1. Purpose. Per reference (a), this T&R Manual establishes Core Capability Mission Essential Tasks (MET) for readiness reporting and required events for standardization training of Marines and Navy personnel assigned to the Marine Corps. Additionally, it provides tasking for formal schools preparing personnel for service in the Marine Corps. This NAVMC supersedes MCO 1510.90A.

2. Scope

   a. The Core Capability Mission Essential Task List (METL) in this manual is used in the Defense Readiness Reporting System (DRRS) by all units for the assessment and reporting of unit readiness. Units achieve training readiness for reporting in DRRS by gaining and sustaining proficiency in the training events in this manual at both collective (unit) and individual levels.

   b. Per reference (b), commanders will conduct an internal assessment of the unit’s ability to execute each MET, and develop long-, mid-, and short-range training plans to sustain proficiency in each MET. Training plans will incorporate these events to standardize training and provide objective assessment of progress toward attaining combat readiness. Commanders will keep records at the unit and individual levels to record training achievements, identify training gaps, and document objective assessments of readiness associated with training Marines. Commanders will use reference (c) to incorporate chemical, biological, radiological, nuclear and explosive defense training into training plans and reference (d) to integrate operational risk management. References (e) and (f) provide amplifying information for effective planning and management of training within the unit.

   c. Formal school and training detachment commanders will use references (a) and (g) to ensure programs of instruction meet skill training

requirements established in this manual, and provide career-progression training in the events designated for initial training in the formal school environment.

3. Information. CG, TECOM will update this T&R Manual as necessary to provide current and relevant training standards to commanders, and to ensure a current Core Capabilities METL is available for use in DRRS by the Marine Corps. All questions pertaining to the Marine Corps Ground T&R Program and Unit Training Management should be directed to: Commanding General, TECOM (Ground Training Branch C 469), 1019 Elliot Road, Quantico, VA 22134.

4. Command. This Directive is applicable to the Marine Corps Total Force.

5. Certification. Reviewed and approved this date.

1000. INTRODUCTION

1. The T&R Program is the Corps’ primary tool for planning, conducting and evaluating training, and assessing training readiness. Subject Matter Experts (SMEs) from the operating forces developed core capability Mission Essential Task Lists (METLs) for ground communities derived from the Marine Corps Task List (MCTL). T&R Manuals are built around these METLs and all events contained in T&R Manuals relate directly to this METL. This comprehensive T&R Program will help to ensure the Marine Corps continues to improve its combat readiness by training more efficiently and effectively. Ultimately, this will enhance the Marine Corps’ ability to accomplish real-world missions.

2. The T&R Manual contains the individual and collective training requirements to prepare units to accomplish their combat mission. The T&R Manual is not intended to be an encyclopedia that contains every minute detail of how to accomplish training. Instead, it identifies the minimum standards that Marines must be able to perform in combat. The T&R Manual is a fundamental tool for commanders to build and maintain unit combat readiness. Using this tool, leaders can construct and execute an effective training plan that supports the unit's METL. More detailed information on the Marine Corps Ground T&R Program is found in reference (a).

1001. UNIT TRAINING

1. The training of Marines to perform as an integrated unit in combat lies at the heart of the T&R program. Unit and individual readiness are directly related. Individual training and the mastery of individual core skills serve as the building blocks for unit combat readiness. A Marine's ability to perform critical skills required in combat is essential. However, it is not necessary to have all individuals within a unit fully trained in order for that organization to accomplish its assigned tasks. Manpower shortfalls, temporary assignments, leave, or other factors outside the commander’s control, often affect the ability to conduct individual training. During these periods, unit readiness is enhanced if emphasis is placed on the individual training of Marines on-hand. Subsequently, these Marines will be mission ready and capable of executing as part of a team when the full complement of personnel is available.

2. Commanders will ensure that all tactical training is focused on their combat mission. The T&R Manual is a tool to help develop the unit’s training plan. In most cases, unit training should focus on achieving unit proficiency in the core capabilities METL. However, commanders will adjust their training focus to support METLs associated with a major OPLAN/CONPLAN or named operation as designated by their higher commander and reported accordingly in the Defense Readiness Reporting System (DRRS). Tactical
training will support the METL in use by the commander and be tailored to meet T&R standards. Commanders at all levels are responsible for effective combat training. The conduct of training in a professional manner consistent with Marine Corps standards cannot be over emphasized.

3. Commanders will provide personnel the opportunity to attend formal and operational level courses of instruction as required by this Manual. Attendance at all formal courses must enhance the warfighting capabilities of the unit as determined by the unit commander.

1002. UNIT TRAINING MANAGEMENT

1. Unit Training Management (UTM) is the application of the Systems Approach to Training (SAT) and the Marine Corps Training Principles. This is accomplished in a manner that maximizes training results and focuses the training priorities of the unit in preparation for the conduct of its wartime mission.

2. UTM techniques, described in references (b) and (e), provide commanders with the requisite tools and techniques to analyze, design, develop, implement, and evaluate the training of their unit. The Marine Corps Training Principles, explained in reference (b), provide sound and proven direction and are flexible enough to accommodate the demands of local conditions. These principles are not inclusive, nor do they guarantee success. They are guides that commanders can use to manage unit-training programs. The Marine Corps training principles are:

- Train as you fight
- Make commanders responsible for training
- Use standards-based training
- Use performance-oriented training
- Use mission-oriented training
- Train the MAGTF to fight as a combined arms team
- Train to sustain proficiency
- Train to challenge

3. To maintain an efficient and effective training program, leaders at every level must understand and implement UTM. Guidance for UTM and the process for establishing effective programs are contained in references (a) through (g).

1003. SUSTAINMENT AND EVALUATION OF TRAINING

1. The evaluation of training is necessary to properly prepare Marines for combat. Evaluations are either formal or informal, and performed by members of the unit (internal evaluation) or from an external command (external evaluation).

2. Marines are expected to maintain proficiency in the training events for their MOS at the appropriate grade or billet to which assigned. Leaders are responsible for recording the training achievements of their Marines. Whether it involves individual or collective training events, they must ensure proficiency is sustained by requiring retraining of each event at or
before expiration of the designated sustainment interval. Performance of the training event, however, is not sufficient to ensure combat readiness. Leaders at all levels must evaluate the performance of their Marines and the unit as they complete training events, and only record successful accomplishment of training based upon the evaluation. The goal of evaluation is to ensure that correct methods are employed to achieve the desired standard, or the Marines understand how they need to improve in order to attain the standard. Leaders must determine whether credit for completing a training event is recorded if the standard was not achieved. While successful accomplishment is desired, debriefing of errors can result in successful learning that will allow ethical recording of training event completion. Evaluation is a continuous process that is integral to training management and is conducted by leaders at every level and during all phases of planning and the conduct of training. To ensure training is efficient and effective, evaluation is an integral part of the training plan. Ultimately, leaders remain responsible for determining if the training was effective.

3. The purpose of formal and informal evaluation is to provide commanders with a process to determine a unit’s/Marine’s proficiency in the tasks that must be performed in combat. Informal evaluations are conducted during every training evolution. Formal evaluations are often scenario-based, focused on the unit’s METs, based on collective training standards, and usually conducted during higher-level collective events. References (a) and (f) provide further guidance on the conduct of informal and formal evaluations using the Marine Corps Ground T&R Program.

1004. ORGANIZATION

1. T&R Manuals are organized in one of two methods: unit-based or community-based. Unit-based T&R Manuals are written to support a type of unit (Infantry, Artillery, Tanks, etc.) and contain both collective and individual training standards. Community-based are written to support an Occupational Field, a group of related Military Occupational Specialties (MOSs), or billets within an organization (EOD, NBC, Intel, etc.), and usually only contain individual training standards. T&R Manuals are comprised of chapters that contain unit METs, collective training standards (CTS), and individual training standards (ITS) for each MOS, billet, etc.

2. The Tank T&R Manual is a unit-based manual comprised of 10 chapters. Chapter 2 lists the Core Capability METs and their related Battalion and Company-level events. Chapters 3 through 8 contain collective events. Chapters 9 and 10 contain individual events.

1005. T&R EVENT CODING

1. T&R events are coded for ease of reference. Each event has up-to a 4-4-4-digit identifier. The first up-to four digits are referred to as a “community” and represent the unit type or occupation (TANK, TOW, 1802, etc.). The second up-to four digits represent the functional or duty area (TAC, CMDC, GNRY, etc.). The last four digits represent the level and sequence of the event.
2. The T&R levels are illustrated in Figure 1. An example of the T&R coding used in this Manual is shown in Figure 2.

![Figure 1: T&R Event Levels](image1)

![Figure 2: T&R Event Coding](image2)

**1006. COMBAT READINESS PERCENTAGE**

1. The Marine Corps Ground T&R Program includes processes to assess readiness of units and individual Marines. Every unit in the Marine Corps maintains a basic level of readiness based on the training and experience of the Marines in the unit. Even units that never trained together are capable of accomplishing some portion of their missions. Combat readiness assessment does not associate a quantitative value for this baseline of readiness, but uses a “Combat Readiness Percentage”, as a method to provide a concise descriptor of the recent training accomplishments of units and Marines.

2. Combat Readiness Percentage (CRP) is the percentage of required training events that a unit or Marine accomplishes within specified sustainment intervals.

