SYSTEMS BRANCH (RFA)**

FINANCIAL STATEMENT COMPILATION PACKAGE

MAY 15, 2008

Executive Summary

“The Marine Corps is a combat force-not a business. To be successful, however, we need to support warfighting excellence with well-managed business processes that are both effective and efficient.”

M.W. Hagee
33rd Commandant, United States Marine Corps

The Marine Corps mission is to provide trained and equipped forces to Combatant Commanders in support of the President’s National Security Strategy. The Commandant, in exercising his Title X responsibilities, must balance scarce resources to provide relevant and ready forces. The purpose of financial management is to provide the Commandant and supporting leadership with accurate, timely, and relevant financial information to support warfighting excellence and balance requirements and programs within the Marine Corps. Financial management goals include improving fund management efficiency by maximizing and distributing fund resources; reducing interest costs resulting from processing delays; and by reducing administrative and non-direct costs.

To this end, the Marine Corps has made improvements to their financial environment and condition by assigning accountability and responsibility throughout standardized processes, environmental and compensating internal controls, and system processing.

Some of the financial management initiatives include:

- Implemented interfaces with BEA target systems
- Completed JFMIP/FSIO testing of core accounting systems (SABRS)
- Implemented and maintained the SABRS core financial system
- SABRS is SFIS compliant and interfaced with BEIS/DDRS
- Developed and implemented performance reports and metrics
- Implemented automated Tri-Annual review process
- Re-established Internal Review functions within Comptroller’s offices
- Implemented Cost of War Collection and Reporting
- Implemented data standardization for Installations and Operating Forces
- Developed a USMC website that houses the single authoritative source of information, procedures, policies, and guidance to field activities
- Designed and developed monthly and quarterly financial statement compilation processes

These financial management initiatives have assisted the Marine Corps in achieving the following milestones:

- Reduced DFAS bill by \$3M in FY07 and \$6M in FY08
- Improved obligation validation process resulting in less than 1% requiring redistribution compared to 5% in FY05
- Produced a 70% reduction in interest penalty cost from FY 04 to FY 06
- Produced a 60% reduction in interest paid from FY 04 to FY 06

These improvements along with others attribute to the Marine Corps commitment and determination in achieving financial accountability.

Purpose and Scope

The purpose of this Financial Statement Compilation package is to present the documented “As Is” state of the Financial Statement Compilation process. This package will reflect that the Marine Corps and DFAS are endeavoring to establish consistent and sustainable business processes that promote reporting of accurate, timely, and relevant financial information to Marine Corps leadership and external entities.

This package presents the Marine Corps processes, procedures, and key controls designed and used to compile the financial statements from the transaction level details resident in the core accounting system, the Standard Accounting, Budgeting and Reporting System (SABRS), through the Defense Departmental Reporting System (DDRS), to the presentation of the Marine Corps General Fund Financial Statements. For the purposes of this package, only the processes and procedures used to compile the Balance Sheet and Statement of Budgetary Resources are presented. This package is intended to present Marine Corps confidence in their own documented, sustained, and repeatable processes and procedures.

The scope of this package includes the business processes, procedures and systems that are utilized during the Financial Statement Compilation process. The processes and procedures documented are as of the period 10/01/07 through 12/31/07.

Reperformance Methodology

In order to gain an understanding of the processes and procedures employed during the financial statement compilation process, re-performance efforts were performed to include inquiry, observation and analysis. The purpose of these tasks was to determine if the Financial Statement Compilation process was being performed in accordance to the documented operating procedures and to ascertain whether adequate supporting documentation was being maintained. The following tasks were performed on the FY 2008 Q1 financial statement process and underlying data. (Refer to Tab C for detailed procedures and results):

Balance Sheet Reconciliation. This task was performed to confirm that the Balance Sheet represents a compilation of the trial balance data contained in DDRS.

DDRS-B Journal Voucher Analysis. This task was performed to determine if data quality errors exist within the population of journal entries and other adjustments and to determine if appropriate supporting documentation exists for each journal voucher.

Crosswalk Compliance Analysis. This task was performed to determine if the DDRS Balance Sheet and SBR crosswalks comply with the Treasury Crosswalks.

Trial Balance Reconciliation. This task was performed to determine if the SABRS history files reconcile to the SABRS Trial Balance, also to determine if the SABRS Trial Balance reconciles to the DDRS-B Trial Balance and to determine if the DDRS-B Trial Balance reconciles to the DDRS-AFS Trial Balance.

DDRS-AFS Reconciliation Process – Budgetary to Proprietary. This task was performed to confirm that the budgetary to proprietary relationship exists within the final adjusted DDRS-AFS trial balance.

Process Validation Checklist. This checklist was created to confirm the procedures performed for USMC Financial Statement Compilation, and to identify the process owners, documentation maintained, and required approvals.

Concluding Comments

The Financial Statement Compilation package that follows presents the ‘as-is’ state of the Marine Corps by first detailing the Marine Corps General Fund Reporting Entity (Tab A), next explaining the Financial Statement Compilation Segment and the procedures, processes and controls currently in place (Tab B), next the package explains the re-performance efforts, observations, and corrective actions (Tab C) and then introduces the reader to source documents used in those re-performance efforts (Tab D) the package also includes system documentation (Tab E) and audit reports (Tab F) , and lastly a remediation action plan to guide this effort (Tab G).

This package and the documentation contained within attempts to present the current state of the General Fund Financial Statement Compilation Process. It will highlight the steps that the Marine Corps has made towards achieving a seamless and consistent process and also present an awareness of limitations and areas of improvement.

United States Marine Corps General Fund Reporting Entity

The United States Marine Corps was established on 10 November 1775 to provide security to naval vessels, boarding parties, and to conduct limited land engagements in support of naval operations. During the 20th century, the Marine Corps pioneered the concept of close air support and developed the doctrine of amphibious operations that became vital during the island hopping campaigns in the Pacific during World War II. After the war, Congress codified the roles and missions of the Marine Corps in the National Security Act of 1947. The Marine Corps' missions include:

- Seizing or defending advanced naval bases and to conduct such land operations as may be essential to the prosecution of a naval campaign
- Providing detachments and organizations for service in armed vessels for the Navy or for the protection of naval property on naval stations and bases
- Developing with the other Armed Forces, tactics, techniques, and equipment employed by landing forces in amphibious operations
- Training and equipping, as required Marine forces for airborne operations
- Developing with other Armed Forces, doctrine, procedures, and equipment of interest to the Marine Corps for airborne operations which are not provided for by the Army
- Expand from peacetime components to meet the needs of war in accordance with mobilization plans.

To support its core mission, the Marine Corps receives distinct General Fund Appropriations and the fiduciary responsibilities for the proper execution of those funds. The Marine Corps General Funds are Congressional appropriations to include military personnel, operations and maintenance, and procurement. The Marine Corps, which has been designated as a reporting entity within the Department of Defense (DoD), maintains accountability for its appropriated General Funds' and shared appropriations provided by the Department of the Navy (DoN).

The Statement of Federal Financial Accounting Concepts, Number 2, *Entity and Display*, states that reporting entities are entities that issue general-purpose financial statements to communicate financial and related information about the entity. The Marine Corps meets the following criteria, as required by the statement to be designated as a reporting entity:

There is a management responsible for controlling and deploying resources, producing outputs and outcomes, executing the budget or a portion thereof (assuming that the entity is included in the budget), and held accountable for the entity's performance.

The entity's scope is such that its financial statements would provide a meaningful representation of operations and financial condition.

There are likely to be users of the financial statements who are interested in and could use the information in the statements to help them make resource allocation and other decisions and hold the entity accountable for its deployment and use of resources.

The tables below detail the stand-alone General Fund appropriations for which the Marine Corps has sole-responsibility and the General Fund appropriations shared with the DON:

Appropriation Number	Name	FY08 Funds (\$000)
17-1105	Military Personnel, Marine Corps	\$ 10,362,899
17-1106	Operation and Maintenance, Marine Corps	\$ 9,503,206
17-1107	Operation and Maintenance, Marine Corps Reserve	\$ 260,351
17-1108	Reserve Personnel, Marine Corps	\$ 586,454
17-1109	Procurement, Marine Corps	\$ 4,569,406

Table 1. Stand-Alone General Fund Appropriations

Appropriation Number	Name	FY08 Funds (\$000)
17-1319	Research and Development, Test and Evaluation, Navy and Marine Corps	\$ 766,730
17-1508	Procurement of Ammunition, Navy and Marine Corps	\$ 839,229
17-5095	Wildlife Conservation, Military Reservations, NAVY	\$113
17-0735	Family Housing, Navy and Marine Corps	\$ 41,503

Table 2. Shared General Fund Appropriations

The appropriations received support the daily operations, equipping, and sustainment of the Marine Corps to meet its mandated missions. These funds support the major types of expenses incurred by the Marine Corps for mission support. An example of this support is reflected below:

Expense Category	Appropriation	Supported Activity
Labor	17-1105	Active Duty Military Personnel
	17-1108	Reserve Military Personnel
	17-1106	Civilian Personnel
Travel	17-1105	Military Permanent Change of Station (PCS)
	17-1106	Temporary Duty Travel
	17-1107	Temporary Duty Travel
Procurement and Contract Support	17-1106	Purchase Support Services, Maintenance, & Material
	17-1107	Purchase Support Services, Maintenance, & Material
	17-1109	Purchase Military Equipment
	17-1319	Research and development of new equipment
Supply	17-1106	Purchase of Consumable Supplies & Materials
	17-1106	Purchase of Consumable Supplies & Materials
	17-1508	Purchase of Ammunition

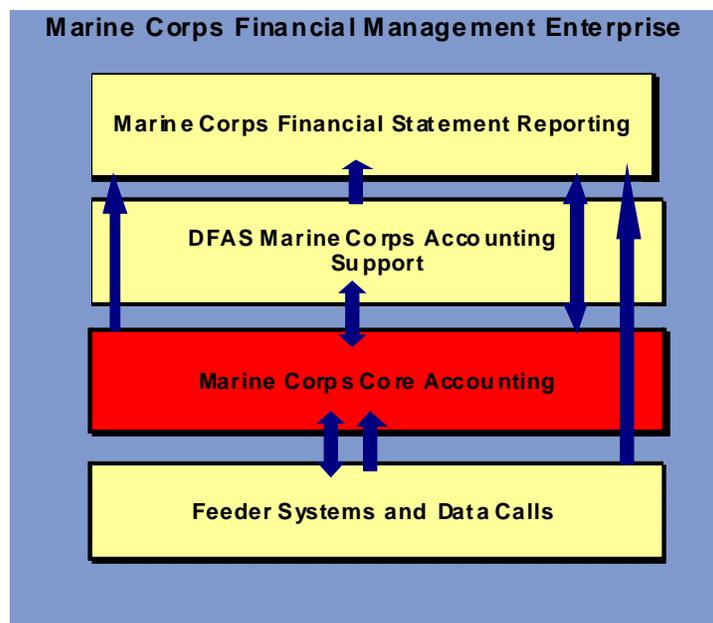

Table 3. Appropriations Supporting Major Expense Categories

In support of its mission, the Marine Corps has built a Financial Management Enterprise that provides the Commandant and supporting leadership with accurate and timely financial information and helps to ensure accountability and transparency of Marine Corps financial management and data. The Marine Corps Financial Management Enterprise is discussed in more detail below.

Marine Corps Financial Management Enterprise

The Marine Corps Financial Management Enterprise is composed of 4 layers. These layers consist of the Feeder systems and Data Call layer, the Marine Corps Core Accounting layer, the Defense Finance and Accounting Service (DFAS) Accounting Support layer, and the Marine Corps Financial Statement Reporting layer. The diagram below depicts each layer of the Marine Corps Financial Management Enterprise.

The sections below detail the Marine Corps Financial Management Enterprise layers in more detail and show the flow of data through each layer starting with Feeder Systems and Data Calls and ending with the creation of the Marine Corps Financial Statement Reports.

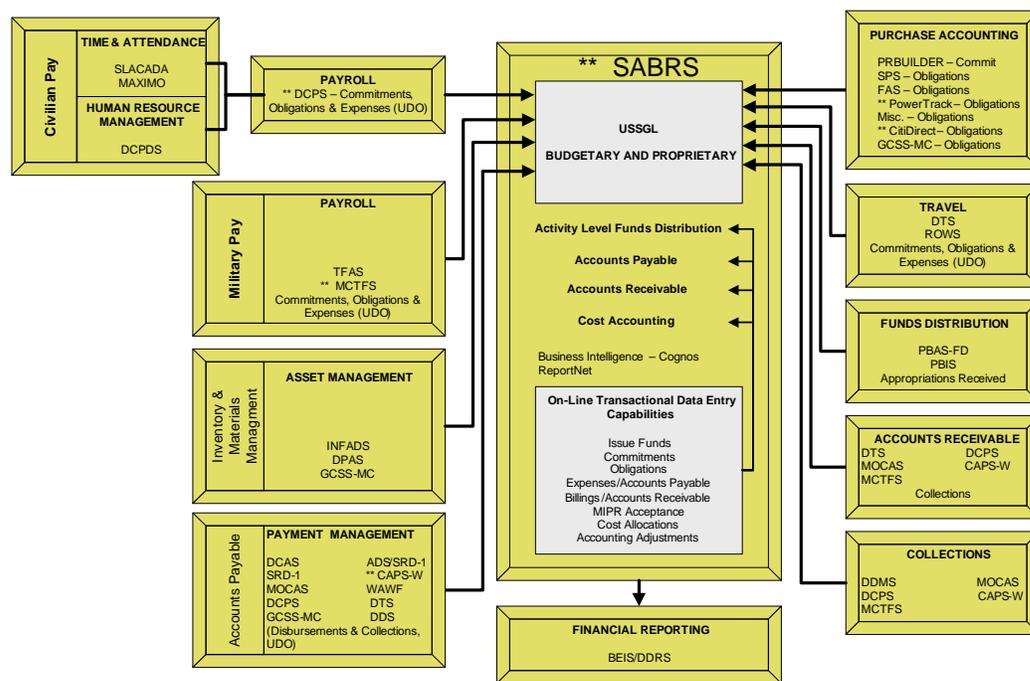

Feeder Systems and Data Calls

The Marine Corps Financial Management Enterprise begins with the Feeder Systems and Data Calls layer, discussed in detail below.

Feeder Systems

The Marine Corps enterprise consists of various feeder systems that interface and share financial transactional data with the Marine Corps accounting system. The core accounting system used by the Marine Corps for all general fund appropriations is the Standard Accounting, Budgeting and Reporting System (SABRS). These feeder systems provide direct input to and/or receive direct output from SABRS and are displayed in the graphic below.

** SAS 70 or FISIO Testing Completed

Marine Corps Systems Environment – Tier 1

Of the feeder systems that interface with SABRS, 21 are considered Tier 1 feeder systems. Tier 1 feeder systems are those systems that provide input to SABRS through an interface. Of these Tier 1 systems, seven systems are considered “critical” because they have the highest transaction volume and dollar value for recording detail source transactions and obligations into SABRS. The seven critical feeder systems are: Marine Corps Total Force System (MCTFS), Defense Civilian Payroll System (DCPS), Defense Travel System (DTS), PR-Builder, Standard Procurement System (SPS), Wide Area Work Flow (WAWF), and Supported Activities Supply System (SASSY). **For additional detail on these feeder systems refer to the Tier 1 – Compensating Controls SOP attached as Appendix A to this package.**

- **MCTFS** – The integrated personnel and pay system supporting both the active and reserve component of the Marine Corps and personnel management for retired Marines. MCTFS maintains more than 500,000 records for pay and personnel management for the production of essential management reports. MCTFS provides input and receives output from SABRS utilizing File Transfer Protocol (FTP).
- **DCPS** – The designated system to record and report civilian time and attendance and process bi-weekly payroll and entitlements for Civilian Marines supporting assigned Marine Corps missions.
- **DTS** – A secure Web-based system used for creating, approving, and settling temporary duty travel orders. This is the mandated DoD travel system for use by military and civilian employees.

- **PR-Builder** – Electronically generates and routes purchase requests and funding documents. PR builder creates electronic requisitions and tracks the workflow and approval chains for each purchase request. PR Builder sends real time data to both SABRS and SPS via the Universal Interface (UI). SABRS also transmits information to PR Builder. The data that is transmitted between the two systems consists of requests for financial commitments, responses containing financial commitment information, and contract award information.
- **SPS** - A broad, commercial software package designed to meet the acquisition needs of the Marine Corps. The application supports procurement functions including source solicitation and selection; awarding, modifying, terminating, and closing out contracts; approving contractor payment requests; and monitoring and approving payments. SPS provides a unidirectional input to SABRS utilizing SFTP. SPS does not receive data/information from SABRS.
- **WAWF** – A secure Web-based system for electronic invoicing, receipt and acceptance. It provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture, and process receipt and payment-related documentation, via an interactive Web-based application. WAWF provides a unidirectional input to SABRS utilizing Secure File Transfer Protocol (SFTP). WAWF does not receive data/information from SABRS
- **SASSY** – The primary data source for out-of-stores assets within the Marine Corps and the system of record for inventory custody (on hand) of out-of-stores retail held assets. SASSY provides the “retail” supply accounting functions such as stock replenishment, requirement determination, receipts, inventory, stock control, and asset visibility for Marine Corps units. SASSY has been designated a Legacy system to be replaced by Global Command Support System (GCSS) in Fiscal Year (FY) 09.

Data Calls

The Marine Corps enterprise also consists of Data Call information, which is financial data collected by another agency or department that is significant to the information reflected on the Marine Corps financial statements. Marine Corps data call information can be internal (data call information from within the Marine Corps) or external (data call information from an outside agency).

Internal data call information is data from Marine Corps logistics, inventory, or accountability systems that do not interface with SABRS. This financial data is collected within the Defense Department Reporting System - Data Collection Module (DDRS-DCM). The Marine Corps' Accounting and Financial Systems Branch (RFA) enters all data call information into DDRS-DCM. DFAS retrieves this data and prepares manual journal vouchers to account for the information within the Defense Department Reporting System – Audited Financial Statements module (DDRS-AFS). DDRS-AFS is discussed in detail in Section 1.2.3.

External data call information is data from the following outside agencies: Office of Personnel Management; Department of Labor; Department of Navy (DON); The U.S. Army Corps of Engineers; DFAS-Kansas City; DFAS-Indianapolis and DFAS-Columbus. Examples of external data calls include employment benefit expenses, FECA expenses, and unemployment expenses. There are 53 external data calls to the Marine Corps in total. This data is retrieved and reviewed by DFAS. DFAS then accounts for this information by creating manual journal vouchers in the DDRS-AFS system. DDRS-AFS is discussed in detail in Section 1.2.3. **For additional detail on the external data calls refer to the *External Data Call SOP* attached as Appendix B to this package.**

Marine Corps Core Accounting

Transactions are transmitted from the various Tier 1 feeder systems into SABRS. SABRS accounts for all U.S. Marine Corps funds throughout the appropriation life and contains financial data from the installation level up to Headquarters, Marine Corps (HQMC). SABRS was designed to meet fiduciary standards established by the Government Accountability Office, Office of Management and Budget (OMB), United States Treasury Department, and the Department of Defense (DoD). SABRS, in its operational state, has been independently tested and reviewed in accordance with OFFM (JFMIP) standards. SABRS provides a proven, modern, compliant government owned accounting system that meets and provides the following:

- Incorporates the Business Transformation Agency (BTA) template
- Transaction driven USSGL
- Independently assessed and compliant with FFMR (Blue Book)
- JFMIP tested and certified in configured operational environment
- Meets all requirements of the FFMIA for core accounting systems
- Business intelligence (made to order reports via COGNOS REPORTNET)
- Data structure compliant with phase 1 SFIS requirements
- Online general ledger update
- Batch general ledger transaction update for multiple source feeder systems
- Table driven
- Individual command and agency level trial balance reports
- Real-time contingency cost reporting cost of war and natural disasters
- DDRS-B trial balance feed
- Daily Departmental Reports to include 1002, 133, etc. with drill down capability to the detail transaction level
- Daily Balance Sheet and Statement of Budgetary Resources with drill down capability to the detail transaction level
- Transactional or summary feeds to BEIS

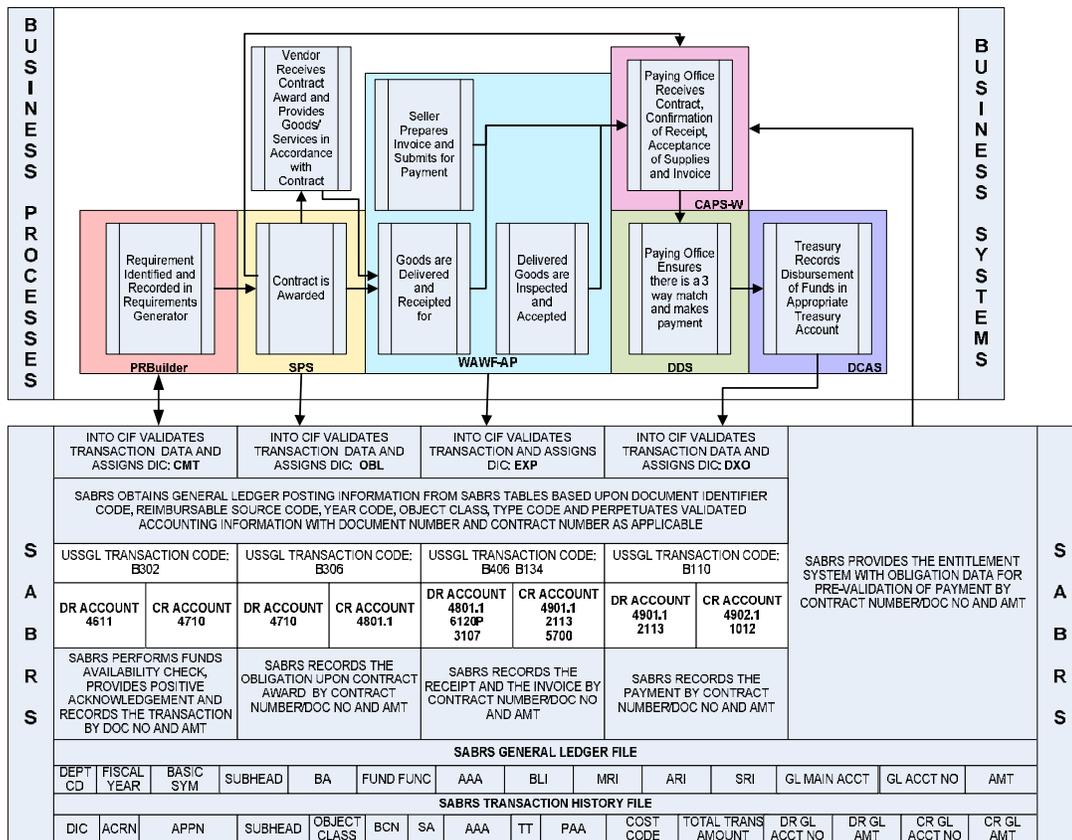

After the Marine Corps receives its apportioned funds from the DON, the appropriation authority is loaded into SABRS and distributed. Commands receive funding and then commitments, obligations,

expenses, and liquidations are processed in SABRS based on source documents processed to obtain goods and services. In addition to the financial transactions entered directly into SABRS, SABRS interfaces with multiple feeder systems to receive and send transactional data. All financial transactions from feeder systems and direct entries into SABRS are recorded in the SABRS general ledger accounts. These transactions form the basis for preparing fiscal year Financial Statements reflecting the Marine Corps' financial position.

SABRS and Feeder System Control Environment

Over 90% of detail source financial transactions are processed into SABRS from a business feeder system. These transactions will post the proper phase of the transaction cycle (i.e. commitment, obligation, expense, and liquidation) and update the appropriate USSGL accounts for budgetary and proprietary accounting. The below chart illustrates the interaction of SABRS and business feeder systems in the contract acquisition process:

Business Systems to SABRS Transaction Linkages for Contract Acquisition Process

- Commitment Phase - In the Contract Acquisition process, the program manager enters their requirements into PR Builder. The appropriate approval process is performed and the transaction is passed to SABRS for fund availability verification. If funds are available, SABRS passes PR Builder positive acknowledgement and processes a commitment. The appropriate budgetary

USSGL accounts are updated to reflect this transaction. If funds are not available, SABRS passes a negative acknowledgement and does not process the commitment nor will PR Builder pass the requirement to the contracting system of SPS.

- **Obligation Phase** – The approved and authorized PR Builder requirement is passed to SPS and the regional contracting office for action. Once the contract is awarded, SPS passes the contract information to SABRS. SABRS obligates the transaction to include recording the Procurement Instrument Number (PIN) and Contract Line Item Number(s) (CLIN) associated with the award. The appropriate budgetary USSGL accounts are updated. The contract information is electronically passed to WAWF and the entitlement payment system.
- **Expense Phase** – Upon the delivery of goods and services, the vendor will process the invoice into WAWF. The program manager accepts the goods and services and provides positive receipt confirmation in WAWF. The expense transaction is then processed into SABRS with the appropriate budgetary and proprietary USSGL accounts being updated. WAWF electronically passes the invoice and receipt information to the entitlement payment system to process the liquidation.
- **Liquidation Phase** – SABRS provides the entitlement system with obligation data for pre-validation of payment. Upon electronic receipt of the vendor invoice, government acceptance, and verification of the obligation, DFAS will process payment. The payment transaction is processed to SABRS with the appropriate USSGL accounts being updated.

For each of the detail transactions processed from the business feeder systems to SABRS, the General Ledger and Transaction History Files are updated within SABRS. The information contained in these files is passed daily to BEIS and is available for update in DDRS of Marine Corps General Fund activity.

DFAS Accounting Support

DFAS supports the Marine Corps by providing accounting services to include retrieval of the Marine Corps financial data from SABRS, importing data call information into DDRS-AFS, and creating the Marine Corps financial statements.

To provide Marine Corps accounting support, DFAS utilizes DDRS, a web-based system and the sole reporting system used for preparing the Marine Corps financial reports. Data Call information is loaded directly into DDRS and SABRS general ledger account records are transmitted through the system interface. Two modules of DDRS, the Budgetary Module (DDRS-B) and the Audited Financial Statements Module (DDRS-AFS) standardize the Marine Corps reporting process and produce the quarterly and annual departmental reports based on the United States Standard General Ledger (USSGL). These modules are described briefly below.

DDRS-B

The Marine Corps produces budgetary reports in DDRS-B. The trial balance is produced from the SABRS general ledger file and imported into DDRS-B. DDRS-B is used to balance budgetary accounts and produce budgetary reports. DFAS compiles and uploads the Marine Corps Trial Balance from SABRS into the DDRS-B application and records adjustments, generates reports, and attaches footnotes.

DDRS-AFS

The trial balance from DDRS-B is uploaded into the DDRS-AFS and manual journal vouchers are entered in DDRS-AFS to account for data call information. The Marine Corps financial statements are produced

in DDRS-AFS by consolidating financial data and footnote information reported in the individual DoD components. After review by DFAS, the Marine Corps Audited Financial Statements are consolidated into Marine Corps Statements.

Marine Corps Financial Statement Reporting

Using DDRS tools, the Marine Corps produces the financial statements in coordination with DFAS. These financial statements are produced in DDRS-AFS and reflect the financial standing of the Marine Corps including General Fund financial activity and the results of operations. The complete financial statement package includes the Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position, and Statement of Budgetary Resources.

The Marine Corps financial statements are prepared by (1) producing a trial balance from the final SABRS general ledger file, (2) adjusting the general ledger file, (3) preparing budgetary submissions in DDRS-B and, (4) preparing financial statements in DDRS-AFS.

Internal Control Infrastructure

Throughout each of the four Marine Corps Financial Management Enterprise layers, several standard business processes and controls are performed. The standard processes support the core Marine Corps mission and the controls help to promote accuracy, completeness, and reliability of financial data used by the Commandant and supporting leadership. The sections below detail the Marine Corps Standard Business Processes and Controls performed throughout the Marine Corps enterprise. **For additional detail on Marine Corps internal controls refer to the *Marine Corps Control Environment* attached as Appendix C to this package.**

Marine Corps Standard Business Processes

The Marine Corps performs the following standard financial business processes throughout each layer of the Marine Corps Financial Management Enterprise:

- Authorizations
- Commitments
- Obligations
- Expenses
- Liquidations
- Reimbursable work orders
- Billings
- Collections
- Un-liquidated obligations
- Outstanding travel orders
- Problem disbursements
- Travel card reconciliation
- Reconciliation
- Miscellaneous

Given the many business processes supported by SABRS and the complexity of its various feeder systems and data calls, the Marine Corps internal control infrastructure is essential to help ensure accuracy and reliability of financial management data.

Marine Corps Control Environment

The Marine Corps Control environment consists of preventive and detective controls over financial statement compilation, general ledger, and feeder systems. The Marine Corps also employs other management, or non-system controls, to streamline financial management processes and improve personnel financial management skills.

Internal control activities and monitoring efforts are performed outside of the SABRS application and include performance reporting, reconciliation, analysis, and inspections. For the Marine Corps, the internal control environment largely consist of management oversight and monitoring activities and reports for the Accounting and Financial Systems Branch (RFA) and the Marine Corps Financial Evaluation and Analysis team (MCFEAT). The table below identifies several monitoring and control activities that further supplement an already robust internal control posture and demonstrates the Marine Corps' commitment to maintaining a positive and supportive attitude towards internal controls and a conscientious management in this regard.

Category	Controls	Purpose
"Deadly Sin" reports (SABRS performance reports)	<ul style="list-style-type: none"> • Abnormal Accounts Payable Report • Abnormal Accounts Receivable Report • Abnormal Undelivered Order Report • Negative Unliquidated Obligations (NULO) Report • Outstanding Travel Advances Report • Unmatched Disbursements Report • Spending Errors Report • Invalid Transaction Recording Source Report • DCPS LOA/Fund Code Mismatch Report • Pre-Validation Failures Report • Missing Trading Partner Data Report • Interest Penalty Payments Report • Outstanding Military Interdepartmental Purchase Requests (MIPRs)/Work Requests (WR) All Years Report 	Enable RFA to identify errors or abnormalities, segmented by various Marine Corps Commands
Tri-Annual Review and Post Analysis	<ul style="list-style-type: none"> • Tri-Annual Review process • Tri-Annual Review Post Analysis Reports (Dormant Transactions, Outstanding Travel Documents, Outstanding Accounts Receivables, Unmatched Disbursements) 	Enable RFA and MCFEAT to determine how well field activities are recording commitments and obligations.
MCFEAT Inspections and Reports	<ul style="list-style-type: none"> • Annual Assessment of Command Financial Procedures (Balanced Scorecard) • Prompt Payment Act Interests Report • WAWF Electronic Commerce Efficiency Report 	Enable MCFEAT to evaluate financial management business practices and oversee financial management to improve the accuracy and timeliness of financial information recording and reporting.
Standard Operating Procedures	<ul style="list-style-type: none"> • MCO 7300.21, Marine Corps Financial Execution Standard Operating Procedure Manual • MCO 7300, Draft Chapter 10, Reconciling Abnormal Financial Transactions • Tri-Annual Review User Navigation Guide • SABRS and Reportnet Access, SABRS Help, and System Change Request Standard Operating Procedure • SABRS Authorization Processing and Spending Transaction Processing 	Aid financial personnel in generating and reviewing, reconciling, and resolving errors detailed in the SABRS performance reports

Category	Controls	Purpose
Training and Tools	<ul style="list-style-type: none"> Web-Based Training Marine Corps Financial Management School 	Provide personnel with knowledge needed to perform their duties including identifying and correcting erroneous transactions found in the "Deadly Sin" reports.

Table 4. Marine Corps Environmental Controls

Compensating Controls

Compensating controls are controls that are used to provide an additional layer of assurance. For instance, an example would include the data sent between interfaces, entered into SABRS, and transmitted between SABRS and its feeder systems. These controls seek to assure accurate and reliable processing and security and privacy of data as well as the validity of entries in SABRS from manual and automated processing. The table below describes the current Marine Corps compensating controls where a systems impact exists.

Automated Controls

Category	Controls	Purpose
Data Validation and Edit Checks	<ul style="list-style-type: none"> Required Fields Data Definitions Record Deletion Warning Deletion General Ledger Check 	Provide data validation and edit checks to reduce the risk of invalid, inaccurate, and incomplete data. These controls are intended to force users to enter valid data into SABRS.
Controls over Interfaces from External Systems	<ul style="list-style-type: none"> Data Validation Error Handling Reconciliations 	Determine if files provided from external systems, containing transactions records to be processed in SABRS, are in the correct format to post the transactions in SABRS.

Table 5. Marine Corps SABRS Compensating Controls

Manual Controls

Category	Controls	Purpose
Daily Transaction Reconciliation	<ul style="list-style-type: none"> Reconcile transactions from daily cycle against supporting documentation 	Provide transaction validation to reduce the risk of invalid, inaccurate, and incomplete data. These controls are intended to force users to enter valid data into SABRS.
Tri-Annual Review	<ul style="list-style-type: none"> Validation of all Dormant Transactions, Outstanding Travel Documents, Outstanding Accounts Receivables against the supporting documentation. 	To validate and confirm that only valid transactions are recorded in the accounting system for the correct amount.
Year-end Certification of Commitments and Obligations	<ul style="list-style-type: none"> Fund Holder certification that all Obligations are properly supported 	Validate that supporting documentation are available

Table 6. Marine Corps Manual Compensating Controls

The Marine Corps maintains a complex financial management enterprise for its General Funds comprised of various business processes, internal controls, and systems. This enterprise was created to provide leadership with accurate, reliable, and timely reporting of financial information to facilitate efficient and effective managerial decision-making. The use of environmental, compensating, and non-systems controls has promoted the achievement of accountability and transparency within the complex Marine Corps financial management enterprise.

Introduction to Tab B

Purpose: This tab defines the USMC Financial Statement Compilation segment for presentation. The segment is defined and documented by processes, systems, and procedures. A written narrative is provided, along with a graphical flow of the business process, identifying key controls.

Index:

Reference	Document	Description
B.1	Segment Overview	Overview of the Financial Statement Compilation process.
B.2	Financial Statement Compilation Standard Operating Procedure	Chapter 7 – Financial Statement Preparation Process The entire Financial Statement Compilation Standard Operating Procedure can be found on the attached compact disk.
B.3	Process Flows	Financial Statement Compilation – Process Flow Chart
B.4	Business Process Memorandum	Memorandum summarizing the financial statement compilation process.

Financial Statement Compilation Segment

The Marine Corps presents the Financial Statement Compilation Process as a segment for evaluation. This segment package presents the compilation procedures to support the issuance of the USMC General Fund principal financial statements consistent with the design and format of Office of Management and Budget (OMB) Circular A-136 form and content directives. The form and content directives provides financial reporting requirements intended to advance Federal agencies toward more timely, useful, and reliable financial information to support agency management. The goal of the directives is to better integrate budget execution, financial reporting, and performance reporting.

Scope. This package presents the Marine Corps processes, procedures, and key controls implemented and applied in the compilation of the USMC General Fund financial statements. Processes include the use of transaction level details resident in the core financial accounting system, the Standard Accounting, Budgeting and Reporting System (SABRS), through the Defense Departmental Reporting System (DDRS), to the presentation of the Marine Corps General Fund Financial Statements. For the purposes of this package, only the processes and procedures used to compile the Balance Sheet and Statement of Budgetary Resources are presented. This package is not intended to assert any audit confidence over the financial statements themselves, but to provide evidence and support that Marine Corps has documented, sustained, and repeatable processes and procedures.

Overview of the Process. The Marine Corps, specifically the Program and Resources Department, Accounting and Financial Systems Branch (RFA), prepares General Fund financial statements on a monthly, quarterly and annual basis in coordination with Defense Finance and Accounting Service-Kansas City (DFAS-KC). The Marine Corps General Funds are Congressional appropriations to include personnel, operations, maintenance, research and development, and procurement.

The process, for the purposes of the segment presentation, begins when DFAS-KC reconciles the SABRS detailed transaction history to U.S. Treasury detailed transaction ledgers. This reconciliation is prepared monthly to support that SABRS general ledgers are in compliance with OMB as well as Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) reporting requirements. If any reconciliation exceptions are noted, DFAS-KC adjusts the SABRS to agree with the U.S. Treasury detailed transaction ledgers. SABRS detailed transactions are then summarized and transferred to the DDRS-Budgetary (DDRS-B) by way of a SABRS trial balance. DDRS-B is a reporting tool designed to produce budgetary reports and their respective audit trails. Reconciliations are also performed to identify and correct account relationship and crosswalk issues that may exist with the imported SABRS trial balance. Budgetary adjustments are identified and made to account for items such as abnormal accounts payable, Treasury late registers, or undistributed collections. When the DDRS-B process is complete the adjusted balances are transferred to the DDRS-Audited Financial Statements (DDRS-AFS).

The DDRS-AFS is a reporting tool designed to facilitate the preparation and audit of all the Department of Defense (DoD) audited financial statements, management reports, required supplementary information reports, and trend analysis reports. The DDRS-AFS process includes recording of “on top” journal entries to record “off-ledger” data-call balance and activities, performing reclassification adjustments, and recording unfunded liability estimates provided by external agencies such as the Department of Labor and Office of Personnel Management (OPM). Financial statements notes are drafted and included in the financial statements for review by the Marine Corps. Once approved, the statements are sent to the Department of Navy (DON) for

consolidation into DON General Fund Financial Statements. As presented in the segment package, compensating controls and “sanity checks” are applied to the data call information that supports the journalized “on top” adjustments.

Segment Presentation. This segment package presents standard Marine Corps operating procedures for Financial Statement Compilation. These procedures are also depicted in graphical flow, documenting key controls. The business process memorandum (BPM) further documents the processes and key controls. The BPM also documents the key controls and their control objectives. This package also presents the verification efforts that were employed to re-perform and substantiate this compilation process, with data analysis of the flow of financial information from SABRS through the DDRS to the Marine Corps General Fund financial statements. The business processes related documents present the “As Is” processes.

1.0 INTRODUCTION

The United States Marine Corps prepares General Fund financial statements at the end of each year in coordination with Defense Finance and Accounting Service (DFAS). The Marine Corps General Funds are Congressional appropriations to include personnel, operations, maintenance, research and development, and procurement. The statements are a reflection of the General Fund financial activity.

1.1 Purpose

The purpose of the General Fund Financial Statement Preparation Standard Operating Procedures (SOP) is to document the Marine Corps processes and procedures used in the reporting data and information to the General Fund financial statements. This SOP provides guidance for personnel involved in the Marine Corps General Fund financial statement preparation process. This procedure also describes the responsibilities of the various entities involved in the preparation of the Marine Corps financial statements. Furthermore, it provides standard forms that are used in the processes and points of contact (POCs) for the financial statement preparation. This SOP supports Marine Corps financial leadership decision making based on accurate, timely, and relevant financial data.

This General Fund Financial Statement Preparation SOP is an evolving document that will be updated as new processes and procedures are developed, refinements are made to the existing processes, and new guidance is adopted.

1.2 Organization

The General Fund SOP is organized into the following sections:

- **Section 1 - Introduction.** Provides the purpose, scope, and organization of the SOP.
- **Section 2 - Entity Definition.** Defines the scope of Marine Corps as an entity. Lists the appropriations accounted for under the Marine Corps reporting definition.
- **Section 3 – Requirements.** Provides a list of regulations set forth for Federal components including the Department of Defense (DoD) Financial Management Regulation (FMR) and the Office of Management and Budget (OMB) Circular A-136.
- **Section 4 - Organizational Structure.** Describes the chain of command for Marine Corps financial statement reporting. Defines the responsibilities of the Marine Corps financial reporting branch and its components including the Defense Finance and Accounting Service (DFAS) and the Accounting and Financial Systems Branch (RFA).
- **Section 5 - Components of the Marine Corps Financial Statement Report.** Gives a detailed breakdown of the Performance and Accountability Report (PAR).
- **Section 6 - Financial Statement Preparation Process.** Describes the overall process involved in preparing the financial statements and related footnotes. The user may also refer to the Appendix section for detailed flowcharts for each financial statement footnote.
- **Section 7 - Reconciliation and Review of the Financial Statement Processes.** Defines the final reviewing process of Marine Corps financial statements prior to submission to the Office of the Undersecretary of Defense.
- **Section 8 - Information Systems.** Defines the technology associated in preparing the financial statements. Identifies the accounting system and feeder systems that transact and transmit financial data.

2.0 ENTITY DEFINITION

The Marine Corps General Fund financial statements report the financial activities associated with the five Marine Corps sole appropriations in addition to the four appropriations shared with the Department of the Navy. Treasury Index 17 General Fund Appropriations to be reported by the Marine Corps are listed below.

Table 1, *Marine Corps Sole Appropriations*, presents the five Marine Corps sole appropriations reported to the financial statements.

Appropriation No.	Name (Pseudo Appropriations)	Entity Code
17-1105	▪ Military Personnel, Marine Corps (2115)	AT17AA2_1105
17-1106	▪ Operation and Maintenance, Marine Corps (1160/2116)	AT17AC2_1106
17-1107	▪ Operation and Maintenance, Marine Corps Reserve (2117)	AT17AC2_1107
17-1108	▪ Reserve Personnel, Marine Corps	AT17AA2_1108
17-1109	▪ Procurement, Marine Corps (1149)	AT17AF5_1109

Table 1: Marine Corps Sole Appropriations.

Table 2, *Marine Corps Shared Appropriations* presents the four appropriations the Marine Corps shares with the Department of the Navy (DON).

Appropriation No.	Name (Pseudo Appropriations)	Entity Code
17-1319	▪ Research and Development, Test and Evaluation, Navy	AT17AG5_1319M
17-1508	▪ Procurement of Ammunition, Navy and Marine Corps (1548)	AT17AF5_1508M
17-0735	▪ Family Housing, Navy and Marine Corps (7035/7036)	AT17AC2_0735CM
17-5095	▪ Wildlife Conservation, Navy and Marine Corps	AT17AM5 (Other)

Table 2: Marine Corps Shared Appropriations.

3.0 REQUIREMENTS

The Marine Corps prepares the General Fund Financial Statements in compliance with Federal and Department of Defense (DoD) regulations. Refer to Table 3: *Financial Statement Preparation Requirements*. These regulations provide guidance on financial statement preparation as well as regulate the Marine Corps financial management environment.

Regulation	Description
Chief Financial Officers (CFO) Act of 1990	<ul style="list-style-type: none"> ▪ The Chief Financial Officers (CFO) Act of 1990 was enacted to provide for improvement in each agency of the Federal Government, including systems of accounting, financial management, and internal controls to assure the issuance of reliable financial information and to deter fraud, waste, and abuse of Government resources
Federal Managers' Financial Integrity Act (FMFIA) of 1982	<ul style="list-style-type: none"> ▪ Requires ongoing evaluations and reports of the adequacy of the systems of internal accounting and administrative control of each executive agency.
Government Performance and Results Act (GPRA) of 1993	<ul style="list-style-type: none"> ▪ Requires agencies to submit to the Office of Management and Budget (OMB) a strategic plan for program activities, including performance goals and objectives. ▪ Explains guidance for improving the operations, programs, and management for Federal financial managers.
Government Management Reform Act (GMRA) of 1994	<ul style="list-style-type: none"> ▪ Requires Federal financial managers to submit annual audited financial statements to the OMB. ▪ Establishes a framework for reporting financial management statements. ▪ Authorizes the Director of OMB to publish annually in the President's Budget any recommendations for the consolidation, elimination, or adjustment in frequency and due dates of statutorily required periodic reports to the Congress or its committees.
Federal Financial Management Improvement Act (FFMIA) of 1996	<ul style="list-style-type: none"> ▪ Requires each agency implement and maintain financial management systems that comply with Federal financial management system requirements. ▪ Establishes that financial systems must comply with the United States Standard General Ledger (USSGL) at the transaction level. ▪ Requires financial management system compliance with Federal accounting standards.
Office of Management and Budget (OMB) Circular A-123, Management's Responsibility for Internal Control	<ul style="list-style-type: none"> ▪ Provide guidance to Federal managers on improving the accountability and effectiveness of Federal programs and operations by establishing, assessing, correcting, and reporting on management control.

Table 3: Financial Statement Preparation Requirements.

Regulation	Description
Office of Management and Budget (OMB) Circular A-127, Financial Management Systems	<ul style="list-style-type: none"> ▪ Prescribes policies and standards for executive departments and agencies to follow in developing, operating, evaluating, and reporting on financial management systems.
Office of Management and Budget (OMB) Circular A-136, Financial Reporting Requirements	<ul style="list-style-type: none"> ▪ Prescribes policies and standards for executive departments and agencies to follow during the preparation of financial statements.
Statements of Federal Financial Accounting Standards (SFFAS) No. 4, Managerial Cost Accounting Concepts and Standards for the Federal Government	<ul style="list-style-type: none"> ▪ Establishes managerial cost accounting standards for valuing, accounting, and reporting of financial data for the Federal government.
Department of Defense, Financial Management Regulations (DoD FMR) Volume 6B, Form and Content of the Department of Defense Audited Financial Statements	<ul style="list-style-type: none"> ▪ Establishes requirements, principles, standards, systems, procedures, and practices necessary to comply with financial management statutory and regulatory requirements applicable to the DoD. ▪ Directs financial management requirements, systems, and functions for all appropriated, non-appropriated, working capital, revolving, and trust fund activities. ▪ Directs statutory and regulatory financial reporting requirements.

Table 3: Financial Statement Preparation Requirements (cont).

4.0 ORGANIZATIONAL STRUCTURE

This section provides an overview of the organizational structure and responsibilities for the preparation of the Marine Corps financial statements.

Headquarters, Marine Corps (HOMC): The Marine Corps as a Tier-3 reporting entity, meets the criteria for a separate financial reporting entity as defined in the Federal Financial Accounting Concept No.2. They maintain separate and distinct fiduciary responsibilities for both direct and shared appropriations issued by Congress. The Marine Corps is responsible for producing financial statements and responding to the Department of Defense, Inspector General (DoD, IG) findings concerning audits of their prepared financial statements.

Programs and Resources Department (P&R): The Programs and Resources Department is one of several staff agencies that make up Headquarters, Marine Corps. The Programs and Resources Department is made up of four major functional Divisions: Programs Division, Fiscal Division, Administration and Resource Management Division, and Special Programs Division. The Fiscal Division of the Programs and Resources (P&R) Department provides oversight and regulation for the financial reporting process. Ultimately, the Fiscal Division is responsible for certifying the accuracy and completeness of the financial statements.

Accounting and Financial Systems Branch (RFA): The Accounting and Financial Systems Branch (RFA) of the Marine Corps Programs and Resources Department (P&R) advises and assists program sponsors, HQMC staff agencies, and the Comptroller function in matters relating to accounting, relevant information systems, and program execution. The RFA works with various DoD entities, collectively, to provide the Marine Corps standards of accounting, reporting, and systems support. Furthermore, RFA provides internal oversight for all Marine Corps financial reporting processes.

Defense Finance Accounting Service (DFAS): The Defense Finance Accounting Service is responsible for standardizing financial and accounting information for all DoD components. The DFAS-Kansas City site directs and enforces DoD finance and accounting requirements, principles, standards, systems, procedures, and practices associated with finance and accounting to the Marine Corps. Additionally, DFAS-Kansas City assists in the preparation of Marine Corps financial statements and populating the general ledger. The Departmental Reporting Division of DFAS-Kansas City is made up of three separate branches. These branches produce a set of General Fund financial statements originating from the final SABRS general ledger, the General Ledger Division, the Reporting and Analysis Division and the Audited Financial Statement Division. During Fiscal Year 2008, the responsibilities of DFAS-Kansas City will be transferred to DFAS-Cleveland.

Figure 1, *Marine Corps Financial Statement Organization Chart*, provides a graphic view of the organizations that are involved in the preparation of the Marine Corps financial statements.

 **Marine Corps Financial Statement Preparation Organization Chart**

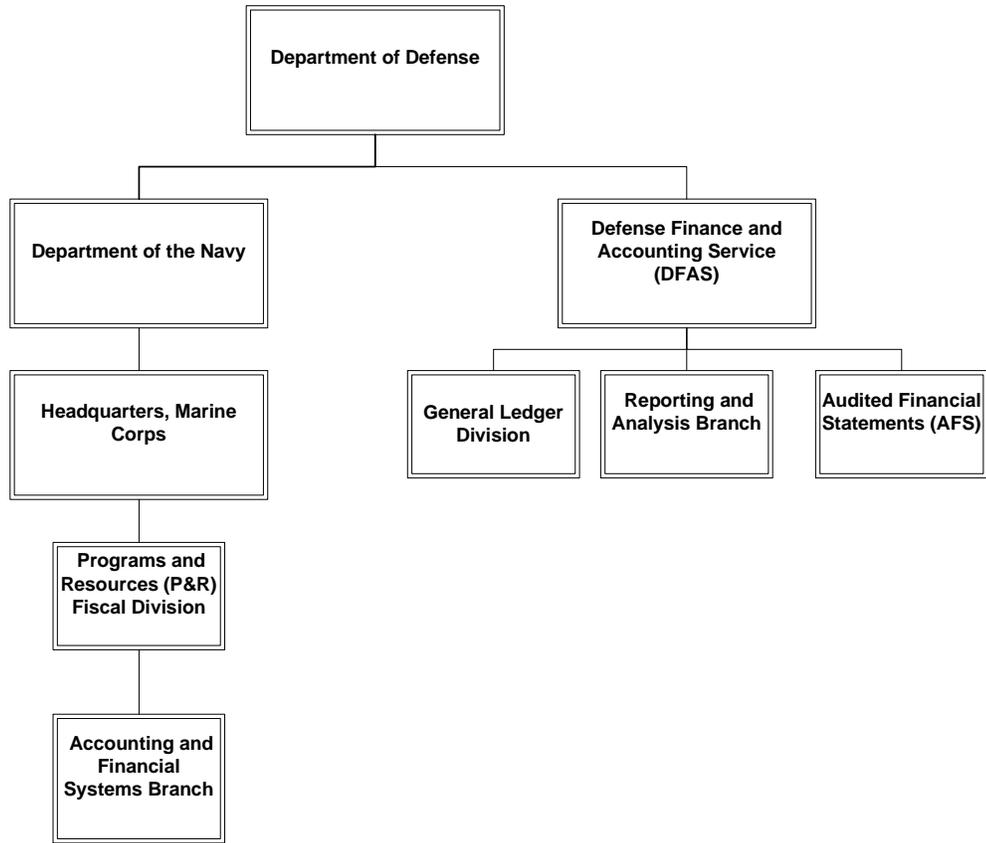

Figure 1: Marine Corps Financial Statement Preparation Organization Chart.

Table 4, *General Fund Financial Statement Preparation Responsibilities*, presents the responsibilities of HQMC, RFA and DFAS in the preparation of the Marine Corps financial statements.

Organization	Responsibilities
Programs and Resources Department (P&R)	<ul style="list-style-type: none"> ▪ Review Principal Financial Statements and related notes ▪ Certify Principal Financial Statements
Accounting and Financial Systems Branch (RFA)	<ul style="list-style-type: none"> ▪ Enter program financial data into Standard Accounting, Budgeting and Reporting Systems (SABRS) ▪ Review financial statements for variances. ▪ Ensure the accuracy, completeness and timeliness of Marine Corps financial data. ▪ Reconcile and validate financial transaction source data. ▪ Review Marine Corps Financial Statements for accuracy. ▪ Prepare narratives for the notes to the financial statements. ▪ Perform program and management analyses. ▪ Prepare the Management Discussion and Analysis. ▪ Sign the Confirmation Letter for the Marine Corps Financial Statements.
Defense Finance Accounting Service (DFAS)	<ul style="list-style-type: none"> ▪ Retrieve Marine Corps financial data from SABRS. ▪ Import data call financial information into Defense Departmental Reporting System-Audited Financial Statements. (DDRS-AFS) ▪ Create Marine Corps Financial Statements for HQMC review. ▪ Generate and submit Marine Corps reporting to the Office of Management and Budget (OMB) and the Department of the Treasury.

Table 4: General Fund Financial Statement Preparation Responsibilities.

5.0 COMPONENTS OF THE PERFORMANCE AND ACCOUNTABILITY REPORT

The Performance and Accountability Report (PAR) is a package reflecting the financial activity of the budgetary resources appropriated to an entity. The form and content of the package is outlined in OMB Circular A-136. The Marine Corps provides input to Navy Financial Management Office for the DON Annual Report and for including in the DoD PAR. The Performance and Accountability Report contains the following elements (1) an Agency Head Message, (2) Management Discussion and Analysis, (3) a CFO Letter, (4) a Financial Statement Audit Report, (5) the Principal Financial Statements and Notes to the Principal Financial Statements. The following section assumes the Marine Corps will produce their own Performance and Accountability Report.

5.1 Agency Head Message

A transmittal letter from the Commandant of the Marine Corps (CMC) prefaces the Performance and Accountability Report. The transmittal letter contains the following:

- Outlines mission, goals, and accomplishments
- Assesses the financial and performance data
- Presents any material weakness and corrective actions
- Includes a statement of assurance

5.2 Management Discussion and Analysis

The Management Discussion and Analysis (MD&A) is an integral part of the annual financial statement package. The MD&A is an overview and preface of the Marine Corps financial statement package and provides readers with a clear, concise understanding of the Marine Corps activities, accomplishments, financial performance, systems, controls, legal guidance and financial condition. The MD&A is (1) important in communicating managers insight about the Marine Corps (2) increasing the understandability of the financial statements and (3) providing accessible information about the entity and its operations, service levels, successes, challenges, and future. Table 5, *Management Discussion & Analysis*, lists the sections of the MD&A.

Section of the MD&A	Description
Mission and Organizational Structure	<ul style="list-style-type: none"> ▪ A brief description of the Marine Corps mission and major goals, and organizational structure that is consistent with their strategic plan.
Overall Strategy and Performance Results	<ul style="list-style-type: none"> ▪ Explains the Marine Corps performance goals and results (positive and negative) related to and consistent with the goals and objectives in the Marine Corps strategic and performance plans.
Analysis of Financial Statements	<ul style="list-style-type: none"> ▪ The following financial statements are prepared: <ul style="list-style-type: none"> - Consolidated Balance Sheet, - Consolidated Statement of Net Cost, - Consolidated Statement of Net Changes in Net Position, - Combined Statement of Budgetary Resources, and - Combined Statement of Financing. ▪ A comparison is made to the current quarter reporting period in the current fiscal year to the same quarter in prior fiscal year to analyze Marine Corps financial position and results of operations and explain the major changes in the assets, liabilities, costs, revenue, obligations,

	and outlays. The statements and related notes summarize the financial information for Marine Corps.
Systems, Controls and Legal Compliance	<ul style="list-style-type: none"> ▪ A brief summary of any reported material weaknesses for systems and/or internal control that were revealed by management or through audits.
Supplemental Financial and Management Information	<ul style="list-style-type: none"> ▪ This information supports information presented in the MD&A or would enhance an understanding of the financial condition of the Marine Corps. This information consists of addressing the future effect on existing events and/or conditions; summarizing the progress in implementing key administration management initiatives; and explaining any limitation of the financial statements ▪

Table 5: Management Discussion and Analysis.

5.3 CFO Letter

The CFO Letter outlines the overall financial condition of the Marine Corps and contains the following information:

- Time frames for corrective actions of identified material weakness and non-compliance
- Barriers to corrective actions and non-compliance
- Progress of problems identified previously
- Integrity Act information of the Marine Corps choosing

5.4 Financial Statement Audit Report

The Financial Statement Audit Report is a stand-alone report containing the independent public auditors' (IPA) opinion on the Marine Corps year end financial statements and accompanying notes. The year-end financial statements include this report.

5.5 Marine Corps Financial Statements

The Marine Corps financial statements present the financial standing of the Marine Corps. The Marine Corps financial statements are produced in the Defense Departmental Reporting System – Audited Financial Statements (DDRS-AFS). The complete financial statement package includes the Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position, Statement of Budgetary Resources and Statement of Financing. The financial statements should be presented in accordance with Federal GAAP and the requirements of OMB Circular A-136. Comparative information should be presented in the financial statements and related notes. The components of the financial statement package and applicable regulations are explained in the following discussion.

6.0 MARINE CORPS FINANCIAL STATEMENTS

6.1 Balance Sheet

The Marine Corps balance sheet presents resources owned or managed by the Marine Corps (assets), amounts owed by the Marine Corps (liabilities) and residual amounts retained by the Marine Corps that comprise the difference (net position).

6.1.1 Balance Sheet Example

Figure 2, *Consolidated Balance Sheet*, provides an example of the format and content of a Marine Corps General Fund balance sheet. For illustrative purposes, the example on the following page presents 2nd Quarter, FY 2007.

6.1.2 Explanation of Balance Sheet Line Items

The Explanation of Balance Sheet Line Items section of this document will be presented in the same format as the balance sheet illustrated above. Each line item on the balance sheet will be explained in detail to provide an understanding of what is being valued in the line item and the method in which that line is reported to the financial statements. The percentages noted for each line item are based on the USMC Balance Sheet reported for 2nd Quarter, FY 2007.

Assets

The OMB Circular A-136 defines assets as tangible or intangible items owned by the Federal Government which have probable economic benefits that can be obtained or controlled by a government entity. The intragovernmental assets of an entity are reported on the balance sheet. Non-entity assets, which may be intragovernmental or nonfederal, are disclosed in the footnotes separately. Entity assets are defined as assets that the reporting agency has authority to use in its daily operations. Non-entity assets are defined as assets that are held by an entity, but not available for use by the entity.

The Assets section of the balance sheet presents what the Marine Corps owns as of the date on the balance sheet. Note 2 will provide additional disclosures for nonentity assets on the balance sheet. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Intragovernmental

Intragovernmental assets are assets that arise out of transactions among Federal entities. These assets are claims of a Federal entity against other Federal entities. Intragovernmental assets should be reported separately from non-federal transactions on the balance sheet. Intragovernmental assets represent approximately 63% of the total assets reported on the balance sheet.

Fund Balance with Treasury

The Fund Balance with Treasury (FBWT) line item represents approximately 99.5% of intragovernmental assets and 62% of total assets reported on the balance sheet.

FBWT is defined as the aggregate amount of the entity's accounts with the U.S. Treasury for which the entity is authorized to make expenditures and pay liabilities. Examples of the FBWT account include the following:

- Clearing account balances and the dollar equivalent of foreign currency account balances
- Financing and liquidating accounts

The amount reported includes extended obligation authority for obligations incurred in closing and closed accounts. However, the FBWT does not include amounts for which the Department of Treasury is willing to accept corrections to cancel appropriation accounts. Specific requirements for other information related to FBWT are included below (additionally, refer to section 7.3.5 *Preparing Notes to the Financial Statements*):

- Include an explanation of the reason for material changes in the FBWT amount reported for the current period in comparison to the prior period amount, when comparative financial statements are presented. Change that is greater than 10% of the prior year ending balance is defined as a material change.

- Disclose instances where the reporting entity does not meet accounting standards. Each reporting entity shall review its financial processes, systems, and data. The entity will then modify or expand the disclosure statements so that each statement is a complete and accurate representation of the issue being addressed. The following are examples of disclosures: deposit differences, On-Line Payment and Collection (OPAC) differences, and check issue discrepancies.

The FBWT line item is reported to the Marine Corps balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS).

Non Entity Other

The Non Entity – Other line item on the balance sheet represents approximately 0.4% of the total intragovernmental assets reported on the balance sheet.

Non Entity – Other line item represents the non entity fund balance with treasury. Non entity fund balance with treasury represents amounts in Marine Corps' deposit fund accounts. The deposit fund accounts contain various withholdings from Marines' pay such as taxes, allotments, and garnishments held until the appropriate disbursement date. The Marine Corps maintains stewardship accountability and reporting responsibility for these assets; however, the assets are not available for use in operations.

The Non Entity Assets line item includes additional disclosures in Note 2. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Investments

The Marine Corps does not report investments on the balance sheet. The Investment line item is reported at the Department of the Navy level and is not applicable to the Marine Corps balance sheet.

Accounts Receivable Intragovernmental

The Accounts Receivable – Intragovernmental line item represents approximately 0.1% of the total intragovernmental assets category on the balance sheet.

Accounts receivables are defined as Federal entity claims for payment from other Federal entities. They include Intragovernmental receivables that are claims of a Federal entity against other Federal entities.

Undistributed collections are applied to accounts receivable based on the percentage of the total of both intragovernmental and nonfederal accounts receivable.

Requirements for other information related to accounts receivable (additionally, refer to section 7.3.5 *Preparing Notes to the Financial Statements*):

- Disclose the amount of undistributed collections that has been applied to accounts receivable in computing the line item balances.
- Include an explanation of the reason for material changes in the accounts receivable for the current period in comparison to the prior period, when comparative financial statements are presented. Change greater than 10% of the prior year ending balance is defined as a material change.
- Disclose the amounts of public and intragovernmental receivables over 180-days old.

- Disclose material differences identified, if the reporting entity was able to compare accounts receivable balances with the accounts payable balances of intragovernmental trading partners.
- Disclose the reasons the reconciliations were not completed if the reporting entity was unable to compare accounts receivable balances with the accounts payable of intragovernmental trading partners.

The accounts receivable line item is reported to the Marine Corps balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS).

Other Assets

The Other Assets line item on the balance sheet represents approximately 0.01% of the total intragovernmental assets reported on the balance sheet.

Other assets are defined as all other intragovernmental assets, report advances, and prepayments to other Federal entities. Advances are cash outlays made by a Federal entity to cover a part or all of the recipients' anticipated expenses or as advance payments for the costs of goods and services the entity receives. Prepayments are payments made by a Federal entity to cover certain periodic expenses before expenses are incurred. Intragovernmental other assets are separated and reported on the balance sheet into two categories (1) advances and prepayments and (2) other assets. Advances and prepayments are other asset advances and prepayments to other Federal entities. Other assets are categorized as all other intragovernmental other assets.

The other assets line item is reported to the Marine Corps balance sheet by an elimination journal vouchers that is entered to match what the trading partners are reporting. Federal advances are currently not recorded in SABRS. The other assets line item includes additional disclosures in Note 6. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Total Intragovernmental Assets

This line on the balance sheet is a sum of the line items described above.

Cash and Other Monetary Assets

The Cash and Other Monetary Assets line item on the balance sheet represents approximately 0.2% of the total assets category reported on the balance sheet.

Cash and other monetary assets are defined as the total of all cash resources and all other monetary assets. Cash consists of coins, paper currency and readily negotiable instruments, amounts on demand deposit with banks or other financial institutions, and foreign currencies. Other monetary assets include gold, special drawing rights, and U.S. Reserves in the International Monetary Fund.

The following assets should be reported on this line item:

- Nonentity cash on other monetary assets (reporting Federal entity collects and holds on behalf of the U.S. Government or other entity is nonentity cash).
- DoD disbursing officer cash reported on the Statement of Accountability.
- Total U.S. dollar equivalent of non-purchased foreign currencies held in special program foreign currency fund accounts.

The Cash and Other Monetary Assets line item is reported to the Marine Corps balance sheet through input from a data call for disbursing officer cash, which is reported through the Statement of Accountability.

Requirements for other information related to cash and other monetary assets are to:

- Disclose any restrictions on cash. Restricted cash includes holdings, which are unavailable for agency use (nonentity cash) and have not been transferred to the U.S. Government General Fund. Restricted cash also includes cash held in escrow to pay property taxes and insurance related to property associated with defaulted loans.
- Disclose any restrictions on the use or conversions of cash denominated in foreign currencies, and the significant effects, if any, of exchange rate changes on the entity's financial position that occur after the end of the reporting period but before the issuance of financial statements. Provide other information, as appropriate, such as the valuation rate for gold.

The Cash and Other Monetary Assets line item includes additional disclosures in Note 7. Refer to Section 7.3.5 *Preparing Notes to the Financial Statements*.

Accounts Receivable Nonfederal

The Accounts Receivable – Nonfederal line item represents approximately .02% of the total assets category reported on the balance sheet.

