluator etc.)

5.8 ACADEMIC PHASE (0000)

5.8.1 Purpose. **RESERVED FOR FUTURE USE**

5.8.2 General

5.8.2.1 Admin Notes.

5.8.2.2 Prerequisites.

5.8.2.3 Stages.

5.9 CORE SKILL INTRODUCTION PHASE (1000)

5.9.1 Purpose. To provide entry level instruction to develop the basic skills necessary to become a MOS 5948 Aviation RADAR Technician. This training is completed upon graduation from the Aviation RADAR Technician Course.

5.9.2 General.

5.9.2.1 Prerequisite. Meet the requirement delineated in the MOS Manual (MCBul 1200).

5.9.2.2 Admin Notes. None

5.9.2.3 Stages. The following stages are included in the Core Skill Introduction Phase of training.

PAR NO.	STAGE NAME
5.9.3	AIR SCHOOLS (AIRS) STAGE

5.9.3 AIR SCHOOLS (AIRS) STAGE

5.9.3.1 Purpose. To provide entry-level instruction to develop the basic skills necessary to safely embark, setup, operate, and maintain the AN/TPS-59A(V)3 Radar system, the AN/TPS-63B Radar system and the AN/UPX-37 Digital Interrogator. This training phase is complete upon graduation and assigned primary MOS.

5.9.3.2 General

Prerequisite. (1) Graduate from the Basic Electronics Course (CID: M092721).

(2) Meet the 5948 requirements delineated in the MOS Manual.

Admin Notes. Aviation Radar Maintenance Course (ARRC), MCCES, located in 29 Palms, CA.

Training track includes:

(1) Aviation Radar Fundamentals (CID: M0924X1).

(2) Aviation Radar Repair Course AN/TPS-63 (CID:M09A831)

(3) Aviation Radar Repair Course AN/TPS-59 (CID:M09A841)

Crew Requirements. None.

AIRS-1050 * B E G

Goal. Perform corrective maintenance on the AN/TPS-59A(V)3 Radar system to the Line Replaceable Unit (LRU).

Requirement. Given the references and an inoperative AN/TPS-59A(V)3 Radar system, complete the following steps:

1. Adhere to safety requirements.
2. Research applicable technical data pertaining to faulty equipment.
3. Read schematic diagrams.
4. Ensure proper handling of ESD components.

5. Set up test equipment.
6. Connect test equipment.
7. Measure basic circuit performance.
8. Trace signal paths.
9. Trace current/voltage paths.
10. Identify faulty subassembly(s).
11. Remove/replace faulty subassembly(s) as required.
12. Verify proper operation.
13. Research authorized modification and technical instructions.
14. Perform maintenance closeout procedures and ensure quality assurance checks.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

AIRS-1051 * B E G

Goal. Perform corrective maintenance on the AN/UPX-37 Digital Interrogator to the Line Replaceable Unit (LRU).

Requirement. Given the references, tools, test equipment, and a faulty AN/UPX-37, complete the following steps:

1. Adhere to safety requirements.
2. Research applicable technical data pertaining to faulty equipment.
3. Read schematic diagrams.
4. Ensure proper handling of ESD components.
5. Set up test equipment.
6. Connect test equipment.
7. Manipulate the user interface.
8. Configure operational parameters.
9. Measure circuit performance.
10. Perform alignments.
11. Trace signal paths.
12. Trace current/voltage paths.
13. Identify faulty subassembly(s).
14. Remove/replace faulty subassembly(s) as required.
15. Verify proper operation.
16. Research authorized modification and technical instructions.
17. Perform maintenance closeout procedures and ensure quality assurance checks.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10851A-12&P/B Digital Interrogator AN/UPX-37
2. TM 10851A-CD Maintenance Manual w/Repair Parts

AIRS-1052 * B E G

Goal. Assemble the AN/TPS-59A(V)3 Radar system.

Requirement. As a member of a crew, given tools, the reference and an AN/TPS-59A(V)3 emplaced per the reference, complete the following steps:

1. Assemble the Antenna-Transmitter Group.
 - a. Couple the trailers.
 - b. Remove the tarpaulins.
 - c. Remove components.
 - d. Emplace jack pads.
 - e. Perform initial leveling.
 - f. Place ground anchors.
2. Assemble the array.
 - a. Prepare lower array.
 - b. Prepare upper array.
 - c. Couple lower array.
 - d. Couple upper array.
 - e. Finalize array assembly.
 - (1) Install the wings.
 - (2) Install the IFF antenna.
 - (3) Install the auxiliary sub-arrays.
 - (4) Install warning light and lightning rods.
 - (5) Install back stays.
 - (6) Connect jumper cables.
 - (7) Raise the array.
 - (8) Complete array assembly.
 - (9) Stow tools and components.
3. Install maintenance platform.
4. Install air conditioners.
5. Cable system.
6. Ground system.
7. Test earth-ground conductivity.
8. Perform initial power energizing procedure.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

AIRS-1053 * B E G

Goal. Perform post emplacement procedures on the AN/TPS-59A(V)3 Radar system.

Requirement. Given an AN/TPS-59A(V)3 Radar and the reference, complete the following steps:

1. Perform ancillary equipment energizing procedure.
2. Perform tactical electronics energizing procedure.
3. Log-in.
4. Perform antenna leveling procedure.
5. Perform antenna north alignment procedure.
6. Perform data entry on system setup menus.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

AIRS-1054 * B E G

Goal. Perform alignment procedures on the AN/TPS-59A(V)3 Radar system.

Requirement. Given an operational AN/TPS-59A(V)3 Radar system, test equipment, tools, and the reference, complete the following steps:

1. Set up test equipment.
2. Connect test equipment.
3. Obtain reading.
4. Prepare equipment for alignment.
5. Perform alignment.
6. Perform operational checks.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

AIRS-1055 * B E G

Goal. Operate the AN/TPS-59A(V)3 Radar system.

Requirement. Given an AN/TPS-59A(V)3 Radar system and the reference, complete the following steps:

1. Configure radar for operational environment.
2. Select mission mode.
3. Bring to an operational state.
4. Verify proper radar performance characteristics.
5. Verify external interface.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

AIRS-1056 * B E G

Goal. Perform corrective maintenance on the AN/TPS-63B Radar system to the Line Replaceable Unit (LRU).

Requirement. Given the references and an inoperative AN/TPS-63B Radar system, complete the following steps:

1. Adhere to safety requirements.
2. Research applicable technical data pertaining to faulty equipment.
3. Read schematic diagrams.

4. Ensure proper handling of ESD components.
5. Set up test equipment.
6. Connect test equipment.
7. Measure circuit performance.
8. Trace signal paths.
9. Trace current/voltage paths.
10. Identify faulty subassembly(s).
11. Remove/replace faulty subassembly(s) as required.
12. Verify proper operation.
13. Research authorized modification and technical instructions.
14. Perform maintenance closeout procedures and ensure quality assurance checks.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

4. TM 07736C-14/7 Radar Set AN/TPS-63 Processor Maintenance
5. TM 07736C-14/8 Radar Set AN/TPS-63 Frequency Generator Maintenance
6. TM 07736C-14/10 Radar Set AN/TPS-63 Power Distribution Maintenance

AIRS-1058 * B E G

Goal. Operate the AN/TPS-63B Radar system.

Requirement. Given an energized AN/TPS-63B Radar system and the references, complete the following steps:

1. Configure radar for operational environment.
2. Bring to an operational state.
3. Verify proper radar performance characteristics.
4. Verify external interface.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07736C-14/1-1 Radar Set AN/TPS-63 System
2. TM 07736C-14/1-2 Radar Set AN/TPS-63 System Technical Description
3. TM 07736C-14/2-1 Radar Set AN/TPS-63 Installation
4. TM 07736C-14/2-2 Radar Set AN/TPS-63 Installation Pocket Handbook
5. TM 07736C-14/3 Radar Set AN/TPS-63 Operation Instructions

AIRS-1059 * B E G

Goal. Perform pre-operational checks on the AN/TPS-63B Radar system.

Requirement. Given an AN/TPS-63B Radar and the reference, complete the following steps:

1. Energize equipment.
2. Perform system leveling.
3. Perform system north alignment.
4. Verify system parameters.

AN/TPS-59A(V)3.

Requirement. Given an AN/UPX-37 and an AN/TPS-59A(V)3 Radar system and references, complete the following steps:

1. Mount equipment in rack.
2. Connect cables.
3. Configure AN/UPX-37.
4. Verify proper operation.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3
2. TM 10851A-12&P/B Digital Interrogator AN/UPX-37
3. TM 10851A-CD Maintenance Manual w/Repair Parts

AIRS-1064 * B E G

Goal. Install Identification Friend or Foe (IFF) equipment in the AN/TPS-63B Radar.

Requirement. Given an AN/UPX-37, an AN/TPS-63B Radar system, and the references, complete the following steps:

1. Mount equipment in rack.
2. Connect cables.
3. Configure AN/UPX-37.
4. Verify proper operation.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10851A-12&P/B Digital Interrogator AN/UPX-37
2. TM 10851A-CD Maintenance Manual w/Repair Parts

3. TM 07736C-14/1-1 Radar Set AN/TPS-63 System
4. TM 07736C-14/1-2 Radar Set AN/TPS-63 System Technical Description
5. TM 07736C-14/2-1 Radar Set AN/TPS-63 Installation
6. TM 07736C-14/2-2 Radar Set AN/TPS-63 Installation Pocket Handbook
7. TM 07736C-14/3 Radar Set AN/TPS-63 Operation Instructions

AIRS-1121 * B E G

Goal. Describe the Marine Air Control Squadron (MACS).

Requirement. Given the references:

1. Describe the role of the MACS.
2. Describe the Headquarters Detachment.
3. Describe the Air Traffic Control Detachment.
4. Describe the Tactical Air Operations Center Detachment.
5. Describe the Early Warning and Control Detachment.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCWP 3-25.3 Marine Air Command and Control System Handbook
2. MCWP 3-25.6 Sector Anti-Air Warfare Coordinator Handbook
3. MCWP 3-25.7 Tactical Air Operations Center Handbook

5.10 CORE SKILL TRAINING (2000)

5.10.1 Purpose. To develop core skill proficiency for 5948 personnel to be able to perform duties while assigned to the TAOC RADAR section.

(1) Basic Technicians will gain core skill proficiency in basic radar operations and maintenance.

(2) Advance Technicians will gain core skill proficiency in advanced radar operations and maintenance.

(3) Crew Chiefs will gain core skill proficiency in managing crew level radar operations , maintenance, and maintenance management. This training will provide the crew chief the skills necessary to run a radar crew.

(4) Maintenance Chiefs will gain core skill proficiency in supervising and managing a radar maintenance section.

5.10.2 General.

5.10.2.1 Prerequisite.

(1) Aviation Radar Basic Technician (ARBT). Core Skill Introduction training must be completed prior to beginning ACSBT training.

(2) Aviation Radar Advanced Technician (ARAT). Must be qualified as an ARBT prior to beginning ARAT training.

(3) Aviation Radar Chief (ARC) or Aviation Radar Chief 63 (ARC63). Must be qualified as an ARAT prior to beginning ARC or ARC63 training.

(4) Aviation Radar Maintenance Chief (ARMC). Must be qualified as an ARAT prior to beginning ARMC training.

5.10.2.2 Admin Notes.

(1) Training in this phase does not preclude simultaneous training in the mission skill and core plus phases provided applicable prerequisites have been met.

(2) Individual core skills are learned and mastered using a varied combination of written exams, scenarios and practical demonstrations of proficiency.

5.10.2.3 Stages. The following stages are included in the Core Skill Introduction Phase of training.

PAR NO.	STAGE NAME
5.10.3	MACCS MAINTENANCE COMMON (CMN)
5.10.4	TEST MEASUREMENT/DIAGNOSTIC EQUIPMENT (TMDE)
5.10.5	COMMUNICATION SECURITY (COMSEC)
5.10.6	FAMILIARIZATION (FAM)
5.10.7	COLLATERAL DUTY (CD)
5.10.8	INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT)
5.10.9	INFORMATION ASSURANCE WORK FORCE NETWORK+ TECHNICIAN (IAWFNT)
5.10.10	INFORMATION ASSURANCE WORK FORCE SECURITY+ TECHNICIAN (IAWFST)
5.10.11	IDENTIFICATION FIREND OR FOE (IFF)
5.10.12	RADAR (RDR)
5.10.13	LONG RANGE RADAR (LRR)
5.10.14	MEDIUM RANGE RADAR (MRR)
5.10.15	MAINTENANCE MANAGEMENT (MMGT)
5.10.16	OPERATIONAL MANAGEMENT (OMGT)

5.10.3 MACCS MAINTENANCE COMMON (CMN) STAGE

5.10.3.1 Purpose. To teach the trainee common skills to all 5900 MOSS within the MACCS.

5.10.3.2 General

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 4700-15/_
2. NAVMC 10561
3. MCO P4790.2_
4. Applicable technical manuals
5. UM 4400.125 (Draft)

CMN-2152 2.0 * B _____ L

Goal. Submit a Product Quality Deficiency Report (PQDR).

Requirement. Given the reference, equipment or a scenario:

1. State the criteria under which the PQDR should be submitted.
2. Complete the PQDR.
3. Explain the squadron's internal process for submitting a PQDR.
4. Identify the procedure to follow up with the PQDR.
5. Discuss external process flow of the PQDR.

Performance Standard. Submit to the evaluator a correctly formatted PQDR IAW the reference without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

online_train.htm

CMN-2153 3.0 * B Grnd Rod Kit/MK-2551A/U L

Goal. Demonstrate an earth ground installation.

Requirement. Given the references, grounding kit and PPE, perform the following:

1. Identify ground tolerances for equipment and personnel.
2. Identify methods of grounding.
3. Identify a method for improving a ground.
4. Identify proper location to test a ground.
5. Install an earth ground using a:
 - a. Grounding rod.
 - b. MK-2551A/U Grounding Kit (SWGS).
6. Verify proper grounding reading utilizing appropriate test equipment.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2173

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 9406-15 Ground Procedures Manual
2. TC 11-6 Grounding Techniques

CMN-2154 2.0 * B,R L

Goal. Describe the characteristics of unit T/E generators.

Requirement. Identify the following:

1. Frequency.
2. Voltage(s).
3. Load capacity.
4. Fuel consumption.

Performance Standard. With the aid of reference, pass an exam on the above list without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 12359A-OD/B Technical Characteristics Expeditionary Power Systems, Equipment

CMN-2158 1.0 * B Tool box L

Goal. Demonstrate how to maintain a tool box.

Requirement. Given the references and a tool box, complete the following steps to sustain tool accountability and serviceability:

1. State the purpose of a tool box and assigned responsibilities.
2. Ensure tool box record jacket is current.
3. Conduct an SL-3 inventory of all tools in the tool box.
4. PM each tool and ensure it is serviceable.
5. State the process for replacement of the unserviceable tools.
6. State the process for replacement of missing tools.
7. Ensure proper documentation.

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2150, 2151

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MMO SOP
2. MCO P4790.2_
3. MCO p4400.150_
4. Supply instruction
5. Applicable SL-3 for tool box

CMN-2159 1.0 * B,R GCSS L

Goal. Initiate a service request.

Requirement. Given a piece of equipment requiring a service request, NAVMC 1018, and a computer with GCSS access, perform the following:

1. Login to GCSS.
2. Open a new service request.
3. Fill out a NAVMC 1018 Inspection/Repair Tag (IRT).
4. Forward service request to the next level IAW SOP.

Performance Standard. With the aid of reference, complete the requirements IAW the references without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. Appropriate GCSS access

Reference.

1. UM 4790.5
2. TM 4700-15/1_
3. MCO P4790.2_
4. MCBUL 3000
5. MCO P4400.16_
6. Unit Maintenance Administration SOP

5.10.4 TEST MEASUREMENT DIAGNOSTIC EQUIPMENT (TMDE) STAGE

5.10.5.1 Purpose. To teach the trainee how to use various test equipment that will be used in the performance of their assigned duties.

5.10.5.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

TMDE-2170 2.0 * B USM-674 L

Goal. Compare circuit card performance against a gold disk.

Requirement. Given a Circuit Board Tester, circuit card, a list of ten components to test, gold disk, and references, perform the following:

1. State the purpose of a Circuit Board tester.
2. Configure test set up for appropriate circuit card.
3. Test the circuit card.
4. Report the results.

Performance Standard. Report the results. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor

errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. AN/USM-674 user's manual

TMDE-2171 2.0 * B,R Oscilloscope L

Goal. Utilize an oscilloscope.

Requirement. Given the references, an oscilloscope and a signal generator:

1. State the purpose of an oscilloscope.
2. Verify calibration is current.
3. Measure a signal.
4. Report the results.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2172

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 11277A-OI/1 OSCILLOSCOPE TDS 5054B-NV-AVTM 11277A-ID/2 OSCILLOSCOPE TDS 5054B-NV-AV

TMDE-2172 2.0 * B,R Signal generator L

Goal. Demonstrate the use of a signal generator.

Requirement. Given a signal generator demonstrate the following:

1. Verify current calibration.
2. Configure signal generator for output.

3. Verify output.

Performance Standard. Report the results without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Applicable signal generator manual and equipment TM

TMDE-2173 2.0 * B,R R1L-C L

Goal. Utilize a Ground Tester.

Requirement. Given a ground tester, grounded equipment, and references:

1. State the purpose of a ground tester.
2. Verify calibration is current.
3. Measure resistance to ground in ohms.
4. State whether the ohm level is within tolerance.
5. Adhere to safety procedures.

Performance Standard. With the aid of reference, demonstrate proper use of the ground tester and measure ground resistance in ohms, report results without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 9406-15
2. TM 10069A-14 O&M w/IPB R1L-C

TMDE-2174 2.0 * B,R Power Meter L

Goal. Utilize a Power Meter.

Requirement. Given the references, a Power Meter and a signal generator:

1. State the purpose of a Power Meter.
2. Verify calibration is current.
3. Measure a signal.

Performance Standard. Report the results without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Applicable Power Meter manual and equipment TM

TMDE-2175 1.0 * B,R Multimeter L

Goal. Utilize a multimeter.

Requirement. Given a multimeter, cable, and references:

1. State the purpose of the multimeter.
2. Verify calibration is current.
3. Perform continuity check on a cable or wire.
4. Measure resistance.
5. Measure voltage (AC and DC).
6. Adhere to safety procedures.

Performance Standard. With the aid of reference, demonstrate the proper use of a multimeter by completing the requirements without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Applicable user manual

TMDE-2176 1.0 * B,R Spectrum Analyzer L

Goal. Measure an RF signal with a spectrum analyzer.

Requirement. Given a spectrum analyzer and applicable reference,

complete the following:

1. State the purpose of a spectrum analyzer.
2. Verify current calibration.
3. Set reference level.
4. Measure a signal.
5. Center the signal within the display.
6. Maximize the frequency span to best display the signal.

Performance Standard. Report the results without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Spectrum analyzer user's manual

5.10.5 COMMUNICATION SECURITY (COMSEC) STAGE

5.10.5.1 Purpose. To teach the trainee safe handling and storage of classified material, use of common fill devices, crew changeover procedures, and provide familiarization with the EKMS COMSEC callout. Additionally, trainee learns to identify and load CCI devices.

5.10.5.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

COMSEC-2190 2.0 365 B,R,M _____ L

Goal. Describe proper handling and storage of classified materials.

Requirement. Perform the following:

1. State the different levels of classification.
2. State the marking requirements for each level of classification.
3. State the Two-Person Integrity (TPI) rule.
4. State storage procedures for each level of classification.
5. Identify transportation requirements for classified material.
6. State the sections of the SF-702.
7. Identify the approved security containers utilized for storage.
8. Identify the procedures for handling Controlled Cryptographic Items (CCIs).

Performance Standard. With the aid of reference, state the above requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5510.18_
2. EKMS-1_
3. SECNAVINST 5510.36
4. UNIT SOP

COMSEC-2191 2.0 365 B,R,M _____ L

Goal. State the physical security requirements for classified areas.

Requirement. Given a tactical scenario and references, identify the following:

1. Purpose of a guard schedule.
2. Purpose of access control.
3. Purpose of the entry control point.
4. Perimeter barrier requirements.

Performance Standard. With the aid of reference, pass an exam without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5530.14
2. FM 5-34_

COMSEC-2192 2.0 365 B,R,M _____ L

Goal. Create a classified area physical security diagram.

Requirement. Given a tactical scenario and references, create a

diagram that includes the following:

1. Entry control point(s).
2. Perimeter barrier.
3. Communication lines.

Performance Standard. With the aid of reference, draw a diagram depicting the information listed in the requirement without error; instructor will validate that the diagram supports the scenario. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2191

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5530.14
2. FM 5-34_

COMSEC-2193 2.0 365 B,R,M _____ L

Goal. Conduct classified material inventory.

Requirement. During a crew change over, perform the following:

1. Conduct classified material inventory.
2. Conduct EKMS inventory.
3. Destroy superseded key materials.

Performance Standard. With the aid of reference, conduct the requirements without discrepancy.

Instructor. BI, SI

Prerequisite. 2190

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1A
2. 5530

COMSEC-2194 2.0 * B,R _____ L

Goal. Extract key material information from EKMS COMSEC callout.

Requirement. Given an EKMS COMSEC callout and references, perform the following:

1. State the purpose of the EKMS COMSEC callout.
2. Identify the five main pieces of key information:
 - a. Short Title.
 - b. Edition.
 - c. Segment.
 - d. Classification.
 - e. Supersession date.
3. Identify segment roll over dates and time.