3. In unit-based T&R Manuals, unit combat readiness is assessed as a percentage of the successfully completed and current (within sustainment interval) key training events called “Evaluation-Coded” (E-Coded) Events. E-Coded Events and unit CRP calculation are described in follow-on paragraphs. CRP achieved through the completion of E-Coded Events is directly relevant to readiness assessment in DRRS.
4. Individual combat readiness, in both unit-based and community-based T&R Manuals, is assessed as the percentage of required individual events in which a Marine is current. This translates as the percentage of training events for his/her MOS and grade (or billet) that the Marine successfully completes within the directed sustainment interval. Individual skills are developed through a combination of 1000-level training (entry-level formal school courses), individual on-the-job training in 2000-level events, and follow-on formal school training. Skill proficiency is maintained by retraining in each event per the specified sustainment interval.

1007. EVALUATION-CODED (E-CODED) EVENTS

1. Unit-type T&R Manuals can contain numerous unit events, some for the whole unit and others for integral parts that serve as building blocks for training. To simplify training management and readiness assessment, only collective events that are critical components of a mission essential task (MET), or key indicators of a unit’s readiness, are used to generate CRP for a MET. These critical or key events are designated in the T&R Manual as Evaluation-Coded (E-Coded) events. Formal evaluation of unit performance in these events is recommended because of their value in assessing combat readiness. Only E-Coded events are used to calculate CRP for each MET.

2. The use of a METL-based training program allows the commander discretion in training. This makes the T&R Manual a training tool rather than a prescriptive checklist.

1008. CRP CALCULATION

1. Collective training begins at the 3000 level (team, crew or equivalent). Unit training plans are designed to accomplish the events that support the unit METL while simultaneously sustaining proficiency in individual core skills. Using the battalion-based (unit) model, the battalion (7000-level) has collective events that directly support a MET on the METL. These collective events are E-Coded and the only events that contribute to unit CRP. This is done to assist commanders in prioritizing the training toward the METL, taking into account resource, time, and personnel constraints.

2. Unit CRP increases after the completion of E-Coded events. The number of E-Coded events for the MET determines the value of each E-Coded event. For example, if there are 4 E-Coded events for a MET, each is worth 25% of MET CRP. MET CRP is calculated by adding the percentage of each completed and current (within sustainment interval) E-Coded training event. The percentage for each MET is calculated the same way and all are added together and divided by the number of METS to determine unit CRP. For ease of calculation, we will say that each MET has 4 E-Coded events, each contributing 25% towards the completion of the MET. If the unit has completed and is current on three of the four E-Coded events for a given MET, then they have completed 75% of the MET. The CRP for each MET is added together and divided by the number of METS to get unit CRP; unit CRP is the average of MET CRP.
For Example:

- **MET 1**: 75% complete (3 of 4 E-Coded events trained)
- **MET 2**: 100% complete (6 of 6 E-Coded events trained)
- **MET 3**: 25% complete (1 of 4 E-Coded events trained)
- **MET 4**: 50% complete (2 of 4 E-Coded events trained)
- **MET 5**: 75% complete (3 of 4 E-Coded events trained)

To get unit CRP, simply add the CRP for each MET and divide by the number of METS:

\[
\text{MET CRP: } 75 + 100 + 25 + 50 + 75 = 325
\]

\[
\text{Unit CRP: } \frac{325 \text{ (total MET CRP)}}{5 \text{ (total number of METS)}} = 65\%
\]

### 1009. T&R EVENT COMPOSITION

1. This section explains each of the components of a T&R event. These items are included in all events in each T&R manual.

   a. **Event Code** (see Sect 1006). The event code is a 4-4-4 character set. For individual training events, the first 4 characters indicate the occupational function. The second 4 characters indicate functional area (TAC, CBTS, VOPS, etc.). The third 4 characters are simply a numerical designator for the event.

   b. **Event Title**. The event title is the name of the event.

   c. **E-Coded**. This is a “yes/no” category to indicate whether or not the event is E-Coded. If yes, the event contributes toward the CRP of the associated MET. The value of each E-Coded event is based on number of E-Coded events for that MET. Refer to paragraph 1008 for detailed explanation of E-Coded events.

   d. **Supported MET(s)**. List all METs that are supported by the training event.

   e. **Sustainment Interval**. This is the period, expressed in number of months, between evaluation or retraining requirements. Skills and capabilities acquired through the accomplishment of training events are refreshed at pre-determined intervals. It is essential that these intervals are adhered to in order to ensure Marines maintain proficiency.

   f. **Billet**. Individual training events may contain a list of billets within the community that are responsible for performing that event. This ensures that the billet’s expected tasks are clearly articulated and a Marine’s readiness to perform in that billet is measured.

   g. **Grade**. Each individual training event will list the rank(s) at which Marines are required to learn and sustain the training event.

   h. **Initial Training Setting**. For Individual T&R Events only, this specifies the location for initial instruction of the training event in one of three categories (formal school, managed on-the-job training, distance
Regardless of the specified Initial Training Setting, any T&R event may be introduced and evaluated during managed on-the-job training.

(1) “FORMAL” – When the Initial Training Setting of an event is identified as “FORMAL” (formal school), the appropriate formal school or training detachment is required to provide initial training in the event. Conversely, formal schools and training detachments are not authorized to provide training in events designated as Initial Training Setting “MOJT” or “DL.” Since the duration of formal school training must be constrained to optimize Operating Forces’ manning, this element provides the mechanism for Operating Forces’ prioritization of training requirements for both entry-level (1000-level) and career-level (2000-level) T&R Events. For formal schools and training detachments, this element defines the requirements for content of courses.

(2) “DL” – Identifies the training event as a candidate for initial training via a Distance Learning product (correspondence course or MarineNet course).

(3) “MOJT” – Events specified for Managed On-the-Job Training are to be introduced to Marines, and evaluated, as part of training within a unit by supervisory personnel.

i. Event Description. Provide a description of the event purpose, objectives, goals, and requirements. It is a general description of an action requiring learned skills and knowledge (e.g. Camouflage the M1A1 Tank).

j. Condition. Describe the condition(s), under which tasks are performed. Conditions are based on a “real world” operational environment. They indicate what is provided (equipment, materials, manuals, aids, etc.), environmental constraints, conditions under which the task is performed, and any specific cues or indicators to which the performer must respond. When resources or safety requirements limit the conditions, this is stated.

k. Standard. The standard indicates the basis for judging effectiveness of the performance. It consists of a carefully worded statement that identifies the proficiency level expected when the task is performed. The standard provides the minimum acceptable performance parameters and is strictly adhered to. The standard for collective events is general, describing the desired end-state or purpose of the event. While the standard for individual events specifically describe to what proficiency level in terms of accuracy, speed, sequencing, quality of performance, adherence to procedural guidelines, etc., the event is accomplished.

l. Event Components. Describe the actions composing the event and help the user determine what must be accomplished and to properly plan for the event.

m. Prerequisite Events. Prerequisites are academic training or other T&R events that must be completed prior to attempting the task. They are lower-level events or tasks that give the individual/unit the skills required to accomplish the event. They can also be planning steps, administrative requirements, or specific parameters that build toward mission accomplishment.
n. Chained Events. Collective T&R events are supported by lower-level collective and individual T&R events. This enables unit leaders to effectively identify subordinate T&R events that ultimately support specific mission essential tasks. When the accomplishment of any upper-level events, by their nature, result in the performance of certain subordinate and related events, the events are “chained.” The completion of chained events will update sustainment interval credit (and CRP for E-Coded events) for the related subordinate level events.

o. Related Events. Provide a list of all Individual Training Standards that support the event.

p. References. The training references are utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures. They assist the trainee in satisfying the performance standards, or the trainer in evaluating the effectiveness of task completion. References are also important to the development of detailed training plans.

q. Distance Learning Products (IMI, CBT, MCI, etc.). Include this component when the event can be taught via one of these media methods vice attending a formal course of instruction or receiving MOJT.

r. Support Requirements. This is a list of the external and internal support the unit and Marines will need to complete the event. The list includes, but is not limited to:

- Range(s)/Training Area
- Ordnance
- Equipment
- Materials
- Other Units/Personnel
- Other Support Requirements

s. Miscellaneous. Provide any additional information that assists in the planning and execution of the event. Miscellaneous information may include, but is not limited to:

- Admin Instructions
- Special Personnel Certifications
- Equipment Operating Hours
- Road Miles

2. Community-based T&R manuals have several additional components not found in unit-based T&R manuals. These additions do not apply to this T&R Manual.

1010. CBRNE TRAINING

1. All personnel assigned to the operating force must be trained in chemical, biological, radiological, nuclear, and explosive incident defense (CBRNE), in order to survive and continue their mission in this environment. Individual proficiency standards are defined as survival and basic operating standards. Survival standards are those that the individual must master in order to survive CBRNE attacks. Basic operating standards are those that the
individual, and collectively the unit, must perform to continue operations in a CBRNE environment.

2. In order to develop and maintain the ability to operate in an CBRNE environment, CBRNE training is an integral part of the training plan and events in this T&R Manual. Units should train under CBRNE conditions whenever possible. Per reference (c), all units must be capable of accomplishing their assigned mission in a contaminated environment.

1011. NIGHT TRAINING

1. While it is understood that all personnel and units of the operating force are capable of performing their assigned mission in “every climate and place,” current doctrine emphasizes the requirement to perform assigned missions at night and during periods of limited visibility. Basic skills are significantly more difficult when visibility is limited.

2. To ensure units are capable of accomplishing their mission they must train under the conditions of limited visibility. Units should strive to conduct all events in this T&R Manual during both day and night/limited visibility conditions. When there is limited training time available, night training should take precedence over daylight training, contingent on individual, crew, and unit proficiency.

1012. OPERATIONAL RISK MANAGEMENT (ORM)

1. ORM is a process that enables commanders to plan for and minimize risk while still accomplishing the mission. It is a decision making tool used by Marines at all levels to increase operational effectiveness by anticipating hazards and reducing the potential for loss, thereby increasing the probability of a successful mission. ORM minimizes risks to acceptable levels, commensurate with mission accomplishment.