Accounts receivable is defined as amounts due from nonfederal entities, net of an allowance for estimated uncollectible amounts that the reporting entity has authority to use in its operations once collected. Examples of an accounts receivable are amounts due from former service members who must refund amounts issued as reenlistment bonuses, and interest receivable from nonfederal entities that the reporting entity has authority to use in its operations once collected. The accounts receivable line item consists of intragovernmental receivables and nonfederal receivables. Intragovernmental receivables are defined as claims of a Federal entity against other Federal entities. Intragovernmental receivables are explained above in the Accounts Receivable Nonfederal section.

Requirements for other information related to accounts receivable include:

- Disclose the amount of undistributed collections that has been applied to accounts receivable in computing the line item balances.
- Include an explanation of the reason for material changes in the accounts receivable for the current period in comparison to the prior period, when comparative financial statements are presented. Change greater than 10% of the prior year ending balance is defined as a material change.
- Disclose the amount of nonfederal refund receivables if the amount is greater than 10% of the nonfederal accounts receivable, net amount on the balance sheet.
- Disclose the amounts of public and intragovernmental receivables over 180-days old.

The accounts receivable line item is reported to the Marine Corps balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS). However, the amount of Allowance for Doubtful Accounts is entered into DDRS-AFS via journal voucher. The Accounts Receivable line item

includes additional disclosures in Note 5. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Loans Receivable

The Loans Receivable line item is not applicable to the Marine Corps balance sheet.

Inventory and Related Property

The Inventory and Related Property line item on the balance sheet represents approximately 14.3% of the total assets category on the balance sheet.

The Inventory and Related Property line item consists of the following seven components:

- Inventory
- Operating Materials and Supplies (OM&S)
- Stockpile Materials
- Seized Property
- Forfeited Property
- Goods Held Under Price Support and Stabilization Programs
- Government Furnished Materials

Of these seven components, Marine Corps only reports Operating Materials and Supplies (OM&S) on its balance sheet. The Marine Corps also reports OM&S secondary supply items and repair parts. For the Marine Corps reporting of OM&S, only (1) Ammunition and Munitions and (2) Appropriation Purchase Account (APA) Secondary Inventory are applicable. These categories of OM&S represent approximately 93% and 7%, of the total OM&S category of the Inventory and Related Property line item on the balance sheet.

Operating Materials and Supplies (OM&S)

Definition: OM&S consists of secondary supply items that a logistics activity holds in stock pending issue (without reimbursement) to the unit or organization that will consume the item in normal operations. OM&S are items traditionally held by maintenance activities that will be consumed or become part of the repair or production of secondary end items. Excluded from OM&S are items that have been acquired for use in constructing real property or in assembling equipment to be used by the entity, stockpile materials, goods held under price stabilization programs, foreclosed property, seized and forfeited property, and inventory.¹

The RFA has separated the collecting and reporting of Ammunition and Munitions and APA Secondary Inventory into two efforts. The collection, analysis, reconciliation, and reporting procedures mirror each other.

Ammunitions and Munitions (AMMO)

The Program Manager for Ammunition (PM AMMO) is a component of the Marine Corps Systems Command (MARCORSYSCOM). The PM AMMO is tasked with providing research, development, acquisition, and life-cycle management support for all conventional ground ammunition required by the Marine Forces to train for and conduct amphibious warfare and expeditionary force operations.

¹ Statement of Federal Financial Accounting Standards (SFFAS) No. 3, Accounting for Inventory and Related Property.

There is a three step process for PM AMMO involvement in reporting ammunition inventory for inclusion into APA Secondary Inventory.

1. Collect daily ammunition reports. Installations send daily ammunition activity reports to the PM AMMO Inventory Management Team. Installations send daily reports in MILSTRIP (80-80 card column) format, through the Defense Activity Addressing System (DAAS). The Installations individual ammunition tracking systems (Retail Ordnance Logistics Management System [ROLMS], Standard Depot System [SDS], or Command Commodity Standard System [CCSS]) automatically or at the manual prompting of the responsible officer generate the daily reports.
2. Consolidate and Report Daily Ammunition Activity. Download daily ammunition activity reports from DAAS or take them from emails. The files are then uploaded into the Marine Ammunition Accounting and Reporting System (MAARS). PM AMMO personnel monitor daily ammunition activity reports.
3. Report Quarterly Ammunition Financial Data. Download ammunition inventory file from MAARS to Microsoft Access for quarterly report formatting. Forward quarterly ammunition report to the RFA and PM AMMO personnel.

Financial data for the ammunition held at installations is reported to PM AMMO. Following I&L and PM AMMO reviews, the RFA ensures the estimate is recorded in DDRS-DCM and incorporated in the OM&S balance on the financial statements.

Appropriation Purchase Account (APA) Secondary Inventory

The Appropriation Purchase Account (APA) is a term used by the DON to describe assets held as Inventory and Related Material (IRM) that were purchased using General Fund appropriations.

Description, Category and Condition Code Distinctions

The Marine Corps OM&S is documented by supply class, definition, category, and condition code. These descriptions clearly define OM&S items and allow for the accurate capture and reporting of OM&S inventory and financial information. Table 6 provides an overview of OM&S by (1) supply class, description, definition, and example, (2) category and description, and (3) condition code, description, and definition.

To support DoD reporting requirements, the Marine Corps is required to report OM&S by categories and condition codes. OM&S are categorized in the following table:

No.	OM&S Category	Description
1	Held for Use	<ul style="list-style-type: none"> ▪ Consists of items that should not exceed a thirty-day supply unless supporting documentation is developed and maintained for review. ▪ Meets specified life cycle requirements or is consumed in normal operations. ▪ Includes material held for economic or contingency retention.
2	Held for Repair	<ul style="list-style-type: none"> ▪ Requires repair to meet current or future needs is judged more economical than disposal. ▪ Identified as unserviceable, but not yet reviewed to determine its reparability.
3	Excess, Obsolete, and Unserviceable	<ul style="list-style-type: none"> ▪ Consists of OM&S items that exceed the amount on hand that can be used within one year. ▪ Consists of obsolete OM&S items that are no longer needed due to changes in technology, laws, customs, and/or operations. ▪ Consists of unserviceable OM&S items that are physically damaged and cannot

No.	OM&S Category	Description
		<p>be used in operations.</p> <ul style="list-style-type: none"> ▪ When an assessment has been conducted and it has been determined that it is not economically feasible to repair an item.

Table 6: OM&S Categories.

Within the three OM&S categories, there are 17 condition codes that are used to further describe the physical condition of the items within each category. These condition codes further classify the general item descriptions as: (1) Serviceable, (2) Unserviceable, (3) Suspended, or (4) Condemned. A table describing these condition codes can be found in *Appendix D-Additional Tables*.

OM&S is reported to SABRS through an interface with SASSY. Data calls are requested in order to report the three OM&S categories. USMC has developed a standardized process for retrieving asset balances from SASSY reports-the Balance Analysis GABF (Report 0236) and the Consolidated Asset Listing Summary (Report 0787)-to populate the data call template. The following process steps are broken out into the three categories used for reporting OM&S: Held for Use, Held for Repair, and Excess/Unserviceable/Obsolete.

- I. To determine the total value of all assets that are “Held for Use”
 - 1.1 Pull the BALANCE ANALYSIS GABF (Report 0236) for the General Account on the last working day of the month.
 - 1.2 Use SAC 1 only (note: SAC 2 and SAC 3 should not be used for reporting purposes).
 - 1.3 Refer to the row "DOLLAR VALUE OH AA"
 - 1.4 Note the corresponding dollar balance for “DOLLAR VALUE OH AA.” Pull the Weapons System Management Asset Report of the Consolidated Asset Listing (Report 0787 Summary).
 - 1.5 Refer to the row “ON HAND AA.”
 - 1.6 Sum all columns in this row- SAC-1 D or L, SAC-2, and SAC-1 OTHER to derive a total dollar value for “ON HAND AA” on Report 0787. (In the row ON HAND AA, add column A+B+C.)
 - 1.7 Sum the total from Step 1.7 to the total from Step 1.4.
 - 1.8 Enter the grand total from 1.8 into the data call template under “Held for Use.”

- II. To determine the total value of all assets that are “Held for Repair”
 - 1.1 Pull the Weapons System Management Asset Report of the Consolidated Asset Listing (Report 0787 Summary)
 - 1.2 Refer to the row “DUE VENDOR.” This includes items due from third party vendors.
 - 1.3 Sum all columns in this row- SAC-1 D or L, SAC-2, and SAC-1 OTHER to derive a total dollar value for “DUE VENDOR.” (In the row DUE VENDOR, add column A+B+C.)
 - 1.4 Refer to the row “DUE MAINTENANCE.” This includes items due from the Intermediate Maintenance Activity (IMA).
 - 1.5 Sum all columns in this row- SAC-1 D or L, SAC-2, and SAC-1 OTHER to derive a total dollar value for “DUE MAINTENANCE.” (In the row DUE MAINTENANCE, add column A+B+C.)
 - 1.6 Add the total from Step 1.5 to the total from Step 1.3 to derive a total value for the “Held for Repair” category.

- 1.7 Enter the total dollar value from Step 1.6 into the “Held for Repair” column on the data call template.

III. To determine the total value of all assets that are “Excess/Unserviceable/Obsolete”

Excess:

- 1.1 Pull the BALANCE ANALYSIS GABF (Report 0236) for the General Account on the last working day of the month.
- 1.2 Use SAC 1 only (note: SAC 2 and SAC 3 should not be used for reporting purposes).
- 1.3 Refer to the row "DOLLAR VALUE OH AA GREATER THAN RO."
- 1.4 Note the corresponding dollar balance for “DOLLAR VALUE OH AA GREATER THAN RO."
- 1.5 Pull the Weapons System Management Asset Report of the Consolidated Asset Listing (Report 0787 Summary).
- 1.6 Refer to the row “EXCESS OVER RO.”
- 1.7 Sum all columns in this row- SAC-1 D or L, SAC-2, and SAC-1 OTHER to derive a total dollar value for “EXCESS OVER RO.” (In the row EXCESS OVER RO, add column A+B+C.)
- 1.8 Add the total from Step 1.7 to the total from Step 1.4.
- 1.9 Enter the total from Step 1.8 into the “Excess/Unserviceable/Obsolete” column on the data call template.

Unserviceable/Obsolete:

- 1.1 Pull the BALANCE ANALYSIS GABF (Report 0236) for the General Account on the last working day of the month.
- 1.2 Use SAC 1 only (note: SAC 2 and SAC 3 should not be used for reporting purposes).
- 1.3 Refer to the row "DOLLAR VALUE ASSETS" and find the corresponding dollar balance.
- 1.4 Refer to the row “DOLLAR VALUE OH AA” and find the corresponding dollar balance.
- 1.5 Subtract the values in Column A for “DOLLAR VALUE OH AA” from “DOLLAR VALUE ASSETS.” Note: This calculation will result in items that are unserviceable and for on-hand provisioning. The dollar value that results from this calculation should not be manipulated but should be recorded as unserviceable items.
- 1.6 Note the results of the calculation from Step 1.5.
- 1.7 Pull the Weapons System Management Asset Report of the Consolidated Asset Listing (Report 0787 Summary).
- 1.8 Refer to the row “ON HAND AF.”
- 1.9 Sum all columns in this row- SAC-1 D or L, SAC-2, and SAC-1 OTHER to derive a total dollar value for “ON HAND AF.” (In the row ON HAND AF, add column A+B+C.)
- 1.10 Add the total from Step 1.9 to the total from Step 1.6.
- 1.11 Enter the total from Step 1.10 into the “Excess/Unserviceable/Obsolete” column on the data call template. This will be added to the total of Excess items that were previously calculated.

The valuation procedure for each category of OM&S is to disclose the amount reported in the inventory system; the allowance for gains (losses) on OM&S, if any, the net book value; prior year OM&S amount; and the method used to value OM&S. The amounts identified, Allowance for Gains and Losses in OM&S, represents the adjustment that is required to arrive at the historical cost reported.

The Inventory and Related Property line item is reported to the Marine Corps balance sheet through SABRS and also input from a data call by the Department of Defense Reporting System – Data Collection Module, which originates in the Department of the Navy (DON). OM&S data is reported from the Supported Activities Supply System (SASSY) directly to SABRS. Data for Ammunitions is reported through data call from the Asset Tracking for Logistics and Supply System Phase I and Phase II (ATLASS I and ATLASS II), and the Ammunition Integrated Management System (AIMS). The Inventory and Related Property line item includes disclosures in Note 9. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

General Property Plant and Equipment

The General Property, Plant and Equipment line item on the balance sheet represents approximately 21.3% of the total assets category reported on the balance sheet.

General Property, Plant, and Equipment (PP&E) is defined as any capitalized PP&E used in providing goods and services; or in support of entity mission. General PP&E has the following characteristics and uses:

- Alternative purposes (i.e. by other Federal programs, state or local government, or nongovernmental entities) but used to produce goods or services or to support the mission of the entity.
- Significantly self-sustaining activity that finances a continuing cycle of operations through the collection of revenue.
- Entities whose costs can be compared to other entities performing similar activities.

The General PP&E line item consists of real property, personal property and military equipment. Real property represents approximately 40.7 % of the PP&E line item. Personal property represents approximately 0.4% of the PP&E line item. Military equipment represents approximately 58.9% of the PP&E line item.

Real Property consists of lands, buildings, structures, utilities systems, and improvements. Real property includes equipment attached to and made part of buildings and structures (such as heating systems) but not movable equipment (such as plant equipment).

Personal Property is defined as those items used, but not consumed, to produce goods or services in support of the Marine Corps' mission. Personal property includes general equipment, internal use software, military equipment, and other items used by the Marine Corps. Personal property does not include: inventory items, operating materials and supplies, or items of an historical nature.

- *Internal Use Software* is software that is purchased from commercial vendors "off-the-shelf," internally developed, or contractor-developed to meet an entity's internal or operational needs solely. Essentially, Federal entities purchase commercial "off-the-shelf" (COTS) software, hire contractors to develop substantially all of the desired software (contractor-developed), or develop software internally using their own employees, with or without a contractor's assistance (internally developed). Internal use software is categorized as General PP&E because the cost of licenses and implementation/integration fees generally exceeds \$100,000. Software that does not meet the \$100,000 capitalization threshold is accounted for within the OM&S portion of the Inventory and Related Property line item.

Military Equipment, formerly known as “National Defense PP&E,” is now classified as General PP&E. Military Equipment includes the PP&E components of weapon systems and support PP&E that is owned by the DoD or its Component entities for use in the performance of military missions.²

Heritage Assets are PP&E that have historical or natural significance, cultural, educational, or artistic importance, or significant architectural characteristics. Multi-use heritage assets serve two purposes by providing reminders of our heritage and by being used in day-to-day government operations unrelated to the assets themselves. Heritage assets may be museums, monuments/memorials, cemeteries, archaeological sites or buildings on the National Registry of Historic Places, as well as military artifacts. Examples include the Santa Margarita Ranch House, the Mokapu Burial Area, medals, and historic weapons. Heritage assets are reported in the Marine Corps Artifact Management System (MCAMS).

Stewardship Land is land owned by the Federal government that resembles General PP&E, but does not have a readily determinable value that would make it General PP&E and does not have the characteristics of a heritage asset. Stewardship land is also reported into MCAMS.

The following table provides additional details for the various categories and classes of General PP&E.

PP&E Category	Asset Class	Description	Valuation Method	Service Life (based on the DoD standard recovery periods)	Reporting System	Real or Personal
General	Land	The solid part of the surface of the earth not including natural, deplete able resources, used by DoD to carry out its mission, usually for a period of time.	Acquisition Value	N/A	iNFADS	Real
General	Buildings, Structures and Facilities	A structure that has a roof and walls and stands more or less permanently in one place, used by DoD to carry out its mission, usually for a period of time.	Net Book Value	20-40 years	iNFADS	Real
General	Leasehold Improvements	Physical enhancements made to property by or on behalf of the property's lessee.	Net Book Value	Lease Term	iNFADS	Real
General	Assets Under Capital Lease	An agreement conveying the right to use Property, Plant or Equipment, usually for a stated period of time	Net Book Value	Lease Term	Marine Corps not reporting	Real
General	Construction in Progress	Active, on-going construction, not substantially complete for its intended use for a period of time. The USMC construction in progress is only reported in the DON statements.	Acquisition Value	N/A	iNFADS	Real
General	Internal Use Software	Software that is purchased from commercial vendors “off the shelf”, internally or developed, or contractor developed, solely to meet the entity's internal needs.	Net Book Value	2-5 or 10 years	DPAS	Personal
General	General Equipment	Non-deployable, commercial “off the shelf” property	Net Book Value	2-5 or 10 years	DPAS	Personal
General	Military	Weapons systems used by		5-10 years	CAMS-ME	Military

² <http://www.acq.osd.mil/me/valuation.htm>.

	Equipment	military departments, and the Maritime Administration's Naval Defense Reserve Fleet Ships				Equipment
General	Other	All items not evaluated as one of the previous categories	Net Book Value	N/A	N/A	Personal
Heritage Assets	Heritage Assets	Possess one or more of the following: (i) historical or natural significance; (ii) cultural, educational or aesthetic value; or (iii) significant architectural characteristics. Heritage Assets may be museums, monuments/memorials, cemeteries, archeological sites or buildings on the National Registrar of Historical Places. Examples include the Pentagon, Smithsonian Institute, and Arlington Cemetery.	No valuation on original structures, reported in terms of physical units, not dollars. Improvements on Heritage Assets are reported at acquisition value.	Indefinitely	MCAMS	Real/Personal
Stewardship Land	Stewardship Land	Public domain, set aside and donated land, such as forests, parks and land used for wildlife.	Reported in terms of acres not dollars	Indefinitely	DON reporting	Real

Table 7: General PP&E Categories.

The Marine Corps only reports personal property balances for inclusion in the balance sheet. All real property (land, building, structures, facilities, and construction in progress) is reported by the Department of the Navy (DON) for inclusion in Marine Corps balance sheet. Military equipment is reported by DoD for inclusion in the Marine Corps balance sheet.

Personal property, also referred to as Garrison Property, is composed of items used but not consumed. These items may include:

- office equipment
- industrial plant equipment
- vehicles
- material handling equipment
- automated data processing (ADP) equipment
- government leased assets (capital or operating)
- weapons and weapon systems
- support equipment

Personal property does not include inventory items (land, buildings, and structures), or items of an historical nature.

The Marine Corps has traditionally used a data collection module (DCM) for collecting personal property data for input into the financial statements. During FY 2006, DFAS-KC and the Marine Corps implemented an interface between the Defense Property Accountability System (DPAS). DPAS is a system that is managed by the DFAS, specifically the Defense Supply Center in Columbus, Ohio. DPAS serves the Marine Corps as a branch of DON.

The DFAS analyst initiates an interface between DPAS and SABRS quarterly. Following the interface, SABRS generates an error report and reconciliation report. The DFAS analyst will submit the reconciliation reports via email to LFS 1. The LFS 1 Program Manager will work to correct errors and make applicable changes in DPAS.

PP&E depreciation is reported during the DPAS/SABRS interface. Information on the following data elements are provided for PP&E depreciation: (1) Beginning Balance, (2) Addition of Current Year Depreciation, (3) Reductions to Accumulated Depreciation, (4) Revaluation, (5) Acquisitions, (6) Transfers In, (7) Sales, (8) Disposals, (9) Transfers Out, (10) General PP&E Revaluation, (11) Prior Period Adjustments, and (12) Ending Balance.

The General PP&E line item is reported to the Marine Corps balance sheet through input from SABRS as well as input from data calls. RFA performs a reconciliation of the interface between SABRS and DPAS. Details of these reconciliation procedures can be found in Section 8.0. *Reconciliation and Review of Financial Information*. System generated data is reported to SABRS from the Defense Property Accountability System (DPAS). Data calls are reported to DFAS-KC for inclusion in the financial statements from DON and DoD.

The General Property Plant and Equipment line item includes additional disclosures in Note 10. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Investments

The Marine Corps does not report investments on the balance sheet. The Investment line item is reported at the Department of the Navy level and is not applicable to the Marine Corps balance sheet.

Other Assets

The Other Assets line on the balance sheet represents approximately 1.4% of the total assets category reported on the balance sheet.

Other assets are defined as entity assets that are not classified as intragovernmental and are not included on the Other Asset line items. Advances and prepayments should be included in this line. The following represents examples of items to be reported on the Other Assets line item:

- Advances and prepayments made to nonfederal entities
- Value of outstanding civilian and military pay and travel advances
- Value of outstanding progress payments made to contractors under fixed price contracts

The Other Assets line item is reported to the balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS). The Other Assets line item includes additional disclosures in Note 6. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Total Assets

Liabilities

The OMB Circular A-136 defines a liability as a probably future outflow or other sacrifice of resources as a result of past transactions or events. Financial statements shall recognize probable and measurable outflows or other sacrifices of resources arising from (1) past exchange transactions, (2) government-related events, (3) government acknowledged events or (4) non exchange transactions that, according to current law and applicable policy are unpaid as of the reporting date. Liabilities must be recognized when they are incurred regardless of whether they are covered by available budgetary resources. Combine liabilities covered by budgetary resources and liabilities not covered by budgetary resources on the face of

the balance sheet. Disclose liabilities not covered by budgetary resources in the notes to the financial statements.

Intragovernmental Liabilities

Intragovernmental liabilities are claims against the Marine Corps by other Federal entities. Intragovernmental liabilities are reported separately from claims against the Marine Corps by nonfederal entities. The Intragovernmental liabilities category represents approximately 19% of the total assets category.

Accounts Payable Intragovernmental

The Accounts Payable – Intragovernmental line item on the balance sheet represents approximately 34% of the total intragovernmental liabilities category and 6.5% of the total liabilities category.

Accounts payable (AP) are defined as the amounts owed by a Federal entity for goods and services received but not yet paid. Examples of AP are goods and services received from contract performance, rents due to other Federal entities, and interest payable as a component of a liability or interest payable under the Prompt Payment Act. All other interest, penalties, and administrative fees are not applicable to intragovernmental payables.

Accounts payable should be supported by documentation that shows the basis (i.e. receiving report that shows quantities received and accepted) for the amount recorded as a payable and the terms upon which payment is to be made. All economically justified discounts offered by vendors should be taken.

The Accounts Payable Intragovernmental line item consists of the following types of payables. Each payable category is discussed in the table below.

Accounts Payable Line Item Descriptions	
Accounts Payable Line Item	Description
Accounts Payable-Government-Current	Amounts owed to United States (U.S.) Government agencies for goods and services received but for which payment will be made in the current fiscal year.
Accounts Payable-Government-Noncurrent	Amounts owed to U.S. Government agencies for goods and services received but for which payment will not be made in the current fiscal year.
Claims Payable	Adjudicated claims against the DoD, which have not been paid.
Disbursements in Transit	Outlays transmitted to a designated disbursing office by an accounting activity but have not been processed by that disbursing office.
Accrued Interest Payable	Interest that accrues on borrowing and overdue accounts with the passage of time and is not due until a later date.

Table 8: Accounts Payable Line Item Descriptions – Intragovernmental

The Accounts Payable Intragovernmental line item is reported to the Marine Corps balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS). The Accounts Payable Intragovernmental line item includes additional disclosures in Note 12. Refer to section 7.3.5 *Preparing Notes to the Financial Statement*.

Debt

Debt is defined as the amounts of borrowings from the U.S. Treasury, the Federal Financing Bank, or other Federal agencies. The total intragovernmental debt should be provided, as well as, information needed to understand the nature of debt. Explanations for material changes in debt reported for the current period in comparison to the prior period amount must be included. The Debt line item is not applicable to the Marine Corps balance sheet

Other Liabilities Intragovernmental

The Other Liabilities line item on the balance sheet represents approximately 66% of the intragovernmental liabilities category and approximately 12.6% of the total liabilities category on the balance sheet.

The Other Liabilities – Intragovernmental line item is comprised of the following liabilities:

- Deposit Funds and Suspense Account Liabilities – This category represents approximately 34% of the total Other Liabilities Intragovernmental line item.
- Disbursing Officer Cash – This category represents approximately 35% of the total Other Liabilities Intragovernmental line item.
- FECA Reimbursement to the Department of Labor – This category represents approximately 16% of the total Other Liabilities Intragovernmental line item.
- Other Liabilities – This category represents approximately 15% of the total Other Liabilities Intragovernmental line item.

Other liabilities are defined as those liabilities not recognized in specific categories. This includes the total amount due to Federal entities for other liabilities that are not included in other line items. The following are examples of items which would be included on the Other Liabilities line item: deferred credits, advances and prepayments received from other Federal entities for goods to be delivered or services to be performed, deposit fund amounts held in escrow, and capital leases.

Information reported on the Other Liabilities line item should be relevant and information that is not disclosed in the pre-specified liabilities categories. If comparative financial statements are presented, an explanation of the reason for material changes in other liabilities reported on the balance sheet from the prior period should be included.

The Other Liabilities line item is reported to the Marine Corps balance sheet through input from data calls which originate from varying systems and agencies depending on the type of other liability. The Other Liabilities line item includes additional disclosures in Note 15. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Total Intragovernmental Liabilities

This line is a sum of the liabilities detailed above.

Accounts Payable Nonfederal

The Accounts Payable Nonfederal line item on the balance sheet represents approximately 19% of the total liabilities line item on the balance sheet.

Accounts payable are amounts owed for goods and services received. Accounts payable include amounts for:

- Goods and other property purchased and received
- Services performed by employees, contractors, grantees, and lessors supported by contractor invoices and other documentation that acknowledges receipt of service
- Amounts owed at the end of the accounting period under programs for which no further performance or services by payees are required

Accounts Payable Line Item Descriptions	
Accounts Payable Line Item	Description
Contract Holdbacks	Amounts withheld from grantees or contractors pending completion of contracts. Not in SABRS.
Accounts Payable-Public-Current	Amounts owed to non-Federal Government organizations for goods and services received but for which payment will be made in the current fiscal year.
Accounts Payable-Public-Noncurrent	Amounts owed to non-Federal Government organizations for goods and services received but for which payment will not be made in the current fiscal year.

Table 9: Accounts Payable Line Item Descriptions – Nonfederal

Accounts payable should be supported by documentation that shows the basis (i.e. receiving report that shows quantities received and accepted) for the amount recorded as a payable and the terms upon which payment is to be made.

The Mechanization of Contract Administration Services (MOCAS) is used for capturing DoD accounts payable amounts for contract pay when a direct transaction flow does not exist between entitlement and accounting systems. The objective of the MOCAS monthly report is to capture all MOCAS open accounts payable records at a given point in time and reflect those amounts in monthly budgetary and quarterly proprietary (financial) statements. Specific stages in the MOCAS report include receipts unmatched to an invoice, receipts matched to an invoice, and Bureau Voucher Invoices.

To ensure the MOCAS accounts payable output is a complete and reliable source for recording and reporting liabilities, three general categories of payables have been identified that should be reported as a public payable. The general categories and their subcategories are:

Commercial Invoices

Commercial – a contractor’s invoice used in the private sector to bill for government received items.

Service Invoices – payments for services provided to the government such as maintenance, storage or repair. These invoices usually require an administrative or procurement contracting officer’s signature.

Refunds – internal MOCAS payment type for refunds to the contractor, i.e., discounts taken in error.

Administrative Contract Officer – ACO approved (signature) invoices, no DD 250 is required. Payments for services provided to the government such as maintenance, storage and repair.

Additional Supplemental Billing – a supplemental invoice for additional money after the original invoice has been paid, i.e., a change in unit price usually from a contract modification.

Modification Not Billed – an invoice billing for a total amount of a modification which authorizes the payment of a specific amount which was not previously billed and paid.

Termination Cost – cost incurred by the government for terminating a contract at the convenience of the government.

Procurement Contracting Officer – PCO approved (signature) invoices, no DD 250 is required. Payments for services provided to the government such as maintenance, storage and repair.

Freight Charges – payments for transportation charges to a contractor in accordance with the terms of the contract.

Received But Not Billed – contractor re-invoices for the remainder of government accepted delivery on a DD 250.

Financing

Progress Payments – payments made on the cost incurred by the contractor as work progresses under the contract.

Performance Based Payments (PBP) – payments based on specific performance actions being accomplished. Performance is usually measured by objective, quantifiable methods; accomplishment of defined events; other quantifiable measures of results. The Federal Acquisition Streamlining Act (FASA) of 1994 included this provision for use of PBP as an alternative to progress payments.

Commercial Item Financing (CIF) – same as Performance Based Payments except the item is not government specific (i.e., commercial company can purchase the same item).

Bureau Voucher Invoices – Cost reimbursement invoices.

The Defense Contract Audit Agency (DCAA) normally reviews and approves partial payment vouchers under cost-reimbursement type contracts. Documentation is not required for payment processing; however. The payment voucher should be annotated so that it can be properly identified as a provisional payment.

The MOCAS files are generated from three databases – North, South, and West and consist of the following accounts payable files.

1. Invoices Matched to Acceptance File
2. Unmatched Acceptances
3. Bureau Voucher Numbers (BVN) – an SF 1034 with a detailed summary of costs. Contractors usually submit costs on a monthly basis and invoices are received early in the subsequent month.
4. Prevalidated amounts
5. Contract Holdbacks

The monthly MOCAS accounts payable reports include the amounts for all acceptance and receiving reports for which an invoice has not yet been paid, excluding the Multi-ACRN CLINS. Future enhancements may allow for these payables to be included in the monthly MOCAS accounts payable reports. The reports contain detail transaction level information for each shipment number. Additional information included in the monthly MOCAS accounts payable report consist of progress payment recoupment and prevalidated amounts related to specific appropriations. Calculations must be performed in order to record and report the Net Accounts Payable amounts for each appropriation. For example, the total accounts payable amounts already recorded during the MOCAS prevalidation process. The calculations will vary for the accounting systems that post an accounts payable transaction during the MOCAS prevalidation process and those that do not. The following are the calculations that should be performed prior to recording the MOCAS accounts payable amount.

Calculation When Recording Accounts Payable During Prevalidation

ACRN Total minus Recoupment minus Prevalidated Amount = Net Account payable

Calculation For Accounting Systems That Do Not Record an Accounts Payable During Prevalidation

ACRN Total minus Recoupment = Net Accounts Payable

Contract Holdbacks do not factor in to the calculations for the accounts payable because they are classified as “Other Liabilities” on the financial reports. For additional explanations and detailed accrual procedures, including journal vouchers, refer to “The Mechanization of Contract Administration Services (MOCAS) Accounts Payable Accrual Procedures” in *Appendix I Source Documentation*.

The Accounts Payable line item is reported to the Marine Corps balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS). Contract Holdbacks are reported via journal voucher from DFAS-Cleveland. The Accounts Payable line item includes additional disclosures in Note 12. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Military Retirement Benefits and Other Employment Related-Actuarial Benefits

The Military Retirement and Other Employment Related Actuarial Benefits line item on the balance sheet represents approximately 10% of the total liabilities line item reported on the balance sheet.

Entities that are responsible for the administration for pensions, other retirement benefits, and other post employment benefits shall calculate and report these liabilities and related expenses. This line also includes liabilities, assumptions used, and the components of expense for the period for pensions, other retirement benefits, and other post employment benefits.

Military retirement benefits in this line represents the estimated present value projected for agency administered pension, health insurance and similar plan costs requiring actuarial determinations of the actual plan benefits, less net assets, if any based on: (a) service to date, (b) occurrences to date, and/or (c) amounts earned or accrued to date. The portion of the military retirement benefits actuarial liabilities applicable to the Marine Corps is reported on the financial statements of the Military Retirement Fund. Additionally, the portion of health benefits applicable to the Marine Corps is reported on the DoD Agency-wide financial statements.

Other employment related actuarial liabilities include the liabilities for post employment health and life insurance benefits. Liabilities reported here include:

Federal Employees Compensation Act (FECA). Workman’s compensation is benefit coverage for death, disability, medical, and miscellaneous costs for approved cases of on the job incidents. The Department of Labor (DOL) computes the actuarial liability for workers’ compensation benefits.

Voluntary Separation Incentives Program (VISIP). The Voluntary Separation Incentive Program is used to accumulate funds to finance, on an actuarially sound basis, the DoD liabilities incurred under this program. This program covers costs, including the salary and benefits, for qualified military personnel who opt to separate under the program.

DoD Education Benefits Fund. The DoD Education Benefits Fund is designed to accumulate funds for the Educational Assistance program. This program promotes the recruitment and retention of members for the All Volunteer Forces program and the Total Force Concept of the Armed Forces and aids in the readjustment of members of the Armed Forces to civilian life after separation from military service.

The Military Retirement Benefit and Other Employment line item is reported to the Marine Corps balance sheet through data calls which originates from the Department of Labor (DOL) and Office of Personnel Management (OPM).

The Military Retirement Benefits and Other Employment Actuarial Benefits line item includes additional disclosures in Note 17. Refer to Section 7.3.5 *Preparing Notes to the Financial Statements*.

Environmental and Disposal Liabilities

The Environmental and Disposal Liabilities line item on the balance sheet represents approximately 11% of the total liabilities line item reported on the balance sheet.

The USMC reports environmental liabilities as nonfederal. Environmental liabilities are defined as the costs to remove, contain, and dispose hazardous waste from property, plant, and equipment; and the costs to remove, contain, and dispose of material and property that consists of hazardous waste at a permanent or temporary closure or shutdown of an associated PP&E. Environmental liabilities are reported as nonfederal.

Environmental Liabilities Categories	
Subsection	Description
Accrued Environmental Restoration	Cost to correct past environmental problems that are funded under the Defense Environmental Restoration Program (DERP).
Other Accrued Environmental Costs	Costs to correct environmental problems that are not eligible under the DERP program. Does not include the costs associated with compliance, pollution prevention and conservation programs.
Base Realignment and Closure (BRAC)	Cost to correct past environmental problems that are funded under the BRAC.
Environmental Disposal of Weapons Systems	Relate to the final disposition of property, structures, equipment, munitions, and weapons.

Table 10: Environmental Liabilities Categories

Environmental and disposal liabilities are the final disposition costs of property, structures, equipment, munitions, and weapons.

The Statement of Federal Financial Accounting Standards (SFFAS) No. 5 provides criteria for recognizing a contingent liability and such criteria shall be applied to determine if cleanup costs should be recognized as liabilities and/or disclosed in the notes. The SFFAS No. 6 supplements the liability standard by providing guidance for recording cleanup costs related to general PP&E and stewardship assets. The guidance applies to cleanup costs from Federal operations known to result in hazardous waste that the Federal government is required to cleanup.

The USMC will be transitioning to the Navy's Other Environmental Liabilities (OEL) reporting system and the Navy's process for identifying, estimating, and reporting non-DERP environmental liabilities. The data call incorporates some aspects of the Navy's OEL system, including categorization of projects/units and a standardized process for developing OEL cost estimates. The environmental liabilities data call submission is submitted electronically through the installation Comptroller. The submission should include:

- a. Workbook for Reporting Non-DERP Environmental Liability Estimates,
- b. Cost estimate summaries for all non-DERP environmental liability sites/projects.
- c. Cost estimate element table for all non-DERP environmental liability sites/projects.
- d. Management/supervisory review and approval for all non-DERP environmental liability sites/projects.

Documentation must be maintained for every non-DERP environmental liability site/project. Additionally, every estimate must undergo a management/supervisory review.

The Environmental and Disposal Liabilities line item is reported through a journal voucher from a data call initiated by DON. The Environmental and Disposal Liabilities line item includes additional disclosures in Note 14. Refer to section 7.3.5 *Preparing Notes to the Financial Statements*.

Loan Guarantee

Loan Guarantee Liability is defined as the present value of the estimated net cash flows to be paid as a result of loan guarantees for post-1991 loan guarantees. For pre-1992 loan guarantees, the amount of known and estimated losses to be payable will be included. The present value of estimated net cash outflows of the loan guarantees is recognized as a liability for outstanding guaranteed loans. The face value of guaranteed loans outstanding and the amount guaranteed must be disclosed.

The Loan Guarantee Line is not applicable to the Marine Corps balance sheet.

Other Liabilities Nonfederal

The Other Liabilities line item on the balance sheet represents approximately 40% of the total liabilities line category reported on the balance sheet.

The Other Liabilities Nonfederal line item is comprised of the following liabilities:

- Accrued Funded Payroll and Benefits represents approximately 15% of the Other Liabilities Nonfederal line item.
- Nonenvironmental Disposal Liabilities-Excess/Obsolete Structures represents approximately 5% of the Other Liabilities Nonfederal line item.
- Accrued Unfunded Annual Leave represents approximately 74% of the Other Liabilities Nonfederal line item.
- Other Liabilities represents approximately 6% of the total Other Liabilities Nonfederal line item.

Other liabilities are defined as those liabilities not recognized in specific categories. This includes the total amount due the Federal entities for other liabilities that are not included in other line items. The following are examples of items which would be included on the Other Liabilities line item: deferred credits, advances and prepayments received from other Federal entities for goods to be delivered or services to be performed, deposit fund amounts held in escrow, and capital leases.

Information reported on the other liabilities line item should be relevant and information that is not disclosed in the pre-specified liabilities categories. If comparative financial statements are presented, an explanation of the reason for material changes in other liabilities reported on the balance sheet from the prior period should be included. Change greater than 10% of the prior year ending balance is defined as a material change.

The Other Liabilities line item is reported on the Marine Corps balance sheet through input from data calls which originate from varying sources depending on the type of other liability. Accrued Funded Payroll is reported from SABRS. The Other Liabilities line item includes additional disclosures in Note 15. Refer to section 7.3.5 *Preparing Notes to the Financial Statement*.

Net Position

The components of the net position section of the Marine Corps balance sheet are classified as follows.

Unexpended Appropriations – Earmarked Funds/Other Funds

Unexpended appropriations are defined as the portion of the entity's appropriations represented by unobligated balances and unexpended obligations. The unexpended appropriations are adjusted and calculated by instance of occurrence, as discussed in the table below.

Unexpended Appropriations	
Unexpended Appropriations Adjustments	Description
Increases	Occur when appropriations or re-appropriations are received or unexpended appropriation amounts are transferred in.
Decreases	Occur as expenditure accruals using appropriated funds are recognized and recorded, and when unobligated amounts are withdrawn, rescinded, or canceled. Occur when previously appropriated and/or re-appropriated amounts are returned to the U.S. Treasury or to another appropriation or fund.

Table 11: Unexpended Appropriations

The Unexpended Appropriations line item is reported to the Marine Corps balance sheet by the Standard Accounting, Budgeting, and Reporting System (SABRS).

Cumulative Results of Operations – Earmarked Funds/Other Funds

Cumulative Results of Operations are defined as the net difference between:

- Expenses, losses, and transfers out from the inception of an agency or activity
- Financing sources (i.e., appropriations and revenue) and gains from the inception of an agency or activity to the reporting date

Cumulative Results of Operations Adjustments	
Adjustments	Description
Increases	Occur when the results of operations show an excess of financing sources and gains over expenses, losses, and transfers out.
Decreases	Occur when an excess of expenses, losses, and transfers out exist.
Other	Adjustments to cumulative results of operations may also arise from such things as prior period adjustments and distributions of the excess financing sources and gains, in accordance with law, regulation or administrative designation.

Table 12: Cumulative Results of Operations

The cumulative results of operations are adjusted at least annually by the results of operations and by other items, as listed described in Table 11.

6.2 Statement of Net Cost

The Statement of Net Cost represents the Marine Corps net cost of operations. It includes the gross costs incurred by the Marine Corps, less any exchange revenue earned from Marine Corps activities. The statement provides gross and net cost information that can be related to the amount of output or income for the Marine Corps.

6.4 Statement of Budgetary Resources

Budgetary resources encompass new budget authority and resources available to cover liabilities for specified purposes in a given year. Available budgetary resources include: (1) all budgetary resources available for obligation, (2) all indefinite budget authority with appropriations available to be converted to budgetary resources, (3) Federal account receivables for which an obligation against the ordering account is available, and (4) trust fund resources for which its collections are available to be converted into budgetary resources. The Statement of Budgetary Resources presents the budgetary resources available to the Marine Corps and the outlay of budgetary resources for the fiscal year.

6.4.1 Statement of Budgetary Resources Example

Figure 5, *Combined Statement of Budgetary Resources*, provides an example of the format and content of the Marine Corps General Fund Statement of Budgetary Resources. For illustrative purposes, 2nd Quarter, FY 2007 financial statement is presented.

6.4.2 Explanation of Statement of Budgetary Resources Line Items

The explanation of Statement of Budgetary Resources section of this document will be presented in the same format as the Statement of Budgetary Resources sheet. Each line item on the Statement of Budgetary Resources will be explained in detail to provide an understanding of definition of the line,

what is being reported in the line item and the method in which that line is reported to the financial statements.

Budgetary Resources

This section of the statement presents the total budgetary resources available to the Marine Corps. The resources reported on this statement should agree with the total budgetary resources reported for all of the budget accounts on the SF 133. The following lines explain the lines contained in this section.

Unobligated balance, brought forward, Oct 1

The unobligated balance, brought forward, Oct 1 line on the Statement of Budgetary Resources presents the available, unobligated balance brought forward from prior fiscal year as of Oct 1 of the current fiscal year that is available for obligation.

Recoveries from prior year obligations

The recoveries of prior years obligations line item on the Statement of Budgetary Resources includes the amounts for any cancellations or downward adjustments of obligation incurred in prior fiscal years that were not outlayed (actual and anticipated).

Budget Authority

Appropriations

This line represents the amount of appropriations specified in the appropriations act or in substantive laws that become available for obligation on or after October 1 of the fiscal year (actual appropriated).

Borrowing Authority

This amount represents the amount of new borrowing authority, primarily from the Treasury, to finance obligations and outlays.

Contract Authority

This amount represents the amount of new contract authority to incur obligations that typically will require a separate appropriation of liquidating cash before payments can be made.

Spending authority from offsetting collections

This line includes the amounts of reimbursements and other income earned, collected and receivable; changes in unfilled customer orders, with or without advances; anticipated for the rest of the year, without advances; previously unavailable, and expenditure transfers from trust funds collected, receivable and unpaid.

Subtotal

This line reflects the subtotal of the amounts.

Non expenditure transfers, net, anticipated and actual (+) or (-)

This line includes the amount of budget authority or unobligated balance of the prior year budget authority actually transferred to (+) or from (-) the account and include current estimate of any balances transferred to (+) or from (-) the account under existing legislation.

Temporarily not available pursuant to Public Law (-)

This line includes lines that are not available for obligation pursuant to a specific provision of the Public Law, and prior year rescissions. This is a negative amount.

Permanently not available

This line includes amounts for resources permanently not available, for example, cancellations of expired and no year accounts, enacted rescissions, capital transfer and redemption of debt, other authority withdrawn, pursuant to Public Law or anticipated rest of year. This is a negative amount.

Total Budgetary Resources

This line must equal the Total Status of Budgetary Resources as of the reporting date.

Status of Budgetary Resources

This section of the statement presents the status of budgetary resources. This line must equal the Total Budgetary Resources as of the reporting date. The status on this statement must agree with the total budgetary status reported for all budget accounts on the SF 133.

Obligations Incurred

Direct

This line represents obligations not financed by reimbursements.

Reimbursable

This line represents obligations financed by offsetting collections that are payments for goods and services provided to the Marine Corps.

Subtotal

This line represents a sum for lines A and B.

Unobligated Balances

Apportioned

This line includes amounts apportioned.

Exempt from apportionment

This line includes amounts exempt for apportionment.

Subtotal

This line is a sum of the amounts presented in Line 9A and 9B.

Unobligated balances not available

This line represents amounts apportioned for subsequent periods, deferred, withheld pending rescission, and other unobligated balances not available.

Total Status of Budgetary Resources

This line is a sum of the amounts presented in Lines 8C, 9C and 10.

Change in Obligated Balance

This section of the statement represents the change in obligated balances during the reporting period.

Obligated balance, net***Unpaid obligations brought forward, Oct 1 (+)***

The amount in this line item equals the sum of the beginning balance of accounts payable and undelivered orders. In addition, this line should equal line 18A of the final SF 133 from the previous year.

Uncollected customer payments from Federal sources, brought forward, Oct 1(-)

The amount in this line is the sum of the beginning balance of accounts receivable from the Federal government accounts and nonfederal accounts (if authorized by law) and unfilled customer orders from other Federal accounts not accompanied by an advance, unless specifically authorized by law to obligate against orders from nonfederal. In addition, this line will equal 18B of the final SF 133 for the previous year.

Total unpaid obligations, net

This line is the sum of the amounts in Lines 12A and 12B. In addition, this line will equal 18C of the final SF 133 for the previous year.

Obligations Incurred, net

This line represents the amount of obligations incurred from the beginning of the current fiscal year to the end of the reporting period, net of refund received that pertain to obligations incurred in the current year. Upward adjustments of prior year obligations should be included, but not downward adjustments and of obligations due to recoveries of prior year obligations.

Less: Gross Outlays

This line is also known as "Disbursements," it represents the amounts of obligations paid and include refund made in the current year.

Obligated balance transferred, net***Actual transfers, unpaid obligations (+ or -)***

This line includes unpaid obligations from other Federal accounts actually transferred to (+) or from (-) the account during the current fiscal year.

Actual transfers, uncollected payments from Federal sources (+ or -)

This line includes uncollected customer payments from other Federal government actually transferred to (+) or from (-) the account in the current fiscal year.

Total unpaid obligated balance transferred, net

This line represents the sum of the amounts on lines 15A and 15B.

Less: Recoveries of prior year unpaid obligations, actual (-)

This line represents cancelled amounts or downward adjustments of obligations incurred in prior fiscal years that were not outlaid. This line is the same as Line 2, with an opposite sign.

Change in uncollected Federal sources (+,-)

This line represents the amount of reimbursements from Federal sources that is earned, but not collected, to date during the current fiscal year.

Obligated balance, net, end of period***Unpaid obligations***

This line is the amount of undelivered orders that have been prepaid and the amount owed as evidenced by invoices or receipt of goods and services being carried forward to the subsequent period. This line should equal the sum of Line 12A (Unpaid obligations brought forward, Oct 1), Line 13 (Obligations incurred, net), Line 14 (Gross outlays) and Line 15 (Actual transfers, unpaid obligations) less Line 16 (Recoveries).

Less: Uncollected customer payments from Federal sources (-)

This line is the amount of accounts receivable from Federal accounts and nonfederal 9 is specifically authorized by law) and the amount of unfilled customer orders from Federal accounts not accompanied by an advance being carried forward to the subsequent period. Additionally, this line should equal the sum of Line 12B (Uncollected customer payments from Federal sources brought forward, Oct 1), Line 14B (Actual transfers, uncollected customer payments from Federal sources) and Line 17 (Change in uncollected customer payments from Federal sources).

Total, unpaid obligated balance, net, end of period

This line represents the sum of amounts presented on Lines 18A and 18B.

Net Outlays

Outlays consist of disbursement net of offsetting collections. Total outlays should agree with the aggregate of outlays reported on the SF 133's for all budget accounts, including nonbudgetary financing accounts and the disbursements and collections reported to the Department of Treasury on a monthly basis, in accordance with OMB Circular A-11. The outlays should agree with the agency outlay totals reported in the Budget of the United States.

Gross outlays

This line represents the amount of obligations paid. Include the net amount of disbursements.

Less: Offsetting collections

This line includes the amount of reimbursements from other Federal Government accounts and other collections credited to the account from the beginning of the year to the end of the reporting period. Include refunds of payments originally made in prior fiscal years that are received in the current fiscal year. Include the net amount of offsetting collections.

Less: Distributed offsetting receipts

This line is composed of proprietary receipts from the public, receipts from intragovernmental transactions, and offsetting governmental receipts. The amount of offsetting receipts that are distributed to agencies and reported in this statement also shall agree with the deductions for offsetting receipts as reported in the Budget of the United States Government.

Net outlays

This line represents the sum of the amounts presented on lines 19A through 19C. This amount should agree with the net outlays (gross outlays less offsetting collections and receipts) as reported in the Budget of the United States Government.

6.5 Statement of Financing

The Statement of Financing provides information on the total resources used by the Marine Corps and explains how those resources were used to finance orders for goods and services not yet delivered, to acquire assets and liabilities, and to fund the Marine Corps net cost of operations. The statement is the mechanism to accomplish the reconciliation explaining the relationship between budgetary obligations incurred by the Marine Corps and the Marine Corps net cost of operations.³

6.5.1 Statement of Financing Example

Figure 6, *Consolidated Statement of Financing*, provides an example of the format and content of a Marine Corps General Fund Statement of Financing. For illustrative purposes, the 2nd Quarter, FY 2007 financial statement is presented.

³ Statement of Federal Financial Accounting Standards (SFFAS) No. 7, *Accounting for Revenue and Other Financing Sources*

Cost of Goods Sold	0	0
Operating Material & Supplies Used	(501,837)	(453,217)
Other	4,193	(389)
Total components of Net Cost of Operations that will not require or generate resources	<u>64,114</u>	<u>(21,771)</u>
Total components of net cost of operations that will not require or generate resources in the current period	\$ 67,689	\$ 251,821
Net Cost of Operations	\$ 10,462,316	\$ 12,023,326

Figure 6: Consolidated Statement of Financing (cont).

6.6 Notes to the Financial Statements

The preparation of the notes to the financial statements is divided between RFA and DFAS based on the line item. RFA drafts the note for the Significant Accounting Policies, which is an overview of the Marine Corps General Fund, as well as the narrative portion of the notes for line items in which the Marine Corps plays a significant role in the handling and accounting of funds. DFAS provides the financial information from DDRS-AFS that populates the notes, as well as producing narratives for the line items where DFAS is largely responsible for the accounting functions. The detailed process for compiling each note and its disclosures can be found in *Section 7.3.5 Preparation of Notes to the Financial Statements*.

6.6.1 Notes Example

Note 1 summarizes the significant accounting principles and methods of applying those principles that Marine Corps has concluded are most appropriate for presenting the assets, liabilities, net cost of operations, changes in net position and budgetary resources. Note 1 must be final by the 10th calendar day of the reporting cycle. The Marine Corps must notify ODCFO that Note 1 is final except for changes requested by the ODCFO.

6.6.2 List of Notes to the Financial Statements

Table 13, *Notes to the Financial Statements*, presents the notes included in the Marine Corps General Fund financial statements and indicates the entity responsible for preparing the note, or if the note is not applicable to the Marine Corps.

No.	Line Item	Agency Providing Information
1	Significant Accounting Policies	RFA
2	Non-Entity Assets	DFAS
3	Fund Balance With Treasury	DFAS
4	Investments and Other Related Assets	Not Applicable to the Marine Corps
5	Accounts Receivable	DFAS
6	Other Assets	DFAS
7	Cash and Other Monetary Assets	DFAS
8	Direct Loans and Guarantees	Not Applicable to the Marine Corps
9	Inventory and Related Property	RFA
10	General PP&E	RFA
11	Liabilities	RFA
12	Accounts Payable	DFAS
13	Debt	Not Applicable to the Marine Corps
14	Environmental Liabilities	RFA
15	Other Liabilities	RFA
16	Commitments and Contingencies	RFA
17	Military Retirement	RFA
18	Net Costs	DFAS
19	Changes in Net Position	DFAS
20	Statement of Budgetary Resources	DFAS
21	Statement of Financing	DFAS
22	Statement of Custodial Activity	Not Applicable to the Marine Corps
23	Earmarked Funds	RFA
24	Other Disclosures	RFA
25	Restatements	RFA

Table 13: Notes to the Marine Corps Financial Statements

7.0 FINANCIAL STATEMENT PREPARATION PROCESS

The Marine Corps financial report preparation process involves the preparation of (1) financial statements, (2) notes to the financial statements and, (3) management discussion and analysis (MD&A).

The Marine Corps financial statements are prepared to report the financial position of the Marine Corps and the results of operations for the year. The financial statements are intended to depict Marine Corps financial operations accurately, including assets, liabilities, and how they spend taxpayer's dollars.

The financial statement preparation process for the five Marine Corps appropriations is a two-tier process, (1) financial data at the program level is consolidated to the appropriation level and (2) financial activity for each appropriation is compiled into the stand-alone financial statement for the Marine Corps. The Defense Finance and Accounting Service – Kansas City (DFAS-KC) is responsible for reporting Marine Corps financial data. The Accounting and Financial Systems Branch (RFA) is responsible for the form and content of the Marine Corps financial statements. DFAS is also responsible for submission of the statement to the Navy for inclusion in its consolidated financial statements.

The next section will explain the process for compiling the General Fund financial statements.

7.1 Preparing for Quarterly Financial Reporting Cycle

The process of compiling the General Fund financial statements begins before the quarter closes and before the reporting cycle begins. The Office of the Undersecretary of Defense (Comptroller) (OUSDC) releases the updated reporting guidance the month prior to the reporting cycle. Reporting guidance is posted on the DFAS ePortal and is also available at the OUSDC website at <http://www.dod.mil/comptroller/frg/index.html#>. Prior to the reporting cycle, both RFA and DFAS-KC will download the prior period notes from Defense Departmental Reporting System –Audited Financial Statement (DDRS-AFS). Updates to standard disclosures (if applicable) can be applied to the note narratives at this time. The internal data call process also begins at this time. The Department of the Navy (DON) sends a naval message to RFA, formally requesting a data call. RFA sends an email to the installations requesting that they compile the requested information and submit to RFA along with supporting documentation.

7.2 Obtaining Marine Corps Financial Data

The Marine Corps financial statements include information from both financial systems and feeder systems. The DFAS-Cleveland (DFAS-CL), DFAS-KC, and DFAS-Arlington (DFAS-AR) collect the Marine Corps financial system information and incorporate into the financial statements. Data call information is from Marine Corps logistics, inventory or accountability systems.

7.2.1 SABRS Financial Data

Marine Corps general ledger information is captured within the Standard Accounting, Budgeting and Reporting System (SABRS). SABRS is designed to ensure that Marine Corps financial reporting meets the fiduciary standards set forth by the Office of Management and Budget (OMB), United States Treasury Department, Government Accountability Office (GAO), and the Department of Defense (DoD). SABRS captures financial data from the installation level up to Headquarters, Marine Corps (HQMC).

The following steps outline the process for validating the integrity of the data within SABRS.

Reconciling SABRS General Ledger

At the end of each fiscal quarter, SABRS financial information must be balanced to detailed transaction history and reconciled to source data. On the first day after the end of the quarter, the DFAS-KC General Ledger Division runs PRD Balancing Reports on the SABRS general ledger which reconciles commitments, obligations, expenses and liquidations by balancing the general ledger to the History file, Active file and Spend file. These reports are outlined in the Table 1. The table describes the PRD Reports and the purpose of all reconciliations being performed in this process. Refer to *Appendix I Source Documents* for detailed instructions on running reports in SABRS.

Report Title	Type	Description
PRDBALW1	SABRS 4 FILE UNBALANCED ALLOT REPORT, REC TYPE 5	This report contains the allotment appropriations. It compares by general ledger (GL) key, the transactions contained in Active file, Spend file, History file and GL file.
PRDBALW5	SABRS 4 FILE UNBALANCED O&M REPORT, RECT TYPE 5	This report contains O&M appropriations from FY 2003 and forward. It compares by general ledger key the transaction contained in the Active file, Spend file, History file and GL file.
PRDBAL1K	SABRS UNBAL GL/DNR TRAVEL ADVANCES	This report contains all advances paid, compares by GL key the active file to the GL file.
PRDBAL3C	SABRS UNBAL GL/RBD REIM COLLECTIONS	This report contains all collections. It compares the RBD file collections to the GL file by GL key.

Table 14: SABRS PRD Reports.

If anomalies are identified in SABRS by running these reconciliations, an error report is generated. The General Ledger prints the PRD Balance Reports in order to identify where the out of balance condition exists. Errors are researched by comparing the general ledger to the detailed transaction history file. The detailed Transaction History File is downloaded from SABRS using the ReportNet SMARTS. The root cause of the error/out of balance condition would determine which course of action to take to correct the error/balance condition. Errors are corrected by either (1) making an adjustment to SABRS general ledger to agree to transaction history file or (2) sending System Change Request (SCR) to Systems Group to correct systemic issue in SABRS. Refer to the SABRS PRD Balance SOP in *Appendix I-Source Documents* for instructions on accessing and printing PRD Reports and detail transaction history file.

Additional Balancing in SABRS general ledger

In addition to the PRD Balancing Reports, the following reconciliations are being performed on the SABRS general ledger using Retrieval files in SMARTS:

- Proprietary accounts must equal budgetary accounts. If the proprietary does not balance to budgetary, the proprietary accounts are adjusted. Payables 2000 accounts are balanced to Unpaid 4900 accounts. Expenses 6000 accounts are balanced to 4901 and 4902 accounts. If these accounts do not agree, the proprietary accounts are adjusted.
- Occurrence 1 and Occurrence 2 must sum to zero.
- At the end of the month Occurrence 2 rolls to Occurrence 4 for the end of prior month reporting. Occurrence 4 must be checked at the end of the month to ensure that the data rolled correctly from Occurrence 2.

Reconciling SABRS general ledger to Source Data

Once the DFAS-KC Reporting and Analysis Division receives notification that the general ledger is in balance, the Reporting and Analysis Division uses an excel spreadsheet to capture and reconcile data. The spreadsheet template, entitled RECON, is used each month. An example of the RECON spreadsheet is available in *Appendix I-Source Documents*.

The Reporting and Analysis Division downloads the SABRS general ledger from the ReportNet General Ledger File Reports. The general ledger is populated into the RECON spreadsheet. This step must be performed daily in order to maintain accurate general ledger account data in the RECON Spreadsheet. Summarized reports are used for the reconciliation reports. If abnormal balances exist, research is conducted. Refer to SABRS PRD Balance SOP in *Appendix I-Source Documents* for detailed instructions

on retrieving the SABRS general ledger. The following reconciliations are performed on the SABRS General Ledger.

- The Reporting and Analysis Division downloads Defense Cash Accountability System (DCAS) transaction totals from the web at <http://dcasw.csd.disa.mil/dcasweb/>. The previous months' DCAS transaction amounts are available on the 3rd calendar day following the month. The DCAS amounts are downloaded from the web and entered into RECON spreadsheet on the DCAS tab. The total amounts are verified to the disbursements in general ledger account 4902X, Treasury Disbursement, to ensure that the DCAS transactions that are posted to the general ledger agree to the total amounts recorded at the month end.
- The Reporting and Analysis Division retrieves the Program Authorization Documents (PADs) from the Program Budgeting Information System (PBIS). The authorization amounts on the PADs are compared to the SABRS general ledger accounts 4119, Other Appropriations Realized, and 4170, Transfers CY Authority and 4190. If the authorizations do not match, an adjusting journal entry is made into the SABRS general ledger.

7.2.2 Importing Data Call Information into DDRS-AFS

Data call information consists of financial data collected by another agency or department that is material to the information reflected on the Marine Corps financial statements. The sections below provide an illustration of the data flow and dependencies.

Internal Data Calls

Financial data is collected within the DDRS Data Collection Module (DCM), the Marine Corps Total Forces System (MCTFS), and other financial systems that contain Marine Corps financial data, but do not interface with SABRS. This data is retrieved by DFAS and manual journal vouchers are prepared to account for the information within the DDRS-AFS system.

Prior to the start of the financial statement preparation process, the Marine Corps requests and collects data that is not available within SABRS to include on the balance sheet of the financial statement package. The collection process begins with a message notifying the applicable POCs that the effort has begun. A data call template is sent to various POCs informing them that the collection process has begun. The POCs populate the data collection template with the required financial information. Data call information is due no later than the 2nd working day following the reported quarter. Data call information is submitted on the dates outline by both the DoD calendar as well as the DFAS calendar.

The Marine Corps, specifically RFA, collects financial information from Installation-Level feeder systems through a data call process for inclusion in the financial statements. Marine Corps reports Environmental Liabilities, Ammunitions and Heritage Assets through a data call. The process begins when the DON sends a Naval Message to RFA requesting a data call. Data call spreadsheets are sent out by RFA to collect information for Environmental Liabilities, Ammunitions and Heritage Assets.

The data call spreadsheet must be completed with current period amounts and explanations for variances over 10%. Data call spreadsheets are completed by the responsible points of contact at the installations and remitted to RFA, along with supporting documentation, via email before the 5th day of the reporting cycle. RFA reviews the data call submissions and enters into DDRS-DCM. Data calls are due to the DON by the 7th day. DON reviews the data calls in DDRS-DCM. DON submits a journal voucher entry for Marine Corps allocation of each of the categories to DFAS for inclusion in the financial statements.

DFAS enters the journal voucher in DDRS-AFS. The following diagram displays internal data call requests and identifies the responsible command or department.

Data call Request	Responsibility
Environmental Liabilities	Headquarters Marine Corps LFL – Environmental Management
Ammunitions	PM AMMO Marine Corps Systems Command (SYSCOM)
Heritage Assets	Museums Division/Archives Division Marine Corps Base Quantico – Marine Corps Heritage Center

Table 15: Internal Data Calls Responsibilities.

External Data Calls

External data calls are performed in the same manner as internal data calls. These requests are sent to external entities for collection of data. The external entities populate the data collection template with the required financial information. Data call information is due no later than the 2nd working day following the reported quarter. The following table outlines the external data calls and its source, by appropriation.

External Data Call List		
Appropriation	Data Call Items	Source
1105	Unfunded Military Leave Liability-Active	DFAS-KC/Mil Pay
1108	Unfunded Military Leave Liability-Reserve	DFAS-KC/Mil Pay
1105	Military Retirement Fund (MRF) Expense - Contributions Active	DFAS-KC/Mil Pay
1105	VSI Fund Retirement Benefit Expense	DFAS-KC/Mil Pay
1105	Education Benefits Montgomery GI Bill - Expense Reclassification Active (Marine Corps College Fund)	DFAS-KC/Mil Pay
1108	Education Benefits Reclassification Amortization Expense Voluntary/Involuntary Separatees	Marine Corps/MCTFS
MC Component	Suspense Accounts - 6026	DFAS-KC Fiscal Reporting
1106	Interest Expense Reclassification (PPAI)	DFAS-KC/ADR (Fiscal Reporting)
MC Shared Component	Suspense Accounts - 3875, 3880, 3885	DFAS-KC Fiscal Reporting
MC Shared Component	Suspense Accounts - 6500, 6501	DFAS-KC Fiscal Reporting
1108	Military Retirement Fund (MRF) Expense - Contributions Reserve	DFAS-KC/Mil Pay
1105	Disbursing Officer Cash	DFAS-KC/ADR
1105	Disbursing Officer Foreign Currency	DFAS-KC/ADR
All	Allowance for Bad Debt (A/R)	DFAS/KC/JAFB
1109	Judgment Fund Expense - Imputed Costs	DFAS-IN/AW
1109	Judgment Fund Expense-CDA	DFAS-IN/AW

External Data Call List		
Appropriation	Data Call Items	Source
1109	Judgment Fund Expense-NO FEAR	DFAS-IN/AW
1109	Judgment Fund Liability-CDA	DFAS-IN/AW
1109	Judgment Fund Liability-NO FEAR	DFAS-IN/AW
1109	Military Equipment	DFAS-IN/AW
Per Data Call	Contract Contingent Liabilities (MOCAS)	DFAS-IN/AW
1105	Education Benefits Expense Reclassification Vol/Invol Separatees	DFAS-IN/AW
1105	Education Benefits Accrued Liability Reclassification Vol/Invol Separatees	DFAS-IN/AW
1105	Education Benefits Accrued Interest Liability Reclassification Vol/Invol Separatees	DFAS-IN/AW
MC Component	Prepayments of Hazardous Waste	DFAS-CO Departmental Reporting
1508	Operations Materials and Supplies- AMMO only	Navy DCI
1106	Environmental Liabilities (Non-DERP)	Navy
1109	Buildings and Land - Buildings Depreciation Expense	DDRS DCM/Navy
1106	Non-Environmental Disposal Liabilities	Navy
1106	Legal DoD IG Contingent Liability	Navy
1106	Unfunded Civilian Annual Leave Liability	DCPS Report from SABRS
1106	Suspended Revenue from Army Corps of Engineers	US Army Corps of Engineers
1108	Education Benefits Montgomery GI Bill - Expense Reclassification Reserve (Marine Corps College Fund)	Marine Corps/MCTFS
1106	FECA Funded Liability	DOL/DFAS-IN/AW
1106	FECA Accrued Unfunded Liability	DOL/DFAS-IN/AW
1106	FECA Actuarial Liability	DOL/DFAS-IN/AW
1106	FECA Expense	DOL/DFAS-IN/AW
1106	Imputed Financing-Expense-Employee Benefits - Retirement	OPM/DFAS-IN/AW
1106	Imputed Financing-Expense-Employee Benefits - FEGLI	OPM/DFAS-IN/AW
1106	Imputed Financing-Expense-Employee Benefits - FEHB	OPM/DFAS-IN/AW
1106	Expense-Employee Benefits - Retirement	OPM/DFAS-IN/AW
1106	Expense-Employee Benefits - FEGLI	OPM/DFAS-IN/AW
1106	Expense-Employee Benefits - FEHB	OPM/DFAS-IN/AW
1106	Reclassify Accrued Liability- Contributions-Employee Benefits - Retirement	OPM/DFAS-IN/AW
1106	Reclassify Accrued Liability- Contributions-Employee Benefits - FEGLI	OPM/DFAS-IN/AW

External Data Call List		
Appropriation	Data Call Items	Source
1106	Reclassify Accrued Liability- Contributions-Employee Benefits - FEHB	OPM/DFAS-IN/AW
1106	Unemployment Expense	DOL/DFAS-IN/AW
1106	Unfunded Unemployment Liability	DOL/DFAS-IN/AW

Table 16: External Data Calls

DFAS-KC AFS maintains a data call log/checklist. The log is an excel spreadsheet that has a list of all items, by appropriation, that are included in the financial statements. Data calls and other information vital to the financial statements are logged into the spreadsheet as they are received. Refer to *Appendix I-Source Documents* for list of data calls and source points of contact.