Performance Standard. With the aid of reference, state the purpose and identify the key information on the callout without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2190

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1
2. MCWP 3-40.3

COMSEC-2195 2.0 365 B,R,M _____ L

Goal. Utilize a Common Fill Device.

Requirement. Given (2) loaded common fill devices and a zeroized cryptographic device, perform the following:

1. Describe the purpose of common fill device.
2. Define the common fill device loading procedure.
3. Configure the common fill device.
4. Identify common fill device indicators and messages.
5. Transfer key material to Controlled Cryptographic Item (CCI) equipment.
6. Transfer cryptographic information from common fill device to common fill device.
7. Destroy superseded keying material within the cryptographic fill device.

Performance Standard. With the aid of reference, load keying material into appropriate COMSEC equipment using a fill device and destroy superseded keying material without error.

Instructor. BI, SI

Prerequisite. 2190

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1_

COMSEC-2196 2.0 * B L

Goal. Ensure CMCC handling procedures are followed.

Requirement. Given the references, perform the following:

1. Verify classified material is stored IAW the reference.
2. Verify SF-702s are completed IAW the reference.
3. Verify classified material is transported IAW the reference.

Performance Standard. With the aid of reference, validate classified material handling procedures are being implemented by completing the requirement items without error.

Instructor. BI, SI

Prerequisite. 2190

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. SECNAV 5510.36_
2. MCO 5510.18_
3. UNIT SOP
4. EKMS-1_

COMSEC-2197 2.0 * B L

Goal. Ensure EKMS material handling procedures are followed.

Requirement. Given the references, perform the following:

1. Verify EKMS material is stored IAW the reference.
2. Verify proper destruction of material IAW the reference.
3. Verify EKMS material is transported IAW the reference.

Performance Standard. With the aid of reference, validate EKMS material handling procedures are being implemented by completing the requirement items without error.

Instructor. BI, SI

Prerequisite. 2190

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1
2. UNIT SOP

COMSEC-2198 1.0 * B L

Goal. Ensure CCI material handling procedures are followed.

Requirement. Given the references, perform the following:

1. Verify CCI material is stored IAW the reference.
2. Verify SF-702s are completed IAW the reference.
3. Verify CCI material is transported IAW the reference.

Performance Standard. With the aid of reference, validate classified material handling procedures are being implemented by completing the requirement without error.

Instructor. BI, SI

Prerequisite. 2190

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1
2. UNIT SOP

COMSEC-2199 2.0 365 B,R,M L

Goal. Ensure physical security of classified areas.

Requirement. Given references and a classified area, verify the following:

1. Guard schedule.
2. Access Control.
3. Perimeter barrier.

Performance Standard. Verify the physical security of the classified

area IAW the references. Complete the requirements without error.

Instructor. BI, SI

Prerequisite. 2191, 2192

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5530.14
2. FM 5-34_

5.10.6 FAMILIARIZATION (FAM) STAGE

5.10.6.1 Purpose. To familiarize the trainee on non-MOS equipment.

5.10.6.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

FAM-2210 2.0 * B L

Goal. Describe HF, VHF, UHF, SATCOM radio characteristics.

Requirement. Given a list of radio equipment, describe the following characteristics for each:

1. AN/VRC 103.
 - a. Frequency range.
 - b. Power output.
 - c. Types of antennas.
2. AN/VRC 104.
 - a. Frequency range.
 - b. Power output.
 - c. Types of antennas.
4. AN/GRC 171B(V)4.
 - a. Frequency range.
 - b. Power output.
 - c. Types of antennas.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM-09780A-13&P/1 Radio Set AN/GRC-171B(V)4
2. TM 10822A-OR AN/PRC-150(C) Advanced Tactical HF Radio
3. TM 11255A-OR/1 AN/VRC-103(V)2 Vehicular Radio Communication System
4. TM-11496A-OI RF-300M-HVXXX Multiband Vehicular Radio System

FAM-2211 3.0 * B L

Goal. State the purpose of Automated Data Processing Equipment (ADPE).

Requirement. Given references, Network Switch, Router, Server, and Workstation and complete the following:

1. State the purpose for each.
2. Identify software components for each.
3. Identify hardware components for each.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Applicable user manuals

FAM-2212 2.0 * B L

Goal. Describe the CAC2S.

Requirement. Given a CAC2S and IETM, complete the following:

1. Identify the purpose of the CAC2S.
2. Identify its functions.
3. Identify software.
4. Identify hardware components.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CAC2S IETM

FAM-2213 3.0 * B L

Goal. Define Tactical Data Links characteristics.

Requirement. Given the references, perform the following:

1. State the capability of Link 11.
2. State the capability of Link 11B.
3. State the capability of Link 16.
 - a. JREAP A.
 - b. JREAP B.
 - a. JREAP C.
4. State the capability of Army Tactical Data Link-1 (ATDL).
5. State the capability of NATO Link 1.
6. State the capability of Intelligence Broadcast System (IBS).
7. State the capability of Common Operational Picture (COP) Synch Tool (CST).
8. State the capability of Ground Based Data Link Enhanced (GBDLE).
9. List the types of units that utilize each link.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CJCSI 6610.01D, Joint Multi-TADIL Operating Procedures
2. MIL-STD-6011, Link-11/11B

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10389-12 CTT Operators & Unit Maintenance Manual
2. TM 10389-30 CTT Direct Support Maintenance Manual

FAM-2216 2.0 * B L

Goal. Identify the Intelligence Operations Workstation (IOW).

Requirement. Given the references and an IOW:

1. Describe the purpose of the IOW.
2. Describe the function of the IOW.
3. Describe software on the IOW.
4. Describe hardware components.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. IOS/IOW User's Manual
2. SL-3-10848D
3. MarineNet - C2PC Course Code C2P001

FAM-2217 1.0 * B L

Goal. Describe T/E radios.

Requirement. Describe the characteristics for the following:

1. AN/VRC 103.
 - a. Frequency range.
 - b. Power output.
 - c. Types of antennas.
2. AN/VRC 104.
 - a. Frequency range.
 - b. Power output.
 - c. Types of antennas.
3. AN/VRC 110.

- a. Frequency range.
 - b. Power output.
 - c. Types of antennas.
4. AN/GRC 171B(V) 4.
- a. Frequency range.
 - b. Power output.
 - c. Types of antennas.
5. AN/GRC-256
- a. Frequency range
 - b. Power output
 - c. Types of antennas.
6. AN/USQ-140 (V) 2
- a. Frequency range
 - b. Power output
 - c. Types of antennas.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM-09780A-13&P/1 Radio Set AN/GRC-171B(V) 4

4. TM-11496A-OI RF-300M-HVXXX Multiband Vehicular Radio System

FAM-2218 1.0 * B _____ L

Goal. Describe C2 Applications.

Requirement. Given the references describe purpose of the following:

1. TBMCS.
2. AFATDS.
3. C2PC.
4. JADOCs.
5. Transverse (chat program).

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TBMCS SUMs

FAM-2222 1.0 * B L

Goal. Describe TACLAN.

Requirement. Given the references, perform the following:

1. Describe the purpose of the KG-175 TACLAN.
2. State the purpose of the KG-175 TACLAN.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

FAM-2223 1.0 * B L

Goal. Identify the major components of the Composite Tracking Network (CTN).

Requirement. Given the references, perform the following:

1. Describe the characteristics of the Cooperative Engagement Capability.
2. Describe the characteristics of the antenna.
3. Describe the characteristics of the AN/USG-4A.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None

Ordinance. None.

Range. None.

External Syllabus Support. None.

5.10.7 COLLATERAL DUTY (CD) STAGE

5.10.7.1 Purpose. To familiarize the trainee on the duties and responsibilities of each collateral duty in a maintenance shop.

5.10.7.2 General

Prerequisite. None

Admin Notes. Familiarization of all maintenance collateral duties gives the technician an awareness of the different essential functions required within the maintenance section.

Crew Requirements. None

CD-2230 8.0 * B,R L

Goal. State the maintenance Collateral Duties (CD).

Requirement. Receive an overview from each collateral duty holder, and at a minimum must be able to state the following:

1. Calibration CD.
 - a. State the purpose of the TMDE program.
 - b. State the duty responsibilities.
2. Modification CD.
 - a. State the purpose of the modification program.
 - b. State the duty responsibilities.
3. Tool Control CD.
 - a. State the purpose of the tool control program.
 - b. State the duty responsibilities.
4. Publications CD.
 - a. State the purpose of the publications program.
 - b. State the duty responsibilities.
5. Safety CD.
 - a. State the purpose of the safety program.

- b. State the duty responsibilities.
6. Hazmat CD.
 - a. State the purpose of the HAZMAT program.
 - b. State the duty responsibilities.
7. Embarkation.
 - a. State the purpose of the embarkation program.
 - b. State the duty responsibilities.
8. MIMMS.
 - a. State the purpose of the MIMMS program.
 - b. State the duty responsibilities.
9. Records.
 - a. State the purpose of the records program.
 - b. State the duty responsibilities.
10. Quality Control.
 - a. State the purpose of the quality control program.
 - b. State the duty responsibilities.
11. Training Program
 - a. State the purpose of the Training program.
 - b. State the duty responsibilities.

Performance Standard. verbally state the purpose and responsibilities of each CD without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

7. MMO SOP
8. MCO 4790.1
9. MCO 5600.1

CD-2231 1.0 * B L

Goal. Identify the Maintenance Calibrations Program.

Requirement. Given three pieces of Test Measurement and Diagnostic Equipment (TMDE), verify the following:

1. TMDE is correctly marked with calibrations information.
2. Calibration date is current.

Performance Standard. With the aid of reference, complete the

requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2230

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P4790.2_
2. MMO SOP

CD-2232 2.0 * B L

Goal. Identify the Maintenance Modifications Program.

Requirement. Given the references, perform the following:

1. Describe the purpose of the maintenance modification program.
2. Demonstrate how modifications are:
 - a. Identified.
 - b. Verified.
 - c. Recorded.

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2230

Ordnance. None.

3. TM-4700-15/1H
4. Maintenance Modifications Program CD Desktop

CD-2233 2.0 * B L

Goal. Identify the Tool Control Program.

Requirement. Given the references, perform the following:

1. Identify elements in the Tool Control Desktop Procedures binder.
2. Describe tool control procedures:
 - a. Inventory schedule.
 - b. Check-in/Check-out.
 - c. Tool replacement.
2. Conduct serviceability inspection of tools and tool boxes.
3. Submit special tool allowance authorization request.
4. Identify tools with special calibration requirements and submit for inclusion in Calibrations Program.

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2230

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P4790.2_
2. TM 4795-OR/1A
3. MMSOP

CD-2234 2.0 * B L

Goal. Identify the Maintenance Publications Library.

Requirement. Given the references, perform the following:

1. Demonstrate how to locate required publications for specific equipment.
2. Demonstrate how to verify publications are up-to-date.
3. Describe the purpose of Publications Library Management System (PLMS).
4. Fill out a NAVMC 10772.

Performance Standard. With the aid of reference, demonstrate the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2230

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO 5210.11E
2. MCO P5125.17C
3. PLMS
4. MCO P4790.2
5. MMO SOP
6. Maintenance Publications Library Desktop

CD-2235 2.0 * B L

Goal. Identify major Maintenance Safety Program elements.

Requirement. Given the references, perform the following:

1. Define and identify the purpose of Lock-out/Tag-out.
2. Demonstrate lock-out/tag-out procedures.
3. Eliminate the effects of ESD on electronic components.
 - a. Define ESD.
 - b. Setup ESD workstation.
 - c. Demonstrate proper use of ESD workstation during repair of ESD sensitive circuit.
 - d. Demonstrate proper packaging and handling of ESD sensitive material.
4. Describe hazard prevention as it applies to:
 - a. Electrical hazards.
 - b. Eye hazards.
 - c. Hearing hazards.
 - d. RF hazards.
 - e. Fire hazards.
5. Identify HAZMAT procedures.
 - a. State purpose of a Material Safety Data Sheets (MSDS).
 - b. Properly store and label HAZMAT materials.
 - c. Demonstrate proper usage of Personal Protective Equipment (PPE).
 - d. State the purpose of and locate and read safety board.

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2230

Ordinance. None.

Range. None.

CD-2236 2.0 * B L

Goal. State the purpose of the Material Safety Data Sheet (MSDS) and the MSDS compliance center.

Requirement. Given an MSDS and references, perform the following:

1. State the purpose of MSDS.
2. List the section of an MSDS.
 - a. Chemical identity.
 - b. Manufactures name and contact information.
 - c. Hazardous ingredients/identity information.
 - d. Physical/chemical characteristics.
 - e. Fire and explosion hazard data.
 - f. Reactivity data.
 - g. Health hazard data.
 - h. Precautions for safe handling and use.
 - i. Control measures.
3. State the purpose of the MSDS center.
4. Locate the MSDS compliance center in the maintenance department.

Performance Standard. With the aid of the MSDS Binder, state the purpose and components of a Material Safety Data Sheet (MSDS) without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

CD-2237 3.0 * B L

Goal. Identify the key elements of the Maintenance Embarkation

Program.

Requirement. Given the references, perform the following:

1. State the purpose of the maintenance embarkation program.
2. State the purpose of the equipment density list (EDL).
3. List length, width, height, and weight of major end items.
4. Identify ground equipment transportation requirements.
5. Identify Heavy Equipment (HE) requirements needed for systems movement.

Performance Standard. With the aid of reference, identify the five key elements listed above without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2230

4. Maintenance Embarkation Program Desktop

CD-2238 1.0 * B L

Goal. Identify the equipment record jacket.

Requirement. Given the references and a record jacket, perform the following:

1. State the purpose of a record jacket.
2. State the minimum content requirements for an equipment record jacket.
3. State the destruction instructions for each document within the record jacket.
4. State the local policy for disposition of inactive record jackets.
5. Inspect the record jacket content for completeness.

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

5.10.8 INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT) STAGE

5.10.8.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

5.10.8.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFAT-2250 4.0 * B E L

Goal. Explain PC hardware.

Requirement. Without the aid of references, perform the following:

1. Explain and apply BIOS settings.
2. Differentiate between motherboard components, their purposes, and properties.
3. Compare RAM types and features.
4. Explain the installation and configuration of expansion cards.
5. Explain installation and configuration of storage devices and appropriate media.
6. Differentiate among various CPU types and features and select the appropriate cooling method.
7. Compare various connection interfaces and explain their purpose.
8. Identify the appropriate power supply based on a given scenario.
9. Evaluate and select appropriate components for a custom configuration, to meet customer specifications or needs.
10. Given a scenario, evaluate types and features of display devices.
11. Identify connector types and associated cables.
12. Explain the installation and configuration of various peripheral devices.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2251 4.0 * B E L

Goal. Explain networking concepts.

Requirement. Without the aid of references, perform the following:

1. Identify types of network cables and connectors.
2. Categorize characteristics of connectors and cabling.
3. Explain properties and characteristics of TCP/IP.
4. Explain common TCP and UDP ports, protocols, and their purpose.
5. Compare wireless networking standards and encryption types.
6. Install, configure, and deploy a SOHO wireless/wired router using appropriate settings.
7. Compare Internet connection types and features.

8. Identify various types of networks.
9. Compare network devices their functions and features.
10. Given a scenario, use appropriate networking tools.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2252 4.0 * B E L

Goal. Explain laptop features and characteristics.

Requirement. Without the aid of references, perform the following:

1. Install and configure laptop hardware and components.
2. Compare the components within the display of a laptop.
3. Explain the differences between the various printer types and summarize the associated imaging process.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2253 4.0 * B E L

Goal. Explain printer features and characteristics.

Requirement. Without the aid of references, perform the following:

1. Explain the differences between the various printer types and

- summarize the associated imaging process.
2. Given a scenario, install, and configure printers.
3. Given a scenario, perform printer maintenance.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2254 4.0 * B E L

Goal. Explain operational procedures.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, use appropriate safety procedures.
2. Explain environmental impacts and the purpose of environmental controls.
3. Given a scenario, demonstrate proper communication and professionalism.
4. Explain the fundamentals of dealing with prohibited content/activity.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2255 4.0 * B E L

Goal. Explain operating systems.

Requirement. Without the aid of references, perform the following:

1. Compare the features and requirements of various Microsoft Operating Systems.
2. Given a scenario, install, and configure the operating system using the most appropriate method.
3. Given a scenario, use appropriate command line tools.
4. Given a scenario, use appropriate operating system features and tools.
5. Given a scenario, use Control Panel utilities (the items are organized by "classic view/large icons" in Windows).
6. Setup and configure Windows networking on a client/desktop.
7. Perform preventive maintenance procedures using appropriate tools.
8. Explain the differences among basic OS security settings.
9. Explain the basics of client-side virtualization.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2256 4.0 * B E L

Goal. Explain security.

Requirement. Without the aid of references, perform the following:

1. Apply and use common prevention methods.
2. Explain the implementation of security best practices to secure a workstation.
3. Given a scenario, use the appropriate data destruction/disposal method.
4. Given a scenario, secure a SOHO wireless network.
5. Given a scenario, secure a SOHO wired network.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2257 4.0 * B E L

Goal. Explain Mobile Devices.

Requirement. Without the aid of references, perform the following:

1. Explain the basic features of mobile operating systems.
2. Establish basic network connectivity and configure email.
3. Compare methods for securing mobile devices.
4. Compare hardware differences in regards to tablets and laptops.
5. Execute and configure mobile device synchronization.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2258 4.0 * B E L

Goal. Explain Troubleshooting.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, explain the troubleshooting theory.
2. Given a scenario, troubleshoot common problems related to motherboards, RAM, CPU and power with appropriate tools.
3. Given a scenario, troubleshoot hard drives and RAID arrays with appropriate tools.
4. Given a scenario, troubleshoot common video and display issues.
5. Given a scenario, troubleshoot wired and wireless networks with appropriate tools.
6. Given a scenario, troubleshoot operating system problems with appropriate tools.
7. Given a scenario, troubleshoot common security issues with appropriate tools and best practices.
8. Given a scenario, troubleshoot, and repair common laptop issues while adhering to the appropriate procedures.
9. Given a scenario, troubleshoot printers with appropriate tools.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

5.10.9 INFORMATION ASSURANCE WORK FORCE NETWORK+ TECHNICIAN (IAWFNT) STAGE

5.10.9.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

5.10.9.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFNT-2259 4.0 * B E L

Goal. Explain Networking Concepts.

Requirement. Without the aid of references, perform the following:

1. Compare the layers of the OSI and TCP/IP models.
2. Classify how applications, devices, and protocols relate to the OSI model layers.
3. Explain the purpose and properties of IP addressing.
4. Explain the purpose and properties of routing and switching.
5. Identify common TCP and UDP default ports.
6. Explain the function of common networking protocols.
7. Summarize DNS concepts and its components.
8. Given a scenario, implement the following network troubleshooting methodology.
9. Identify virtual network components.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2260 4.0 * B E L

Goal. Explain Network Installation and Configuration.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, install and configure routers and switches.
2. Given a scenario, install and configure a wireless network.
3. Explain the purpose and properties of DHCP.
4. Given a scenario, troubleshoot common wireless problems.
5. Given a scenario, troubleshoot common router and switch problems.
6. Given a set of requirements, plan and implement a basic SOHO network.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2261 4.0 * B E L

Goal. Explain Network Media and Topologies.

Requirement. Without the aid of references, perform the following:

1. Categorize standard media types and associated properties.
2. Categorize standard connector types based on network media.
3. Compare different wireless standards.
4. Categorize WAN technology types and properties.
5. Describe different network topologies.
6. Given a scenario, troubleshoot common physical connectivity problems.
7. Compare different LAN technologies.
8. Identify components of wiring distribution.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2262 4.0 * B E L

Goal. Explain Network Management.

Requirement. Without the aid of references, perform the following:

1. Explain the purpose and features of various network appliances.
2. Given a scenario, use appropriate hardware tools to troubleshoot connectivity issues.
3. Given a scenario, use appropriate software tools to troubleshoot connectivity issues.
4. Given a scenario, use the appropriate network monitoring resource to analyze traffic.
5. Explain the purpose of configuration management documentation.
6. Explain different methods and rationales for network performance optimization.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2263 4.0 * B E L

Goal. Explain Network Security.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, implement appropriate wireless security measures.
2. Explain the methods of network access security.
3. Explain methods of user authentication.
4. Explain common threats, vulnerabilities, and mitigation techniques.
5. Given a scenario, install and configure a basic firewall.
6. Categorize different types of network security appliances and methods.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2266 4.0 * B E L

Goal. Explain threats and vulnerabilities.

Requirement. Without the aid of reference, perform the following:

1. Explain the types of malware.
2. Explain types of attacks.
3. Explain types of social engineering attacks.
4. Explain types of wireless attacks.
5. Explain types of application attacks.
6. Explain types of mitigation and deterrent techniques.
7. Explain assessment tools and techniques to discover security threats and vulnerabilities.
8. Within the realm of vulnerability assessments, explain the proper use of penetration testing versus vulnerability scanning.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2267 4.0 * B E L

Goal. Explain cryptography.

Requirement. Without the aid of reference, perform the following:

1. Summarize general cryptography concepts.
2. Explain the appropriate cryptographic tools and products.
3. Explain the core concepts of public key infrastructure.
4. Explain the Implementation of PKI, certificate management and associated components.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2268 4.0 * B E L

Goal. Explain access control and identity management.