2. Commanders, leaders, maintainers, planners, and schedulers will integrate risk assessment in the decision-making process and implement hazard controls to reduce risk to acceptable levels. Applying the ORM process will reduce mishaps, lower costs, and provide for more efficient use of resources. ORM assists the commander in conserving lives and resources and avoiding unnecessary risk, making an informed decision to implement a course of action (COA), identifying feasible and effective control measures where specific measures do not exist, and providing reasonable alternatives for mission accomplishment. Most importantly, ORM assists the commander in determining the balance between training realism and unnecessary risks in training, the impact of training operations on the environment, and the adjustment of training plans to fit the level of proficiency and experience of Sailors/Marines and leaders. Further guidance for ORM is found in references (b) and (d).

1013. APPLICATION OF SIMULATION

1. Simulations/Simulators and other training devices shall be used when they are capable of effectively and economically supplementing training on the
identified training task. Particular emphasis shall be placed on simulators that provide training that might be limited by safety considerations or constraints on training space, time, or other resources. When deciding on simulation issues, the primary consideration shall be improving the quality of training and consequently the state of readiness. Potential savings in operating and support costs normally shall be an important secondary consideration.

2. Each training event contains information relating to the applicability of simulation. If simulator training applies to the event, then the applicable simulator(s) is/are listed in the “Simulation” section and the CRP for simulation training is given. This simulation training can either be used in place of live training, at the reduced CRP indicated; or can be used as a precursor training for the live event, i.e., weapons simulators, convoy trainers, observed fire trainers, etc. It is recommended that tasks be performed by simulation prior to being performed in a live-fire environment. However, in the case where simulation is used as a precursor for the live event, then the unit will receive credit for the live event CRP only. If a tactical situation develops that precludes performing the live event, the unit would then receive credit for the simulation CRP.

1014. MARINE CORPS GROUND T&R PROGRAM

1. The Marine Corps Ground T&R Program continues to evolve. The vision for Ground T&R Program is to publish a T&R Manual for every readiness-reporting unit so that core capability METs are clearly defined with supporting collective training standards, and to publish community-based T&R Manuals for all occupational fields whose personnel augment other units to increase their combat and/or logistic capabilities. The vision for this program includes plans to provide a Marine Corps training management information system that enables tracking of unit and individual training accomplishments by unit commanders and small unit leaders, automatically computing CRP for both units and individual Marines based upon MOS and rank (or billet). Linkage of T&R Events to the Marine Corps Task List (MCTL), through the core capability METs, has enabled objective assessment of training readiness in the DRRS.

2. DRRS measures and reports on the readiness of military forces and the supporting infrastructure to meet missions and goals assigned by the Secretary of Defense. With unit CRP based on the unit’s training toward its METs, the CRP will provide a more accurate picture of a unit’s readiness. This will give fidelity to future funding requests and factor into the allocation of resources. Additionally, the Ground T&R Program will help to ensure training remains focused on mission accomplishment and that training readiness reporting is tied to units’ METLs.

4001. EVENT CODING. Events in the T&R Manual are depicted with a 12-field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology:

a. Field one – Each event in this chapter begins with “MCCS” indicating that the event is for Marine Corps Common Skills.

b. Field two – This field is alpha characters indicating a functional area. Functional areas for MCCS are:

ATFP – Anti-Terrorism/Force Protection       COND – Combat Conditioning
CORE – Core Values                           CSS – Combat Service Support
HIST – Marine Corps History                  JOPS – Joint Operations
LDR – Marine Corps Leadership                OFF – Offensive Measures
PAT – Scouting and Patrolling                UCMJ – Uniform Code of Military Justice
UNIF – Marine Corps Uniform, Clothing and Equipment

c. Field three – This field provides numerical sequencing.

4002. ADMINISTRATIVE NOTES. Each Event may contain a paragraph that describes internal and external Support Requirements the unit and Marines will need to complete the event. Ranges/Training Areas are described in this section with plain-language description. They are also described using the Range/Facility Codes that identify the type of range and/or training area needed to accomplish the Event. Marines can use the codes to find information about available ranges at their geographic location by using the web-based Range/Training Area Management System (see TECOM website). Ultimate use of the Range/Training Area Code is to relate ranges to readiness by identifying those Events that cannot be accomplished at a certain location due to lack of ranges. Tasks contained in this chapter relate to Individual Training Standards and as such are not reportable in DRRS. There is a presumption that these Individual tasks provide the foundation for collective tasks contained within appropriate occupational field T&R manuals of which some are DRRS reportable.

5000. PURPOSE. This chapter includes all basic military skill events. A basic military skill is an event that an established unit would likely perform in combat.

5001. EVENT CODING. Events in the T&R Manual are depicted with a 12 field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology:

a. Field one – Each event in this chapter begins with “MCCS or 0300” indicating that the event is for Marine Corps Common Skills.

b. Field two – This field is alpha characters indicating a functional area. Functional areas for MCCS are:

- CBRN - Chemical, Biological, Radiological and Nuclear
- COD - Close Order Drill
- COND - Combat Conditioning
- LDR - Marine Corps Leadership
- NAV - Land Navigation
- T3 - Train the Trainer
- FSPT - Fire Support

- COMM - Communications
- CSS - Combat Service Support
- MED - First Aid
- SWIM - Combat Water Survival
- WPNS - Weapons
- PAT - Scouting and Patrolling

c. Field three - This field provides numerical sequencing.

5002. ADMINISTRATIVE NOTES. Each Event may contain a paragraph that describes internal and external Support Requirements the unit and Marines will need to complete the event. Ranges/Training Areas are described in this section with plain-language description. They are also described using the Range/Facility Codes that identify the type of range and/or training area needed to accomplish the Event. Marines can use the codes to find information about available ranges at their geographic location by using the web-based Range/Training Area Management System (see TECOM website). Ultimate use of the Range/Training Area Code is to relate ranges to readiness by identifying those Events that cannot be accomplished at a certain location due to lack of ranges. Tasks contained in this chapter relate to Individual Training Standards and as such are not reportable in DRRS. There is a presumption that these Individual tasks provide the foundation for collective tasks contained within appropriate occupational field T&R manuals of which some are DRRS reportable.

5004. MCCS (Vol. 2) BASIC MILITARY KNOWLEDGE

MCCS-CBRN-2301: Employ CBRNE Protective Measures

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 24 months

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a unit, a tactical scenario, a training area, and individual protective equipment.

STANDARD: By ensuring complete and serviceable equipment and trained Marines.

PERFORMANCE STEPS:
1. Ensure Marines have the required individual protective clothing.
2. Ensure serviceability of equipment.
3. Ensure Marines are prepared to react quickly if commanded to don protective clothing.
4. Receive command to assume MOPP level 1-4.
5. Ensure Marines assume appropriate MOPP level.
6. Ensure appropriate MOPP level is maintained until directed otherwise.
7. Identify NATO CBRN markers.

MCCS-CBRN-2302: React to a Chemical, Biological, Radiological, Nuclear, Explosive Attack

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 24 months

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a simulated chemical or biological attack, MOPP gear, a poncho, and a CBRN alarm or order.

STANDARD: To minimize chemical or biological casualties.

PERFORMANCE STEPS:
1. Don MOPP gear.
2. Perform basic functions while in MOPP.
3. Perform MOPP gear exchange.
4. Perform CBRNE detection measures.
5. Decontaminate, personnel, weapons and equipment.
6. Control spread of contamination.
7. Perform unmasking procedures.
8. Treat CBRN casualty.
9. Submit a CBRNE-1 report.

**EVALUATION-CODED:** NO  
**SUSTAINMENT INTERVAL:** 24 months

**GRADES:** CPL, SGT, SSGT, GYSGT, WO-1, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING:** MOJT

**CONDITION:** Given a radio.

**STANDARD:** Ensuring equipment is functional without compromising communications.

**PERFORMANCE STEPS:**
1. Assemble a radio set.
2. Set a frequency.
3. Transmit a message.
4. Receive a message.
5. Disassemble a radio set.
6. Troubleshoot, as required.
7. Maintain a radio set at the user level.

**EQUIPMENT:**
1. Field expedient dumbbells (ammo cans full of sand).
2. Field expedient medicine balls (sand bags full of sand).
3. Marine Corps martial arts belt or web belt.
5. Sustainment load.
6. T/O weapon.

**MISCELLANEOUS:**

**ADMINISTRATIVE INSTRUCTIONS:**
1. Hikes should be conducted successively over a period of months with no more than one hike per week.
2. Hike gear and equipment should be determined by unit commanders in accordance with mission requirements.
**MCCS-CSS-2302:** Initiate a logistics support request

**EVALUATION-CODED:** NO  
**SUSTAINMENT INTERVAL:** 24 months

**GRADES:** SSGT, GYSGT, MSGT

**INITIAL TRAINING SETTING:** MOJT

**CONDITION:** Given a mission with logistics support requirements.

**STANDARD:** By ensuring the unit is prepared for the mission.

**PERFORMANCE STEPS:**
1. Determine the logistics support functions required to support the assigned mission.
2. Determine the principles of logistics support that would be applied to successfully support a MAGTF.
3. Determine the logistics support organization that would be employed to support the assigned mission of a MAGTF.
4. Use formats required to request classes of support.
5. Follow up with supporting agency.

MCCS-LDR-2204: Conduct a military brief

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a unit and references.

STANDARD: By communicating the information points of the brief.