Once data calls are received and logged in, journal vouchers are prepared in Defense Departmental Reporting System – Audited Financial Statements (DDRS-AFS) by the DFAS-KC Audited Financial Statements Division (AFS). The AFS Division maintains “desk top procedures” for data call journal vouchers and refer to them as “reason codes”. The “desk top procedures” are operating procedures used by DFAS to validate and record the data calls into the financial statements. Reason codes are the descriptions used to post the JVs in the DDRS system. For each data call received, there is a standard reason code documenting the applicable journal voucher entries (GLA and GLA description), the description of the entry/purpose of the entry, and the type of supporting documentation required. A designated AFS staff member accesses the appropriate reason code and copies the information into DDRS-AFS, JV Creation. The AFS staff member obtains the journal voucher entries values from the supporting documentation. The AFS staff member reviews the entries made in JV Creation and the supporting documentation to ensure accuracy and completion.

After review, the designated AFS staff member prints the Journal Voucher Signature Form from DDRS-AFS, and submits it to the approving official, along with the required supporting documentation. The approving official reviews the journal voucher for completeness and accuracy, compares it to the supporting documentation and approves. Table 4 lists the approving official’s threshold for signature.

Approving Official	Threshold
Division Chief	Less than \$500,000,000.00
Accounting Director	\$500,000,000.00 - \$1,000,000,000.00
Site Director	Over \$ 1,000,000,000.00

Table 4: Data Call Approvals

7.3 Compilation of the Financial Statements

The Marine Corps financial statement preparation process involves (1) producing a trial balance from the final SABRS general ledger file, (2) adjusting the general ledger file, (3) preparation of the monthly budgetary submissions in Departmental Reporting System – Budgetary (DDRS-B) and, (4) preparing quarterly financial statements in DDRS-AFS.

The trial balance is produced from the SABRS general ledger file and imported into the Defense DDRS-B. DDRS-B is used to balance budgetary accounts and produces the monthly budgetary reports. The trial balance from DDRS-B is then uploaded into the DDRS-AFS. DDRS-AFS is used to produce the quarterly financial statements, trend analysis, and notes to the financial statements.

DFAS-KC receives USMC account balances from the SABRS general ledger on a monthly basis. The information is stored in the DDRS-AFS. DDRS-AFS is the financial statement system developed to produce standardized statements for all agencies within the Department of Defense. At the end of the quarter and at the end of the fiscal year, DFAS-KC compiles this information to create the financial statements for the Marine Corps. Once the statements are produced they are submitted to RFA for review. RFA notifies DFAS-KC of any necessary adjustments for the reporting period. DFAS-KC processes the adjustments and generates statements reflecting the adjustment.

7.3.1 Producing the General Ledger Trial Balance

This section outlines the procedures for extracting the trial balance from SABRS and importing it to DDRS-B. This procedure is performed on a quarterly basis.

Between the 3rd of 4th day of the reporting cycle, the General Ledger Division at DFAS-KC will submit a request to the Systems Division to run the protocol to extract the trial balance. The extract is comprised of two datasets. The first dataset consists of SABRS general ledger file records and the second consists of SABRS undistributed records pulled from the SABRS general ledger file. The Systems Division at DFAS-KC executes Job SF1HAA0 DDRS Reg to perform the extract. Once the extract is performed, DFAS-KC Departmental Accounting personnel review the file extract and make any necessary corrections in SABRS before the system division runs the file transfer into DDRS-B on the final extract. The File Transfer Protocol (FTP) is run using Job SF1HAB0. Additionally, systems will run Job SF1HAC0 DDRS Undistributed and FTP SF1HAD0 for undistributed transactions.

The trial balance is extracted from the SABRS General Ledger File Occurrence 4 using Rec types 1, 3 and 5. SABRS uses occurrences to track financial activity for various accounting periods. Occurrence 4 represents transactions for the fiscal year up to the close of the prior month. Rec types represent the level of detail that a given record contains. For example, Rec type 1 records contain the basic symbol, department code, fiscal year, and fiscal year full, while rec type 3 records contain all rec type 1 fields plus the budget activity code, subhead, major reimbursable source code, RON, funding function and basic symbol sponsor. All spending data occurs at rec type 7 and is summarized at the rec type 5 level. For trial balance purposes, only Rec Type 1, 3 and 5 are pulled from the general ledger file and summed to the funding function level.

The trial balance pulled from SABRS includes all active appropriations in SABRS. However, not all active appropriations are used in the preparation of the USMC stand alone financial statements—Section 2.0 outlines the appropriations reported by the Marine Corps. In addition to these appropriations, SABRS contains “pseudo” appropriations that represent additional funding that needs to be tracked separately from the “parent” appropriation mentioned previously. Table 5 provides a list of the pseudo appropriation codes used for the FY06 year-end reporting.

BSYM	Name	Parent BSYM
1149	▪ Procurement, Marine Corps	1109
1160	▪ O&MMC (X)	1106
1548	▪ Procurement, Ammo	1508
2115	▪ Operations and Maintenance Marine Corps Reserves	1105
2116	▪ Operations and Maintenance Marine Corp Y2K	1106
2117	▪ Operations and Maintenance Marine Corps Reserves BO	1107
7036	▪ Family Housing	0735

Table 5: SABRS Pseudo Appropriations

Once the extract is performed, the SABRS trial balance is sent to DDRS-B via File Transfer Protocol (FTP). DDRS-B reads the entire line of accounting systematically. The trial balance is attached to the DDRS-B line of accounting. Any line of accounting not systematically set up in DDRS-B will suspend automatically. The suspended lines will need to be attached manually.

Once the trial balance is imported, DDRS-B runs a balance check on the trial balance. If the DDRS-B trial balance is not in balance, the general ledger division will identify the cause of the out of balance condition and work systems to make corrections as needed.

7.3.2 Adjusting the General Ledger File in DDRS-B

Once the trial balance is successfully imported into DDRS-B, the Reporting and Analysis Division runs a SF 133 Report in both SMARTS and DDRS-B for each appropriation reported by the Marine Corps. The SF 133 that is created in SMARTS is downloaded into the RECON spreadsheet and compared to the SF 133 that was created in DDRS-B. If reconciling errors exist, the DDRS-B is adjusted to agree with the SMARTS SF 133.

Adjustments to DDRS-B are performed using journal vouchers. Most, but not all, journal vouchers that are prepared in DDRS-B should also be prepared in SABRS. Journal vouchers prepared in DDRS-B should be temporary. Adequate supporting documentation for all journal vouchers is required to be maintained. Journal vouchers are prepared by staff for their assigned appropriations. Refer to Table 4 for approving official's thresholds.

Other adjustments made to DDRS-B include the following:

- Adjustments abnormal Accounts Payable
- Post Authority that was not received in time to be posted into SABRS
- Adjust for late registers
- Post refunds receivable
- Allocate undistributed transactions

Undistributed transactions are transactions reported by Treasury which cannot be identified to a specific organization or organizational level. At the end of the month, the SABRS trial balance and the Treasury trial balance is transferred from SABRS to DDRS-B. After this transfer there is an automatic calculation that derives the undistributed amount. DDRS-B compares the Marine Corps fund balance accounts to their counterpart Treasury "x" accounts resident within the SABRS trial balance. The total Treasury balance less the SABRS balance is the resulting adjustment. DDRS-B then adjusts the undistributed accounts for the difference between the Treasury and Marine Corps accounts. This automatic adjustment generates a journal voucher.

The automatic journal voucher process coded into DDRS-B looks at the report maps in DDRS-B for the SF 133 line 19A for disbursements and 19B for collections to determine which general ledger accounts are used for creating the undistributed adjustment.

The undistributed posting logic in DDRS-B is a standard posting logic that is coded into the program logic. There is a standard posting for the undistributed disbursement adjustment and for the undistributed collection adjustment. The adjustment is processed when the SABRS file is processed. If the SABRS file is resubmitted or an unknown trial balance is processed and submitted the undistributed adjustment is recalculated each time.

The automatic journal voucher does not follow the same guidelines as a manual one. There is no research or certification performed prior to the journal voucher being made. After the automatic adjustment takes place DFAS-KC researches the adjustment to explain the difference. The Report 8 is the internal management tool used by DFAS to determine the reason for the undistributed amount.

7.3.3 Generating Monthly Reports in DDRS-B

DDRS-B generates the following reports, by appropriation, from budgetary accounts:

- SF 133 Report on Budget Execution and Budgetary Resources
- AR(M) 1002 Appropriation Status by FY Program and Sub accounts
- AR(M) 725 Report on Reimbursements
- FMS 2108 Year-End Closing Statement and Quarter Ending

Refer to *Appendix I-Source Documents* for examples of reports.

The Reporting and Analysis Division prints out the reports and enter the amounts into the RECON spreadsheet. If there are any discrepancies, the reporting and analysis division will work to determine the necessary corrections. Research includes checking formulas in the RECON spreadsheet and verifying the correct accounts are in the crosswalk. When there are no differences between the DDRS-B reports and the SABRS general ledger, a monthly report checklist is completed. The Monthly Report Checklist is completed by the Reporting and Analysis Division and remitted to the General Ledger Division along with copies of the Reports and the RECON spreadsheet. Refer to *Appendix I-Source Documents* for an example of the Monthly Report Checklist.

7.3.4 Generating Quarterly Financial Reports in DDRS-AFS

After all adjustments are made and monthly reports are final in DDRS-B, the Reporting and Analysis Division prints the trial balance from DDRS-B and reviews for anomalies. The AFS Division also prints and reviews the trial balance. The trial balance is printed from DDRS-B by appropriation. From the home screen expand the Reports folder, click on view/drilldown reports, select the accounting period and then select Marine Corps TI-17.

The screenshot shows the 'View Drill-Down Reports' interface. The 'Accounting Period' is set to 'September 2006'. The 'Select an Organization to view Oracle reports:' section contains the following table:

Organization Structure	Org Code
Department of Defense	
General Fund	
MARINE CORPS	
MARINE CORPS (Shared with Navy)	
MARINE CORPS TI 17	
AT17AA2 1001	
AT17AA2 1003	
AT17AA2 1105	
AT17AA2 1108	
AT17AA2 1110M	
AT17AA2 1111M	
AT17AC2 1106	
AT17AC2 1107	
AT17AC2 1112M	
AT17AC2 1113M	

Using the trial balance reports, the Reporting and Analysis and AFS Divisions look for anomalies such as (1) abnormal account balances, (2) new accounts with questionable balances, and (3) accounts with significantly large or small account balances.

If anomalies are identified, the General Ledger Division is notified of the discrepancy. The anomalies are researched and resolved by the General Ledger Division with adjustments being made to DDRS-B. All of the DDRS-B adjustments must also be made in SABRS. Refer to *Appendix I-Source Documents* for examples of trial balances downloaded from DDRS-B.

When the trial balances in DDRS-B are determined to be accurate and complete, they are ready for upload. The AFS Division downloads the trial balance by appropriation from DDRS-B and uploads in to DDRS-AFS. No changes are to be made to the trial balance after the download from DDRS-B and prior to upload into DDRS-AFS.

Trading Partner Adjustments

Trading partners are Federal entities who engage in transactions with each other. The Marine Corps makes adjustments as necessary to account for transactions made with other Federal entities (Office of Personnel Management, Department of Labor). In order to process these transactions, the Marine Corps conducts intragovernmental eliminations at the transaction level. The Marine Corps accounting system has been modified to require the entry of trading partner information to allow for the intragovernmental elimination process. After the quarter end, DFAS-KC AFS accesses the reimbursable module in SABRS and assigns the trading partner to receivables and revenue based on the line of accounting. If necessary, a journal voucher is made to correct the reimbursable source code. Adjustments are only made to the reimbursable source code. No adjustments should be made to the balance. Ensure that the Accounts Receivable balance per the general ledger reconciles to the reimbursable module.

Trading partner eliminations import sheet is imported into DDRS-AFS around the 8th day of the month. General Fund eliminations data is loaded at a Marine Corps Component Level that has been established in DDRS-AFS. The entity code for the component level is AT17AMC99. DFAS-KC imports the

elimination data into DDRS-AFS directly. The elimination data for General Funds is retrieved from SABRS reimbursable files.

Seller side eliminations data is loaded into DDRS-AFS around the 10th day. Some entities may obtain a waiver for the eliminations. If an entity is waived, then the seller must adjust to the buyer side.

The summary proprietary balances of the sellers are compared to the proprietary balances of the buyer. At the departmental level, buyer side balances are adjusted so that proprietary accounts equal the totals from sellers' records for intra-DoD transactions. Buyer side related budgetary accounts should be adjusted if necessary. Marine Corps has no need to adjust budgetary accounts generally. Eliminating journal vouchers are done in DDRS-AFS.

By the 11th day of the reporting cycle begin balancing the buyer side to the seller side. Complete adjustments of seller side to buyer side by Day 12. Appropriate adjustments should be determined based on the customer and situation. Refer to Appendix for instructions on recording buyer side departmental level intra-DoD reconciling adjustments.

After all data call information and adjustments are input into DDRS-AFS, all reconciliations must equal to zero. Draft statements are reviewed by the AFS staff. Draft statements are to be complete no later than 5:00PM on Day 12.

7.3.5 Preparing Notes to the Financial Statements

Prior to the start of the reporting period, RFA and DFAS AFS download the prior quarters' note narratives from DDRS-AFS. OUSD will send updated quarterly reporting guidance before the beginning of the reporting cycle. Guidance can be downloaded from the OUSD website or from the DFAS ePortal.

Once quarterly guidance is received, RFA will update the Note Templates with new disclosures and post to the Financial Improvement Initiative tool. RFA staff maintains a copy for reference. DFAS can access the FII tool to retrieve note templates as needed to begin preparing narratives for the current quarter note disclosures. Once the Draft financial statements are complete in DDRS-AFS, the current quarter notes are available for download with the tables populated with current amounts. RFA and DFAS will download the notes and paste the current narrative. After the draft notes are reviewed and finalized by RFA they are uploaded into DDRS-AFS. Fluctuation and variance analysis is prepared in a document separate from the note disclosures. Fluctuation and variance analysis is submitted subsequent to the financial statement package.

The next section explains in detail the processes for compiling the notes to the financial statements. The process described below is activity based with a detail for time and inputs.

Note 1 Significant Accounting Policies

Note 1 is prepared by RFA for the quarterly financial reporting. Prior to the end of each quarter, Note 1 is reviewed for accuracy and readability. Disclosures are reviewed quarterly to be certain of an accurate representation of Marine Corps accounting policies to include any recent changes in business practices. In preparation for the quarterly reporting cycle, RFA receives updated reporting guidance from OUSD. This reporting guidance includes a Disclosure Checklist. The disclosure checklist includes sample disclosure checklists for preparing note disclosures. RFA Branch Chief reviews current business processes and systems to determine if the new required disclosures are applicable to Marine Corps. Disclosure verbiage is modified to ensure and complete and accurate representation of each issue.

Note 2 Nonentity Assets

Nonentity assets are those assets that are held by the Marine Corps, but are not available for the component to use in operations. The Marine Corps discloses intragovernmental non-entity assets from other non-entity assets separately and provides other information needed to understand the nature of non-entity assets. The figure below is an example of the Note 2 table.

Note 2. Nonentity Assets			
As of March 31	2007	2006	
1. Intragovernmental Assets			
A. Fund Balance with Treasury	\$ 107,033,935.12	\$ 73,926,266.66	
B. Accounts Receivable	0.00	0.00	
C. Total Intragovernmental Assets	\$ 107,033,935.12	\$ 73,926,266.66	
2. Nonfederal Assets			
A. Cash and Other Monetary Assets	\$ 90,909,855.10	\$ 94,579,054.05	
B. Accounts Receivable	196,707.85	144,969.24	
C. Other Assets	0.00	0.00	
D. Total Nonfederal Assets	\$ 91,106,562.95	\$ 94,724,023.29	
3. Total Nonentity Assets	\$ 198,140,498.07	\$ 168,650,289.95	
4. Total Entity Assets	\$ 39,967,715,638.40	\$ 35,884,370,684.47	
5. Total Assets	\$ 40,165,856,136.47	\$ 36,053,020,974.42	

Note 2 Nonentity Assets Table

The following procedure explains the process for gathering and recording all information and preparing disclosures for nonentity assets.

In the first quarter of a new fiscal year, DFAS records a journal voucher to carry forward prior year ending balance for Cash and Other Monetary Assets not recorded in SABRS. By Day 2, the Statement of Accountability is received from the Disbursing Office; DFAS calculates the net increase or decrease in the statement. DFAS AFS staff prepares and inputs manual journal vouchers for general ledger accounts 1190 and 1200 into DDRS-AFS. DFAS evaluates fluctuations and contacts the responsible Disbursing Officer for the variance explanation to include in the note disclosures. Nonentity accounts receivable is entered into SABRS.

By Day 9, DFAS uploads the trial balance and budgetary import sheet into DDRS-AFS. Total Entity Assets in the table above are populated at this time by the general ledger.

By Day 13, DFAS receives the Suspense Aging Report (SAR) from the Fiscal Division and determines suspense / clearing account balances. DFAS prepares journal vouchers for suspense/clearing budget accounts in DDRS-AFS. At this time the Non entity fund balance with treasury is populated.

After the trial balance is uploaded, the AFS Branch Head approves journal vouchers in DDRS-AFS.

Variations of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the

DoD FMR Financial Statement Notes Disclosure Checklist. The final disclosures are reviewed by DFAS KC AFS prior to submission to RFA. RFA verifies that note includes all required disclosures. RFA analyzes variances and/or fluctuations and ensures that they are fully disclosed in the note narrative.

Note 3 Fund Balance with Treasury

The purpose of the Fund Balance with Treasury (FBWT) note is to disclose (1) Fund Balance with Treasury, (2) Status of Fund Balance with Treasury, (3) Disclosures related to suspense and budget clearing accounts, and (4) Disclosures related to problem disbursements and in-transit disbursements. The following procedure explains the process for gathering and recording information for Note 3 Fund Balance with Treasury. The figure below is an example of the first table in the Fund Balance with Treasury note.

Note 3. Fund Balance with Treasury			
As of March 31		2007	2006
1. Fund Balances			
A. Appropriated Funds	\$	25,054,624,111.91	\$ 18,485,438,823.25
B. Revolving Funds		0.00	0.00
C. Trust Funds		0.00	0.00
D. Special Funds		474,824.09	407,030.18
E. Other Fund Types		107,033,935.12	73,926,266.66
F. Total Fund Balances	\$	<u>25,162,132,871.12</u>	\$ <u>18,559,772,120.09</u>
2. Fund Balances Per Treasury Versus Agency			
A. Fund Balance per Treasury	\$	23,021,292,367.22	\$ 16,888,236,313.03
B. Fund Balance per USMC		25,162,132,871.12	18,559,772,120.09
3. Reconciling Amount			
	\$	<u>(2,140,840,503.90)</u>	\$ <u>(1,671,535,807.06)</u>

By Day 9, DFAS AFS imports the trial balance and budgetary import sheet into DDRS-AFS. Fund Balance with Treasury is populated through the trial balance import. Variances of 10% from the prior period or 2% of total assets must be disclosed in the supplemental variance narrative.

By Day 10, DFAS prepares reconciliations to fund balance with treasury. Differences in the reconciliation to Treasury must also be disclosed in the supplemental variance narrative. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist.

Status of Fund Balance with Treasury				
As of March 31		2007		2006
1. Unobligated Balance				
A. Available	\$	12,201,349,522.66	\$	9,192,565,169.91
B. Unavailable		500,507,589.50		351,801,572.71
2. Obligated Balance not yet Disbursed	\$	12,649,506,009.50	\$	9,256,100,164.95
3. Nonbudgetary FBWT	\$	87,462,756.17	\$	58,756,452.99
4. NonFBWT Budgetary Accounts	\$	(276,693,006.71)	\$	(299,451,240.47)
5. Total	\$	<u>25,162,132,871.12</u>	\$	<u>18,559,772,120.09</u>

The Status of Fund Balance with Treasury table is also populated through the trial balance. Status of Fund Balance with Treasury must equal the Fund Balance with Treasury table or the reason for the difference must be disclosed.

Disclosures Related to Suspense/Budget Clearing Accounts				
As of March 31	2005	2006	2007	(Decrease)/ Increase from FY 2006 - 2007
Account				
F3845 – Personal Property Proceeds	\$ 0.00	\$ 0.00	\$ 0.00	0.00
F3875 – Disbursing Officer Suspense	(14,422,637.56)	(15,135,457.78)	(19,039,846.49)	(3,904,388.71)
F3880 – Lost or Cancelled Treasury Checks	(6,613,745.19)	(34,355.89)	(24,696.46)	9,659.43
F3882 – Uniformed Services Thrift Savings Plan Suspense	0.00	0.00	0.00	0.00
F3885 – Interfund/IPAC Suspense	(3,693,228.69)	0.00	(506,636.00)	(506,636.00)
F3886 – Thrift Savings Plan Suspense	0.00	0.00	0.00	0.00
Total	<u>\$ (24,729,611.44)</u>	<u>\$ (15,169,813.67)</u>	<u>\$ (19,571,178.95)</u>	<u>(4,401,365.28)</u>

By Day 13, DFAS receives the Suspense Aging Report (SAR) from the Fiscal Division and determines suspense / clearing account balances. DFAS prepares journal vouchers for suspense/clearing budget accounts in DDRS-AFS. The SAR is used to populate the Suspense/Budget Clearing Accounts.

Disclosures Related to Problem Disbursements				
As of March 31	2005	2006	2007	(Decrease)/ Increase from FY 2006 to 2007
1. Total Problem Disbursements, Absolute Value				
A. Unmatched Disbursements (UMDs)	\$ 90,127,580.21	\$ 74,718,499.48	\$ 50,377,239.07	\$ (24,341,260.41)
B. Negative Unliquidated Obligations (NULO)	17,943,579.72	16,918,018.73	15,960,202.46	(957,816.27)
C. In-Transit Disbursements	162,461,076.00	20,676,390.00	15,154,210.50	(5,522,179.50)
Total	\$ 270,532,235.93	\$ 112,312,908.21	\$ 81,491,652.03	\$ (30,821,256.18)

On Day 1 Problem Disbursements are prepared by DFAS Field Accounting and sent to DFAS Arlington. DFAS Arlington consolidates all problem disbursements and forwards to DFAS Indianapolis for review. By Day 12, DFAS Indianapolis sends the problem disbursements back to DFAS KC for reporting. Upon receipt of problem disbursements, DFAS KC analyzes the problem disbursements. DFAS AFS prepares journal voucher in DDRS-AFS to input problem disbursements. Unmatched Disbursements (UMD), Negative Unliquidated Obligations (NULO) and In-transit Disbursements are populated in the table above.

Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist. DFAS KC finalizes the note narrative and emails draft note to RFA.

RFA reviews note narrative and finalizes. The final disclosures are reviewed prior to submission to RFA. RFA verifies that note includes all required disclosures. RFA analyzes variances and/or fluctuations and ensures that they are fully disclosed. Finally, RFA uploads the note into DDRS-AFS.

Refer to Appendix G for the process flow map for Fund Balance with Treasury.

Note 4 Investments

Marine Corps does not report Investments on its balance sheet. This note is not applicable.

Note 5 Accounts Receivable

Note 5 presents gross receivables, the method used to estimate the allowance for uncollectible accounts, and the net amount due. Amounts due the Marine Corps shall be recorded accurately in the appropriate receivable amount in the accounting period during which the transaction or event giving rise to the receivable occurs. Receivables arise from claims to cash or other assets and include accounts receivable, interest receivable and loans receivable. Note 5 cannot be completed until all required amounts are received and input into the financial statements.

Note 5. Accounts Receivable				
As of March 31	2007			2006
	Gross Amount Due	Allowance For Estimated Uncollectibles	Accounts Receivable, Net	Accounts Receivable, Net
1. Intragovernmental Receivables	\$ 31,009,094.14	N/A	\$ 31,009,094.14	\$ 48,147,882.34
2. Nonfederal Receivables (From the Public)	\$ 26,838,678.04	\$ (4,821,118.33)	\$ 22,017,559.71	\$ 2,225,077.69
3. Total Accounts Receivable	\$ 57,847,772.18	\$ (4,821,118.33)	\$ 53,026,653.85	\$ 50,372,960.03

Before Day 1, DFAS KC AFS downloads SABRS receiving module and assigns trading partner by line of accounting. Although process improvements have been made, the trading partner data in SABRS may not be complete. A journal voucher is made into SABRS to adjust the reimbursable source code to correct the federal and nonfederal allocation. The reimbursable module is reconciled to the Accounts Receivable line item in total, the journal voucher should only reallocate between federal and nonfederal based on the trading partner assignment.

By Day 6, the report from waived Agencies is received. Only for waived agencies is the buyer correct. Adjustments must be made to agree to waived buyers.

By Day 9, AFS imports the trial balance into DDRS-AFS. The Accounts Receivable line is fed to the financial statements by the SABRS general ledger. In addition, by Day 9, the Treasury Report on Receivables (TROR) is received. Accounts Receivable Nonfederal must match the TROR.

By Day 10, Seller side elimination data is loaded into DDRS-AFS. Adjustments must be made to record the amounts reported by the seller, except in the case of a waived buyer.

DFAS AFS reconciles the accounts receivable (AR) to eliminations data to the TROR.

DFAS AFS prepare accounts receivable and revenue data for the trading partner import sheet. DFAS AFS uploads the trading partner import sheet to DDRS-AFS.

DFAS AFS prepares the aged receivables schedule from the Monthly Report on Receivables. The aged receivables table must be prepared manually and uploaded into the note. Aging schedule variances must be disclosed in the footnotes. Furthermore, DFAS AFS reconciles the aging schedule to the TROR, MRR and Note 5 table.

The Marine Corps shall age delinquent and nondelinquent accounts receivable in a schedule. Delinquent accounts receivable are receivables that have not been paid by the date specified in the initial written demand for payment or applicable agreement unless satisfactory payment arrangements have been made. Receivable which are recorded as delinquent are aged from the payment due date or the day notification of debt was mailed, depending on the agreement. The Marine Corps shall also provide a narrative explaining the amount and the rationale for nondelinquent overaccounts receivable more than 30 days old.

The Marine Corps must also provide an explanation for any fluctuation of 10 percent or more for each of the delinquent or nondelinquent line of the schedule. Furthermore, the Marine Corps will disclose any differences between the total amount reported in the attached schedule and the gross amount reported in the accounts receivable schedule. The schedule has been automated in DDRS-AFS and new footnote accounts have been created to populate the table for both current and prior years.

The total of the columns should equal the gross amounts reported in the accounts receivable schedule in Note 5. This will require that the receivables due internally within each Marine Corps and supported undistributed collections be eliminated from the schedule. Other items may need to be deducted from the subtotal. These items require disclosure in the note narrative.

In addition to the Marine Corps Aging Schedule, a separate schedule containing accounts receivable data with other Federal agencies outside DoD (Level 1 Trading Partners) is required. DFAS needs this data to properly prepare a DoD Agency-Wide accounts receivable aging schedule. The DoD agency wide Note 5 does not contain any inter-agency transactions.

Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the DOD FMR Financial Statement Notes Disclosure Checklist. DFAS AFS finalizes the note narrative and emails draft note to RFA.

RFA reviews note narrative and disclosures. RFA uploads the note to DDRS-AFS.

Note 6 Other Assets

The "Other" assets note includes assets that are not reported in a separate category on the face of the balance sheet. The Marine Corps discloses the amount and nature of categories of "Other" assets. Examples of "Other" Assets may include, but are not limited to, advances and prepayments. Advances are cash outlays made by a Federal entity to employees, contractors, grantees or others to cover a part or all of the recipients' anticipated expenses or as advance payments for the costs of goods and services the entity receives. Prepayments are payments made by a Federal entity to cover certain periodic expenses before those expenses are incurred. Progress payments on work in process are not to be included in advances and prepayments.

Note 6. Other Assets			
As of March 31	2007	2006	
1. Intragovernmental Other Assets			
A. Advances and Prepayments	\$ 1,082,889.99	\$	3,155,314.57
B. Other Assets	0.00		0.00
C. Total Intragovernmental Other Assets	\$ 1,082,889.99	\$	3,155,314.57
2. Nonfederal Other Assets			
A. Outstanding Contract Financing Payments	\$ 530,407,362.13	\$	404,838,186.09
B. Other Assets (With the Public)	18,320,359.26		25,849,002.61
C. Total Nonfederal Other Assets	\$ 548,727,721.39	\$	430,687,188.70
3. Total Other Assets	\$ 549,810,611.38	\$	433,842,503.27

In the first quarter of a new fiscal year, DFAS AFS records journal vouchers to carry forward prior years ending balances for Other Assets not recorded in SABRS.

By Day 9, DFAS AFS uploads the trial balance and budgetary imports to DDRS-AFS.

DFAS AFS receives the MOCAS (Contingent Liability) spreadsheet and calculates the current balance. DFAS AFS inputs journal vouchers for Other Assets balances.

Additionally, DFAS AFS compares the trading partner information to the trial balance difference report. DFAS AFS identifies federal advances and inputs journal vouchers to adjust advances from nonfederal to federal.

DFAS AFS applies standard disclosures in accordance with the DoD FMR. DFAS AFS emails the draft note to RFA. RFA reviews note narrative and disclosures. Finally, RFA uploads the note to DDRS-AFS.

Note 7 Cash and Other Monetary Assets

Cash includes the total of cash under the control of the reporting entity, which includes coin, paper currency, purchased foreign currency, negotiable instruments, and amounts on deposit in banks and other financial institutions. Cash available for agency use should include petty cash and cash held in revolving funds which will not be transferred to the general fund.

Note 7. Cash and Other Monetary Assets			
As of March 31	2007	2006	
1. Cash	\$ 71,368,403.82	\$ 86,289,127.97	
2. Foreign Currency	19,541,451.28	8,289,926.08	
3. Other Monetary Assets	0.00	0.00	
4. Total Cash, Foreign Currency, & Other Monetary Assets	\$ 90,909,855.10	\$ 94,579,054.05	

In the first quarter of a new fiscal year, DFAS AFS records journal vouchers to carry forward prior years ending balances for Cash and Other Monetary Assets not recorded in SABRS.

By Day 4, DFAS AFS receives the Statement of Accountability and calculates the net increase or decrease. DFAS AFS inputs journal vouchers for the change in Cash and Foreign Currency into DDRS-AFS. If a variance is identified, DFAS AFS contacts the responsible Disbursing Officer for an explanation of the variance.

Variations of 10% from the prior period or 2% of total assets must be reported separately. ODCFO established via its 3rd Quarter, Fiscal Year 2007 Financial Statement Guidance Memorandum, a test for the 3rd Quarter, FY 2007 to separate the variance explanations from the notes as a supplemental report. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator two days after submission of the final financial statements and notes. The notes must contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist. DFAS KC finalizes the note narrative and emails draft note to RFA.

RFA reviews the narrative and disclosures then uploads the note to DDRS-AFS.

Note 8 Direct Loan/Loan Guarantee

Marine Corps does not report Direct Loans/Loan Guarantees on its balance sheet. This note is not applicable.

Note 9 Inventory and Related Property

Note 9. Inventory and Related Property			
As of March 31	2007		2006
1. Inventory, Net	\$	0.00	\$ 0.00
2. Operating Materials & Supplies, Net		5,744,311,159.04	5,236,067,834.72
3. Stockpile Materials, Net		0.00	0.00
4. Total	\$	5,744,311,159.04	\$ 5,236,067,834.72

The Marine Corps Inventory and Related Property line item reports Operating Materials & Supply (OM&S) and Ammunitions. The reported amounts for OM&S are retrieved through a direct feed between SASSY and SABRS. Explanations for fluctuations/variances are retrieved through the internal data call process.

Refer to Section 4.5.1.2 for composition of the inventory and related property line item on the balance sheet. Note 9 should provide additional disclosures for the OM&S. Specifically, the note should disclose the net amount of each category of OM&S. OM&S is composed of APA Secondary Inventory and Ammunitions.

Operating Materials and Supplies, Net					
As of March 31	2007			2006	Valuation Method
	OM&S Gross Value	Revaluation Allowance	OM&S, Net	OM&S, Net	
1. OM&S Categories

VARIANCE EXPLANATION

The Held for Use variance was caused by inventory reduction efforts via the Material Returns Program (MRP), and Defense Reutilization Marketing Activity Returns (DRMC). This activity occurred during the first quarter of FY07.

HELD FOR USE	\$ 21,299,603.22
HELD FOR REPAIR	\$ 2,020,233.25

POC: Cheryl Reynolds
PHONE: (904) 696-5462
System or Source of Data Origination: AIMS

Definition of Reporting Requirements

Condition Codes-Reported per Marine Corps UM 4400-71.
 Current Qtr Value-Report the Latest Acquisition Cost (LAC).
 Prior Qtr Value-Current Qtr Value from the previous quarterly report.
 Percent Variance +/- 10 Percent-The difference of 10 percent or more from the prior Qtr to Current Qtr.
 Explanation-Explanation is required for variance of 10 percent or more.

OM&S Data Call Request Form

Ammunitions data call request forms, *Ammunitions Quarterly Value Statement*, are also sent out before the end of the quarter to the identified points of contact. The figure below is an example of the ammunition data request form.

Condition Code	Current Quarter Value	Prior Quarter Value	% Variance	+/- 10% Explanation
A	\$4,102,818,725.42	\$3,715,016,230.07	10.44%	Increase due to receipt of new production items and FY07 unit price increases. For example - DODIC B646 unit price increased from (FY06) \$138.00 per round to (FY07) \$600.00 per round times an inventory of approx 184,000 rds, representing and \$85M value increase.
B	\$278,042,384.17	\$286,515,666.71	-2.96%	
C	\$96,722,319.60	\$88,992,066.70	8.69%	
D	\$50,562,161.36	\$43,316,381.52	16.73%	Increase due to C870 (\$7.6M) being reclassified from C/C M, pending final project completion and return to serviceable C/C.
E	\$1,565,135.89	\$3,483,679.01	-55.07%	Decrease due to assets downloaded from Navy ships at NWS Earle, requiring minor maintenance, being returned to a serviceable C/C. The majority of the DODICs involved (D502/D509/D532/D533/D540/D541/D544/D563/D579/D864) were 155mm items requiring damaged packing/pallet repair.
F	\$158,732,330.68	\$116,926,064.58	35.75%	Increase due to FY07 unit price increases.
G	\$26,882,055.64	\$25,761,220.50	4.35%	
H	\$12,063,787.78	\$10,152,629.58	18.82%	Increase due to large C995 (1,414 rds) reclassification to C/C H of older problematic rounds.
J	\$49,484,859.28	\$36,093,315.13	37.10%	Increase was due to a large suspension of DODICs B642/B643 (11,000 rounds) and unit price increases for FY07.
K	\$19,850,853.09	\$25,933,788.94	-23.46%	Decrease due to DODICs C870 (\$1.8M), D579 (\$2.3M), and PV82 (\$2.0M) being inspected and reclassified to a serviceable C/C.
L	\$25,540,225.23	\$22,111,154.23	15.51%	Increase due to C/C L reclassifications for DODICs D529 (\$7.7M) and M131 (7.2M). Approximately, \$11.5M for DODICs C995 and J143 were reclassified to a serviceable C/C.
M	\$103,934.88	\$10,790,611.48	-99.04%	Decrease due to DODICs C870 (\$7.6M) and C995 (\$2.7M) maintenance project work being completed and reclassified to C/C D pending final project completion and return to serviceable C/C.
N	\$286,527,384.55	\$275,527,361.53	3.99%	
P	\$1,396,152.22	\$4,061,473.42	-65.62%	Decrease due to M913 (80) rounds being demilitarized (components reclaimed) at Hawthorne AAP and removed from asset record.
This report is a comparison between the 30 Sept 06 (4th quarter FY06) and 29 Dec 06 (1st Quarter FY07) inventory values.				

Ammunitions Quarterly Value Statement

Commands are required to complete the OM&S Data Call Request Form and return to RFA with supporting documentation by Day 5. OM&S and Ammunitions data call spreadsheets and supporting documentation are reviewed for accuracy and completeness before being entered into DDRS-DCM by RFA.

A preliminary balance sheet is not initiated until DFAS has completed all the data calls JVs (Day 11 or 12). However, using the data call information, RFA calculates the variances, prepare the Note table and write the narrative explanation. DDRS-AFS will calculate the percentage variables to identify fluctuations. If a fluctuation/variance is identified, RFA will drill down into the balance sheet amount to determine the location for the amount. If the variance explanations given on the data call requests are not suitable, RFA will contact the field for more information. The explanation is documented in the note narrative.

Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist. RFA sends draft note to DFAS AFS for quality review.

DFAS reviews the note narrative and disclosures. Upon DFAS review, RFA uploads the note to DDRS-AFS.

Note 10 General Property Plant and Equipment

Note 10 provides additional disclosure information related to the General Property Plant and Equipment amount reported on the Balance Sheet. The General Property Plant and Equipment note categorizes property by major asset class for (1) Land, (2) Buildings Structures and Facilities, (3) General Equipment and (4) Military Equipment. Additional disclosures for Heritage Assets, Stewardship Land, and Internal Use Software are also required in this note. The process for reporting Land and Buildings is done external to Marine Corps by DON. The process for reporting Military equipment is reported by DFAS – Indianapolis and OSD(C). The process for reporting General Equipment (Personal Property) is done internal to Marine Corps through and interface between DPAS and SABRS.

Note 10. General PP&E, Net						
As of March 31	2007					2006

[†] Note 15 for additional information on Capital Leases

Legend for Valuation Methods:
S/L = Straight Line N/A = Not Applicable

By Day 10, DFAS AFS receives data call information for PP&E. The data call includes the journal voucher that must be made into the financial statements to record PP&E. DFAS prepares a journal voucher for the amount of Marine Corps allocation of the PP&E categories.

By Day 10, RFA will run a preliminary balance sheet in DDRS-AFS. DDRS-AFS will calculate the percentage variables to identify fluctuations.

Variations of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist. RFA sends draft note to DFAS AFS for quality review.

Upon completion, RFA uploads the note into DDRS-AFS.

Note 11 Liabilities not Covered by Budgetary Resources

Note 11. Liabilities Not Covered by Budgetary Resources			
As of March 31		2007	2006
1. Intragovernmental Liabilities			
A. Accounts Payable	\$	0.00	\$ 0.00
B. Debt		0.00	0.00
C. Other		72,108,834.57	72,551,550.97
D. Total Intragovernmental Liabilities	\$	72,108,834.57	\$ 72,551,550.97
2. Nonfederal Liabilities			
A. Accounts Payable	\$	2,186,172.48	\$ 0.00
B. Military Retirement and Other Federal Employment Benefits		214,433,189.58	210,850,168.86
C. Environmental Liabilities		226,435,891.00	225,037,936.00
D. Other Liabilities		654,331,340.17	602,342,957.13
E. Total Nonfederal Liabilities	\$	1,097,386,593.23	\$ 1,038,231,061.99
3. Total Liabilities Not Covered by Budgetary Resources	\$	1,169,495,427.80	\$ 1,110,782,612.96
4. Total Liabilities Covered by Budgetary Resources	\$	867,676,298.21	\$ 2,913,825,345.83
5. Total Liabilities	\$	2,037,171,726.01	\$ 4,024,607,958.79

According to the DoD financial regulations, liabilities not covered by budgetary resources are liabilities that for which Congressional action is needed before budgetary resources can be provided. Furthermore, other liabilities include liabilities not reported elsewhere on the financial statements. For Line 2E, other liabilities, the Marine Corps must disclose all items that include 10 % or more of the lines 1C and 2E.

Accounts payable nonfederal includes those payables that were used to reinstate valid accounts payable that were canceled (general ledger account 2960 – Accounts Payable from Canceled Appropriations).

Other intragovernmental liabilities include general ledger account 2980 – Custodial Liability. This liability is the amount of custodial revenue yet to be transferred to another entity and is reported at the federal and nonfederal levels. Furthermore, this note includes input through general ledger account 2990 – Other Liabilities. This account includes liabilities not classified by any other category. This may include account 2220 – Unfunded Leave Liability. Because this liability is not budgeted for by the Marine Corps, unfunded leave is reported in Note 11 nonfederal other liabilities. As regulated by the Treasury, the amount recorded by an the Marine Corps for unpaid leave earned that the employee is entitled to upon separation and that will be funded from future years' Marine Corps appropriations.

Military retirement and other federal employment benefits are FECA actuarial liabilities. This amount is also shows in Note 17. This amount is recorded by the Marine Corps for the actuarial present value of future Federal Employees' Compensation Act (FECA) benefits provided to personnel employed by the Marine Corps or their beneficiaries as a result of work-related deaths, disability, or occupational disease.

Environmental liabilities will be reported as Non-DERP. All other environmental liabilities will be reported at the DON level. Nonfederal liabilities include general ledger account 2995 – Estimated Cleanup Cost Liability. This is defined as the estimated liability for projected future cleanup costs (not yet due and payable) associated with removing, containing, and/or disposing of (1) hazardous waste from

property, or (2) material and/or property consisting of hazardous waste at permanent or temporary closure or shutdown of the associated property, plant, and equipment.

On day 12, RFA gets notification that the draft statements and notes schedules are available in DDRS-AFS.

If a variance exists, RFA will drill down into the balance sheet and conduct variance analysis. Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. By days 14 and 15, RFA documents remaining disclosures as per the disclosure checklist. Finally, RFA reviews the note narrative and uploads the note to DDRS-AFS.

Note 12 Accounts Payable

Note 12.		Accounts Payable			
As of March 31	2007			2006	
	Accounts Payable	Interest, Penalties, and Administrative Fees	Total	Total	
1. Intragovernmental Payables	\$ 134,129,113.10	\$ N/A	\$ 134,129,113.10	\$ 32,541,816.70	
2. Nonfederal Payables (to the Public)	387,470,982.80	0.00	387,470,982.80	2,281,196,406.73	
3. Total	\$ 521,600,095.90	\$ 0.00	\$ 521,600,095.90	\$ 2,313,738,223.43	

By Day 9, DFAS AFS uploads the trial balance and budgetary imports to DDRS-AFS. DFAS AFS prepares input based on seller's data.

DFAS AFS reviews the trial balance difference report and identifies federal and nonfederal accounts payable. DFAS AFS inputs manual journal vouchers to adjust accounts payable based on seller's data in DDRS-AFS.

Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. DFAS AFS must explain variances in Intragovernmental Accounts payable.

The following steps can assist in identifying the variance:

1. Identify major business events that occurred throughout the year that could have affected Accounts Payable.
2. Use the drill down function in DDRS-AFS to ascertain where the location for the material portion of the difference.

The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist. DFAS AFS reviews note narrative and emails the draft note to RFA. RFA reviews the note narrative and disclosures. Upon completion, RFA uploads the note to DDRS-AFS.

Note 13 Debt

Marine Corps does not report Debt on its balance sheet. This note is not applicable.

Note 14 Environmental Liabilities

The Marine Corps only reports Non-DERP Environmental Liabilities on their balance sheet. All other environmental liabilities are reported on DON financial statements. The process for reporting Non-DERP Environmental Liabilities begins when HQMC - LFL sends an environmental liabilities reporting package to the installations. The environmental liabilities reporting package includes instructions for estimating or updating estimates for environmental liabilities. This should be done the month prior to the quarterly reporting cycle in preparation for the data call request from RFA.

As of March 31		2007			2008	
		Current Liability	Noncurrent Liability	Total	Total	
Note 14. Environmental Liabilities and Disposal Liabilities						
1. Environmental Liabilities-- Nonfederal						
A. Accrued Environmental Restoration Liabilities						
1. Active Installations—Installation Restoration Program (IRP) and Building Demolition and Debris Removal (BD/DR)	\$	0.00	\$	0.00	\$	0.00
2. Active Installations—Military Munitions Response Program (MMRP)		0.00		0.00		0.00
3. Formerly Used Defense Sites—IRP and BD/DR		0.00		0.00		0.00
4. Formerly Used Defense Sites--MMRP		0.00		0.00		0.00
B. Other Accrued Environmental Liabilities—Active Installations						
1. Environmental Corrective Action		0.00		40,636,736.00		29,861,342.00
2. Environmental Closure Requirements		0.00		185,799,155.00		195,176,594.00
3. Environmental Response at Operational Ranges		0.00		0.00		0.00
4. Other		0.00		0.00		0.00
C. Base Realignment and Closure (BRAC)						
1. Installation Restoration Program		0.00		0.00		0.00
2. Military Munitions Response Program		0.00		0.00		0.00
3. Environmental Corrective Action / Closure Requirements		0.00		0.00		0.00
4. Other		0.00		0.00		0.00
D. Environmental Disposal for Weapons Systems Programs						
1. Nuclear Powered Aircraft Carriers		0.00		0.00		0.00
2. Nuclear Powered Submarines		0.00		0.00		0.00
3. Other Nuclear Powered Ships		0.00		0.00		0.00
4. Other National Defense Weapons Systems		0.00		0.00		0.00
5. Chemical Weapons Disposal Program		0.00		0.00		0.00
6. Other		0.00		0.00		0.00
2. Total Environmental Liabilities	\$	0.00	\$	226,435,891.00	\$	225,037,936.00

Prior the quarter end, RFA will send a data call request via email to the appropriate contact in LFL. This request should instruct the responsible personnel to enter the data call information into the DDRS-DCM system.

The installations complete the data call reporting package and return to LFL. LFL will consolidate the packages from the installations and enter the environmental data call estimates in the DDRS-DCM by Day 5. LFL will submit the detail spreadsheets and supporting documentation to RFA for review.

By Day 7, RFA will review the environmental liabilities data call submission and supporting documentation and approve Marine Corps data call submission in DDRS-DCM.

DON FMO reviews and consolidates the data calls in DDRS-DCM. DFAS KC receives the journal vouchers for Marine Corps portion of Non-DERP environmental liabilities to record into DDRS-AFS for the financial statements.

RFA prepares the Note 14 Environmental Liabilities. Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes.

Note 15 Other Liabilities

By day 10, RFA will receive notification from DFAS AFS that journal vouchers for Other Liabilities have been entered into DDRS-AFS. By day 12, DFAS AFS receives the Suspense Aging Report (SAR) and enters journal vouchers into DDRS AFS.

Note 15.		Other Liabilities				
As of March 31		2007			2006	
		Current Liability	Noncurrent Liability	Total	Total	
1. Intragovernmental						
A. Advances from Others	\$	0.00	\$	0.00	\$	0.00
B. Deposit Funds and Suspense Account Liabilities		87,462,756.17		0.00		87,462,756.17

D. Deposit Funds and Suspense Accounts		0.00		0.00		0.00
E. Temporary Early Retirement Authority		0.00		0.00		0.00
F. Nonenvironmental Disposal Liabilities						
(1) Military Equipment (Nonnuclear)		0.00		0.00		0.00
(2) Excess/Obsolete Structures		5,282,000.00		34,110,000.00		39,392,000.00
(3) Conventional Munitions Disposal		0.00		0.00		0.00
G. Accrued Unfunded Annual Leave		609,868,047.17		0.00		609,868,047.17
H. Capital Lease Liability		0.00		0.00		0.00
I. Other Liabilities		6,414,501.18		39,284,770.35		45,699,271.53
J. Total Nonfederal Other Liabilities	\$	745,332,568.52	\$	73,394,770.35	\$	818,727,338.87
K. Total Other Liabilities	\$	983,682,120.85	\$	90,996,360.68	\$	1,074,678,481.53
					\$	1,274,981,630.50

Intragovernmental

For FECA reimbursement, all claims will be coordinated through the Department of Labor. DFAS AFS enters journal vouchers for unfunded FECA liability (USSGL 2225) into DDRS-AFS by day 10. FECA Reimbursement to DOL will be documented as required by disclosure checklist through coordination with DFAS Indianapolis.

If a judgment is pending against the Marine Corps, the liability will be reported under Note 15. Any legal cases against the Marine Corps are coordinated through DON. Additionally, the disclosure applicable to judgments is reported to the Marine Corps via the legal representation letter (See Note 16).

By day 10, DFAS AFS enters journal vouchers for Disbursing Officer's Cash into DDRS-AFS. If a variance exists between quarters, RFA works with RFF (Arlington) to drill down the responsible disbursing officer. RFF requests variance explanation. Additionally, DFAS AFS provides support for variance explanations as reported on the DO Cash 1219. Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes.

Nonfederal

By day 10, all journal vouchers for nonfederal items are placed into DDRS-AFS. Accrued funded payroll/benefits and accrued unfunded annual leave data calls are reported for both military and civilian under Note 15. This data is fed through MCTFS in addition to DFAS AFS journal vouchers. However, the excess/obsolete data call is provided by DON and reported on the Marine Corps balance sheet for line 2F.

By days 14 and 15, RFA documents remaining disclosures in the note narrative. Also, RFA applies the Standard Guidance Checklist and finalizes the note narrative. Finally, RFA uploads the note to DDRS-AFS.

Note 16 Commitments and Contingencies

The Commitments and Contingencies note is the applicable note to disclose contingent liabilities that do not meet the criteria for recognition on the book of a reporting entity.

The process for compiling the Commitments and Contingencies note begins when RFA receives a Legal Representation Letter from DON. From the legal rep letter RFA can identify how many cases are pending or final against the Marine Corps and the amounts that the Marine Corps is or potentially could be liable.

RFA reviews the letter and updates the note narrative with any contingency information that has changed from the prior period.

This note does not require a variance explanation. Additionally, the note must contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist. RFA sends draft note to DFAS AFS for quality review. Finally, RFA uploads note into DDRS AFS.

Note 17 Military Retirement Benefits and Other Employment Related Actuarial Benefits

Note 17.		Military Retirement and Other Federal Employment Benefits			
As of March 31	2007				2006
	Present Value of Benefits	Assumed Interest Rate (%)	(Less: Assets Available to Pay Benefits)	Unfunded Liability	Present Value of Benefits

Market Value of Investments in Market-based and Marketable Securities:

For Note 17, FECA is the main component that will be analyzed by RFA. DFAS Indianapolis will receive an agency wide spreadsheet from the Department of Labor and break down Marine Corps specific data. DFAS Indianapolis forwards data to DFAS AFS. DFAS AFS inputs journal vouchers for FECA liabilities in DDRS-AFS. By day 10, RFA receives notification from DFAS AFS that journal vouchers for FECA have been entered into DDRS-AFS.

Upon receipt of FECA liabilities, RFA will document the changes in Cost of Living Adjustment (COLA) and Consumer Price Index Medical (CPIM) in the table provided in Note 17.

RFA perform analysis for variance explanations and documents variances in note narrative. Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. RFA applies note disclosures in accordance with the disclosure checklist. Finally, RFA finalizes the note narrative and uploads into DDRS AFS.

Note 18 Disclosures Related to the Statement of Net Cost

Although data calls are received from Day 2, the Disclosures Related to the Statement of Net Cost note cannot be completed until the draft financial statements are complete.

Note 18. General Disclosures Related to the Statement of Net Cost		
Intragovernmental Costs and Exchange Revenue		
As of March 31	2007	2006
1. Intragovernmental Costs	\$ 2,880,056,951.89	\$ 2,900,972,036.98
2. Public Costs	7,840,415,185.09	9,279,053,380.64
3. Total Costs	<u>\$ 10,720,472,136.78</u>	<u>\$ 12,180,025,418.60</u>
4. Intragovernmental Earned Revenue	\$ (192,503,515.58)	\$ (142,098,617.90)
5. Public Earned Revenue	(65,652,811.83)	(14,602,854.90)
6. Total Earned Revenue	<u>\$ (258,156,327.41)</u>	<u>\$ (156,701,472.80)</u>
7. Net Cost of Operations	<u>\$ 10,462,315,809.37</u>	<u>\$ 12,023,323,943.80</u>

For the Marine Corps Statement of Net Cost note, DFAS AFS receives data call information for the Total Costs. DFAS AFS inputs manual journal vouchers into DDRS-AFS.

Data Calls for Statement of Net Cost

Intragovernmental Costs

VSI Retirement Annual Amortization Expense
 DoD Education Trust Fund Amortization Expense-Active and Reserve
 Military Retirement Fund Benefit Expense-Active and Reserve
 DoD Education Trust Fund Benefit Expense-Active and Reserve
 DoD Education Trust Fund Benefit Expense-Involuntary and Voluntary Separates
 Employee Benefit Expenses-FEHB, FEGLI, Retirement, Judgment Fund
 Current FECA Expense
 Future Funded Expense for FECA
 Unemployment Compensation Expense
 Future Funded Expense for Unemployment Compensation

Public Costs

Future Funded Expense for Military personnel
 Active and Reserve Future Funded Expense for Civilian personnel
 Donated fuel expense
 PPAI Interest Expense
 APA Secondary OM&S Used-Expense
 Ammunitions Used-Expense
 Future Funded Expense for Environmental Liabilities
 Depreciation Expenses-General Equipment, Buildings, Military Equipment

Table 17: Data Calls for Statement of Net Cost.

By Day 9, DFAS AFS uploads the trial balance import sheet into DDRS-AFS. Total Revenue amounts are fed in to the financial statements and note table from the trial balance import. After the numbers are finalized, DFAS AFS begins analyzing fluctuations or variances that meet the threshold. Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required

threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Notes Disclosure Checklist.

DFAS KC finalizes the note narrative and emails draft note to RFA. RFA reviews note narrative and finalizes. Upon completion of review, RFA uploads the note into DDRS-AFS.

Note 19 Disclosures Related to the Statement of Changes in Net Position

Although data calls are received from Day 2, the Disclosures Related to the Statement of Changes in Net Position note cannot be completed until the draft financial statements are complete.

Note 19. Disclosures Related to the Statement of Changes in Net Position				
As of March 31	2007		2006	
	Cumulative Results of Operations	Unexpended Appropriations	Cumulative Results of Operations	Unexpended Appropriations
1. Prior Period Adjustments Increases (Decreases) to Net Position Beginning Balance				
A. Changes in Accounting Standards	\$ 0.00	\$ 0.00	\$ 0.00	\$ 0.00
B. Errors and Omissions in Prior Year Accounting Reports	0.00	0.00	0.00	0.00
C. Total Prior Period Adjustments	\$ 0.00	\$ 0.00	\$ 0.00	\$ 0.00
2. Imputed Financing				
A. Civilian CSRS/FERS Retirement	\$ 10,782,205.42	\$ 0.00	\$ 11,672,916.73	\$ 0.00
B. Civilian Health	23,338,408.00	0.00	20,733,475.00	0.00
C. Civilian Life Insurance	71,056.37	0.00	68,939.93	0.00
D. Judgment Fund	16,209.08	0.00	1,045,000.00	0.00
E. IntraEntity	0.00	0.00	0.00	0.00
F. Total Imputed Financing	\$ 34,207,878.87	\$ 0.00	\$ 33,520,331.66	\$ 0.00

DFAS receives imputed financing data calls. DFAS AFS inputs manual journal vouchers into DDRS-AFS. This populates the Civilian CSRS/FERS Retirement Plan, Civilian Health, Civilian Life Insurance, and Judgment Fund Litigation.

By Day 9, DFAS AFS uploads the trial balance import sheet into DDRS-AFS. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Note Disclosure Checklist.

If there are any prior period adjustments, the nature and amount of prior period adjustments must be disclosed in the note.

DFAS KC finalizes the note narrative and emails draft note to RFA. RFA reviews note narrative and finalizes. Upon completion of review, RFA uploads the note into DDRS-AFS.

Note 20 Disclosures Related to the Statement of Budgetary Resources

Although data calls are received from Day 2, the Disclosures Related to the Statement of Budgetary Resources note cannot be completed until the draft financial statements are complete.

Note 20. Disclosures Related to the Statement of Budgetary Resources		
As of March 31	2007	2006
1. Net Amount of Budgetary Resources Obligated for Undelivered Orders at the End of the Period	\$ 12,513,480,044.29	\$ 6,913,581,961.36
2. Available Borrowing and Contract Authority at the End of the Period	0.00	0.00

By Day 9, DFAS AFS uploads the trial balance import sheet into DDRS-AFS. The Statement of Budgetary Resources is derived from the proprietary accounts and verified against the budgetary import sheet that was uploaded into DDRS-AFS.

The table in Note 20 is fed through the trial balance. For the Marine Corps' Statement of Budgetary Resources note, DFAS AFS applies standard disclosures in accordance with the FMR. DFAS AFS emails draft note to RFA for review. RFA reviews note narrative and disclosures. Finally, RFA uploads note into DDRS-AFS.

Note 21 Disclosure Related to the Statement of Financing

Although data calls are received from Day 2, the Disclosures Related to the Statement of Financing note cannot be completed until the draft financial statements are complete.

By Day 9, DFAS AFS uploads the trial balance import sheet into DDRS-AFS. After the numbers are finalized, DFAS AFS begins analyzing fluctuations or variances that meet the threshold. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Note Disclosure Checklist.

DFAS AFS emails draft note to RFA. RFA reviews note narrative, disclosures and finalizes. RFA uploads note into DDRS-AFS

Note 22 Disclosures Related to the Statement of Custodial Activity

Marine Corps does not prepare a Statement of Custodial Activity. This note is not applicable.

Note 23 Earmarked Funds

Earmarked Funds are reported through the Fund Balance with Treasury for the 5095 appropriation.

By Day 9, DFAS AFS uploads the trial balance import sheet into DDRS-AFS. Once the trial balance is loaded RFA begins analyzing fluctuations or variances that meet the threshold. Variances of 10% from the prior period or 2% of total assets must be disclosed. Variance analysis meeting the required threshold is provided to the OUSD (C) financial statement coordinator in an attachment separate from the notes. The note must also contain all required disclosures as outlined in the DoD FMR Financial Statement Note Disclosure Checklist.

RFA finalizes the note narrative and uploads note to DDRS-AFS.

Note 24 Other Disclosures

Marine Corps does not report Other Disclosures. This note is not applicable.

Instructions for Component Analysis

DoD components must submit a consolidated analysis for the Balance Sheet and Statement of Net Cost to facilitate DFAS and OUSD (C) review and consolidation of the information for the Agency wide analysis. If a line item does not meet the threshold for analysis the line item may be deleted from the analysis.

The statements of Changes in Net Position, Budgetary Resources, and Financing will also be addressed in the entity analysis, however not all lines meeting the threshold must be discussed. At a minimum, the following lines will be addressed provided they vary 10% with a 1 million floor or 2% of total assets:

Statement of Changes in Net Position

- Budgetary Financing Sources, Appropriations received
- Nonexchange revenue
- Other Financing Sources, Other

Statement of Budgetary Resources

- Total Budgetary Resources
- Obligations
- Net Outlays

Statement of Financing

- Undelivered orders
- Resources that finance the acquisition of assets

In addition to the lines specifically required to be addressed, other lines may be addressed if Marine Corps consider other variances significant.

7.3.6 Process Validation Checklist

The process validation checklist is a management tool that is required to be completed monthly and quarterly to certify that the responsible department within the Financial Statement Compilation process has completed the Financial Statement Compilation in accordance with the standard operating procedures. The checklist also ensures that supporting documentation is maintained throughout the process. The checklist identifies the tasks that are required to be performed by each responsible department. For each task, Financial Statement Compilation personnel are required to insert the additional information identified by the checklist column headers. The checklist is constructed with the following identification headers:

Field Identifier	Description
Task Number (No.)	<ul style="list-style-type: none"> A numerical numbering of the tasks identified in the process validation checklist.
Task	<ul style="list-style-type: none"> This field identifies the task to be performed in the checklist.
Frequency	<ul style="list-style-type: none"> Identifies the occurrence of the task, i.e. daily, monthly, or quarterly.
Performed	<ul style="list-style-type: none"> Indicates if the task has been performed. A “Y” indicates yes that the task was performed, and an “N” indicates that the task has not been completed.
Responsible Owner	<ul style="list-style-type: none"> Identifies the responsible owner of each task.
Date	<ul style="list-style-type: none"> Identifies the date that the task was completed.
Supporting Documents	<ul style="list-style-type: none"> Indicates if supporting documentation is maintained. A “Y” indicates yes that the task was performed and an “N” indicates that the task has not been completed.
Supporting Document Description	<ul style="list-style-type: none"> The responsible owner of the task describes the supporting documents utilized and maintained to complete the task. Utilized documents include both input and output reports.
Expected Documentation	<ul style="list-style-type: none"> Listing of expected documentation as noted per USMC, DoD and Department of Treasury guidelines.
Approval	<ul style="list-style-type: none"> This field indicates if an approval is necessary for the task by indicating a “Y” for yes or “N” for no.
Responsible Approver	<ul style="list-style-type: none"> This field indicated the name and title of the approver as noted above. If the task requires no approval, then “N/A” is noted for not applicable.
Comments	<ul style="list-style-type: none"> This field identifies any issues, concerns, or questions noted during the completion of the task. The comments can be inserted by the responsible owner or responsible approver of the task.

Table 18: Process Validation Checklist Headers

See Appendix I – Source Documents for detailed copies of the Process Validation Checklists.

Currently, there are three departments within DFAS-KC that complete the Financial Statement Compilation process and are required to complete a process validation checklist. The table below identifies the department and frequency of their involvement in the reconciliation process and the completion of the process validation checklist.

DFAS-KC Department	FBWT Reconciliation Frequency
DFAS – General Ledger Division	<ul style="list-style-type: none"> Monthly
DFAS – Budget Execution	<ul style="list-style-type: none"> Monthly Quarterly
DFAS – Audited Financial Statements (AFS)	<ul style="list-style-type: none"> Quarterly

Table 19: Process Validation Checklist Frequency

After the process validation checklist is completed and certified by the appropriate responsible approver, it is then forwarded to RFA in Arlington, VA. RFA personnel review the checklist for completeness, accuracy, and validity. Any issues identified by RFA are communicated to the responsible department for research and correction.