Requirement. Without the aid of reference, perform the following:

1. Explain the function and purpose of authentication services.
2. Explain the fundamental concepts and best practices related to authentication, authorization and access control.
3. Explain the Implementation of appropriate security controls when performing account management.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2269 4.0 * B E L

Goal. Explain application, data and host security.

Requirement. Without the aid of reference, perform the following:

1. Explain the importance of application security.
2. Explain the appropriate procedures to establish host security.
3. Explain the importance of data security.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

5.10.11 IDENTIFICATION FRIEND OR FOE (IFF) STAGE

5.10.11.1 Purpose. To train the trainee on IFF equipment within the radars of the TAOC.

5.10.11.2 General

Prerequisites. None

Admin Notes. None

Crew Requirements. None

IFF-2350 2.0 * B L

Goal. Describe the Identification Friend or Foe (IFF) Mark XII/XIIA components.

Requirement. Given references, describe the functions of the following:

1. Interrogator Set.
2. Switching Group.
3. Mode 4 Junction Device.

Performance Standard. With the aid of reference, physically identify the above items and verbally describe the functions of each item without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 2005-XXX
2. TM-10851A-12@p/B

IFF-2351 1.0 * B,R UPX-37, radar L

Goal. Configure the Interrogator Set for operations within the radar.

Requirement. Given the references, radar, and an Interrogator Set configure the Interrogator Set for operation on a radar system.

Performance Standard. With the aid of reference, complete the requirement without error to display IFF targets on the radar display console. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10851A-12&P/B Digital Interrogator AN/UPX-37

IFF-2352 2.0 * B UPX-37, radar L/S

Goal. Perform corrective maintenance on the Interrogator Set.

Requirement. Given the references, tools, TMDE, and an Interrogator set with an actual fault (preferred) or a simulated scenario describing a fault in the Interrogator Set, and evaluator feedback, complete the following:

1. Identify the faulty module utilizing required publications, tools, Built In Test (BIT) results and TMDE as applicable.
2. Determine location of the faulty module.
3. Remove the module (live) or describe module removal (simulated).
4. Replace the module (live) or describe module replacement (simulated).
5. Verify correct operation using necessary means, tools, equipment, and BIT.

Performance Standard. With the aid of reference, complete each step listed above without error. In the case of a simulated scenario, instructor feedback is allowed in order to progress.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10851A-12&P/B Digital Interrogator AN/UPX-37
2. TM 10851A-CD Maintenance Manual w/Repair Parts

IFF-2353 2.0 * B,R UPX-37, TPS-59 L

Goal. Describe the theory of operation of Identification Friend or Foe (IFF) equipment in the LRR.

Requirement. Given the reference, conduct the following:

1. State the purpose of the Mk XIIIA IFF system.
2. Describe the theory of operation of the IFF system to the block diagram level.
3. Describe the theory of operation of Modes 1, 2, 3, C, 4 within the AN/TPS-59A(V)3.
4. Describe the IFF side lobe Suppression within the AN/TPS-59A(V)3.
 - a. Describe the relative power levels of the challenge pulses and the side lobe suppression pulse.
 - b. Explain the effect of side lobe suppression on an interrogation received outside the main lobe.

Performance Standard. With the aid of the applicable schematic or functional block diagram, pass a written examination with a minimum of 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM-10851A, (AN/UPA-61 TM)
2. AIMS MK XII IFF Handbook
3. DOD AIMS 03-1000A

IFF-2354 2.0 * B,R UPX-37, TPS-63 L

Goal. Describe the theory of operation of Identification Friend or Foe (IFF) equipment in the MRR.

Requirement. Given the reference, conduct the following:

1. State the purpose of the Mk XIIIA IFF system.
2. Describe the theory of operation of the IFF system to the block diagram level.
3. Describe the theory of operation of Modes 1, 2, 3, C, 4 within the AN/TPS-63B.
4. Describe the IFF side lobe suppression within the AN/TPS-63B.
 - a. Describe the relative power levels of the challenge pulses and the side lobe suppression pulse.
 - b. Explain the effect of side lobe suppression on an interrogation received outside the main lobe.

Performance Standard. With the aid of the applicable schematic or functional block diagram, pass a written examination with a minimum of 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM-10851A, (AN/UPA-61 TM)
2. AIMS MK XII IFF Handbook
3. DOD AIMS 03-1000A

5.10.12 RADAR (RDR) STAGE

5.10.12.1 Purpose. To train the trainee on the basic skills common to both the MRR and the LRR. These skills include training on the PARCS, paving breaker, and radar theory.

5.10.12.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

RDR-2360 2.0 * B L

Goal. Describe the theory of operation of the Tactical Air Operations Module Interface Group (TIG).

Requirement. Given the references, complete the following:

1. Describe the functions of the following components:
 - a. TAOM Interface Unit (TIU).
 - b. Radar Electrical Optical Converter (REOC).
 - c. Voice Communication Access Unit (VCAU).
3. Describe the functions of the front panel switches and indicators on the TIG.
4. Describe the functions of the jacks on the TIU.
4. Describe the data signal flow to the block diagram level.

Performance Standard. With the aid of references, perform the requirement error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TAOM TM

RDR-2361 2.0 730 B,R,M E L

Goal. Define RF wave propagation.

Requirement. Given the reference, conduct the following:

1. Explain RF wave propagation in free space.
2. Explain the mechanics of E and H fields.
3. Explain the environmental effects on RF wave propagation.
 - a. Describe wave refraction.
 - b. Describe ducting.
 - c. Describe backscatter.
 - d. Describe the effects of solar activity, humidity, barometric pressure, and temperature on RF wave propagation.
 - e. Describe the effects of terrain on RF wave propagation.
4. Explain the effects of electromagnetic interference (EMI).

Performance Standard. Without the aid of reference, pass a written examination with a minimum of 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. The Radar Handbook, Skolnik

RDR-2362 2.0 730 B,R,M E L

Goal. Explain the theory of electronic countermeasure (ECM) and electronic counter-countermeasures (ECCM).

Requirement. Given the reference, explain the following:

1. Purpose of ECM and ECCM.
2. Effects of jamming.
3. Effects of frequency agility.
4. Effects of side lobe cancellation.
5. Effects of main lobe cancellation.
6. Effects of polarization.
7. Effects of chaff.
8. Threat of ARM.
9. Identify when to apply each ECCM feature.

Performance Standard. Without the aid of reference, pass a written

Performance Standard. Physically identify the above items and verbally describe a use for each without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Shop SOP

RDR-2365 4.0 * B L

Goal. Operate the paving breaker.

Requirement. Given a paving breaker and the reference, perform the following:

1. Identify the following controls/parts:
 - a. Handle.
 - b. Fuel tank cap.
 - c. Choke.
 - d. Air filter.
 - e. Spark plug.
 - f. Throttle.
 - g. Starting handle.
 - h. Fuel tank.
 - i. Function selector.
 - j. Tool retainer.
 - k. Stop button.
 - l. Fuel filter (some models).
2. Explain safety hazards, controls, and PPE including:
 - a. Hard hat or helmet.
 - b. Hearing protection.
 - c. Eye protection.
 - d. Gloves.
 - e. Steel toe boots.
3. Adhere to safety controls.
4. Fuel the machine.
 - a. identify the fuel:oil mixture for the breaker model used.
 - b. mix fuel and oil.
 - c. fill the fuel tank.
5. Select/insert tool.
6. Start the machine (cold).
7. Change the operation mode.
8. Stop the machine.
9. Re-start the machine (warm).
10. Stop the machine.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. ATLAS COPCO No 9852 0878 90b Motor Drills Operator's Instructions (Pionjär)
2. ATLAS COPCO No. 9800 0955 01b Safety and Operating instructions (Cobra Combi)
3. SKIDRIL Operation and Parts Manual Drill/Breaker Model 180

RDR-2366 2.0 * B _____ L

Goal. Maintain the paving breaker.

Requirement. Given the reference and a paving breaker, perform the following maintenance procedures:

1. Perform daily maintenance:
 - a. Inspect machine for damaged, loose, or leaking components.
 - b. Check the spark plug for serviceability and proper gap.
 - c. Clean the air filter and housing.
 - d. Check the chuck bushing.
2. Remove/replace the air filter.
3. Remove/replace the starter cord.
4. Drain fuel for transportation and/or storage.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. ATLAS COPCO No 9852 0878 90b Motor Drills Operator's Instructions

- (Pionjär)
2. ATLAS COPCO No. 9800 0955 01b Safety and Operating instructions
(Cobra Combi)
3. SKIDRIL Operation and Parts Manual Drill/Breaker Model 180

RDR-2367 2.0 * B L

Goal. Repair cables.

Requirement. Given references, connector instructions, required materials and tools complete the following:

1. Replace the connector on a Semi rigid coaxial cable.
2. Replace the connector on a coaxial cable.
3. Repair 5 pins on a multi pin connector.
4. Replace RJ-45 connector.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Applicable technical manuals
2. TM-07736C-14/1-1

RDR-2368 2.0 * B PARCS-2000 L

Goal. Integrate the Portable Autonomous Report Collection System (PARCS) into a radar system for track/data verification.

Requirement. Given a radar system, a TAOM Interface Unit (TIU), a PARCS and applicable references, perform the following:

1. Install the PARCS into the radar system.
2. Configure the PARCS.
3. Verify the data transferring from the radar to the TIU.
4. Perform data recording.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. PARCS user's manual

5.10.13 LONG RANGE RADAR (LRR) STAGE

5.10.13.1 Purpose. To train the trainee on the basic skills necessary to safely embark, setup, operate, maintain, and integration of the AN/TPS-59A(V)3 Radar system with the AN/UPX-37 Digital Interrogator with a C2 node within the MACS.

5.10.13.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

LRR-2480 2.0 * B L

Goal. Identify hazards specific to the LRR.

Requirement. Given the references and a de-energized LRR, identify the following hazards:

1. Electrical Hazards.
 - a. Power Distribution Box (PDB).
 - b. Unit 1.
 - c. Unit 2.
 - d. Unit 19.
2. Radio Frequency hazards.
 - a. Hazards of Electromagnetic Radiation to Personnel (HERP).
 - b. Hazards of Electromagnetic Radiation to Ordinance (HERO).
 - c. Hazards of Electromagnetic Radiation to Fuel (HERF).
 - d. Electromagnetic Interference from adjacent emitters.
3. Mechanical hazards.
 - a. Azimuth drive motor.
 - b. Elevation motor.
 - c. Maintenance Lift.
 - d. Ball Screws.
 - e. Array pedestal.

Performance Standard. Without the aid of references, physically identify electrical and mechanical hazard areas and verbally identify RF hazards to include Safe Separation Distances without error. Minor

errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3
2. NAVSEA OP 3565/NAVAIR 16-1-529 VOL 1
3. NAVSEA OP 3565/NAVAIR 16-1-529 VOL 2
4. NAVSEA OP 3565/NAVAIR 16-1-529 VOL 3

LRR-2481 2.0 * B L

Goal. Verify system performance of the LRR.

Requirement. Given the results of PMFL tests, determine possible corrective actions for the below tests:

1. Platform Status Test.
2. Row Status.
3. Frequency Measurement Test.
4. Row Tests.

Performance Standard. With the aid of references, complete the requirements without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2482 2.0 365 B,R,M L

Goal. Identify LRR embarkation considerations.

Requirement. Given the reference, identify the following considerations for embarkation of the LRR:

1. Possible forms of transportation:

- a. Air.
- b. Sea.
- c. Land
2. Heavy equipment requirements for loading/unloading.
 - a. Crane
 - b. Forklift
3. Loading considerations:
 - a. Equipment specifications.
 - b. Prime mover specifications.
 - c. Dunnage.

Performance Standard. Without the aid of references, pass a written exam with a minimum of 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2483 8.0 730 B,R,M L

Goal. Assemble the LRR.

Requirement. As a member of a crew, given the reference, required tools, and an LRR emplaced per the reference, complete the following steps:

1. Assemble the Antenna-Transmitter Group.
 - a. Couple the trailers.
 - b. Remove the tarpaulins.
 - c. Remove components.
 - d. Emplace jack pads.
 - e. Perform initial leveling.
 - f. Place ground anchors.
2. Assemble the array.
 - a. Prepare lower array.
 - b. Prepare upper array.
 - c. Couple lower array.
 - d. Couple upper array.
 - e. Finalize array assembly.
 - (1) Install the wings.
 - (2) Install the IFF antenna.
 - (3) Install the auxiliary sub-arrays.
 - (4) Install warning light and lightning rods.
 - (5) Install back stays.
 - (6) Connect jumper.
 - (7) Raise the array.

- (8) Complete array assembly.
- (9) Stow tools and components.
3. Install maintenance platform.
4. Install air conditioners.
5. Cable system.
6. Ground system.
7. Test earth-ground conductivity.
8. Perform initial power energizing procedure.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. Must be able to verbally state the sequence of events involved in the assembly portion.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2484 2.0 730 B,R,M L

Goal. Operate the Antenna Electronics Test Unit (AETU) of the LRR.

Requirement. Given the reference, TMDE, tools, an AETU, a row power supply, row transmitter, and row receiver, perform the following:

1. Row power supply test.
2. Row transmitter test.
3. Row receiver test.
4. Auxiliary receiver test.

Performance Standard. With the aid of the reference, perform the requirement and state the test results. Perform the requirement to a proficient level. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2485 2.0 * B _____ L

Goal. Perform row transmitter power module performance test.

Requirement. Given the reference, an operational LRR and a power module test set, perform a row transmitter power module performance test.

Performance Standard. With the aid of the reference, perform the requirement and state the results. Perform the requirement to a proficient level. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2486 2.0 * B _____ L

Goal. Conduct preventive maintenance on the LRR.

Requirement. Given the references, an operational LRR, tools, the required TMDE, required materials, and as part of a crew complete the following:

1. Locate scheduled maintenance action index table for Unit 1.
2. Perform the scheduled PM's for Unit 1.
3. Locate scheduled maintenance action index table for Unit 2.
4. Perform the scheduled PM's for Unit 2.
5. document as required.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2487 2.0 730 B,R,M L

Goal. Describe the transmit path of the LRR.

Requirement. Given the reference complete the following:

1. Describe creation of the Linear Frequency Modulation (LFM).
2. Trace the transmit signal from creation to emission.
3. Utilizing the reference, describe what occurs within each block in regards to the transmit signal.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2488 2.0 730 B,R,M L

Goal. Describe the receive path of the LRR.

Requirement. Given the reference complete the following:

1. Describe creation of the four receive signals.
2. Trace the receive signals from the row feed to the signal processor/data processor (SPDP).
3. Utilizing the reference, describe what occurs within each block in regards to the receive signal.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2489 4.0 * B L/S

Goal. Perform corrective maintenance on the AC and DC Power Distribution subsystem of the LRR.

Requirement. Given the references, tools, TMDE, a LRR with a fault (live preferred) or a simulated scenario describing a fault in this subsystem and evaluator feedback, complete the following:

1. Identify the fault utilizing required publications, tools, and TMDE.
2. Locate the faulted component.
3. Remove the faulty component (live) or describe component removal (simulated).
4. Install the replacement component (live) or describe component replacement (simulated).
5. Verify correct operation utilizing necessary means, tools, and equipment.
6. Document as required.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. In the case of a simulated scenario, instructor feedback is allowed in order to progress.

Instructor. BI, SI

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2496 4.0 * B L/S

Goal. Perform corrective maintenance on the IFF subsystem of the LRR.

Requirement. Given the references, perform the following:

1. Identify the fault utilizing required publications, tools, and TMDE.
2. Locate the faulted component.
3. Remove the faulty component (live) or describe component removal (simulated).
4. Install the replacement component (live) or describe component replacement (simulated).
5. Verify correct operation utilizing necessary means, tools, and equipment.
6. Document as required.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. In the case of a simulated scenario, instructor feedback is allowed in order to progress.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2497 4.0 * B L/S

Goal. Perform corrective maintenance on the LRR equipment trailers.

Requirement. Given the reference, a LRR radar system with a fault (preferred) in the pneumatic or hydraulic systems of the equipment trailers or simulated fault scenario, tools, and TMDE, complete the following:

1. Identify the fault using technical manuals, tools, and TMDE.
2. Locate the faulted component.
3. Remove the faulted component (live) or describe removal of the faulted component (simulated).
4. Replace the faulted component (live) or describe replacement of the faulted component (simulated).
5. Verify correct operation of the replaced component using technical manuals, tools, and TMDE.
6. Document as required.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. In the case of a simulated scenario, instructor feedback is allowed in order to progress.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2498 2.0 * B _____ L

Goal. Verify the operation of a circuit card using the Printed Circuit Board Tester.

Requirement. Given a circuit card, a Printed Circuit Board Tester and applicable reference, perform the following:

1. State the purpose of the Printed Circuit Board Tester.
2. Set up test for appropriate circuit card.
3. Perform test on circuit card.
4. State whether the card is operational or faulty.
5. State which component or group of components are suspected IAW the test procedures.
6. Document as required.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful

execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

LRR-2499 2.0 * B L/S

Goal. Perform corrective maintenance on the AN/UPA-61 RF switching group.

Requirement. Given the reference, an AN/UPA-61 RF switching group with an actual fault (live preferred) or simulated fault scenario, tools, and TMDE perform the following:

1. Identify the fault utilizing required technical manuals, tools and TMDE.
2. Locate the faulted component.
3. Remove the faulted component (live) or describe removal of the faulted component (simulated).
4. Replace the faulted component (live) or describe replacement of the faulted component (simulated).
5. Verify correct operation of the replaced component utilizing necessary technical manuals, tools, and TMDE.
6. Document as required.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. In the case of a simulated scenario, instructor feedback is allowed in order to progress.

1. System and Network administration guide TM-07751C

LRR-2502 4.0 * B Radar, C2 node L

Goal. Verify connection between the LRR and a C2 node.

Requirement. Given the references, a LRR connected to a C2 node, and all required equipment, perform the following:

1. State the data that travels through the interface from the radar to the C2 node.
2. Perform interface checks.
 - a. PARCS (V)2.
 - b. Detection Performance menu within PMFL.
3. Verify system performance indicator is illuminated.

Performance Standard. With the aid of reference, perform the requirement to a proficient level. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. 5979 crew with C2 node.

Reference.

1. TAOC radar system interface specification
2. PARCS User's Manual

LRR-2503 2.0 730 B,R,M L

Goal. Verify radar performance utilizing PMFL and Tables menus of the LRR.

Requirement. Given a LRR complete the following:

1. Describe the data contained within each of the PMFL and Tables submenus.
2. Evaluate the data contained within each of the following PMFL

- and Tables submenus:
- a. Align & row tests.
 - b. Flag data.
 - c. Fault tests.
 - d. Fault test results.
 - e. Gain data.
 - f. Receiver performance.
 - g. System performance.
 - h. Detection performance.
 - i. Signal processor performance.
 - j. Noise measurement.
 - k. Frequency status.

Performance Standard. With the aid of reference, perform the requirement to a proficient level. Minor errors corrected by the trainee are acceptable.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-2511 2.0 * B L

Goal. Operate the Global Positioning System (GPS) within the LRR.

Requirement. Given the reference, an operational LRR, and a GPS, program the GPS for operation within Unit 2.

Performance Standard. With the aid of references, complete the requirements without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. System software configuration document (SSCD)

LRR-2512 8.0 730 B,R,M L

Goal. Prepare the LRR Radar for relocation.

Requirement. As a member of a radar crew, given a LRR system and the reference, complete the following steps:

1. Deenergize the radar set.
2. Lower the antenna array.
3. Disassemble the IFF antenna.
4. Disassemble the array.
5. Decouple the array.
6. Load the arrays.
7. Finalize disassembly and storage.
8. Decouple the trailers.

Performance Standard. With the aid of reference, perform the requirement to a proficient level. Minor errors corrected by the trainee are acceptable. Must be able to verbally state the sequence of events involved in the disassembly portion.

Instructor. BI, SI

5.10.14 MEDIUM RANGE RADAR (MRR) STAGE

5.10.14.1 Purpose. To train the trainee on the basic skills necessary to safely embark, setup, operate, maintain, and integration of the AN/TPS-63B Radar system with the AN/UPX-37 Digital Interrogator with a C2 node within the MACS.

5.10.14.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

MRR-2540 2.0 * B L

Goal. Identify hazards specific to the MRR.

Requirement. Given the references and a de-energized MRR, identify the following hazards:

1. Mechanical Hazards.
 - a. Antenna rotation.
 - b. Fan assemblies.
 - c. Drive motor.
2. Electrical Hazards.
 - a. Behind the power distribution panel.
 - b. The lower cabinet of the TWT.
 - c. The lower cabinet of the CFA.
 - d. The grid pulser.
 - e. The portion of chassis above the HV standoffs.
 - f. The upper cabinet of the TWT.
 - g. The upper cabinet of the CFA.
2. Radio Frequency hazards.
 - a. Hazards of Electromagnetic Radiation to Personnel (HERP).
 - b. Hazards of Electromagnetic Radiation to Ordnance (HERO).
 - c. Hazards of Electromagnetic Radiation to Fuel (HERF).
 - d. Electromagnetic Interference from adjacent emitters.

Performance Standard. Without the aid of references, physically identify electrical and mechanical hazard areas and verbally identify RF hazards to include Safe Separation Distances without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

MRR-2541 2.0 365 B,R,M L

Goal. Configure the MRR for an operational environment.