PERFORMANCE STEPS:
1. Conduct research.
2. Prepare rough draft outline.
3. Conduct a back brief.
4. Construct the brief.
5. Prepare media, visual aids, and equipment needed for the brief.
6. Rehearse the brief.
7. Provide introduction.
8. Present body.
9. Apply public speaking skills.
10. Demonstrate command presence.
11. Check for understanding.
13. Use effective public speaking skills.
14. Follow up as required.

MCCS-LDR-2205: Process administrative correspondence

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given Marines, materials, and references.

STANDARD: To support the unit's mission and recognize Marines.

PERFORMANCE STEPS:
1. Review correspondence submitted from subordinates.
2. Draft correspondence.
3. Apply directives.
4. Draft award recommendation.
5. Edit all errors.
6. Sign correspondence as required.
7. Submit correspondence.

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a simulated cardiac patient (Resusci-Annie).

STANDARD: By resuscitating the victim.

PERFORMANCE STEPS:
1. Check for unresponsiveness.
2. Call for help.
3. Position the victim.
4. Open the airway.
5. Check for breathing.
6. Give two full, even breaths (1-1 1/2 seconds each).
7. Check for pulse.
9. Locate compression position in center of chest.
10. Give thirty compressions (80-100 compressions per minute).
11. Give two full breaths.
12. Alternate compressions with rescue breathing, i.e. 30 compressions, 2
breaths, 30 compressions, 2 breaths, etc.
13. Recheck pulse.
14. Continue with compressions and breathing until victim revives or help
arrives.

MCCS-MED-2104: Administer First Aid.

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT
CONDITION: Given a simulated combat scenario involving casualties and using the Individual First Aid Kit (IFAK).

STANDARD: Treat casualties to prevent further injury,

PERFORMANCE STEPS:
1. Evaluate the casualty.
2. Perform the necessary steps to treat an immediate life threatening injury.
3. Prevent and/or treat injuries that are not immediately life threatening.
4. Select the correct triage precedence.
5. Select the correct procedure for transporting the injured individual.

MCCS-MED-2305: Enforce field sanitation.

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a group of Marines, a training site, and individual field equipment.

STANDARD: In accordance with the reference.

PERFORMANCE STEPS:
1. Ensure individual Marines understand the importance of personal hygiene and sanitation in the field.
2. Enforce intake of treated water only.
3. Ensure intake of food from approved sources.
4. Take steps to prevent insect, arthropod, and rodent infestation.
5. Direct the disposal of waste in an approved manner.
6. Direct the use of field sanitation devices.
7. Ensure Marines wash uniforms/clothing and bedding frequently.
8. Direct Marines to wash hands frequently.
9. Ensure Marines keep as dry as possible.
10. Ensure Marines bathe daily or at least once a week.
11. Ensure Marines practice daily oral hygiene.
12. Ensure Marines maintain an adequate supply of toilet articles.
13. Ensure Marines get adequate rest and sleep.
14. Conduct inspections, as required.
15. Take corrective action, as needed.

MCCS-NAV-2101: Navigate between points

EVALUATION-CODED: NO  
SUSTAINMENT INTERVAL: 12 months

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a compass, map, ruler, protractor, and points during daylight and darkness.

STANDARD: To support the scheme of maneuver and accomplish the mission.

PERFORMANCE STEPS:
1. Identify the map sheet number, map series number, 100,000 meter square identification, and/or grid designator for a given grid coordinate.
2. Identify topographical symbols.
3. Identify specific items of marginal information affecting a unit's tactical performance.
4. Compute the location of a given feature, to include the 8-digit grid coordinate and 100,000 meter square identification.
5. Compute the distance between two points.
6. Compute elevation.
7. Determine slope of terrain from a map.
8. Identify terrain features.
9. Compute the pace count.
10. Compute adjusted magnetic azimuth between points based on the calibration of the compass.
11. Separate the compass from magnetic interference.

MCCS-SWIM-2301: Perform the abandon ship technique/swim

EVALUATION-CODED: NO  
SUSTAINMENT INTERVAL: 24 months

GRADES: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given utility uniform and boots and without the aid of references.

STANDARD: In accordance with the references.

PERFORMANCE STEPS:
1. Enter the water.
2. Travel 25 M utilizing any combination of survival strokes or beginner swimmer.
3. Exit the water.
REFERENCES:

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS:
1. For Step #1, use the abandon ship technique, from minimum height of 8 feet (maximum of 15 feet).
2. Purposefully touching the bottom or side of the pool during Step #2 will disqualify the Marine.
3. For Step #2, beginner swimmer strokes may be executed front or back.
4. Medical support must be available in training area when performing this task.
5. Ensure all safety precautions are adhered to when performing this task.

MCCS-SWIM-2302: Perform personal movement in the water

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 24 months

GRADES: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given utility uniform, boots, flak jacket, load bearing vest or issued equipment, two empty magazine pouches, two full canteens with covers, thirty pound pack (water proof equipment inserted), and rubber rifle and without the aid of references.

STANDARD: In accordance with the references.

PERFORMANCE STEPS:
1. Enter shallow water (minimum 1m depth) with rubberized training rifle at port.
2. Walk 20 meters in shallow water (minimum 1m depth/waist deep).
3. Walk 20 meters in chest high water.
4. Travel for 20 meters in chest deep water using a modified breaststroke arm movement and modified combat travel stroke leg movement (bicycle kick).
5. Travel for 40 meters in deep water using a modified breaststroke arm movement and modified combat travel stroke leg movement (bicycle kick).
6. Exit the water.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS:
1. Medical support must be available in training area when performing this task.
2. Ensure all safety precautions are adhered to when performing this task.
3. Weapon will be at port arms during Step #2 of this task.
4. Weapon will be slung around neck, muzzle down during Steps #3, #4, and #5 of this task.
5. Touching the side of the pool in Steps #4 and #5 of this task will disqualify the Marine.

MCCS-SWIM-2303: Perform low tower modified abandon ship technique/swim

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 24 months

GRADERS: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given utility uniform, boots, flak jacket, load bearing vest or issued equipment, two empty magazine pouches, two full canteens with covers, thirty pound pack (water proof equipment inserted), and rubber rifle and without the aid of references.

STANDARD: In accordance with the references.

PERFORMANCE STEPS:
1. Enter deep water, place weapon around head with muzzle down, travel 10 meters.
2. Remove pack.
3. Travel 15m transporting both pack and weapon.
4. Exit the water.

REFERENCES:
1. ARC SWIM/DIVE American Red Cross Swimming and Diving, Mosby Lifeline, 1992

5. MCRP 3-02C Marine Combat Water Survival

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS:
1. For Step #1, use the modified abandon ship technique and from a minimum height of 5 feet (maximum of 8 feet). The modified abandon ship technique consists of placing one hand on the helmet and the other hand on the weapon (either on the sling or the hand guard).
2. Touching the side or the bottom of the pool during this task will disqualify the Marine.
3. Failure to maintain control of the helmet and weapon will disqualify the Marine.
4. Medical support must be available in training area when performing this task.
5. Ensure all safety precautions are adhered to when performing this task.

**MCCS-SWIM-2304:** Perform survival stroke swim

**EVALUATION-CODED:** NO  
**SUSTAINMENT INTERVAL:** 24 months

**GRADES:** WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING:** FORMAL

**CONDITION:** Given utility uniform, boots, flak jacket, load bearing vest or issued equipment, two empty magazine pouches, two full canteens with covers, and rubber rifle and without the aid of references.

**STANDARD:** In accordance with the references.

**PERFORMANCE STEPS:**
1. Enter water from the side of the pool, and using one or a combination of survival strokes, travel 50 meters in deep water.
2. Exit the water.

**REFERENCES:**
1. ARC SWIM/DIVE American Red Cross Swimming and Diving, Mosby Lifeline, 1992

5. MCRP 3-02C Marine Combat Water Survival

**MISCELLANEOUS:**

**ADMINISTRATIVE INSTRUCTIONS:**
1. Weapon will be slung across back (muzzle down).
2. Medical support must be available in training area when performing this task.
3. Ensure all safety precautions are adhered to when performing this task.
4. Touching the side of the pool or pushing off the bottom of the pool will disqualify the Marine; inadvertent touches or kicks off the bottom or side of the pool will not disqualify the Marine.

**MCCS-SWIM-2305:** Perform collar-tow

**EVALUATION-CODED:** NO  
**SUSTAINMENT INTERVAL:** 24 months

**GRADES:** WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING:** FORMAL
**CONDITION:** Given utility uniform, boots, flak jacket, load bearing vest or issued equipment, two empty magazine pouches, two full canteens with covers, thirty pound pack (water proof equipment inserted), and rubber rifle and without the aid of references.

**STANDARD:** In accordance with the references.

**PERFORMANCE STEPS:**
1. Enter deep water and perform a 25-meter collar-tow on wounded "victim", while the "victim" simultaneously tows two packs (one under each arm).
2. Exit the water.

**REFERENCES:**
1. ARC SWIM/DIVE American Red Cross Swimming and Diving, Mosby Lifeline, 1992

5. MCRP 3-02C Marine Combat Water Survival

**MISCELLANEOUS:**

**ADMINISTRATIVE INSTRUCTIONS:**
1. Medical support must be available in training area when performing this task.
2. Ensure all safety precautions are adhered to when performing this task.
3. Weapons will be slung across the back (muzzle down).
4. Victim will hold on to the two packs and will not assist in propulsion.

**MCCS-T3-2101:** Determine individual and collective training requirements

**EVALUATION-CODED:** NO  
**SUSTAINMENT INTERVAL:** 12 months

**GRADES:** CPL, SGT, SSGT, GYSGT, 1STSGT, MSGT, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING:** FORMAL

**CONDITION:** Given an individual or unit to be trained; higher headquarters (battalion-level) METL or Collective Task List (company level and below); unit mission statement, commander's guidance, training requirements and training plan; the required equipment, supplies and other training support; an appropriate location; and the required references, including a unit SOP, if available.