7.3.7 Reconciliations of Trial Balances

During the monthly and quarterly reporting periods, RFA performs three reconciliations to determine if the data presented on the monthly budgetary reports and quarterly financial statement is accurate, valid, and complete. As previously discussed in this section, the SABRS trial balance is uploaded to DDRS-B for production of the monthly budgetary reports. The DDRS-B trail balance is then uploaded quarterly to DDRS-AFS for production of the quarterly financial statements. The following table presents the three reconciliations performed by RFA to confirm that the trail balance uploads were performed correctly.

Reconciliation	Description	Reconciliation Frequency
SABRS TB to SABRS History File	<ul style="list-style-type: none"> The SABRS TB is reconciled to the detailed transactions in the SABRS History File to confirm that the SABRS TB was accurately produced. 	<ul style="list-style-type: none"> Monthly
SABRS TB to DDRS-B TB	<ul style="list-style-type: none"> The SABRS TB is crosswalked to the DDRS-B format. Next, the DDRS-B adjustments are added and the TB is compared to the actual DDRS-B TB to confirm that the SABRS TB was accurately uploaded to DDRS-B. 	<ul style="list-style-type: none"> Quarterly
DDRS-B TB to DDRS-AFS TB	<ul style="list-style-type: none"> The DDRS-B TB is crosswalked to the DDRS-AFS format. Next, the DDRS-AFS adjustments are added and the TB is compared to the actual DDRS-AFS TB to confirm that the DDRS-B TB was accurately uploaded to DDRS-AFS. 	<ul style="list-style-type: none"> Quarterly

Table 20: Reconciliations of Trial Balances

Errors identified during the reconciliations are researched and corrected by RFA with assistance from DFAS. The corrected trial balances are then reproduced to support the generation of the monthly budgetary reports and quarterly financial statements. Documentation is maintained by RFA to support the reconciliations. The trail balance reconciliations help to ensure the complete and accurate transmission of data from SABRS to DDRS-B to DDRS-AFS for financial reporting.

8.0 RECONCILIATION AND REVIEW OF FINANCIAL INFORMATION

DFAS performs quality control reconciliation of the financial statement information presented prior to the publishing of the financial statements of the Marine Corps. RFA performs a quality control review of the draft financial statements and related notes.

8.1 Financial Statement Package Reconciliation

Once the financial statements are generated, DFAS performs a review of the information presented. The beginning balance equals closing balances by cross-walking USSGL accounts to the respective financial statement line items. The current period amounts reflected on the trial balance are compared with the individual financial statements. Data calls are submitted per PAR schedule by the 10th day. The Fund Balance with Treasury information for the Marine Corps is also reconciled with the related Treasury Reports. Delivered Orders are reconciled to Accounts Payable. All unexpended appropriations, expended appropriations and operating expenses are reconciled. Other actions are taken to reconcile financial information on the Marine Corps statements as necessary.

The Marine Corps holds the responsibility for the accuracy and completeness of the information reflected on the statements. The Marine Corps information can be validated by two methods of reconciliation. The information can be verified by a high level reconciliation of financial information or by a low-level reconciliation of individual line items presented on the various statements. The individual line items requiring reconciliation are outlined by DFAS.

8.1.1 High Level Reconciliation

The Marine Corps performs a high-level reconciliation for each of its financial statements before they are finalized for OSD submission.

Balance Sheet Information

The steps outlined below can validate the overall information presented on the balance sheet:

- Verify total net position on the Balance Sheet equals ending balance on the Statement of Changes of Net Position
- Verify that non-entity assets equal liabilities
- Verify roll forward amounts of cumulative results of operations (beginning balances plus flow accounts equals ending balances)
- Verify that current year unexpended appropriations equals ending balance on Statement of Changes in Net Position
- Verify the current year cumulative results of operations equals the ending balance on the Statement of Changes in Net Position

Statement of Net Cost Information

The steps outlined below can validate the overall information presented on the Statement of Net Cost:

- Verify that the ending balances on the Statement of Net Cost equal ending balances on the Statement of Financing
- Verify that the net cost of operations equals the same line item reported on the Statement of Changes in Net Position

Statement of Changes in Net Position

The steps outlined below can validate the overall information presented on the Statement of Changes in Net Position:

- Verify that the amount included as other adjustment in budgetary financing sources is also reflected in the Statement of Budgetary Resources permanently not available
- Verify the following line items under the Other Resources section on the Statement of Financing equal those on the Statement of Change in Net Position:
 - Donations and forfeitures of property
 - Transfers in and out without reimbursement
 - Imputed financing
 - Other resources
- Verify that the Imputed Financing from Costs Absorbed by Others on the Statement of Changes in Net Position equals the Imputed Financing from Costs Absorbed by Others on the Statement of Financing

Statement of Budgetary Resource

The steps outlined below can validate the overall information presented on the Statement of Budgetary Resources:

- Verify that the Spending Authority From Offsetting Collections and Recoveries on the Statement of Budgetary Resources equals the Spending Authority From Offsetting Collections and Recoveries on the Statement of Financing
- Verify that the Obligations Incurred line on the Statement of Budgetary Resources is the same as the Obligations Incurred line on the Statement of Financing
- Verify that the Offsetting Receipts on the Statement of Budgetary Resources equals the Offsetting Receipts on the Statement of Financing
- Reconcile the Statement of Budgetary Resources with the following reports:
 - SF 224
 - SF 1219
 - SF 1220

Statement of Financing

The steps outlined below can validate the overall information presented on the Statement of Changes in Net Position:

- Verify that line items reconcile to all other financial statements

8.1.2 Line Item Reconciliation

DFAS has published guidance for reconciliation of line items reflected on the various statements. The table reflects the line item, corresponding financial statement, and the position on the statement. It also shows the related line items used in the calculation and their position on the statement. If a variance exists, explanations are required by DFAS from the Marine Corps. Reconciliation requirements can be found in Appendix H-Reconciliations.

8.2 Financial Statement Package Review

RFA and DFAS are performing multiple reviews of the statements and notes from day 12 through day 15. The financial statement package review is done prior to uploading the Notes in DDRS-AFS. As the notes at DFAS-KC are completed, there is a preliminary review by the AFS Branch Head at DFAS. If time permits, a second level of review is performed by the Director of the Departmental Accounting Division.

The preliminary review at DFAS-KC includes:

- Verifying that variances are disclosed adequately,
- Verifying that all required disclosures are made,
- Reviewing narratives for readability and grammatical accuracy.

Notes that are completed by DFAS-KC are then sent to RFA via email for review. Simultaneously, the staff at HQMC RFA is completing the notes for which they are responsible. As those notes are complete they are sent to DFAS-KC for review.

As the notes are completed by RFA and as they come in from DFAS-KC, they are reviewed by the Financial Reporting Division Branch Head and revised for edits and comments. The review at RFA includes:

- Reviewing notes for consistency in presentation (Presentation),
- Verifying that all required disclosures are made (Completeness),
- Verifying that variance analysis are adequately explained and meets threshold set by OUSD (Variance Explanation)
- Note schedules agree to balances on face of the statements (Accuracy)

By Day 15 of the reporting cycle notes should be complete and awaiting second level review by the Director of RFA and Director of Fiscal Division. The notes are placed in hardcopy folders with supporting documentation for variance analysis and the disclosure guidance that is applicable to each respective note. The notes are also saved to the internal X drive when they are ready for review. The second level review includes:

- Verifying accuracy and validity of business events
- Verifying disclosures are adequate and appropriate

Notes are updated by RFA staff based on comments and edits provided by second level review. All notes are then printed and reviewed for grammatical errors and formatting consistency. According to the PAR schedule, draft financial statements and notes must be uploaded into DDRS-AFS no later than 5:00PM on Day 15.

On Day 15 of the Reporting Cycle, notes are uploaded into the DDRS-AFS. Notes must be uploaded one note at a time into DDRS-AFS. Once all notes are uploaded, the notes are subsequently downloaded. This is done to ensure that the notes have been uploaded accurately and completely in DDRS-AFS.

8.3 OUSD Financial Statement Scorecard Review

The Marine Corps reviews the financial statements and footnotes and the Fiscal Director will sign the confirmation letter. The Marine Corps Fiscal Director provides a signed confirmation letter to DFAS

indicating review of the Fiscal Year Quarter statements and notes and concurrence of amounts or data call information provided. In addition, the Fiscal Director notifies DoD Office of the Deputy Chief Financial Officer (ODCFO) that the Fiscal Quarter statements and notes are available in DDRS-AFS. Statement and notes are final, except for changes requested by the ODCFO.

The Marine Corps provides responses/changes to issues identified by The ODCFO staff within 6 hours from the time questions are sent or by 4 PM on the 16th day of the month following the ending of the fiscal year quarter, whichever occurs earlier. The staff or analyst review is before the 1st level management review. By Day 18 OUSD will provide 1st level review questions to RFA with a copy to DFAS-KC. From the time on receipt, RFA has 6 hours to respond to comments and upload revised notes in DDRS-AFS. The Marine Corps will provide explanations for variances meeting the established threshold to the OUSD (C) financial statement coordinator and analyst for review by day 17.

The Marine Corps participates in ODCFO daily teleconferences between the 15th and 17th day of the month following the ending of the fiscal year quarter. The teleconferences ensure that the actions required by both the Marine Corps and DFAS are carried out in support of the financial statement finalization process.

The Marine Corps provides completed financial statements Standard Guidance Checklist to DFAS on the 19th day of the month following the ending of the fiscal year quarter. The Marine Corps submits all buyers and sellers report waived entity challenges and outcomes to ODCFO on the 19th day of the month following the ending of the fiscal year quarter.

The Marine Corps briefs their financial statements to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) between the 26th day and 35th day following the end of the fiscal year quarter

9.0 DEFENSE DEPARTMENT REPORTING SYSTEM

The Defense Department Reporting System (DDRS) is the sole reporting system used by the United States Marine Corps for the preparation of financial reports as required under the Chief Financial Officers Act of 1990, as amended by the Government Managers Performance and Results Act of 1994. The Defense Finance and Accounting Services – Kansas City Office (DFAS-KC) has sole responsibility for the compilation of the USMC financial statements. The financial reporting process begins with the extraction of a trial balance from the Standard Accounting Budgeting and Reporting System (SABRS) and ends with the preparation of the SF-133s, four General Fund Principle Financial Statements⁴, and notes to those statements.

9.1 Trial Balance

The financial statement reporting process results in four separate trial balance files. The first two files are SABRS trial balance extracts. The second two files are summarizations of the SABRS trial balance extracts. The SABRS trial balance extract is a Year to Date file only.

9.1.1 SABRS Trial Balance Extract

The SABRS trial balance extract is comprised of two processes. The first process pulls the “Regular Trial Balance,” while the second process pulls undistributed accounts (4902X and 4252X) used to adjust the Regular Trial Balance fund balance with treasury amounts to match the balance in the Defense Cash Accountability System (DCAS).

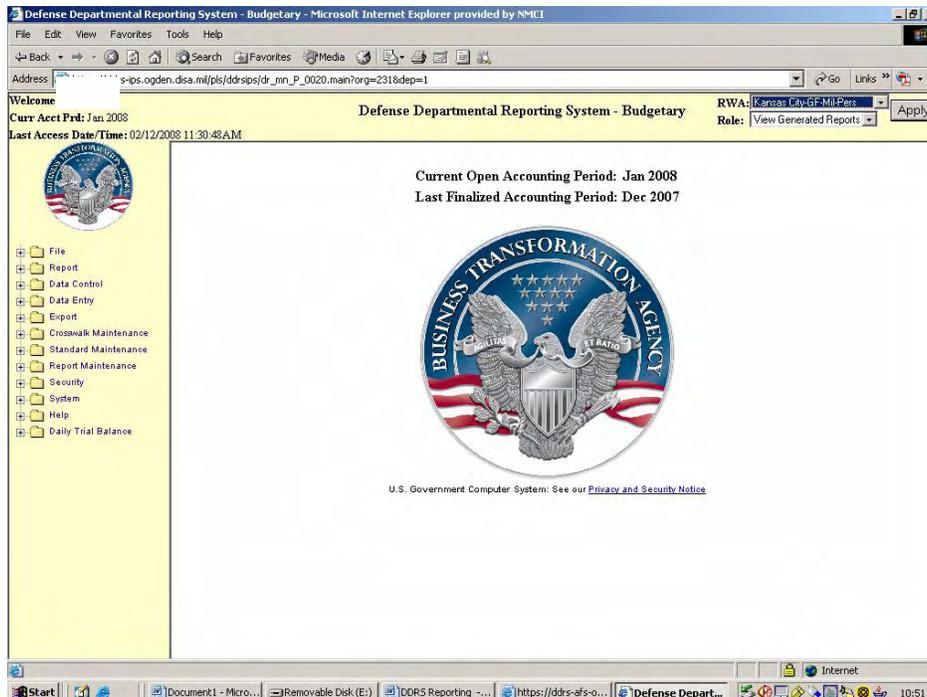

The SABRS trial balance extract only provides year to date (YTD) trial balance amounts. The financial reporting process uses the beginning balance resident within DDRS to produce all quarterly financial statements. However, SABRS Management Analysis Retrieval Tools System (SMARTS) can be used to pull a beginning balance trial balance from SABRS (this tool can also be used to pull many other useful reports – see Section 6 *SMARTS Reporting*).

The SABRS Trial Balance Extract is available in DDRS through the following procedures:

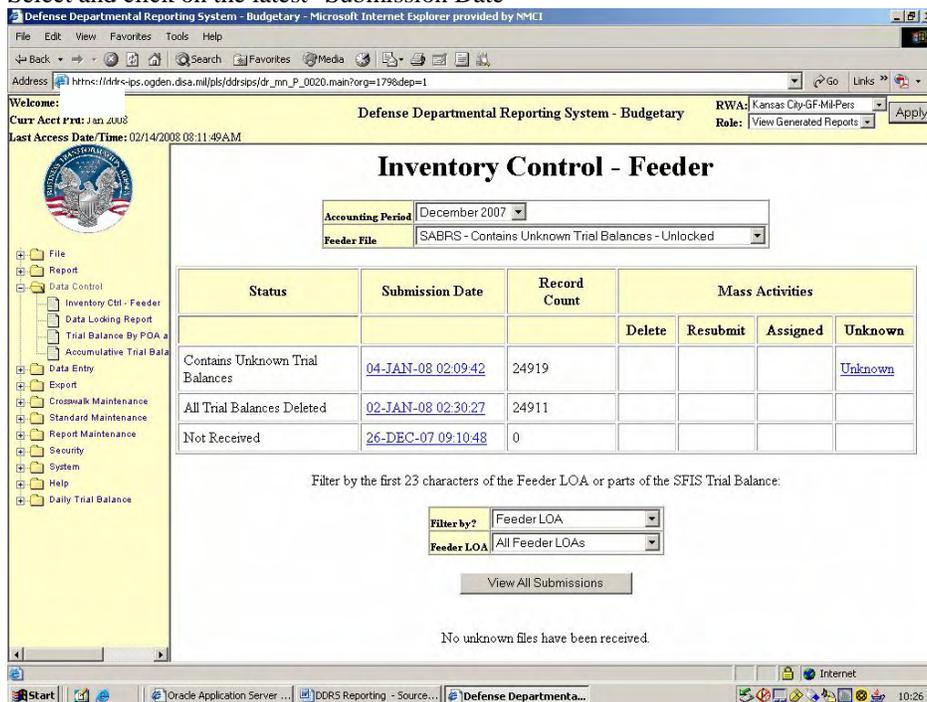

1. Log into DDRS-Budgetary (DDRS-B)
2. Select the proper RWA (ex. 1105 & 1108 is "Kansas City-GF-Mil-Pers").

⁴ The USMC prepares the following general fund financial statements: 1) Balance Sheet, 2) Statement of Budgetary Resources, 3) Statement of Net Cost, and 4) Statement of Changes in Net Position

3. Select the role. You can use either "Basic" or "View Generated Reports."
4. Select the "Data Control" menu from left side of screen.
5. Select "Inventory Ctrl – Feeder."
6. Select the accounting period and feeder file you would like to view.
7. Select and click on the latest "Submission Date"

8. All LOAs that were fed from SABRS are now shown. It also shows whether or not they are balanced.
9. Select the LOA that you would like to look at.
10. On the next screen you will see a table that has "Feeder TB" and "SFIS TB". To see the data and general ledgers sent from SABRS click on "View Data" under the "Feeder TB". To see the data after the SABRS general ledgers have been cross walked to SFIS general ledgers click on the "View Data" under the "SFIS TB". Note: This will only show you the YTD amounts since this is what is sent on the SABRS feed to DDRS-B.

9.1.2 DDRS-B Trial Balance

Once the SABRS trial balance is imported into DDRS-B, crosswalks are used to create a new trial balance using the United States Standard General Ledger (USSGL) account format. The DDRS-B trial balance is only available for extraction one appropriation at a time. The DDRS-B trial balance is available in DDRS through the following procedures:

FY08 Q1 DDRS-B
Trial Balances

FY08 Q1 DDRS – B Trial Balances

1. Log into DDRS-Budgetary (DDRS-B).
2. Select the proper RWA (ex. 1105 & 1108 is "Kansas City-GF-Mil-Pers").
3. Select the role. You can use either "Basic" or "View Generated Reports."
4. Select the "Data Control" menu on the left hand side of the screen.
5. Select "Trial Balance by POA and Line of Accounting."
6. Select the Accounting Period, Org, Beg FY, and End FY (You can also pull the TB by the LOA if you would like).

The screenshot shows the "Defense Departmental Reporting System - Budgetary" web interface. The main content area is titled "Trial Balance Report" and contains the following configuration fields:

Accounting Period:	December 2007
Organization:	AT17AA2_1108 - 1108 Reserve Personnel, Marine Corps
POA Beginning:	2008
POA Ending:	ALL
Line of Accounting:	ALL

Below the configuration fields is a button labeled "Generate Trial Balance Report". The left sidebar shows a navigation menu with "Data Control" selected, and "Trial Balance by POA and Line of Accounting" highlighted. The top of the page displays "Welcome", "Curr Acct Per: Jan 2008", "Last Access Date/Time: 02/12/2008 11:30:48AM", "RWA: Kansas City-GF-Mil-Pers", and "Role: View Generated Reports".

7. You can output in PDF, Excel, or CV file format. Note: by selecting the account balance on the PDF output format, you can drill down to see the SABRS general ledger accounts behind the amounts.

The above steps show how to access the trial balances by a specific fiscal year. However, you can also access the trial balances in a format that combines all active fiscal years together (this still requires pulling each appropriation separately):

1. Log into DDRS-B and select RWA and Role as stated above.
2. Select the "Reports" menu on the left side of the screen.
3. Select "View/Drill-Down Reports"
4. Select the "Accounting Period" at the top of the screen
5. Select desired appropriation.
6. Select the latest version of the report.
7. Select Trial Balance and run the report.

9.1.3 DDRS-AFS Trial Balance

Once all of the DDRS-B reporting has been completed, including the SF-133, the DDRS-B trial balance is imported into DDRS-Audited Financial Statements (DDRS-AFS). The DDRS-AFS trial balance is used to create the following five general fund principle financial statements:

- Consolidated Balance Sheet,
- Consolidated Statement of Net Cost,
- Consolidated Statement of Net Changes in Net Position,
- Combined Statement of Budgetary Resources, and
- Combined Statement of Financing.

NOTE: Once the trial balance is run, certain accounts must be “pulled forward” into the ending balance column. General Ledger accounts 3100, 3310, and 4201 do not show an ending balance. This is due to DDRS-AFS system restrictions. DDRS-AFS restricts changes to these general ledgers accounts, and thus does not report these in the ending balance on the trial balance. These general ledger accounts are beginning balance accounts, meaning that they do not (and aren't allowed to) change during the fiscal year. They only change during the post closing process and have updated amounts during 1st quarter.

The DDRS-AFS trial balance is available in DDRS through the following procedures:

1. Log into DDRS-AFS
2. From the main menu, select Input.
3. Select Data Reports.
4. Select the Entity, Sub-Entity, Program Group, and Program Note: There is no option available to run a combined General Fund Trial Balance (Non-shared & Shared). Therefore, to obtain the amounts supporting the MC Statements & Footnotes, the Non-shared & Shared Trial Balances must be combined.

5. For Combined Report of all Non-Shared Appropriations, select:
 - Entity: AT17-Navy General Fund
 - Sub-Entity: Marine Corps
 - Click Level 2 button.
 - Click the Trial Balance button.
 - Click the Run button.
6. For Individual Report for a Non-Shared Appropriation, select:
 - Entity: AT17-Navy General Fund
 - Sub-Entity: Marine Corps
 - Prog Grp: Select appropriate program group (i.e. Mil Pers)
 - Program: Select appropriate program (i.e. 1105)
 - Click Level 4 button
 - Click the Trial Balance button.
 - Click the Run button.

7. For Combined Report of all Shared Appropriations, select
 - Entity: AT17- Marine Corps Stand Alone Import View
 - Sub-Entity: MCS_SA_IV
 - Click Level 2 button
 - Click the Trial Balance button.
 - Click the Run button.
8. For Individual Report for a Shared Appropriation, select
 - Entity: AT17- Marine Corps Stand Alone Import View
 - Sub-Entity: MCS_SA_IV
 - Prog Grp: MCS_SA_IV-Marine Corps Stand Alone GF Import View
 - Program: Select appropriate program (i.e. 1508M)

- Click Level 4 button)
- Click the Trial Balance button.
- Click the Run button.

9.2 Journal Voucher Files

The financial statement reporting process results in four journal voucher files. The first two files are created in DDRS-B. The second two files created in DDRS-AFS. The DDRS-B journal voucher files consist of regular adjustments to the SABRS trial balance and adjustments to reconcile SABRS fund balance with treasury accounts to DCAS accounts (these act as automated undistributed adjustments). The DDRS-AFS journal voucher files consist of data call and adjusting journal vouchers; and data call beginning balances brought forward.

FY08 Q1 Journal
Vouchers (ALL)

FY08 Q1 Journal Vouchers - ALL

9.2.1 DDRS – B Regular Journal Voucher File

The DDRS-B Regular Journal Voucher File consists of adjustments made to balance proprietary accounts to budgetary accounts, file corrections, and other adjustments. Except for file corrections within DDRS, all DDRS-B journal vouchers are also entered in SABRS. The DDRS-B journal voucher adjustment logs are available in DDRS through the following procedures:

1. Log into DDRS-B
2. Select the proper RWA (ex. 1105 & 1108 is "Kansas City-GF-Mil-Pers").
3. Select the role. You can use either "Basic" or "View Generated Reports."
4. Select Data Entry.
5. Select Consolidated Approved Journal Voucher Log
6. Select the appropriate accounting period.

9.2.2 DDRS –B Undistributed Adjustment File

The DDRS-B Undistributed Adjustment File consists of adjustments made to reconcile SABRS fund balance with treasury accounts to DCAS accounts. The undistributed adjustments are netted against the DCAS general ledger accounts on the SABRS Undistributed Trial Balance Extract, accounts 4902X (disbursements) and 4252X (collections), to adjust SABRS transaction based disbursement and collection accounts to DCAS accounts. These adjustments are made only in DDRS and do not affect the SABRS general ledger or detail files. The DDRS-B undistributed adjustments logs are available in DDRS through the following procedures:

1. Log into DDRS-B
2. Select the proper RWA (ex. 1105 & 1108 is "Kansas City-GF-Mil-Pers").
3. Select the role. You can use either "Basic" or "View Generated Reports."
4. Select Data Entry
5. Select Undistributed Adjustment Log Consolidated
6. Select the appropriate accounting period.

9.2.3 DDRS – AFS Journal Voucher File

The DDRS-AFS Journal Voucher File consists of adjustments made for data calls, suspense accounts, late registers, and other adjustments. Most DDRS-ASF adjustments occur only in DDRS. The DDRS-AFS journal voucher adjustment log is available in DDRS through the following procedures:

1. Log into DDRS-AFS
2. Select JV and Adjustments.
3. Select JV Process.
4. Select the Entity, Sub-Entity, Program Group, and Program. Note: There is no option available to run Combined General Fund JV Log (Non-shared & Shared)

5. For Non-Shared Appropriations
 - Entity: AT17- Navy General Fund
 - Sub-Entity: Marine Corps
 - Click the Level 2 button
 - Click on the JV Log box.
 - Click the Run button.
6. For Shared Appropriations
 - Entity: AT17- Marine Corps Stand Alone Import View
 - Sub-Entity: MCS_SA_IV
 - Click Level 2 button
 - Click on the JV Log box
 - Click the Run button

9.2.4 DDRS – AFS Beginning Balance Import File (Trial Balance Adjustment Log)

The DDRS-AFS Beginning Balance Import File consists of data call balance brought forward from prior periods. These adjustments occur only in DDRS. For Excel processing purposes, the DDRS-AFS Beginning Balance adjustment file must be altered as follows:

- Calculated Beginning Balance Field changed to Beginning Balance (BB)
 - Imported Beginning Field changed to Beginning Balance (BB)
 - Ending Balance Field changed to Beginning Balance (BB)
 - Amounts moved to DR/CR fields based on +/- and normal balance.
- If DR normal balance "+" = Debit, "-" = Credit.
If CR normal balance "+" = Credit, "-" = Debit

The Imported Beginning field is used to adjust the beginning balance imported from DDRS-B. The Calculated Beginning Balance is used to adjust the beginning balance that is in DDRS-AFS (prior year ending balance in DDRS-AFS--this is more for beginning balance adjustments rather than carry forward datacall information not included in SABRS). The Ending Balance is used to adjust the ending balance imported from DDRS-B.

The DDRS-AFS beginning balance import log is available in DDRS through the following procedures:

1. Log into DDRS-AFS
2. Select Input
3. Select Online Input
4. Select Trial Balance Adjustment Log
5. For Non-Shared Appropriations
 - Entity: AT17- Navy General Fund
 - Sub-Entity: Marine Corps
 - Click the Level 2 button
 - Click on the JV Log box.
 - Click the Run button.
6. For Shared Appropriations
 - Entity: AT17- Marine Corps Stand Alone Import View
 - Sub-Entity: MCS_SA_IV
 - Click Level 2 button
 - Click on the JV Log box
 - Click the Run button
7. Select the desired output format (See the below screen print).

Figure 7: Trial Balance Adjustment Log (DDRS – AFS Beginning Balance JVs – Shared)

9.3 Financial Statements

The financial statement reporting process results in 6 financial statements (including the SF-133). The six financial statements are comprised on the Balance Sheet (BS), Statement of Net Cost (SNC), Statement of Budgetary Resources (SBR), Statement of Changes in Net Position (SCNP), Statement of Financing (SoF), and SF-133. The SF-133 is generated in DDRS-B, while all other general fund principle financial statements are generated in DDRS-AFS.

9.3.1 SF-133

DDRS-B produces SF-133s for each of the nine USMC general fund appropriations. The SF-133s are available in DDRS through the following procedures:

1. Log into DDRS-B
2. Select the proper RWA (ex. 1105 & 1108 is "Kansas City-GF-Mil-Pers").
3. Select the role. You can use either "Basic" or "View Generated Reports."
4. Select the "Reports" menu on the left hand side of the screen.
5. Select "View Drill-Down Reports".

9.3.2 General Fund Financial Statements

DDRS-AFS produces all five general fund financial statements. The financial statement can be viewed by appropriation and allow for drill down into each line item for trial balance detail. The general fund financial statements are available in DDRS through the following procedures:

1. Log into DDRS-AFS
2. Select Reports.
3. Select Statements.
4. Select the Entity, Sub-Entity, Program Group, and Program
 - Entity: MC – Marine Corps
 - Sub-Entity: Marine Corps GF
 - select Level 2 button
5. Select the Report Name from the drop down menu (i.e. Balance Sheet)
6. Select Run

The screenshot shows the 'Report Selection' screen in the Defense Departmental Reporting System. The interface includes a menu bar (Action, Edit, Query, Block, Record, Field, Window, Help) and a toolbar with various icons. The user's center is 'KC', role is 'AGENCY_REPORTS', and the accounting period is '4/2007'. The 'REPORTS' section contains several dropdown menus: Entity (AT17 - Marine Corps Shared Stand Alone General Fund), Sub-Entity (MCSGF_SSA), Program (MCSGF_SSA - Marine Corps Shared Stand Alone General ...), and Program (AT17AA2_1001M - MERHCF, Marine Corps). The 'Report Name' is set to 'BS - BALANCE SHEET'. On the right, there are radio buttons for 'Agency-wide', 'Level 1', 'Level 2', 'Level 3', and 'Level 4'. Below these are options for 'Draft' and 'Final'. The 'Output Format' section includes radio buttons for 'PDF', 'WORD', and 'EXCEL'. There are also buttons for 'Final Report Adjustment', 'Current Year', 'Prior Year', and 'Rounded Recalculation'. The 'Standard' section has radio buttons for 'Consolidated/Combined', 'Consolidating/Combining', and 'Disaggregated'. The 'Preview with' section has radio buttons for 'JV', 'Comparative Correction', 'Consolidated/Combined', 'Consolidating/Combining', and 'Disaggregated'. At the bottom, there are 'RUN' and 'RUN ALL' buttons.

Figure 8: Consolidated Financial Statement Report Screen

- The statements can be ran at the appropriation level if needed, to do this you would select the appropriate program (i.e. 1105) and select the Level 4 button.

The screenshot shows the 'Report Selection' screen in the Defense Departmental Reporting System. The interface is similar to Figure 8, but the accounting period is '3/2007'. The 'REPORTS' section contains dropdown menus: Entity (MC - Marine Corps), Sub-Entity (Marine Corps GF), Program (MC_GF_SA - Marine Corps GF), and Program (AT17AA2_1001M - MERHCF, Marine Corps). The 'Report Name' is 'BS - BALANCE SHEET'. On the right, the 'Level 4' radio button is selected. The 'Output Format' section has 'EXCEL' selected. The 'Standard' and 'Preview with' sections are the same as in Figure 8. At the bottom, there are 'RUN' and 'RUN ALL' buttons.

Figure 9: Appropriation Level Financial Statement Report Screen

9.4 Crosswalks

The financial statement reporting process requires the use of 25 separate crosswalks. First, DDRS –B uses 18 crosswalks to bring in the SABRS trial balance extract and convert to the USSGL format. DDRS-B then uses a crosswalk to create the SF-133. Next, the DDRS – B file is cross walked to DDRS – AFS. Finally, DDRS-AFS contains one crosswalk for each financial statement.

9.4.1 SABRS Feeder File Trial Balance Crosswalks

DDRS –B uses 18 crosswalks to bring in the SABRS trial balance extract and convert to the USSGL format. These 18 crosswalks are available in DDRS through the following procedures:

Package

DDRS – B Feeder Crosswalks

9.4.2 DDRS – SF-133 Crosswalk

DDRS – B produces the SF-133 reports for each appropriation. The SF – 133 crosswalk is available in DDRS through the following procedures:

1. Login to DDRS-B
2. Click the Report Maintenance Folder
3. Click Report Mapping Report
4. Click the SF – 133 crosswalk report

Package

DDRS SF – 133 Crosswalks

9.4.3 DDRS – B to DDRS-AFS Crosswalk

After all adjustments are made in DDRS-B and all of the required reports are produced, the DDRS – B trial balance is exported to DDRS – AFS. The DDRS – B trial balance format is crosswalked into a slightly different format for AFS reporting. The DDRS – B to DDRS – AFS crosswalk is available in DDRS be through the following procedures:

DDRS - B to AFS
Crosswalk

DDRS–B to DDRS–AFS

Crosswalks

1. Login to DDRS-B
2. Click the Report Maintenance Folder
3. Click Report Mapping Report
4. Click the DDRS – B to DDRS – AFS Crosswalk Report

9.4.4 DDRS – AFS Financial Statement Crosswalks

DDRS-AFS produces all of the Marine Corps general fund financial statements and financial statement notes. The DDRS – AFS Financial Statement crosswalks are available in DDRS be through the following procedures:

DDRS - AFS
Crosswalks (FYE07)

DDRS – AFS Financial Statement
Crosswalks (FYE07)

1. Login to DDRS-AFS
2. Choose the appropriate accounting period and accounting office (ex. 4/2007 and KC)
3. Choose "Query" from the title bar
4. Choose "Referential Data" from the drop down

5. Choose the appropriate report map and output format (Excel in this case)

9.5 DDRS – AFS Reconciling Reports

DDRS contains automated reports for the purpose of reconciling budgetary to proprietary accounts, the SF-133 to the SBR, trend analysis, and other financial statement standard balancing tests. The Defense Department Reporting System Audited Financial Statements / Unaudited Financial Statements (AFS/UFS) Reconciliations Manual gives detailed explanations of each type of reconciliation performed. The reconciliations can be run and exported from DDRS – AFS:

Adobe Acrobat
Document

DDRS - AFS Recon Manual

9.6 SABRS Management Analysis Retrieval Tools System (SMARTS)

The SABRS Management Analysis Retrieval Tools System (SMARTS) is used by the USMC to run various management reports. SMARTS contains general ledger and history files that are updated and reconciled to SABRS on a daily basis. SMARTS is an Oracle based system that allows for report building and querying in multiple formats. The following reports are a sample of what is currently available in SMARTS from a financial reporting perspective (note that some reports will take 15 – 30 minutes to run):

9.6.1 SMARTS - SABRS Trial Balance

SMARTS can be used to pull a SABRS trial balance from the SABRS general ledger file. The SABRS general ledger file uses Occurrences for time period reporting. Occurrence 11 represents the current fiscal year up to the prior month (see the SABRS user manual for a full list of the occurrences). To pull a beginning balance, Occurrence 1 (inception to date) – Occurrence 2 (fiscal year to date) must be used. This report used the General Ledger File. The SABRS Trial Balance report can be produced from SMARTS as follows:

1. Login to ReportNet
2. Login to SMARTS
3. Click on Public
4. Click on Commands
5. Click on Department Head Financial Accounting Support ADR
6. Chose either Dept closed month or prior month depending on the desired reporting time period

9.6.2 SMARTS - SABRS Financial Statements

SMARTS can be used to pull several financial statement reports. Currently the 1002 report, the SF-133s, and the balance sheet⁵ are the only financial statement reports available in SMARTS. The SF-133 will include all of the DDRS-B journal vouchers (the journal vouchers are entered in both SABRS and DDRS-B), therefore the SMARTS SF-133 should reconcile to the DDRS-B version. However, the SMARTS balance sheet will not include adjustments made in DDRS-AFS. These adjustments would need to be added to reconcile to the DDRS-AFS balance sheet. These reports used the general ledger file.

The financial statements can be produced from SMARTS as follows:

1. Login to ReportNet
2. Login to SAMRTS
3. Click on Commands
4. Click on Department Head Financial Accounting Support ADR
5. Chose either Dept closed month or prior month depending on the desired reporting time period

10.0 INFORMATION SYSTEMS

SABRS is the official accounting system of the Marine Corps. Numerous financial and non-financial systems feed SABRS and supply the data used in compiling the financial statements. The following figure identifies feeder systems that interface SABRS. A table mapping feeder systems to financial statement line item can be located in Appendix I – Source Documents.

⁵ The Balance Sheet is still a work in process. HQMC – RFA created this report using an un-validated crosswalk. The crosswalk needs to be validated before considering this report.

APPENDIX A - DEFINITIONS

Term	Definition	Initial Reference
Accounts Payable	Liabilities incurred in the normal course of business with the understanding that payment is due at a future date.	<i>4.0, Components of the Marine Corps PAR</i>
Amortization	The deduction of capital expenses over a specific period of time. Similar to depreciation, it is a method of measuring the consumption of the value of long-term assets like equipment or buildings.	<i>4.0, Components of the Marine Corps PAR</i>
Balance Sheet	An itemized statement that lists the total assets and the total liabilities of an organization to portray its net worth.	<i>4.0, Components of the Marine Corps PAR</i>
Data Calls	The process used to acquire financial information that is not available through a direct system interface.	<i>5.0, Financial Statement Preparation Process</i>
Depreciation	An expense recorded to reduce the value of an asset over its lifetime.	<i>5.0, Financial Statement Preparation Process</i>
Disposition	Getting rid of an asset or security through a direct sale or some other method.	<i>Appendix F</i>
Appropriations	Money set aside by Congress for a specific purpose. In the case of the Marine Corps, money that is set aside for the execution of specific Marine Corps programs.	<i>1.0, Introduction</i>
Financial Statement	A written report which quantitatively describes the financial health of a company. Financial statements are usually compiled on a quarterly and annual basis.	<i>1.0, Introduction</i>
Imputed Financing	Imputed financing sources primarily represent costs that have been incurred by the entity but budgeted by another entity.	<i>5.0, Financial Statement Preparation Process</i>
Non-entity Assets	Non-entity assets consist of amounts held on deposit for the convenience of the USPTO customers and fees collected on behalf of the World Intellectual Property Organization (WIPO) and the European Patent Office (EPO).	<i>4.0, Components of the Marine Corps PAR</i>
Revaluation	A calculated adjustment to a country's official exchange rate relative to a chosen baseline. The baseline can be anything from wage rates to the price of gold to a foreign currency. In a fixed exchange rate regime, only a decision by a country's government (i.e. central bank) can alter the official value of the currency.	<i>Appendix F</i>

Term	Definition	Initial Reference
Spending Authority	Borrowing authority, contract authority, and entitlement authority for which appropriation acts do not provide budget authority in advance. Under the Budget Act of 1974, legislation that provides new spending authority may not be considered unless it provides that the authority shall be effective only to the extent or in such amounts as provided in an appropriation act.	<i>6.0, Reconciliation and Review of Financial Information</i>
Statement of Budgetary Resources	The Statement of Budgetary Resources presents the budgetary resources available to the Marine Corps and the outlay of budgetary resources for the fiscal year.	<i>4.0, Components of the Marine Corps PAR</i>
Statement of Changes in Net Position	The Statement of Changes in Net Position presents the accounting items that caused the net position section of the Balance Sheet to change from the beginning to the end of the fiscal year	<i>4.0, Components of the Marine Corps PAR</i>
Statement of Financing	The Statement of Financing provides information on the total resources used by the Marine Corps and explains how those resources were used to finance orders for goods and services not yet delivered, to acquire assets and liabilities, and to fund the Marine Corps net cost of operations.	<i>4.0, Components of the Marine Corps PAR</i>
Statement of Net Cost	The Statement of Net Cost represents the Marine Corps net cost of operations. It includes the gross costs incurred by the Marine Corps, less any exchange revenue earned from Marine Corps activities.	<i>4.0, Components of the Marine Corps PAR</i>
Trial Balance	A statement of all debit and credit items in a double entry ledger, made to test their equality.	<i>5.0, Financial Statement Preparation Process</i>

APPENDIX B - GLOSSARY OF ACRONYMS

Acronym	Acronym Expansion
CDS	Combat Development System
CFO	Chief Financial Officer
DCI	Data Collection Instrument
DDMS	Deputy Director for Military Support

APPENDIX D – ADDITIONAL TABLES

The condition codes used to qualify OM&S Held for Use items are A, B, C, and D and are detailed in Table 1, *Held for Use Condition Codes*.

Code	Description	Definition
A	Serviceable	Issuable Without Qualifications - New, used, repaired, or reconditioned materiel that is serviceable and issuable to all customers without limitation or restriction. Includes materiel with more than 6 months' shelf life remaining.
B	Serviceable	Issuable With Qualifications - New, used, repaired, or reconditioned materiel that is serviceable and issuable for intended purpose; however, it is restricted from issue to specific units, activities, or geographical areas by reason of its limited usefulness or short service life expectancy. Includes materiel with 3 through 6 months' shelf life remaining.
C	Serviceable	Priority Issue - Items that are serviceable and issuable to selected customers; but they must be issued before Supply Condition Code A and B materiel to avoid loss as a usable asset. Includes materiel with less than 3 months' shelf life remaining.
D	Serviceable	Testing/Modification - Serviceable materiel that requires test, alteration, modification, technical data marking, conversion, or disassembly. This does not include items that must be inspected or tested immediately prior to issue.

Table 1: Held for Use Condition Codes.

The condition codes used to qualify OM&S Held for Repair items are E, F, G, J, K, L, M, N, and R and are detailed in Table 2, *Held for Repair Condition Codes*.

Code	Description	Definition
E	Unserviceable	Limited Restoration - Items that require only limited expense or efforts to restore to serviceable condition.
F	Unserviceable	Reparable - Material that requires an extensive amount of repair, reconditioning or overhaul or the amount of repair required is unknown.
G	Unserviceable	Incomplete - Items that require additional parts or components to complete the end item prior to issue.
J	Suspended	In Stock - Items in stock that have been suspended from issue pending condition classification or analysis, when the true condition is not known. Included are items that have been suspended from issue and use pending commodity command investigation or determination of serviceability and munitions items that are being subjected to a malfunction investigation due to an unsafe or other defective condition. Condition Code "J" assets shall be reclassified before reporting the material to the sponsor.
K	Suspended	Returns - Items that have been returned from customers and users suspended from issue pending inspection and condition classification, including items that have been identified by stock number and name, but not examined for condition. Condition Code "K" assets shall be reclassified before reporting to the sponsor.
L	Suspended	In Litigation - Materiel that is held pending litigation or negotiation with vendors or common carriers. Materiel cannot be issued or shipped until the matter is resolved.

Code	Description	Definition
M	Suspended	In Work - Materiel that has been inducted into the repair cycle.
N	Suspended	Ammunition - Ammunition stocks that have been suspended from issue except for emergency combat use.
R	Suspended	Reclaimed Awaiting Condition Determination - Assets that have been turned in by reclamation activities that do not have the capability (e.g., skills, manpower, or test equipment) to determine the condition of the material. Assets must be reclassified before they are reported.

Table 2: Held For Repair Condition Codes

The condition codes used to qualify OM&S Excess, Obsolete, and Unserviceable items are P, H, S, and V and are detailed in Table 3, *Excess, Obsolete, and Unserviceable Condition Codes*.

Code	Description	Definition
P	Unserviceable	Reclamation/Salvage - Items that are unserviceable, uneconomically repairable because of physical inspection, tear down, or engineering decision, and are held for the reclamation of serviceable components or assemblies. The Reevaluation column should be used to write down asset value to zero.
H	Condemned	Unserviceable - The item that is beyond economic repair and has an expired shelf life that cannot be extended. The Revaluation column should be used to write down asset value to zero.
S	Condemned	Scrap - Material that has no value except for its basic material content. No stock will be recorded as on hand in Supply Condition S. This code is used only on transactions involving shipments to DRMO.
V	Unserviceable	Waste Military Munitions - Waste Military Munitions (WMM) will be assigned Code V only under the authority of a designated DoD or Service Designated Disposition Authority. The WMM must meet criteria of waste munitions under the Environmental Protection Agency Military Munitions Rule Implementation Policy, be safe to store and ship based on DoD Explosive Safety Board/Department of Transportation criteria and have a current serviceability inspection.

Table 3: Excess, Obsolete, and Unserviceable Condition Codes.

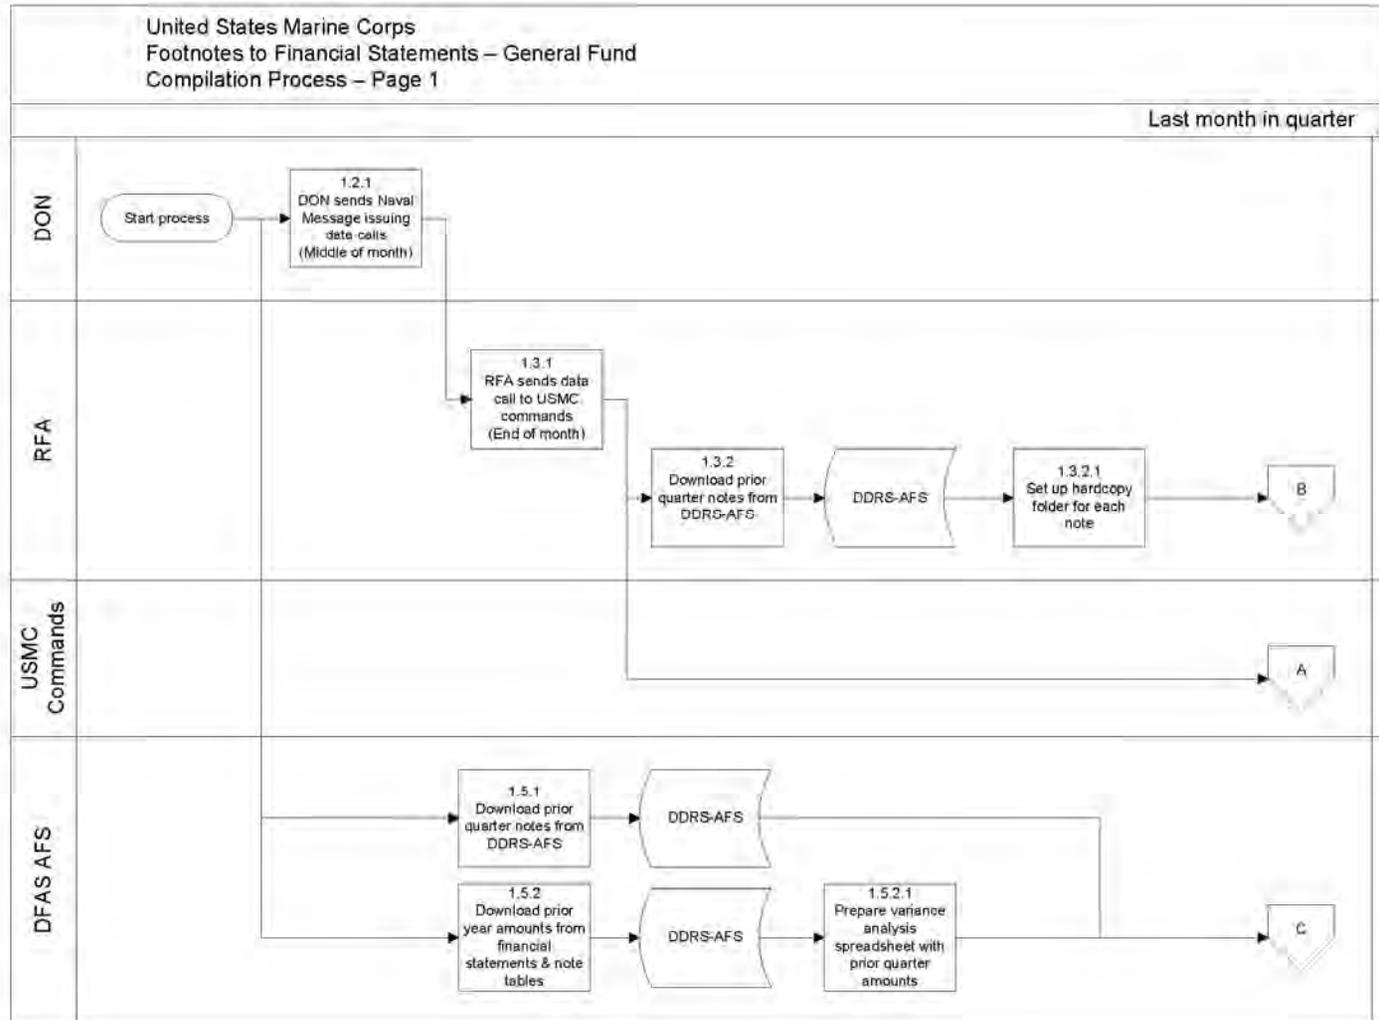

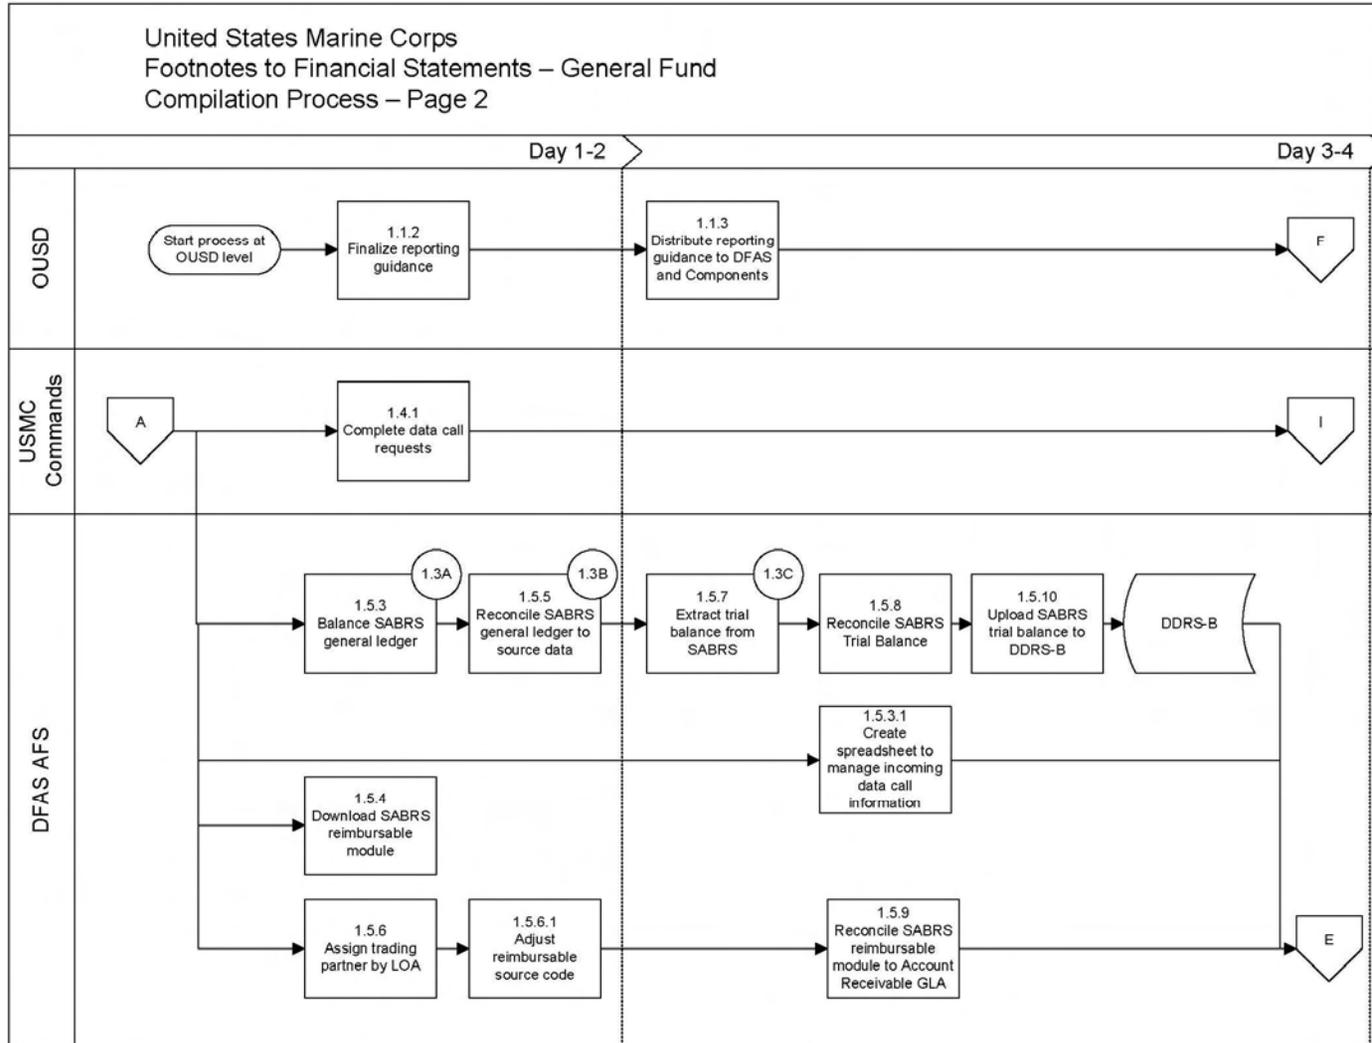

APPENDIX E - PROCESS FLOWS

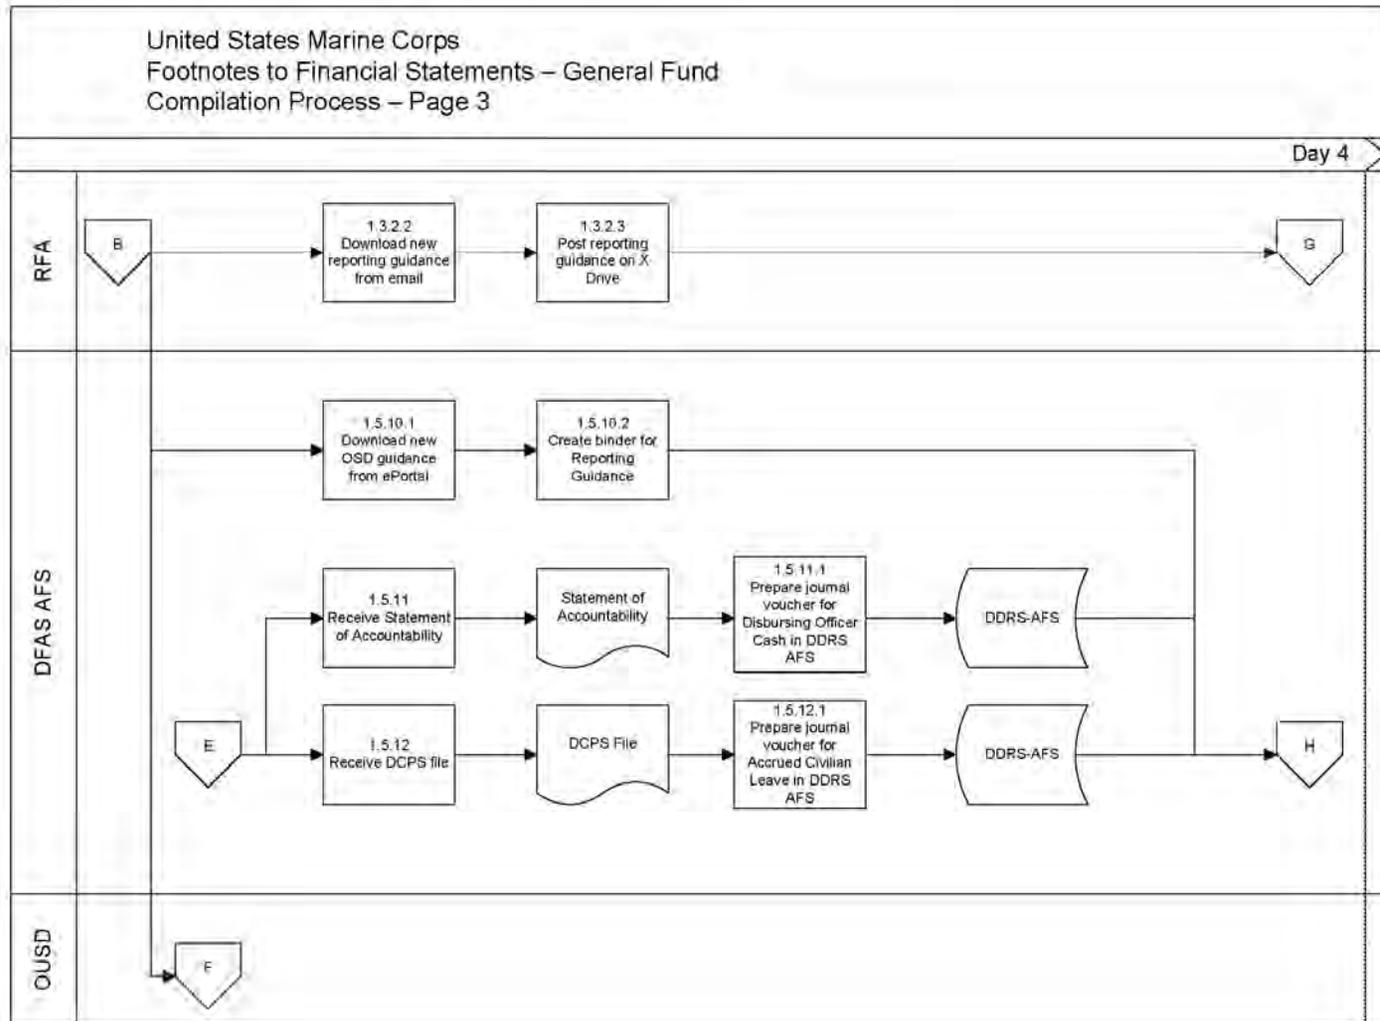

Appendix E, lists the detailed process flows that are followed in the Marine Corps General Fund Financial Statement Preparation process. Each of the process flows is presented on the following pages.

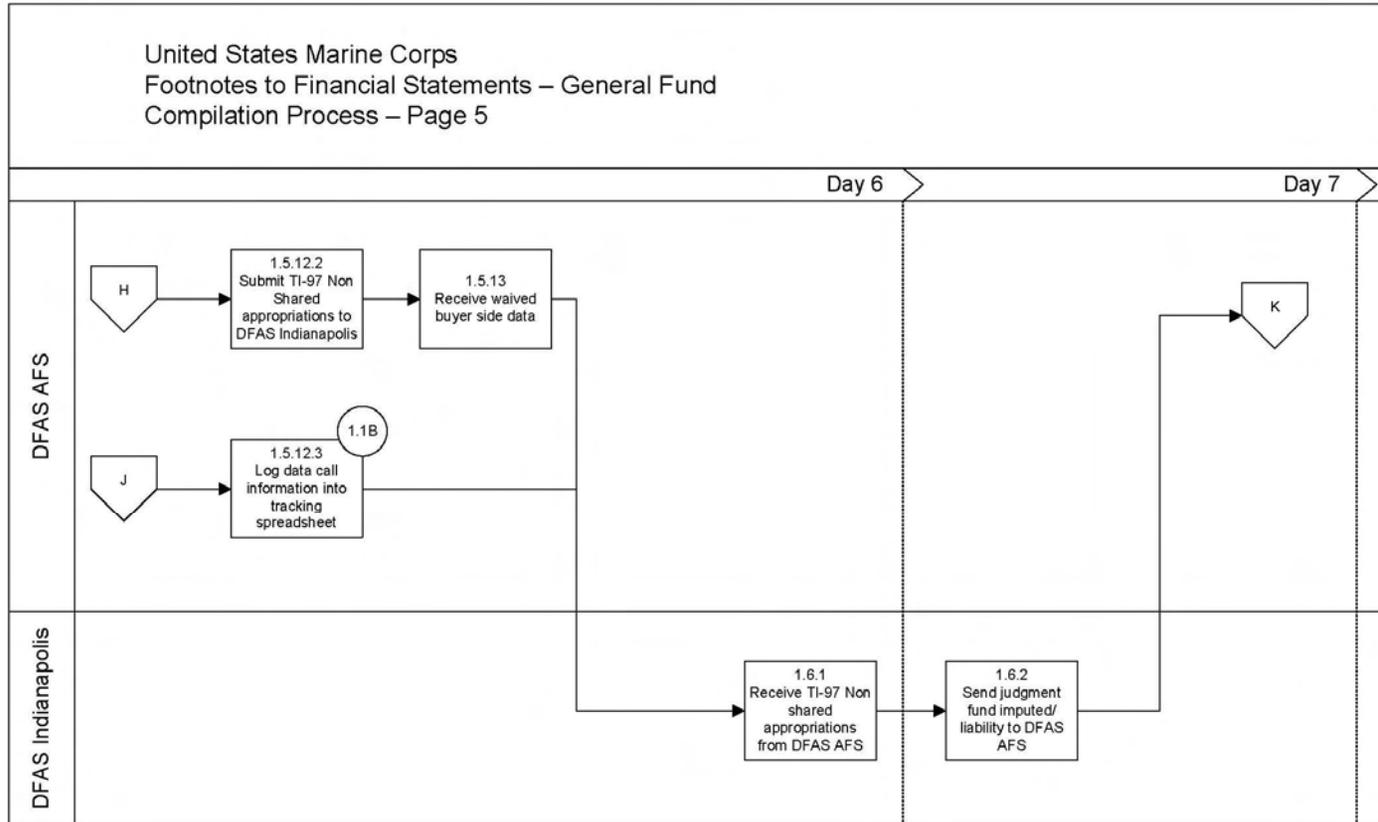

End to End Financial Reporting Process Flow.....	116
Process Flows for Notes to the Financial Statements.....	128
Note 2 Nonentity Assets.....	128
Note 3 Fund Balance with Treasury.....	131
Note 5 Accounts Receivable.....	124
Note 6 Other Assets.....	138
Note 7 Cash and Other Monetary Assets.....	141
Note 9 Inventory and Related Property.....	143
Note 10 General Property Plant and Equipment.....	146
Note 11 Liabilities Not Covered by Budgetary Resources.....	148
Note 12 Accounts Payable.....	150
Note 14 Environmental Liabilities/Disposal Liabilities.....	152
Note 15 Other Liabilities.....	154
Note 16 Commitments and Contingencies.....	156

APPENDIX G – FINANCIAL STATEMENT NOTES CHECKLIST

Appendix G, presents an example of the required sample disclosure statements that are used to review the Notes to the Marine Corps General Fund Financial Statements. These samples may be found in the DoD FMR, Volume 6B, Chapter 10. The actual checklist shown below is for display purposes only.