Requirement. Given the reference, operational scenario, and an operational MRR, configure the system for an operational environment by completing the following:

1. Radar Frequency.
2. Radar transmit pulse width.
3. Staggered PRF sector.
4. MTI.
5. Physical Data.
6. External Alignment.
7. IFF Control.
8. Pedestal Level.
9. North Alignment.
10. Weather Sectors.
11. Blanking Sectors.
12. Radar Control.
13. Scan Rate.
14. Document as required.

Performance Standard. With the aid of references, complete the requirements without error. Minor errors corrected by the trainee are acceptable.

1. TM 07736C-14/7

MRR-2543 2.0 * B L

Goal. Operate the AN/UYQ-509 Scope.

Requirement. Given the reference, provided a MRR in operate mode, and with an AN/UYQ-509, complete the following:

1. Display radar and IFF video on the scope.
2. Determine the range between two targets using the cursor.
3. Offset the center of the display.
4. Zoom into a selected target to a range scale of 20 miles.
5. Determine the IFF codes for a target.
6. Input information in order to display geographical location.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Goal. Describe the operation of the Synchronizer in the MRR.

Requirement. Given the reference complete the following:

1. Describe the purpose of the synchronizer.
2. Describe the following functions:
 - a. Clock generation.
 - b. PRI generation.
 - c. Triggers/enable gates.
 - d. RF control.
 - e. Built in test equipment (BITE).

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Reference.

1. TM 07736C-14/2-1 RADAR SET, AN/TPS-63

MRR-2549 2.0 730 B,R,M L

Goal. Operate the MRR system.

Requirement. Given an energized MRR and the references, complete the following steps:

1. Configure radar for operational environment.
2. Bring to an operational state.
3. Verify proper radar performance characteristics.
 - a. Fault lights on Multi-Level Power supply.
 - b. All Test points on Performance Fault Isolation (PFI) panel.
 - c. Meters and test points on Frequency Generator.
 - d. Radar Control Panel indicators.
 - e. Calibrate meters as required, test points, fault indicators on the transmitter Cabinets.
 - f. Calibrate meters as required, test points, fault indicators on Receiver.
4. Verify external interface.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

5. TM 07736C-14/3 Radar Set AN/TPS-63 Operation Instructions

MRR-2550 2.0 * B L

Goal. Familiarization with MRR embarkation considerations.

Requirement. Given the reference, identify the following considerations for embarkation of the MRR:

1. Possible forms of transportation:
 - a. Air.
 - b. Sea.
 - c. Land.
2. Heavy equipment requirements for loading/unloading.
 - a. Crane
 - b. Forklift
3. Loading considerations:

- a. Equipment specifications.
- b. Prime mover specifications.

Performance Standard. Without the aid of references, pass an exam with a minimum of minimum of 80% accuracy.

Instructor. BI, SI

MRR-2557 2.0 * B L/S

Goal. Perform corrective maintenance on the Transmitter Control subsystem in the MRR.

Requirement. Given the references, tools, TMDE, an operational MRR with a fault (live preferred) or a simulated scenario describing a fault in this subsystem and evaluator feedback, complete the following:

1. Identify the fault utilizing required publications, tools, and TMDE.
2. Locate the faulted component.
3. Remove the faulty component (live) or describe component removal (simulated).
4. Install the replacement component (live) or describe component replacement (simulated).
5. Verify correct operation utilizing necessary means, tools, and equipment.
6. Document as required.

Performance Standard. With the aid of references, complete each step listed above without error. In the case of a simulated scenario, instructor feedback is allowed in order to progress from step to step.

(Example: "You note the signal is bad at the test point indicated." or "You correctly replaced the component, what happens next?").

Instructor. BI, SI

Prerequisite. None.

3. TM 07736C-14/13

MRR-2558 2.0 * B L/S

Goal. Perform corrective maintenance to the TWT subsystem of the transmitter in the MRR.

Requirement. Given the references, tools, TMDE, an operational MRR with a fault in this subsystem (preferred) or a simulated scenario describing a fault in this subsystem and evaluator feedback, complete the following:

1. Identify the fault utilizing required publications, tools, and TMDE.
2. Locate the faulted component.
3. Remove the faulty component (live) or describe component removal (simulated).
4. Install the replacement component (live) or describe component replacement (simulated).
5. Verify correct operation utilizing necessary means, tools, and equipment.
6. Document as required.

Performance Standard. With the aid of references, complete each step listed above without error. In the case of a simulated scenario, instructor feedback is allowed in order to progress from step to step. (Example: "You note the signal is bad at the test point indicated." or "You correctly replaced the component, what happens next?").

MRR-2566 4.0 * B L/S

Goal. Perform corrective maintenance on the MRR digital target

extractor (DTE)/extended range processor (ERP).

Requirement. Given the reference, a MRR with an actual fault in the DTE/ERP (live preferred) or simulated fault scenario, tools and TMDE, complete the following:

1. Identify the flow of discrete signals in the DTE and ERP.
2. Display a signal from processor backplane.
3. Identify the fault utilizing technical manuals, tools, and TMDE.
4. Locate the faulted component.
5. Remove the faulted component (live) or describe removal of the faulted component (simulated).
6. Replace the faulted component (live) or describe replacement of the faulted component (simulated).
7. Verify correct operation of the replaced component utilizing technical manuals, tools, and TMDE.
8. Perform a wire wrap on the ERP/DTE processor backplane (live) or explain the procedures to perform a wire wrap (simulated).
9. Align the video/trigger driver circuit cards in the ERP.
10. Document as required.

Performance Standard. With the aid of references, complete each step listed above without error. In the case of a simulated scenario, instructor feedback is allowed in order to progress from step to step. (Example: "You note the signal is bad at the test point indicated." or "You correctly replaced the component, what happens next?").

MRR-2568 4.0 * B L

Goal. Perform corrective maintenance on an MRR radar secondary reparable item.

Requirement. Given the references, a MRR with a faulted secondary reparable item within the system, tools, and TMDE, complete the following:

1. Identify the fault utilizing technical manuals, tools, and TMDE.
2. Locate the faulted secondary reparable component.
3. Remove the faulted secondary reparable component.
4. Replace the faulted secondary reparable component.
5. Verify correct operation of the replaced secondary reparable component utilizing technical manuals, tools, the radar system and/or TMDE as needed.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

MMGT-2602 4.0 * B,R GCSS L

Goal. Reconcile Global Combat Supply System (GCSS) reports.

Requirement. Given the reports listed in item 1 below:

1. Identify the purpose of:
 - a. Maintenance Production Report (MPR).
 - b. Equipment Status Report (ESR).
 - c. Preventative Maintenance Report.
 - d. Calibrations Report.
 - e. Modification Instruction report.
 - f. Maintenance Management Report (MMR).
 - g. Loaded unit balance file (LUBF).
 - h. Due and status file (DASF).
 - i. Service Request (SR).
 - (1) Tasks.
 - (2) Notes.
 - (3) Parts Requirements.
 - j. Inspection repair tag (NAVMC 1018).
 - k. Layette bin.
 - (1) Sub-Inventory.
 - (2) Stage.
 - l. Oracle Installed Base.
 - (1) Parent/Child Relationships.
2. Identify the type of information contained in each of the forms listed above.
3. Identify the status of a parts requisition.
4. Identify proper use of UMMIPS priorities.
5. State item requisition priorities.
6. State any errors found within each of the forms listed above.
7. Reconcile all items listed above and list all errors found in each form.
8. Explain how to maintain a layette bin.

Performance Standard. With the aid of reference, verbally identify errors on reports provided and identify corrective actions to the instructor without error. Minor errors corrected by the trainee are acceptable.

Goal. Induct new equipment into service.

Requirement. Given a Material Fielding Plans (MFP) or Users Logistics Support Summary (ULSS), and applicable references, demonstrate and validate the induction of new equipment into service.

1. Review the Users Logistics Support Summary (ULSS) or Material Fielding Plan (MFP).
2. Validate new equipment is properly placed into service.
 - a. Ensure record jacket was created with proper documentation IAW the reference.
 - b. Ensure initial SL-3 was performed.
 - c. Ensure an initial LTI was performed.
 - d. Ensure induction of new equipment into calibration cycle as

required.

- e. Ensure equipment is accounted for within EKMS as required.

Performance Standard. With the aid of reference, complete the requirement without error. Minor errors corrected by the trainee are acceptable.

Goal. Phase out equipment.

Requirement. Given a Phase out Plan (POP) and applicable references, demonstrate and validate phase out of obsolete equipment, to include at minimum:

1. Review the POP and applicable references.
2. State the purpose of:
 - a. Recoverable Items Report (WIR).
 - b. WIR Online Process Handler program (WOLPH).
 - c. Material Returns (MTR) program.
3. Validate obsolete equipment was disposed of properly by ensuring the following:
 - a. Ensure a final LTI was performed.
 - b. Ensure a final SL-3 was performed.
 - c. Ensure a Recoverable Items Report (WIR) - request for disposition - was submitted using the WOLPH.
 - d. Ensure equipment was disposed of IAW instructions in Phase out plan.
 - e. Ensure the record jackets were completed and accompanied equipment.
 - f. Ensure the equipment and proper documentation was sent to Supply for turn-in.
 - g. Ensure supply received the proper documentation to remove equipment from the CMR.

Performance Standard. With the aid of reference, complete the requirement without error. Minor errors corrected by the trainee are acceptable.

MMGT-2614 1.0 * B L

Goal. Ensure equipment is inducted into maintenance cycle.

Requirement. Given an inoperative piece of equipment and references, complete the following:

1. Review service request.
2. Review Inspection Tag (NAVMC 1018).
3. Inspect equipment.
4. Forward request to next level IAW SOP.

Performance Standard. Complete the requirements with 100% accuracy.

Instructor. BI, SI

Prerequisite. 2159

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

5.10.16 OPERATIONAL MANAGEMENT (OMGT) STAGE

5.10.16.1 Purpose. To provide the trainee basic skills to be able to deploy TAOC and EW/C equipment to include training in understanding OPORDs, crew management, system configuration management, and proper emplacement procedures.

5.10.16.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

OMGT-2680 2.0 * B L

Goal. Identify the purpose of communication planning documents.

Requirement. Given the documents below, identify their purpose:

1. Guard Chart.
2. Communication Electronic Operating Instruction (CEOI).
3. Operations Order.
4. Annex K of the Operations Order.
5. Annex S of the Operations Order.
6. Site Diagram.
7. Operational Tasking Data Link (OPTASKLINK).
8. EKMS Callout.
9. Operational Tasking Cooperative Engagement Capability (OPTASKCEC).

Performance Standard. Without the aid of reference, state (verbally or written) the requirement items to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCWP 5-1
2. MCWP 3-40.3

OMGT-2681 2.0 365 B,R,M L

Goal. Determine required equipment to support a mission.

Requirement. Given a mission, a list of end items, create a list of equipment that supports all aspects and requirements of the mission, to include the following:

1. Support equipment.
2. EKMS.

3. TMDE.
4. Tools.
5. Utilities support equipment.
6. Supply support items.
7. Logistics/movement support items.
8. Personnel equipment.

Performance Standard. With the aid of reference, produce a list of equipment needed to support the mission by completing the requirement without error. Minor errors corrected by the trainee are acceptable. The instructor will confirm the list supports the mission.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

2. SECNAVINST 5510.36,
3. EKMS-1

OMGT-2682 4.0 1460 B,R,M L

Goal. Conduct communications portion of a site survey.

Requirement. Given a scenario, applicable references, a TO/E and operational tasking, determine an appropriate site for system emplacement by performing the following:

1. Utilize planning tools to determine terrain masking and line of sight connectivity.
2. Determine a primary and secondary site location.
3. Identify obstructions and hazards.
4. Determine tactical orientation and equipment emplacement.
 - a. Ensure emitters are emplaced IAW Hazardous Electronic Radiation to Fuels (HERF) regulations.
 - b. Ensure emitters are emplaced IAW Hazardous Electronic Radiation to Ordinance (HERO) regulations.
 - c. Ensure emitters are emplaced IAW Hazardous Electronic Radiation to Personnel (HERP) regulations.
 - d. Ensure emitters are emplaced to support working area.
5. Identify the placement for vehicles.
6. Identify the placement for antennas.
7. Determine communications obstacles.
8. Determine system grounding requirements.
9. Identify power and fuel requirements.
10. Determine protection from the elements.
11. Determine Terrain Masking.
12. Determine operational footprint.

13. Design a site layout and submit to the instructor.
14. Develop a brief that addresses all event requirement items.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. Brief the instructor on the considerations taken for each decision.

OMGT-2683 2.0 * B L

Goal. Identify crew requirements and write a crew schedule.

Requirement. Given operational tasking, references, section roster, and MSHARP crew report, perform the following:

1. Determine the duration of operations.
2. Determine total crews required to support the mission.
3. Determine the crew composition/requirements.
4. Write the crew schedule.
5. Submit the crew schedule to the instructor.
6. Describe the process to publish crew schedule once validated.

Performance Standard. With the aid of reference, determine crew requirements and write a crew schedule that supports the mission without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

OMGT-2684 3.0 * B L

Goal. Determine supply support requirements.

Requirement. Given the reference and a 30 day operational scenario, perform the following:

1. Determine supply needs with consideration of the following:
 - a. Location.
 - b. Equipment.
 - c. Daily operations.
 - d. Climate.
2. Identify SECREP requirements and deficiencies.
3. Identify bill of material (BOM) requirements.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

OMGT-2685 1.0 * B L

Goal. Develop an embarkation plan.

Requirement. Given the references and a 30 day operational scenario, perform the following:

1. State the purpose of an embarkation plan.

2. Produce an equipment density list (EDL).
3. Produce Logistics documents as required.
4. Identify heavy equipment required to move EDL items.
5. Identify the modes of transportation required to move EDL items.

Performance Standard. With the aid of reference, complete the requirement and develop an embarkation plan to support the scenario. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

5.11 MISSION SKILL TRAINING (3000)

5.11.1 Purpose. To provide the requisite advanced skills and working knowledge to employ the MACCS and ancillary equipment in order to accomplish the Marine Air Support Squadron missions.

5.11.2 General.

5.11.2.1 Prerequisite.

5.11.2.2 Admin Notes.

(1) Training in this phase does not preclude simultaneous training in Core Skill and Core Plus phases.

(2) Individual core skills are learned and mastered using a varied combination of written exams, scenarios and practical demonstrations of proficiency.

(3) If crew members are required to assist in the conduct of an event, the crew shall be core capable in the role they will play, as applicable. Training will be executed as individual training with appropriate assistance at the crew level as needed and as dictated by the conditions listed for each event. Crew member assistance must be restricted to those actions required to support or facilitate individual training so as not to detract from the individual properly demonstrating the event performance standard.

(4) Academic Training. Academic training will be conducted prior to and concurrently with required events. An academic training event, once completed, can be credited as a prerequisite for follow-on training events.

(5) Refresher Training. Refresher training is required once a individual has been absent from a technician billet for 36 months or longer. Upon return, the individual will complete R-coded events in the Attain table;

else the technician will maintain proficiency by completing the R-coded events in the Maintain table.

5.11.2.3 Stages. The following stages are included in the Mission Skill Phase of training.

PAR NO.	STAGE NAME
5.11.3	INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT)
5.11.4	INFORMATION ASSURANCE WORK FORCE NETWORK+ TECHNICIAN (IAWFNT)
5.11.5	INFORMATION ASSURANCE WORK FORCE SECURITY+ TECHNICIAN (IAWFST)
5.11.6	LONG RANGE RADAR (LRR)
5.11.7	MEDIUM RANGE RADAR (MRR)
5.11.8	MAINTENANCE MANAGEMENT (MMGT)
5.11.9	OPERATIONAL MANAGEMENT (OMGT)
5.11.10	MARINE AIR CONTROL GROUP (MACG)

5.11.3 INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT) STAGE

5.11.3.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

5.11.3.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFAT-3280 5.0 1095 B,R,M E L

Goal. Explain concepts included in A+ exam 220-801.

Requirement. Without the aid of references, explain:

1. PC Hardware.
2. Networking.
3. Laptop.
5. Printers.
5. Operational Procedures.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. SI, WTI

Prerequisite. 2250, 2251, 2252, 2253, 2254

Ordnance. None.

Range. None.

External Syllabus Support. None.

5.11.5 INFORMATION ASSURANCE WORK FORCE SECURITY+ TECHNICIAN (IAWFST) STAGE

5.11.5.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

5.11.5.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFST-3283 5.0 1095 B,R,M E L

Goal. Explain concepts included in Security + exam SY0-301.

Requirement. Without the aid of reference, explain:

1. Network Security.
2. Operational Security.
3. Threats and vulnerabilities.
5. Cryptography.
5. Access control and identity management.
6. Application, data and host security.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. 2264, 2265, 2266, 2267, 2268, 2269

Ordinance. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-3515 8.0 * B _____ L

Goal. Ensure the LRR radar system is properly disassembled.

Requirement. Given the reference, an assembled LRR, a radar crew, all required tools and material, observe disassembly of the radar and verify the following steps are correctly performed:

1. Lowering antenna array.
2. Array disassembly.
3. Array decoupling.
4. Array section loading.
5. Final disassembly and stowage.
6. Trailer decoupling.
7. Cable and reel stowage.

Performance Standard. With the aid of reference, ensure the requirement items are performed within the radar disassembly process and correct any mistakes.

Instructor. SI, WTI

Prerequisite. 2480, 2512

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-3516 12.0 * B _____ L

Goal. Deploy a long range radar system ISO operations.

Requirement. Given the references, a LRR, core capable crew, operational requirement and commander's guidance, conduct the following:

1. Coordinate and supervise the preparation of embarking the radar system.
2. Coordinate the transportation of the radar system to a given site.
3. Coordinate and supervise the emplacement of the radar system.
4. Ensure the radar system is operational state in compliance with the mission.
5. Coordinate and supervise the retrograding of the radar system.

Performance Standard. With the aid of references, perform each item in the requirement without error and IAW the references.

Instructor. SI, WTI

Prerequisite. 2480, 2482, 2483, 2502, 2512

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-3517 8.0 * B L

Goal. Perform system troubleshooting on the LRR.

Requirement. Given the references, a de-energized LRR with a fault in the system, tools and TMDE, complete the following:

1. Perform operational checks and alignment of the radar system.
2. Identify symptoms of a fault within the radar system.
3. Troubleshoot fault to the lowest replaceable unit.
4. Perform corrective maintenance in order to bring the radar to an operational state.

Performance Standard. With the aid of references, perform each item in the requirement without error and IAW the references. Instructor shall ensure the fault was correctly identified to the lowest replaceable unit. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. 2480, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

LRR-3518 12.0 * B L

Goal. Plan for and coordinate efforts in deploying a long range radar system.

Requirement. Complete the following events:

1. Establish an accurate equipment density list.
2. Establish an accurate packing list.

3. Establish an accurate T/O for the radar crew.
4. Coordinate proper heavy lifting support.
5. Establish an accurate bill of materials list.
6. Coordinate COMSEC support.
7. Identify communication requirement.
8. Submit requirement for frequency request.
9. Establish an accurate float list required for deployment.
10. Identify a key contacts list for intra squadron section.
11. Identify and request fuel requirements.
12. Identify and request power requirements.
13. Coordinate with MMO for proper procurement procedures during deployment.
14. Identify and request environmental condition unit requirements.
15. Identify and request appropriate transportation requirements.
16. Identify chow and billeting requirements.
17. Obtain letter of instruction for deployment.
18. Inspect gear required on the gear list for individual Marines for deployment.
19. Familiarize the Marines with emergency action plan for deployment.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. 2480, 2482

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

Group/Squadron/Shop Standard Operating Procedures

LRR-3519 2.0 730 B,R,M L

Goal. Verify the configuration of the LRR.

Requirement. Given the reference, verify the setting input into the radar system:

Radar Frequency.

Physical Data.

Atmospheric Data.

External Alignment.

IFF Control.

SET Function Status.

Platform Level.

Mission.

Weather Sectors.

Blanking Sectors.

Radar Control.

Scan Rate.

Performance Standard. With the aid of references, complete the requirements without error. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

LRR-3521 8.0 1095 B,R,M Radar, C2 node L

Goal. Establish a remote radar link between a C2 node and an LRR system.

Requirement. Given a LRR radar system, all required communication equipment, and a C2 node complete the following:

1. Install remote radar communications equipment.
2. Configure communications equipment for remote radar data.
3. Operate remote radar communications equipment.
4. Verify that the link with the C2 node is passing data.

Performance Standard. The link must successfully transmit data to the C2 node IAW the reference.

Instructor. BI, SI

Prerequisite. 2502

Ordnance. None.

Range. None.

External Syllabus Support. 5979 crew at C2 node.

Reference.

1. TAOC pocket checklist

5.11.7 MEDIUM RANGE RADAR (MRR) STAGE

5.11.7.1 Purpose. To train the trainee on the advanced skills necessary to safely embark, setup, operate, maintain, and integration of the AN/TPS-63B Radar system with the AN/UPX-37 Digital Interrogator with a C2 node within the MACS.

MRR-3581 8.0 * B L

Goal. Ensure the proper setup the MRR.

Requirement. Given a MRR, core capable crew, a suitable site and the references, complete the following steps:

1. Prepare site.
2. Unpack the MRR.
3. Assemble the MRR antenna.
4. Connect system cabling.
5. Verify proper power input.
6. Verify installation of Environmental Control Units.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Prerequisite. 2540, 2550

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Group/Squadron/Shop Standard Operating Procedures

5.11.8 MAINTENANCE MANAGEMENT (MMGT) STAGE

5.11.8.1 Purpose. To train the trainee on the advanced skills necessary to perform as a member of a maintenance shop.

5.11.8.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

MMGT-3660 2.0 * B L

Goal. Ensure the corrective maintenance repair process is being conducted.