**STANDARD:** In priority, in performance step sequence, prior to creation of the training plan.

**PERFORMANCE STEPS:**
1. Review higher unit METL or Collective Task List, unit mission, and commanders training guidance.
2. Determine training requirements, priorities and other key planning factors and considerations.
3. Review supporting USMC and USA reference documents (USMC Infantry Training
& Readiness Manual; USA Field Manuals, Mission Training Plans, Training Circulars, etc.) to fill in gaps in T/C/Ss and to identify key references for identifying supporting individual and collective tasks.

4. Select a task from higher unit METL/collective task list.
5. Identify the collective and individual tasks required for the subordinate unit to accomplish higher’s task.
6. Repeat the process for each higher unit collective task.
7. Prioritize tasks for training.
8. Ask "what is the task's difficulty in terms of learning and performance?"
9. Ask "what is the importance of the task to the unit's mission or job?"
10. Ask "how frequently is the task performed?"
11. Group the tasks by priority.
12. Provide task list to higher for approval.
13. Adjust task lists as directed.
15. Re-prioritize tasks based on findings.

MCCS-T3-2102: Develop a Training Plan

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

DESCRIPTION: A training plan will contain a detailed training schedule. The detailed training schedule contains, at a minimum: the unit to be trained, a timeline, a list of individual and collective tasks with conditions, standards and performance steps to be trained, an evaluation plan, primary and assistant trainers, weapons, gear and equipment requirements and OPFOR tasks and standards (if applicable).

GRADES: CPL, SGT, SSgt, GYSgt, 1STSGT, MSGT, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an individual or unit to be trained; the commander's training guidance and unit’s collective task list (essential task list), training requirements; a long range training plan, the prioritized list of individual and collective tasks to be trained; the required equipment, supplies and other training support; an appropriate location; and the required references, including a unit SOP, if available.

STANDARD: So that the training plan complies with higher level guidance and is doctrinally and technically current, allocates approximately one-third of available time to assembly and rehearsal activities; one-third to lane execution and after action review (AAR) activities; and one-third to re-training activities.

PERFORMANCE STEPS:
1. Review the performance and evaluation standards for the tasks.
2. Ensure the appropriate proficiency level is captured.
4. Determine the current individual and unit proficiency level.
5. Outline the training plan.
6. Identify prerequisite training requirements.
7. Identify milestones.
8. Brief higher on training plan and adjust if necessary.
9. Estimate the resources required to support the exercise.
10. Establish a training calendar.
11. Assign training responsibilities to specific individuals or units.
12. Confirm availability of resources.
13. Allocate resources.
14. Develop training scenarios to facilitate realistic execution of the tasks and/or force on force training.
15. Produce necessary orders for scenario.
16. Conduct a reconnaissance of training areas.
17. Complete the Operational Risk Assessment Matrix.
18. Determine all logistical requirements.
19. Plan for exercise control.
20. Plan for administrative and logistical support.
22. Anticipate problems.
23. Develop contingency plans.

MCCS-T3-2103: Conduct Training

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: CPL, SGT, SSGT, GYSGT, 1STSGT, MSGT, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an individual or unit to be trained; the commander's guidance and training requirements; a training plan; the required equipment, supplies and other training support; an appropriate location; and the required references, including a unit SOP, if available.

STANDARD: So that all trainees meet or exceed the performance standards for all training objectives, that the training follows the training plan; is doctrinally and technically current; is performance oriented; and complies with the commander's guidance and regulations for safety and security, so that the training is assessed and the training is recorded and the results are reported.

PERFORMANCE STEPS:
1. Certify all instructors/trainers.
2. Rehearse the tasks.
3. Rehearse classes.
4. Utilize current and relevant tasks, conditions, standards (T/C/S) and performance steps.
5. Brief students on tasks, conditions, standards and performance steps prior to the execution of the training.
6. Establish a safe training environment.
7. Provide safety brief prior to commencement of training.
8. Rehearse CASEVAC procedures.
9. Ensure students have all required equipment, supplies and information prior to the commencement of training.
10. Provide orientation to training area, range and key terrain.
11. Demonstrate the task to desired standard.
12. Provide adequate rehearsal time and instructor supervision (coaching) until Marines/units are able to complete the tasks to standards.
13. Have Marines/units perform the task for assessment.
15. Provide target feedback for all weapon systems and munitions.
17. Maintain a positive learning environment.
18. Conduct After Action Review.
19. Increase task complexity.
20. Repeat tasks.
21. Allocate sufficient time to train.
22. Ensure adequate resources.
23. Record the training performance.

REFERENCE:
1. TC 25-10 A Leader's Guide to Lane Training

MCCS-T3-2104: Execute Lane Training

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

DESCRIPTION: Lane Training utilizes the Crawl, Walk, Run process to develop unit proficiency during rehearsals. Rehearsals refresh proper TTP, identify and correct weaknesses prior to execution. LTX OCs facilitate training while the unit leaders are responsible for training and proficiency verification. Tailor lane training conditions to appropriate unit level. Modify conditions to add variety and improve proficiency. Strive for realism but not until the unit has achieved the desired standard. Plan complete scenarios and establish boundaries to avoid free play. Repeat tasks several times to achieve sustained improvement in task proficiency. Lane Training is conducted at Lane Training Exercise Area (LTX area) and is composed of five activities: Assembly area, Rehearsal Area, Lane Execution, After Action Review (AAR) Area, and Retraining Area. Actions in each of these areas will be described in related events. The realism, speed and complexity should increase after proper execution of tasks (tactical scenarios, time constraints, adverse conditions) and basic skills and tasks should be mastered before task complexity is increased.

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a company-sized unit or smaller to be trained; the commander's guidance and training objectives; a training plan; the required
equipment, supplies and other training support; an appropriate location; and
the required references, including a unit SOP, if available.

**STANDARD:** So that the training follows the training plan; is doctrinally and
technically current; is sequential in space or time; is performance oriented;
and complies with the commander's guidance and regulations for safety and
security.

**PERFORMANCE STEPS:**
1. Utilize validated tasks from training and readiness manuals for the Lane
   Training Exercise
2. Utilize validated standards for evaluation.
3. Conduct unit assessment prior to planning the training.
4. Ensure all observer-controllers (OCs) trained and verified on specific
tasks.
5. Develop unit leader task proficiency.
6. Ensure prerequisite Marine, Leader and collective tasks are trained to
   standard prior to LTX.
7. Establish a minimum support structure of OC teams and OPFOR (if
   appropriate).
8. Train opposing forces (OPFOR).
9. Rehearse OPFOR.
10. Maximize use of Training Time.
11. Design short, standardized, focused scenarios.
12. Plan for several repetitions of task.
13. Plan for multiple units to utilize LTX.
15. Plan concurrent training.
16. Allocate sufficient time to train.
17. Record the training and performance.

CONDITION: Given a company-sized unit or smaller to be trained; the commander's guidance and training objectives; a training plan; the required equipment, supplies and other training support; an appropriate location; the required references, including a unit SOP, if available, and an established lane training area.

STANDARD: Following assembly area and rehearsal area actions, after assembly area actions, so that the training follows the training plan; is doctrinally and technically current; is sequential in space or time; is performance oriented; and complies with the commander's guidance and regulations for safety and security.

PERFORMANCE STEPS:
1. Confirm safety considerations and ORM mitigating actions.
2. Confirm Tasks, Conditions, Standards, and scenario.
3. Leaders move unit through the execution area.
4. Unit performs task to the desired standards.
5. OC and unit leader evaluates task against desired standard.
6. Coaching or unscheduled AARs are conducted when task is performed incorrectly.
7. Senior OC directs unit leader to move to formal AAR Area.

MCCS-T3-2110: Evaluate a Lane Training Exercise (LTX)

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a completed lane training exercise.

STANDARD: So that all performance step questions are answered, and the commanding officer is presented with a written report without spelling, grammatical or formatting error, within the time allotted by the commanding officer.

PERFORMANCE STEPS:
1. Evaluate training.
2. Ask: "was the instructor organized?"
3. Ask: "did the instructor establish clearly defined tasks, conditions and performance standards?"
4. Ask: "did the instructor give an effective orientation to the training area before beginning training?"
5. Ask: "did the instructor explain the exercise layout, rotation plan and expected throughput?"
6. Ask: "did the instructor demonstrate a good grasp of the execution concept and give effective answers to questions?"
7. Evaluate student/unit leader performance.
8. Ask: "did unit leaders conduct PreCombat Checks and Inspections (PCCIs) to ensure that their Marines were properly prepared for training (i.e. correct equipment and supplies, note-taking material, training folders, etc.)?"
9. Ask: "prior to arrival, did leaders explain to their troops the tasks to be trained?"
10. Ask: "prior to arrival did leaders train their units to standard on pre-requisite tasks?"
11. Evaluate the lane training exercise.
12. Ask: "was the training supported with accurate evaluation checklists?"
13. Ask: "were the tasks, conditions and standards tailored for the specific training and training area?"
14. Ask: "were the learning objectives specific, measurable and described an observable outcome?"
15. Ask: "did the lane design support unit leaders' ability to assess the performance of their Marines?"
16. Ask: "did the lane design maximize the opportunity to stack tasks?"
17. Ask: "did the instructors ensure that target feedback was provided for all rounds expended (live, SESSAMs and blank)?"
18. Ask: "for high explosive ammunition, was feedback provided based on effective casualty radius and type of target?"
19. Ask: "was the attainment of performance standards emphasized over the time spent training on each task?"
20. Ask: "was the time allocated to training sufficient to attain the task performance standards?"
21. Ask: "was concurrent (opportunity) training effectively planned and used?"
22. Ask: "was wasted time minimized?"
23. Evaluate the after action review.
24. Ask: "did the AAR focus on the tasks being trained?"
25. Ask: "did the instructors/observers-controllers (OCs) use the performance steps/standards as basis for conducting the AAR?"
26. Evaluate the remediation program.
27. Ask: "did the training plan and execution allow for remediation of substandard performance?"
28. Ask: "was the correct technique for 'trend reversal' used?"
29. Ask: "if overall, was the training relevant, efficient and effective?"

