INTRODUCTION

APPRENTICESHIP

Apprenticeship is training for jobs in technical trades that require special skills and knowledge. It involves technical schooling and planned on-the-job training under supervision. For young workers desiring to gain a skilled occupation, the apprenticeship program provides a step by step program of instruction and on-the-job training. This program will lead to advanced standing in the technical skill or trade you have chosen.

The USMC Apprenticeship Program provides you with the opportunity to meet some requirements for advancement in your chosen skill area while on active duty. As you progress in your training in the Marine Corps and master the skills required of your trade, you will have the mastered skills recorded in your log. Our apprenticeship program allows you to make your work experience in the Marine Corps count twice. First, to fulfill your active duty obligation in a productive manner. Second, to provide you with a usable skill if you should decide to return to civilian life. By having documented proof of Marine Corps schooling and work experience, you should qualify for a better job at higher pay.

Most apprenticeship terms range from 1 to 4 year, depending upon the trade involved. To master a particular trade requires: (1) Learning all or most of the skills of the trade; (2) Perfecting each specific skill; (3) Bringing each skill up to the speed and accuracy required of the job; and (4) Learning to use specific skills in combination with other skills.

MARINE CORPS APPRENTICESHIP PROGRAM

The purpose of establishing the Marine Corps Apprenticeship Program is to provide Marine Corps commanders an opportunity to implement programs of apprenticeship for military personnel in occupations closely related and applicable to private industry needs and requirements. Marine Corps school training and experience in the field will, if properly documented, satisfy private industry requirements for the training of apprentices in nationally recognized apprenticeable occupations.

The ultimate objective of the United States Marine Corps Apprenticeship Program is to provide registered certification of an individual Marine's skilled craft occupational training. The program has been designed to achieve recognition for Marines equal to their civilian counterparts.

Registration of the National Apprenticeships standards for the United States Marine Corps with the Bureau of Apprenticeship and Training, U.S. Department of Labor, is beneficial to the Marine Corps, to individual Marines, and to private industry, management, and labor. Acceptance of U.S. Marine Corps apprentices as skilled craft-workers by private industry, management, and labor will enhance Marines' employment opportunities as veterans, shorten the term of private industry apprenticeship through the award of appropriate credit for previous military training experience, and provided a source of registered skilled personnel to meet national manpower requirements.

THE CENTRAL OFFICE REPAIRER APPRENTICESHIP PROGRAM

The purpose of this pamphlet is to announce the United States Marine Corps Apprenticeship Program for the trade of Central Office Repairer.

Policies and procedures for participation in the program are contained in MCO 1550.22.

Marines holding a primary or secondary 2811 2818, 2827, 2829 MOS and who are serving in that MOS may participate in the program.

This is an 8000 hour program which leads to a certification of journeyman in the trade of Central Office Repairer by the U.S. Department of Labor. Participation in the program is voluntary and no membership in labor unions or professional associations is required. The work process schedule and schedule of related instruction are outlined on pages 8 through 12. The purpose of the work process schedule and the schedule of related instruction is as indicated below:

The work process schedule reflects categories of work experience required by Marine apprentices to qualify as Journeyman Central Office Repairer.

The schedule of related instruction identifies courses which are available to Marine apprentices to satisfy the 1414 hours of annual related instruction required for completion of the program.

Marines eligible for the program may enroll by contacting the Unit or Base Education Officer who will assist in the preparation of the application.

Apprentice logs and instructions on their use will be provided by the Education Officer at the time of registration. Marine apprentices will be required to maintain their log sheets on a daily basis. Log entries must be verified by the Marine apprentice's immediate supervisor on a weekly basis.

Marines who have partially completed an approved Federal or State registered civilian apprenticeship will be awarded credit within the constraints of the individual apprenticeship training program standards. Each training hour successfully completed in the occupation involved will be awarded credit upon presentation of authenticated documentation. Marines serving beyond their initial enlistment are considered career Marines, and may make application for the apprenticeship program in order to be certified as having completed an apprentice program. Career Marine apprentices must complete the same requirements as the first-term apprentice except that they will be given credit for one-half the hours required for the specific apprenticeship program in which they are enrolled provided their previous enlistment was served in an MOS applicable to the relevant apprenticeship program for which applying.

Organized related instruction for all United States Marine Corps apprentices will be defined by the individual apprenticeship program standards. Such related instruction will be provided on an hour-per-year basis, or the total hours may be achieved through the successful completion of a multi-week training course for the apprenticeable occupation involved at any United States Marine Corps training school, or other Service School (Army, Navy, etc.) providing such training

Upon successful completion of apprenticeship training and experience requirements as prescribed by individual apprenticeship program standards, the apprentice will submit a request via the chain of command, accompanied by a letter from the appropriate commander or education officer, to the Office of National Industry Promotion, Bureau of Apprenticeship and Training, U.S. Department of Labor, Washington, D.C. 20213, for issuance of a Certificate of Completion of Apprenticeship (Enclosure 10). The Bureau of Apprenticeship and Training will issue all Certificates of Completion of Apprenticeship to the individual through Headquarters, U.S. Marine Corps (Code OTTE) to the appropriate commander.