Requirement. With the aid of references, ensure the timely performance of all corrective maintenance actions per the references by performing

the following:

1. Verify the induction process is followed.
2. Ensure correctness of the service request and NAVMC 1018.
3. Determine availability of resources.
4. Ensure proper troubleshooting of faulty item.
5. Ensure repair parts are ordered.
6. Ensure faulty item is repaired.
7. Ensure safety measures are adhered to during repair process.
8. Ensure quality control procedures are followed.
9. Verify Modification Instruction (MI) and Technical Instruction (TI).
10. Verify proper closeout of service request.
11. Ensure equipment record is updated.

Performance Standard. With the aid of references, conduct each step of the requirement without error. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P4790.2C
2. TM-4700-15/1_

4. MCO P4400.16G
5. MCBUL 3000
6. Associated Equipment TM

MMGT-3661 2.0 1095 B,R,M L

Goal. Validate SECREP assets.

Requirement. Given a practical application scenario, applicable maintenance and supply history documents, review and provide recommendations for organizational Critical Low Density SECREP (CLD) assets and required on-hand quantities:

1. Define the purpose of the SECREP management process.
2. Define the purpose of Critical Low Density SECREP exchange process.
3. Identify the key components of the SECREP exchange process.
4. Identify the key documentation within each component of the SECREP exchange process.
5. Identify the SECREP management re-computation process.
6. Identify Low Density SECREP assets.

Performance Standard. Pass an exam with 80% accuracy.

Instructor. SI, WTI

Prerequisite. None.

Ordinance. None.

Range. None.

3. FEDLOG

MMGT-3662 2.0 * B L

Goal. Assess maintenance funding requirements.

Requirement. With the aid of references and given equipment maintenance history, projected TEEP, and anticipated maintenance shortfalls, propose funding allocations for maintenance activities.

1. Identify and prioritize funding requirements.
2. Provide a maintenance funding request based on requirements and prior year utilization.
3. Provide an anticipated maintenance funding request based on the unit's TEEP.

Performance Standard. With the aid of reference, submit a budget request with justification to the Instructor for final approval without error. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

5.11.9 OPERATIONAL MANAGEMENT (OMGT) STAGE

5.11.9.1 Purpose. To provide the trainee advanced skills to be able to deploy TAOC and EW/C equipment to include training in understanding OPORDs, crew management, system configuration management, and proper emplacement procedures.

5.11.9.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

OMGT-3710 1.0 1095 B,R,M L

Goal. Provide input to the operational plan.

Requirement. Given a simulation/operation and command guidance, provide input for the operation plan by performing the following:

1. Verify mission requirements.
2. Determine mission essential equipment.
3. Provide input for the Equipment Density List.
4. Assign maintenance personnel to meet mission requirements.
5. Verify communications plan supports mission execution.

Performance Standard. With the aid of references, complete each step listed above without error. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Operations Order
2. MCRP 5.11.1

OMGT-3711 2.0 * B L

Goal. Organize and assign crews for deployment.

Requirement. Given a scenario and references, perform the following:

1. Review an MSHARP report to determine individual Marine CMMR standing.
2. Assign maintenance personnel to crews dependent upon mission requirements. Factors include, but are not limited to:
 - Tactical licenses.
 - Active clearance.
 - Courier designations.

Performance Standard. With the aid of references, complete each step listed above without error. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCWP 3-25.5
2. Unit TO

OMGT-3714 8.0 * B L

Goal. Deploy a maintenance capability.

Requirement. Given an operational requirement and commander's guidance, conduct the following:

1. Review operational requirements and develop an EDL.
2. Coordinate for support equipment as required.
3. Verify and complete Bill of Materials.
4. Establish float requirements as required.
5. Supervise pack-up of equipment and validate EDL accuracy.
6. Ensure correct execution of the load plan for equipment handling and safety.
7. Ensure maintenance crews are formed and prepared for deployment.

Performance Standard. With the aid of references, complete each step listed above without error. Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. None.

Ordinance. None.

1. MCO 3120.6_
2. Applicable TMs/UMs

OMGT-3715 8.0 * B L

Goal. Prepare system for embark.

Requirement. Given an Equipment Density List (EDL) that supports the mission, prepare system for embark/retrograde:

1. Conduct proper system power down/teardown.
2. Layout and conduct an SL-3 inventory of the equipment.
3. Conduct Limited Technical Inspections on listed equipment.
4. Pack and secure equipment.
5. Create a packing list.
6. Placard/label the shelters for embark.

Performance Standard. With the aid of reference, complete the requirement items without error. Minor errors corrected by the trainee are acceptable.

5.12 CORE PLUS TRAINING (4000)

5.12.1 Purpose. To provide Core Skill Plus training. A certain number of Core Skill Plus qualified Marines must be maintained to accomplish special missions or tasks, to include supervision and training of a core competent crew. The Marine is exposed to advanced MACCS integration and employment of the TAOC or EW/C within a joint environment.

5.12.2 General.

5.12.2.1 Prerequisiste. 2150, 2151, 2153, 2170, 2174, 2176, 2190, 2191, 2230, 2350, 2351, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2497, 2500, 2508, 2509, 2510, 2511, 2512, 3715, 6102, 8000, 8001, 8002, 8003, 8004, 8005, 8006, 8007, 8008

5.12.2.2 Admin Notes. The following information is provided to guide the Marine in the training of this Phase:

(1) Training in this phase does not preclude simultaneous training in the Mission Skill and Core Skill Advanced phases.

(2) Individual Core Skills are learned and mastered using a varied combination of written exams, scenarios and practical demonstrations of proficiency.

(3) If crew members are required to assist in the conduct of an event, the crew shall be core capable in the role they will play, as applicable. Training will be executed as individual training with appropriate assistance at the crew level as needed and as dictated by the conditions listed for each event. Crewmember assistance must be restricted to those actions required to support or facilitate individual training so as

not to detract from the individual properly demonstrating the event performance standard.

5.12.2.3 Stages. The following stages are included in the Core Plus Skill Introduction Phase of training.

PAR NO.	STAGE NAME
5.12.3	LONG RANGE RADAR (LRR)
5.12.4	MEDIUM RANGE RADAR (MRR)

5.12.3 LONG RANGE RADAR (LRR) STAGE

5.12.3.1 Purpose. To train the trainee on the skills necessary to operate, maintain, and intergrate the AN/TPS-59 Radar system with a Radar Environment Simulator (RES) within the MACS.

5.12.3.2 General

Prerequisite. None.

Admin Notes. None.

Crew Requirements. Core capable TPS-59 crew.

LRR-4520 8.0 * B L

Goal. Install and operate the Radar Environment Simulator (RES).

Requirement. Given the reference, a RES, and an AN/TPS-59 radar and all required tools and TMDE, perform the following:

1. Install the RES.
2. Run a RES scenario.

Performance Standard. With the aid of reference, correctly install the RES and display the scenario on the AN/TPS-59 display, IAW the reference without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM-07751B-14/1
2. RES Manual

5.12.4 MEDIUM RANGE RADAR (MRR) STAGE

5.12.3.1 Purpose. To train the trainee on the skills necessary to operate, maintain, and intergrate the AN/TPS-63B Radar system with a C2 node (remote radar) within the MACS.

5.12.3.2 General

Prerequisite. None.

Admin Notes. None.

Crew Requirements. Core capable TPS-63 crew.

MRR-4590 8.0 * B L

Goal. Establish a remote radar link between a C2 node and a MRR system.

Requirement. Given an radar system, all required communication equipment, and a C2 node complete the following:

1. Install remote radar communications equipment.
2. Configure communications equipment for remote radar data.
3. Operate remote radar communications equipment.
4. Verify that the link with the C2 node is passing data.

Performance Standard. With the aid of reference, perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2150, 2151, 2153, 2170, 2174, 2176, 2190, 2191, 2230, 2350, 2351, 2363, 2364, 2365, 2366, 2367, 2368, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2497, 2500, 2508, 2509, 2510, 2511, 2512, 3715, 6102, 8000, 8001, 8002, 8003, 8004, 8005, 8006, 8007, 8008

5.13 INSTRUCTOR UNDER TRAINING (IUT) (5000)

5.13.1 Purpose. To provide technicians the additional skills necessary to instruct, evaluate and approve event completions. Upon completion of the

required training, an individual may be approved for instructor designation by the commanding officer.

5.13.2 General.

5.13.2.1 Prerequisiste. None

5.13.2.2 Admin Notes.

a. The MACCS instructor concept is a means to standardize all instructors across the MACCS in regards to the concepts of managing a WTTP, properly conducting training, performing evaluations, and recommending training plans.

b. There are different instructor designations (listed below). The intent is to train individuals with different levels and areas of experience to instruct personnel. Instructor experience is also gained while progressing through the different instructor designations.

(1) Basic Instructor (BI)

(2) Senior Instructor (SI)

(3) The MAWTS-1 C3 Course catalog contains the training requirements for the above listed instructors. The catalog is located at the MAWTS-1 website, <https://vcepub.tecom.usmc.mil/sites/msc/magtftc/mawts1/departments1/newc3/default.aspx>.

(4) The table below outlines the events that each instructor can train, evaluate, and approve or recommend for approval.

INSTRUCTOR	Event Training, Evaluation and Approval
BI	Core Skill events in which current and proficient.
SI	Core Skill, Mission Skill, and Core Plus events in which current and proficient.

5.13.2.3 Stages. The following stages are included in the Instructor Under Training Skill Phase of training.

PAR NO.	STAGE NAME
5.13.3	INSTRUCTOR UNDER TRAINING (IUT)

5.13.3 INSTRUCTOR UNDER TRAINING (IUT) STAGE

5.13.3.1 Purpose. To train Aviation Communication System Technicians in the fundamentals of instructing and training processes.

5.13.3.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

T&R CODE	EVENT DESCRIPTION	INSTRUCTOR
5000	Introduce principles of instruction	BI
5010	Understand the structure of an event	BI
5020	Conduct a period of instruction on a core skill event	BI
5100	Understand the Aviation Training and Readiness (T&R) Program	SI
5110	Understand the applicable community T&R program	SI
5120	Understand T&R administration	SI
5130	Develop a training plan	SI

5.14 REQUIREMENTS, CERTIFICATIONS, QUALIFICATIONS, AND DESIGNATIONS (RCQD) (6000)

5.14.1 Purpose. This phase provides community standardization for technician qualifications and designations; combat leaders and instructor designations; and tracking of collateral duties (CD) assignments,. This syllabus does not contain "one time" certification training requirements.

5.14.2 General.

5.14.2.1 Prerequisiste. None

5.14.2.2 Admin Notes.

(1) This section enables units to document and track combat leaders, instructors, technician and CD assignments. All syllabus training and administration requirements must be complete prior to being qualified or designated. A qualification or designation is not effective until all administration is completed.

(2) Only once an individual is qualified or designated in writing, the signed letter is filed in the IPR, and all administrative actions are completed, and the event code has been logged in M-SHARP shall the qualification or designation be effective.

5.14.2.3 Stages. The following stages are included in the Instructor Under Training Skill Phase of training.

PAR NO.	STAGE NAME
5.14.3	QUALIFICATION (QUAL)
5.14.4	CERTIFICATIONS (CERT)
5.14.5	DESIGNATION (DESG)
5.14.6	SCHOOL CODES (SCHL)

5.14.3 QUALIFICATIONS (QUAL) STAGE

5.14.3.1 Purpose. To provide for basic and advanced technician qualifications.

5.14.3.2 General

Prerequisite. Refer to the Core Skill and Mission Skill phases for qualification events.

Admin Notes. Policies and rules for attaining and maintaining qualifications are detailed in the Aviation T&R Program Manual and this Manual.

5.15 MISSION ESSENTIAL TASK (MET) PHASE (7000)

5.15.1 Purpose. This phase takes CMMR proficient Marines from multiple PMOS, puts them in CMMR representative crews, and trains them as combat effective teams in combined events.

5.15.2 General

5.15.2.1 Prerequisite. Marines must either be CMMR crew position or non-aviation PMOS proficient to train in this phase. For those events requiring combat leaders, only Marines currently designated as such can train in this phase.

5.15.2.2 Admin Notes. Prerequisites for this phase of training cannot be waived. Multiple events can be trained at the same time as long as separate evaluations are being conducted.

5.15.2.3 Stages. The following stages are included in the Mission Essential Task (MET) Phase of training.

PAR NO.	STAGE NAME
5.15.3	CONDITION (COND)

5.15.3 CONDITION (COND) STAGE

5.15.3.1 Purpose. To train unit level teams in executing community specific MET(s) or MET preparatory events.

5.15.3.2 General

Prerequisite. If an event requires prerequisites in addition to those listed for the MET Phase, they will be covered in the individual event.

Admin Notes. All events in this stage will require the following administrative/operational documents to be identified or created:

1. Letter Of Intent (LOI)
2. Personnel Roster
3. Bill Of Material (BOM)
5. Equipment Density List (EDL)

Crew Requirements. This stage requires that all crew members and combat leaders be qualified/designated and proficient (current) in the

position they are assigned for the following events. Crews shall be task organized to meet the mission.

COND-7500 50.0 365 B,R,M C2 System L/S

Goal. Employ a TAOC.

Requirement. Given the references, a Table of Equipment (T/E) and/or Equipment Density List (EDL), Commander's guidance, and an operation plan's initiating order, employ a TAOC to include the following:

1. Conduct Mission Analysis
2. Review Operational Planning Documents
3. Identify required support personnel
5. Identify equipment requirements
5. Conduct an RSOP
6. Identify, create, and finalize administrative documents supporting the operation
7. Coordinate with external agencies
8. Conduct embarkation, and retrograde of personnel and equipment
9. Maintain accountability of personnel
10. Conduct TAOC operations
11. Conduct crew evaluations
12. Compile After-Action items

Performance Standard. Perform the requirement items listed and conduct TAOC operations during a real world operation or training simulation.

Instructor. WTI

Prerequisite. Minimum of two CMMR TAOC Crews

Ordnance. None.

Range. Range space capable of hosting itinerant air traffic, combat air patrols, air-to-air refueling tracks, HVAA tracks

External Syllabus Support. TAOC Detachment Commander and representatives from the S-1, S-2, S-3, S-4, S-6. Live execution will require specific T/M/S aviation assets.

Reference.

1. U-TAOC-PCL-03862, TAOC Pocket Checklist
2. MCWP 3-25.7, TAOC Handbook
3. Squadron SOP

COND-7505 10.0 365 B,R,M L/S

Goal. Conduct a Reconnaissance, Selection, and Occupation of Position (RSOP) for the TAOC.

Requirement. Given the references, a Table of Equipment (T/E) and/or Equipment Density List (EDL) and an operation plan's initiating order, conduct a RSOP for TAOC operations to include the following:

1. Conduct a Map Survey selecting primary and alternate sites
2. Identify environmental concerns that may affect TAOC communication
3. Coordinate with higher to provide TAOC requirements
5. Coordinate site security, camouflage, dispersion, and trafficability
5. Identify locations for emplacement of communications and support equipment
6. Coordinate priorities for equipment emplacement
7. Identify echelon considerations
8. Identify Advanced Party/RSOP Team
9. Occupy the site
10. Emplace the TAOC

Performance Standard. Perform the requirement items. The RSOP team will be prepared to discuss decisions/actions.

Instructor. C3 WTI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. TAOC Detachment Commander, TAOC Crew Chief, security team, Representatives from the S-2, S-4, S-6

Reference.

1. U-TAOC-PCL-03862 TAOC Pocket Checklist

3. Squadron SOP

5.16 AVIATION CAREER PROGRESSION MODEL (8000).

5.16.1 Purpose. To enhance professional understanding of Marine Aviation and the MAGTF, and to ensure individuals possess the requisite skills to fill battle command and battle staff positions in support of the ACE and the MAGTF in a joint environment. The focus of training in the Aviation Career Progression Model (ACPM) is on academic events in the following areas:

Marine Air Command and Control System (MACCS)
Aviation Ground Support
Joint Air Operations
ACE Battle Staff
MAGTF
Seabased Operations
Combatant Commander Organizations

5.16.2 General. The ACPM is intended to be an integrated series of academic events contained within each phase of training. Accordingly, ACPM academic events are like any other academic event in that they serve as pre-requisites to selected flight events or stages. Additionally, several ACPM academic events are integrated as prerequisites for flight leadership syllabi.

ACPM events may be conducted in group session with an assigned instructor teaching the period of instruction or they may be accomplished by self-paced

instruction.

MAWTS-1 is responsible for the update and validity of the ACPM periods of instruction. In the future, courses may be consolidated or revised to meet changing requirements. Refer to the MAWTS-1 ACPM link for the current ACPM program of instruction:

<https://vcepub.tecom.usmc.mil/sites/msc/magtftc/mawts1/Aviation%20Career%20Progression%20Model/Forms/AllItems.aspx>

Completed events shall be manually logged and tracked in M-SHARP.

ACPM academic events, along with their identifying prerequisite association with other training phases/stages/events, are listed below.

STAGE	TRNG CODE	T&R DESCRIPTION		ACAD TIME	TO BE COMPLETED DURING
ACPM	8000	MACCS		1	2000 PHASE

CHAPTER 6

DATA SYSTEMS MAINTENANCE OFFICER (MOS 5970)/INDIVIDUAL TRAINING AND READINESS REQUIREMENTS

6.0 DATA SYSTEMS MAINTENANCE OFFICER /5970 INDIVIDUAL TRAINING AND READINESS REQUIREMENTS. This T&R Syllabus is based on specific goals and performance standards designed to ensure individual proficiency in Core and Mission Skills. The goal of this chapter is to develop individual and unit warfighting capabilities.

6.1 5970 TRAINING PROGRESSION MODEL. This model represents the recommended average training progression for the Aviation Communications Systems Technician crewmember. Units should use the model as a point of departure to generate individual training plans.

* Months indicated are training months, not calendar months.

6.3 DEFINITIONS

TERM	DEFINITION
Core Model	The Core Model is the basic foundation or standardized format by which all T&Rs are constructed. The Core model provides the capability of quantifying both unit and individual training requirements and measuring readiness. This is accomplished by linking community Mission Statements, Mission Essential Task Lists, Output Standards, Core Skill Proficiency Requirements and Combat Leadership Matrices
Core Skill	Fundamental, environmental, or conditional capabilities required to perform basic functions. These basic functions serve as tactical enablers that allow crews to progress to the more complex Mission Skills. Primarily 2000 Phase events but may be introduced in the 1000 Phase.
Mission Skill	Mission Skills enable a unit to execute a specific MET. They are comprised of advanced event(s) that are focused on MET performance and draw upon the knowledge, aeronautical abilities, and situational awareness developed during Core Skill training. 3000 Phase events.
Core Plus Skill	Training events that can be theater specific or that have a low likelihood of occurrence. They may be Fundamental, environmental, or conditional capabilities required to perform basic functions. 4000 Phase events.
Core Plus Mission	Training events that can be theater specific or that have a low likelihood of occurrence. They are comprised of advanced event(s) that are focused on Core Plus MET performance and draw upon the knowledge, aeronautical abilities, and situational awareness. 4000 Phase events.
Core Skill Proficiency (CSP)	CSP is a measure of training completion for 2000 Phase events. CSP is attained by executing all events listed in the Attain Table for each Core Skill. The individual must be simultaneously proficient in all events within that Core Skill to attain CSP.
Mission Skill Proficiency (MSP)	MSP is a measure of training completion for 3000 Phase events. MSP is attained by executing all events listed in the Attain Table for each Mission Skill. The individual must be simultaneously proficient in all events within that Mission Skill to attain MSP. MSP is directly related to Training Readiness.
Core Plus Skill Proficiency (CPSP)	CPSP is a measure of training completion for 4000 Phase "Skill" events. CPSP is attained by executing all events listed in the Attain Table for each Core Plus Skill. The individual must be simultaneously proficient in all events within that Core Plus Skill to attain CPSP

Core Plus Mission Proficiency (CPMP)	CPMP is a measure of training completion for 4000 Phase "Mission" events. CPMP is attained by executing all events listed in the Attain Table for each Core Plus Mission. The individual must be simultaneously proficient in all events within that Core Plus Mission to attain CPMP
MET Phase	This Phase represents community specific unit METs. It combines CMMR crew proficient Marines, Combat Leaders, and designated non-aviation PMOS Marines into combat capable teams.

6.4 INDIVIDUAL CORE/MISSION/CORE PLUS SKILL PROFICIENCY REQUIREMENTS

6.4.1 Management of individual CSP/MSP/CPSP/CPMP serves as the foundation for developing proficiency requirements in DRRS.

6.4.2 Individual CSP is a "Yes/No" status assigned to an individual by Core Skill. When an individual attains and maintains CSP in a Core Skill, the individual counts towards CMMR Unit CSP requirements for that Core Skill.

6.4.3 Proficiency is attained by individual Core/Mission/Core Plus skill where the training events for each skill are determined by POI assignment.

6.4.4 Once proficiency has been attained by Core/Mission/Core Plus Skill (by any POI assignment) then the individual maintains proficiency by executing those events noted in the maintain table and in the "Maintain POI" column of the T&R syllabus matrix. An individual maintains proficiency by individual Core/Mission/Core Plus Skill.