Note No.	Note Name	Page No.
1	Overview of the General Fund	172
2	Non-Entity Assets	182
3	Fund Balance With Treasury	182
4	Investments and Other Related Assets	184
5	Accounts Receivable	185
6	Other Assets	186
7	Cash and Other Monetary Assets	187
8	Direct Loans and Guarantees	187
9	Inventory and Related Property	190
10	General PP&E	191
11	Liabilities	192
12	Accounts Payable	192
13	Debt	193
14	Environmental Liabilities	193
15	Other Liabilities	195
16	Commitments and Contingencies	196
17	Military Retirement	197
18	Net Costs	197
19	Changes in Net Position	198
20	Statement of Budgetary Resources	199
21	Statement of Financing	200
22	Statement of Custodial Activity	200
23	Earmarked Funds	201
24	Other Disclosures	201

Note 1 Significant Accounting Policies

Provide the required sample disclosure statements found in Volume 6B, Chapter 10, 100302:

_____ **1.A. Basis of Presentation.** These financial statements have been prepared to report the financial position and results of operations of the *[Reporting Entity]*, as required by the “Chief Financial Officers Act of 1990,” expanded by the “Government Management Reform Act of 1994,” and other appropriate legislation. The financial statements have been prepared from the books and records of the *[Reporting Entity]* in accordance with the “DoD Financial Management Regulation,” Office of Management and Budget Circular (OMB) A-136, Financial Reporting Requirements, and to the extent possible generally accepted accounting principles (GAAP). The accompanying financial statements account for all resources for which the *[Reporting Entity]* is responsible. Information relative to classified assets, programs, and operations is aggregated and reported in such a manner that it is not discernable. **(All Entities)**

_____ **1.A. Basis of Presentation.** The *[Reporting Entity]* is unable to fully implement all elements of GAAP and the OMB Circular A-136, due to limitations of its financial management processes and systems and nonfinancial systems and processes that feed into the financial statements. The *[Reporting Entity]* derives its reported values and information for major asset and liability categories, largely from nonfinancial systems, such as inventory systems and logistic systems. These systems were designed to support reporting requirements for maintaining accountability over assets and reporting the status of Federal appropriations rather than preparing financial statements in accordance with GAAP. The *[Reporting Entity]* continues to implement process and system improvements addressing these limitations many of which are detailed below. The *[Reporting Entity]* currently has *[Enter Number]* auditor identified financial statement material weaknesses: *[(1) Financial Management Systems, (2) Intragovernmental Eliminations, et cetera.]* **(All Entities)**

_____ **1.B. Mission of the Reporting Entity.** Each *[Reporting Entity]* enter a brief mission statement. **(All Entities)**

_____ **1.C. Appropriations and Funds.** The *[Reporting Entity]* receives its appropriations and funds as general, working capital (revolving funds), trust, special, and deposit funds. The *[Reporting Entity]* uses these appropriations and funds to execute their missions and report on resource usage. **(All entities)**

_____ **1.C. Appropriations and Funds.** Certain trust and special funds may be designated as earmarked funds. Earmarked funds are financed by specifically identified revenues, required by statute to be used for designated activities, benefits or purposes, and remain available over time. Earmarked funds also have a requirement to account for and report on the receipt, use and retention of revenues and other financing sources that distinguish them from general revenues. **(All entities with Trust and Special Funds)**

_____ **1.C. Appropriations and Funds.** General funds are used for financial transactions funded by congressional appropriations, including personnel, operations and maintenance, research and development, procurement, and military construction accounts. **(General Fund)**

_____ **1.C. Appropriations and Funds.** Working capital funds (WCF) receive their initial funding through an appropriation or a transfer of resources from existing appropriations or funds and use those capital resources to finance the initial startup. The WCF entities provide goods and services on a reimbursable basis. Reimbursable receipts fund ongoing operations and generally are available in their entirety for use without further congressional action. **(Working Capital Fund)**

_____ **1.C. Appropriations and Funds.** Trust funds contain receipts and expenditures of funds held in trust by the government for use in carrying out specific purposes or programs in accordance with the terms of the donor, trust agreement, or statute. **(General Fund)**

<p>_____ 1.C. Appropriations and Funds. Special fund accounts are used to record government receipts reserved for a specific purpose. (General Fund)</p>
<p>_____ 1.C. Appropriations and Funds. Deposit funds are used to record amounts held temporarily until paid to the appropriate government or public entity. The [Reporting Entity] is acting as an agent or a custodian for funds awaiting distribution, for example payroll taxes. (General Fund)</p>
<p>_____ 1.C. Appropriations and Funds. The [<i>Reporting Entity</i>] is a party to allocation transfers with other federal agencies as a transferring (parent) entity and/or a receiving (child) entity. Allocation transfers are legal delegations by one department of its authority to obligate budget authority and outlay funds to another department. Generally, all financial activity related to these allocation transfers (e.g. budget authority, obligations, outlays) is reported in the financial statements of the parent entity. Exceptions to this general rule will apply to specific funds for which the Office of Management and Budget has directed that all activity will be reported in the financial statements of the child to the transfer. Exceptions include all Treasury-Managed Trust Funds, Executive Office of the President, and all other funds specifically designated by the Office of Management and Budget. (All entities who are party to allocation transfers as either a parent or a child.)</p>
<p>_____ 1.C. Appropriations and Funds. The [<i>Reporting Entity</i>] is a party to allocation transfers as the child for the following fund(s) meeting the OMB exception, and all related activity is thus included in the [<i>Reporting Entity</i>] financial statements: <i>[list by fund name all Treasury-Managed Trust Funds, Executive Office of the President, or other federal entities for whom the Reporting Entity is a child, but the transfer meets the OMB exception and the child must report on behalf of the parent.]</i> (All entities who are party to allocation transfers as a child that meet the OMB exception and include parent activity in the entities' financial statements.)</p>
<p>_____ 1.C. Appropriations and Funds. The [<i>Reporting Entity</i>] allocates funds, as the parent, to [list all entities to whom the Reporting Entity makes allocation transfers]. All activity related to these parent transfers is included in the [<i>Reporting Entity</i>] financial statements. (All entities who have made allocation transfers (parent) to another federal entity)</p>
<p>_____ 1.D. Basis of Accounting. For [<i>Current Fiscal Year</i>], the [<i>Reporting Entity's</i>] financial management systems are unable to meet all of the requirements for full accrual accounting. Many of the [<i>Reporting Entity's</i>] financial and nonfinancial feeder systems and processes were designed and implemented prior to the issuance of GAAP for federal agencies. These systems were not designed to collect and record financial information on the full accrual accounting basis as required by GAAP. Most of the [<i>Reporting Entity's</i>] legacy systems were designed to record information on a budgetary basis. (All applicable Entities)</p>
<p>_____ 1.D. Basis of Accounting. The Department has undertaken efforts to determine the actions required to bring its financial and nonfinancial feeder systems and processes into compliance with GAAP. One such action is the current revision of its accounting systems to record transactions based on the United States Standard General Ledger (USSGL). Until all of the [<i>Reporting Entity's</i>] financial and nonfinancial feeder systems and processes are updated to collect and report financial information as required by GAAP, the [<i>Reporting Entity's</i>] financial data will be based on budgetary transactions (obligations, disbursements, and collections), transactions from nonfinancial feeder systems, and adjustments for known accruals of major items such as payroll expenses, accounts payable, and environmental liabilities. (All Applicable Entities)</p>
<p>_____ 1.D. Basis of Accounting. In addition, the DoD identifies program costs based upon the major appropriation groups provided by the Congress. Current processes and systems do not capture and report accumulated costs for major programs based upon the performance measures as required by the Government and Performance and Results Act (GPRA) The DoD is in the process of reviewing available data and attempting to develop a cost reporting methodology that</p>

balances the need for cost information required by the Statement of Federal Financial Accounting Standards (SFFAS) No. 4, “Managerial Cost Accounting Concepts and Standards for the Federal Government,” with the need to keep the financial statements from being overly voluminous. **(All Entities)**

_____ **1.E. Revenues and Other Financing Sources.** The *[Reporting Entity]* receives congressional appropriations as financing sources for general funds on either an annual or multi-year basis. When authorized by legislation, these appropriations are supplemented by revenues generated by sales of goods or services. The *[Reporting Entity]* recognizes revenue as a result of costs incurred or services provided to other Federal agencies and the public. Full cost pricing is the *[Reporting Entity’s]* standard policy for services provided as required by OMB Circular A-25. The *[Reporting Entity]* recognizes revenue when earned within the constraints of current system capabilities. In other instances, revenue is recognized when bills are issued. **(General Fund).**

_____ **1.E. Revenues and Other Financing Sources.** Depot Maintenance and Ordnance WCF activities recognize revenue according to the percentage of completion method. Supply Management WCF activities recognize revenue from the sale of inventory items. **(All Applicable Working Capital Funds)**

_____ **1.E. Revenues and Other Financing Sources.** The *[Reporting Entity]* does not include nonmonetary support provided by U.S. allies for common defense and mutual security in amounts reported in the Statement of Net Cost and the Statement of Financing. The U.S. has cost sharing agreements with other countries. Examples include countries where there is a mutual or reciprocal defense agreement, where U.S. troops are stationed, or where the U.S. Fleet is in a port. **(All Entities)**

_____ **1.F. Recognition of Expenses.** For financial reporting purposes, DoD policy requires the recognition of operating expenses in the period incurred. However, because the *[Reporting Entity’s]* financial and nonfinancial feeder systems were not designed to collect and record financial information on the full accrual accounting basis, accrual adjustments are made for major items such as payroll expenses, accounts payable, environmental liabilities, and unbilled revenue. The *[Reporting Entity’s]* expenditures for capital and other long-term assets are recognized as operating expenses based on depreciation. In the case of Operating Materials and Supplies (OM&S), operating expenses are generally recognized when the items are purchased. Efforts are underway to migrate towards the consumption method for recognizing OM&S expenses. **(All Entities)**

_____ **1.G. Accounting for Intragovernmental Activities.** Preparation of reliable financial statements requires the elimination of transactions occurring among entities within the DoD or between two or more federal agencies. However, the *[Reporting Entity]*, cannot accurately identify most of its intragovernmental transactions by customer because the *[Reporting Entity’s]* systems do not track buyer and seller data needed to match related transactions. Seller entities within the DoD provided summary seller-side balances for revenue, accounts receivable, and unearned revenue to the buyer-side internal DoD accounting offices. In most cases, the buyer-side records are adjusted to agree with DoD seller-side balances. Intra-DoD intragovernmental balances are then eliminated. The *[Reporting Entity]* properly eliminates the revenue results from intra-DoD sales of capitalized assets. The DoD is developing long-term system improvements that will include sufficient up-front edits and controls to eliminate the need for after-the-fact reconciliations. The volume of intragovernmental transactions is so large that after-the-fact reconciliation cannot be accomplished effectively with existing or foreseeable resources. **(All Applicable Entities)**

_____ **1.G. Accounting for Intragovernmental Activities.** The Department of the Treasury Financial Management Service (FMS), is responsible for eliminating transactions between the DoD and other federal agencies. The Treasury Financial Manual, Part 2 – Chapter 4700, “Agency Reporting Requirements for the Financial Report of the United States

Government” and the Treasury’s “Federal Intragovernmental Transactions Accounting Policy Guide,” provide guidance for reporting and reconciling intragovernmental balances. While the *[Reporting Entity]* is unable to fully reconcile intragovernmental transactions with all federal partners, the *[Reporting Entity]* is able to reconcile balances pertaining to investments in federal securities, borrowings from the U.S. Treasury and the Federal Financing Bank, Federal Employees’ Compensation Act transactions with the Department of Labor (DOL), and benefit program transactions with the Office of Personnel Management (OPM). The DoD’s proportionate share of public debt and related expenses to the federal government are not included. The federal government does not apportion debt and its related costs to federal agencies. The DoD’s financial statements, therefore, do not report any portion of the public debt or interest thereon, nor do the statements report the source of public financing whether from issuance of debt or tax revenues. **(All Entities)**

_____ **1.G. Accounting for Intragovernmental Activities.** Financing for the construction of DoD facilities is obtained through appropriations. To the extent this financing ultimately may have been obtained through the issuance of public debt, interest costs have not been capitalized since the Department of the Treasury does not allocate such interest costs to the benefiting agencies. **(All Entities)**

_____ **1.H. Transactions with Foreign Governments and International Organizations.** Each year, the *[Reporting Entity]* sells defense articles and services to foreign governments and international organizations under the provisions of the “Arms Export Control Act of 1976.” Under the provisions of the Act, the DoD has authority to sell defense articles and services to foreign countries and international organizations generally at no profit or loss to the U.S. Government. Payment is required in advance. **(All Applicable Entities)**

<p>_____ 1.I. Funds with the U.S. Treasury. The [Reporting Entity's] monetary financial resources are maintained in U.S. Treasury accounts. The disbursing offices of the Defense Finance and Accounting Service (DFAS), the Military Services, the U.S. Army Corps of Engineers (USACE) and the Department of State's financial service centers process the majority of the [Reporting Entity's] cash collections, disbursements, and adjustments worldwide. Each disbursing station prepares monthly reports that provide information to the U.S. Treasury on check issues, electronic fund transfers, interagency transfers, and deposits. (All Entities)</p>
<p>_____ 1.I. Funds with the U.S. Treasury. In addition, the DFAS sites and the USACE Finance Center submit reports to the Department of the Treasury, by appropriation, on interagency transfers, collections received, and disbursements issued. The Department of the Treasury records this information to the applicable Fund Balance with Treasury (FBWT) account. Differences between the [Reporting Entity's] recorded balance in the FBWT accounts and Treasury's FBWT accounts sometimes result and are subsequently reconciled. (All Entities)</p>
<p>_____ 1.J. Foreign Currency. Cash is the total of cash resources under the control of the DoD, which includes coin, paper currency, negotiable instruments, and amounts held for deposit in banks and other financial institutions. Foreign currency consists of the total U.S. dollar equivalent of both purchased and nonpurchased foreign currencies held in foreign currency fund accounts. (All Applicable Entities)</p>
<p>_____ 1.J. Foreign Currency. The majority of cash and all foreign currency is classified as nonentity and, therefore, is restricted. Amounts reported consist primarily of cash and foreign currency held by Disbursing Officers to carry out their paying, collecting, and foreign currency accommodation exchange missions. Cash seized during Operation Iraqi Freedom is restricted for use to assist the Iraqi people and support the restoration of Iraq. (All Applicable Entities)</p>
<p>_____ 1.J. Foreign Currency. The [Reporting Entity] conducts a significant portion of its operations overseas. The Congress established a special account to handle the gains and losses from foreign currency transactions for five general fund appropriations (operations and maintenance, military personnel, military construction, family housing operations and maintenance, and family housing construction). The gains and losses are computed as the variance between the exchange rate current at the date of payment and a budget rate established at the beginning of each fiscal year. Foreign currency fluctuations related to other appropriations require adjustments to the original obligation amount at the time of payment. The [Reporting Entity] does not separately identify currency fluctuations. (All Applicable Entities)</p>
<p>_____ 1.K. Accounts Receivable. As presented in the Balance Sheet, accounts receivable includes accounts, claims, and refunds receivable from other federal entities or from the public. Allowances for uncollectible accounts due from the public are based upon analysis of collection experience by fund type. The DoD does not recognize an allowance for estimated uncollectible amounts from other federal agencies. Claims against other federal agencies are to be resolved between the agencies in accordance with dispute resolution procedures defined in the Intragovernmental Business Rules published in the Treasury Financial Manual at http://www.fms.treas.gov/tfm/vol1/07-03.pdf. (All Entities)</p>
<p>_____ 1.K. Accounts Receivable. The [Reporting Entity] bases the estimate of uncollectible accounts receivable from the public on [Insert Estimation Method]. (All Entities)</p>
<p>_____ 1.L. Direct Loans and Loan Guarantees. The [Reporting Entity] operates a direct loan and loan guarantee program authorized by the National Defense Authorization Act for FY 1996, Public Law 104-106, Statute 186, Section 2801. The Act includes a series of authorities that allow the [Reporting Entity] to work within the private sector to renovate military housing. The [Reporting Entity's] goals are to obtain private capital to leverage government dollars, make efficient use of limited resources, and use a variety of private sector approaches to build and renovate military housing faster and at a lower cost to American taxpayers. (All Applicable Entities)</p>

<p>_____ 1.L. Direct Loans and Loan Guarantees. The Act also provides the <i>[Reporting Entity]</i> with a variety of authorities to obtain private sector financing and expertise to improve military housing. The <i>[Reporting Entity]</i> uses these authorities individually or in combination. They include guarantees (both loan and rental); conveyance/leasing of existing property and facilities; differential lease payments; investments (both limited partnerships and stock/bond ownership); and direct loans. In addition, the “Federal Credit Reform Act of 1990” governs all amended direct loan obligations and loan guarantee commitments made after FY 1991 resulting in direct loans or loan guarantees. (All Applicable Entities)</p>
<p>_____ 1.L. Direct Loans and Loan Guarantees. The <i>[Reporting Entity]</i> also operates a loan guarantee program designed to encourage commercial use of inactive government facilities. The revenue generated from property rental offsets the cost of maintaining these facilities. (All Applicable Entities)</p>
<p>_____ 1.L. Direct Loans and Loan Guarantees. The National Defense Authorization Act for FY 2005, Public Law 108-375, Section 2805, provided permanent authorities to the Military Housing Privatization Initiative. (All Applicable Entities)</p>
<p>_____ 1.L. Direct Loans and Loan Guarantees. The <i>[Reporting Entity]</i> administers the Foreign Military Financing program on behalf of the Executive Office of the President. This program is authorized by sections 23 and 24 of the Arms Export Control Act (P.L. 90-629) as amended and sections 503(a) and 541 of the Foreign Assistance Act. This program provides loans to help countries purchase U.S. produced weapons, defense equipment, services, or military training. (All Applicable Entities)</p>
<p>_____ 1.M. Inventories and Related Property. The <i>[Reporting Entity]</i> values approximately ## percent of resale inventory using the moving average cost method. An additional # percent (fuel inventory) is reported using the first-in-first-out method. The <i>[Reporting Entity]</i> reports the remaining ## percent of resale inventories at an approximation of historical cost using latest acquisition cost adjusted for holding gains and losses. The latest acquisition cost method is used because legacy inventory systems were designed for materiel management rather than accounting. Although these systems provide visibility and accountability over inventory items, they do not maintain historical cost data necessary to comply with the SFFAS No. 3, “Accounting for Inventory and Related Property.” Additionally, these systems cannot produce financial transactions using the USSGL, as required by the Federal Financial Management Improvement Act of 1996 (P.L. 104-208). By utilizing new systems development processes, the <i>[Reporting Entity]</i> is continuing to transition the balance inventories to the moving average cost method. However, since the on-hand balances which transitioned were not, for the most part, baselined to auditable historical cost, the reported values remain non-compliant with SFFAS No. 3 and GAAP. (All Applicable Entities – the above note should be customized to adequately describe the specific situation. Only disclose information that is applicable.)</p>
<p>_____ 1.M. Inventories and Related Property. The <i>[Reporting Entity]</i> manages only military or government specific materiel under normal conditions. Items commonly used in and are available from the commercial sector are not managed in the <i>[Reporting Entity]</i> materiel management activities. Operational cycles are irregular, and the military risks associated with stock-out positions have no commercial parallel. The <i>[Reporting Entity]</i> holds materiel based on military need and support for contingencies. Therefore, the DoD does not attempt to account separately for “inventory held for sale” and “inventory held in reserve for future sale” based on SFFAS No. 3 definitions. (All Applicable Entities)</p>
<p>_____ 1.M. Inventories and Related Property. Related property includes operating materials and supplies (OM&S) and stockpile materials. The OM&S, including munitions not held for sale, are valued at standard purchase price. The DoD uses both the consumption method and the purchase method of accounting for OM&S. Items that are centrally managed and stored, such as ammunition and engines, are generally recorded using the consumption method and are reported on the Balance Sheet as OM&S. When current systems cannot fully support the consumption</p>

method, the [Reporting Entity] uses the purchase method. Under this method, materials and supplies are expensed when purchased. During [Current fiscal year], the [Reporting Entity] expensed significant amounts using the purchase method because the systems could not support the consumption method or management deemed that the item was in the hands of the end user.

(All Applicable Entities)

1.M. Inventories and Related Property. The [Reporting Entity] determined that the recurring high dollar value of OM&S in need of repair is material to the financial statements and requires a separate reporting category. Many high dollar items, such as aircraft engines, are categorized as OM&S rather than military equipment. **(All Applicable Entities)**

1.M. Inventories and Related Property. The [Reporting Entity] recognizes condemned material as “Excess, Obsolete, and Unserviceable.” The cost of disposal is greater than the potential scrap value; therefore, the net value of condemned material is zero. Potentially redistributed material, presented in previous years as “Excess, Obsolete, and Unserviceable,” is included in the “Held for Use” or “Held for Repair” categories according to its condition. **(All Applicable Entities)**

1.M. Inventories and Related Property. Past audits identified uncertainties about completeness and existence of reported values of inventory. Inventory available and purchased for resale includes consumable spare and repair parts and repairable items owned and managed by the [Reporting Entity]. This inventory is retained to support military or national contingencies. Inventory held for repair is damaged inventory that requires repair to make suitable for sale. It is more economical to repair than to procure these inventory items. Because the [Reporting Entity] often relies on weapon systems and machinery no longer in production, the [Reporting Entity] supports a process that encourages the repair and rebuilding of certain items. This repair cycle is essential to maintaining a ready, mobile, and armed military force. Work in process balances include costs related to the production or servicing of items, including direct material, direct labor, applied overhead and other direct costs. Work in process also includes the value of finished products or completed services pending the submission of bills to the customer. The work in process designation may also be used to accumulate the amount paid to a contractor under cost reimbursable contracts, including amounts withheld from payment to ensure performance, and amounts paid to other government plants for accrued costs of end items of material ordered but not delivered. Work in process includes munitions in production and depot maintenance work with its associated labor, applied overhead, and supplies used in the delivery of maintenance services. **(All Applicable Entities)**

1.N. Investments in U.S. Treasury Securities. The [Reporting Entity] reports investments in U.S. Treasury securities at cost, net of amortized premiums or discounts. Premiums or discounts amortize into interest income over the term of the investment using the effective interest rate method or another method obtaining similar results. The [Reporting Entity’s] intent is to hold investments to maturity, unless they are needed to finance claims or otherwise sustain operations. Consequently, a provision is not made for unrealized gains or losses on these securities. **(All Applicable Entities)**

1.N. Investments in U.S. Treasury Securities. The [Reporting Entity] invests in nonmarketable securities. The two types of nonmarketable securities are par value and market-based intragovernmental securities. The Bureau of Public Debt issues nonmarketable par value intragovernmental securities. Nonmarketable, market-based intragovernmental securities mimic marketable securities, but are not publicly traded. **(All Applicable Entities)**

1.O. General Property, Plant and Equipment. The SFFAS No. 23, “Eliminating the Category National Defense Property, Plant, and Equipment,” established generally accepted accounting principles for valuing and reporting military equipment (e.g., ships, aircraft, combat vehicles, weapons) in federal financial statements. The Standard provided for the use of estimated historical cost for valuing military equipment if obtaining actual historical cost information is not practical. The Department used Bureau of Economic Analysis (BEA) to calculate the value of the

<p>military equipment for reporting periods from October 1, 2002, through March 31, 2006. (All Applicable Entities)</p>
<p>_____ 1.O. General Property, Plant and Equipment. Effective 3rd Quarter, FY 2006, the Department replaced the BEA estimation methodology with an estimation methodology for military equipment based on Departmental internal records. The Department initially identified the universe of military equipment by accumulating information relating to program funding and associated military equipment, equipment useful life, program acquisitions and disposals to create a baseline. The military equipment baseline is updated using expenditure information and information related to acquisition and disposals. (All Applicable Entities)</p>
<p>_____ 1.O. General Property, Plant and Equipment. The Department is moving away from a standard capitalization threshold for all categories (e.g. real property, military equipment, etc.) of General Property Plant and Equipment (PP&E) to one that is specific for each individual category. (All Applicable Entities)</p>
<p>_____ 1.O. General Property, Plant and Equipment. In FY 2006, the capitalization threshold was revised from \$100,000 to \$20,000 for real property. The current \$100,000 capitalization threshold remains unchanged for the remaining General PP&E categories. (All Applicable Entities)</p>
<p>_____ 1.O. General Property, Plant and Equipment. General PP&E assets are capitalized at historical acquisition cost plus capitalized improvements when an asset has a useful life of two or more years and the acquisition cost equals or exceeds the DoD capitalization threshold of \$100,000. The DoD also requires capitalization of improvement costs over the DoD capitalization threshold of \$100,000 for General PP&E. The DoD depreciates all General PP&E, other than land, on a straight-line basis. (All Applicable Entities see exception below for USACE and WCF)</p>
<p>_____ 1.O. General Property, Plant and Equipment. Prior to FY 1996, General PP&E was capitalized if it had an acquisition cost of \$15,000, \$25,000, and \$50,000 for fiscal years 1993, 1994, and 1995, respectively, and an estimated useful life of two or more years. General PP&E previously capitalized at amounts below \$100,000 were written off General Fund financial statements in FY 1998. No adjustment was made for WCF assets. These assets remain capitalized and reported on WCF financial statements. (All Applicable Entities)</p>
<p>_____ 1.O. General Property, Plant and Equipment. The USACE Civil Works General PP&E is capitalized at historical acquisition cost plus capitalized improvements when an asset has a useful life of two or more years and the acquisition cost exceeds \$25,000. One exception is all buildings and structures related to hydro-power projects which are capitalized regardless of cost. Prior to FY 2004, the Corps capitalized all buildings and structures regardless of cost. In FY 2003, the Corps increased the threshold (effective FY 2004) for building and structures to \$25,000 for all Civil Works appropriations with the exception of Revolving Fund and Power Marketing Agency assets. , and expensed all applicable previously acquired assets not meeting the new \$25,000 threshold. (USACE)</p>
<p>_____ 1.O. General Property, Plant and Equipment. When it is in the best interest of the government, the <i>[Reporting Entity]</i> provides government property to contractors to complete contract work. The <i>[Reporting Entity]</i> either owns or leases such property, or it is purchased directly by the contractor for the government based on contract terms. When the value of contractor-procured General PP&E exceeds the DoD capitalization threshold, Federal accounting standards require that it be reported on the <i>[Reporting Entity's]</i> Balance Sheet. (All Applicable Entities)</p>
<p>_____ 1.O. General Property, Plant and Equipment. The DoD is developing new policies and a contractor reporting process that will provide appropriate General PP&E information for future financial statement reporting purposes. Accordingly, the <i>[Reporting Entity]</i> reports only government property in the possession of contractors that is maintained in the <i>[Reporting Entity's]</i> property systems. The DoD has issued new property accountability and reporting</p>

requirements that require *[Reporting Entity]* Components to maintain, in their property systems, information on all property furnished to contractors. This action and other DoD proposed actions are structured to capture and report the information necessary for compliance with Federal accounting standards. **(All Applicable Entities)**

_____ **1.P. Advances and Prepayments.** It is DoD policy to record payments in advance of the receipt of goods and services as advances or prepayments and report the advances as an asset on the Balance Sheet, and to recognize the expense and/or proper asset classification when it receives the related goods and services. **(All Entities)**

_____ **1.Q. Leases.** Lease payments for the rental of equipment and operating facilities are classified as either capital or operating leases. When a lease is essentially equivalent to an installment purchase of property (a capital lease), the *[Reporting Entity]* records the applicable asset and liability if the value equals or exceeds the current capitalization threshold. The *[Reporting Entity]* records the amounts as the lesser of the present value of the rental and other lease payments during the lease term (excluding portions representing executory costs paid to the lessor) or the asset's fair market value. The discount rate for the present value calculation is either the lessors' implicit interest rate or the government's incremental borrowing rate at the inception of the lease. The *[Reporting Entity]* as the lessee receives the use and possession of leased property, for example real estate or equipment, from a lessor in exchange for a payment of funds. An operating lease does not substantially transfer all the benefits and risk of ownership. Payments for operating leases are charged to expense over the lease term as it becomes payable. **(All Applicable Entities)**

_____ **1.Q. Leases.** Office space and leases entered into by the *[Reporting Entity]* in support of contingency operations are the largest component of operating leases. These costs were gathered from existing leases, General Service Administration (GSA) bills, and Interservice Support Agreements. Future year projections use the Consumer Price Index (CPI), rather than the DoD inflation factor. The CPI impacts increases to the leases, especially those at commercial lease sites. Equipment leases have a variety of lease terms which are not expected to be renewed upon expiration. Other operating leases are generally one-year leases. The *[Reporting Entity]* expects to continue to reduce the level of owned assets while increasing the number of leased assets. The *[Reporting Entity]* will strive to displace commercial leases with more economical GSA leases. **(All Applicable Entities)**

_____ **1.R. Other Assets.** The *[Reporting Entity]* conducts business with commercial contractors under two primary types of contracts: fixed price and cost reimbursable. To alleviate the potential financial burden on the contractor that long-term contracts can cause, the *[Reporting Entity]* provides financing payments. One type of financing payment that the *[Reporting Entity]* makes for real property is based upon a percentage of completion. In accordance with the SFFAS No. 1, "Accounting for Selected Assets and Liabilities," such payments are treated as construction in process and are reported on the General PP&E line on the Balance Sheet and in the related note. **(All Applicable Entities)**

_____ **1.R. Other Assets.** Other assets include those assets, such as military and civil service employee pay advances, travel advances, and contract financing payments that are not reported elsewhere on the Department's Balance Sheet. **(All Applicable Entities)**

_____ **1.R. Other Assets.** Contract financing payments are defined in the Federal Acquisition Regulations, Part 32, as authorized disbursements of monies to a contractor prior to acceptance of supplies or services by the Government. These payments are designed to alleviate the potential financial burden on contractors performing on certain long-term contracts and facilitate competition for defense contracts. Contract financing payments clauses are incorporated in the contract terms and conditions and may include advance payments, performance-based payments, commercial advance and interim payments, progress payments based on cost, and interim payments under certain cost-reimbursement contracts. Contract financing payments do not include invoice payments, payments for partial deliveries, lease and rental payments, or

<p>progress payments based on a percentage or stage of completion, which the Defense Federal Acquisitions Regulations Supplement authorizes only for construction of real property, shipbuilding, and ship conversion, alteration, or repair. Progress payments for real property and ships are reported as Construction in Progress in Note 10. (All Applicable Entities)</p>
<p>_____ 1.S. Contingencies and Other Liabilities. The SFFAS No. 5, “Accounting for Liabilities of the Federal Government,” as amended by SFFAS No. 12, “Recognition of Contingent Liabilities Arising from Litigation,” defines a contingency as an existing condition, situation, or set of circumstances that involves an uncertainty as to possible gain or loss. The uncertainty will be resolved when one or more future events occur or fail to occur. The [Reporting Entity] recognizes contingent liabilities when past events or exchange transactions occur, a future loss is probable, and the loss amount can be reasonably estimated. (All Entities)</p>
<p>_____ 1.S. Contingencies and Other Liabilities. Financial statement reporting is limited to disclosure when conditions for liability recognition do not exist but there is at least a reasonable possibility of incurring a loss or additional losses. Examples of loss contingencies include the collectibility of receivables, pending or threatened litigation, and possible claims and assessments. The [Reporting Entity’s] loss contingencies arise as a result of pending or threatened litigation or claims; and assessments occur due to events such as aircraft, ship and vehicle accidents, medical malpractice, property or environmental damages, and contract disputes. (All Entities)</p>
<p>_____ 1.S. Contingencies and Other Liabilities. Other liabilities arise as a result of anticipated disposal costs for the [Reporting Entity’s] assets. This type of liability has two components: nonenvironmental and environmental. Consistent with SFFAS No. 6, “Accounting for Property, Plant, and Equipment,” recognition of an anticipated environmental disposal liability begins when the asset is placed into service. Nonenvironmental disposal liabilities are recognized for assets when management decides to dispose of an asset based upon the DoD’s policy, which is consistent with SFFAS No. 5, “Accounting for Liabilities of Federal Government.” The DoD recognizes nonenvironmental disposal liabilities for military equipment nuclear-powered assets when placed into service. Such amounts are developed in conjunction with, and not easily identifiable separately from, environmental disposal costs. (All Applicable Entities)</p>
<p>_____ 1.T. Accrued Leave. The [Reporting Entity] reports as liabilities military leave and civilian earned leave except sick leave that has been accrued and not used as of the Balance Sheet date. Sick leave is expensed as taken. The liability reported at the end of the accounting period reflects the current pay rates. (All Applicable Entities)</p>
<p>_____ 1.U. Net Position. Net Position consists of unexpended appropriations and cumulative results of operations. (All Entities)</p>
<p>_____ 1.U. Net Position. Unexpended Appropriations represent the amounts of authority that are unobligated and have not been rescinded or withdrawn. Unexpended appropriations also represent amounts obligated for which legal liabilities for payments have not been incurred. (All Entities)</p>
<p>_____ 1.U. Net Position. Cumulative Results of Operations represent the net difference, since inception of an activity, between expenses and losses and financing sources (including appropriations, revenue, and gains). Beginning with FY 1998, the cumulative results also include donations and transfer in and out of assets without reimbursement. (All Entities)</p>
<p>_____ 1.V. Treaties for Use of Foreign Bases. The [Reporting Entity] has the use the land, building, and other overseas facilities that are obtained through various international treaties and agreements negotiated by the Department of State. The [Reporting Entity] purchases capital assets overseas with appropriated funds; however, the host country retains title to land and improvements. Generally, treaty terms allow the [Reporting Entity] continued use of these properties until the treaties expire. In the event treaties or other agreements are terminated, whereby use of the foreign bases is prohibited, losses are recorded for the value of any nonretrievable capital assets. This takes place after negotiations between the U.S. and the host</p>

country have determined the amount to be paid the U.S. for such capital investments. (All Applicable Entities)
_____ 1.W. Comparative Data. Financial statement fluctuations greater than two percent of total assets on the Balance Sheet or ten percent from the prior period presented, but no less than \$100 thousand, are explained within the notes to the financial statements. (All Entities)
_____ 1.X. Unexpended Obligations. The <i>[Reporting Entity]</i> obligates funds to provide goods and services for outstanding orders not yet delivered. The financial statements do not reflect this liability for payment for goods and services not yet delivered. (All Applicable Entities)
_____ 1.Y. Undistributed Disbursements and Collections. Undistributed disbursements and collections represent the difference between disbursements and collections matched at the transaction level to a specific obligation, payable, or receivable in the activity field records as opposed to those reported by the U.S. Treasury. These amounts should agree with the undistributed amounts reported on the departmental accounting reports. In-transit payments are those payments that have been made to other agencies or entities that have not been recorded in their accounting records. These payments are applied to the entities' outstanding accounts payable balance. In-transit collections are those collections from other agencies or entities that have not been recorded in the accounting records. These collections are also applied to the entities' accounts receivable balance. (All Entities)
_____ 1.Y. Undistributed Disbursements and Collections. The DoD policy is to allocate supported undistributed disbursements and collections between federal and nonfederal categories based on the percentage of federal and nonfederal accounts payable and accounts receivable. Unsupported undistributed disbursements are recorded in accounts payable. Unsupported undistributed collections are recorded in other liabilities. The <i>[Entity name]</i> <i>[follows]</i> this procedure or <i>[does not follow]</i> this procedure and uses <i>[enter the procedure used]</i> . (All Entities)
Note 2 Nonentity Assets
_____ Disclose all abnormal account balances found in the note schedule. The detailed explanation should provide concise answers to the following questions: <ol style="list-style-type: none"> 1. What is the dollar amount of the abnormality? 2. Who caused this abnormality? 3. What business event caused the abnormality? 4. Why did the abnormality happen? 5. When, during the last four quarters, did the abnormality occur? _____ Disclose description of each current year nonentity asset focusing on the nature of the assets that causes it to be classified as nonentity.
_____ Describe any item that contributes ten percent or more of the line titled "Other Assets."
Note 3 Fund Balance with Treasury
_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions: <ol style="list-style-type: none"> 1. What is the dollar amount of the abnormality? 2. Who caused this abnormality? 3. What business event caused the abnormality? 4. Why did the abnormality happen? 5. When, during the last four quarters, did the abnormality occur?
<u>Fund Balance with Treasury</u>
_____ Explain the cause of any reconciling amounts reported on the Reconciling Amount Line.

Status of Fund Balance with Treasury

_____ Provide required sample definition disclosure statements found in Volume 6B, Chapter 10, 100506.F.: The Status of Fund Balance with Treasury consists of unobligated and obligated balances. These balances reflect the budgetary authority remaining for disbursements against current or future obligations. In addition, the Status includes various accounts that affect either budgetary reporting or Fund Balance with Treasury, but not both.

Unobligated Balance represents the cumulative amount of budgetary authority that has not been set aside to cover outstanding obligations. Unobligated Balance is classified as available or unavailable and is associated with appropriations expiring at fiscal year end that remain available only for obligation adjustments until the account is closed.

Obligated balance not yet disbursed represents funds that have been obligated for goods that have not been received, services that have not been performed, and goods and services that have been delivered/received but not yet paid.

Non-Budgetary Fund Balance with Treasury (FBWT) includes entity and nonentity Fund Balance with Treasury accounts which do not have budgetary authority, such as unavailable receipt accounts or clearing accounts.

Non-FBWT Budgetary Accounts include budgetary accounts that do not affect Fund Balance with Treasury, such as contract authority, borrowing authority and investment accounts, accounts receivable, as well as the unfilled orders without advance from customers. This category reduces the Status of Fund Balance with Treasury.

_____ Unobligated balances are segregated to show available and unavailable amounts in the note schedule. Certain unobligated balances may be restricted to future use and are not apportioned for current use. Explain such restrictions. If there are no such restrictions, disclose this fact.

_____ Disclose the items that comprise the amount reported as Non-Budgetary Fund Balance with Treasury.

_____ Disclose the items that comprise the amount reported as Non-FBWT Budgetary Accounts.

_____ Per Volume 6B, Chapter 10, 100506.E., explain differences between amount reported on Line 1.F of the Fund Balance with Treasury schedule and amount reported on Line 5 of the Status of Funds schedule.

Disclosures Related to Suspense/Budget Clearing Accounts

_____ Provide required sample disclosure statements found in Volume 6B, Chapter 10, 100509.C.:

The F3845 suspense account represents the balance of proceeds from the sale of personal property.

The F3875 suspense clearing represents the Disbursing Officer's (DO) suspense. Account F3885, represents the Interfund/IPAC suspense]. Account F3886 represents the (payroll) Thrift Savings Plan suspense. These three suspense accounts temporarily hold collections

or disbursements until they can be assigned or identified to a valid appropriation.

The F3880 suspense account represents the balance of Treasury checks that (1) have either been lost by the payee and need to be reissued, (2) have never been cashed by the payee, or (3) have been cancelled by the Treasury and need to be transferred to the original appropriation.

The F3882 suspense account was established for the Uniformed Services Thrift Savings Plan in FY 2002. The amounts in this account represent a timing difference between the posting of the Thrift Savings Plan deductions by the National Finance Center and the posting of these amounts in the military accounting systems in the following month.

Disclosures Related to Problem Disbursements and In-transit Disbursements

_____ Disclose discrepancies between amounts reported in the problem disbursement metric furnished to DFAS Arlington and the Note 3 schedule.

_____ Provide required sample disclosure statements found in Volume 6B, Chapter 10, 100512.C.:

A UMD occurs when a payment is not matched to a corresponding obligation in the accounting system. Absolute value is the sum of the positive values of debit and credit transactions without regard to the sign (plus or minus).

A NULO occurs when a payment is made against a valid obligation, but the payment is greater than the amount of the obligation recorded in the official accounting system. These payments have been made using available funds and are based on valid receiving reports for goods and services delivered under valid contracts.

The In-transits represent the absolute value of disbursements and collections made by a DoD disbursing activity on behalf of an accountable activity and have not been posted to the accounting system.

_____ Provide the following disclosure if applicable:

Starting 2nd Quarter FY 2007, in-transit disbursements are reported as absolute value as opposed to net amounts disclosed in prior years. This reporting change applies to amounts in the note schedule for both the current and comparative years. (All Entities who reported any intransit Problem Disbursements in the Note 3 Problem Disbursement table prior to 2nd quarter FY 2007)

Note 4 Investments and Related Interest

Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?

4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Include required disclosure for any reporting entity reporting Intragovernmental Investments for Earmarked Funds found in Volume 6B, Chapter 10, 100603.G.:

The Federal Government does not set aside assets to pay future benefits or other expenditures associated with earmarked funds (or name/s of fund/s). The cash receipts collected from the public for an earmarked fund are deposited in the U.S. Treasury, which uses the cash for general Government purposes. Treasury securities are issued to the **[Reporting Entity]** as evidence of its receipts. Treasury securities are an asset to the **[Reporting Entity]** and a liability to the U.S. Treasury. Because the **[Reporting Entity]** and the U.S. Treasury are both parts of the Government, these assets and liabilities offset each other from the standpoint of the Government as a whole. For this reason, they do not represent an asset or a liability in the U.S. Governmentwide financial statements. U.S. Treasury securities provide the **[Reporting Entity]** with authority to draw upon the U.S. Treasury to make future benefit payments or other expenditures. When the **[Reporting Entity]** requires redemption of these securities to make expenditures, the Government finances those expenditures out of accumulated cash balances, by raising taxes or other receipts, by borrowing from the public or repaying less debt, or by curtailing other expenditures. This is the same way that the Government finances all other expenditures.

Note 5 Accounts Receivable

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose aged delinquent and nondelinquent accounts receivable by type of debt in a table format as found in Volume 6B, Chapter 10, 100703.D. and as amended in Attachment 20 of the Quarterly Guidance:

CATEGORY	Intragovernmental	Non-Federal
Non-delinquent		
Current		
Non-current		
Delinquent		
1 to 30 days		
31 to 60 days		
61 to 90 days		
91 to 180 days		
181 days to 1 year		
Greater than 1 year and less than or equal to 2 years		
Greater than 2 years and less than or equal to 6 years		
Greater than 6 years and less than or equal to		

10 years		
Greater than 10 years		
Subtotal		
Less Supported Undistributed Collections		
Less Eliminations		
Less Other		
Total		

Note: The total of the columns should equal the gross amounts reported in the Accounts Receivable schedule in Note 5. This will require that the receivables due internally within each Component and supported undistributed collections be eliminated from this schedule. Infrequently, other items may need to be deducted from the subtotal. These items require disclosure in the note narrative.

_____ Provide narrative to explain the amount and the rationale for nondelinquent accounts receivable over 30 days old.

_____ Provide the collection actions being pursued on all delinquent accounts receivable.

_____ Provide a description of any items recorded as Other on the aging schedule.

_____ Provide narrative explanations for material delinquent dollar amounts for aging between current quarter of the fiscal year and prior yearend balances.

Note 6 Other Assets

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Describe any item that contributes ten percent or more of the line titled "Other Assets (With the Public)."

_____ Provide the following disclosure if applicable:

Contract terms and conditions for certain types of contract financing payments convey certain rights to the Department that protect the contract work from state or local taxation, liens or attachment by the contractor's creditors, transfer of property, or disposition in bankruptcy; however, these rights should not be misconstrued to mean that ownership of the contractor's work has transferred to the Government. The government does not have the right to take the work, except as provided in contract clauses related to termination or acceptance, and the Department is not obligated to make payment to the contractor until delivery and acceptance of a satisfactory product.

The Contract Financing Payment balance of \$xxxxx is comprised of \$xxxxxxx in contract financing payments and an additional \$xxxx in estimated future funded payments that will be paid to the contractor upon future delivery and Government acceptance of a satisfactory product. (See additional discussion in Note 15,

Commitments and Contingencies).

Note 7 Cash and Other Monetary Assets

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose any restrictions on cash and the dollar amount. [Restricted cash includes holdings which are unavailable for agency use (non-entity cash) and have not been transferred to the general fund. Restrictions are usually imposed on cash deposits by law, regulation, or agreement. Non-entity cash is always restricted cash. Entity cash may be restricted for specific purposes. Examples of restricted cash include:

- Cash held in escrow to pay property taxes and insurance related to property associated with defaulted loans, as well as other amounts of legally restricted cash for specific purposes.
- Seized cash, recognized as an asset per SFFAS 3.
- Bid deposits held in a commercial bank.

_____ Disclose any restrictions on the use or conversion of foreign currencies. If there are no restrictions on cash or the use or conversion of foreign currencies, include a statement in the narrative disclosing that information.

_____ Disclose significant effects, if any, of changes in the foreign currency exchange rate on the entity's financial position that occurred after the end of the reporting period but before the issuance of financial statements (if applicable).

Note 8 Direct Loans and/or Loan Guarantee Programs

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Provide the required disclosure at the top of the first page of the note: Direct Loan and/or Loan Guarantee Programs The [Reporting Entity] operates the following direct loan and/or loan guarantee program(s)

[Loan Program Name]

_____ Provide required sample disclosure statements found in Volume 6B, Chapter 10, 101002:

The Federal Credit Reform Act of 1990 governs all amended direct loan obligations and loan guarantee commitments made after FY 1991 resulting in direct loans or loan guarantees.

Direct loans are reported at the net present value of the following projected cash flows:

- Loan disbursements;
- Repayments of principal; and
- Payments of interest and other payments over the life of the loan after adjusting for estimated defaults, prepayments, fees, penalties and other recoveries.

Loan guarantee liabilities are reported at the net present value. The cost of the loan guarantee is the net present value of the following estimated projected cash flows:

- Payments by the Department to cover defaults and delinquencies, interest subsidies, or other payments; offset by
- Payments to the Department including origination and other fees, penalties, and recoveries.

Military Housing Privatization Initiative

The Military Housing Privatization Initiative (MHPI) includes both Direct Loan and Loan Guarantee Programs. The Department obtains private sector capital to leverage government dollars. The Department provides protection against specific risks, such as base closure or member deployment, for the private sector partner. The Loan Guarantee Program is authorized by the National Defense Authorization Act for FY 1996, Public Law (P.L.) 104-106 Statute 186, Section 2801. (All Applicable Entities)

Armament Retooling and Manufacturing Support Initiative

The Armament Retooling and Manufacturing Support Initiative (ARMS), Title 10 USC 4551-4555, is a Loan Guarantee Program designed to encourage commercial use of the Army's Inactive Ammunition Plants through many incentives for businesses willing to locate to a government ammunition production facility. The production capacity of these facilities is greater than current military requirements; however, this capacity may be needed by the military in the future. The revenues from the property rental are used to pay for the operation, maintenance and environmental cleanup at the facilities. The resulting savings in overhead costs lower the production cost of the goods manufactured and fund environmental cleanup at no cost to the government. (All Applicable Entities)

Foreign Military Financing Account

Foreign Military Financing Account (FMFA) is a military assistance program. The FMFA is under the purview of the Department of State (DOS) and is included in its International Affairs Budget request to Office of Management and Budget (OMB). The FMFA, appropriated by the U.S. Congress, is provided to the Department of Defense by the DOS to execute the authorities of the Foreign Assistance Act, sections 503(a) and 541 and the Arms Export Control Act, section 23. The Defense Security Cooperation Act (DSCA), under the auspices of the Executive Office of the President, administers the FMFA. (All Applicable Entities)

Direct Loans

_____ If you have had any events or changes that had or will have a significant impact on subsidy rates, subsidy expenses or subsidy reestimates, include a disclosure in the note. Disclose events and changes in economic conditions, other risk factors, legislation, credit policies, and subsidy estimation methodologies and assumptions: (a) that have had a significant and measurable effect on subsidy rates, subsidy expense, and subsidy reestimates; and (b) events and changes in conditions that have occurred and are more likely than not to have a significant impact but the effects of which are not measurable at the reporting date (if applicable). Disclose if there are no known events that had a significant impact on the subsidy rates.

_____ If you have foreclosed property resulting from credit reform activities, disclose changes from prior year's accounting methods; restrictions on the use/disposal of the property; the number of properties held and average holding period by type or category; and, the number of properties for which foreclosure proceedings are in process at the end of the period.

_____ Disclose management's method for accruing interest revenue and recording interest receivable and management's policy for accruing interest on nonperforming loans.

_____ If modifications were made, explain the nature of the modifications, the discount rate used in calculating the expense, and the basis for recognizing a gain or loss related to the modifications. Also, if appropriate, disclose that the subsidy expense resulting from reestimates (reestimates are at year-end only) that is included in the financial statements is not reported in the budget until the following year.

Loan Guarantees

_____ If you have had any events or changes that had or will have a significant impact on subsidy rates, subsidy expenses or subsidy reestimates, include a disclosure in the note. Disclose events and changes in economic conditions, other risk factors, legislation, credit policies, and subsidy estimation methodologies and assumptions: (a) that have had a significant and measurable effect on subsidy rates, subsidy expense, and subsidy reestimates; and (b) events and changes in conditions that have occurred and are more likely than not to have a significant impact but the effects of which are not measurable at the reporting date.

_____ If you have foreclosed property resulting from credit reform activities, disclose (1) changes from the prior year's accounting methods, if any; (2) restrictions on the use/disposal of the property; (3) number of properties held and average holding period by type or category; and (4) number of properties for which foreclosure proceedings are in process at the end of the period.

_____ Disclose management's method for accruing interest revenue and recording interest receivable, and management's policy for accruing interest on nonperforming defaulted guaranteed loans.

_____ If modifications were made, explain the nature of the modifications, the discount rate used in calculating the expense, and the basis for recognizing a gain or loss related to the modifications. Also, if appropriate, disclose that the subsidy expense resulting from reestimates that is included in the financial statements is not reported in the budget until the following year.

Administrative Expenses

_____ Disclose the administrative expenses related to the direct loans and loan guarantee programs. If you are unable to capture that information at this time provide sample disclosure below:

Administrative Expense is limited to separately identified expenses administered for pre-FY 1992 and post-FY 1991 Direct Loans and Loan Guarantee Programs. The Department does not maintain a separate program to capture the expenses related to direct loans and loan guarantees for the Military Housing Privatization Initiative Program and the Foreign Military Financing Program. Administrative expenses for the Armament Retooling and Manufacturing Support Initiative Program is a fee paid to the U.S. Department of Agriculture, Rural Business Cooperative Service for administering the loan guarantee under the ARMS program.

Note 9 Inventory and Related Property

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

Inventory

_____ Describe any restrictions on the use, sale or disposition of inventory.

_____ Disclose any restrictions on disposition of inventory as related to environmental or other liabilities.

Disclose the following required information for inventory, net:

_____ General composition of inventory

_____ Changes from prior year's accounting methods (if applicable)

_____ Decision criteria for identifying for the category to which inventory is assigned

_____ Changes in the criteria for identifying the category to which inventory is assigned (if applicable).

Operating Materials and Supplies, Net

Disclose the following required information for OM&S, net:

_____ Changes from prior year's accounting methods (if applicable)

_____ Restrictions on the use of OM&S

_____ Decision criteria for identifying for the category to which OM&S is assigned

_____ Changes in the criteria for identifying the category to which OM&S is assigned (if applicable).

Stockpile Materials

This category is reserved for the exclusive use of the Department by the National Defense Stockpile Transaction Fund. If you are not part of this Transaction Fund, then you should not

have any amounts reported below.

Disclose the following required information for Stockpile Materials:

- _____ General composition of the stockpile materials
- _____ Changes in prior year accounting methods (if applicable)
- _____ Restrictions on the use of materials
- _____ Decision criteria for any stockpile materials "Held for Sale"
- _____ Changes in the criteria for categorizing stockpile materials as "Held for Sale" (if applicable)
- _____ Estimated market price of stockpile materials "Held for Sale"

If there are no restrictions on inventory held for sale, OM&S or stockpile materials, include a statement in the narrative disclosing that information.

Note 10 General Property Plant and Equipment

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

General PP&E

_____ If adjustments are required to existing PP&E in the period that the standards are implemented, in order to comply with the recognition and measurement criteria, the adjustments should be made and disclosed by major class in accordance with the standard.

Disclose the following required information pertaining to General PP&E:

- _____ Restrictions on the use or convertibility of General PP&E (i.e., Outside the Continental U.S. real property)
- _____ Adjustments resulting from changes in the accounting standards
- _____ If the acquisition cost is unknown for certain types or significant amounts of General PP&E, disclose the valuation method used to estimate the value reported.

If there are no restrictions on General PP&E, include a statement in the narrative disclosing that information.

Military Equipment

_____ In accordance with the requirements of SFFAS No. 23, "Eliminating the Category National Defense Property, Plant, and Equipment," beginning in FY 2003, the [Reporting Entity] capitalized military equipment into General PP&E at estimated historical cost using information obtained from the Bureau of Economic Analysis (BEA). In FY 2006 the [Reporting Entity] began valuing these assets using actual expenditure data and moved away from the BEA cost-estimation methodology. The move from the BEA model was made at 3rd quarter FY 2006, thus FY 2007 values for military equipment above are based on actual data, however FY 2006 comparative balances for quarters 1 and 2 were not restated. (All Applicable Entities – disclosure applies to FY 2007 quarters 1 and 2.)

_____ Provide the following disclosure if applicable:

The Department changed its method of valuing military equipment in 3rd Quarter, FY 2006. Previously, military equipment was valued using Bureau of Economic Analysis (BEA) data. Beginning with the 3rd Quarter, FY 2006, military equipment is valued based on internal records.

Heritage Assets and Stewardship Land

Disclose the following required information pertaining to Heritage Assets and Stewardship Land:

_____ No asset dollar amount should be shown.

_____ A concise statement explaining how heritage assets and/or stewardship land relate to the reporting entity's mission.

_____ A brief description of the reporting entity's stewardship policies for heritage assets and stewardship land.

_____ A concise description of each of the major categories of heritage assets and stewardship land.

_____ Any additional information regarding heritage assets, multi-use heritage assets and stewardship land is to be reported in Required Supplementary Information.

_____ The fair value of heritage assets and stewardship land acquired through donation or devise during the fiscal year. If the fair value is not known or reasonably estimable, information related to the type and quantity of assets received shall be disclosed.

Assets Under Capital Lease

_____ Describe items that encompass ten percent or more of the line value for "Other Capital Leases".

Liabilities Not Covered by Budgetary Resources

_____ Disclose any abnormal account balances found in the note schedule. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose all items that encompass ten percent or more of the line value for Intragovernmental "Other Liabilities."

_____ Disclose all items that encompass ten percent or more of the line value for Nonfederal "Other Liabilities."

_____ Military Retirement and Other Federal Employment Benefits not covered by budgetary resources is comprised of various employee actuarial liabilities. Refer to Note 17, Military Retirement and Other Federal Employment Benefits, for additional details and disclosures. (All entities reporting a balance on line 2B)

Note 12 Accounts Payable

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

Note 13 Debt

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose information necessary to understand the nature of debt.

Note 14 Environmental Liabilities and Disposal Liabilities

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose other environmental and asset disposal liability information in the Other Category Disclosure Comparative Table to specifically identify both a description of similar groups of items included and the liability amount for each grouping:

Others Category Disclosure Comparative Table		
(Amounts in thousands)	(Current FY)	(Prior FY)
Other Accrued Environmental Costs - Other		
Provide a description of the nature of the environmental liabilities in line 1.B.4 above.	\$\$. \$\$	\$\$. \$\$
Total	\$\$. \$\$	\$\$. \$\$
Base Realignment and Closure - Other		
Provide a description of the nature of the environmental liabilities in line 1.C.4 above.	\$\$. \$\$	\$\$. \$\$
Total	\$\$. \$\$	\$\$. \$\$
Environmental Disposal for Weapons Systems Programs - Other		
Provide a description of the nature of the environmental liabilities in line 1.D.6 above.	\$\$. \$\$	\$\$. \$\$
Total	\$\$. \$\$	\$\$. \$\$

_____ Verify that amounts are presented in the Note 14 Environmental Liabilities and Disposal Liabilities schedule. If amounts are not presented, appropriate disclosures are necessary to explain why the information is not available as well as when the information can be provided, if applicable.

As of <i>[Current Fiscal Period End Date]</i>	Current Year		Prior Year	
(Amounts in thousands)				
A. Amount of operating and capital expenditures used to remediate legacy waste. Legacy wastes are the remediation efforts covered by IRP, MMRP, and BD/DR regardless of funding source.	\$	\$\$	\$	\$\$
B. The unrecognized portion of the estimated total cleanup costs associated with general property, plant, and equipment.		\$\$		\$\$
C. The estimated cleanup costs associated with general property, plant, and equipment placed into service during each fiscal year.		\$\$		\$\$
D. Changes in total cleanup costs due to changes in laws, regulations, and/or technology.		\$\$		\$\$
E. Portion of the changes in estimated costs due to changes in laws and technology that is related to prior periods.		\$\$		\$\$

Include the following disclosures for environmental liability cost:

_____ Applicable laws and regulations for cleanup requirements:

- (a) Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
- (b) Superfund Amendments and Reauthorization Act (SARA)
- (c) Clean Water Act
- (d) Safe Drinking Water Act
- (e) Clean Air Act
- (f) Resource Conservation and Recovery Act (RCRA)
- (g) Toxic Substances Control Act (TSCA)
- (h) Medical Waste Tracking Act
- (i) Atomic Energy Act
- (j) Nuclear Waste Policy Act
- (k) Low Level Radioactive Waste Policy Amendments Act
- (l) National Defense Authorization Acts

_____ Method for assigning estimated total cleanup costs to current operating periods.

A sample disclosure found in Volume 6B, Chapter 10, 101604.C:

The Department uses engineering estimates and independently validated models to estimate environmental costs. The models are contained within the Remedial Action Cost Engineering Requirements (RACER) and the Normalization of Data System (NORM). The Department validates the models in accordance with DoD Instruction 5000.61 and primarily uses the models to estimate the liabilities based on data received during a preliminary assessment and initial site investigation. The Department primarily uses engineering estimates after obtaining extensive data during the remedial investigation/feasibility phase of the environmental project. Once the environmental cost estimates are complete, the Department complies with accounting standards to assign costs to current operating periods. The Department has already expensed the costs for cleanup associated with General Property, Plant and Equipment (PP&E) placed into service prior to October 1, 1997 unless the costs are intended to be recovered through user charges. If the costs are recovered through user charges, then the Department expensed that portion of the asset that has passed since the General PP&E was placed into service and is systematically recognizing the remaining cost over the life of the assets. For General PP&E placed into service after September 30, 1997, the Department expenses the associated environmental costs systematically over the life of the asset. The

Department expenses the full cost to cleanup contamination for Stewardship PP&E at the time the asset is placed into service. The Department uses two methods for systematic recognition: physical capacity for operating landfills, and life expectancy in years for all other assets.

_____ Types of environmental liabilities and disposal liabilities identified. A sample disclosure found in Volume 6B, Chapter 10, 101604.D.:

The Department has clean up requirements for the Defense Environmental Restoration Program (DERP) sites at active installations, BRAC installations, Formerly Used Defense Sites (FUDS), sites at active installations that are not covered by the DERP, weapon systems programs, and chemical weapons disposal programs. The Components are required to cleanup DERP and sites not covered by the DERP in coordination with regulatory agencies, other responsible parties, and current property owners. The weapons systems program consists of chemical weapons disposal, nuclear powered aircraft carriers, nuclear powered submarines, and other nuclear ships.”

_____ Nature of estimates and the disclosure of information regarding possible changes due to inflation, deflation, technology, or applicable laws and regulations.

_____ Uncertainty regarding the accounting estimates used to calculate the reported environmental liabilities.

_____ If the Component is unable to report the environmental liability associated with restoration for overseas bases, a disclosure should be included in Note 14, Environmental Liabilities and Disposal Liabilities similar to the example below:

In addition to the liabilities reported above, the [Enter Component Name] has the potential to incur costs for restoration initiatives in conjunction with returning overseas Defense facilities to host nations. The [Enter Component Name] is unable to provide a reasonable estimate at this time because the extent of restoration required is not known.

Note 15 Other Liabilities

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

Other Liabilities

_____ Disclose all items that encompass ten percent or more of the line value for Intragovernmental "Other Liabilities."

_____ Disclose all items that encompass ten percent or more of the line value for Nonfederal "Other Liabilities."

_____ Disclose any delinquent FECA bills due to DOL for FECA, including amounts.

_____ Provide the following disclosure if applicable:

Contingent Liabilities balance includes \$xxxx in estimated future contract financing payments that will be paid to the contractor upon delivery and Government acceptance of a satisfactory product. In accordance with contract terms, specific rights to the contractor's work vests with the Government when a specific type of contract financing payments is made, thereby, protecting taxpayer funds in the event of contract nonperformance. These rights should not be misconstrued as the rights of ownership. The Department is under no obligation to pay the contractor for amounts greater than the amounts authorized in the contract until delivery and Government acceptance of a satisfactory product. Because it is probable that the contractor will complete its efforts and deliver a satisfactory product to the Department and the amount of potential future payments are estimable; the Department has recognized a contingent liability for estimated future payments, which are conditional pending delivery and Government acceptance of a satisfactory product.

Capital Lease Liability

No required disclosures.

Note 16 Commitments and Contingencies

_____ Provide the following disclosures found in Volume 6B, Chapter 10, 1018, C.:

The [Reporting Entity] is a party in various administrative proceedings and legal actions, with claims including environmental damage claims, equal opportunity matters, and contractual bid protests. The [Reporting Entity] has accrued contingent liabilities for legal actions where the [Reporting Entity's] Office of the General Counsel considers an adverse decision probable and the amount of loss is measurable. In the event of an adverse judgment against the Government, some of the liabilities may be payable from the Judgment Fund. The [Reporting Entity] records Judgment Fund liabilities in Note 15, "Other Liabilities," and Note 12 "Accounts Payable." See Notes 15 and 12 for details.

_____ Disclose the nature of the contingency and an estimate of the possible liability, an estimate of the range of the possible liability, or a statement that such an estimate cannot be made.

_____ Disclose that amounts disclosed for litigations claims, and assessments are fully supportable and must agree with the agency's legal representation letters and management summary schedule. (This disclosure refers to the Management Representation Letter and the supporting Management Summary Schedule. This disclosure is thus applicable only to Entities audited by IG, DoD or an independent accounting firm.)

_____ Disclose an estimate of undelivered orders for open contracts citing cancelled appropriations which remain unfulfilled or unreconciled and for which the reporting entity may incur a contractual commitment for payment.

_____ Disclose amounts for contractual arrangements such as fixed price contracts with escalation, price redetermination, or incentive clauses; contracts authorizing variations in quantities; and contracts where allowable interest may become payable based on contractor claims under the "Disputes" clause contained in contracts. Amounts disclosed should represent

future potential liabilities and should not include amounts already recognized as contingent liabilities in Note 15. Consideration should be given to disclosing the difference between the maximum or ceiling amounts and those amounts recognized in Note 15 when it is reasonably possible that the maximum amount may be paid.

_____ Disclose any other applicable contingencies, along with additional information to clarify the nature of the contingency. If a contingent liability has been booked for all or part of the item(s) disclosed, refer to the applicable note where the liability is booked.

Note 17 Military Retirement Benefits and Other Employment Related Benefits

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Provide a description of the actuarial cost method used to compute the projected plan benefit cost.

_____ Disclose the actuarial, economic, and health care cost trend assumptions used in the calculations.

_____ Disclose the market value of investments in market-based and marketable securities.

_____ Disclose the changes in actuarial liability since the previous calculation.

_____ Provide a brief summary of the program(s) for which actuarial liabilities are computed.

_____ Disclose all items that encompass ten percent or more of the line value included in "Other Federal Employment Benefits."

Note 18 General Disclosures Related to the Statement of Net Cost

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose that intragovernmental costs and revenue are related to transactions made between two reporting entities within the Federal Government.

_____ Disclose that public costs and revenues are exchange transactions made between the reporting entity and a nonfederal entity.

_____ Disclose that the Statement of Net Cost is unique because its principles are driven on understanding the net cost of programs and/or organizations that the Federal Government supports through appropriations or other means. This statement provides gross and net cost

information that can be related to the amount of output or outcome for a given program and/or organization administered by a responsible reporting entity.

_____ Disclose instances when the reporting entity does not meet accounting standards and that information presented is based on budgetary obligations, disbursements, and collection transactions, as well as nonfinancial feeder systems adjusted to record known accruals for major items such as payroll expenses, accounts payable, and environmental liabilities.

_____ Disclose any amounts expensed during the current period in the Statement of Net Cost for the costs of acquiring, constructing, improving, reconstructing, or renovating heritage assets (other than multi-use heritage assets), and the cost of acquiring stewardship land and any costs to prepare stewardship for its intended use. If the accounting system does not provide the necessary information to make the required disclosure for all or part of these expenses, the entity must make the following disclosure to recognize the weakness and to disclose the portion of the expenses that are known. (If no portion of the expenses is known, include only the first sentence of the disclosure)

The [*Reporting Entity*] accounting system does not capture information relative to Heritage Assets separately and distinctly from normal operations. Where it was able to separately identify the cost of acquiring, constructing, improving, reconstructing or renovating heritage assets, the [*Reporting Entity*] has identified \$XXXXX for the fiscal year.

Note 19 Disclosures Related to the Statement of Net Position

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

Disclose, if applicable, for all restatements:

_____ The nature of the error and the reason for the restatement

_____ The year(s) being restated

_____ Which financial statements are impacted

_____ The amounts being restated

_____ The effect of the restatement on the financial statements as a whole (i.e. change in overall net position, change in audit opinion, etc.)

_____ Actions taken by the reporting entity after discovering the error

_____ Describe any item that contributes ten percent or more of the statement lines titled "Other."

_____ Disclose, if applicable, that Appropriations Received on the SCNP does not agree with Appropriations Received on the Statement of Budgetary Resources due to differences between proprietary and budgetary accounting concepts and reporting requirements, as well as the amount of difference.

_____ Disclose that the eliminations column on the Statement of Net Position will reflect zero

dollars. Include the following disclosure:

Statement of Federal Financial Accounting Standards Number 27, "Identifying and Reporting Earmarked Funds," effective for reporting years after FY 2005, required that DoD modify the Statement of Changes in Net Position. The Federal Accounting Standards Advisory Board determined that restatement of prior comparative balances would not be allowed. To meet the requirement, additional columns were added to separately display gross amounts for earmarked funds, and all other (non-earmarked) funds. In the Statement of Changes in Net Position, all offsetting balances (i.e. transfers-in and transfers out, revenues and expenses) for intra-DoD activity between earmarked and other (non-earmarked) funds are reported on the same lines. This results in an eliminations column, which appears to contain no balances. In reality, the column contains all appropriate elimination entries, but all net to zero within each respective line.

Note 20 Disclosures Related to the Statement of Budgetary Resources

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose apportionment categories for obligations incurred. Disclose the amount of direct and reimbursable obligations incurred against amounts apportioned under category A, B, and exempt from apportionment. (The summation of the categories should be equivalent to Line 8 on the SBR.)