MCCS-WPNS-2101: Enforce live-fire safety

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a live-fire range, facilities, equipment, Marines, weapons, ammunition, and references.

STANDARD: To ensure live-fire training is conducted safely in accordance with the references and local standing operating procedures (SOPs).

PERFORMANCE STEPS:
1. Ensure weapons are inspected for serviceability.
2. Ensure only authorized ammunition is used.
3. Ensure all Marines are briefed on the proper safety procedures for the range.
4. Ensure proper separation of live and blank ammunition.
5. Ensure range safety flags, markers, and signs are posted.
6. Ensure road guards are posted, as required.
7. Ensure corpsman and safety vehicle are in place.
8. Review emergency evacuation procedures.
9. Maintain two way communication.
10. Ensure shooters follow all commands from range personnel.
11. Ensure all personnel are familiar with cease fire or check fire procedures.
12. Ensure personal protective equipment (PPE) is properly used.
13. Ensure unexploded ammunition is handled by authorized personnel.
14. Ensure all weapons are clear upon completion of firing.
15. Ensure all ammunition malfunctions are properly reported and disposed of by authorized personnel.

0300-FSPT-2002: Call for indirect fire using the grid method

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

MOS PERFORMING: 0311, 0317, 0331, 0341, 0351, 0352, MCCS

GRADES: SGT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a map, compass, protractor, target, and radio with frequency.

STANDARD: By achieving effective fire on target within three adjustments.

PERFORMANCE STEPS:
1. Determine target description.
2. Determine/estimate the location of the target using grid coordinates.
3. Determine the direction to the target from the observer's position in mils.
4. Determine/estimate the distance to the target from the observer's position in meters.
5. Establish an observer to target factor.
6. Determine the method of engagement.
7. Determine the method of fire and control.
8. Initiate a call for fire by transmitting observer identification and warning order to the fire direction center.
9. Transmit a target location using an eight digit grid coordinate to the fire direction center.
10. Transmit a target description, method of engagement, and method of fire
and control to the fire direction center.

11. Receive a message to observer from the fire direction center.
12. Receive "shot, over" from the fire direction center.
13. Transmit "shot, out" to the fire direction center.
14. Observe the impact of the round.
15. Spot the round for height of burst, range, and deviation from the target.
16. Using the height of burst (HOB) spotting, determine the height of burst correction in meters.
17. Using the range spotting, determine the range correction in meters using successive or hasty bracketing.
18. Using the deviation spotting and the OT factor (The mil relation formula or WERM rule), determine the deviation correction in meters.
19. Transmit the direction to the target from the observer's position in mils grid.
20. Transmit a correction for deviation, range, and height of burst.
21. Repeat performance steps 11 through 18 until the target is within the effective casualty radius/HOB of the round.
22. Transmit a request to fire for effect to the fire direction center.
23. Receive "rounds complete, over" from the fire direction center.
24. Transmit "rounds complete, out" to the fire direction center.
25. Determine the effect on target.
27. Transmit refinement correction, record as target if required, an end of mission request, and battle damage assessment.

6000. PURPOSE. This chapter includes all weapons events. A weapons event is that an established unit would likely perform in combat.

6001. EVENT CODING. Events in the T&R Manual are depicted with a 12-field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology:

a. Field one - Each event in this chapter begins with "MCCS" indicating that the event is for Marine Corps Common Skills.

b. Field two - This field is alpha characters indicating a functional area. Functional areas are:

   WPNS - Weapons
   CSW - Crew Serve Weapon

c. Field three - This field provides numerical sequencing.

6002. ADMINISTRATIVE NOTES. Events may contain a paragraph that describes internal and external support requirements the unit and Marines will need to complete the event. Ranges and Training Areas are described in this section with plain-language description. They are also described using the Range/Facility Codes that identify the type of range or training area needed to accomplish the Event. Marines can use the codes to find information about available ranges at their geographic location by using the web-based Range/Training Area Management System (see TECOM website). Ultimate use of the Range/Training Area Code is to relate ranges to readiness by identifying those Events that cannot be accomplished at a certain location due to lack of ranges. Tasks contained in this chapter relate to Individual Training Standards and as such are not reportable in DRRS. There is a presumption that these Individual tasks provide the foundation for collective tasks contained within appropriate occupational field T&R manuals of which some are DRRS reportable. Those Marines with a primary machinegun MOS, and those Marines assigned to a machinegun team regardless of MOS, will use ammo allocations other than the MCCS allocation. Dummy ammo is allocated at the rate of 6 rounds per T/E weapon system and is not consumable, and should be utilized for all task requiring dummy ammo.

6003. INDOOR SIMULATED MARKSMANSHIP TRAINER. ISMT’s are found across the entire Marine Corps and have been shown to successfully improve live fire weapons training. It is recommended that before any live fire event, the ISMT is utilized in order to familiarize Marines with the weapons and conduct of the range.

**MISCELLANEOUS:**

**ADMINISTRATIVE INSTRUCTIONS:**
1. Although this MCCS event is listed for all Marines, it is required only for those personnel assigned as a member of a crew served weapon team.
2. The members are based on the current unit T/E to determine the appropriate number of weapons available and personnel to be trained.
3. This task should be trained to standard through the use of the individual small-arms marksmanship trainer (ISMT) prior to the expenditure of live rounds.
MCCS-CSW-2102: Set headspace and timing on the M2 Heavy Machine gun

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

MOS PERFORMING: MCCS

BILLETS: Marines assigned to a machine gun team

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a mounted M2 Heavy Machine gun, and a headspace and timing gauge, while wearing a fighting load.

STANDARD: In order to bring the weapon into service.

PERFORMANCE STEPS:
1. Open feed tray cover.
2. Pull retraction slide handle back until barrel extension is 1/16th inch from trunnion block.
3. Ensure the "Go" end of the headspace gauge inserts freely in the T slot between the face of the bolt and the rear end of the barrel.
4. Ensure the "No-Go" end of the headspace gauge does not insert in the T slot between the face of the bolt and the rear end of the barrel.
5. Remove the headspace gauge.

2. The members are based on the current unit T/E to determine the appropriate number of weapons available and personnel to be trained/maintain proficiency.

MCCS-CSW-2103: Perform immediate action on the M2 Heavy Machinegun

EVALUATION-CODED: NO                  SUSTAINMENT INTERVAL: 12 months

MOS PERFORMING: MCCS

BILLETS: Marines assigned to a Machinegun team

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a M2 Heavy Machinegun, loaded with ammunition, with a malfunction or stoppage, while wearing a fighting load.

STANDARD: To return the weapon to action.

PERFORMANCE STEPS:
1. Wait 5 seconds in case of a hang fire.
2. Within 5 seconds to guard against a cookoff, pull the retracting slide handle to the rear.
3. Immediately release the retracting slide handle to allow it to return freely.
4. Look for feeding and ejecting.
5. Attempt to fire.
6. If retracting slide handle could not be pulled to the rear, determine if barrel is hot or cold.
7. If hot, wait 15 minutes for possibility of cook off.
8. Once determined not hot, (perform cold barrel procedures) raise feedtray cover.
9. Remove ammunition.
10. Inspect chamber.
11. Clear chamber (if brass is present).
12. Reload weapon.
13. Engage targets.

7000. PURPOSE. This chapter includes all tactics events. A tactics event is that an established unit would likely perform in combat.

7001. EVENT CODING. Events in the T&R Manual are depicted with a 12 field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology:

   a. Field one - Each event in this chapter begins with "MCCS, 0300, 0311, 0302, 0369" indicating that the event is for Marine Corps Common Skills.

   b. Field two - This field is alpha characters indicating a functional area. Functional areas are:

   ATFP - Anti-Terrorism/Force Protection
   CSW - Crew Served Weapons
   DEMO - Demolitions/Munitions
   IED - Improvised Explosive Device Defeat
   MED - First Aid
   MOUT - Military Operations On Urban Terrain
   OFF - Offensive Measures
   OPS - Operations
   PAT - Scouting and Patrolling
   COMM - Communications
   DEF - Defensive Measures
   MED - First Aid

7002. ADMINISTRATIVE NOTES. Each event may contain a paragraph that describes internal and external Support Requirements the unit and Marines will need to complete the event. Ranges and training areas are described in this section with plain-language description. They are also described using the Range/Facility Codes that identify the type of range or training area needed to accomplish the Event. Marines can use the codes to find information about available ranges at their geographic location by using the web-based Range/Training Area Management System (see TECOM website). Ultimate use of the Range/Training Area Code is to relate ranges to readiness by identifying those Events that cannot be accomplished at a certain location due to lack of ranges. There are several simulations available across the Marine Corps that are focused on training at the small unit tactical level. Those tasks can be trained through the use of simulation are identified in this chapter. See Appendix D for more detail on availability and use of specific simulations. Tasks contained in this chapter relate to Individual Training Standards and as such are not reportable in DRRS. There is a presumption that these Individual tasks provide the foundation for collective tasks contained within appropriate occupational field T&R manuals of which some are DRRS reportable.