Note

Individuals may be attaining proficiency in some Core/Mission/Core Plus Skills while maintaining proficiency in other Core/Mission/Core Plus Skills.

6.4.5 Once proficiency has been attained, should one lose proficiency in an event in the "Maintain POI" column, proficiency can be re-attained by demonstrating proficiency in the delinquent event. Should an individual lose proficiency in all events in the "Maintain POI" column by Core/Mission/Core Plus Skill, the individual will be assigned to the Refresher POI for that Skill. To regain proficiency for that Core/Mission/Core Plus Skill the individual must demonstrate proficiency in all R-coded events for that Skill.

Note

See Chapter 2 for amplifying information on POI updating.

6.5 REQUIREMENT, CERTIFICATION, QUALIFICATION AND DESIGNATION TABLES. The tables below delineate T&R events required to be completed to attain proficiency for select certifications, qualifications and designations. In addition to event requirements, all required stage lectures, briefs, squadron training, prerequisites, and other criteria shall be completed prior to completing final events. Certification, qualification and designation letters signed by the commanding officer shall be placed

in training Performance Records and NATOPS. See Chapter 6 of the Aviation T&R Program Manual on regaining lost qualifications.

6.7 SYLLABUS NOTES

6.7.1 Environmental Conditions Matrix

Environmental Conditions	
Code	Meaning
D	Shall be conducted during hours of daylight: (by exception - there is no use of a symbol)
N	Shall be conducted during hours of darkness, may be aided or unaided
N*	Shall be conducted during hours of darkness must be unaided
(N*)	May be conducted during hours of darkness - If conducted during hours of darkness must be unaided
(N)	May be conducted during darkness - If conducted during hours of darkness; may be aided or unaided
NS	Shall be conducted during hours of darkness - Mandatory use of Night Vision Devices
(NS)	May be conducted during darkness - If conducted during hours of darkness; must be with Night Vision Devices
Note - If the event is to be conducted in the simulator, the Instructor shall ensure the proper environmental conditions for the event.	

6.7.2 Device Matrix

DEVICE	
Symbol	Meaning
L	Event shall be conducted live (conducted in the field/garrison, during an exercise, etc). Requires live (non-simulated) execution of the event.
L/S	Event performed live preferred/simulator optional.
S/L	Event performed in simulator preferred/live optional.
G	Ground/academic training. May include Distance Learning, CBT, lectures, self paced.
CBT	Computer Based Training
LAB	Laboratory
LEC	Lecture
CP	Command Post
TEN	Tactical Environment Network. Events designated as TEN require an approved tactical environment simulation capable of introducing both semi-autonomous threats and moving models controllable from the tactical operator station.

TEN+	Enhanced Tactical Environment Network. Events designated as TEN+ require an approved tactical environment simulation and at least one additional, networked, man-in-the-loop simulator to meet the training objectives. A moving model controlled from the operator station does not satisfy the man-in-the-loop requirement.
Note - If the event is to be flown in the simulator the Simulator Instructor shall set the desired environmental conditions for the event.	

6.7.3 Program of Instruction Matrix

PROGRAM OF INSTRUCTION MATRIX		
Program of Instruction (POI)	Symbol	Aviation Ground
Basic	B	Initial MOS Training
Refresher	R	Return to community from non (MOS/Skill) associated tour
Maintain	M	All individuals who have attained CSP/MSP/CPD by initial POI assignment are re-assigned to the M POI to maintain proficiency.

6.7.4 Event Terms

EVENT TERMS	
TERM	DESCRIPTION
Discuss	An explanation of systems, procedures, or tactics during the brief, exercise, or debrief. Student is responsible for knowledge of procedures.
Demonstrate	The description and performance of a particular event by the instructor, observed by the student. The student is responsible for knowledge of the procedures prior to the demonstration of a required event.
Introduce	The instructor may demonstrate a procedure or event to a student, or may coach the student through the maneuver without demonstration. The student performs the procedures or maneuver with coaching as necessary. The student is responsible for knowledge of the procedures.
Practice	The performance of a maneuver or procedure by the student that may have been previously introduced in order to attain a specified level of performance.
Review	Demonstrated proficiency of an event by the student.
Evaluate	Any event designed to evaluate team/crew standardization that does not fit another category.
E-Coded	This term means an event evaluation form is required each time the event is logged. Requires evaluation by a certified standardization instructor (NATOPS I, WTI, INST Evaluator etc.)

6.8 ACADEMIC PHASE (0000)

6.8.1 Purpose. **RESERVED FOR FUTURE USE**

6.8.2 General

6.8.2.1 Admin Notes.

6.8.2.2 Prerequisites.

6.8.2.3 Stages.

6.9 CORE SKILL INTRODUCTION PHASE (1000)

6.9.1 Purpose. To provide entry level instruction to develop the basic skills necessary to become a MOS 5970 Data Systems Maintenance Officer. This

Ordinance. None.

Range. None.

External Syllabus Support. None.

AIRS-1002 * B E G

Goal. Conduct an inspection of maintenance functional areas.

Requirement. Given required references and a current inspection checklist, demonstrate the procedures for inspecting the following functional areas:

1. State the purpose for inspecting the functional areas.
2. Identify and review the references for each functional area and obtain applicable and current inspection lists for all.
3. Conduct an inspection of all areas to familiarize the trainee with the specifics of each.
 - a. Calibration Control Program.
 - b. Publication Control Program.
 - c. Quality Assurance Program.
 - d. Preventive Maintenance Program.
 - e. Modification Control Program.
 - f. Tool Control Program.
 - g. MIMMS.
 - h. Training Program.
 - i. Records.
 - j. Safety Program.
 - k. Corrosion Prevention and Control CPAC.
4. Explain the inspection procedures.
 - a. Schedule the inspection.
 - b. Inform functional area manager.
 - c. Turn over folders are IAW the references.
 - d. Submit an executive summary at the conclusion of the inspection.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO 4790.2_ MCO P4400.82_

- f. LM2 report.
 - g. Loaded unit balance file (LUBF).
 - h. Due and status file (DASF).
 - i. Equipment Record Order (ERO) NAVMC 10425.
 - j. Equipment Record Order Supply Listing (EROSL) NAVMC 10925.
 - k. Inspection repair tag (NAVMC 1018).
 - l. Layette bin.
2. Identify the type of information contained in each of the forms listed above.
 3. Identify the status of a parts requisition.
 4. Identify proper use of UMMIPS priorities.
 5. State item requisition priorities.
 6. State any errors found within each of the forms listed above.
 7. Reconcile all items listed above and list all errors found in each form.
 8. Explain how to maintain a layette bin.

Performance Standard. Pass an exam.

AIRS-1005 * B E G

Goal. Identify the services provided by Marine Wing Communications Squadron.

Requirement. Given the references, describe the following services:

1. Single Channel Radio Communications.
2. Wide Area Networks (WAN) / Local Area Networks (LAN) Communications.
3. Electronic Message Communications.
4. Telephone Communications.
5. Digital Backbone.
6. Communications Control.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCWP 3-40.3 MAGTF communications system
2. MCWP 3-25 Control of Aircraft and Missiles

AIRS-1006 * B E G

Goal. Identify Information Assurance requirements for tactical employment of information systems.

Requirement. Given the reference, perform the following:

1. Identify the Accreditation package requirements.
2. Explain the purpose of the Authority to Operate (ATO).
3. Explain configuration management and its relationship to IA.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. DOD Directive 5200.28
2. DOD Directive 5200.40
3. MCO P5239.1B

AIRS-1007 * B E G

Goal. Identify TAOC and EW/C communications information exchange requirements.

Requirement. Given the references, perform the following:

1. Data systems.
2. Radio systems.
3. Data link systems.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

AIRS-1011 * B E G

Goal. Identify spectrum management procedures.

Requirement. Given the references and a scenario with operational requirements, perform the following:

1. Submit frequency requirements.
 - a. Identify submission timelines.
 - b. Identify data elements (-Freq, Location, Power, Dates).
2. Submit Satellite Access requirements.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCRP 3-40
2. MCO 2400.2

AIRS-1012 * B E G

Goal. Identify the embarkation requirements for the major end items of the TACC, DASC, TAOC, and EW/C.

Requirement. Given the reference, list:

1. Hazardous Material requirements.
2. Security requirements.
3. Material Handling Equipment requirements.
4. Equipment specific transportation requirements.
5. Identify MAGTF Deployment Support System II (MDSS II) elements.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO 4030.33
2. MCRP 4-11

AIRS-1013 * B E G

Goal. Identify LAAD Communications information exchange requirements.

Requirement. Given the references, perform the following:

1. Data systems.
2. Radio systems.
3. Data link systems.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

2. MCWP 3-25.4
3. Approved Core METL applicable to the unit
4. MCBUL 3000

AIRS-1014 * B E G

Goal. Identify MATC communications information exchange requirements.

Requirement. Given the references, perform the following:

1. Data systems.
2. Radio systems.
3. Data link systems.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCRP 5-12D
2. MCWP 3-25.4
3. Approved Core METL applicable to the unit
4. MCBUL 3000

AIRS-1015 * B E G

Goal. Identify UAS Communications information exchange requirements.

Requirement. Given the references, perform the following:

1. Data systems.

2. Radio systems.
3. Data link systems.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCRP 5-12D
2. MCWP 3-25.4
3. Approved Core METL applicable to the unit
4. MCBUL 3000

AIRS-1016 * B E G

Goal. Identify the Marine Corps Urgent Needs Process (MCUNP).

Requirement. Given the references and an equipment requirement, identify the process for submission and complete the MCUNP form.

1. State the purpose of the MCUNP.
2. State the purpose of the urgent Universal Needs Statement (UNS).
3. State the purpose of the deliberate UNS.
4. Describe the process of completing an Urgent UNS form.
5. Describe the process of completing a deliberate UNS form.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. NAVMC 11475
2. MCO 3900.17

AIRS-1017 * B E G

Goal. Validate induction of new equipment into service.

Requirement. Given a Material Fielding Plans (MFP) or Users Logistics Support Summary (ULSS), and applicable references, demonstrate and

validate the induction of new equipment into service.

1. Review the Users Logistics Support Summary (ULSS) or Material Fielding Plan (MFP).
2. Validate new equipment is properly placed into service.
 - a. Ensure record jacket was created with proper documentation IAW the reference.
 - b. Ensure initial SL-3 was performed.
 - c. Ensure an initial LTI was performed.
 - d. Ensure induction of new equipment into calibration cycle a required.
 - e. Ensure equipment is accounted for within EKMS as required.
 - f. Ensure the equipment and proper documentation was sent to Supply.
 - g. Ensure supply received the proper documentation to add equipment to the CMR.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Supply Instructions (SI)
2. ULSS
3. Equipment SL-3
4. Initial Issuing Provision Inventories
5. MCO 5311.1
6. MCO P4400.82
7. UM 4400.124

AIRS-1018 * B E G

Goal. Demonstrate the process to phase out obsolete equipment.

Requirement. Given a Phase out Plan (POP) and applicable references, demonstrate and validate phase out of obsolete equipment, to include at minimum:

1. Review the POP and applicable references.
2. State the purpose of:
 - a. Recoverable Items Report (WIR).
 - b. WIR Online Process Handler program (WOLPH).
 - c. Material Returns (MTR) program.
3. Validate obsolete equipment was disposed of properly by ensuring the following:
 - a. Ensure a final LTI was performed.
 - b. Ensure a final SL-3 was performed.
 - c. Ensure a Recoverable Items Report (WIR) - request for

disposition - was submitted using the WOLPH.

d. Ensure equipment was disposed of IAW instructions in Phase out plan.

e. Ensure the record jackets were completed and accompanied equipment.

f. Ensure the equipment and proper documentation was sent to Supply for turn-in.

g. Ensure supply received the proper documentation to remove equipment from the CMR.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Supply Instructions (SI)
2. Equipment SL-3
3. Initial Issuing Provision Inventories
4. MCO 5311.1C
5. MCO P4400.82
6. UM 4400.124

AIRS-1019 * B E G

Goal. Identify maintenance funding requirements.

Requirement. Given a scenario, equipment maintenance history and anticipated maintenance shortfalls, propose funding allocations for maintenance activities to create a maintenance budget.

1. Identify and prioritize funding requirements.
2. Provide a maintenance funding request based on requirement and prior year utilization.
3. Provide an anticipated maintenance funding request based on the unit's TEEP.
4. Submit a budget request to the instructor for validation.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P4400.150_
2. MCO P7100.8_

AIRS-1020 * B E G

Goal. Identify the SECREP management process.

Requirement. Given a practical application scenario, applicable maintenance and supply history documents, review and provide recommendations for organizational Critical Low Density SECREP (CLD) assets and required on-hand quantities:

1. Define the purpose of the SECREP management process.
2. Define the purpose of Critical Low Density SECREP exchange process.
3. Identify the key components of the SECREP exchange process.
4. Identify the key documentation within each component of the SECREP exchange process.
5. Identify the SECREP management re-computation process.
6. Identify Low Density SECREP assets.

Performance Standard. Pass an exam.

Instructor. FLC instructor.

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

6.10 CORE SKILL TRAINING (2000)

6.10.1 Purpose. To develop core skill proficiency for 5910 personnel to be able to perform duties while assigned as the DMO.

6.10.2 General.

6.10.2.1 Prerequisite.

6.10.2.2 Admin Notes.

(1) Training in this phase does not preclude simultaneous training in the mission skill and core plus phases provided applicable prerequisites have been met.

(2) Individual core skills are learned and mastered using a varied combination of written exams, scenarios and practical demonstrations of proficiency.

6.10.2.3 Stages. The following stages are included in the Core Skill Introduction Phase of training.

PAR NO.	STAGE NAME
6.10.3	COMMUNICATION SECURITY (COMSEC)
6.10.4	FAMILIARIZATION (FAM)
6.10.5	INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT)
6.10.6	INFORMATION ASSURANCE WORK FORCE NETWORK+ TECHNICIAN (IAWFNT)
6.10.7	INFORMATION ASSURANCE WORK FORCE SECURITY+ TECHNICIAN (IAWFST)
6.10.8	EQUIPMENT (EQUIP)
6.10.9	MAINTENANCE MANAGEMENT (MMGT)
6.10.10	OPERATIONAL MANAGEMENT (OMGT)

6.10.3 COMMUNICATION SECURITY (COMSEC) STAGE

6.10.3.1 Purpose. To teach the trainee safe handling and storage of classified material, use of common fill devices, crew changeover procedures, and provide familiarization with the EKMS COMSEC callout. Additionally, trainee learns to identify and load CCI devices.

6.10.3.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

COMSEC-2190 2.0 365 B, R, M L

Goal. Describe proper handling and storage of classified materials.

Requirement. Perform the following:

1. State the different levels of classification.
2. State the marking requirements for each level of classification.
3. State the Two-Person Integrity (TPI) rule.
4. State storage procedures for each level of classification.
5. Identify transportation requirements for classified material.
6. State the sections of the SF-702.
7. Identify the approved security containers utilized for storage.
8. Identify the procedures for handling Controlled Cryptographic Items (CCIs).

Performance Standard. With the aid of reference, state the above requirement items without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5510.18_
2. EKMS-1_
3. SECNAVINST 5510.36
4. UNIT SOP

COMSEC-2191 2.0 365 B, R, M L

Goal. State the physical security requirements for classified areas.

Requirement. Given a tactical scenario and references, identify the following:

1. Purpose of a guard schedule.
2. Purpose of access control.
3. Purpose of the entry control point.
4. Perimeter barrier requirements.

Performance Standard. With the aid of reference, pass an exam without error.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5530.14
2. FM 5-34_

COMSEC-2192 2.0 365 B, R, M L

Goal. Create a classified area physical security diagram.

Requirement. Given a tactical scenario and references, create a diagram that includes the following:

1. Entry control point(s).
2. Perimeter barrier.
3. Communication lines.

Performance Standard. With the aid of reference, draw a diagram depicting the information listed in the requirement without error; instructor will validate that the diagram supports the scenario. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2191

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5530.14
2. FM 5-34_

COMSEC-2193 2.0 365 B, R, M L

Goal. Conduct classified material inventory.

Requirement. During a crew change over, perform the following:

1. Conduct classified material inventory.
2. Conduct EKMS inventory.
3. Destroy superseded key materials.

Performance Standard. With the aid of reference, conduct the requirements without discrepancy.

Instructor. BI, SI

Prerequisite. 2190

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1A
2. 5530

COMSEC-2194 2.0 * B, R L

Goal. Extract key material information from EKMS COMSEC callout.

Requirement. Given an EKMS COMSEC callout and references, perform the following:

1. State the purpose of the EKMS COMSEC callout.
2. Identify the five main pieces of key information:
 - a. Short Title.
 - b. Edition.
 - c. Segment.
 - d. Classification.
 - e. Supersession date.
3. Identify segment roll over dates and time.

Performance Standard. With the aid of reference, state the purpose and identify the key information on the callout without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. 2190

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1
2. MCWP 3-40.3

COMSEC-2195 2.0 365 B, R, M L

Goal. Utilize a Common Fill Device.

Requirement. Given (2) loaded common fill devices and a zeroized cryptographic device, perform the following:

1. Describe the purpose of common fill device.
2. Define the common fill device loading procedure.
3. Configure the common fill device.
4. Identify common fill device indicators and messages.
5. Transfer key material to Controlled Cryptographic Item (CCI) equipment.
6. Transfer cryptographic information from common fill device to common fill device.
7. Destroy superseded keying material within the cryptographic fill device.

Performance Standard. With the aid of reference, load keying material into appropriate COMSEC equipment using a fill device and destroy superseded keying material without error.

Instructor. BI, SI

Prerequisite. 2190

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1_

COMSEC-2196 2.0 * B L

Goal. Ensure CMCC handling procedures are followed.

Requirement. Given the references, perform the following:

1. Verify classified material is stored IAW the reference.
2. Verify SF-702s are completed IAW the reference.
3. Verify classified material is transported IAW the reference.

Performance Standard. With the aid of reference, validate classified material handling procedures are being implemented by completing the requirement items without error.

1. EKMS-1_
2. UNIT SOP

COMSEC-2200 4.0 * B L

Goal. Validate physical security of classified areas.

Requirement. Given a scenario and references, validate physical security requirements of classified areas. Validate the following:

1. Guard schedule.
2. Entry control point.
3. Access Roster.
4. Perimeter.
5. Physical security diagram.

Performance Standard. With the aid of reference, complete the requirements without error.

Instructor. BI, SI

Prerequisite. 2191, 2192

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO P5530.14
2. FM 5-34_

COMSEC-2201 4.0 * B L

Goal. Verify the proper use of a Common Fill Device.

Requirement. Given (2) loaded common fill devices and a zeroized cryptographic device:

1. Describe the purpose of common fill device.
2. Describe a common fill device loading procedure.
3. Verify the configuration the common fill device.
4. Identify common fill device indicators and messages.
5. Verify the transfer of key material to Controlled Cryptographic Item (CCI) equipment.

Performance Standard. With the aid of reference, complete the requirements without error.

Instructor. BI, SI

Prerequisite. 2190, 2195

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. EKMS-1A
2. SKL
3. Applicable TM for CCI

COMSEC-2202 4.0 * B L

Goal. Identify organic Cryptographic Controlled Item (CCI) devices organic to the section.

Requirement. Perform the Following:

1. Inventory all CCI on the SF-153.
2. State the purpose of each piece of equipment.

Performance Standard. Without the aid of references, physically identify the above items and describe the use for each without error. This must be completed with 100% accuracy.

Instructor. BI, SI

Prerequisite. 2190, 2193

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 2000-OD/2C Characteristics of US Marine Corps C&E Equipment
2. Fill device user's manual

COMSEC-2203 4.0 * B L

Goal. Identify equipment classification requirements.

Requirement. Given the references, identify the classification level of the following:

1. Hardware.
2. Software.
3. Technical manuals.

Performance Standard. Without the aid of reference, complete the requirements without error.

Instructor. BI, SI

Prerequisite. 2190

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Unit T/E, Unit SOP

6.10.4 FAMILIARIZATION (FAM) STAGE

6.10.4.1 Purpose. To familiarize the trainee on non-MOS equipment.

6.10.4.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

FAM-2219 1.0 * B _____ L

Goal. Familiarization with LRR equipment.

Requirement. Given the reference:

1. Describe the purpose of the LRR.
2. Describe the major components of the LRR.
3. Describe the characteristics of the LRR.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07751C-OR Radar Set AN/TPS-59A(V)3

FAM-2220 1.0 * B L

Goal. Familiarization with MRR equipment.

Requirement. Given the reference:

1. Describe the purpose of the MRR.
2. Describe the major components of the MRR.
3. Describe the characteristics of the MRR.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07736C-14/1-2 Radar Set AN/TPS-63 System Technical Description

FAM-2221 1.0 * B L

Goal. Describe the Identification Friend or Foe (IFF) MK XII interrogator system.

Requirement. Given the reference:

1. Describe the purpose of the MK VII IFF system.
2. Describe the major components of the AN/UPX-37 Interrogator system.
3. Describe the characteristics of the AN/UPX-37 Interrogator System.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. UM 2005

FAM-2222 1.0 * B L

Goal. Describe TACLAN.

Requirement. Given the references, perform the following:

1. Describe the purpose of the KG-175 TACLAN.
2. State the purpose of the KG-175 TACLAN.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

FAM-2223 1.0 * B L

Goal. Identify the major components of the Composite Tracking Network (CTN).