_____ Disclose that intraentity transactions have not been eliminated because the statements are presented as combined and combining.

_____ Disclose repayment requirements, financing sources for repayment, and other terms of borrowing authority used (if applicable).

_____ Disclose material adjustments made to budgetary resources available at the beginning of the year and provide an explanation (if applicable).

_____ Disclose the existence, purpose, and availability of permanent indefinite appropriations (if applicable).

_____ Disclose information about legal arrangements affecting the use of unobligated balances of budget authority such as time limits, purpose, and obligation limitations. For example, the portion of trust fund receipts collected in the current fiscal year that (1) exceed the amount needed to pay benefits or other valid obligations and (2) the excess of receipts temporarily precluded from obligation by law due to a benefit formula or other limitation. The receipts; however, are assets of the trust fund and available for obligation as needed in the future.

_____ Explain any capital infusion received during the reporting period including the amount, the source, and the reason for these additional funds.

_____ Disclose that Appropriations Received on the SBR may not agree with Appropriations

Received on the Statement of Changes in Net Position because of differences between proprietary and budgetary accounting concepts and reporting requirements and discuss reasons for differences.

Note 21 Disclosures Related to the Statement of Financing

_____ Disclose all abnormal account balances found in all financial statement lines and note schedules. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Disclose that due to the DoD's financial system limitations, budgetary data is not in agreement with proprietary expenses and assets capitalized. Differences between budgetary and proprietary data are a previously identified deficiency (if applicable).

_____ Disclose the amount (absolute value) of the adjustment to Statement of Financing to bring it into balance with the Statement of Net Cost. Report the adjustment in one of three categories: Resources That Finance the Acquisition of Assets, Other Components Not Requiring of Generating Resource, or Revaluation of Assets or Liabilities (if applicable).

_____ Disclose that the following Statement of Financing lines are presented as combined instead of consolidated due to intra-agency budgetary transactions not being eliminated:

- Obligations Incurred
- Less: Spending Authority from Offsetting Collections and Recoveries
- Obligations Net of Offsetting Collections and Recoveries
- Less: Offsetting Receipts
- Net Obligations
- Undelivered Orders
- Unfilled Customer Orders

_____ Describe any item that contributes ten percent or more of the statement lines titled "Other."

_____ Disclose the amount and relationship between the amounts reported as liabilities not covered by budgetary resources on the balance sheet and amounts reported as components requiring or generating resources in future periods on the statement of financing, and explain any difference in the amounts between the two statements.

Note 22 Disclosures Related to the Statement of Custodial Activity

_____ Disclose that under authority of the Arms Export and Control Act, the Foreign Military Sales Trust Fund (FMSTF) receives collections from foreign governments that are dedicated specifically to FMS purchases. Funds collected into the Trust Fund are in advance of the performance of services or sale of articles. These advance collections constitute a fiduciary relationship with the countries.

_____ Disclose that the DFI is for urgent humanitarian assistance, reconstruction, and other projects carried out for the benefit of the Iraqi people. Disclose the collections and disposition of custodial collections. This information shall be presented as follows:

Source of Collections	<i>(Amount in thousands)</i>
Deposits by Foreign Governments	\$ \$\$.\$
Disposition of Collections	
Disbursed on behalf of Iraqi People	\$ \$\$.\$
Total Disbursed on Behalf of Foreign Governments	\$ \$\$.\$
Retained for Future Support of Foreign Governments	\$ \$\$.\$
Total Disposition of Collections	<u>\$ \$\$.\$</u>
Net Custodial Collection Activity	<u><u>\$ \$\$.\$</u></u>

_____ Disclose that during Operation Iraqi Freedom, the U.S. Government seized assets from the Iraqi Government that are used in support of the Iraqi people. Disclose the collection and disposition of seized assets as follows:

Source of Collections	<i>(Amount in thousands)</i>
Seized Iraqi Cash	\$ \$\$.\$
Disposition of Collections	
Seized Assets Disbursed on behalf of Iraqi People	\$ \$\$.\$
Total Disbursed on Behalf of Iraqi People	\$ \$\$.\$
Retained for Future Support of Foreign Governments	\$ \$\$.\$
Total Disposition of Collections	<u>\$ \$\$.\$</u>
Net Custodial Collection Activity	<u><u>\$ \$\$.\$</u></u>

Note 23 Earmarked Funds

_____ Disclose all abnormal account balances found on this note schedule. Abnormal account balances are those in which the normal balance (debit or credit) is reversed. The detailed explanation should provide concise answers to the following questions:

1. What is the dollar amount of the abnormality?
2. Who caused this abnormality?
3. What business event caused the abnormality?
4. Why did the abnormality happen?
5. When, during the last four quarters, did the abnormality occur?

_____ Include a description of each earmarked fund's purpose, how the component accounts for and reports the fund, and its authority to use those revenues and other financing sources.

_____ Report the source of revenue or other financing for the period and an explanation of the extent to which they are inflows of resources to the Government or the result of intragovernmental flows.

_____ Report change in legislation during or subsequent to the reporting period and before the issuance of the financial statements that significantly changes the purpose of the fund or that redirects a material portion of the accumulated balance.

Note 24 Other Disclosures

No required disclosures.

APPENDIX H – RECONCILIATIONS

Quarterly Financial Statement Reconciliations.....	203
Statement of Budgetary Resources Reconciliations.....	206

The following table, *Quarterly Financial Statement Reconciliations*, presents the reconciliation activities required by DFAS for the Marine Corps quarterly financial statements.

Quarterly Financial Statement		Quarterly Financial Statement	
Balance Sheet		Balance Sheet	
Accounts Receivable	Line 1.C.	Federal Agencies' Centralized Trial-balance System (FACTS) accounts receivable from the public (attribute non-Federal). Also, reconcile with the receivables from the public in the quarterly "Report on Receivables Due From the Public."	
Balance Sheet		Balance Sheet	
Total Assets	Line 2	Total Liabilities and Net Position	Line 7
Statement of Changes in Net Position (SCNP)		Statement of Changes in Net Position	
Fiscal Year (FY) 2006 Net Position-Beginning of Period	Line 1	FY 2005 Net Position, End of Period	Line 9 Cumulative Results of Operations Plus Line 9 Unexpended Appropriations
Statement of Changes in Net Position		Statement of Changes in Net Position

Standard Accounting, Budgeting and Reporting System (SABRS) Production Balancing Procedures

Overview

Production reports have been created to assist in balancing the SABRS General Ledger (GL) to detailed transactions. Combinations of the Active file, the Fund Control Spend file, the History Transaction file, the Fund Control Authorization file, the Reimbursable Billing Data (RBD) Collection file, and the Disbursing Notification Record (DNR) Travel Advance file are used to compare the GL data to the detailed transactions. There are eight formulas used to determine the liquidations, the expenses, the obligations, and the commitments. Four formulas are used for direct general ledger accounts with no extensions and four formulas are used for reimbursable general ledger accounts with extensions.

Description	Direct GLA Type	Reimbursable GLA Type
Liquidations	= 49's with 2's+4201D	= 49's with 2's+4201R
Expenses	= 49's+4201D	= 49's+4201R
Obligations	= 48's+49's+4201D+4202D	= 48's+49's+4201R+4202R
Commitments	= 4710+48's+49's+4201D+4202D	= 4713+48's+49's+4201R+4202R

Currently, there are twelve record type 5 SABRS general ledger balancing formulas that help determine where the out of balance transactions are located. Formulas 1-7 are for general ledger accounts that only effect direct data with no extensions. Formulas 1-12 are for general ledger accounts that contain both direct and reimbursable data with extensions.

#	Occ	Description	Formula	Description	Formula
1	OCC1	Paid Expenses & Obligations	=4902.1+4902.2**+4802.1+4802.2**+4972**+4982**	= Liquidations	=1012

Procedures

The report balancing procedure includes having interaction with SABRS, ReportNet SMARTS and Microsoft Excel. SABRS will be used to print off the production balance reports and will also be used to correct any out of balance items that the General Ledger group has control to correct. ReportNet SMARTS will be used to pull the transaction detailed data. Microsoft Excel will take the ReportNet SMARTS data and convert it into a spreadsheet where different formulas will be used to identify the out of balance and how to correct it.

Printing the SABRS Production Balance Report

1. Click the SABRS icon to enter the SABRS software.
2. Enter "SB" in the first screen next to "Enter selection" and select enter.

10. After you have visually inspected the production balance report and determined that a correction needs to be made, print the report by selecting “F2”.
11. After you select “F2”, move to the area that says Page 00000041 of Section: Move the cursor to the “4” and type a “0”. Move the cursor to the “1” and type a “3”. You will now have a print range from Page 00000001 to Page 00000003 and select enter twice to print. There is no need to print the entire 41 pages. In general pages 1-3 should be sufficient but at times you will need to print more than the first 3 pages. Also be sure that the Online Printer ID is correct. This printer ID will depend on your location and the printer you are assigned.

Running the Detailed Transactions in ReportNet SMARTS

1. Select the ReportNet SMARTS link to enter the software.
2. Select “OK” on the disclaimer to proceed.
3. Enter your User ID and Password and select the “logonas” button.

4. Once you are in ReportNet SMARTS select each of the following items to get to the GL retrieval screen. Select Public Folders, Reports, General Ledger File Reports, General Ledger Retrieval Reports FY07, and GL Retrieval.
5. You are now at the GL Retrieval screen. Enter the Basic Symbol from the SABRS production balance report print out located under the title "BSYM" which in this example is 1105. Next enter the FY Full from the SABRS production balance report print out under the title "FYF" which in this example is 2005. Then select Finish.

Start | Report Viewer - GL ... | Inbox - Microsoft Outlook | SABRS PRDBAL1k SDP... | 8:51 AM

7. For this example, select the icon button View in Excel 2000 single sheet format.
8. Once the report runs you will be prompted to open, save or cancel the report. Select Open and then save it to the required drive and folder.

The screenshot shows a Microsoft Internet Explorer window titled "Report Viewer - GL Retrieval". The address bar displays a URL from "sabras.stl.disa.mil". A "File Download" dialog box is open in the foreground, asking "Do you want to open or save this file?". The file details are: Name: sM9h88G8shy9MvqyvG8dvGCCyIMMhC99v8.xls, Type: Microsoft Excel Worksheet, 6.66 MB, From: sabras.stl.disa.mil. The background page shows a "Report Viewer - GL Retrieval" interface with a "GL Key" section and a table of data. The table has multiple columns, including numerical values and codes like "DCAS 56000 M00027".

Microsoft Excel

1. After you have saved the data from ReportNet SMARTS, you will have a Microsoft Excel Spreadsheet that looks like the following.

1	General Ledger Retrieval

2. Select the entire Row 1 and delete the row by selecting edit, delete.
3. Select the entire column A and delete the column by selecting edit, delete.
4. Highlight the entire Row A and select Format, Cells, Alignment, and de-select wrap text in the text control section and select OK.

The screenshot shows a Microsoft Excel 2005 window with a spreadsheet titled 'B SYM'. A 'Format Cells' dialog box is open over cell B2. The dialog box has tabs for 'Number', 'Alignment', 'Font', 'Border', 'Patterns', and 'Protection'. The 'Alignment' tab is active, showing options for 'Text alignment' (Horizontal, Vertical, Justify distributed), 'Text control' (Wrap text, Shrink to fit, Merge cells, Right-to-left), and 'Text direction' (Context). The 'Orientation' section shows a vertical orientation with a 'Degrees' spinner set to 0. The spreadsheet data includes columns for various financial and operational codes and values.

5. Highlight the entire spreadsheet by clicking on the square above row 1 and next to column A.

6. Move the cursor on the line between Column B and Column C and double click the line. This will format the width of the columns for you.
7. While the entire spreadsheet is highlighted, select Data, Filter, Auto Filter.
8. Highlight columns Q through AJ and select Format, Cells, Accounting, 2 Decimals and None on symbol and select OK.
9. You now have a formatted spreadsheet for Appropriation 1105 for the year 2005. This will be your source spreadsheet for any analysis.
10. Next, take your SABRS production balance report print out and use the filters on the Microsoft spreadsheet to pinpoint the line item you need.
11. Move to column E "SBHD" and select "2753" on the filter.
12. Move to column F "FFUNC" and select "05D0" on the filter.
13. Move to column N "RT" and select "5" on the filter.
14. You should be left with the information you need to perform your analysis now.

1860	2005 C2	2753	0500	44690	M00027	M00027	M00027				067443	5	48011	

15. Select the empty square above row 1 and next to column A to highlight the entire spreadsheet.
16. Select edit copy.
17. Right mouse click on the tab "Page" on the bottom of the spreadsheet. Select Insert, Worksheet.
18. At cell A1 select Edit, Paste. You should now have two tabs in the spreadsheet, the Page tab and a Sheet 1 tab.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O

19. Highlight column W "OCC 5" through column AJ "OCC 18" and select Edit, Delete.
20. Open a previous 1105 spreadsheet and highlight and copy the formula template into this spreadsheet so it looks like the following.

	Liq	Exp	Obl	Com
1	0.00	0.00	0.00	0.00
2	0.00	0.00	0.00	0.00
3	0.00	0.00	0.00	0.00
4	0.00	0.00	0.00	0.00
5	0.00	0.00	0.00	0.00
6	0.00	0.00	0.00	0.00
7	0.00	0.00	0.00	0.00
8	0.00	0.00	0.00	0.00
9	0.00	0.00	0.00	0.00
10	0.00	0.00	0.00	0.00
11	0.00	0.00	0.00	0.00
12	0.00	0.00	0.00	0.00

21. Highlight columns P “NORM BAL INDIC” through column S “YTD EOPM” and select Format, Column, Hide.
22. For SABRS production balance reports that include Liquidations, Expenses, Obligations, and Commitments proceed to step #23. For SABRS production balance reports that do not include the break out of Liquidations, Expenses, Obligations, and Commitments proceed to step #31
23. Starting in cell Y3, Liq, sum the following GLA’s in column T “OCC 1” for Direct: 49’s with 2’s + 4201D. For reimbursables: 49’s with 2’s + 4201R. This is the formula for direct and reimbursable liquidations.
24. Starting in cell Z3, Liq, manually enter the liquidation amount from the SABRS production balance report printout if pertinent. Note: Not all SABRS production balance reports include Liquidation, Expenses, Obligation, and Commitment amounts; therefore cells Y3:Z6 will have no formulas in them.
25. In cell Y4, Exp, sum the following GLA’s in column T “OCC 1” for Direct: 49’s + 4201D. For reimbursables: 49’s + 4201R. This is the formula for direct and reimbursable expenses.

26. In cell Z4, Exp, manually enter the expenses amount from the SABRS production balance report printout.
27. In cell Y5, Obl, sum the following GLA's in column T "OCC 1" for Direct: $48's + 49's + 4201D + 4202D$. For reimbursables: $48's + 49's + 4201R + 4202R$. This is the formula for direct and reimbursable obligations.
28. In cell Z5, Obl, manually enter the obligations amount from the SABRS production balance report printout.
29. In cell Y6, Com, sum the following GLA's in column T "OCC 1" for Direct: $4710 + 48's + 49's + 4201D + 4202D$. For reimbursables: $4713 + 48's + 49's + 4201R + 4202R$. This is the formula for direct and reimbursable commitments.
30. In cell Z6, Com, manually enter the commitments amount from the SABRS production balance report printout.
31. In cell Y10, sum the following GLA's in column T "OCC 1": $4902.1 + 4902.2^{**} + 4802.1 + 4802.2^{**} + 4972^{**} + 4982^{**}$. This is the formula for paid expenses and obligations.
32. In cell Z10, sum the following GLA's in Column T "OCC 1": 1012. This is the formula for liquidations.
33. In cell Y11, sum the following GLA's in column T "OCC 1": $4901.1 + 4901.2^{**} + 4981D + 4971D$. This is the formula for unpaid expenses.
34. In cell Z11, sum the following GLA's in Column T "OCC 1": 2^{**} excluding 2311/2312/2313. This is the formula for liabilities.
35. In cell Y12, sum the following GLA's in column T "OCC 1": $4802.1 + 4802.2 + 4202D + 4202R$. This is the formula for paid obligations.
36. In cell Z12, sum the following GLA's in column T "OCC 1": 14^{**} . This is the formula for advances.
37. In cell Y13, sum the following GLA's in column U "OCC 2": Direct $4901.1 + 4902.1 + 4971D + 4972D + 4981D + 4982D$. This is the formula for paid and unpaid expenses.
38. In cell Z13, sum the following GLA's in column U "OCC 2": 6^{***} (excluding 6790) + 15^{**} . This is the formula for expenses.
39. In cell Y14, sum the following GLA in column T "OCC 1": $5700 + 5200^*$. This is the formula for expended appropriations.
40. In cell Z14, sum the following GLA's in column T "OCC 1": 6^{***} (excluding 6790) + 15^{**} . This is the formula for expenses.
41. In cell Y15, sum the following GLA in column U "OCC 2": 3107. This is the formula for unexpended appropriations.
42. In cell Z15, sum the following GLA's in column U "OCC 2": $4901.1 + 4902.1 + 4971D + 4972D + 4981D + 4982D$. This is the formula for expenses.
43. In cell Y16, sum the following GLA in column T "OCC 1": 5700. This is the formula for expended appropriations.
44. In cell Z16, sum the following GLA in column T "OCC 1": 3107. This is the formula for unexpended appropriations.

45. If the SABRS production balance report only includes direct data you do not need to continue with any more formulas and proceed to step #56. However if the SABRS production balance report includes direct and reimbursable data, continue with entering formulas in steps 46 through 55. The spreadsheet should now look like this:

	J	K	L	M	N	O	T	U	V	W	X	Y	Z	AA
	SRI	SA	BSS	ACCTG	INSTALL	RT	GLA	OCC 1	OCC 2	OCC 4

46. In cell Y17, sum the following GLA in column U "OCC 2": 1011 – 2311 – 2312 – 2313. This is the formula for collections.
47. In cell Z17, sum the following GLA in column U "OCC 2": 4252***. This is the formula for collected earnings.
48. In cell Y18, sum the following GLA in column T "OCC 1": 1310*. This is the formula for receivables.
49. In cell Z18, sum the following GLA in column T "OCC 1": 4251***. This is the formula for uncollected earnings.
50. In cell Y19, sum the following GLA in column U "OCC 2": 5200 + 5900. This is the formula for revenue from service provided (Cost of Goods Sold).
51. In cell Z19, sum the following GLA in column U "OCC 2": 4901.2*** + 4902.2*** + 4971R** + 4972R** + 4981R** + 4982R**. This is the formula for paid and unpaid expenses.
52. In cell Y20, sum the following GLA in column T "OCC 1": 4251*** + 4252*** + 4201C**. This is the formula for collected and uncollected earnings.

53. In cell Z20, sum the following GLA in column T “OCC 1”:
4901.2** + 4902.2** + 4971R** + 4972R** + 4981R** +
4982R** + 4201R**. This is the formula for paid and unpaid
expenses.
 54. In cell Y21, sum the following GLA in column T “OCC 1”:
4221*** + 4222*** + 4614**. This is the formula for unfilled
customer orders for balancing prior years.
 55. In cell Z21, sum the following GLA in column T “OCC 1”:
4801.2** + 4802.2** + 4871R** + 4881R** + 4202R**. This is
the formula for undelivered orders for balancing prior years.
 56. Next highlight the data from cells O1:AA1 and down to
O36:AA36 and select Edit, Copy.
 57. Move to cell O39 and select Edit, Paste.
 58. Move to cell O77 and select Edit, Paste.
 59. Move to cell T40 and highlight the cells from T40:AA40 down to
T74:AA74 and select the delete key.
 60. Move to cell U40 and type in the formula =T40.
 61. Copy cell U40 by selecting Edit, Copy.
 62. Highlight cells U41:U74 and select Edit, Paste.
 63. Move to cell T78 and type the formula =T40+T2.
 64. Copy cell T78 by selecting Edit, Copy.
 65. Move to cell U78 and select Edit, Paste.
 66. Now highlight cells T78 and U78 and select Edit, Copy.
 67. Highlight cells T79:U79 down to T112:U112 and select Edit,
Paste. You are now ready for the analysis and information to
correct the out of balance entries.
68. The following chart depicts the correcting entries you will need to
make depending on the location of the out of balance.

Description	Debit/Credit	Debit/Credit	Debit/Credit
Liquidations Direct	4902	4611 CY	4650 PY
Liquidations Reimb	4902***	4614	
Expenses Direct	4901	4611 CY	4650 PY
Expenses Reim	4901***	4614	
Obligations Direct	4801	4611 CY	4650 PY
Obligations Reimb	4801***	4614	
Commitments Direct	4710	4611 CY	4650 PY
Commitments Reimb	4713	4614	
	48021 &		
PRDBAL1K	1012	48011 & 1411	
	4252*** &	4251*** &

Exp	4251***	4901.2**
Unfilled CO/Undelivered		
Orders	4221***	4801.2**

69. For this example, move to cell Y88 and Z88. You see the balance is \$711,999.90. Now if you notice the SABRS PRDBAL1K report the balance should be \$719,963.51.

70. Now go to cell T59 and enter a debit of \$7,963.61 and go to cell T42 and enter a debit of \$7,963.61.

71. Now go to cell T61 and enter a credit of \$7,963.61 and go to cell T40 and enter a credit of \$7,963.61.

72. This is the correcting entry to get the line item in balance. Go to cell Y88 and Z88 and you will see the balance is now \$719,963.51.

<u>VII. ESTIMATION ACCRUALS: MOCAS, CONTRACT HOLDBACKS and MULTI-ACRN CLINs</u>	258

I. BACKGROUND

Accounts Payable Process. Accounts payable are amounts owed to other entities for receipt of goods and services, progress in contract performance and rents. When an entity accepts title to goods, whether the goods are delivered or in transit, the entity should recognize a liability for the unpaid amount related to the goods. Recording the transfer of title is best achieved when an integrated receiving and acceptance system links logistics with accounting. When there is a transaction flow between accounting, entitlement and logistics systems, an efficient method exists for capturing outstanding receipt and payment transactions so that accounts payable can be properly recorded in the current financial reporting period. Conversely, when accounting systems do not receive transactions as a direct flow from entitlement and logistics, they do not have the information necessary for maintaining or developing an accounts payable event. Current efforts within the Department of Defense (DoD) to employ the Wide Area Work Flow or related system to capture delivery for goods or services may provide the vehicle for bridging the gap between the logistics, entitlement and accounting systems. Prior to the employment of such a system, information from external systems will drive the accounts payable balance for financial statement presentation.

MOCAS As a Reliable Payable Source. Mechanization of Contract Administration Services (MOCAS) can be a reliable source for capturing DoD accounts payable amounts for contract pay when a direct transaction flow does not exist between entitlement and accounting systems. Although the foundation for MOCAS accounts payable transactions are material receipt notifications from source and destination acceptances, the accounting systems are not usually aware of the liability until an electronic notice or paid voucher is transmitted from MOCAS. Compensating controls are required to ensure complete recording and reporting payable information relating to contracts administered and payments made through the MOCAS by the DFAS Columbus Center (DFAS-CO). There are sources of information prior to payment regarding the existence of accounts payable amounts, but they have not been or have been inconsistently available for use in accounting systems. These sources include: (1) DD 250 material acceptance document that is distributed to procurement or logistics and program offices, (2) actual materiel receiving transactions by recipient locations, (3) shipment performance notices transmitted to logistics centers or program offices based on the DD 250 acceptance data entered into MOCAS, and (4) prevalidation of entitled payments with data contained in accounting systems.

Accounting entities, which do not have a reliable source for recording MOCAS payables, will have to rely on MOCAS to furnish accounts payable information. Specifically, accounting entities must use the accounts payable related reports and supporting detail data provided by MOCAS for developing accounts payable balances to be included in financial statements. The former DFAS Commercial Pay Business Line developed specific monthly reports for recording and reporting MOCAS accounts payable data. These monthly MOCAS reports are available to the DFAS Networks for recording of MOCAS payables for the Military Service Components, Defense Organizations and the USACE (Military side, i.e., Treasury Index 21).

II. GENERAL

Objective of MOCAS Monthly Report. The objective of the monthly MOCAS report is to capture all MOCAS open accounts payable records at a given point in time and reflect those amounts in monthly budgetary and quarterly proprietary (financial) statements. This report covers payable activity from all three MOCAS regional databases, i.e., North, South and West. Specific stages of accounts payable provided in the MOCAS report include receipts unmatched to an invoice, receipts matched to an invoice, and Bureau Voucher Invoices.

Scope. These instructions apply to all military service general funds, their working capital funds, Treasury Index 97 allocated and non-allocated funds, Defense Organizations' general funds and working capital funds. Foreign Military Sales (FMS), (specifically, appropriation 8242) is excluded from these instructions because FMS is not a budgeted item for DoD and does not impact the DoD financial statements.

MOCAS Payable Types. To ensure the MOCAS accounts payable output is a complete and reliable source for recording and reporting liabilities, three general categories of payables have been identified that should be reported as a public payable. The general categories and their subcategories are:

Commercial Invoices

Commercial – a contractor's invoice used in the private sector to bill for government received items

Service Invoices- payments for services provided to the government such as maintenance, storage or repair. These invoices usually require an administrative or procurement contracting officer's signature

Refunds – internal MOCAS payment type for refunds to the contractor, i.e., discounts taken in error

Administrative Contract Officer – ACO approved (signature) invoices, no DD 250 is required. Payments for services provided to the government such as maintenance, storage or repair

Additional Supplemental Billing – a supplemental invoice for additional money after the original invoice has been paid, i.e., a change in unit price usually from a contract modification

Modification Not Billed – an invoice billing for a total amount of a modification which authorizes the payment of a specific amount which was not previously billed and paid

Termination Costs – cost incurred by the government for terminating a contract at the convenience of the government

Procurement Contracting Officer – PCO approved (signature) invoices, no DD 250 is required. Payments for services provided to the government such as maintenance, storage or repair

Freight Charges – payments for transportation charges to a contractor in accordance with the terms of the contract

Received But Not Billed – contractor re-invoices for remainder of government accepted delivery on a DD250

Financing

Progress Payments – payments made based on the cost incurred by the contractor as work progresses under the contract

Performance Based Payments (PBP) – payments based on specified performance actions being accomplished. Performance is usually measured by objective, quantifiable methods; accomplishment of defined events; other quantifiable measures of results. The Federal Acquisition Streamlining Act (FASA) of 1994 included this provision for use of PBP as an alternative to progress payments

Commercial Item Financing (CIF) – same as Performance Based Payments except the item is not government specific (i.e., commercial company can purchase the same item). CIF is another form of contract financing resulting from the FASA. FAR Part 12 and Part 52 were revised to allow contracts to be written in accordance with customary practices

Bureau Voucher Invoices – Cost reimbursement invoices.

The Defense Contract Audit Agency (DCAA) normally reviews and approves partial payment vouchers under cost-reimbursement type contracts. Documentation is not required for payment processing; however, the payment voucher should be annotated so that it can be properly identified as a provisional payment.

Multi-ACRN CLINs. Ensuring the completeness of the accounts payable amounts reported in both budgetary and proprietary accounts required the inclusion of the aforementioned types of payables in the MOCAS monthly report. A limitation associated with the use of multiple Accounting Classification Reference Numbers (ACRN) directly related to a single Contract Line Item Number (CLIN) limits the ability to capture 100% of the MOCAS accounts payable in the monthly report. Normally, receipt notifications are recorded in a CLIN that has a one to one relationship with an ACRN, i.e., a product or service funded through one line of accounting. For multi-ACRN CLINs, there is a one-to-many relationship between the CLIN and

ACRNs, i.e., a product or service funded through more than one line of accounting. As a result, the appropriation bearing the multi-funded payable is not identified until an invoice is received and manual research is performed, adversely affecting the timeliness of recording the payable. To help mitigate the inability to record multi-ACRN CLIN related payables, an estimation process has been established to ensure complete reporting. Discussion related to this estimation method is included in Section VII.

MOCAS Prevalidation. The prevalidation process is utilized by certain accounting systems to capture and record the accounts payable amounts at transaction level, which minimizes the effect of the Multi-ACRN CLINs. For example, when MOCAS requests a prevalidation that obligations are recorded in the accounting systems prior to making a disbursement, the accounting system will upon verifying the obligations are recorded send a prevalidation acceptance back to MOCAS and record an accounts payable simultaneously. As a result, the prevalidated amounts associated with all MOCAS payment types are identified on the monthly MOCAS reports so that the appropriate adjustments are made to avoid duplication.

Prevalidation Ratio. The effects of the prevalidation transaction must be considered before recording an estimate in order to avoid recording duplicate accounts payable amounts. Since the MOCAS Accounts Payable Report specifically identifies the prevalidation amounts for the Net Accounts Payable amounts, the prevalidation ratio will only be used for estimating the multi-ACRN CLINs. This consideration is based on whether or not the Network records an accounts payable amount during the prevalidation process. The Network(s) that record an accounts payable amount during the prevalidation process must give consideration to the prevalidation ratio when determining the amount to record as the estimate. If the Network reverses all prevalidated amounts before recording the MOCAS accounts payable amounts, it is considered a Network that does not record an accounts payable during the prevalidation process for formula purposes only.

The prevalidation ratio is calculated by dividing the total prevalidation amount by the total Net Accounts Payable amount. A monthly prevalidation ratio should be established for each Military Service, for each Military Service WCF, for TI 97 GF and one for TI97 WCF. Once the ratio is calculated, the estimate is multiplied by $1 - \text{prevalidation ratio}$. For example, if a prevalidation ratio of 2% is calculated using the MOCAS Accounts Payable Report then the formula for the amount to record is as follows:

$$\text{Estimate times } (1 - .02) \quad \text{OR} \quad \text{Estimate times } 98\%$$

To ensure standardization, each DFAS Network will be prompted by the DFAS model to answer whether or not an accounts payable transaction is recorded during the prevalidation process. The answer should be based upon how the majority of systems respond to a prevalidation request for the fund.

Contract Holdbacks / Withholds. A portion of the MOCAS liabilities are contract holdbacks. Contract holdbacks are amounts withheld from contractors pending completion of related contracts. The Treasury Financial Manual Supplement, Section V, USSGL Crosswalk, requires holdbacks be classified in accounting reports as "Other Liabilities." To establish control

and ensure the proper classification of these liabilities, a separate report for contract holdbacks was created. The report should be used to record the MOCAS liabilities in both budgetary and proprietary financial reports.

Waivers from Use of MOCAS Report. Accounting systems that demonstrate the ability to capture MOCAS liabilities from sources outside of MOCAS with a high degree of accuracy may be granted a waiver from use of the MOCAS monthly report for reporting payables. The DFAS Standards and Compliance Directorate, Accounting Mission Area, Accounts Payable, is responsible for approving all waivers. Request for waivers must satisfy two objectives.

- ✓ Receipts from MOCAS delivered goods and services must be entered into the accounting system in no less than the same reporting period the goods or services are accepted
- ✓ Payables recorded from receipts must be liquidated upon MOCAS payments no later than 15 calendar days from disbursement date (OUSD (C) Subject: Distribution and Posting of Disbursements into the Department of Defense (DoD) Accounting Systems dated Dec 03, 2003

In order to meet the criteria above, an analysis must be performed that compares MOCAS payable amounts to those recorded in the accounting system. At a minimum, the requestor must take a representative sample for each accounting system from the monthly MOCAS file and match those transactions to the transactions in the accounting system. The analysis must stratify transactions by counts and dollar amounts into three categories:

- 1) matched in both processes, i.e., transactions found in both MOCAS and the accounting system,
- 2) transactions from MOCAS administered contracts found in the accounting system but not in the MOCAS file, and
- 3) transactions in MOCAS but not in the accounting system.

If you cannot stratify the analysis because of accounting system limitations, use the disbursements from the Electronic Document Access (EDA) system (Electronic 110 Query) to trace MOCAS disbursements back to accounts payable transactions. When stratifying the transactions into one of the three categories, annotate the date the good or service was accepted, the date the receipt was entered into the accounting system, the date the transaction was paid and the date the payment was posted into the accounting system. These dates will be the basis for comparison if the two objectives identified above are to be met. For items that fall into category two or three, an explanation should accompany the analysis that details the reasons for the discrepancy.

Sample Size. The population size to test for a waiver request should be determined by standard auditing sample techniques with a confidence level no less than 95 percent. The analysis and the method used to determine the sample size must be explained in the waiver request. The following formula will assist in determining the appropriate sample size to test.

$$\text{Sample Size} = \frac{e(1-e)}{(S/C)^2 + (e(1-e))/N}$$

e is the Expected Error Rate. i.e., the percentage of MOCAS transactions expected not to be recorded in the accounting system. For purpose of calculating the sample size, the expected error rate should be no more than 5 percent, allowing flexibility for posting errors.

S is the Sampling Error or Sample Precision. Usually expressed as a +/- percentage in relation to the sample result. Sampling errors arise from estimating a population characteristic by looking at only one portion of the population rather than the entire population. It refers to the difference between the estimate derived from a sample and the 'true' value that would result if the whole population were evaluated under the same conditions. For the purpose of calculating the sample size, the Sampling Error percentage should not exceed 2 percent.

C is the confidence level desired (95% confidence level = 1.96 and 99% confidence level = 2.58). For the purpose of calculating the sample size, a minimum of 95% confidence level should be used.

N is the total population that the sample represents (the total MOCAS transactions). The total population represents the total transactions on the MOCAS files that are used for posting accruals to the accounting systems. For example, each Network has a Service specific file from each MOCAS region. The transaction total from all three files with your service number is the population to be sampled.

An excel spreadsheet or similar format is recommended for the waiver analysis. Included in the analysis should be all the elements of the above formula, the results of sample testing stratified as mentioned above, and other pertinent information that demonstrates the MOCAS accounts payable transactions are successfully recorded and reported in the accounting systems via a source other than MOCAS.

The accounting networks should coordinate their accounting system waivers and amounts with the Defense Agencies – Indianapolis Operations, Budget Executions and Reports Division (BERD) in order to avoid duplication of the MOCAS accruals.

A subsequent written waiver request is required if there is any process or procedural change that impacts the accounts payable recording and reporting.

Retention of the Monthly MOCAS Reports as Support for Budgetary and Proprietary Report. A retention policy for the monthly MOCAS accounts payable reports is required to fully support the funds management and financial reporting functions. The amounts recorded and reported for budgetary and proprietary purposes impact the tools used to assess the financial health of an entity. As a result, the details that support the amounts should be readily available for review and/or analysis. The DoD FMR Volume 1 Chapter 9 regulations refer to the National Archives and Records Administration (NARA) for retention guidance. However,

supplemental guidance issued by OUSD (C) Memorandum dated October 20, 2003, Subject: Retention of Documentation Guidance, directs all activities to retain monthly accounting reports, accompanying systems backup that contain the supporting transactions, and related documentation for a period of one year after the appropriation cancels.

III. MOCAS MONTHLY ACCOUNTS PAYABLE REPORT

Purpose. The MOCAS report provides the Military Services and DoD Components' supporting DFAS Center, accounts payable amounts by appropriation useful in preparation of the monthly reports on budget execution, i.e., SF 133, AR (M)1307, AR(M)1002 and proprietary statements, i.e., financial statements.

Location and Release of Monthly Reports. The accounts payable files are located on the corp1 ftp server at "corp1.dfas.mil" in "ftp_8/acctspay". The files are available no later than the last business day of the calendar month.

For DFAS personnel, to get access to the Corp1 server, submit a request through your TASO. For non-DFAS personnel, to get access, complete DD Form 2875 and submit to DFAS-BSSE/CC or phone (614) 693-6665.

Composition of MOCAS Files. The MOCAS files are generated from three databases - North, South, and West and consist of the following accounts payable files.

1. Invoices Matched to Acceptance File
2. Unmatched Acceptances
3. Bureau Voucher Numbers (BVN) – an SF 1034 with a detailed summary of costs.
Contractors usually submit costs on a monthly basis and invoices are received early in the subsequent month.
4. Prevalidated Amounts
5. Contract Holdbacks

An extract of the above files are provided at DoD Component level, i.e., Army (TI 21 and TI97), Navy (TI17 and TI97), Air Force (TI57 and TI97) and DLA (TI97 Columbus). The assignment of appropriations to a DoD Component is based on the MOCAS line of accounting table supplied from each DFAS treasury reporting Center. Defense funds aligned to specific Military Services are included in the related files for that Service. The Defense Organizations aligned to the DFAS-Columbus are included in the DLA file. All other Defense Organizations, to include the US Army Corp of Engineers, not aligned to a Military Service are included in the Army file. The accounting office responsible for recording the MOCAS accounts payables should understand the file structure and content of their related file.

Calculation of Accounts Payable Amount to Record. The monthly MOCAS accounts payable reports include the amounts for all acceptance and receiving reports for which an invoice has not yet been paid, excluding the Multi-ACRN CLINS. Future enhancements may allow for these payables to be included on the monthly MOCAS accounts payable report. The reports contain detail transaction level information for each shipment number. Additional information

included in the monthly MOCAS reports consist of progress payment recoupment and prevalidated amounts related to specific appropriations. Calculations must be performed in order to record and report the Net Accounts Payable amounts for each appropriation. For example, the total accounts payable amounts should be reduced by the progress payments paid and / or the accounts payable amounts already recorded during the MOCAS prevalidation process. The calculations will vary for the accounting systems that post an accounts payable transaction during the MOCAS prevalidation process and those that do not. The following are the calculations that should be performed prior to recording the MOCAS accounts payable amount for entries summarized in Section IV.

Journal Entry “A” and “E” in Section IV - Calculation When Recording Accounts Payable During Prevalidation

- ✓ $\text{ACRN Total minus Recoupment minus Prevalidated Amount} = \text{Net Accounts Payable}$

Journal Entry “B” in Section IV - Calculation for Accounting Systems That Do Not Record an Accounts Payable During Prevalidation

- ✓ $\text{ACRN Total minus Recoupment} = \text{Net Accounts Payable}$

Contract Withhold amounts do not factor in to the calculations for the accounts payable because they are classified as “Other Liabilities” on the financial reports. Its journal entries can be found in Section V.

Invalid Limits. There may be situations where the limits reported on the monthly MOCAS Report are inconsistent with the approved limits established by Treasury and OUSD. These conditions will exist when the DoD Components use additional limits to control funds or the MOCAS line of accounting table may not be current. Invalid limits affect the proper alignment of MOCAS accounts payable amounts to the correct SF 133 report. The SF 133 reports are required by OMB which fulfills federal statute 31.U.S.C.1511-1514. Responsibilities for resolving invalid limits are explained in Section V, Invalid Limits.

Unfunded Payables. In applying the accounting entries from sections IV and V, an abnormal negative balance in the undelivered order amount, account 4801 may occur. Regardless, all accounts payables should be recorded. This situation is an indication of unrecorded obligations such as contract modifications or expenditure recording errors. Immediate research should be initiated by the responsible DFAS Network to determine any late unrecorded contract modifications or if any expenditure had been applied to the wrong fund account. If appropriate obligation entries or corrections cannot be made, the funding authority must be contacted regarding the funding of the negative balance.

The research mentioned above should include identifying the specific conditions causing the abnormal balance in the Undelivered Orders - GLAC 4801 (i.e. unrecorded obligations, miscoded disbursements, etc.). If the research concludes that the abnormal balance is caused by the original obligation exceeding current year expended authority, then the journal entries for Entry “C” in section IV should be recorded.

Cancelled Appropriations. Included in the monthly MOCAS Accounts Payable Report may be amounts related to cancelled appropriations. Such amounts will be included as liabilities and expenses in the currently available appropriation account from which they will be paid. When such amounts will be included in the year-end budget execution report and financial statements of a current appropriation, they must be presented as obligated and funded liabilities. Therefore, in lieu of a debit to 4801 shown in the accounting entries below, the debit will be to account 4610, Allotments – Realized Resources. Coordination with the funding authority should be accomplished in accordance with the usual practice.

Asset or Expense. Knowledge of a particular appropriation and included programs will determine the allocation to asset or expense accounts. Future reports from MOCAS may include the Object Class which will communicate the proper asset account vice an expense account.

IV. JOURNAL ENTRIES TO POST THE MOCAS ACCOUNTS PAYABLE

MOCAS accounts payable adjustments should be recorded at Fiscal Year, Basic Symbol, for general / appropriated funds and TI 97 Working Capital Funds. For all TI97 General Funds, accounts payable adjustments should be posted at Fiscal Year, Basic Symbol and Limit (4 digit level ONLY). Recording the MOCAS adjustments at transaction level is permissible provided the entry impacts the Customer at the four-digit limit. The basic accounting entries must be performed for both budgetary and proprietary report preparation. For all appropriations, the Net Accounts Payable amounts calculated above, as well as the recoupment amounts, should be recorded and reported. The following table provides the necessary journal entries that should be recorded in the accounting systems at the aforementioned level. An explanation that coincides with the “Entry Reference” is below the table.

Error! Not a valid link.

Explanation of Journal Entries – General Funds

A. To record the delivery of goods or services and accrue a liability

- ✓ Budgetary (USSGL Transaction Code B302)
 - i. Purpose. This entry moves the obligation from the Undelivered Orders to Delivered Orders Unpaid to indicate that delivery has been made and record the accounts payable.
 - ii. Impact. Decreases Undelivered Orders and increases Delivered Orders Unpaid accounts. (see Unfunded Payables paragraph)
- ✓ Proprietary (USSGL Transaction Code B302 simultaneously with B134)
 - iii. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.

- iv. Impact. Increases the expense and/or asset and accounts payable accounts.

B. To record the delivery of goods or services and accrue a liability when an advance (progress payment) was paid

- ✓ Budgetary (USSGL Transaction Code B302, B404)
 - i. Purpose. The entry made moves the obligations from the Undelivered Orders to Delivered Orders Unpaid for both unpaid and paid accounts, to give recognition to progress payment(s) paid.
 - ii. Impact. Decreases Undelivered Orders and increased Delivered Orders for both unpaid and paid accounts. (see Unfunded Payables paragraph)
- ✓ Proprietary (USSGL Transaction Code B302, B404, simultaneously B134)
 - iii. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. In addition, the entry decreases any prepaid amounts such as progress payments and increases the appropriate assets and/or expense account. Special consideration should be given to the recording of an asset or expense.
 - iv. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

C. To record the delivery of goods or services in the same year the order was placed and accrue a liability. The current-year expended authority is less than the original obligation.

- ✓ Budgetary (USSGL Transaction Code B304)
 - i. Purpose. The entry made moves the obligations from the Undelivered Orders to Delivered Orders Unpaid and recognizes that the Current-Year Expenditure Authority is less than the original obligation.
 - ii. Impact. Decreases Undelivered Orders and increases Delivered Orders, Allotments – Realized Resources (for Category A & B Funds), and Unobligated Funds Exempt From Apportionment (Category C Funds). (see Unfunded Payables paragraph)
- ✓ Proprietary (USSGL Transaction Code B304)
 - iii. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.
 - iv. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

D. To record the delivery of goods or services in the same year the order was placed, and accrue a liability. The current-year expended authority is greater than the original obligation. This condition should be identified and corrected during the tri-annual review.

- ✓ Budgetary (USSGL Transaction Code B306)
 - i. Purpose. The entry made moves the obligations from the Undelivered Orders to Delivered Orders Unpaid and recognizes that the Current-Year Expenditure Authority is greater than the original obligation.
 - ii. Impact. Decreases Undelivered Orders, Allotments – Realized Resources (for Category A & B Funds), and/or Unobligated Funds Exempt From Apportionment (Category C Funds), and increase delivered Orders Unpaid. (see Unfunded Payables paragraph)

- ✓ Proprietary (USSGL Transaction Code B306)
 - iii. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.
 - iv. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

E. To record appropriations used this fiscal year. To be recorded with any current-year recognition of goods and services received.

- ✓ Budgetary (USSGL Transaction Code B134)
 - i. Purpose. None – No Budgetary Entry
 - ii. Impact. None

- ✓ Proprietary (USSGL Transaction Code B134)
 - iii. Purpose. The entry made recognizes the Expended Appropriations. This transaction does not stand alone. This transaction is not recorded by special or non-revolving funds trust funds, with the exception 1) special funds that receive appropriation or allocation transfers general fund appropriated Treasury Appropriation Fund Symbols (TAFS), or 2) special or trust funds that receive amounts appropriated from the General Fund of the Treasury via Treasury Appropriation Warrant.
 - iv. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

F. To record an obligation and accounts payable in an unexpired appropriation for a valid bill related to a cancelled appropriation.

- ✓ Budgetary (USSGL Transaction Code B314)
 - i. Purpose. To recognize the amount to be paid from current year funds for cancelled appropriations.
 - ii. Impact. Decreases Allotments – Realized Resources and/or Unobligated Funds Exempt From Apportionment and increases the Delivered Orders Unpaid.

- ✓ Proprietary (USSGL Transaction Code B314)
 - iii. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.
 - iv. Impact. Increases the expense and/or asset and accounts payable accounts.

G. To record appropriations used this fiscal year. To be recorded with any current-year recognition of goods and services received.

- ✓ Budgetary (USSGL Transaction Code B134)
 - i. Purpose. None – No Budgetary Entry
 - ii. Impact. None
- ✓ Proprietary (USSGL Transaction Code B134)
 - iii. Purpose. The entry made recognizes the Expended Appropriations. This transaction does not stand alone. This transaction is not recorded by special or non-revolving funds trust funds, with the exception 1) special funds that receive appropriation or allocation transfers general fund appropriated Treasury Appropriation Fund Symbols (TAFS), or 2) special or trust funds that receive amounts appropriated from the General Fund of the Treasury via Treasury Appropriation Warrant.
 - iv. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

H. To record in the cancelled appropriation the removal of the cancelled payable upon receipt of a valid bill. The budgetary entry reduces the balance of authority that remains upon cancellation.

- ✓ Budgetary (USSGL Transaction Code B316)
 - i. Purpose. To decrease the Cancelled Authority and the Total Actual Resources – Collected.
 - ii. Impact. Decreases Cancelled Authority and the Total Actual Resources Collected.
- ✓ Proprietary (USSGL Transaction Code B316)
 - iii. Purpose. To remove the amount recorded as an accounts payable prior to the cancellation of the fund.
 - iv. Impact. Decreases Accounts Payable from Cancelled Appropriations and Future Funded Expense.

Error! Not a valid link.

I. To record the delivery of goods or services and accrue a liability.

- ✓ Budgetary (USSGL Transaction Code B302)
 - i. Purpose. This entry moves the obligation from the Undelivered Orders to Delivered Orders Unpaid to indicate that delivery has been made and record the accounts payable.
 - ii. Impact. Decreases Undelivered Orders and increases Delivered Orders Unpaid accounts. (see Unfunded Payables paragraph)

- ✓ Proprietary (USSGL Transaction Code B302)
 - i. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.
 - ii. Impact. Increases the expense and/or asset and accounts payable accounts.

V. JOURNAL ENTRIES TO POST CONTRACT HOLDBACKS / WITHHOLDS

Contract holdback liabilities are accounted for separately from accounts payable in general ledger account 2130, Contract Holdbacks. Holdback amounts are common in construction contracts. Holdback amounts for MOCAS payments are applicable to expense items or equipment items, which when for military equipment, is expensed in account 6900, Nonproduction Costs. The following table shows the budgetary and proprietary entries for appropriated (general funds) and working capital funds.

Error! Not a valid link.

J. To record the delivery of goods or services and accrue a liability when contract holdbacks are recognized

- ✓ Budgetary (USSGL Transaction Code B302)
 - i. Purpose. This entry moves the obligation from the Undelivered Orders to Delivered Orders Unpaid to indicate that delivery has been made and record the accounts payable.
 - ii. Impact. Decreases Undelivered Orders and increases Delivered Orders Unpaid accounts. (see Unfunded Payables paragraph)
- ✓ Proprietary (USSGL Transaction Code B302 simultaneously with B134)
 - i. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.
 - ii. Impact. Increases the expense and/or asset and accounts payable accounts.

K. To record the reclassification of expended balances held back from contractors from accounts payable

- ✓ Budgetary None
- ✓ Proprietary (USSGL Transaction Code D306)
 - i. Purpose. To reclassify the holdbacks from accounts payable to contract holdbacks
 - ii. Impact. Decreases the accounts payable and increases contract holdbacks.

L. To record appropriations used this fiscal year.

- ✓ Budgetary (USSGL Transaction Code B134)
 - iii. Purpose. None – No Budgetary Entry
 - iv. Impact. None
- ✓ Proprietary (USSGL Transaction Code B134)
 - i. Purpose. The entry made recognizes the Expended Appropriations. This transaction does not stand alone. This transaction is not recorded by special or non-revolving funds trust funds, with the exception 1) special funds that receive appropriation or allocation transfers general fund appropriated Treasury Appropriation Fund Symbols (TAFS), or 2) special or trust funds that receive amounts appropriated from the General Fund of the Treasury via Treasury Appropriation Warrant.
 - ii. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

M. To record an obligation and accounts payable in an unexpired appropriation for a valid bill related to a cancelled appropriation.

- ✓ Budgetary (USSGL Transaction Code B314)
 - i. Purpose. To recognize the amount to be paid from current year funds for cancelled appropriations.
 - ii. Impact. Decreases Allotments – Realized Resources and/or Unobligated Funds Exempt From Apportionment and increases the Delivered Orders Unpaid.

- ✓ Proprietary (USSGL Transaction Code B314)
 - i. Purpose. The entry made recognizes the delivery of a good or service and records the legal liability of the organization. Special consideration should be given to the recording of an asset or expense.
 - ii. Impact. Increases the expense and/or asset and contract holdbacks accounts.

N. To record appropriations used this fiscal year. To be recorded with any current-year recognition of goods and services received.

- ✓ Budgetary (USSGL Transaction Code B134)
 - i. Purpose. None – No Budgetary Entry
 - ii. Impact. None

- ✓ Proprietary (USSGL Transaction Code B134)
 - i. Purpose. The entry made recognizes the Expended Appropriations. This transaction does not stand alone. This transaction is not recorded by special or non-revolving funds trust funds, with the exception 1) special funds that receive appropriation or allocation transfers general fund appropriated Treasury Appropriation Fund Symbols (TAFS), or 2) special or trust funds that receive amounts appropriated from the General Fund of the Treasury via Treasury Appropriation Warrant.
 - ii. Impact. Decreases the Advances to Others and increases Operating Expense / Program Costs and/or Assets, Nonproduction Costs, and Account Payable accounts.

O. To record in the cancelled appropriation the removal of the cancelled payable upon receipt of a valid bill. The budgetary entry reduces the balance of authority that remains upon cancellation.

- ✓ Budgetary (USSGL Transaction Code B316)
 - i. Purpose. To decrease the Cancelled Authority and the Total Actual Resources – Collected.
 - ii. Impact. Decreases Cancelled Authority and the Total Actual Resources Collected.

- ✓ Proprietary (USSGL Transaction Code B316)

- i. Purpose. To remove the amount recorded as a contract holdbacks prior to the cancellation of the fund.
- ii. Impact. Decreases Contract holdbacks from Cancelled Appropriations and Future Funded Expense.

VI. REPORTING RESPONSIBILITIES

Reporting Networks. The MOCAS Accounts Payable Report aligns the appropriations, including the TI97 accounts at the four-digit limit level, to a specific DoD Organization based on the appropriation tables i.e., Master Appropriation Reference Table (MART-Air Force), Centralized Master Edit Table (CMET- Navy) and Headquarters Accounting and Reporting System (HQARS- Army) from the three Treasury reporting DFAS Networks. The DoD Organizations that are used by MOCAS are limited to Army, Air Force, DLA and the Navy. The accounting networks responsible for the DoD Component general funds should only record the MOCAS accounts payable amounts for those specific Treasury Indexes (i.e., TI 17, TI57 and TI21). In addition, the accounting networks should record the MOCAS accounts payable amounts for their Military Service Working Capital Funds. The Defense Agencies – Indianapolis Operations Budget Execution and Reports Division (BERD) will record the MOCAS accounts payable amounts for the Defense TI97 General Fund accounts. The following table depicts the alignment of responsibility for recording MOCAS accounts payable.

<u>Service Codes</u>	<u>DoD Organization</u>	<u>DFAS Network</u>
1 or 5	Army (Includes TI 21 & USACE Only*)	Indianapolis
2 or 6	Air Force (TI 57 Only)	Denver
4 or 8	Navy (TI17 Only)	Cleveland/Kansas City
All	All TI 97 General Funds Accounts (To include Service Codes 3 and 7)	Defense Agencies – Indianapolis BERD

*All entities granted a waiver should coordinate their exempted appropriations/limits and communicate with BERD so that the exclusions are reflected in the monthly MOCAS accounts payable recording and reporting.

TI 97 Non-Military Service Working Capital Funds. The TI97 Working Capital Funds (WCF) responsibility is aligned to the supporting DFAS accounting office. The following table depicts the alignment of responsibility for recording the MOCAS accounts payable amounts for the TI97 WCF.

<u>DDRS Reporting Entities</u>	<u>DFAS Network</u>
Corporate Information Management	Columbus
Defense Commissary Agency	Columbus
Defense Finance and Accounting Service	Columbus
Defense Information Systems Agency	Cleveland
Defense Logistics Agency	Columbus
Defense Security Service	Denver
Defense Technical Information Center	Columbus
Headquarters Account, Comptroller	Defense Agencies Indianapolis
Joint Logistics Systems Center	Denver
Management Systems Support Office	Columbus
Counter Intelligence Field Activity	Columbus
US Transportation Command	Denver

Reporting Level. In an effort to report the MOCAS accounts payable for each DoD Component, adjustments should be recorded at Fiscal Year, Basic Symbol, for general / appropriated funds and TI 97 Working Capital Funds. For all TI97 General Funds, accounts payable adjustments should be posted at Fiscal Year, Basic Symbol and Limit (4 digit level ONLY). Recording the MOCAS adjustments at transaction level is permissible provided the entry impacts the customer, depending on the fund identified above, at the proper reporting level. The accounts payable amounts should be reflected in all budgetary reports, i.e. Statement of Budgetary Resources. In addition, these amounts should also be reflected in the related financial statements, i.e. Balance Sheet, Results of Operations, etc., for each reporting period.

Invalid Limits. Invalid limits prevent the proper alignment of MOCAS accounts payable amounts to the correct SF 133 reports. The Defense Agencies – Indianapolis Operations Budget Execution and Reports Division (BERD) and the DFAS accounting office supporting the DoD Component responsible for establishing limits outside of the Treasury/OUSD limits should work together to ensure proper reporting of the MOCAS accounts payable. The DFAS office should provide the crosswalk necessary to link the additional funds control limit to the Treasury/OUSD limit. However, for erroneous limits, the BERD should work with the DFAS Columbus, Financial Control Division, Master Appropriation Unit, to resolve and prevent future reporting of the erroneous limit.

Control for Ensuring all MOCAS Accounts Payables are Recorded. A method for monitoring of the recording of the MOCAS accounts payable amounts must exist to ensure the completeness of the accounts payable. In order to accomplish this, each reporting entity, as identified in DoD's financial statement Defense Departmental Reporting System (DDRS), should communicate to the DFAS Standards and Compliance Directorate, Accounting Mission Area, Accounts Payable, an analysis of its accounts payable. The vehicle to be used for this purpose is the Monthly Accounts Payable Report (MAPR). The MAPR depicts - the sources of accounts payable, the related appropriation and reporting entity, the comparison of commercial pay reported accounts payable to accounts payable reported on the financial reports and the aging of accounts payable by entitlement system.

The DFAS accounting offices are primarily responsible for reconciling and validating the accounts payable amounts from the source entitlement systems to the accounting systems. The MOCAS accounts payable reported amounts on the MAPR by the reporting entities will be compared to the monthly MOCAS Accounts Payable Report to ensure completeness. Any discrepancies between the MOCAS reported amounts on the MAPR and the amounts on the monthly MOCAS Accounts Payable Report must be documented. The accounting systems that have a waiver from using MOCAS as a source for accounts payable should identify the amounts from the MOCAS Accounts Payable Report that is applicable to those systems. The MAPR instructions will be provided at a later date, but prior to its scheduled implementation date of December 2008.

VII. ESTIMATION ACCRUALS: MOCAS DOWN-TIME, CONTRACT HOLDBACKS and MULTI-ACRN CLINs

Generally Accepted Accounting Principles referenced in the Statements of Federal Financial Accounting Standards (SFFAS) #1, par.77, require estimates of accounts payable amounts when an entity accepts title to goods, and amounts are not available for recording during the accounting period. As such, estimates are required for all MOCAS contract deliveries during the reporting period for which the amounts are not readily available for recording in the accounting records before the financial reports are generated. Specifically, estimates should be developed and recorded for Multi-ACRN CLINs and transactions occurring during down-time. MOCAS down-time events occur as a result of month-end processing cycles, regional transfers, and federal holidays.

MOCAS estimates are required for the following three circumstances:

- A. Accounts Payable transactions occurring during down-time (reflect as “Accounts Payable – Public on balance sheet)
- B. Contract Holdbacks transactions occurring during down-time (reflect as “Other Liabilities – Public on balance sheet)
- C. Liabilities associated with Multi-ACRN CLINs for the current month (reflect as “Accounts Payable – Public on balance sheet)

Estimated liability amounts related to the above are applicable to balance sheet line items classified as “Accounts Payable” (Public) and “Other Liabilities” (Public) and should be recorded in addition to the monthly MOCAS Accounts Payable Report, ensuring completeness of accounting records.

An analysis of several estimation methods was performed to determine which would be most effective and efficient estimating methods for the three MOCAS liability categories. Although the responsibility for selecting and maintaining the estimation method is clearly management’s, the Department of Defense Inspector General’s Office, Quantitative Methods Division, assisted DFAS in analyzing the potential estimation methods by evaluating the characteristics of the MOCAS data and assessing the method’s effectiveness in estimating liabilities.

The estimation method described below was selected based on its ease of application and effectiveness in estimating amounts for accounts payable determined by comparing the estimates to actual amounts. The methods provide a standard DFAS approach for establishing liability amounts. The method chosen consider the impact of the current month’s accounts payable activity, the down time days from the previous month that roll over into the current month’s liabilities, and the work effort to establish monthly estimates. This is the standard DFAS method to use when posting the monthly MOCAS accruals in order to ensure the proper liability amounts are reported for both budgetary and proprietary purposes at the reporting levels described in Section IV.

A. Accounts Payable Estimates for Down-Time. The formula for estimating the accounts payable amounts for down time days will be standard across the Networks. The prevalidation

process will not affect estimating for down-time because MOCAS does not send out prevalidation requests during down-time days. The following formulas and explanation are applicable to the estimation of accounts payable amounts for monthly down time.

Estimation Formula for Each Reporting Entity Described in Section IV

Monthly Estimate = (Daily Average * Multiplied By Number of Down-Time Days)**

***Daily Average Amount Using Monthly MOCAS Report**

Time
 Daily Average = ((Net Accounts Payable⁽¹⁾ LESS Estimated Amount for Down –
 Days Recorded in Previous month) Divided by Business Days⁽²⁾ **in the Current
 Month)**

(1) Net Accounts Payable

Net Accounts Payable = (ACRN Total less Recoupment)

(2) Business Days

Business Days = (Weekdays in Month minus Holidays minus
 Current Month Down Time Days **)

****Down Time Days** - Will Be Communicated by Accounts Payable High
 Performing Organization (HPO)

Down Time Days = (Weekdays that Business Transactions are Excluded from
 the Monthly MOCAS Accounts Payable Reports)

B. Contract Holdback Estimates for Down-Time. Monthly estimates of the Contract Holdback liability is an accounting requirement because liabilities have been incurred and their amounts are not available for recording during the accounting period. The estimated amounts for Contract Holdback liabilities are classified as “Other Liabilities” in the financial reports. The prevalidation process will not affect estimating for down-time because MOCAS does not send out prevalidation requests during down-time days. The following formula and descriptions are applicable for estimating Contract Holdbacks.

Estimation Formula for Each Reporting Entity Described in Section IV

Monthly Estimate = (Daily Average[#] Multiplied By Number of Down-Time Days^{##})

#Daily Average Amount Using Monthly Holdback Report

Daily Average = ((Net Holdbacks⁽¹⁾ LESS Estimated Amount for Contract Holdbacks Recorded in Previous month) Divided by Business Days⁽²⁾)

(1) Net Holdbacks

Net Holdbacks = (Holdbacks)

(2) Business Days

Business Days = (Weekdays in Month minus Holidays minus Current Month Down Time Days^{**})

##Down Time Days - Will Be Communicated by the Accounts Payable HPO

Down Time Days = (Weekdays that Business Transactions are Excluded from the Monthly MOCAS Accounts Payable Reports)

C. Multiple Accounting Classification Reference Number (ACRN) Contract Line Item Number (CLIN). The Defense Federal Acquisition Regulations (DFAR) establishes the requirements for contract administration and establishing the contract line item information that includes the accounting citation. Specific requirements are provided for identifying the items purchased to its related funding sources. This is accomplished by having a direct relationship between the CLIN and ACRN, a one-to-one relationship. When a one-to-one relationship exists, the accrual process can proceed as usual because notification of receipt in MOCAS establishes an accounts payable record for the related CLIN and ACRN, or line of accounting. Although the DFAR states that each CLIN shall reference a single ACRN, it also establishes exceptions to the rule. The exceptions are permissible when:

1. A single, non-severable deliverable to be paid for with R&D or other funds properly incrementally obligated over several fiscal years in accordance with DoD policy;
2. A single, non-severable deliverable to be paid for with different authorizations or appropriations, such as in the acquisition of a satellite or the modification of production tooling used to produce items being acquired by several activities; or
3. A modification to an existing contract line item for a non-severable deliverable that results in the delivery of a modified item(s) where the item(s) and modification are to be paid for with different accounting classification citations.

When the above exceptions are exercised, obstacles are created that prevent timely posting of accounts payable transactions to the accounting records due to delays in identifying the

appropriate lines of accounting. The exceptions are applicable to non-severable items only. Examples of non-severable items are the purchases of a satellite or spy plane that provide benefits to and are funded by multiple organizations.

Recording an accounts payable transaction for a non-severable item poses an accounting treatment dilemma since more than one DoD Component is supplying funds for payment to a contractor. The DoD Component who should record the liability is not able to do so until the invoice is received and manual research of the payment instructions within the contract is performed. For the accounts payable reporting process, this creates a delay in the process and contributes to untimely and incomplete reporting of the liabilities because these amounts are not captured on the monthly MOCAS Accounts Payable Reports. As a result, a monthly estimate of the multi-ACRN CLINs must be established for those reporting entities that are receiving MOCAS disbursements related to non-severable items. In order to determine your monthly accrual estimates, each DFAS Network will access the DFAS Accounts Payable Eportal and execute the model for a desired month. The model will yield the estimates relating to the appropriations for its respective Customer(s).

Simple Exponential Smoothing. To determine the estimates for multi-ACRN CLINs, historical data from the MOCAS Shared Data Warehouse is used to forecast amounts to record for both budgetary and proprietary financial reports. The estimation process used must satisfy two qualities.

- ✓ A “goodness of fit” relative to the behavior of the data
- ✓ A low degree of difficulty to implement and maintain relative to an acceptable level of benefit.

The simple exponential smoothing method proved to possess those qualities for effectively estimating accounts payable amounts for multi-ACRN CLINs. This method weighs actual accruals and forecasted accruals of previous months CLIN accounts payable transactions and applies that to the current month’s estimate for financial reporting purposes. Each estimate is a weighted average of the current observation and the smoothed value of previous observations. The weights decline exponentially looking back over time, giving greater consideration to the most recent events or transactions.

The model for simple exponential smoothing is:

$$\begin{aligned} \text{Monthly MOCAS Estimate} &= (\alpha \text{ times previous month's disbursement amount}) \\ &\quad \text{plus} \\ &\quad ((1 - \alpha) \text{ times previous month's estimate}) \end{aligned}$$

Where “ α ” means “Alpha” and represents a weight expressed as a percent that helps minimize wide fluctuations in the data range. Quantitatively, this concept is known as a smoothing constant.