7004. MCCS (Vol. 2) TACTICS

**MCCS-ATFP-2101**: Employ measures to combat terrorism

**EVALUATION-CODED**: NO  **SUSTAINMENT INTERVAL**: 24 months

**GRADES**: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING**: FORMAL

**CONDITION**: Given a tactical scenario involving a terrorist threat.

**STANDARD**: To prevent terrorist attacks.

**PERFORMANCE STEPS**:
1. Conduct a unit vulnerability assessment.
2. Identify physical security measures to protect an installation from terrorist attack.
3. Identify individual security measures to minimize vulnerability to terrorist attack.
4. Implement protective security measures.

**REFERENCES**:

**MCCS-CSW-2111**: Construct a machine gun position

**EVALUATION-CODED**: NO  **SUSTAINMENT INTERVAL**: 12 months

**BILLETS**: Marines assigned to a machine gun team

**GRADES**: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING**: MOJT

**CONDITION**: Given the requirement, an assistant gunner, a tripod mounted M240G, M2, or MK19 machine gun, a sector of fire, selected firing position, and entrenching tools.

**STANDARD**: In order to provide cover and concealment without restricting effective fire.

**PERFORMANCE STEPS**:
1. Determine type of machine gun position to construct.
2. Position machine gun in hasty position to cover assigned mission (PDF, FPL, and/or sector of fire).
3. Mark dimensions of hole or position.
4. Position tripod-mounted machine gun on firing platform to cover assigned mission (PDF, FPL, and/or sector of fire).
5. Emplace limiting stakes.
6. Clear fields of fire.
7. Prepare a range card.
8. Dig hole or construct position.
9. Construct a parapet.
10. Dig a grenade sump.
11. Dig a water sump.
12. Construct overhead cover.
13. Camouflage position continuously.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS:
1. Although this MCCS event is listed for all Marines, it is required only for those personnel assigned as a member of a crew served weapon team.
2. The members are based on the current unit T/E to determine the appropriate number of weapons available and personnel to be trained.

MCCS-CSW-2112: Prepare a range card

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

BILLETS: Marines assigned to a machine gun team

GRADES: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a defensive fighting position, a tripod-mounted machine gun with components, a designated sector of fire with recognizable targets, principle direction of fire (PDF) or final protective line (FPL), paper, pencil, and lensatic compass.

STANDARD: In order to recall the data to fire on pre-determined targets and as an aid in estimating ranges to other targets during regular visibility.

PERFORMANCE STEPS:
1. Determine north and sketch in the magnetic north symbol using the lensatic compass.
2. Indicate firing position by drawing a dot in the lower center of the card.
3. Record the eight-digit grid coordinate of the machine gun position.
4. Orient gun position to prominent terrain feature that is recognizable on a map and draw a back-azimuth in mils from this feature. Record the distance in meters along this line.
5. Sketch in the primary sector of fire with a principle direction of fire (PDF) or a final protective line (FPL).
6. Record the magnetic azimuths of sector limits.
7. Designate the estimated range of each circle.
8. Draw a rough sketch of the terrain to include prominent natural or manmade
features that could be used as likely targets.
9. Label targets in the primary sector of fire in order of priority.
10. Lay the machine gun on each target and record the direction and elevation readings from the T&E mechanism on the card. Repeat for each target.
11. Record grazing fire for the FPL (as assigned).
12. Record dead space.
13. Confirm estimation if possible by fire.
14. Record machine gun type, number, unit designation, and date/time.
15. Complete remarks section with all pertinent information.
16. Prepare a duplicate range card and forward to the unit commander.
17. Revise range card and re-submit, as necessary.

ADMINISTRATIVE INSTRUCTIONS:
1. Although this MCCS event is listed for all Marines, it is only required for those personnel assigned as a member of a crew served weapon team.
2. The members are based on the current unit T/E to determine the appropriate number of weapons available and personnel to be trained.
3. This task can be trained to standard through the use of the Virtual Battlefield System 2 (VBS2).

MCCS-CSW-2113: Supervise construction of machine gun positions

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given machine gun team(s) or a squad with tripod-mounted M240G, M2, or MK19 machine gun(s), entrenching tools, selected firing positions and sectors of fire.

STANDARD: In order to provide cover and concealment without restricting effective fire.

PERFORMANCE STEPS:
1. Determine primary, alternate and supplementary positions for the machine gun teams.
2. Ensure firing positions are properly constructed.
3. Ensure machine gun is properly situated in the position.
4. Direct adjustments to the position or placement of the weapons as the situation changes.

MCCS-DEF-2101: Conduct defensive operations

EVALUATION-CODED: NO          SUSTAINMENT INTERVAL: 12 months

GRADES:  WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a unit, an assigned area or sector from which to defend, and an order from higher to conduct defensive operations.

STANDARD: To accomplish the mission.

PERFORMANCE STEPS:
1. Conduct reconnaissance to determine the general lay of the defense, natural obstacles, likely enemy avenues of approach, and adjacent units.
2. Develop the defensive concept of operations.
3. Employ a communication system which supports the defense.
4. Complete a fire plan sketch for the defense.
5. Determine the organization and/or location of the platoon headquarters position.
6. Integrate the assault section into the defense.
7. Integrate anti-armor assets into the defense.
8. Determine the location of the reserve force.
9. Determine the counterattack plan.
10. Write an order for the conduct of the defense.
11. Issue the order to subordinate leaders.
12. Integrate machine gun assets into the defense.
13. Supervise priorities of work in the defense.
14. Integrate indirect fire plans in support of the defense.
15. Determine the security plan to facilitate position improvement and sustainment.

MCCS-DEF-2102: Conduct security operations

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a unit, an assigned area or sector, and an order from higher to conduct security operations.

STANDARD: To accomplish the mission.

PERFORMANCE STEPS:
1. Conduct reconnaissance to determine the general lay of the area, natural obstacles, likely enemy avenues of approach, and adjacent units.
2. Conduct an estimate of the situation using METT-TSLC.
3. Determine employment of assets based upon security operations concepts and techniques.
4. Employ counter-insurgency measures.
5. Issue the order.
7. Supervise the execution of security operations.
8. Supervise continuing actions.

MCCS-DEF-2203: Direct obstacle emplacement

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 24 months

GRADES: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a unit, a barrier plan, and material needed to emplace obstacles.

STANDARD: By achieving the effect desired by the commander.

PERFORMANCE STEPS:
1. Review barrier plan.
2. Conduct reconnaissance to determine where to emplace obstacles.
3. Supervise wire obstacle installment.
4. Supervise other obstacle installment, as required.
5. Inspect obstacles.
6. Ensure obstacles are covered by fire or observation.

MCCS-IED-2101: Plan for movement in an IED environment

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: SGT, SSGT, GYSGT, WO-1, CWO-2, CWO-3, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given a tactical scenario, an operations order and a current IED threat brief.

STANDARD: To ensure movement is sufficiently planned, with viable courses of action, to support the concept of operations and the commander's intent in accordance with the mission order and the references.

PERFORMANCE STEPS:
1. Conduct Intelligence Preparation of the Battlefield.
2. Determine composition of the movement element.

MCCS-MED-2102: Conduct casualty evacuation

EVALUATION-CODED: NO  SUSTAINMENT INTERVAL: 12 months

GRADES: SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT
CONDITION: Given a group of Marines, a training site, training support equipment, a casualty assigned a Medical Evacuation Precedence of Priority II or higher, communications equipment, and the authority to request a CASEVAC.

STANDARD: To minimize further injury

PERFORMANCE STEPS:
1. Request CASEVAC.
2. Ensure casualty is prepared for evacuation.
3. Select pick-up site.
5. Direct movement of casualty to the pick-up site.
7. Load casualty.
8. Submit a casualty report.

MCCS-MED-2103: Supervise the evacuation of casualties

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

GRADES: SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: MOJT

CONDITION: Given a situation requiring the evacuation of casualties within the unit's area of operations, unit corpsmen, and litter-bearers.

STANDARD: To minimize compounding of injury.

PERFORMANCE STEPS:
1. Review operations plan concerning casualty evacuations.
2. Ensure medical personnel are present for issuing of operations order.
3. Ensure medical personnel and designated litter-bearers know evacuation routes.
4. Ensure personnel know CASEVAC request procedures.
5. Ensure casualties are moved to relative safety.
6. Ensure medical personnel do not expose themselves unnecessarily to direct fire.
7. Ensure casualties receive necessary first aid.
8. Receive casualty evacuation precedence from medical personnel.
9. Ensure CASEVAC requests are submitted.
10. Supervise movement of casualties to collection points or pick-up site.
11. Supervise loading casualties on available CASEVAC assets.
12. Ensure casualty reports are submitted.

**MCCS-OFF-2100**: Employ Guardian Angel concepts

**EVALUATION-CODED**: NO  **SUSTAINMENT INTERVAL**: 24 months

**GRADES**: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING**: FORMAL

**CONDITION**: Given a tactical scenario involving an enemy threat.

**STANDARD**: To reduce the enemy's capability to launch surprise attacks.

**PERFORMANCE STEPS**:
1. Position Guardian Angel forces.
2. Apply Cooper's Color Code.
3. Support Guardian Angel communication requirements.
4. Conduct an estimate of the situation.
5. Employ Guardian Angel tactical considerations.

**EVALUATION-CODED**: NO  **SUSTAINMENT INTERVAL**: 12 months

**GRADES**: CPL, SGT, SSGT, GYSGT, WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**CONDITION**: Given a mission, a unit, a radio, a radio net, and reportable situation.