Requirement. Given the references, perform the following:

1. Describe the characteristics of the Cooperative Engagement Capability.
2. Describe the characteristics of the antenna.
3. Describe the characteristics of the AN/USG-4A.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

6.10.5 INFORMATION ASSURANCE WORK FORCE A+ (IAWFAT) STAGE

6.10.5.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

6.10.5.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFAT-2250 4.0 * B E L

Goal. Explain PC hardware.

Requirement. Without the aid of references, perform the following:

1. Explain and apply BIOS settings.
2. Differentiate between motherboard components, their purposes, and properties.
3. Compare RAM types and features.
4. Explain the installation and configuration of expansion cards.
5. Explain installation and configuration of storage devices and appropriate media.
6. Differentiate among various CPU types and features and select the appropriate cooling method.
7. Compare various connection interfaces and explain their purpose.
8. Identify the appropriate power supply based on a given scenario.
9. Evaluate and select appropriate components for a custom configuration, to meet customer specifications or needs.
10. Given a scenario, evaluate types and features of display devices.
11. Identify connector types and associated cables.
12. Explain the installation and configuration of various peripheral devices.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2251 4.0 * B E L

Goal. Explain networking concepts.

Requirement. Without the aid of references, perform the following:

1. Identify types of network cables and connectors.
2. Categorize characteristics of connectors and cabling.
3. Explain properties and characteristics of TCP/IP.
4. Explain common TCP and UDP ports, protocols, and their purpose.
5. Compare wireless networking standards and encryption types.
6. Install, configure, and deploy a SOHO wireless/wired router using appropriate settings.
7. Compare Internet connection types and features.
8. Identify various types of networks.
9. Compare network devices their functions and features.
10. Given a scenario, use appropriate networking tools.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2252 4.0 * B E L

Goal. Explain laptop features and characteristics.

Requirement. Without the aid of references, perform the following:

1. Install and configure laptop hardware and components.
2. Compare the components within the display of a laptop.
3. Explain the differences between the various printer types and summarize the associated imaging process.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2253 4.0 * B E L

Goal. Explain printer features and characteristics.

Requirement. Without the aid of references, perform the following:

1. Explain the differences between the various printer types and summarize the associated imaging process.
2. Given a scenario, install, and configure printers.
3. Given a scenario, perform printer maintenance.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2254 4.0 * B E L

Goal. Explain operational procedures.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, use appropriate safety procedures.
2. Explain environmental impacts and the purpose of environmental controls.
3. Given a scenario, demonstrate proper communication and professionalism.

4. Explain the fundamentals of dealing with prohibited content/activity.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2255 4.0 * B E L

Goal. Explain operating systems.

Requirement. Without the aid of references, perform the following:

1. Compare the features and requirements of various Microsoft Operating Systems.
2. Given a scenario, install, and configure the operating system using the most appropriate method.
3. Given a scenario, use appropriate command line tools.
4. Given a scenario, use appropriate operating system features and tools.
5. Given a scenario, use Control Panel utilities (the items are organized by "classic view/large icons" in Windows).
6. Setup and configure Windows networking on a client/desktop.
7. Perform preventive maintenance procedures using appropriate tools.
8. Explain the differences among basic OS security settings.
9. Explain the basics of client-side virtualization.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2256 4.0 * B E L

Goal. Explain security.

Requirement. Without the aid of references, perform the following:

1. Apply and use common prevention methods.
2. Explain the implementation of security best practices to secure a workstation.
3. Given a scenario, use the appropriate data destruction/disposal method.
4. Given a scenario, secure a SOHO wireless network.
5. Given a scenario, secure a SOHO wired network.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2257 4.0 * B E L

Goal. Explain Mobile Devices.

Requirement. Without the aid of references, perform the following:

1. Explain the basic features of mobile operating systems.
2. Establish basic network connectivity and configure email.
3. Compare methods for securing mobile devices.
4. Compare hardware differences in regards to tablets and laptops.
5. Execute and configure mobile device synchronization.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFAT-2258 4.0 * B E L

Goal. Explain Troubleshooting.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, explain the troubleshooting theory.
2. Given a scenario, troubleshoot common problems related to motherboards, RAM, CPU and power with appropriate tools.
3. Given a scenario, troubleshoot hard drives and RAID arrays with appropriate tools.
4. Given a scenario, troubleshoot common video and display issues.
5. Given a scenario, troubleshoot wired and wireless networks with appropriate tools.
6. Given a scenario, troubleshoot operating system problems with appropriate tools.
7. Given a scenario, troubleshoot common security issues with appropriate tools and best practices.
8. Given a scenario, troubleshoot, and repair common laptop issues while adhering to the appropriate procedures.
9. Given a scenario, troubleshoot printers with appropriate tools.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

6.10.6 INFORMATION ASSURANCE WORK FORCE NETWORK+ (IAWFNT) STAGE

6.10.6.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

6.10.6.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFNT-2259 4.0 * B E L

Goal. Explain Networking Concepts.

Requirement. Without the aid of references, perform the following:

1. Compare the layers of the OSI and TCP/IP models.
2. Classify how applications, devices, and protocols relate to the OSI model layers.
3. Explain the purpose and properties of IP addressing.
4. Explain the purpose and properties of routing and switching.
5. Identify common TCP and UDP default ports.
6. Explain the function of common networking protocols.
7. Summarize DNS concepts and its components.
8. Given a scenario, implement the following network troubleshooting methodology.
9. Identify virtual network components.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2260 4.0 * B E L

Goal. Explain Network Installation and Configuration.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, install and configure routers and switches.
2. Given a scenario, install and configure a wireless network.
3. Explain the purpose and properties of DHCP.
4. Given a scenario, troubleshoot common wireless problems.
5. Given a scenario, troubleshoot common router and switch problems.
6. Given a set of requirements, plan and implement a basic SOHO network.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2261 4.0 * B E L

Goal. Explain Network Media and Topologies.

Requirement. Without the aid of references, perform the following:

1. Categorize standard media types and associated properties.
2. Categorize standard connector types based on network media.
3. Compare different wireless standards.
4. Categorize WAN technology types and properties.
5. Describe different network topologies.
6. Given a scenario, troubleshoot common physical connectivity problems.
7. Compare different LAN technologies.
8. Identify components of wiring distribution.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2262 4.0 * B E L

Goal. Explain Network Management.

Requirement. Without the aid of references, perform the following:

1. Explain the purpose and features of various network appliances.
2. Given a scenario, use appropriate hardware tools to troubleshoot connectivity issues.
3. Given a scenario, use appropriate software tools to troubleshoot connectivity issues.
4. Given a scenario, use the appropriate network monitoring resource to analyze traffic.

5. Explain the purpose of configuration management documentation.
6. Explain different methods and rationales for network performance optimization.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFNT-2263 4.0 * B E L

Goal. Explain Network Security.

Requirement. Without the aid of references, perform the following:

1. Given a scenario, implement appropriate wireless security measures.
2. Explain the methods of network access security.
3. Explain methods of user authentication.
4. Explain common threats, vulnerabilities, and mitigation techniques.
5. Given a scenario, install and configure a basic firewall.
6. Categorize different types of network security appliances and methods.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

6.10.7 INFORMATION ASSURANCE WORK FORCE SECURITY+ (IAWFST) STAGE

6.10.7.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

6.10.7.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFST-2264 4.0 * B E L

Goal. Explain Network Security.

Requirement. Without the aid of reference, perform the following:

1. Explain the security function and purpose of network devices and technologies.
2. Describe the implementation of secure network administration principles.
3. Describe between network design elements and components.
4. Describe the use common protocols.
5. Identify commonly used default network ports.
6. Describe the implementation of a wireless network in a secure manner.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2265 4.0 * B E L

Goal. Explain Operational Security.

Requirement. Without the aid of reference, perform the following:

1. Explain risk related concepts.
2. Explain appropriate risk mitigation strategies.
3. Explain appropriate incident response procedures.
4. Explain the importance of security related awareness and training.
5. Compare aspects of business continuity.
6. Explain the impact and proper use of environmental controls.
7. Execute disaster recovery plans and procedures.
8. Explain the concepts of confidentiality, integrity and availability

(CIA).

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2266 4.0 * B E L

Goal. Explain threats and vulnerabilities.

Requirement. Without the aid of reference, perform the following:

1. Explain the types of malware.
2. Explain types of attacks.
3. Explain types of social engineering attacks.
4. Explain types of wireless attacks.
5. Explain types of application attacks.
6. Explain types of mitigation and deterrent techniques.
7. Explain assessment tools and techniques to discover security threats and vulnerabilities.
8. Within the realm of vulnerability assessments, explain the proper use of penetration testing versus vulnerability scanning.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2267 4.0 * B E L

Goal. Explain cryptography.

Requirement. Without the aid of reference, perform the following:

1. Summarize general cryptography concepts.
2. Explain the appropriate cryptographic tools and products.
3. Explain the core concepts of public key infrastructure.
4. Explain the Implementation of PKI, certificate management and associated components.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2268 4.0 * B E L

Goal. Explain access control and identity management.

Requirement. Without the aid of reference, perform the following:

1. Explain the function and purpose of authentication services.
2. Explain the fundamental concepts and best practices related to authentication, authorization and access control.
3. Explain the Implementation of appropriate security controls when performing account management.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

IAWFST-2269 4.0 * B E L

Goal. Explain application, data and host security.

Requirement. Without the aid of reference, perform the following:

1. Explain the importance of application security.
2. Explain the appropriate procedures to establish host security.
3. Explain the importance of data security.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. CompTIA Approved Quality Content (CAQC) program reference material

6.10.8 EQUIPMENT (EQUIP) STAGE

6.10.8.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

6.10.8.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

EQUIP-2436 4.0 * B L

Goal. Review system troubleshooting on the TDS equipment within the TAOC.

Requirement. Given the references, a core capable crew, appropriate tools, TMDE, and a command and control system; complete the follow for each systems below:

1. Monitor the operational checks and alignments of each system as required.
 2. Identify and review symptoms of a fault within each system.
 3. Review the fault to the line replaceable unit within each system.
- MTAOM
-CTN
-CAC2S

Performance Standard. Perform the requirement to a proficient level

(correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10498B-OD TAOM Operations Maintenance Manual
2. Applicable manufacturer's manuals (UPS, Ethernet Switch, Themis)
3. TM 10446B-OI SAAWF Operations and Maintenance Instructions
4. TM 10200A-OI/1 ADCP Maintenance Manual
5. TO 31S5-2TYQ123-8-1 JRE Operations and Maintenance Instructions

EQUIP-2437 4.0 * B L

Goal. Verify system configuration of tactical data systems within the TAOC.

Requirement. Given the references, an emplaced system, and a core capable crew, verify equipment configuration and direct operational assessment within the system to include the following:

1. Operations of the MTAOM.
 - a. Voice Communications Equipment.
 - b. Digital Communications Equipment.
 - c. Data Processing Equipment.
 - d. Operator Interface Equipment.
2. Operation of the CAC2S
3. Operations of the CTN.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10498B-OD TAOM Operations Maintenance Manual

2. Applicable manufacturer's manuals (UPS, Ethernet Switch, Themis)
3. TM 10446B-OI SAAWF Operations and Maintenance Instructions
4. TM 10200A-OI/1 ADCP Maintenance Manual
5. TM 11399A-OI/1 JRE Operations and Maintenance Instructions

EQUIP-2438 4.0 * B L

Goal. Plan for deployment of Tactical Data Systems.

Requirement. Complete the following events:

1. Establish an accurate equipment density list.
2. Establish an accurate packing list.
3. Establish an accurate T/O list.
4. Coordinate proper heavy lifting support.
5. Establish an accurate bill of materials list.
6. Coordinate COMSEC support.
7. Identify communication requirement.
9. Establish an accurate SECREP list required for deployment.
10. Identify a key contacts list for intra squadron section.
11. Identify and request fuel requirements.
12. Identify and request power requirements.
13. Coordinate with MMO for proper procurement procedures during deployment.
14. Identify and request environmental condition unit requirements.
15. Identify and request appropriate transportation requirements.
16. Identify facility requirements.
17. Obtain letter of instruction for deployment.
18. Inspect gear required on the gear list for individual Marines for deployment.
19. Familiarize the Marines with emergency action plan for deployment.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Group/Squadron/Shop Standard Operating Procedures

6.10.9 MAINTENANCE MANAGEMENT (MMGT) STAGE

6.10.9.1 Purpose. To train the trainee on the basic skills necessary to perform as a member of a maintenance shop.

6.10.9.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

MMGT-2615 6.0 * B L

Goal. Identify the requirements for a Pre-extended Bin (PEB).

Requirement. Given the references, end item or scenario, identify and provide the following:

1. Describe the purpose of the PEB.
2. Identify PEB constraints; cost and consumption.
3. Describe proper accountability and usage of PEB material.
4. Provide an authorization request and inventory of PEB material.
5. Describe actions required within Global Combat Support System-Marine Corps (GCSS-MC).

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

MMGT-2616 6.0 * B L

Goal. Ensure the corrective maintenance repair process is being conducted.

Requirement. Ensure the timely performance of all corrective maintenance actions per the references.

1. Verify the induction process:
 - a. Confirm SL-3 accountability.
 - b. Ensure visual inspection occurs.

- c. Verify record jacket.
- d. Verify proper organizational PM.
2. Ensure correctness of Service Request (SR) and NAVMC 1018.
3. Determine availability of resources.
4. Ensure proper troubleshooting of faulty item.
5. Ensure repair parts are ordered and correctness of SR.
6. Ensure faulty item is repaired to code A status.
7. Ensure safety measures are adhered to during repair process.
8. Conduct quality control procedures:
 - a. Review quality control procedures.
 - b. Verify quality control inspectors based on individual qualifications on equipment are assigned in writing.
9. Verification of MI and TI.
10. Verify proper closeout of SR.
11. Ensure equipment record jacket is updated.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

MMGT-2618 6.0 * B L

Goal. Develop a maintenance section budget.

Requirement. Utilizing equipment maintenance history and forecasting anticipated maintenance shortfalls, propose funding allocations for maintenance activities.

1. Provide maintenance funding request based on current requirements while considering prior year utilization history.
 - a. Preventive Maintenance.
 - b. Corrective Maintenance.
2. Draft an anticipated maintenance funding request based on the unit's TEEP to support.
 - a. Personnel travel requirements.
 - b. Administrative support requirements (SERVMART).
3. Submit funding request with justification.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

1. MCO P4400.150_
2. MCO P7100.8_

MMGT-2619 6.0 * B L

Goal. State the process to submit a Table of organization and

equipment (TO&E) Change Request (TOECR).

Requirement. Given a scenario and applicable references:

1. Pull TO&E via the Total Force Structure Management System (TFSMS).
2. Validate the requirement for change.
3. Complete TOECR form, NAVMC 11355.
4. Identify compensation for T/O changes when possible.
5. Provide an explanation/reason for change request on the change request form in plain English.
6. Provide a copy of the NAVMC 11355 to the instructor for review and validation.

Performance Standard. With the aid of reference, complete the requirement without error. Minor errors corrected by the trainee are acceptable. Instructor will ensure the NAVMC 11355 supports the scenario requirement.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. MCO 5311.1_
2. Unit TO&E

MMGT-2620 6.0 * B L

Goal. Conduct a Consolidated Memorandum Receipt (CMR) Review.

Requirement. Given the references and a maintenance section's CMR, ensure equipment accountability and requirements by performing the following:

1. State the purpose of a CMR.
2. Review TE.
3. Conduct a CMR inventory.
 - a. Ensure SL-3 accountability for assumption and relief.
 - b. Determine Using Unit Responsibility (UURI)/Government Furnished Equipment (GFE) requirements.
 - c. Ensure equipment have record jackets.
 - d. Maintain equipment receipt/transfer documents.
 - e. Identify discrepancies, if any.
4. Write and submit a Request for Investigation IAW MCO 4400.150.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

Ordinance. None.

Range. None.

External Syllabus Support. None.

MMGT-2622 4.0 * B L

Goal. Explain Recoverable Items Report (WIR) procedures.

Requirement. Given the reference and a scenario, conduct the following:

1. State the purpose of the WIR.
2. State the criteria under which an item should be processed for WIR.
3. State the information required to submit a WIR request.
4. State the submission procedures for a WIR request.
5. State the method to follow up on WIR submissions.
 - a. WIR on-line Process Handler.
 - b. Weekly Supply reconciliation.
6. Explain disposition instruction.

Performance Standard. Correctly state the items in the requirement without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

MMGT-2623 4.0 * B L

Goal. Submit a maintenance cycle time extension letter.

Requirement. Given the reference, equipment, and applicable equipment records conduct the following:

1. Identify maintenance cycle time requirement.
2. Draft a maintenance cycle time extension letter.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. The instructor shall ensure the justification meets the requirements.

Instructor. BI, SI

Prerequisite. None.

MMGT-2624 4.0 * B L

Goal. Submit a Product Quality Deficiency Report (PQDR).

Requirement. Given the reference, equipment or a scenario:

1. State the criteria under which the PQDR should be submitted.
2. Complete the PQDR.
3. Explain the squadron's internal process for submitting a PQDR.
4. Identify the procedure to follow up with the PQDR.
5. Discuss external process flow of the PQDR.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

MMGT-2650 4.0 1095 B, R, M L

Goal. Assess maintenance shop performance.

Requirement. Given the references, perform the following:

1. Determine key performance indicators.
2. Determine functional areas to be inspected.
3. Develop an inspection plan.
4. Assign personnel to conduct inspections.
5. Review results.
6. Assess strengths and weaknesses.
7. Develop/implement a corrective plan.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

6.10.10 OPERATIONAL MANAGEMENT (OMGT) STAGE

6.10.10.1 Purpose. To provide the trainee basic skills to be able to deploy TAOC and EW/C equipment to include training in understanding OPORDs, crew management, system configuration management, and proper emplacement procedures.

6.10.10.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

OMGT-2695 6.0 * B L

Goal. Design a site layout.

Requirement. Given a scenario, the references, a TO/E and mission statement, determine an appropriate site for system emplacement by designing a site layout by performing the following:

1. Conduct a site survey.
2. Determine a primary and secondary site location.
3. Analyze terrain to:
 - a. Determine tactical orientation and equipment emplacement.
 - b. Determine obstructions and hazards.
 - c. Determine communications requirements and obstacles.
 - d. Determine operational footprint.
 - e. Determine power and fuel requirements.
 - f. Determine the placement for vehicles.
 - g. Determine the placement for antennas.
 - h. Determine proper grounding system.

- i. Determine protection from the elements.
- j. Determine Terrain Masking.
4. Utilize planning tools (EMPRO, FalconView, AMP, SPEED, etc.) to determine terrain masking and line of sight connectivity.
5. Design a site layout.
 - a. Ensure emitters are emplaced IAW Hazardous Electromagnetic Radiation to Fuels (HERF) regulations.
 - b. Ensure emitters are emplaced IAW Hazardous Electromagnetic Radiation to Ordnance (HERO) regulations.
 - c. Ensure emitters are emplaced IAW Hazardous Electromagnetic Radiation to Personnel (HERP) regulations.
 - d. Ensure emitters are emplaced to support working area.
6. Submit the site layout to the instructor for validation.

Performance Standard. The trainee will provide the instructor with reasoning for the following (instructors are encouraged to discuss site survey in depth with the trainee)

1. Selection of the primary and secondary site.
2. Site limitations for each site (if any).
3. How each site will support mission requirements?
4. Determine a security plan.
5. Draw the site layout to support the scenario.

OMGT-2696 6.0 * B L

Goal. Prepare and present a command level brief for deployment.

Requirement. Given an OPORD and commander's intent, perform the following:

1. Prepare a brief that contains at minimum the following:
 - a. State the OPORD mission.
 - b. Maintenance essential tasks extracted from the OPORD.
 - d. List equipment requirements to support mission.
 - e. Define crew composition and management based on T&R CMMR.
 - i. Emplacement.
 - k. Redeployment plan.
 - l. State maintenance sustainment plan.
 - m. State supply support required.
 - n. State logistical support required.
 - o. Issues of concern.
2. Present the brief.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. The instructor will ensure the brief contains the requirement items and that the overall planning supports the mission in the OPORD.

Instructor. BI, SI

2. Local Unit SOP
3. Local MMO SOP

OMGT-2697 6.0 * B L

Goal. Identify Operational Requirements.

Requirement. Given an OPORD, determine the operational requirement of the maintenance section to support the mission, to include:

1. Communication electronics equipment required.
 - a. Radio requirements.
 - b. Network requirements.
 - c. Radar requirements.
2. Engineering equipment.
 - a. Air conditioners.

- b. Heavy equipment.
- c. Generators.
- 3. Personnel required.
 - a. Identify minimum number of mission skilled maintainers per crew required to support the mission.
 - b. Identify minimum number of designated leaders required to support the mission.
 - c. List the administrative requirements for crew.
 - (1) Tactical license.
 - (2) Security Clearance.
- 4. Cryptographic equipment required.
- 5. Logistics support required.
- 6. Supply support required.
 - a. Bill of Material (BOM) requirements.
 - b. SECREP requirements.
- 7. Frequencies required.
 - a. Draft a frequency request. (TPS-63, TPS-59, IFF, Mode-4).
 - b. Draft a satellite access request.
- 8. Develop an Equipment Density List (EDL) for PEIs.
- 9. Draw a site layout plan.
- 10. Draft a brief covering addressing the deployment and emplacement plan to support the mission.
- 11. Submit the site layout and brief the plan.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

Prerequisite. None.