D. Data Sources for Estimated Amounts

MOCAS Monthly Accounts Payable Report As the Source for Down-Time Days.

The current month MOCAS Accounts Payable Report is the source used to develop down-time day estimates for both accounts payable and contract holdbacks. The Access Database placed on the DFAS Accounts Payable Eportal will utilize these reports in developing estimates for the down-time days.

In addition to developing the estimates, the monthly MOCAS Accounts Payable Report will be used to develop prevalidation ratios for General Fund and Working Capital Fund for each Military Service and Other Defense Organizations.

Shared Data Warehouse (SDW) As the Source for Estimating Multi-ACRN CLINs. SDW is an Oracle Database that is used to store contract administration and payment data collected from MOCAS. All contract data from MOCAS are downloaded to SDW on a daily basis. Subsequent data extracts provide historical data necessary for analysis and estimates. All DCMA and DFAS employees can request access to SDW through their respective TASOs.

The historical data from SDW was used to develop and test the estimation method established for multi-ACRN CLINS, and will continue to be the source for the monthly multi-ACRN CLIN estimations. The Defense Contract Management Agency (DCMA) has created a controlled process for obtaining multi-ACRN CLIN data. The Access Database placed on the DFAS Accounts Payable Eportal will utilize this data in producing the estimates to record and report.

E. Reversing the Accounts Payable Journal Entries. As discussed in Section VI, Reporting Responsibilities, all amounts from the MOCAS Accounts Payable Report to include estimates should be recorded, at Fiscal Year, Basic Symbol, for general / appropriated funds and TI 97 Working Capital Funds. For all TI97 General Funds, accounts payable adjustments should be posted at Fiscal Year, Basic Symbol and Limit (4 digit level ONLY). Recording the MOCAS adjustments at transaction level is permissible provided the entry impacts the customer at the four-digit limit. Once the MOCAS accounts payable amounts are recorded and reported in the financial records, all MOCAS accrual transactions must be reversed prior to the start of the next accounting period. The reversal entry should be established from the documentation supporting the initial MOCAS accrual entry for the current accounting period and restore the financial records to their original state. All documentation supporting the initial MOCAS accrual and reversal entries should be retained in accordance with requirements discussed in Section II, General - Retention of the Monthly MOCAS Reports as Support for Budgetary and Proprietary Report.

SF 133 Report on Budget Execution and Budgetary Resources

September 2006

Final

Agency: MARINE CORPS TI 17 - AT17AC_1106

Appropriation Title and Symbol: Operations and Maintenance, Marine Corp 17*1106

	XXXX/XXXX	2006/2006	2005/2005	2004/2005	2004/2004	2003/2003
BUDGETARY RESOURCES						
1. Unobligated Balance	\$391,380.18		\$4,914,773.74		\$46,330,133.12	\$19,917,784.80
A. Brought forward, October 1 (+/-)	\$391,380.18		\$4,914,773.74		\$46,330,133.12	\$19,917,784.80
2. Recoveries of Prior Year Unpaid Obligations:			\$794,097,613.32	\$41,616,918.48	\$130,028,636.70	\$71,113,337.11

Process Validation Checklists

Process Validation Checklist – Monthly GL Team

**Financial Statement Compilation Process
Monthly Process Validation Checklist
For the Month Ending _____**

Step No.	Task	Frequency	Performed (Y/N)	Responsible Owner (name/title)	Date	Supporting Documents (Y/N)	Supporting Document Description	Expected Audit Documentation	Approval (Y/N)	Responsible Approver	Comments
Balancing SABRS General Ledger											
1	Reconcile SABRS general ledger to detail transaction history file	Monthly		Name/Title				- Documentation indicating reconciliation of the SABRS general ledger to detail transaction history file. - Evidence of review and approval			
2	Print PRD Balance Reports to identify out of balance conditions	Monthly		Name/Title				- PRD Balance Reports: - PRDBALW1 - PRDBALW3 - PRDBALW5 - PRDBALIK - PRDBAL3C			
3	Research through detail transaction history file	Monthly		Name/Title				- Transaction History File			
4	Correct errors/out of balance conditions resulting from SABRS general ledger balancing reports	Monthly		Name/Title				- Log of Journal Vouchers indicating the correction including evidence of review and approval			
5	Automatic adjustments made to SABRS General Ledger Daily (or as requested)	Monthly		Name/Title				- Log of daily adjustments made to SABRS General Ledger			
6	Reconcile Proprietary accounts to Budgetary accounts	Monthly		Name/Title				- Documentation indicating reconciliation of Proprietary accounts to Budgetary accounts - Evidence of review and approval			
7	Reconcile Occurrences	Monthly		Name/Title				- Documentation indicating that Occurrences have been reconciled. - Evidence of review and approval			
8	Attach SABRS Trial Balance to DDRS-B line of accounting	Monthly		Name/Title				- SABRS TB with associated line of accounting			
9	Research and reconcile any errors or suspended lines	Monthly		Name/Title				- Documentation indicating errors or suspended lines have been reconciled. - Evidence of review and approval			
10	Run automated balance check on Trial Balance in DDRS-B	Monthly		Name/Title				- Confirmation of balance check results.			
11	Research and correct any out of balance conditions noted	Monthly		Name/Title				- Documentation indicating the correction and research of any out of balance conditions noted. - Evidence of review and approval			
12	Extract Trial Balance feed from SABRS	Monthly		Name/Title				- Trial Balance feed from SABRS			
13	Snapshot trial balance feed and save	Monthly		Name/Title				- Snapshot of trial balance feed			
14	Extract transaction detail supporting trial balance	Monthly		Name/Title				- Extracted transaction detail that supports the trial balance

Process Validation Checklist – Monthly Budget Execution

Financial Statement Compilation Process
 Monthly Process Validation Checklist
 For the Month Ending _____

Step No.	Task	Frequency	Performed (Y/N)	Responsible Owner (name/title)	Date	Supporting Documents (Y/N)	Supporting Document Description	Expected Audit Documentation	Approval (Y/N)	Responsible Approver	Comments
DDRS-B											
1	Reconcile DCAS transaction totals to disbursements in GL account 4902X and collections in GL account 4252X17.	Monthly		Name/Title				- Documentation indicating that DCAS transaction total have been reconciled to the disbursements in GL account 4902X and collections in GL account 4252X17. - Evidence of review and approval			
2	Compare SABRS GL account 4119, 4170 4190 to Warrant and Transfer Documents.	Monthly		Name/Title				- Documentation of reconciliation - Evidence of review and approval			
3	Make adjusting entry into SABRS general ledger to correct disbursements or authorizations, if needed.	Monthly		Name/Title				- Journal Voucher indicating the adjusting entry into SABRS general ledger to correct disbursements or authorizations - Evidence of review and approval			
4	Run SF-133 in SMARTS for each appropriation reported by Marine Corps Compare to SF-133's produced in DDRS-B	Monthly		Name/Title				- SF-133 in SMARTS - SF-133 in DDRS-B			
5	If reconciling errors exist, adjust DDRS-B to agree with SMARTS	Monthly		Name/Title				- Documentation indicating reconciliation of SF-133 from DDRS-B to SF-133 from SMARTS. - Evidence of review and approval			
6	Adjustments for abnormal accounts payable	Monthly		Name/Title				- Journal Voucher indicating adjustment of abnormal accounts payable - Evidence of review and approval			
7	Adjustments for late registers	Monthly		Name/Title				- Journal Vouchers for Late Registers - Evidence of review and approval			
8	Adjustments to post refunds receivables	Monthly		Name/Title				- Journal Vouchers indicating adjustments to post refunds receivables - Evidence of review and approval			
9	Adjustments to allocate undistributed transactions	Monthly		Name/Title				- Journal Vouchers indicating adjustments to allocate undistributed transactions - Evidence of review and approval			
10	Produce Budgetary Reports for each Appropriation	Monthly		Name/Title				- Budgetary Reports for each Appropriation: - SF-133 Report on Budget Execution - AR (M) 725Report on Reimbursements			
11	Complete Monthly Report Checklist	Monthly		Name/Title				- Finalized Monthly Report Checklist - Evidence of review and approval			
12	Remit Monthly Report Checklist, RECON Spreadsheet and Reports to General Ledger Division	Monthly		Name/Title				- SF-133 Report on Budget Execution - AR (M) 725Report on Reimbursements - Monthly Report Checklist - RECON Spreadsheet			
13	Print and review Trial Balance extract from DDRS-B for each appropriation	Quarterly		Name/Title				- Trial Balance extract from DDRS-B for each appropriation with an authorized reviewer(s) sign-off			
14	Research and correct any anomalies identified	Quarterly		Name/Title				- Documentation indicating correction of any anomalies identified - Evidence of review and approval			
15	Perform Report 8 Reconciliation Process	Monthly		Name/Title				- Documentation indicating reconciliation of Report 8 - Evidence of review and approval

Process Validation Checklist – Quarterly Budget Execution

Financial Statement Compilation Process
 Quarterly Process Validation Checklist
 For the Period Ending _____

Step No.	Task	Frequency	Performed (Y/N)	Responsible Owner (name/title)	Date	Supporting Documents (Y/N)	Supporting Document Description	Expected Audit Documentation	Approval (Y/N)	Responsible Approver	Comments
DDRS-B											
1	Reconcile DCAS transaction totals to disbursements in GL account 4902X and collections in GL account 4252X17.	Monthly		Name/Title				- Documentation indicating that DCAS transaction total have been reconciled to the disbursements in GL account 4902X and collections in GL account 4252X17. - Evidence of review and approval			
2	Compare SABRS GL account 4119, 4170 4190 to Warrant and Transfer Documents.	Monthly		Name/Title				- Documentation of reconciliation - Evidence of review and approval			
3	Make adjusting entry into SABRS general ledger to correct disbursements or authorizations, if needed.	Monthly		Name/Title				- Journal Voucher indicating the adjusting entry into SABRS general ledger to correct disbursements or authorizations - Evidence of review and approval			
4	Run SF-133 in SMARTS for each appropriation reported by Marine Corps Compare to SF-133's produced in DDRS-B	Monthly		Name/Title				- SF-133 in SMARTS - SF-133 in DDRS-B			
5	If reconciling errors exist, adjust DDRS-B to agree with SMARTS	Monthly		Name/Title				- Documentation indicating reconciliation of SF-133 from DDRS-B to SF-133 from SMARTS. - Evidence of review and approval			
6	Adjustments for abnormal accounts payable	Monthly		Name/Title				- Journal Voucher indicating adjustment of abnormal accounts payable - Evidence of review and approval			
7	Adjustments for late registers	Monthly		Name/Title				- Journal Vouchers for Late Registers - Evidence of review and approval			
8	Adjustments to post refunds receivables	Monthly		Name/Title				- Journal Vouchers indicating adjustments to post refunds receivables - Evidence of review and approval			
9	Adjustments to allocate undistributed transactions	Monthly		Name/Title				- Journal Vouchers indicating adjustments to allocate undistributed transactions - Evidence of review and approval			
10	Produce Budgetary Reports for each Appropriation	Monthly		Name/Title				- Budgetary Reports for each Appropriation: - SF-133 Report on Budget Execution - AR (M) 725 Report on Reimbursements			
11	Complete Monthly Report Checklist	Monthly		Name/Title				- Finalized Monthly Report Checklist - Evidence of review and approval			
12	Remit Monthly Report Checklist, RECON Spreadsheet and Reports to General Ledger Division	Monthly		Name/Title				- SF-133 Report on Budget Execution - AR (M) 725 Report on Reimbursements - Monthly Report Checklist - RECON Spreadsheet			
13	Print and review Trial Balance extract from DDRS-B for each appropriation	Quarterly		Name/Title				- Trial Balance extract from DDRS-B for each appropriation with an authorized reviewer(s) sign-off			
14	Research and correct any anomalies identified	Quarterly		Name/Title				- Documentation indicating correction of any anomalies identified - Evidence of review and approval			
15	Perform Report 8 Reconciliation Process	Monthly		Name/Title				- Documentation indicating reconciliation of Report 8 - Evidence of review and approval

Process Validation Checklist – Quarterly AFS

**Financial Statement Compilation Process
Quarterly Process Validation Checklist
For the Period Ending _____**

Step No.	Task	Frequency	Performed (Y/N)	Responsible Owner (name/title)	Date	Supporting Documents (Y/N)	Supporting Document Description	Expected Audit Documentation	Approval (Y/N)	Responsible Approver	Comments
DFAS-AFS											
1	Upload DDRS-B trial balance and budgetary import sheets to DFAS-AFS	Quarterly		Name/Title				- Documentation (i.e., screenshot) indicating that the DDRS-B Trial Balance and budgetary import sheets have been uploaded into DDRS-AFS from DDRS-B		Accountant	This task is not completed until all BE reports are finalized in DDRS-B.
2	Reconciliations run in DDRS-AFS	Quarterly		Name/Title				- Documentation indicating that reconciliations have been run in DDRS-AFS - Evidence of review and approval		Accountant	This task is performed on a daily basis after the TB is uploaded.
3	Research and correct errors and repeat upload	Quarterly		Name/Title				- Evidence of research and corrections - Evidence of review and approval before the repeat of the upload		Accountant	
4	Perform and document data call sanity checks	Quarterly		Name/Title				- Data Call Sanity Checks documentation		Accountant	
5	Adjustments made for data calls	Quarterly		Name/Title				- Journal Vouchers indicating adjustments been made for data calls - Evidence of review and approval		Accountant	
6	Trading Partner adjustments	Quarterly		Name/Title				- Journal Vouchers indicating adjustments been made for Trading Partner adjustments - Evidence of review and approval		Accountant	
7	Perform Manual Fund Balance with Treasury Reconciliation	Quarterly		Name/Title				- Documentation indicating reconciliation of Manual Fund Balance with Treasury - Evidence of review and approval		Accountant	The MRD reports are cross checked for each TI 17 Appropriation.
8	Prepare Draft Statements	Quarterly		Name/Title				- Draft Statements - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements		Accountant	
9	Prepare Footnote Disclosures	Quarterly		Name/Title				- Footnote Disclosures		Accountant	3rd & 4th Quarter
10	Review Draft Statements (DFAS-AFS)	Quarterly		Name/Title				- Authorized RFA reviewer(s) sign off of Draft Statements: - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements		Accountant	Each statement is balanced for accuracy.
11	Remit Draft Statements to RFA for review (RFA)	Quarterly		Name/Title				- Authorized reviewer(s) sign off of Draft Statements: - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements		Accountant	The Balance analysis is prepared by AFS and HQMC and submitted for review. The other statements are in DDRS-AFS and rolled into the DONs figures for government wide reporting.

**Financial Statement Compilation
Business Process Memorandum
(As of 05/15/2008)**

Process Overview	
Process Name:	Financial Statement Compilation
Process Description:	<p>The United States Marine Corps (USMC) prepares General Fund Financial Statements quarterly and at year end in coordination with Defense Finance and Accounting Service (DFAS). The Marine Corps General Funds are Congressional appropriations to include personnel, operations, maintenance, research and development, and procurement. The statements are a reflection of the General Fund financial activity.</p> <p>The Marine Corps financial statement preparation process involves (1) producing a trial balance from the final Standard Accounting, Budgeting, and Reporting System (SABRS) general ledger file, (2) adjusting the general ledger file, (3) preparation of the monthly budgetary submissions in the Defense Departmental Reporting System – Budgetary (DDRS-B) application and, (4) preparing quarterly financial statements in the Defense Departmental Reporting System – Audited Financial Statements (DDRS-AFS) application.</p> <p>The trial balance is produced from the SABRS general ledger file and imported into the Defense DDRS-B. DDRS-B is used to produce monthly budgetary reports. The trial balance from DDRS-B is then uploaded into the DDRS-AFS. DDRS-AFS is used to produce the quarterly financial statements, trend analysis, and notes to the financial statements.</p> <p>DFAS-Kansas City (KC) receives USMC account balances from the SABRS general ledger on a monthly basis. The information is stored in the DDRS-AFS. DDRS-AFS is the financial statement system developed to produce standardized statements for all agencies within the Department of Defense. At the end of the quarter and at the end of the fiscal year, DFAS-KC compiles this information to create the financial statements for the Marine Corps. Once the statements are produced they are submitted to the USMC Accounting and Financial Systems Branch (RFA) for review. RFA notifies DFAS-KC of any necessary adjustments for the reporting period. DFAS-KC processes the adjustments and generates statements reflecting the adjustments.</p>
Process Owner(s):	USMC Programs and Resources Department (P&R), RFA
Sub Process Owner(s):	DFAS – KC (Note: During Fiscal Year 2008, the responsibilities of DFAS-KC will be transferred to DFAS-Cleveland.)

Laws, Regulations, Policies and Procedures:	<ul style="list-style-type: none"> • Department of Defense (DoD) Financial Management Regulation (FMR), Volume 6A, Chapter 1, <i>Reporting Policy and Procedures</i>, provides guidance to the DoD Components on the reports that must be produced for submission to DFAS, Office of the Secretary of Defense (OSD), Office of Management and Budget (OMB), and the Department of the Treasury. • Public Law 101-576, the <i>Chief Financial Officers (CFO) Act of 1990</i>, as amended by Public Law 103-356, the <i>Government Management Reform Act of 1994</i>, requires the annual preparation and audit of financial statements for appropriated funds of executive departments and agencies, as well as government corporations. • OMB Circular A-136, <i>Financial Reporting Requirements</i>, establishes a central point of reference for all Federal financial reporting guidance for Executive Branch departments, agencies, and entities required to submit audited financial statements, interim financial statements, and Performance and Accountability Reports (PAR) • The <i>Budget Enforcement Act of 1990</i> was passed by Congress and signed by the President to enforce the agreed upon budget levels for a fiscal year. 31 U.S.C. 1341 and 1517(A)(1), the <i>Anti-Deficiency Act</i>, establishes criminal penalties for knowingly over-obligating or over-expending budgetary resources. The OMB has instituted budgetary reporting requirements, A-11 <i>Preparation and Submission of Budget Estimates</i>, A-34 <i>Instructions on Budget Execution</i>, to help ensure that the acts are not violated and that budgetary accounting is properly performed.
--	---

Key Personnel Interviewed	
Job Title	Area of Responsibility
Supervisor	DFAS-KC General Ledger (GL) Division
Supervisor	DFAS-KC Reporting and Analysis Division
Branch Chief	DFAS-KC Audited Financial Statements (AFS) Division

Information Systems Relevant to the Process	
System Name	Description
SABRS	SABRS is designed to standardize accounting, budgeting and reporting procedures for all general funds accounted for by the Marine Corps (which includes: Marine Forces, Posts and Stations, Reserves units, Marine Corps Districts, and elements), DFAS-KC, DFAS-Japan, and DFAS-Pacific. SABRS provides a direct automated link between the User and the financial system allowing the User to receive on-line real time update and inquiry capabilities and batch update with reports within twenty-four (24) hours.

<p>DDRS</p>	<p>DDRS is designed to standardize the DoD departmental reporting process and produce departmental financial statements based on the United States Standard General Ledger (USSGL) and standard attributes.</p> <p>The DDRS-B application is a reporting tool designed to produce budgetary reports and their respective audit trails.</p> <p>The DDRS-AFS application is a reporting tool designed to facilitate the preparation and audit of all DoD audited financial statements, management reports, required supplementary information reports, and trend analysis reports.</p>
--------------------	--

<p>Financial Statement Lines Impacted</p>	
<p>Financial Statement *</p>	<p>Description</p>
<p>Balance Sheet</p>	<p>The Marine Corps balance sheet presents resources owned or managed by the Marine Corps (assets), amounts owed by the Marine Corps (liabilities) and residual amounts retained by the Marine Corps that comprise the difference (net position).</p> <p>The assets section of the balance sheet includes: Intragovernmental Assets; Cash and Other Monetary Assets; Accounts Receivable-Net; Loans Receivable; Inventory and Related Property-Net; General Property, Plant, and Equipment-Net; Investments; and Other Assets.</p> <p>The liabilities section of the balance sheet includes: Intragovernmental Liabilities; Accounts Payable; Military Retirement and Other Federal; Employment Benefits; Environmental and Disposal Liabilities; Loan Guarantee Liability; and Other Liabilities.</p> <p>The net position section of the balance sheet includes: Unexpended Appropriations-Earmarked Funds; Unexpended Appropriations-Other Funds; Cumulative Results of Operations-Earmarked Funds; and Cumulative Results of Operations-Other Funds.</p>
<p>Statement of Budgetary Resources (SBR)</p>	<p>The SBR presents the budgetary resources available to the Marine Corps and the outlay of budgetary resources for the fiscal year. Budgetary resources encompass new budget authority and resources available to cover liabilities for specified purposes in a given year. Available budgetary resources include:</p> <ol style="list-style-type: none"> (1) all budgetary resources available for obligation; (2) all indefinite budget authority with appropriations available to be converted to budgetary resources; (3) Federal account receivables for which an obligation against the ordering account is available; and (4) trust fund resources for which its collections are available to be converted into budgetary resources.

*** Additionally, the USMC produces the Statement of Financing, Statement of Changes in Net Position, and the Statement of Net Cost. For the purpose of this segment, the scope will include only the Balance Sheet and Statement of Budgetary Resources.**

Sub Process Narrative

FS-1.1 SABRS: Reconciling the SABRS General Ledger

Marine Corps GL information is captured within SABRS. SABRS is designed to ensure that Marine Corps financial reporting meets the fiduciary standards set forth by the OMB, United States Treasury Department, Government Accountability Office (GAO), and the DoD. SABRS captures financial data from the installation level up to Headquarters, Marine Corps (HQMC).

OWNER

STEPS

DFAS-KC GL Division

1.1.1

Generate the SABRS Production Balancing (PRD) Reports

Beginning on the first day after the end of the quarter, PRD Balancing Reports are generated from the SABRS GL which reconciles commitments, obligations, expenses and liquidations by balancing the GL to the History file, Active file and Spend file.

DFAS-KC GL Division

1.1.2

Inspect SABRS PRD Reports

SABRS PRD Reports are inspected to determine if an out of balance condition exists.
 If there are out of balance conditions reported, proceed to step 1.1.3.
 If there are no out of balance conditions reported, proceed to step 1.1.8.

Control Point	Control Objective	Control Activity
KC 1.1.A	All required analyses are independently reviewed for appropriate assumptions, methodology, and evaluation of results. Unusual items and exceptions are identified, investigated, properly resolved, and recorded in the general ledger in the appropriate accounting period.	PRD reports are reviewed to check for out of balance conditions.

DFAS-KC GL Division

1.1.3

Download Transaction History File

The Transaction History File is downloaded from the SABRS Management and Retrieval Tools (SMARTS).

DFAS-KC GL Division

1.1.4

Compare GL to Transaction History File to determine cause

A comparison is performed between the SABRS GL and the Transaction History File to determine the cause of the out of balance condition.

If the cause of the out of balance condition is a systematic issue in SABRS, proceed to step 1.1.5.

If the cause of the out of balance condition is not a systematic issue in SABRS, proceed to step 1.1.7.

DFAS-KC GL Division 1.1.5

Send System Change Request (SCR) describing systematic error to the DFAS-KC Systems Division

If the cause is a systematic issue in SABRS, a SCR describing the error is created and sent to the DFAS-KC Systems Division to correct the systematic issue. See step 1.1.6.

DFAS-KC Systems Division 1.1.6

Perform the system change

Control Point	Control Objective	Control Activity
KC 1.1.B	Changes to the entity's financial closing and reporting process are monitored and any significant changes made are independently reviewed and approved.	System change is required to be implemented following the Change Management Process.

DFAS-KC GL Division 1.1.7

Adjust the SABRS GL to agree to Transaction History File

If the reported out of balance condition is not a systematic issue in SABRS, the SABRS GL is adjusted to agree with the Transaction File History.

In addition to the PRD Balancing Reports, the following reconciliations are being performed on the SABRS GL using retrieval files in SMARTS.

DFAS-KC Reporting and Analysis Division 1.1.8

Reconcile budgetary data to proprietary data

The proprietary data is reconciled to the budgetary data. Proprietary accounts must equal budgetary accounts. If the proprietary does not balance to budgetary, the proprietary accounts are adjusted manually.

Once the DFAS-KC Reporting and Analysis Division receives notification that the GL is in balance, the Reporting and Analysis Division uses an excel spreadsheet named RECON to capture and reconcile the SABRS GL data to Defense Cash Accountability System (DCAS) data and Program Budgeting Information System (PBIS) data..

DFAS-KC Reporting and Analysis Division 1.1.9

Populate SABRS GL data into RECON spreadsheet

The RECON spreadsheet is populated with the SABRS GL data. (This step is performed daily in order to help maintain accurate GL account data in the RECON Spreadsheet.)

DFAS-KC Reporting and Analysis Division 1.1.10

Input DCAS data into RECON spreadsheet

DCAS is a DoD cash accountability system. Cash accountability is the reporting of disbursements, reimbursements, deposits, and receipts to the US Treasury, as well as other transactions, which would impact the status of funds to the US Treasury. DCAS transaction totals are downloaded from the web at <http://dcasw.csd.disa.mil/dcasweb/>. The previous months' DCAS transaction amounts are available on the 3rd calendar day following the month. The DCAS amounts are downloaded from the web and entered into RECON spreadsheet.

DFAS-KC Reporting and Analysis Division 1.1.11

Reconcile DCAS data to SABRS GL

The DCAS total amounts are verified to the disbursements in the SABRS GL account 4902X, Treasury Disbursement, to ensure that the DCAS transactions that are posted to the GL agree to the total amounts recorded in DCAS at the month end.

Control Point	Control Objective	Control Activity
KC 1.1.C	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare DCAS data to the SABRS.

DFAS-KC Reporting and Analysis Division 1.1.12

Input Program Authorization Document (PAD) data into RECON spreadsheet

Reporting and Analysis Division retrieves the PAD data from PBIS. The authorization amounts on the PADs are compared to the SABRS GL accounts 4119, Other Appropriations Realized, and 4170, Transfers CY Authority.

DFAS-KC Reporting and Analysis Division 1.1.13

Reconcile PAD data to the SABRS GL

If there are differences identified, proceed to step 1.1.14. If there are no differences identified, proceed to step 1.2.1.

Control Point	Control Objective	Control Activity
KC 1.1.D	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the GL on a timely basis.	Reconciliation is performed to compare PAD data to SABRS GL.

DFAS-KC Reporting and Analysis Division 1.1.14

Adjust SABRS GL to correct balances

Control Point	Control Objective	Control Activity
KC 1.1.E	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – GL Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.

FS-1.2 SABRS: Producing the GL Trial Balance

The steps below outline the procedures for extracting the Trial Balance (TB) from SABRS and importing it to DDRS-B. This procedure is performed on a monthly basis.

OWNER
DFAS-KC GL Division

STEPS
1.2.1

Request the TB extract

Submit a request to the DFAS-KC Systems Division to run the protocol to extract the TB from the SABRS system.

DFAS-KC Systems Division 1.2.2

Perform data extract from SABRS

Execute “Job SF1HAA0 DDRS Reg” to perform the extract from SABRS. The extract consists of two datasets:
 - SABRS GL file records
 - SABRS undistributed records
 Review the file extract and make any necessary corrections in SABRS before the system division runs the file transfer into DDRS-B on the final extract.

DFAS-KC Systems Division 1.2.3

Extract SABRS TB

Control Point	Control Objective	Control Activity
KC 1.2.A	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – GL Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.

KC 1.2.B	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	On a monthly basis, RFA reconciles the SABRS TB to the detailed transactions in the SABRS History File to confirm that the SABRS TB was accurately produced.
----------	---	--

DFAS-KC Systems Division **1.2.4**

Crosswalk SABRS data to DDRS-B

Crosswalk procedures are performed to move the TB from SABRS to the DDRS-B format.

Control Point	Control Objective	Control Activity
KC 1.2.C	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	On a quarterly basis, RFA reconciles the DDRS-B TB to the SABRS TB to confirm that the SABRS TB was accurately and completely uploaded to DDRS-B.

FS- 1.3 DDRS-B: Adjusting the GL file

The procedures below provide documentation on how the GL file is adjusted prior to generating the monthly reports.

OWNER **STEPS**
DFAS-KC Reporting and Analysis Division **1.3.1**

Run DDRS-B balance check

DDRS-B runs a balance check on the SABRS TB.
 If the TB is in balance, proceed to step 1.3.3.
 If the TB is not in balance, proceed to step 1.3.2.

DFAS-KC GL Division **1.3.2**

Research and correct any unbalanced lines of accounting in DDRS-B and SABRS

The DFAS-KC GL Division identifies the cause of the out of balance condition and makes corrections as needed. Once corrected, they then notify the DFAS-KC Reporting and Analysis Division that the TB is balanced.

DFAS-KC Reporting and Analysis Division **1.3.3**

Perform Other Adjustments

DFAS-KC Reporting and Analysis Division performs journal vouchers (JV) to record other adjustments for the following:

- Adjustments Abnormal Accounts Payable
- Post Authority that was not received/posted into SABRS
- Adjust for late registers
- Post refunds receivable
- Allocate undistributed transactions

Control Point	Control Objective	Control Activity
KC 1.3.A	Journal entries are independently reviewed, validated, authorized, and properly recorded in the appropriate accounting period.	JVs must be supported by documentation and approved by the correct Approving Official.

Approving Official	Threshold
Division Chief	Less than \$500,000,000
Accounting Director	\$500,000,000.00 - \$1,000,000,000
Site Director	Over \$ 1,000,000,000

DFAS-KC Reporting and Analysis Division **1.3.4**

Calculate undistributed amount and post adjustment

When the SABRS TB is transferred to DDRS-B, there is an automatic calculation which derives the undistributed amount. DDRS-B compares the Marine Corps fund balance accounts to their counterpart Treasury “x” accounts. DDRS-B then automatically adjusts the undistributed accounts for the difference between the Treasury and Marine Corps accounts.

DFAS-KC Reporting and Analysis Division **1.3.5**

Create SF133 in DDRS-B

An SF133 Report is generated from DDRS-B for each appropriation reported by the Marine Corps.

DFAS-KC Reporting and Analysis Division **1.3.6**

Create SF133 in SMARTS

An SF133 Report is generated from SMARTS and downloaded into the RECON spreadsheet.

DFAS-KC Reporting and Analysis Division **1.3.7**

Perform reconciliation

Reconciliation is performed to compare the SF133 Reports for DDRS-B and SMARTS.

If there are discrepancies, proceed to step 1.3.8.

If there are no discrepancies, proceed to step 1.4.1.

Control Point	Control Objective	Control Activity
KC 1.3.B	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare the SMARTS and DDRS-B SF133 reports.

DFAS-KC Reporting and Analysis Division **1.3.8**

Prepare JV to adjust DDRS-B to the SMARTS SF133

The RECON spreadsheet contains previously entered GL data from SABRS. The amounts from the monthly budgetary reports are now added to the RECON spreadsheet for comparison.

DFAS-KC Reporting and Analysis Division 1.4.3

Compare SABRS GL to DDRS-B monthly reports

If there are any discrepancies between the SABRS GL and DDRS-B reports, proceed to step 1.4.4.

If there are no discrepancies between the SABRS GL and DDRS-B reports, proceed to step 1.4.6.

Control Point	Control Objective	Control Activity
KC 1.4.A	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare SABRS GL to DDRS-B monthly reports.

DFAS-KC Reporting and Analysis Division 1.4.4

Research to determine the necessary corrections

Research will include checking formulas in the RECON spreadsheet, verifying the correct accounts are in the crosswalk, and verifying that data in the DDRS-B reports and SABRS agree prior to completing the Monthly Report Checklist.

DFAS-KC Reporting and Analysis Division 1.4.5

Make necessary corrections

Updates are made to the formulas in the RECON spreadsheet and the accounts included in the crosswalk.

DFAS-KC Reporting and Analysis Division 1.4.6

Complete the Monthly Report Checklist.

DFAS-KC Reporting and Analysis Division 1.4.7

Remit the Monthly Report Checklist, copies of the Reports, and the RECON spreadsheet to the DFAS-KC GL Division

The Monthly Report Checklist is completed by the Reporting and Analysis Division and remitted to the DFAS-KC GL Division along with copies of the Reports (See Step 1.4.1) and the RECON spreadsheet.

DFAS-KC GL Division 1.4.8

Submit monthly budgetary reports and alert DFAS-KC AFS Division that the DDRS-B TB is ready for download

DFAS-KC AFS Division 1.4.9

Download DDRS-B TB

After all adjustments are made and monthly reports are final in DDRS-B, the final TB is downloaded from DDRS-B by appropriation.

DFAS-KC AFS Division 1.4.10

Review final DDRS-B TB and adjust for any errors

Review the TB reports for anomalies such as:

- (1) Abnormal account balances;
- (2) New accounts with questionable balances; and
- (3) Accounts with significantly large or small account balances.

If anomalies are identified, notify the DFAS-KC GL Division of the discrepancy. The anomalies are researched and resolved by the DFAS-KC GL Division with adjustments being made to DDRS-B. All of the DDRS-B adjustments must also be made in SABRS.

Control Point	Control Objective	Control Activity
KC 1.4.B	All required analyses are independently reviewed for appropriate assumptions, methodology, and evaluation of results. Unusual items and exceptions are identified, investigated, properly resolved, and recorded in the general ledger in the appropriate accounting period.	Review performed to identify errors in the DDRS-B TB.

Control Point	Control Objective	Control Activity
KC 1.4.C	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – AFS Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.

FS- 1.5 DDRS-AFS: Generating Quarterly Financial Reports

The procedures below outline the steps taken to generate Quarterly Financial Reports through the DDRS-AFS system.

OWNER

DFAS-KC AFS Division

STEPS

1.5.1

Upload to DDRS-AFS

When the TBs in DDRS-B are determined to be accurate and complete, they are ready for upload. Download the TB by appropriation from DDRS-B and upload in to DDRS-AFS.

Control Point	Control Objective	Control Activity
KC 1.5.A	The trial balance(s) used to prepare the financial statements are generated from the final general ledger(s).	DFAS-KC AFS Division performs a check to confirm that the file that was extracted from DDRS-B is the same file that is uploaded to DDRS-AFS.

DFAS-KC AFS Division

1.5.2

Import DDRS-B TB into DDRS-AFS

Control Point	Control Objective	Control Activity
KC 1.5.B	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	On a quarterly basis, RFA reconciles the DDRS-AFS TB to the DDRS-B TB to confirm that the DDRS-B TB was accurately and completely uploaded to DDRS-AFS.

DFAS-KC AFS Division

1.5.3

Import Trading Partner Data Sheet and Budgetary Import Sheet into DDRS-AFS

Trading partners are Federal entities who engage in transactions with each other. The DFAS-KC AFS Division makes adjustments as necessary to account for transactions made with other Federal entities (Office of Personnel Management, Department of Labor, etc).

Control Point	Control Objective	Control Activity
KC 1.5.C	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	DFAS-KC AFS Division performs a reconciliation to confirm that the DDRS-B TB, Budgetary Import Sheet, and Trading Partner Data Sheet were correctly imported into DDRS-AFS.

DFAS-KC AFS Division 1.5.4

Input data call JVs

See FS- 1.5A DDRS-AFS Importing Data Call Information.

Control Point	Control Objective	Control Activity
KC 1.5.D	Journal entries are independently reviewed, validated, authorized, and properly recorded in the appropriate accounting period.	JVs must be supported by documentation and approved by the correct Approving Official.

Approving Official	Threshold
Division Chief	Less than \$500,000,000
Accounting Director	\$500,000,000 - \$1,000,000,000
Site Director	Over \$ 1,000,000,000

DFAS-KC AFS Division 1.5.5

Produce Draft Financial Statements

DFAS-KC AFS Division 1.5.6

Review Draft Financial Statements to confirm that adjustments and data call JVs were input correctly

Control Point	Control Objective	Control Activity
KC 1.5.E	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Draft Financial Statements are reviewed by management to confirm that adjustments and data call JVs were input correctly.

DFAS-KC AFS Division 1.5.7

Produce Final Financial Statements

Financial Statements should include:

- 1) Balance Sheet
- 2) Statement of Budgetary Resources
- 3) Statement of Financing
- 4) Statement of Changes in Net Position
- 5) Statement of Net Cost

Control Point	Control Objective	Control Activity
KC 1.5.F	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – AFS Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.

FS- 1.5A DDRS-AFS: Importing Data Call Information

Data call information consists of financial data collected by another agency (external entity) or USMC department (internal entity) that is material to the information reflected on the Marine Corps Financial Statements. The procedures below document how DDRS-AFS imports data call information.

<u>OWNER</u> Department of the Navy (DON)	<u>STEPS</u> 1.5.A1	<p>Send Naval Message to RFA requesting data call</p> <p>Send a Naval Message to RFA requesting a data call. Data call information consists of financial data collected by another agency or department that is material to the information reflected on the Marine Corps Financial Statements.</p>

DON	1.5.A6	<p>Review data in DDRS-DCM</p>														

RFA

1.6.11

Confirm fluctuation analysis

Control Point	Control Objective	Control Activity
KC 1.6.B	Management reviews the draft financial statements and related disclosures in the format that is to be released to the public and filed with regulatory agencies.	Fluctuation Analysis requires review and approval from RFA before final is submitted.

RFA

1.6.12

Upload final version of current notes narrative to DDRS-AFS

After the draft notes are reviewed and finalized by RFA they are uploaded into DDRS-AFS.

DFAS-KC AFS Division

1.6.13

Submit the Financial Statements, notes, and fluctuation analysis to OUSD(C)

Control Matrix

Financial Statement Compilation		
Sub-Process: 1.1 SABRS: Reconciling the SABRS General Ledger (GL)		
Control Point	Control Objective	Control Activity
KC 1.1.A	All required analyses are independently reviewed for appropriate assumptions, methodology, and evaluation of results. Unusual items and exceptions are identified, investigated, properly resolved, and recorded in the general ledger in the appropriate accounting period.	PRD reports are reviewed to check for out of balance conditions.
KC 1.1.B	Changes to the entity's financial closing and reporting process are monitored and any significant changes made are independently reviewed and approved.	System change is required to be implemented following the Change Management Process.
KC 1.1.C	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare DCAS data to the SABRS.
KC 1.1.D	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare PAD data to SABRS GL.
KC 1.1.E	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – GL Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.

Sub-Process: 1.2 SABRS: Producing the (GL) Trial Balance (TB)		
Control Point	Control Objective	Control Activity
KC 1.2.A	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – GL Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.
KC 1.2.B	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	On a monthly basis, RFA reconciles the SABRS TB to the detailed transactions in the SABRS History File to confirm that the SABRS TB was accurately produced.
KC 1.2.C	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	On a quarterly basis, RFA reconciles the DDRS-B TB to the SABRS TB to confirm that the SABRS TB was accurately and completely uploaded to DDRS-B.
Sub-Process: 1.3 DDRS-B: Adjusting the GL file		
Control Point	Control Objective	Control Activity
KC 1.3.A	Journal entries are independently reviewed, validated, authorized, and properly recorded in the appropriate accounting period.	JVs must be supported by documentation and approved by the correct Approving Official.
KC 1.3.B	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare the SMARTS and DDRS-B SF133 reports.
KC 1.3.C	Journal entries are independently reviewed, validated, authorized, and properly recorded in the appropriate accounting period.	JVs must be supported by documentation and approved by the correct Approving Official.

KC 1.3.D	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – GL Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.
Sub-Process: 1.4 DDRS-B: Generating Monthly Reports		
Control Point	Control Objective	Control Activity
KC 1.4.A	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Reconciliation is performed to compare SABRS GL to DDRS-B monthly reports.
KC 1.4.B	All required analyses are independently reviewed for appropriate assumptions, methodology, and evaluation of results. Unusual items and exceptions are identified, investigated, properly resolved, and recorded in the general ledger in the appropriate accounting period.	Review performed to identify errors in the DDRS-B TB.
KC 1.4.C	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – AFS Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.
Sub-Process: 1.5 DDRS-AFS: Generating Quarterly Financial Reports		
Control Point	Control Objective	Control Activity
KC 1.5.A	The trial balance(s) used to prepare the financial statements are generated from the final general ledger(s).	DFAS-KC AFS Division performs a check to confirm that the file that was extracted from DDRS-B is the same file that is uploaded to DDRS-AFS.

KC 1.5.B	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	On a quarterly basis, RFA reconciles the DDRS-AFS TB to the DDRS-B TB to confirm that the DDRS-B TB was accurately and completely uploaded to DDRS-AFS.
KC 1.5.C	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	DFAS-KC AFS Division performs a reconciliation to confirm that the DDRS-B TB, Budgetary Import Sheet, and Trading Partner Data Sheet were correctly imported into DDRS-AFS.
KC 1.5.D	Journal entries are independently reviewed, validated, authorized, and properly recorded in the appropriate accounting period.	JVs must be supported by documentation and approved by the correct Approving Official.
KC 1.5.E	Reconciliations for all significant accounts are performed properly, prepared on a timely basis, and independently reviewed. Issues identified are resolved and recorded in the general ledger on a timely basis.	Draft Financial Statements are reviewed by management to confirm that adjustments and data call JVs were input correctly.
KC 1.5.F	The financial closing and reporting process is well established and documented, including the identification and updating of internal and external financial reporting requirements and deadlines; the methodology, format, and frequency of required analyses; and the content of reporting packages from departments and subsidiaries.	The process verification checklist is completed and verified by DFAS – AFS Division, which validates that the process is complete. The checklist is then forwarded to RFA, Arlington, VA for review and approval.

Sub-Process: 1.5A DDRS-AFS: Importing Data Call Information

Control Point	Control Objective	Control Activity
KC 1.5A.A	Journal entries are independently reviewed, validated, authorized, and properly recorded in the appropriate accounting period.	JVs must be supported by documentation and approved by the correct Approving Official.

Sub-Process: 1.6 Preparing Notes to the Financial Statements		
Control Point	Control Objective	Control Activity
KC 1.6.A	Management reviews the draft financial statements and related disclosures in the format that is to be released to the public and filed with regulatory agencies.	Notes require review and approval from RFA before Financial Statements are finalized.
KC 1.6.B	Management reviews the draft financial statements and related disclosures in the format that is to be released to the public and filed with regulatory agencies.	Fluctuation Analysis requires review and approval from RFA before final is submitted.

USMC	United States Marine Corps

Introduction to Tab C

Purpose: Defines and documents the type of verification efforts performed on the Financial Statement Compilation segment defined in Tab B. Verification was limited to re-performance, inquiry, and analysis.

Tab B, USMC Segment Overview, defined and documented the standard operating procedures (SOPs), process flows, process memorandums, and key controls of processes within the Financial Statement Compilation Segment. Once the segment definition and documentation was complete, verification procedures were performed to confirm that sufficient support exists to validate that the documented procedures were performed in accordance with Marine Corps guidance. Tab C.1 through Tab C.6 present the types of analysis used for this verification and the results of the analysis.

If the processes and procedures were not performed as required, observations were documented and recommendations were suggested for improvement—see Tab C.7. Actions performed to correct the noted observations are presented in Tab C.8. For reference, the source documentation used in the verifications steps performed below can be found in Tab D as referenced in the index below.

Index:

Reference	Document	Description	Objective	Scope/Source	Procedures
C.1	Crosswalk Compliance Analysis	The Crosswalk Compliance Analysis was completed to determine if the DDRS Balance Sheet and Statement of Budgetary Resources crosswalks comply with the Treasury Crosswalks.	To determine if the DDRS Balance Sheet and SBR crosswalks comply with the Treasury Crosswalks.	<i>Scope:</i> The crosswalks tested represent the DDRS crosswalks used for FY08 Q1 financial reporting. <i>Source:</i> D.7.2 Financial Statement Crosswalks – DDRS-AFS Balance Sheet and SBR Crosswalks	Compare the Treasury crosswalks for each Balance Sheet and SBR line to the corresponding DDRS crosswalk line. Compliance requires that the presentation detail be the same as well as the crosswalking field indicators.

**US Marine Corps
Fiscal Year 2008 Q1
SBR/BS Crosswalk Comparison Analysis**

Section 0A. Objective

Present results from the data analysis procedures performed on US Marine Corps (USMC) data for Q1 of Fiscal Year 2008 (FY08). This workbook summarizes the discrepancies between the Defense Department Reporting System Audited Financial Statements (DDRS-AFS) crosswalks for the Balance Sheet and Standard Form 133 (SF-133) - Statement of Budgetary Resources (SBR) with United States Standard General Ledger (USSGL) guidelines.

Section 0B. Methodology

The 2008 Q1 DDRS-AFS SBR and 2008 Q1 Balance Sheet crosswalk, extracted from DDRS, were each merged with USSGL guideline schedules downloaded from the United States Treasury, to ascertain inconsistencies between Standard General Ledger (SGL) accounts and their respective SBR and Balance Sheet line assignments.

Data Source:

1. FY08 USSGL Crosswalk - SF 133 (downloaded from http://www.fms.treas.gov/ussgl/selection_page.html)
2. 2008 - SF 133 Report on Budget Execution and Budgetary Resources (extracted from DDRS)
3. FY08 USSGL Balance Sheet (downloaded from http://www.fms.treas.gov/ussgl/selection_page.html)
4. 2008 Q1 Balance Sheet Crosswalk (extracted from DDRS)

Section 0C. Results

Detail:

See the following tabs for detail results of this analysis:

[1. SBR Crosswalk Comparison to USSGL](#)

This worksheet provides a summary of the analysis results for the SBR comparison.

[2. FY08 USSGL Crosswalk - SF 133](#)

USSGL SF-133 SBR Crosswalk Guidelines

[3. SF133 Crosswalk](#)

DDRS-B to SF-133 Crosswalk

[4. BS Crosswalk Comparison](#)

This worksheet provides a summary of the analysis results for the Balance Sheet comparison.

[5. USSGL BS Crosswalk](#)

USSGL Balance Sheet Crosswalk Guidelines

[6. DDRS-AFS BS Crosswalk](#)

DDRS-AFS Balance Sheet Crosswalk

Section 0D. Recommendations

Recommend USMC review inconsistencies in SBR/BS crosswalk comparison analysis noted in tab 1 and 4 in order to identify additional and/or revised logic or data that may be required to complete the analysis.

US Marine Corps
Fiscal Year 2008 Q1
SBR/BS Crosswalk Comparison Analysis

Procedures: Extract SBR Line - SGL combinations from each SF133 and USSGL crosswalk. Merge combinations together and identify inconsistent combinations (9 Records). Merge variance combinations with full SF133 crosswalk file to pickup all the details. Note: SF133 crosswalk file only specifies line levels to the third degree, e.g. Line 9A1. USSGL file specifies to 4 degrees, e.g. Line 9A1b. The Line field constructed for cross-checking purposes from the USSGL file is truncated to the first 3 characters. Inconsistencies listed below.

Table I: Inconsistencies

LINE	SGL	LINE 2	Report Axis Title	Secondary Title	Variance	Oprd	Beg_End	Trans_Partner	Borrow_Scr	Auth_Type	Reimb	Avail_Tm	BEA_Cat	Aprmnt_Cat	Custdl	Adv_Flag	Currt	Yr	Budget_Auth	Fund_Unf	Fin_Act_Ind	Enty	Exch	Asset	Liab	Obj_Cls	Cost	Fund	Other_Rpt_Req	Exprd	Fnd_Sub	Acct_Symbol	Calculation_For_Report_Axis_Titl	Calculation_For_Secondary_Axis_T		
13B	9528		B. Uncollected Customer Payments from Fede			(+)	E

Account Does Not appear in the USSGL File.

The Treasury Crosswalk no longer breaks out the presentation of Entity and Non Entity on the financial statements.

Account 1350 Loans Receivable is displayed as part of it's own Loans Receivable line on the USSGL crosswalk, however DDRS includes this line in Other Assets.

Account 2160 Entitlement Benefits Due and Payable is displayed as it's own line on the USSGL crosswalk, however DDRS Crosswalk includes this account in Other Liabilities.

SABRS Trial Balance Reconciliation

Purpose: To determine if the SABRS history files reconcile to the SABRS Trial Balance.

Source: History File and Trial Balance reports generated directly from SABRS.

Scope: Quarter 1, FY 2008

Procedures: Generated the SABRS history files and SABRS Trial Balance directly from SABRS. Reconciled the SABRS Trial Balance to the detailed transactions in the SABRS history files.

Results: During discovery and correction an item was identified which resulted in timing cutoff discrepancies. SABRS was recording the effective date incorrectly for journal vouchers. This caused the inclusion of detail journal voucher transactions for prior period adjustments to be included with current month transaction data pulls from the transaction history files. While the transactions processed correctly in the general ledger accounts due to logic pertaining to journal vouchers, this defect resulted in the original transaction data pulls to include prior period detail transactions in current month transaction pulls. The USMC is working to identify the incorrectly included transactions and take corrective actions to omit such transactions from inclusion in the current period transaction pulls. The effective date issue was corrected during the first quarter of FY 2008.

UNITED STATES MARINE CORPS PROCEDURES PERFORMED

Scope:

Audit Readiness and Business Transformation – Defense Departmental Reporting System (DDRS) Trial Balances Reconciliation
Fiscal Year (FY) 2008 - Quarter 1 (Q1)

Objectives:

The purpose of this analysis was to provide the United States Marine Corps (USMC) with a reconstructed financial statement compilation process. The process flows from the Standard Accounting, Budget and Reporting System (SABRS) to the Defense Departmental Reporting System Budgetary (DDRS-B) and then to Defense Departmental Reporting System - Audit Financial Statements (DDRS-AFS).

To achieve this objective, the process that follows was achieved in two phases:

1. DDRS-B Trial Balance Reconciliation - Reconstruct the DDRS-B trial balance using the SABRS trial balance, 18 DDRS crosswalks, undistributed Journal Vouchers (JVs) and DDRS-B JVs. Compare the reconstructed DDRS-B trial balance to DDRS-B trial balance.
2. DDRS-AFS Trial Balance Reconciliation - Reconstruct the DDRS-AFS trial balance using the DDRS-B trial balance and DDRS-AFS JVs. Compare the reconstructed DDRS-AFS trial balance to DDRS-AFS trial balance.

Data Utilized:

The following data files were utilized to achieve the above objectives:

Data File Names	Descriptions	Provided By	Date Provided
DDRSBUNM4JAN08.xls	DDRS-B regular account trial balance ending in December 2007	Defense Financial Account Services - Kansas City Office (DFAS-KC)	2/12/2008
DDRSBREG04JAN08.xls	DDRS-B 'X' account ¹ trial balance ending in December 2007	DFAS-KC	2/12/2008

¹ The SABRS general ledger includes accounts where the fifth digit is an "X," 4902X *Delivered Orders – Obligations Paid (DCAS)* for example. These accounts are commonly referred to as "X" accounts. The balances in these accounts represent DCAS (Treasury) transactions, as populated by monthly journal vouchers. The Marine Corps uses these balances to adjust their collections and disbursements to Treasury during the financial reporting process.

Crosswalk_FeederGLAC_SABRS_<Files>.xls <Files> - M_C, M_E, M_S, N_C, N_E, N_S, Y_C, Y_E, Y_S, DCAS_M_C, DCAS_M_E, DCAS_M_S, DCAS_N_C, DCAS_N_E, DCAS_N_S, DCAS_Y_C, DCAS_Y_E, DCAS_Y_S	18 DDRS Crosswalks	Extracted from DDRS	12/07/2007

--	---	--	--

Procedures Performed:

This section provides a detailed description of the procedures performed for each phase to achieve the above objective.

DDRS-B Trial Balance Reconciliation:

This section provides a detailed description of the procedures performed to reconstruct the DDRS-B trial balance from the SABRS trial balance, 18 DDRS crosswalks, undistributed JVs and the DDRS-B JVs. The first step was to crosswalk the SABRS' General Ledger Account (GLA) trial balance to the DDRS' Standard General Ledger Account (SGL) trial balance format. Add the undistributed JVs and DDRS-B JVs to reconstruct the DDRS-B trial balance. The reconstructed DDRS-B trial balance was then compared to the DDRS-B trial balance.

1. Import both SABRS regular accounts and 'X' accounts trial balances and create SAS datasets. Output controls in SAS log.
2. Append the datasets together in step (1) and prepare to crosswalk to DDRS by doing the following:
 - a. Create Current Year Indicator (Year) field based on the Fiscal Year to facilitate a merge.
 - b. Create Reimbursement/Undistributed Category (RUC) based on the Basic Symbol, also known as Appropriation, and Fiscal Year to facilitate a merge.
 - c. Create Approp field based on Basic Symbol and Subhead fields. Pseudo appropriations were rolled up into the main appropriations as follows²:

0735 – 0735, 7035, 7036
 1105 – 1105, 2115

² Pseudo appropriations roll up into the main appropriations but have a different appropriation symbol from their parent for identification purposes. For example, if halfway thru the fiscal year, more funds are needed for 1105, instead of adding the funds to the already appropriated 1105, the funds would be appropriated to it's psuedo 2115. Instructions to roll-up pseudo appropriations into the main appropriation were provided by DFAS.

1106 – 1106, 1160, 2116
1107 – 1107, 2117
1108 – 1108
1109 – 1109, 1149
1319 – 1319M, 1319T³
1508 – 1508, 1548
5095 – 5095

- d. Keep only records with the above list of appropriations. These appropriations impact the trial balance.
3. Convert 18 DDRS Crosswalks in excel to comma separate value format.
4. Read-in the 18 DDRS Crosswalks into SAS and create one SAS dataset. Create Year and RUC fields based on the header within each crosswalk file to facilitate a merge.
5. Summarize the resultant dataset in step (2) by the GLA, RUC, and Year for each appropriation in preparation for the merge.
6. Merge the resultant dataset in step (4) with the resultant datasets in step (5) by the GLA, RUC and Year for each appropriation. This step crosswalks the SABRS GLA to the DDRS SGL. Per DFAS' instructions, perform the following to correct the Apportionment Category in the crosswalks:
 - a. If Basic Symbol is 2115, 1160, 2116 and the Apportionment Category is 'B', then assign the Apportionment Category 'A'. According to DFAS, these Pseudo Appropriation's Apportionment Category should be the same as their parent which is 'A'.
 - b. If Basic Symbol is 0735, Apportionment Category is 'B' and GLA is not '4901X' then assign the Apportionment Category 'B'. According to DFAS, Apportionment Category was erroneous.
7. Append each Appropriation dataset created in step (6) to create one dataset with all Appropriations. This is the work-in-progress reconstructed DDRS-B trial balance. Create an ID field by concatenating and compressing fields to facilitate a merge. See SAS log for detail.
8. Convert undistributed JV Excel file to a comma separate value format.
9. Read-in undistributed JVs and do the following:

³ 1319M and 1319T are kept at that level and not rolled up to 1319 to match the DDRS-B trial balance.

- a. Compress the Fund field to remove '0' to match the format within the crosswalk. DFAS provided the explanation that extracting these files from DDRS in Excel causes these formatting issues.
 - b. Create an ID field by concatenating and compressing fields to facilitate a merge. See SAS log for detail.
 - c. Output controls to the SAS log.
10. Summarize the resultant dataset in step (9) by Appropriation and the ID field to facilitate datasets appending.
11. Append resultant datasets in step (7) and (10) together to update the work-in-progress reconstructed DDRS-B trial balance by adding the undistributed JVs.
12. Convert the DDRS-B JV excel file to a comma separate value format.
13. Read-in the DDRS-B JVs and do the following:
 - a. Compress the Fund field to remove '0' to match the format within the crosswalk.
 - b. Remove the last '0' in the Cost and Asset field to match the format within the crosswalk.
 - c. Create an ID field by concatenating and compressing fields to facilitate merging. See SAS log for detail.
 - d. Output controls to the SAS log.
14. Summarize the resultant dataset in step (13) by Appropriation and the ID field, only keeping JVs with the Original Accounting Period in 2008.
15. Append resultant datasets in step (11) and (14) together to update the work-in-progress reconstructed DDRS-B trial balance by adding the DDRS-B JVs.
16. Create three datasets from the resultant dataset in step (15) and doing the following:
 - a. If the Normal Balance is a credit then multiply by negative 1. This was done because SABRS allows for abnormal balances whereas DDRS does not.
 - b. Sum the SABRS amount, undistributed amount and DDRS-B JV amount to produce a Total amount.
 - c. Output the dataset by Appropriation for further reconciliation analysis.
 - d. If there was an undistributed amount or DDRS-B JV amount then output the dataset for further detail analysis.
 - e. Else, output dataset for further detail analysis. Steps (16d) and (16e) was done to split the data and put it back together in one record for the detail analysis.
17. Convert DDRS-B Q1 trial balance Excel file to a comma separate value format.

18. Read-in the DDRS-B trial balance and create an ID field by concatenating and compressing fields to facilitate a merge.
19. Summarize the resultant datasets in step (16c) by Appropriation and the ID field.
20. Merge the resultant datasets in step (18) and (19) by Appropriation and the ID field and do the following:
 - a. If the Normal Balance is a credit for the undistributed amount and DDRS-B JV then multiply by negative 1. This was done because SABRS allows for abnormal balances whereas DDRS does not.
 - b. Sum the SABRS amount, undistributed amount and DDRS-B JV amount to produce a Total amount.
 - c. Calculate the variance by subtracting the Total amount from the DDRS-B YTD. The Total amount is the Reconstructed YTD Amount.
21. Export the resultant dataset in step (20) to Excel and output controls in the SAS log. This is the DDRS-B trial balance reconciliation, see workbook, **Tab 2 "2. DDRS-B TB Reconciliation"**.
22. For the detail data analysis, summarize the resultant datasets in step (16d) and (16e) by Appropriation, ID and GLA.
23. Merge the resultant datasets in step (18) and (22) by Appropriation and the ID field and do the following:
 - a. If the Normal Balance is a credit for the undistributed amount and DDRS-B JV then multiply by negative 1. This was done because SABRS allows for abnormal balances whereas DDRS does not.
 - b. Sum the SABRS amount, undistributed amount and DDRS-B JV amount to produce a Total amount.
24. Repeat step (23) for both the detail datasets (16d) and (16e).
25. Append the resultant datasets in step (24) together and sort by Appropriation, SGL and ID.
26. Export the resultant datasets in step (25) to Excel and output controls in the SAS log. This is the detail data to support the analysis, see workbook **Tab 3 "3. GLA Detail Data"**.

DDRS-AFS Trial Balance Reconciliation:

This section provides a detailed description of the procedures performed to reconstruct the DDRS-AFS trial balance from the DDRS-B trial balance, DDRS-AFS beginning balance JVs and DDRS-AFS YTD JVs. The reconstructed DDRS-AFS trial balance was then compared to the DDRS-AFS trial balance.

1. From the resultant dataset in step (21) above, drop the previously created ID field and create a new ID field by concatenating and compressing fields to facilitate merging. See SAS log for details.
2. Convert AFS beginning balance and YTD JVs Excel files to a comma separate value format.
3. Read-in the AFS beginning balance JVs and do the following:
 - a. Compress the Fund field to remove '0' to match the format from the resultant dataset in step (1).
 - b. Create an ID field by concatenating and compressing fields to facilitate merging.
 - c. Output controls to the SAS log.
4. Read-in the AFS YTD JVs and do the following:
 - a. Compress the Fund field to remove '0' to match the format from the resultant dataset in step (1).
 - b. Create an ID field by concatenating and compressing fields to facilitate merging.
 - c. Output controls to the SAS log.
5. Summarize the resultant datasets in step (1), (3) and (4) by Appropriation, SGL and ID. Output to four datasets that contains DDRS-B beginning balances, DDRS-B YTD, DDRS-AFS beginning balance JVs, DDRS-AFS YTD JVs. The purpose of the next two steps was two split the data and combine the beginning balances and YTD in one record.
6. Merge the resultant datasets in step (5) by ID for the beginning balances and YTD.
7. Merge the resultant datasets in step (6) by ID to create one dataset. Calculate ending balances by summing the beginning balances and YTD. This is the reconstructed DDRS-AFS trial balance.
8. Convert the AFS trial balances from an Excel file to a comma separate value format.
9. Read-in AFS trial balances and do the following:
 - a. Compress the Fund field to remove '0' to match the format from the resultant dataset in step (1).

- b. Create an ID field by concatenating and compressing fields to facilitate merging.
- c. Output controls to the SAS log.

10. Merge the resultant dataset in step (7) and (9) and do the following:

- a. Calculate three different variances based on the beginning, year-to-date, and ending balances.
- b. Output controls to the SAS log.
- c. Export data to an Excel file.

Summary of Results:

DDRS-B Trial Balance Reconciliation:

The analysis resulted in 47 lines with variances out of 986, equivalent to 4.77% of the lines with variances from tab 2 of the workbook.

Results Summary:

Appropriation	Total Line Items	Line Items with Variance	% Line Items with Variance
0735	93	5	5.38
1105	112	2	1.79
1106	151	4	2.65
1107	126	2	1.59
1108	106	2	1.89
1109	125	7	5.60
1319M	78	10	12.82
1319T	58	3	5.17
1508	91	4	4.40
5095	46	8	17.39
TOTAL	986	47	4.77

DDRS-AFS Trial Balance Reconciliation:

Standard General Ledger Accounts (SGL) starting with "F" were found within the DDRS-AFS trial balance. Results shown are filtered for SGL Accounts (column C in tab 2) that do not begin with "F."

The analysis resulted in 388 lines with variances out of 552, equivalent to 70.29% of the lines with variances from tab 2 of the workbook.

Appropriation	Total Line Items	Line Items with Variance	% Line Items with Variance
0735	47	38	80.85
1105	62	45	72.58
1106	114	64	56.14
1107	71	52	73.24
1108	53	42	79.25
1109	77	54	70.13

Fiscal Year 2008 Q1
DDRS-B Trial Balance Reconciliation**

Section 0A. Objective

Present results of the reconciliation of the Standard Accounting, Budget and Reporting System (SABRS) trial balance to the Defense Departmental Reporting System Budgetary (DDRS-B) trial balance as of Fiscal Year 2008 Q1 (FY08Q1).

Section 0A. Methodology

The FY08 December SABRS trial balance, provided by the Defense Financial Account Services - Kansas City Office (DFAS-KC) was used to crosswalk the SABRS General Ledger Accounts (GLA) to the DDRS-B Standard General Ledger Accounts (SGL) using the 18 DDRS-B crosswalks. The Undistributed DDRS-B Journal Vouchers (JVs) and the DDRS-B JVs were added to reconstruct the DDRS-B trial balance. The reconstructed DDRS-B trial balance was then compared to the DDRS-B trial balance by individual appropriation and by a consolidation of all appropriations. A summarized output of the detail data at the GLA is also provided.

Additional Steps Required for Reconciliations

1. Funding with the Other Report Requirement description of "4550 Internal Distrib Recvd" and "4550 Undist Internal Distrib" must be multiplied by -1. This procedure was performed outside of normal crosswalking. (note: these accounts are for internal fund distribution tracking and do not effect the financial statements)
2. Account 1899 was manually crosswalked from SABRS to DDRS-B for this reconciliation. The crosswalks provided for this reconciliation were an earlier version that did not include this account.
3. Account 4450 is not reported to DDRS in the SABRS Trial Balance extract. This account is updated based on unobligated balances in DDRS. DDRS moves unobligated balances to unapportioned at year end for unexpired funds. The following year, these funds are automatically reapportioned.