**STANDARD**: To accomplish the mission.

**PERFORMANCE STEPS**:
1. Submit a SITREP.
2. Submit a SALUTE report.
3. Submit an LZ Brief.
4. Submit an IED/UXO report.
5. Submit a CASEVAC request.
6. Submit a CASREP.

**MCCS-OFF-2103:** Conduct offensive operations

**EVALUATION-CODED:** NO  **SUSTAINMENT INTERVAL:** 12 months

**GRADES:** WO-1, CWO-2, 2NDLT, 1STLT, CAPT

**INITIAL TRAINING SETTING:** FORMAL

**CONDITION:** Given an offensive order from higher and a rifle unit.

**STANDARD:** To accomplish the mission.

**PERFORMANCE STEPS:**
1. Develop an order.
2. Develop a scheme of maneuver.
3. Communicate the order.
4. Maintain security.
5. Task organize.
6. Conduct a night attack.
7. Employ the least engaged unit in the offense.
8. Perform the duties of a platoon commander during the conduct of an attack.
9. Consolidate following an attack.
10. Task attached units.
11. Support another unit by fire.
12. Perform duties as a platoon commander during the conduct of a supported attack.
13. Clear a route dismounted with an unknown enemy situation (movement to contact).
15. Plan convoy routes.
16. Employ the convoy immediate action for a given situation.
17. Employ mechanized assets in support of an attack.
18. Breach local obstacles.

MCCS-OFF-2104: Conduct amphibious operations

EVALUATION-CODED: NO SUSTAINMENT INTERVAL: 12 months

GRADES: WO-1, CWO-2, 2NDLT, 1STLT, CAPT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given Marines, an amphibious ship, landing craft, and landing plans.

STANDARD: To accomplish the mission.

PERFORMANCE STEPS:
1. Apply amphibious planning considerations.
2. Comply with CATF and CLF supported/supporting command relationships.
3. Conduct planning phase functions.
4. Conduct embarkation phase functions.
5. Conduct rehearsal phase functions.
6. Conduct movement phase functions.
7. Conduct assault phase functions.
8. Adhere to landing force categories.
9. Conduct landing Craft/Heli-wave tactical load and tactical spread.
10. Supply Landing Craft/Heli-Wave Assignment Table information.
11. Conduct the four amphibious type operations.
12. Execute the landing plan.

**MCCS-OFF-2105**: Implement the Marine Corps Planning Process

**EVALUATION-CODED**: NO  
**SUSTAINMENT INTERVAL**: 24 months

**GRADES**: GYSGT, WO-1, CWO-2, CAPT

**INITIAL TRAINING SETTING**: FORMAL

**CONDITION**: Given commander's guidance.

**STANDARD**: To meet the commander's intent.

**PERFORMANCE STEPS**:
1. Receive commander's guidance.
2. Apply the principles of the Marine Corps Planning Process.
3. Perform the mission analysis.
4. Develop courses of action.

TERMS AND DEFINITIONS

Terms in this glossary are subject to change as applicable orders and directives are revised. Terms established by Marine Corps orders or directives take precedence after definitions found in Joint Pub 1-02, DOD Dictionary of Military and Associated Terms.

A

After Action Review (AAR). A professional discussion of training events conducted after all training to promote learning among training participants. The formality and scope increase with the command level and size of the training evolution. For longer exercises, they should be planned for at predetermined times during an exercise. The results of the AAR shall be recorded on an after action report and forwarded to higher headquarters. The commander and higher headquarters use the results of an AAR to reallocate resources, reprioritize their training plan, and plan for future training.

C

Chaining. A process that enables unit leaders to effectively identify subordinate collective events and individual events that support a specific collective event. For example, collective training events at the 4000-level are directly supported by collective events at the 3000-level. Utilizing the building block approach to progressive training, these collective events are further supported by individual training events at the 1000 and 2000-levels. When a higher-level event by its nature requires the completion of lower level events, they are "chained"; Sustainment credit is given for all lower level events chained to a higher event.

D

Deception. Those measures designed to mislead the enemy by manipulation, distortion, or falsification of evidence to induce the enemy to react in a manner prejudicial to the enemy’s interests. (JP 1-02)

E

E-Coded Event. An “E-Coded” event is a collective T&R event that is a noted indicator of capability or, a noted Collective skill that contributes to the unit’s ability to perform the supported MET. As such, only “E-Coded” events are assigned a CRP value and used to calculate a unit’s CRP.

I

Individual Readiness. The individual training readiness of each Marine is measured by the number of individual events required and completed for the rank or billet currently held.
**M**

**Marine Corps Combat Readiness and Evaluation System (MCCRES).** An evaluation system designed to provide commanders with a comprehensive set of mission performance standards from which training programs can be developed; and through which the efficiency and effectiveness of training can be evaluated. The Ground T&R Program will eventually replace MCCRES.

---

**O**

**Operational Readiness (OR).** (DoD or NATO) OR is the capability of a unit/formation, ship, weapon system, or equipment to perform the missions or functions for which it is organized or designed. May be used in a general sense or to express a level or degree of readiness.

---

**P**

**Performance Step.** Performance steps are included in the components of an Individual T&R Event. They are the major procedures (i.e., actions) a Marine unit must accomplish to perform an individual event to standard. They describe the procedure the task performer must take to perform the task under operational conditions and provide sufficient information for a task performer to perform the procedure (may necessitate identification of supporting steps, procedures, or actions in outline form). Performance steps follow a logical progression and should be followed sequentially, unless otherwise stated. Normally, performance steps are listed only for 1000-level individual events (those that are taught in the entry-level MOS school). Listing performance steps is optional if the steps are already specified in a published reference.

---

**R**

**Readiness.** (DoD) Readiness is the ability of U.S. military forces to fight and meet the demands of the national military strategy. Readiness is the synthesis of two distinct but interrelated levels: (a) Unit readiness--The ability to provide capabilities required by combatant commanders to execute assigned missions. This is derived from the ability of each unit to deliver the outputs for which it was designed. (b) Joint readiness--The combatant commander’s ability to integrate and synchronize ready combat and support forces to execute assigned missions.

---

**S**

**Section Skill Tasks.** Section skills are those competencies directly related to unit functioning. They are group rather than individual in nature, and require participation by a section (S-1, S-2, S-3, etc).

---

**T**

**Training Task.** This describes a direct training activity that pertains to an individual Marine. A task is composed of 3 major components: a description of what is to be done, a condition, and a standard.
Unit CRP. Unit CRP is a percentage of the E-coded collective events that support the unit METL accomplished by the unit. Unit CRP is the average of all MET CRP.

Waived Event. An event that is waived by a commanding officer when in his or her judgment, previous experience or related performance satisfies the requirement of a particular event.

Listed in this appendix are applicable simulations available to improve training for both individual Marines and unit training under the Marine Corps Common Skills Program.

1. **Deployable Virtual Training Environment (DVTE)** is a first person skills sustainment trainer that can be used to train Marines from the individual to the battalion staff by using a simulation network with reconfigurable workstations capable of emulating a vast array of training scenarios. DVTE is made up of two components; the first is the Infantry Tool Kit (ITK) which contains several Tactical Decision-making Simulations (TDS). The other half of DVTE is the Combined Arms Network (CAN). DVTE is currently being fielded down to the regimental and MEU level. These suites will be maintained at the regimental level for use by subordinate units. Support for the training and hardware for DVTE will be accomplished locally at each MEF by a DVTE team from the MEF Sim Center. Below is a list of the DVTE applications that support the identified T&R standards.

   a. **Close Combat: Marines (CCM)** CCM is a real-time strategy TDS that teaches tactics at the squad, platoon, and company levels. The target audience is Non-Commissioned Officers (NCOs), Staff NCOs, and junior officers. It is designed to supplement field exercises, allowing instructors to create their own scenarios. Available for download at www.usmc-tds-msc.com.

   b. **Virtual Battlefield System 1 (VBS1)** VBS1 is designed as an interactive, three-dimensional synthetic environment in which small unit tactics may be practiced among team members. Photo-realistic terrain, user-definable mission scenarios, and variable environmental conditions enhance the team training experience. VBS1 provides the ability to operate a myriad of land, sea, and air vehicles across large outdoor terrains and allows free-play within scenario based training missions.

   c. **Recognition of Combatants- Improvised Explosive Device (ROC-IED)** is a computer based training tool designed to improve awareness and recognition of IEDs.

2. **Indoor Simulated Marksmanship Trainer (ISMT)** is an interactive weapons simulator that provides enhanced marksmanship, weapons employment, and tactical decision making training for a variety of small arms and crew served weapons. It consists of demilitarized infantry weapons that are instrumented with lasers to enable engagement in various video and computer generated scenarios. The ISMT has the capability of training with actual optics being fielded currently by the Marine Corps.

3. **Combat convoy simulator (CCS)** formerly know as VCCT is a mobile simulation system where six manned m1114 high mobility multi-purpose wheeled
vehicle (HMMWV)/MTVR virtual simulators are networked for real-time, fully interactive collective training at the convoy level while embedded into a computer generated environment. A CCS suite provides training to individual, crew, and platoon personnel (up to 30 individuals at a time) covering the skills and knowledge of crew through platoon level doctrine for the implementation of combat convoy operations. Each HMMWV/MTVR crew is required to communicate, maintain situational awareness, and acquire targets while moving at realistic highway speeds in the convoy virtual environment. Additionally, a CCS suite provides Marines with the capability to identify, engage, and destroy the enemy “on the move” in an ambush scenario, while reinforcing the driver disciplines required for successful convoy operations. For more information on scheduling training with CCS, please contact your local simcenter.

4. For more information on current simulations, please check the TECOM, Techdiv website: www.tecom.usmc.mil or https://www.intranet.tecom.usmc.mil/sites/techdiv/