OMGT-2698 4.0 * B L

Goal. Provide input for the operational plan.

Requirement. Given an operation and command guidance, provide input for the operations order:

1. Verify mission requirements.
2. Determine mission essential equipment.
3. Provide input for the mission Equipment Density List.
4. Assign maintenance personnel to meet mission requirements.
5. Provide input for mission execution.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable. The instructor shall ensure that the communications portion of operation plan supports the mission.

Instructor. BI, SI

Prerequisite. None.

Reference.

1. Operations Order

OMGT-2699 4.0 * B L

Goal. Organize and staff crew for deployment.

Requirement. Given a scenario and references, perform the following:

1. Integrate crew personnel.
 - a. Ensure minimum number of core skilled maintainers are assigned per this manual.
 - b. Ensure minimum number of designated leaders are assigned per this manual.
2. Administrate crew.
 - a. Tactical license.
 - b. Supply.
 - c. Orders.
 - d. Security Clearance.
 - e. Pay.
 - f. Courier Letter.
3. Conduct crew brief.

Performance Standard. Given a scenario, identify the requirements to establish a core capable crew, without error. Minor errors corrected by the trainee are acceptable.

Instructor. BI, SI

OMGT-2701 4.0 * B L

Goal. Ensure safety procedures and precautions are followed during embarkation, set-up, and maintenance production.

Requirement. Given references, ensure that all personnel are informed of and following all safety procedures and precautions during all phases of operation and maintenance by performing the following:

1. Prepare deliberate ORM for the given scenario.
2. Ensure all safety procedures/precautions are followed during embarkation.
 - a. Packing.
 - b. Loading.
3. Ensure all safety procedures/precautions are followed during employment.

- a. Set-up.
 - b. Operations.
4. Ensure all safety procedures/precautions are followed during maintenance.
- a. Personnel safety.
 - b. Equipment safety.

Performance Standard. Given a scenario and core competent crew, prepare ORM worksheets and verify safety procedures are followed. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

6.11 MISSION SKILL TRAINING (3000)

6.11.1 Purpose. To provide the requisite advanced skills and working knowledge to employ the MACCS and ancillary equipment in order to accomplish the Marine Air Support Squadron missions.

6.11.2 General.

6.11.2.1 Prerequisite.

6.11.2.2 Admin Notes.

(1) Training in this phase does not preclude simultaneous training in Core Skill and Core Plus phases.

(2) Individual core skills are learned and mastered using a varied combination of written exams, scenarios and practical demonstrations of proficiency.

(3) If crew members are required to assist in the conduct of an event, the crew shall be core capable in the role they will play, as applicable. Training will be executed as individual training with appropriate assistance at the crew level as needed and as dictated by the conditions listed for each event. Crew member assistance must be restricted to those actions required to support or facilitate individual training so as

not to detract from the individual properly demonstrating the event performance standard.

(4) Academic Training. Academic training will be conducted prior to and concurrently with required events. An academic training event, once completed, can be credited as a prerequisite for follow-on training events.

(5) Refresher Training. Refresher training is required once a individual has been absent from a technician billet for 36 months or longer. Upon return, the individual will complete R-coded events in the Attain table; else the technician will maintain proficiency by completing the R-coded events in the Maintain table.

6.11.2.3 Stages. The following stages are included in the Mission Skill Phase of training.

PAR NO.	STAGE NAME
6.11.3	INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT)
6.11.4	INFORMATION ASSURANCE WORK FORCE NETWORK+ TECHNICIAN (IAWFNT)
6.11.5	INFORMATION ASSURANCE WORK FORCE SECURITY+ TECHNICIAN (IAWFST)
6.11.6	EQUIPMENT (EQUIP)
6.11.7	OPERATIONAL MANAGEMENT (OMGT)

6.11.3 INFORMATION ASSURANCE WORK FORCE A+ TECHNICIAN (IAWFAT) STAGE

6.11.3.1 Purpose. To train the trainee on basic concepts of information systems/assurance to facilitate industry standard certification.

6.11.3.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

IAWFAT-3280 4.0 1095 B,R,M E L

Goal. Explain concepts included in A+ exam 220-801.

Requirement. Without the aid of references, explain:

1. PC Hardware.
2. Networking.
3. Laptop.
4. Printers.
5. Operational Procedures.

Performance Standard. Without the aid of reference, pass an exam with 80% accuracy.

Instructor. SI, WTI

6.11.6 EQUIPMENT (EQUIP) STAGE

6.11.6.1 Purpose. To instruct the trainee on MACCS unique electronic equipment.

6.11.6.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

EQUIP-3454 4.0 365 B, R, M L

Goal. Verify operational configuration of Tactical Data Systems.

Requirement. Given the reference and an operational Tactical Data System, a core capable crew, operational documents, verify that the following supports the operations order:

-Voice communication configurations.

-Data communication configurations.

Tactical Data Link configurations.

ADPE configurations.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 10498B-OD TAOM Operations Maintenance Manual

2. Applicable manufacturer's manuals (UPS, Ethernet Switch, Themis)

5. TM 11399A-OI/1 JRE Operations and Maintenance Instructions

6.11.7 OPERATIONAL MANAGEMENT (OMGT) STAGE

6.11.7.1 Purpose. To provide the trainee advanced skills to be able to deploy TAOC and EW/C equipment to include training in understanding OPORDs, crew management, system configuration management, and proper emplacement procedures.

6.11.7.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

OMGT-3716 6.0 * B L

Goal. Deploy a maintenance section in support of unit operations.

Requirement. Given a scenario or operational deployment and commander's guidance, deploy the maintenance section:

1. Review and recommend changes to the operational plan.
2. Coordinate equipment support as required.
3. Review and recommend changes to the Bill of Materials.
4. Review and recommend SECREP requirements as required.
5. Supervise pack-up of equipment.
6. Ensure correct execution of the load plan for equipment handling and safety.
7. Review and approve EDL.
8. Determine maintenance requirements.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

Instructor. SI, WTI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. TM 07736C Series

EQUIP-4457 4.0 * B L

Goal. Verify the MRR configuration.

Requirement. Given the reference, a mission capable crew, an operating MRR, and operational documents, complete the following:

1. Verify the appropriate radar frequency.
2. Verify the appropriate radar pulse width.
3. Verify the appropriate MTI range.
4. Verify the appropriate weather sector.
5. Verify the appropriate staggered PRF sector for the operational environment.
6. Verify the appropriate radar blanking sector.
7. Verify and/or adjust the manual STC curve to suit the operational environment.
8. Verify and/or adjust the manual ECM alarm to suit the operational environment.

Performance Standard. Perform the requirement to a proficient level (correct, efficient and skillful execution of tasks without hesitation requiring minimal input from the instructor). Minor errors corrected by the trainee are acceptable.

6.13 INSTRUCTOR UNDER TRAINING (IUT) (5000)

6.13.1 Purpose. To provide technicians the additional skills necessary to instruct, evaluate and approve event completions. Upon completion of the required training, an individual may be approved for instructor designation by the commanding officer.

6.13.2 General.

6.13.2.1 Prerequisiste. None

6.13.2.2 Admin Notes.

a. The MACCS instructor concept is a means to standardize all instructors across the MACCS in regards to the concepts of managing a WTPP, properly conducting training, performing evaluations, and recommending training plans.

b. There are different instructor designations (listed below). The intent is to train individuals with different levels and areas of experience to instruct personnel. Instructor experience is also gained while progressing through the different instructor designations.

(1) Basic Instructor (BI)

(2) Senior Instructor (SI)

(3) Weapons and Tactics Instructor (WTI)

(4) The MAWTS-1 C3 Course catalog contains the training requirements for the above listed instructors. The catalog is located at the MAWTS-1 website, <https://vcepub.tecom.usmc.mil/sites/msc/magtftc/mawts1/departments1/newc3/default.aspx>.

(5) The table below outlines the events that each instructor can train, evaluate, and approve or recommend for approval.

INSTRUCTOR	Event Training, Evaluation and Approval
BI	Core Skill events in which current and proficient
SI	Core Skill and Mission Skill events
WTI	Mission Skill and Qualification events. - Evaluate and recommend for qualification - Endorse recommendations for position designations
	The Commanding Officer is the approving authority for qualifications and designations.

6.13.2.3 Stages. The following stages are included in the Instructor Under Training Skill Phase of training.

PAR NO.	STAGE NAME
6.13.3	INSTRUCTOR UNDER TRAINING (IUT)

6.13.3 INSTRUCTOR UNDER TRAINING (IUT) STAGE

6.13.3.1 Purpose. To train Aviation Radar Maintenance Officers in the fundamentals of instructing and training processes.

6.13.3.2 General

Prerequisite. None

Admin Notes. None

Crew Requirements. None

T&R CODE	EVENT DESCRIPTION	INSTRUCTOR
5000	Introduce principles of instruction	BI
5010	Understand the structure of an event	BI
5020	Conduct a period of instruction on a core skill event	BI
5100	Understand the Aviation Training and Readiness (T&R) Program	SI
5110	Understand the applicable community T&R program	SI
5120	Understand T&R administration	SI
5130	Develop a training plan	SI

6.14 REQUIREMENTS, CERTIFICATIONS, QUALIFICATIONS, AND DESIGNATIONS (RCQD) (6000)

6.14.1 Purpose. This phase provides community standardization for MACCS Warrant Officer certifications and designations; combat leaders and instructor designations. This syllabus does not contain "one time" certification training requirements.

6.14.2 General.

6.14.2.1 Prerequisiste. None

6.14.2.2 Admin Notes.

(1) This section enables units to document and track combat leaders, instructors, technician and CD assignments. All syllabus training and administration requirements must be complete prior to being qualified or designated. A qualification or designation is not effective until all administration is completed.

(2) Only once an individual is qualified or designated in writing, the signed letter is filed in the IPR, and all administrative actions are completed, and the event code has been logged in M-SHARP shall the qualification or designation be effective.

6.14.2.3 Stages. The following stages are included in the Instructor Under Training Skill Phase of training.

PAR NO.	STAGE NAME
6.14.3	CERTIFICATIONS (CERT)
6.14.4	DESIGNATION (DESG)
6.14.5	SCHOOL CODES (SCHL)

6.14.3 CERTIFICATIONS (CERT) STAGE

6.14.3.1 Purpose. To provide for certifications of Information Assurance

Work Force personnel. In order to ensure proficiency is maintained, specific events throughout this syllabus have been R-coded. The gaining command shall review the IPR to ensure prerequisite R-coded events for a certification are current prior to approving that certification. If prerequisite R-coded events are delinquent, the individual shall update those events.

6.14.3.2 General

Prerequisite. None

Admin Notes. Policies and rules for attaining and maintaining certification are detailed in the Aviation T&R Program Manual and this Manual.

Crew Requirements. NONE.

CERT-6200 4.0 * B L

Goal. Certification as a COMPTIA A+ Technician.

Requirement. Complete the required industry certification exams, COMPTIA 220-801 and COMPTIA 220-802. Be recommended for certification by an SI or WTI and approved in writing by the commanding officer.

Performance Standard. N/A

Instructor. SI, WTI

Prerequisite. 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 3280, 3281

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. DOD 8570._

CERT-6201 4.0 * B L

Goal. Certification as a COMPTIA Network+ Technician.

Requirement. Complete the required industry certification exam, COMPTIA N10-005. Be recommended for certification by an SI or WTI and approved in writing by the commanding officer.

Performance Standard. N/A

Instructor. SI, WTI

Prerequisite. 2259, 2260, 2261, 2262, 2263, 3282

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. DOD 8570._

CERT-6202 4.0 * B _____ L

Goal. Certification as a COMPTIA Security+ Technician.

Requirement. Complete the required industry certification exams, COMPTIA SY0-301. Be recommended for certification by an SI or WTI and approved in writing by the commanding officer.

Performance Standard. N/A

Instructor. SI, WTI

Prerequisite. 2264, 2265, 2266, 2267, 2268, 2269, 3283

Ordinance. None.

Range. None.

External Syllabus Support. None.

6.14.4 DESIGNATIONS (DESG) STAGE

6.14.4.1 Purpose. To provide for designation of combat leaders and instructors. Designations are command specific and expire when an individual transfers out of a command. In order to ensure proficiency is maintained, specific events throughout this syllabus have been R-coded. The gaining command shall review the IPR to ensure prerequisite R-coded events for a designation are current prior to approving that designation. If prerequisite R-coded events are delinquent, the individual shall update those events.

6.14.4.2 General

Prerequisite. None

Admin Notes. Policies and rules for attaining and maintaining designations are detailed in the Aviation T&R Program Manual and this Manual.

Crew Requirements. None

DESG-6306 1.0 * _____ L

Goal. Designation as the DSMO.

Requirement. Be recommended for designation by the unit WTI and designated in writing by the commanding officer.

Performance Standard. N/A

Instructor. WTI

Prerequisite. 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2200, 2201, 2202, 2203, 2219, 2220, 2221, 2222, 2223, 2436, 2437, 2438, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2650, 2695, 2696, 2697, 2698, 2699, 2700, 2701, 3454, 3660, 3661, 3662, 3716, 3718, 8000, 8001, 8002, 8003, 8004, 8005, 8006, 8007, 8008, 8020, 8021, 8022, 8023, 8024, 8025, 8026, 8027, 8028, 8040, 8041, 8042, 8043, 8044

Ordinance. None.

Range. None.

External Syllabus Support. None.

Reference.

1. Unit TO/E

DESG-6320 1.0 * B L

Goal. Designation as a Basic Instructor (BI).

Requirement. Be recommended for designation by a WTI and designated in writing by the commanding officer.

Performance Standard. N/A

Instructor. WTI

Prerequisite. 5000, 5010, 5020

Ordinance. None.

Range. None.

6.14.5 SCHOOL CODES (SCHL) STAGE

6.14.5.1 Purpose. To provide tracking codes for schools that are pertinent to the training of the 5910 in the skill progression of the Marine.

6.14.5.2 General

Prerequisite. None

Admin Notes. Policies and prerequisites for attending the listed schools are maintained within MCTIMS.

Crew Requirements. None

SCHL CODE	NAME OF COURSE	LOCATION	CID
SCHL-6000	Weapons and Tactics Instructor (WTI)	MCAS Yuma, AZ	M14P2A1

SCHL-6023	Link 16 Joint Interoperability Course (US-109)	Joint Knowledge Online (JKO)	N/A
SCHL-6022	Multi-TDL Advanced Joint Interoperability Course (MAJIC) (JT-102)	Fort Bragg, NC	A36L6Z1
SCHL-6024	Multi TDL Planner Course (JT-201)	Fort Bragg, NC	A05KHY1
SCHL-6025	Link 16 Unit Manager (LUM) Course (JT-220)	Fort Bragg, NC	N/A

6.15 MISSION ESSENTIAL TASK (MET) PHASE (7000)

6.15.1 Purpose. This phase takes CMMR proficient Marines from multiple PMOS, puts them in CMMR representative crews, and trains them as combat effective teams in combined events.

6.15.2 General

6.15.2.1 Prerequisite. Marines must either be CMMR crew position or non-aviation PMOS proficient to train in this phase. For those events requiring combat leaders, only Marines currently designated as such can train in this phase.

6.15.2.2 Admin Notes. Prerequisites for this phase of training cannot be waived. Multiple events can be trained at the same time as long as separate evaluations are being conducted.

6.15.2.3 Stages. The following stages are included in the Mission Essential Task (MET) Phase of training.

PAR NO.	STAGE NAME
6.15.3	CONDITION (COND)

6.15.3 CONDITION (COND) STAGE

6.15.3.1 Purpose. To train unit level teams in executing community specific MET(s) or MET preparatory events.

6.15.3.2 General

Prerequisite. If an event requires prerequisites in addition to those listed for the MET Phase, they will be covered in the individual event.

Admin Notes. All events in this stage will require the following administrative/operational documents to be identified or created:

1. Letter Of Intent (LOI)
2. Personnel Roster
3. Bill Of Material (BOM)
4. Equipment Density List (EDL)

Crew Requirements. This stage requires that all crew members and combat leaders be qualified/designated and proficient (current) in the position they are assigned for the following events. Crews shall be task organized to meet the mission.

COND-7500 50.0 365 B, R, M C2 System L/S

Goal. Employ a TAOC.

Requirement. Given the references, a Table of Equipment (T/E) and/or Equipment Density List (EDL), Commander's guidance, and an operation plan's initiating order, employ a TAOC to include the following:

1. Conduct Mission Analysis
2. Review Operational Planning Documents
3. Identify required support personnel
4. Identify equipment requirements
5. Conduct an RSOP
6. Identify, create, and finalize administrative documents supporting the operation
7. Coordinate with external agencies
8. Conduct embarkation, and retrograde of personnel and equipment
9. Maintain accountability of personnel
10. Conduct TAOC operations
11. Conduct crew evaluations
12. Compile After-Action items

Performance Standard. Perform the requirement items listed and conduct TAOC operations during a real world operation or training simulation.

Instructor. WTI

Prerequisite. Minimum of two CMMR TAOC Crews

Ordnance. None.

Range. Range space capable of hosting itinerant air traffic, combat air patrols, air-to-air refueling tracks, HVAA tracks

External Syllabus Support. TAOC Detachment Commander and representatives from the S-1, S-2, S-3, S-4, S-6. Live execution will require specific T/M/S aviation assets.

Reference.

1. U-TAOC-PCL-03862, TAOC Pocket Checklist
2. MCWP 3-25.7, TAOC Handbook
3. Squadron SOP

COND-7505 10.0 365 B, R, M L/S

Goal. Conduct a Reconnaissance, Selection, and Occupation of Position (RSOP) for the TAOC.

Requirement. Given the references, a Table of Equipment (T/E) and/or Equipment Density List (EDL) and an operation plan's initiating order, conduct a RSOP for TAOC operations to include the following:

1. Conduct a Map Survey selecting primary and alternate sites
2. Identify environmental concerns that may affect TAOC communication
3. Coordinate with higher to provide TAOC requirements

4. Coordinate site security, camouflage, dispersion, and trafficability
5. Identify locations for emplacement of communications and support equipment
6. Coordinate priorities for equipment emplacement
7. Identify echelon considerations
8. Identify Advanced Party/RSOP Team
9. Occupy the site
10. Emplace the TAOC

Performance Standard. Perform the requirement items. The RSOP team will be prepared to discuss decisions/actions.

Instructor. C3 WTI

Prerequisite. None.

Ordnance. None.

Range. None.

External Syllabus Support. TAOC Detachment Commander, TAOC Crew Chief, security team, Representatives from the S-2, S-4, S-6

Reference.

1. U-TAOC-PCL-03862 TAOC Pocket Checklist
2. MCWP 3-25.7, TAOC Handbook
3. Squadron SOP

6.16 AVIATION CAREER PROGRESSION MODEL (8000).

6.16.1 Purpose. To enhance professional understanding of Marine Aviation and the MAGTF, and to ensure individuals possess the requisite skills to fill battle command and battle staff positions in support of the ACE and the MAGTF in a joint environment. The focus of training in the Aviation Career Progression Model (ACPM) is on academic events in the following areas:

Marine Air Command and Control System (MACCS)
Aviation Ground Support
Joint Air Operations
ACE Battle Staff
MAGTF
Seabased Operations
Combatant Commander Organizations

6.16.2 General. The ACPM is intended to be an integrated series of academic events contained within each phase of training. Accordingly, ACPM academic events are like any other academic event in that they serve as pre-requisites to selected flight events or stages. Additionally, several ACPM academic events are integrated as prerequisites for flight leadership syllabi.

ACPM events may be conducted in group session with an assigned instructor teaching the period of instruction or they may be accomplished by self-paced instruction.

MAWTS-1 is responsible for the update and validity of the ACPM periods of instruction. In the future, courses may be consolidated or revised to meet changing requirements. Refer to the MAWTS-1 ACPM link for the current ACPM

program of instruction:

<https://vcepub.tecom.usmc.mil/sites/msc/magtftc/mawts1/Aviation%20Career%20Progression%20Model/Forms/AllItems.aspx>

Completed events shall be manually logged and tracked in M-SHARP.

ACPM academic events, along with their identifying prerequisite association with other training phases/stages/events, are listed below.

STAGE	TRNG CODE	T&R DESCRIPTION		ACAD TIME	TO BE COMPLETED DURING
ACPM	8000	MACCS		1	2000 PHASE
ACPM	8001	MARINE AIR COMMAND AND CONTROL SYSTEM		4	2000 PHASE
ACPM	8002	TACTICAL AIR COMMAND CENTER (TACC)		4	2000 PHASE
ACPM	8003	DIRECT AIR SUPPORT CENTER (DASC)		4	2000 PHASE
ACPM	8004	TACTICAL AIR OPERATIONS CENTER (TAOC)		4	2000 PHASE
ACPM	8005	MARINE AIR TRAFFIC CONTROL (MATC)		4	2000 PHASE
ACPM	8006	LOW ALTITUDE AIR DEFENSE (LAAD)		4	2000 PHASE
ACPM	8007	Marine Unmanned Aerial Vehicle Squadron (VMU)		4	2000 PHASE
ACPM	8008	MARINE WING COMMUNICATION SQUADRON (MWCS)		4	2000 PHASE
ACPM	8020	ACE		1	2000 PHASE
ACPM	8021	AVIATION OPERATIONS		4	2000 PHASE
ACPM	8022	CONTROL OF AIRCRAFT AND MISSILES		4	2000 PHASE
ACPM	8023	OFFENSIVE AIR SUPPORT (OAS)		4	2000 PHASE