Data Sources:

1. FY08 December SABRS Trial Balance (provided by DFAS-KC)
2. 18 DDRS-B Crosswalks (extracted from DDRS)
3. FY08Q1 DDRS-B Undistributed Journal Vouchers (extracted from DDRS)
4. FY08Q1 DDRS-B Distributed Journal Vouchers (extracted from DDRS)
5. FY08Q1 DDRS-B Trial Balance (extracted from DDRS)

Section 0C. Results

The analysis resulted in the following variances:

1. Variances in account 4450 and associated accounts as follows:
 - Appropriation 1106: 4450, 4610
 - Appropriation 1109: 4450, 4610, 4510, 4610, 4700
 - Appropriation 1319: 4430, 4450, 4610, 4700
 - Appropriation 1508: 4450, 4610, 4700
 - Appropriation 5095: 4450, 4610
2. Variances between apportionment categories; nets to zero at the general ledger account level (does not affect the SBR, only SF-133):
 - Appropriation 0735: 4901, 4902
 - Appropriation 0735: 4901, 4903

Detail:

See the following tabs for detail results of this analysis:

[1. Summary Tab](#)

Using the summary data from tab 2, this worksheet provides a summary view of the variances for each SGL by Appropriation

[2. DDRS-B TB Reconciliation](#)

This worksheet provides a summary of the analysis of the DDRS-B reconciliation efforts.

[3. GLA Detail Data](#)

This worksheet provides the GLA utilized to roll up to the SGL for the DDRS-B reconciliation efforts.

Section 0D. Recommendations

Follow-up is required with DFAS and DDRS. DFAS was contacted with questions concerning support for the re-apportionment of unobligated funding in DDRS (affects account 4450 and related accounts - see above). DFAS was unable to find a DDRS log to support these adjustments. DDRS was contacted, however no response has been received.

DORS-B Trial Balance Reconciliation

DORS-B TB Reconciliation

Table with columns: APPROP, SOL, DORSB, (A), (B) = (F)+(G)+(H), (A)(B), (F), (G), (H), OTHER RPT, REG, NORM, B/REG, ENDRANS, P/REIMB, BEG, BAL, PRIOR YTD AMOUNT, PRIOR YTD AMOUNT, END, BAL, MCA. Rows include various fiscal years (0735-1105) and account numbers (1010, 1010, 1010, etc.) with corresponding dollar amounts and descriptions like 'FWT - Operating', 'PBAS - Approp Level Aury', and 'PBAS - Approp Level Aury'.

**US Marine Corps
Fiscal Year 2008 Q1
DDRS-AFS Trial Balance Reconciliation**

Section 0A. Objective

Present results of the reconciliation of the Defense Departmental Reporting System Budgetary (DDRS-B) trial balance to the Defense Departmental Reporting System - Audit Financial Statements (DDRS-AFS) trial balance, as of Fiscal Year 2008 Q1 (FY08Q1).

Section 0B. Methodology

The FY08Q1 DDRS-B trial balance, the DDRS-AFS beginning balance Journal Vouchers (JVs), and DDRS-AFS year-to-date (YTD) JVs were appended to reconstruct the DDRS-AFS trial balance. The reconstructed DDRS-AFS trial balance was then compared to the DDRS-AFS trial balance.

The reconciliation was performed at the Appropriation - General Ledger Account Level. All trial balances and journal vouchers were summarized to this level using pivot tables prior to reconciliation. Standard General Ledger Accounts (SGL) starting with "F" were found within the DDRS-AFS trial balance. The AFS trial balance was filtered for general ledger accounts beginning with F prior to reconciliation.

Additional Methodology

1. DDRS-AFS journal vouchers with the status of C (cancelled) had to be removed from the jv log for reconciliation.

2. FY08Q1 Combined AFS Beginning Balance Journal Vouchers (extracted from DDRS) - see D.5 or tab
3. FY08Q1 Combined AFS YTD Balance Journal Vouchers (extracted from DDRS) - see D.5 or tab
4. FY08Q1 AFS Trial Balance (extracted from DDRS) - see D.4 or tab

Section 0C. Results

All appropriations reconciled within all general ledgers accounts.

Detail:

See the following tabs for detail results of this analysis:

[Tab 1a: DDRS-B to DDRS-AFS Trial Balance Reconciliation](#)

This worksheet provides a summary of the analysis results for the DDRS-B to AFS Trial Balance Reconciliation

[Tab 2a: Pivot: DDRS-B Trial Balance](#)

This worksheet provides a pivot table of the DDRS-B Trial Balance source file used in this reconciliation (this data was used to populate the reconciliation)

[Tab 2b: DDRS-B Trial Balance](#)

This worksheet provides the DDRS-B Trial Balance source file used in this reconciliation.

[Tab 3: DDRS-B - AFS Trial Balance](#)

This worksheet provides the DDRS-AFS Trial Balance source file used in this reconciliation.

[Tab 4: DDRS-B - AFS Journal Vouchers](#)

This worksheet provides the DDRS-AFS Journal Voucher source file used in this reconciliation.

[Tab 5: DDRS-AFS Beginning Balance](#)

This worksheet provides the DDRS-AFS Beginning Balance source file used in this reconciliation. This is for accounts/amounts not found in DDRS-B; real property for example.

**US Marine Corps
Fiscal Year 2008 Q1
DDRS-AFS Trial Balance Reconciliation**

The table below shows a reconciliation of the FY08 Q1 DDRS-B trial balance to the FY08 Q1 DDRS-AFS trial balance. The reconciliation uses the DDRS-B trial balance, plus DDRS-AFS JVs, to reconcile to the DDRS-AFS trial balance. DDRS-AFS has two types of journal voucher files, year-to-date JVs (column I) and beginning balances brought forward (column J). The tickmarks provide additional detail on reconciliation variances - see 1b. Tickmarks for detail.

**United States Marine Corps
Financial Statement Compilation
As of 3/31/07**

<p>Purpose: Test the DDRS-B Journal Vouchers</p> <p>Source: DDRS-B Journal Voucher Ledger DDRS-B Trial Balance</p> <p>Scope: USMC General Fund appropriations as of 12/31/07. The scope of the journal entry testing is to include all categories of journal entries, general ledgers, and time periods relevant to the segment being tested.</p>
<p>Instructions: Use the procedures outlined below to complete Tabs 1 and 2</p> <p>Sample Selection Procedures: Randomly select sample to include coverage of all categories of journal entries and based on the criteria given below.</p> <ol style="list-style-type: none"> 1. Entries made to unusual, unrelated or seldom-used accounts 2. Entries made by individuals who typically do not make entries 3. Entries recorded at the end of the period or as post-closing entries that have little or no explanation or description 4. Entries made either before or during the preparation of the financial statements that do not have account numbers 5. Entries that contain a round number or consistent ending digits. 6. Entries that are complex or unusual in nature 7. Entries that contain significant estimates and period-end adjustments 8. Entries that have been prone to errors in the past <p>Test Procedures:</p> <p>1. Identify and Test Data Quality Efforts- Determine if data quality errors exist within the population of journal entries and other adjustments. Test the following attributes:</p> <ul style="list-style-type: none"> - Journal entry lines with invalid Chart of Account information - Journal entry lines with a blank general ledger account number - Journal entries that do not net to zero - Journal entry lines with an invalid effective date - Journal entry lines with an effective date outside of the period for which we are performing testing (cutoff issue) - Journal entry lines with a negative debit or credit amount - Journal entry lines with a zero dollar amount - Journal entry lines with blank user ID - Journal entry lines with a blank posted date - Journal entry lines with blank entry descriptions <p>2. Obtain and examine supporting documentation- For each journal entry or other adjustment selected, obtain and examine supporting documentation to determine appropriateness. Consider the following when determining appropriateness:</p> <ul style="list-style-type: none"> - Calculations - Business rationale - Financial statement impact <p>3. Review Authorization- For each journal entry or other adjustment selected, obtain and examine supporting documentation to determine if the adjustment is properly authorized.</p> <p>TAB Documentation: Complete tabs 1 and 2 of this workbook based on the results of the testing.</p> <p>Tab 1 - JV Lead Sheet - List all items selected for testing in the JV Lead Sheet. Make sure to complete all fields.</p> <p>Tab 2 - Detail Testing - Document the results of the test of each item. Make sure to complete all fields.</p> <p>Tab 3 - Tickmarks - Include tickmarks where an adverse result was obtained and document reason or justification.</p> <p>Tab 4 - Sample Section - Provide sample selection methodology and sample selected.</p> <p>Tab 5 - JV Potential Anomalies - Review JV population for potential anomalies and record JV numbers to ensure that JVs with potential anomalies are included in the sample selection.</p>

Financial Statement Compilation JV Analysis

10	\$ 17,072.18		108215	1/7/2008
11	\$ 391,486.25		107691	1/5/2008
12	\$ 150,918.60		107904	1/6/2008
13	\$ 150,918.60		108277	1/7/2008

Conclusion: We selected a judgmental sample of 13 JVs and conducted testing on the selections noted above. The JVs selected did not include the JV that affect the 1010 account. The JVs for the 1010 account were testing in the Funds Balance With Treasury Segment Package. We noted that for 3 out of the 13 JVs selected, there was not sufficient supporting documentation provided to support detailed testing. The 10 remaining JVs were tested without exceptions. See *Detail Testing* for more detailed results.

Tickmarks

- {a}** The documentation provided only includes a summary page of the JV entry, but does not include any detailed support.
- {b}** The \$497,977 is the FY 08 portion of the undistributed collection allocated to the Public. The supporting documentation provided indicates the grand total amounts of undistributed adjustments to the Public and Government GL. The \$497,977 from this particular JV is the FY 2008 portion of that allocation.
- {c}** No supporting documentation has been provided.
- {d}** The \$17,012.18 amount of the JV is made up of the following differences as noted on Recon #1 per the support provided: (\$9,587.28), (\$6,564.66), (\$642.24), and (\$278.00).
- {e}** The supporting documentation provided does not clearly identify the amounts as noted on the JV. There is no explanation included to provide a clear relationship between the support provided and the amounts being tested.

Sample Selection

(JV Selection detail can be found in Tab D.)

**US Marine Corps
Fiscal Year 2007 Q4
SABRS Relationship Testing**

Section 0A. Objective

The purpose of this workbook is to reconcile the Defense Departmental Reporting System - Audited Financial Statements (DDRS-AFS) Trial Balance account balances based on standard relationships between budgetary and proprietary general ledger accounts. DDRS-AFS contains a reconciliation report, see the DDRS-AFS/UFS Reconciliation Manual, that performs most of the relationship calculations seen in this workbook. This workbook was created to validate and provide more detail behind the DDRS reconciliation process.

Section 0A. Methodology

The Defense Departmental Reporting System - Audited Financial Statements Trial Balance (DDRS-AFS) Trial Balance was provided by the Defense Financial Account Services - Kansas City Office (DFAS-KC). Balances were retrieved on a per account basis and exported for all appropriations combined. Specific accounts for relationships were obtained by either the Defense Departmental Reporting System - Audited Financial Statements/Unaudited Financial Statements (DDRS-AFS/UFS) Reconciliation Manual or by the Trial Balance Tie Point Project Document (a U.S. Treasury project), both available to the public on the internet.

Variances found in the initial reconciliation, Tab 2b, were sent to DFAS-KC for explanation. For documentation purposes, DFAS-KC variance explanations are presented in Tab 2a.

Data Source:

1. DDRS-AFS Trial Balances (provided by DFAS-KC)
2. DDRS-AFS/UFS Reconciliation Manual (available to public on the internet)
3. Trial Balance Tie Point Project Document (available to the public on the internet)

Section 0C. Results

Only one observation found during the reconciliation process.

Observations:

The total unexplained variance is **\$63,086,109.2** (Absolute Value - see Tab 2b cell G194). The following represents the detail of the observations found during this analysis:

1. Unfilled Customer Order with Advance = Advances from Others: Variance of \$37,782,894.27. Reconciliation variance appears to result from the DDRS-AFS reconciliation omitting account 2310. DDRS does not show a value for this reconciliation. Account 2310 represents advances from others, which is a datacall journal voucher for the USMC. The only allowable variance here is for Treasury Transaction B142, disbursement of foreign currency on behalf of the operating fund. (Also, while 2310 is populated in SABRS, DDRS crosswalks SABRS general ledger accounts 2311 (UNEARNED REV-ADV FROM GOVT AGENCIES & FUNDS) and 2312 (UNEARNED REVENUE-ADVANCES FROM THE PUBLIC) into USSGL account 1010.) See Tab 2a, step #6.

2. Federal Receivables Proprietary = Receivables Budgetary: Variance of -\$25,303,214.93. Difference is the amount of Public Receivables recorded in SABRS and included on the SF 133 and GLA 4251 (Foreign Military Sales & and other public entities on military bases with MOAs). Since there is no separate breakout of federal and nonfederal budgetary receivable accounts and this recon only includes federal 1310, the amount of the variance is equal to the public receivables recored in SABRS in GLA 4251. See DDRS-AFS/UFS Reconciliation Manual page 39. See Tab 2a, step #9.

Detail:

See the following tabs for detail results of this analysis:

[Tab 1: Procedures Performed](#)

This worksheet provides an overview of procedures performed to obtain results provided.

[Tab 2: Prop v. Budg All Final](#)

This worksheet provides a final summary of key accounts in 13 relationships for all appropriations

**US Marine Corps
Fiscal Year 2007 Q4
SABRS Relationship Testing**

Objectives:

The purpose of this workbook is to provide total balances in specific budgetary and proprietary accounts in the Standard Accounting, Budgeting and Reporting System (SABRS) in order to validate relationships between accounts.

Background Information

The Defense Departmental Reporting System - Audited Financial Statements Trial Balance (DDRS-AFS) provided by the Defense Financial Account Services - Kansas City Office (DFAS-KC) was used as the input file for this analysis. Balances were retrieved on a per account basis and exported for all appropriations combined. Specific accounts for relationships were obtained by either the Defense Departmental Reporting System - Audited Financial Statements/Unaudited Financial Statements (DDRS-AFS/UFS) Reconciliation Manual or by the Trial Balance Tie Point Project Document, both available to the public on the internet.

Overview of Results

Results are included on tab "Prop v. Budg All" and "Detail_Data".

Data Requests:

The following data files were provided by DFAS-KC:

File Names	Description	Date Received
0703 TB Sept30 FY07.xls 1105 TB Sept30 FY07.xls 1106 TB Sept30 FY07.xls 1107 TB Sept30 FY07.xls 1108 TB Sept30 FY07.xls 1109 TB Sept30 FY07.xls 1319 TB Sept30 FY07.xls 1508 TB Sept30 FY07.xls 5095 TB Sept30 FY07.xls Nonshared Appn Component TB Sept30 FY07.xls Shared Appn Component TB Sept30 FY07.xls	These files contain the DDRS-AFS Trial Balances broken out by appropriation.	12/12/207

Overview of Developed Programs:

This section provides an overview of the specific programs developed to accomplish the above objectives.

Program Name	Input(s)	Output(s)	Purpose
02 Account Balance Testing - AFS TB (W PDF ACCOUNTS).sas	0703 TB Sept30 FY07.xls 1105 TB Sept30 FY07.xls 1106 TB Sept30 FY07.xls 1107 TB Sept30 FY07.xls 1108 TB Sept30 FY07.xls 1109 TB Sept30 FY07.xls 1319 TB Sept30 FY07.xls 1508 TB Sept30 FY07.xls 5095 TB Sept30 FY07.xls Nonshared Appn Component TB Sept30 FY07.xls Shared Appn Component TB Sept30 FY07.xls	SABRS Relationship Testing Workbook.xls	This program selects key accounts to reconcile from Trial Balance amounts.

Procedures Performed:

This section provides a detailed description of the procedures performed to achieve the above objectives.

02 Account Balance Testing - AFS TB (W PDF ACCOUNTS).sas

1. Imported all trial balance files provided in a excel documents format, but was converted to a comma separated value format in order to read it into SAS.
2. Combined all trial balances to one dataset. For accounts 3310, 4201, and 3100, ending balance amounts were created from the beginning balance amounts. These accounts needed to be adjusted due to DDRS system requirements preventing these amounts to be held constant throughout the year.
3. Summarized file by Account, Federal Indicator, and Reimbursement Indicator.
4. Extracted accounts for 13 reconciliations: 1. Assets = Liabilities, Net Position, Revenue, Expenses, and Gains/Losses (Preclosing), 2. Budgetary Cash = Proprietary Cash, 3. Unpaid Expended Authority = Accounts Payable, 4. Expended Obligations = Proprietary Costs and Capitalized Costs, 5. Total Advances and Other Prepayments = Undelivered Orders Prepaid/Advanced, 6. Unfilled Customer Order with Advance = Advances from Others, 7. Expended Authority = Expended Appropriations, 8. Anticipated Resource = Anticipated Status, 9. Federal Receivables Proprietary = Receivables Budgetary, 10. Proprietary Revenue = Budgetary Offsetting Collections, 11. Appropriations Received Proprietary = Appropriations Received Budgetary, 12. Funded Expense Proprietary = Delivered Orders Budgetary, 13. Budgetary Unexpended Appropriations = Proprietary Unexpended Appropriations. Balances for each account were exported directly to Excel.

Note: Specific accounts for each reconciliation were obtained from DDRS-AFS/UFS Reconciliation Manual, or the Treasury Tie Point Project Document.

5. A "Detail_Data" tab was created by using the original (unsummarized) trial balance data to attach an indicator for all the accounts in each of the thirteen reconciliations to label whether each account is "Budgetary" or "Proprietary" for each reconciliation. This tab is included in this workbook.

---	-------------------------

**US Marine Corps
Fiscal Year 2007 Q4
SABRS Relationship Testing**

Tickmarks

- {a} **Variance Explained**
Per FY07 Balance Sheet Note 3, this amount represents nonbudgetary amounts associated with adjustments that do not have budgetary authority, such as unavailable receipt accounts or clearing accounts. This amount represents (1) the Non Entity Funds of \$204,152,175.60 and (2) an DDRS-AFS Suspense Account Journal Voucher for \$-20,195,463.08 (JV#49974). DDRS, however, shows reconciliation amount of \$17,087,864,302.84 as per budgetary above.
- {b} **Variance per DDRS Crosswalking**
DDRS does not show a value for this reconciliation. 2310 represents advances from others, which is a datacall journal voucher for the USMC. The only allowable variance here is for Treasury Transaction B142, disbursement of foreign currency on behalf of the operating fund.
- {c} Difference is the amount of Public Receivables recorded in SABRS and included on the SF 133 and GLA 4251 (Foreign Military Sales & and other public entities on military bases with MOAs). Since there is no separate breakout of federal and nonfederal budgetary receivable accounts and this recon only includes federal 1310, the amount of the variance is equal to the public receivables recorded in SABRS in GLA 4251. See DDRS-AFS/UFS Reconciliation Manual page 39.
Per DFAS, the USMC is permitted to treat these public receivables as a budgetary resource.
- {d} The reconciliation was performed per the Treasury Tie-Point Project, with the addition of accounts 5740 and 4114. The totals agree to the DDRS reconciliation, however the accounts used in the reconciliation do not agree to the DDRS-AFS/UFS Reconciliation Manual.
- {e} **Variance Explained**
This variance represents the balance in accounts 8802 and 8803. Accounts 8802 and 8803 are valid reconciling items. GL account 8802 Purchases of Capital Assets and 8803 Purchases of Inventory and Related Property have a total balance of \$2,068,268,066.15 accounting for this difference.

Financial Statement Compilation Process

Process Validation Checklist

Instructions

The instructions below have been designed to document the procedures to be performed in order to complete the *"Financial Statement Compilation Process, Process Validation Checklist."* The Monthly Checklist indicates the procedures to be performed during the monthly reporting process. This checklist should be completed during the monthly reporting cycle. The Quarterly Checklist indicates the procedures to be performed during the quarterly reporting process. This checklist should be completed only during the quarterly reporting cycle. The procedures for each task indicated under the column labeled *"Task,"* are listed as follows:

1. Under the column heading labeled *"Performed (Y/N),"* indicate whether the task is performed by filling in "Y" for yes and "N" for no.
2. Under the column heading labeled *"Responsible Owner,"* indicate the name and position (full name, position) of the responsible owner for the task being evaluated.
3. Under the column heading labeled *"Date,"* indicate the date (mm/dd/yyyy) on which the task being evaluated is performed.
4. Under the column heading labeled *"Supporting Documents (Y/N),"* indicate whether there is supporting documentation for the evaluated task by filling in "Y" for yes and "N" for no.
5. - If supporting documentation was indicated under Step 4, under the column heading labeled *"Supporting Document Description,"* include a description of the supporting documentation for the task being evaluated.
- If there was no documentation indicated in Step 4, under the column heading labeled *"Supporting Document Description,"* fill in "N/A."
6. Under the column heading *"Expected Audit Documentation,"* a description is included to indicate the audit documentation that is expected to be generated and presented to the external auditor during the financial statement audit procedures. If the value "N" was recorded under the column heading labeled *"Supporting Documents (Y/N),"* the responsible owner should generate and maintain the documents identified in this column.
7. Under the column heading labeled *"Approval (Y/N),"* indicate if an approval is necessary for the given task by filling in "Y" for yes and "N" for no.
8. - If an approval is necessary as indicated in Step 7, under the column heading labeled *"Responsible Approver,"* indicate the name (name, position) of the responsible approver for the task being evaluated.
- If an approval is not necessary as indicated in Step 7, under the column heading labeled *"Responsible Approver,"* fill in "N/A."
9. Under the column heading labeled *"Comments,"* include any comments to help further clarify the details of the task being evaluated.
10. Upon completion of the *"Financial Statement Compilation Checklist Process, Process Validation Checklist,"* please complete the required *"Certification Statement"* to indicate that the checklist was completed.

6	Trading Partner adjustments	Quarterly		Name/Title				- Journal Vouchers indicating adjustments been made for Trading Partner adjustments - Evidence of review and approval		Accountant	
7	Perform Manual Fund Balance with Treasury Reconciliation	Quarterly		Name/Title				- Documentation indicating reconciliation of Manual Fund Balance with Treasury - Evidence of review and approval		Accountant	The MRD reports are cross checked for each TI 17 Appropriation.
8	Prepare Draft Statements	Quarterly		Name/Title				- Draft Statements - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements		Accountant	
9	Prepare Footnote Disclosures	Quarterly		Name/Title				- Footnote Disclosures		Accountant	3rd & 4th Quarter
10	Review Draft Statements (DFAS-AFS)	Quarterly		Name/Title				- Authorized RFA reviewer(s) sign off of Draft Statements: - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements		Accountant	Each statement is balanced for accuracy.
11	Remit Draft Statements to RFA for review (RFA)	Quarterly		Name/Title				- Authorized reviewer(s) sign off of Draft Statements: - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements		Accountant	The Balance analysis is prepared by AFS and HQMC and submitted for review. The other statements are in DDRS-AFS and rolled into the DONs figures for government wide reporting.

Financial Reporting Checklist, Quarter 2, FY 2008

Implementation of the Financial Reporting Checklist began in Quarter 2, FY 2008.

The following Financial Reporting Checklist was submitted by DFAS in support of Quarter 2, FY 2008 financial reporting.

Implementation of the Financial Reporting Checklist is currently in progress.

Due to the remaining implementation efforts and DFAS organizational changes in responsible ownership of assigned tasks, it is expected that the complete implementation of the Financial Reporting Checklist will occur during Quarter 3, FY 2008.

Financial Statement Compilation - Process Validation Checklist and DFAS Certification

Financial Statement Compilation Process Process Validation Checklist Instructions

The instructions below have been designed to document the procedures to be performed in order to complete the *"Financial Statement Compilation Process, Process Validation Checklist."* The Monthly Checklist indicates the procedures to be performed during the monthly reporting process. This checklist should be completed during the monthly reporting cycle. The Quarterly Checklist indicates the procedures to be performed during the quarterly reporting process. This checklist should be completed only during the quarterly reporting cycle. The procedures for each task indicated under the column labeled *"Task,"* are listed as follows:

1. Under the column heading labeled *"Performed (Y/N),"* indicate whether the task is performed by filling in "Y" for yes and "N" for no.
2. Under the column heading labeled *"Responsible Owner,"* indicate the name and position (full name, position) of the responsible owner for the task being evaluated.
3. Under the column heading labeled *"Date,"* indicate the date (mm/dd/yyyy) on which the task being evaluated is performed.
4. Under the column heading labeled *"Supporting Documents (Y/N),"* indicate whether there is supporting documentation for the evaluated task by filling in "Y" for yes and "N" for no.
5. - If supporting documentation was indicated under Step 4, under the column heading labeled *"Supporting Document Description,"* include a description of the supporting documentation for the task being evaluated.
- If there was no documentation indicated in Step 4, under the column heading labeled *"Supporting Document Description,"* fill in "N/A."
6. Under the column heading *"Expected Audit Documentation,"* a description is included to indicate the audit documentation that is expected to be generated and presented to the external auditor during the financial statement audit procedures. If the value "N" was recorded under the column heading labeled *"Supporting Documents (Y/N),"* the responsible owner should generate and maintain the documents identified in this column.
7. Under the column heading labeled *"Approval (Y/N),"* indicate if an approval is necessary for the given task by filling in "Y" for yes and "N" for no.
8. - If an approval is necessary as indicated in Step 7, under the column heading labeled *"Responsible Approver,"* indicate the name (name, position) of the responsible approver for the task being evaluated.
- If an approval is not necessary as indicated in Step 7, under the column heading labeled *"Responsible Approver,"* fill in "N/A."
9. Under the column heading labeled *"Comments,"* include any comments to help further clarify the details of the task being evaluated.
10. Upon completion of the *"Financial Statement Compilation Checklist Process, Process Validation Checklist,"* please complete the required *"Certification Statement"* to indicate that the checklist was completed.

Financial Statement Compilation Process
Monthly Process Validation Checklist
For the Month Ending _____

Step No.	Task	Performed (Y/N)	Responsible Owner	Date	Supporting Documents (Y/N)	Supporting Document Description	Expected Audit Documentation	Approval (Y/N)	Responsible Approver	Comments
Balancing SABRS General Ledger										
1	Reconcile SABRS general ledger to detail transaction history file						- Documentation indicating reconciliation of the SABRS general ledger to detail transaction history file. - Evidence of review and approval			
2	Print PRD Balance Reports to identify out of balance conditions						- PRD Balance Reports: - PRDBALW1 - PRDBALW3 - PRDBALW5 - PRDBAL1K - PRDBAL3C			
3	Research through detail transaction history file						- Transaction History File			
4	Correct errors/out of balance conditions resulting from SABRS general ledger balancing reports						- Log of Journal Vouchers indicating the correction including evidence of review and approval			
5	Automatic adjustments made to SABRS General Ledger Daily (or as requested)						- Log of daily adjustments made to SABRS General Ledger			
6	Reconcile Proprietary accounts to Budgetary accounts						- Documentation indicating reconciliation of Proprietary accounts to Budgetary accounts - Evidence of review and approval			
7	Reconcile Occurrences						- Documentation indicating that Occurrences have been reconciled. - Evidence of review and approval			
8	Reconcile DCAS transaction totals to disbursements in GL account 4571		Budget Execution				- Documentation indicating that DCAS transaction total have been reconciled to the disbursements in GL account 4571 - Evidence of review and approval			Treasury Disbursements are found in GLA 4902X, Collections are in 4252X17.
9	Compare FAD to SABRS GL account 4119 and 4170		Budget Execution				- Documentation of reconciliation - Evidence of review and approval			Add 4190 to GLA list. These accounts are compared to Warrant and Transfer Documents not the FAD's
10	Make adjusting entry into SABRS general ledger to correct disbursements or authorizations, If needed.		Budget Execution				- Journal Voucher indicating the adjusting entry into SABRS general ledger to correct disbursements or authorizations - Evidence of review and approval			
11	Extract Trial Balance feed from SABRS						- Trial Balance feed from SABRS			
12	Snapshot trial balance feed and save						- Snapshot of trial balance feed			
13	Extract transaction detail supporting trial balance						- Extracted transaction detail that supports the trial balance			

DDRS-B									
1	Attach SABRS Trial Balance to DDRS-B line of accounting		GL Team				- SABRS TB with associated line of accounting		
2	Research and reconcile any errors or suspended lines		GL Team				- Documentation indicating errors or suspended lines have been reconciled. - Evidence of review and approval		
3	Run automated balance check on Trial Balance in DDRS-B		GL Team				- Confirmation of balance check results.		
4	Research and correct any out of balance conditions noted		GL Team				- Documentation indicating the correction and research of any out of balance conditions noted. - Evidence of review and approval		
5	Run SF-133 in SMARTS for each appropriation reported by Marine Corps Compare to SF-133's produced in DDRS-B		Budget Execution				- SF-133 in SMARTS - SF-133 in DDRS-B		
6	If reconciling errors exist, adjust DDRS-B to agree with SMARTS		Budget Execution				- Documentation indicating reconciliation of SF-133 from DDRS-B to SF-133 from SMARTS. - Evidence of review and approval		
7	Perform Report 8 Reconciliation Process		Budget Execution				- Documentation indicating reconciliation of Report 8 - Evidence of review and approval		This process is not done until after reports are completed.
8	Adjustments for abnormal accounts payable		Budget Execution				- Journal Voucher indicating adjustment of abnormal accounts payable - Evidence of review and approval		
9	Adjustments for late registers		Budget Execution				- Journal Vouchers for Late Registers - Evidence of review and approval		
10	Adjustments to post refunds receivables		Budget Execution				- Journal Vouchers indicating adjustments to post refunds receivables - Evidence of review and approval		
11	Adjustments to allocate undistributed transactions						- Journal Vouchers indicating adjustments to allocate undistributed transactions - Evidence of review and approval		
12	Produce Budgetary Reports for each Appropriation		Budget Execution				- Budgetary Reports for each Appropriation: - SF-133 Report on Budget Execution - AR (M) 725Report on Reimbursements		
13	Complete Monthly Report Checklist		Budget Execution				- Finalized Monthly Report Checklist - Evidence of review and approval		
14	Remit Monthly Report Checklist, RECON Spreadsheet and Reports to General Ledger Division		Budget Execution				- SF-133 Report on Budget Execution - AR (M) 725Report on Reimbursements - Monthly Report Checklist - RECON Spreadsheet

**Financial Statement Compilation Process
Quarterly Process Validation Checklist
For the Period Ending __March 31, 2008**

Step No.	Task	Performed (Y/N)	Responsible Owner	Date	Supporting Documents (Y/N)	Supporting Document Description	Expected Audit Documentation	Approval (Y/N)	Responsible Approver	Comments
Balancing SABRS General Ledger										
1	Reconcile SABRS general ledger to detail transaction history file		GL Team				- Documentation indicating reconciliation of the SABRS general ledger to detail transaction history file. - Evidence of review and approval			
2	Print PRD Balance Reports to identify out of balance conditions		GL Team				- PRD Balance Reports: - PRDBALW1 - PRDBALW3 - PRDBALW5 - PRDBAL1K - PRDBAL3C			
3	Research through detail transaction history file		GL Team				- Transaction History File			
4	Correct errors/out of balance conditions resulting from SABRS general ledger balancing reports		GL Team				- Log of Journal Vouchers indicating the correction including evidence of review and approval			
5	Automatic adjustments made to SABRS General Ledger Daily (or as requested)		GL Team				- Log of daily adjustments made to SABRS General Ledger			
6	Reconcile Proprietary accounts to Budgetary accounts						- Documentation indicating reconciliation of Proprietary accounts to Budgetary accounts - Evidence of review and approval			
7	Reconcile Occurrences						- Documentation indicating that Occurrences have been reconciled. - Evidence of review and approval			
8	Reconcile DCAS transaction totals to disbursements in GL account 4571	Y	Budget Execution	4/3/2008			- Documentation indicating that DCAS transaction total have been reconciled to the disbursements in GL account 4571 - Evidence of review and approval	Y	GL Team	Treasury Disbursements are found in GLA 4902X, Collections are in 4252X17.
9	Compare FAD to SABRS GL account 4119 and 4170	Y	Budget Execution	4/1/2008			- Documentation of reconciliation - Evidence of review and approval	Y	GL Team	Add 4190 to GLA list. These accounts are compared to Warrant and Transfer Documents not the FAD's
10	Make adjusting entry into SABRS general ledger to correct disbursements or authorizations, If needed.	Y	Budget Execution	4/1/2008			- Journal Voucher indicating the adjusting entry into SABRS general ledger to correct disbursements or authorizations - Evidence of review and approval	Y	XXX	
11	Extract Trial Balance feed from SABRS		GL Team				- Trial Balance feed from SABRS			
12	Snapshot trial balance feed and save		GL Team				- Snapshot of trial balance feed			
13	Extract transaction detail supporting trial balance		GL Team				- Extracted transaction detail that supports the trial balance			

Not sure if we want to say "evidence of approval". The review process can be seen in the accountant's reconciliation spreadsheet. Right now if there is no difference noted by on the recon sheet there is no need for approval. However, at the end of our reporting cycle before reports are "certified" currently the GL team reviews a "packet" that the accountant puts together. This is one of the items that is checked.

DDRS-B										
1	Attach SABRS Trial Balance to DDRS-B line of accounting		GL Team				- SABRS TB with associated line of accounting			
2	Research and reconcile any errors or suspended lines		GL Team				- Documentation indicating errors or suspended lines have been reconciled. - Evidence of review and approval			
3	Run automated balance check on Trial Balance in DDRS-B		GL Team				- Confirmation of balance check results.			
4	Research and correct any out of balance conditions noted		GL Team				- Documentation indicating the correction and research of any out of balance conditions noted. - Evidence of review and approval			
5	Run SF-133 in SMARTS for each appropriation reported by Marine Corps Compare to SF-133's produced in DDRS-B	Y	Budget Execution		4/7/2008		- SF-133 in SMARTS - SF-133 in DDRS-B	NA	NA	
6	If reconciling errors exist, adjust DDRS-B to agree with SMARTS	Y	Budget Execution		4/8/2008		- Documentation indicating reconciliation of SF-133 from DDRS-B to SF-133 from SMARTS. - Evidence of review and approval	NA	NA	
7	Perform Report 8 Reconciliation Process	Y	Budget Execution		4/12-4/16		- Documentation indicating reconciliation of Report 8 - Evidence of review and approval	NA	NA	This process is not done until after reports are completed.
8	Adjustments for abnormal accounts payable	Y	Budget Execution		4-Apr		- Journal Voucher indicating adjustment of abnormal accounts payable - Evidence of review and approval	Y	XXX	
9	Adjustments for late registers	Y	Budget Execution		8-Apr		- Journal Vouchers for Late Registers - Evidence of review and approval	Y	XXX	
10	Adjustments to post refunds receivables	Y	Budget Execution		7-Apr		- Journal Vouchers indicating adjustments to post refunds receivables - Evidence of review and approval	Y	XXX	
11	Adjustments to allocate undistributed transactions						- Journal Vouchers indicating adjustments to allocate undistributed transactions - Evidence of review and approval			Not sure when this is done other than in conjunction with Abnormals. When we JV abnormals we JV up to the amount of the Undistributed Disbursements or Collections
12	Produce Budgetary Reports for each Appropriation	Y	Budget Execution		Various beginning 4/5 to 4/11		- Budgetary Reports for each Appropriation: - SF-133 Report on Budget Execution - AR (M) 725Report on Reimbursements	Y	XXX	
13	Complete Monthly Report Checklist	Y	Budget Execution		Various beginning 4/5 to 4/11		- Finalized Monthly Report Checklist - Evidence of review and approval	Y	XXX	
14	Remit Monthly Report Checklist, RECON Spreadsheet and Reports to General Ledger Division	Y	Budget Execution		Various beginning 4/5 to 4/11		- SF-133 Report on Budget Execution - AR (M) 725Report on Reimbursements - Monthly Report Checklist - RECON Spreadsheet	Y	GL	

DFAS-AFS										
1	Print and review Trial Balance extract from DDRS-B for each appropriation	Y	AFS	4/4-4/12			- Trial Balance extract from DDRS-B for each appropriation with an authorized reviewer(s) sign-off	NA	NA	
2	Research and correct any anomalies identified	Y	AFS and Budget Execution	4/4-4/12			- Documentation indicating correction of any anomalies identified - Evidence of review and approval	Y	XXX	
3	Upload DDRS-B trial balance and budgetary import sheets to DFAS-AFS	Y	AFS	6-Apr		Upon Final Report generation in DDRS-B by Budget Execution Team	- Documentation (i.e., screenshot) indicating that the DDRS-B Trial Balance and budgetary import sheets have been uploaded into DDRS-AFS from DDRS-B	Y	Accountant	This task is not completed until all BE reports are finalized in DDRS-B.
4	Reconciliations run in DDRS-AFS	Y	AFS	Various beginning 4-5/4-12		Reconciliation Report	- Documentation indicating that reconciliations have been run in DDRS-AFS - Evidence of review and approval	NA	Accountant	This task is performed on a daily basis after the TB is uploaded.
5	Research and correct errors and repeat upload	Y	AFS	12-Apr		Reconciliation Report	- Evidence of research and corrections - Evidence of review and approval before the repeat of the upload	Y	Accountant/Supervisor	
6	Perform and document data call sanity checks	Y	AFS	4/01-4/12		Reconciliation Report	- Data Call Sanity Checks documentation	NA	Accountant	
7	Adjustments made for data calls	Y	AFS	4/12-4-14		Reconciliation Report	- Journal Vouchers indicating adjustments been made for data calls - Evidence of review and approval	Y	Accountant/Supervisor	
8	Trading Partner adjustments	Y	AFS	12-Apr		Trading Partner to Trial Balance Report	- Journal Vouchers indicating adjustments been made for Trading Partner adjustments - Evidence of review and approval	Y	Accountant/Supervisor	
9	Perform Manual Fund Balance with Treasury Reconciliation	Y	AFS	12-Apr		GWA FBWT reconciliation to Trial Balance USSGL 1010	- Documentation indicating reconciliation of Manual Fund Balance with Treasury - Evidence of review and approval	Y	Accountant	The MRD reports are cross checked for each TI 17 Appropriation.
10	Prepare Draft Statements	Y	AFS	12-Apr			- Draft Statements - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements	Y	Accountant	
11	Prepare Footnote Disclosures	NA	AFS	NA	NA	Per Attachments 2A, 3, and 3A	- Footnote Disclosures	NA	Accountant	3rd & 4th Quarter
12	Review Draft Statements (DFAS-AFS)	Y	AFS	12-Apr			- Authorized RFA reviewer(s) sign off of Draft Statements: - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements	Y	Accountant and Supervisor	Each statement is balanced for accuracy.
13	Remit Draft Statements to RFA for review (RFA)	Y	AFS	12-Apr			- Authorized reviewer(s) sign off of Draft Statements: - Balance Sheet - Statement of Net Cost - Statement of Changes in Net Position - Statement of Budgetary Resources - Statement of Financing - Notes to the Financial Statements	Y	Accountant	The Balance analysis is prepared by AFS and HQMC and submitted for review. The other statements are in DDRS-AFS and rolled into the DONs figures for government wide reporting.

No review or sign off is done that I know of? The AFS team extracts the DDRS-B trial balance and reviews to insure that is in balance and looks for abnormal. If differences are found AFS accountant notifies supervisor and goes back to DDRS-B accountant responsible for that appropriation

UNITED STATES MARINE CORPS PROCEDURES PERFORMED

Scope:

Audit Readiness and Business Transformation – Balance Sheet (BS) Reconciliation and Crosswalk Comparison Analysis
Fiscal Year (FY) 2008 – Quarter 1 (Q1)

Objectives:

The purpose of this analysis was to (1) provide the United States Marine Corps (USMC) with a reconstructed Balance Sheet (BS) using the FY 2008 Q1 Defense Departmental Reporting System - Audited Financial Statements (DDRS-AFS) and compare to the published Defense Departmental Reporting System - Audited Financial Statements (DDRS-AFS) BS and (2) validate the BS process is consistent with the United States Standard General Ledger (USSGL).

To achieve this objective, the process that follows was achieved in two phases:

1. Balance Sheet Reconciliation - Reconstruct the BS using the DDRS-AFS trial balance via the BS crosswalk and compare the reconstructed BS to the published DDRS-AFS BS.
2. Validate that the Standard General Ledger (SGL) accounts crosswalk to the BS is consistent with USSGL standards as stated in the United States Treasury website.

Data Utilized:

The following data files were utilized to achieve the above objectives:

Data File Names	Descriptions	Provided by	Date Provided
TB FY08 Q1 DDRS_AFS.02.14.2008.XLS	DDRS AFS Trial Balance	Extracted from DDRS	2/19/2008
FY08Q1_BS_CROSSWALK.XLS	DDRS-AFS to Balance Sheet Crosswalk	Extracted from DDRS	2/22/2008
FS FY08 Q1 DDRS_All 02 14 2008.xls	DDRS-AFS Financial Statements	Extracted from DDRS	2/14/08
USSGL_BS_REV.xls	USSGL Balance Sheet Guidelines downloaded from the United States Treasury website - http://www.fms.treas.gov/ussgl/selection_page.html	Downloaded from the Internet	2/21/2008

Overview of Developed Programs:

This section provides an overview of the specific programs developed to accomplish the above objectives.

Program Name	Input(s)	Output(s)	Purpose
USMC balance sheet.sas	FY08Q1TB_<Appropriation>.csv <0735, 1105, 1106, 1107, 1108, 1109, 1319, 1508, 5095, Direct, Shared> FY08Q1_BS_Crosswalk.csv	Balance Sheet Recon.xls	The purpose of the program was to reconstruct the BS using the DDRS-AFS trial balance.
BS_CONSISTENCIES.SAS	USSGL_BS.csv FY08Q1_BS_CROSSWALK.csv	BS_INCONSISTENCIES.XLS	The purpose of the program was to check for inconsistencies between DDRS-AFS BS and USSGL Balance Sheet Crosswalk using the USSGL guidelines downloaded from the internet.

Procedures Performed:

This section provides a detailed description of the procedures performed for each phase to achieve the above objective.

Balance Sheet Reconciliation:

This section provides a two part detailed description of the procedures performed for the BS reconciliation analysis. To compare the reconstructed BS to the DDRS-AFS BS, two parts were performed. The initial section describes the procedures used to reconstruct the BS by appropriation using the DDRS-AFS trial balance and compare to the DDRS-AFS BS by appropriation. The second section describes the procedures performed to compare the reconstructed Consolidated BS to the DDRS-AFS Consolidated BS. The end results of the two parts are included in the final workbook for comparison.

- I. The following procedures were performed to reconstruct the BS by appropriation using the DDRS-AFS trial balance and compare to the DDRS-AFS BS by appropriation.
 1. Convert the DDRS-AFS trial balances to a comma separated value format. Read in the DDRS-AFS trial balances by appropriation and create datasets by appropriation. Control totals were provided within the SAS log.

2. Split the resultant datasets in step (1) into two separate datasets and assign the appropriate balance and balance indicator¹. The two datasets represent the beginning balance and the ending balance. This step was needed to assign the appropriate balance and balance indicator as the BS crosswalk utilizes this information for mapping.
3. Append the two datasets in step (2) with the appropriate indicators and create one dataset. In preparation to merge with the BS crosswalk, create an ID variable by concatenating a string of the other variables, see SAS log for details.
4. Convert the BS crosswalk to a comma separated value format and read in the BS crosswalk as a SAS dataset. In preparation to merge with the DDRS-AFS trial balance, create an ID variable by concatenating a string of the other variables, see SAS log for details.
5. Merge the BS crosswalk dataset created in step (4) with resultant datasets in step (3) by the variable ID. If the BS Line field from the BS crosswalk, is not equal to '1' then multiply the balance by negative 1. This is done to match how the numbers are displayed on the BS.
6. Summarize the data in step (5) by Appropriation and BS Line and export to Excel for further BS reconciliation analysis. Control totals were provided within the SAS log.
7. Summarize the data in step (5) by Appropriation, BS Line and the rest of the fields in the ID string and export to Excel to display the detail data in **Tab 3 "3. Detail Data Crosswalk Level"** in the workbook. Control totals were provided within the SAS log.
8. Create a new worksheet and summarize the data in step (6) by BS Line and appropriation using a pivot table.

Note: Both worksheets in step (6) and (8) were hidden in the workbook.
9. Use the summarized data from the pivot table in step (9) to populate worksheet "**2. Appropriation BS Recon**" of the workbook. This is the reconstructed BS report.
10. Use the DDRS-AFS BS reports to populate worksheet "**6. Data from BS Report.**"

Note: The worksheet in step (10) was hidden in the workbook.
11. Use the data in step (10) to populate worksheet "**2. Appropriation BS Recon**" of the workbook. This is the DDRS-AFS BS report.

¹ DDRS-AFS Balance Sheet crosswalk utilizes a balance indicator, either beginning or ending, to assign the appropriate balance for each line.

12. Compare the reconstructed BS from step (9) to the DDRS-AFS BS in step (11) and identify variances.

II. The following procedures were performed to compare the reconstructed BS to the DDRS-AFS consolidated BS.

1. To reconstruct the consolidated BS, added the DDRS-AFS component level BS from the pivot table in step (8) above. See **Tab 1 “1. Consolidated BS Recon”**
2. Compare the reconstructed consolidated BS to the DDRS-AFS consolidated BS and identify variances.

Balance Sheet Crosswalk Analysis:

1. Prior to reading in the USSGL crosswalk, added BS Line as another column to the USSGL crosswalk in order to correspond with DDRS-AFS BS crosswalk. The added BS Line was created by comparing the USSGL crosswalk BS line description to the DDRS-AFS BS crosswalk line description.
2. The modified USSGL and DDRS-AFS BS crosswalks were read into permanent SAS datasets.
3. The USSGL and DDRS-AFS BS datasets created in step (2) were sorted and merged on BS Line and SGL. Variances found in AFS and not USSGL were exported to the workbook.

Summary of Results:

Balance Sheet Reconciliation:

Using the DDRS-AFS trial balance, USMC FY08 Balance Sheets were compiled. The variances between the reconstructed Consolidated Balance Sheet and DDRS-AFS Consolidated Balance Sheet are summarized below.

Balance Sheet Line	Variance Amount
1. ASSETS (Note 2)	
A. Intragovernmental:	
1. Fund Balance with Treasury (Note 3)	
a. Entity	0.05
3. Accounts Receivable (Note 5)	(475,173.52)
F. General Property, Plant and Equipment,Net (Note 10)	(0.05)
3. LIABILITIES (Note 11)	

A. Intragovernmental:		
1. Accounts Payable (Note 12)		(475,173.52)
5. NET POSITION		
B. Unexpended Appropriations - Other Funds		0.11
C. Cumulative Results of Operations - Earmarked Funds		0.24

Balance Sheet Crosswalk Comparison Analysis:

Five unique BS Line-SGL combinations were not consistent with USSGL Guidelines. See **Tab 4 “4. BS Crosswalk Comparison”** of the workbook for the full detail of all 26 variances.

The following BS Line-SGL combinations were found to be inconsistent:

BS Line	BS Line Description	SGL
1A1B	b. Non-Entity Seized Iraqi Cash	1010
1A1C	c. Non-Entity-Other	1010
1A1C	c. Non-Entity-Other	1090
1A4	4. Other Assets (Note 6)	1350
3F	F. Other Liabilities (Note 15 & Note 16)	2160

Workbooks:

The following workbooks resulted from the procedures:

Workbook
USMC FY08Q1 Balance Sheet Reconciliation – Workbook
USMC FY08Q1 SBR / BS Crosswalk Comparison Analysis - Workbook

**US Marine Corps
Fiscal Year 2008 Q1
DDRS-AFS Balance Sheet Reconciliation**

Section 0A. Objective

Present results of reconciliation of the US Marine Corps (USMC) Fiscal Year 2008 Q1 (FY08Q1) Defense Departmental Reporting System - Audited Financial Statements (DDRS-AFS) trial balance to the DDRS-AFS Balance Sheet (BS).

Section 0A. Methodology

The DDRS-AFS trial balance and DDRS-AFS BS crosswalks were used to reconstruct the BS report. The reconstructed BS were then compared to the DDRS-AFS BS report.

Data Source:

1. DDRS-AFS Trial Balance (extracted from DDRS)
2. Balance Sheet Crosswalk (extracted from DDRS)
3. DDRS-AFS Balance Sheet (extracted from DDRS)

Section 0C. Results

Using the DDRS-AFS trial balance, USMC FY08 Balance Sheets were compiled. The variances between the reconstructed Consolidated Balance Sheet and DDRS-AFS Consolidated Balance Sheet are summarized below.

Observations:

Balance Sheet Line	Variance Amount
1. ASSETS (Note 2)	
A. Intragovernmental:	
1. Fund Balance with Treasury (Note 3)	
a. Entity	0.05
3. Accounts Receivable (Note 5)	(475,173.52)
F. General Property, Plant and Equipment,Net (Note 10)	(0.05)
3. LIABILITIES (Note 11)	
A. Intragovernmental:	
1. Accounts Payable (Note 12)	(475,173.52)
5. NET POSITION	
B. Unexpended Appropriations - Other Funds	0.11
C. Cumulative Results of Operations - Earmarked Funds	0.24

Detail:

See the following tabs for detail results of this analysis:

[1. Consolidated BS Recon](#)

Comparison between the DDRS- AFS consolidated Balance Sheet and the reconstructed consolidated Balance Sheet.

[2. Appropriation BS Recon](#)

Comparison between the DDRS-AFS Balance Sheet and the reconstructed Balance Sheet by appropriation.

[3. Detail Data Crosswalk Level](#)

Detail data at the crosswalk level used in the above analysis.

Section 0D. Recommendations

Recommend USMC review consolidated Balance Sheet variances (highlighted column F on tab 1) and Balance Sheet variances (highlighted columns D,G,J,M,P,S,V,Y,AB on tab 2) with DFAS-KC in order to identify additional and/or revised logic or data that may be required to complete the reconciliation.

United States Marine Corps Financial Statement Compilation Observations and Recommended Corrective Actions

Purpose:

The purpose of this document is to provide observations found during the preparation of the Financial Statement Compilation documentation package and recommendations for the remediation of those observations. Corrective actions performed by USMC in result the noted observations and recommendations are presented in [Tab C.8](#). The Remediation Action Plan developed to resolve the noted observations are presented in [Tab G.1](#).

Source:

The observations summarized below are the result of numerous interviews with Headquarters Marines Corps (HQMC) - Programs and Resources, Accounting and Financial Systems Branch (HQMC – RFA), and the Defense Finance and Accounting Services, Kansas City Office (DFAS – KC) with regards to quarterly general fund financial reporting. All transaction detail was extracted from the Marine Corps’ Standard Budgeting, Accounting, and Reporting System (SABRS). All financial reporting crosswalks and journal voucher files were extracted from the Defense Department Reporting System (DDRS).

Scope:

The scope of this segment is limited to the compilation of the Balance Sheet and Statement of Budgetary Resources (SBR) for the current Fiscal Year 2008 (FY08) reporting period –FY08 Quarter 1.

Financial Statement Compilation Segment	
Fund Financial Statement: Balance Sheet and Statement of Budgetary Resources	Process: Financial Reporting
Organization Name: United States Marine Corps (USMC), Programs and Resources Department (P&R), Accounting and Financial Systems Branch (RFA)	
Description of Work Performed:	
<p>As part of our Marine Corps Financial Improvement Initiative (FII) - Financial Statement Reconstruction effort, the following procedures were performed:</p> <ul style="list-style-type: none"> • Conducted site visits to the Defense Finance and Account Service – Kansas City Center (DFAS-KC). • Reconciled the SABRS History Files to the SABRS Trial Balance Extraction files. This analysis was conducted in three separate efforts using (1) the RFA provided FY07 SABRS History Files, (2) DFAS-KC provided FY07 SABRS History Files, and (3) DFAS-KC provided FY08 Q1 SABRS History Files. • Re-performed the Fiscal Year End (FYE) 2007 Statement of Budgetary Resources (SBR) and SF-133 financial statement compilations using the SABRS beginning and ending trial balances provided by DFAS-KC. • Re-performed the Fiscal Year 2008, Quarter 1, Statement of Budgetary Resources (SBR), SF-133, and Balance Sheet financial statement compilations using the SABRS beginning and ending trial balances provided by DFAS-KC. • Conducted U.S. Standard General Ledger (USSGL) compliance testing on the DDRS SBR/SF-133 and Balance Sheet Crosswalks. • Conducted relationship testing between the SBR and the Balance Sheet to determine if budgetary accounts agree with corresponding proprietary accounts. • Assessed the current process for external data call submission to DFAS-KC. This assessment covered a total of 53 data calls from DFAS-Indianapolis, DFAS-Columbus, The Office of Personnel Management (OPM), Department of Labor (DoL), Department of Navy (DoN) and the U.S. Army Corps of Engineers (USACE). • Conducted journal voucher detailed testing for a judgmental sample of 13 DDRS-B journal vouchers to determine if data quality errors existed within the sample of journal entries and if appropriate supporting documentation existed for each journal voucher. 	
<u>Observation #1 SABRS Trial Balance Reconciliation</u>	
<p><i>Date Found:</i> (07/18/2007) <i>Last Updated:</i> (02/20/2008) <i>Date Closed:</i> NA <i>Status:</i> Open <i>Working Paper Reference:</i> TBD <i>Location/Business Unit:</i> DFAS-KC / HQMC - RFA</p>	
<p>What is the requirement? An auditor's first level of assertion confidence is provided by the ability to support the financial statements at the transaction level. To fulfill this assertion, the Marine Corps must be able to produce transaction level detail to support each summary account on the SABRS trial balance.</p>	

What is the issue?

The Marine Corps is unable to support the trial balance and financial statements at the transaction level.

As part of our reconciliation of SABRS transaction detail to the SABRS trial balance, RFA provided a full year of transactions to support the Fiscal Year 2007 (FY07) trial balance. The SABRS History File that RFA provided did not reconcile to the SABRS trial balance.

RFA then took steps to task DFAS - KC with developing a methodology for the extraction of FY07 transactions that reconcile to the FY07 SABRS trial balance used for financial reporting. DFAS-KC provided a dataset, however they did not perform any reconciliation procedures or provide a methodology for performing a reconciliation. This dataset proved un-reconcilable. Further, files provided for FY08 Q1 proved un-reconcilable as well.

RFA and DFAS-KC are currently working to refine the SABRS detail extraction process and reconciliation methodology to support the SABRS trial balance extract.

What caused the issue?

Possible causes for reconciling variances include:

(1) *Timing:* DFAS-KC pulls the SABRS History detail separately from the SABRS Journal Voucher Log and combines the two files into one dataset to create the SABRS History File to support the trial balance. The SABRS History detail is pulled during the monthly batch process around the 1st of the month. The journal voucher file is run only after the general ledger team has finished making adjustments to the trial balance in DDRS-B, around the 10th of the month (all DDRS-B journal voucher adjustments are also recorded in SABRS). The SABRS trial balance extract, however is produced around the 4th of the month. The timing difference between when the journal voucher file is run, when the SABRS History detail is run, and when the SABRS trial balance is extracted results in a trial balance support file that includes more journal vouchers than are found in the trial balance extract file.

(2) *Automated Adjustments:* During the SABRS Trial Balance Extraction process, some trial balance accounts are calculated instead of using the pure general ledger format. One example of this occurs with internal funds distributions (allocations), which are needed for form DD 1002 Report (Appropriations Status Report) but do not impact the financial statements. According to DFAS-KC, this is the only calculated account, however full documentation for all calculations is needed. Without full logic to support these calculations, we were unable to re-perform the system processing and therefore could not reconcile to the SABRS Trial Balance Extract.

(3) *SABRS History File Extraction Method:* During the most recent reconciliation, DFAS-KC noted that we may be missing document identifier codes (DICs) AL1, DAA, IAW, and IAP in SABRS History Files extracted by DFAS-KC. RFA/DFAS-KC continues to investigate the complete set of DICs, the main posting logic indicator, needed to support the trial balance. The missing DICs appear to relate to internal fund distributions and allocations.

(4) *SABRS Trial Balance File Format:* The SABRS trial balance file includes fields called "Rec Types." These fields reside only on the general ledger file and were originally created to allow the Marine Corps to produce financial reports at multiple levels within the organization. When using the SABRS History Files to reconcile to the SABRS trial balance, these rec type fields have to be re-created. Currently, the logic used for creating these rec types, following the "key"

structure per the SABRS User Manual, results in variances. Without additional information on how to assign rec types to history transactions, we cannot reconcile to all lines the trial balance.

(5) *Other:* There are likely other unknown causes for reconciliation variances beyond those cited above.

What is the impact of the issue?

The Marine Corps cannot move forward with the audit readiness procedures required to present management assertions. Without a reconciled database, testing procedures cannot be performed.

What are recommendations for correction?

To obtain a supported SABRS trial balance, we recommend that:

- (1) The Marine Corps should extract the SABRS history file and journal voucher file on the same date as the SABRS trial balance extract.
- (2) The Marine Corps should consider removing all automated adjustments made to the SABRS trial balance file during the extract process in favor of a DDRS-B journal voucher adjustment process that allows for a complete audit trail.
- (3) The Marine Corps should include all DICs that affect the general ledger in the SABRS history file extraction.
- (4) The Marine Corps should develop, test, and document a methodology for assigning rec types to SABRS transaction history file records or define an alternate level (SABRS general ledger account level) to facilitate reconciliations.
- (5) The Marine Corps should fully document the trial balance extraction process. The process for extraction and reconciliation of the transaction level detail must be verifiable through third party review and re-performance. We suggest that the Marine Corps maintain the documentation to support the query design and process in a format that allows for efficient re-performance that can be repeated at a point in time.

Observation #2 – Adjustments to the SABRS General Ledger

Date Found: (11/26/2007)

Last Updated: (N/A)

Date Closed: (N/A)

Status: (open)

Working Paper Reference: (ex. Task 1 – Tab 1 – A.x)

Location/Business Unit: (DFAS-KC/GL)

Potential Error: Completeness and Validity

What is the requirement?

The Office of Management and Budget (OMB) Circular No. A-130 lists the policy and procedures for federal agencies to implement internal controls over the financial reporting and the reliability of financial statements. Specially, this Circular lists the specific financial statement assertions for which each agency should be able to reasonably make and provide supporting documentation. The DoD Financial Management Regulation (FMR), Volume 6A, Chapter 2 requires that DFAS establish and maintain controls to allow proper preparation of and adequate support for Journal Vouchers (JVs) to ensure each accurately records the financial events and that

documentation or a detailed audit trail exists.

What is the issue?

The Marine Corps cannot offer assurance that DFAS-Kansas City is reviewing, documenting, and approving adjustments made to the SABRS general ledger (GL) when the SABRS GL is adjusted to agree with the SABRS History File. When reconciling the SABRS General Ledger, if the SABRS GL does not agree with the SABRS History File, DFAS-KC/GL staff manually adjusts the SABRS GL. These adjustments are not logged, reviewed or approved.

What caused the issue?

The SABRS GL adjustments are not validated because DFAS-KC does not have the procedures in place to document, review, and approve the adjustments made to the SABRS GL after the reconciliation of the SABRS GL to the Transaction History File.

What is the impact of the issue?

The Marine Corps RFA branch cannot provide reasonable assurance during a financial audit that the necessary documentation or evidence is readily available to support any adjustments made to the SABRS GL. Additionally, if evidence is not obtained to verify the accuracy and validity of the general ledger, then preparation of the financial statement will not comply with related legislation and regulation.

Finally, by not validating the accuracy of the adjustments made to the SABRS GL, the risk of reporting inaccurate data on the USMC Financial Statements increases.

What are recommendations for correction?

To help ensure that adjustments to the SABRS GL are accurate and that documentation or a detailed audit trail exists, we recommend that DFAS-KC/GL improve its reconciliation procedures. Our specific recommendations focus on implementing processes for verifying the accuracy of the adjustments made to the SABRS GL, maintaining the necessary and appropriate supporting documentation, and clearly defining and implementing the processes to ensure consistency. It is essential that the Marine Corps provide guidance for improvement and support DFAS-KC throughout this improvement process.

Specifically, we recommend that DFAS-KC:

- Maintain the necessary supporting documentation for each adjustment in accordance with the Office of Management and Budget Circular No. A-130; the DoD Financial Management Regulation (FMR), Volume 6A, Chapter 2.
- Update the procedures for performing the SABRS GL adjustments to include processes for reviewing and approving the adjustments and maintaining a log of adjustments made to SABRS.
- Develop and implement internal controls to verify adherence to the documented policies and procedures.
- Provide staff with training to help them adequately utilize the procedures.

Observation #3 – External Data Call Journal Vouchers

Date Found: (11/26/2007)

Last Updated: (N/A)

Date Closed: (N/A)

Status: (open)

Working Paper Reference: (ex. Task 1 – Tab 1 – A.x)

Location/Business Unit: (DFAS-KC/AFS)

Relevant Assertion: Existence or Occurrence and Completeness

Potential Error: Completeness and Validity

What is the requirement?

The Office of Management and Budget (OMB) Circular No. A-130 lists the policy and procedures for federal agencies to implement internal controls over the financial reporting and the reliability of financial statements. Specifically, this Circular lists the specific financial statement assertions for which each agency should be able to reasonably make and provide supporting documentation. The DoD Financial Management Regulation (FMR), Volume 6A, Chapter 2 requires that DFAS establish and maintain controls to allow proper preparation of and adequate support for Journal Vouchers (JVs) to ensure each accurately records the financial events and that documentation or a detailed audit trail exists. Additionally, the DFAS Data Call Manual provides the background of the data call, the JV entry, and the necessary JV support for multiple data calls from both internal and external sources.

What is the issue?

The Marine Corps cannot offer assurance that DFAS-Kansas City is validating journal vouchers from external agencies for accuracy. Specifically, there were no processes in place by which the Marine Corps Accounting and Financial Systems Branch (RFA) verified that DFAS-KC validated that the JV data received from external sources was valid, reliable, and accurate. DFAS-KC accepted data from outside sources such as DFAS-Indianapolis, DFAS-Columbus, OPM, DoL, DoN and the USACE.

In addition, DFAS-KC did not verify that the JV amounts for 26 out of the 53 data calls were calculated accurately and properly supported by source documentation. The DFAS-KC Data Call Standard Operating Procedures (SOPs) stated that, for JV amounts, personnel are to “copy and paste the values from the external sources supporting documentation spreadsheet to the DFAS maintained spreadsheet.” However, the SOPs are not fully implemented and this method does not include procedures to verify that these totals are correct.

What caused the issue?

RFA did not have procedures in place to verify that DFAS-KC validated that the JV data received from external sources was valid, reliable, and accurate.

The JV’s were not validated because DFAS-KC does not have the necessary resources, staff, or procedures in place to validate the JV information received from outside sources and maintain the necessary supporting documentation in accordance with the Office of Management and Budget Circular No. A-130; the DoD Financial Management Regulation (FMR), Volume 6A, Chapter 2; and the DFAS Data Call Manual. In addition, DFAS-KC has not yet fully implemented or trained staff to utilize the data call SOPs.

What is the impact of the issue?

The Marine Corps RFA branch cannot provide reasonable assurance during a financial audit that the necessary documentation or evidence is readily available to support the validity and accuracy of each journal voucher amount. Additionally, if support evidence is not obtained to verify the accuracy and validity of each journal voucher amount and to identify the transaction-level supporting detail, then preparation of the financial statement will not comply with related legislation and regulation.

Finally, the risk of reporting inaccurate data on the USMC Financial Statements is increased by not validating the accuracy of the JV's made to account for external data calls.

What are recommendations for correction?

To ensure that JVs are accurate and that documentation or a detailed audit trail exists, we recommend that DFAS-KC/AFS improve its data call process and financial statement cycle. Our specific recommendations, found in Appendix A, focus on improving processes for collecting data call information, verifying the accuracy of the information received, maintaining the necessary and appropriate supporting documentation, and clearly defining and implementing the processes to ensure consistency. It is essential that the Marine Corps provide guidance for improvement and support DFAS-KC throughout this improvement process.

Observation #4– DDRS SBR and Balance Sheet Crosswalk Compliance

Date Found: (03/01/2008)

Last Updated: (03/05/2008)

Date Closed: (N/A)

Status: (open)

Working Paper Reference: (ex. Task 1 – Tab 1 – A.x)

Location/Business Unit: (DFAS-KC/AFS)

Relevant Assertion: Presentation/Disclosure

Potential Error: Compliance with Laws and Regulations

What is the requirement?

The Office of Management and Budget (OMB) Circular No. A-130 lists the policy and procedures for federal agencies to implement internal controls over the financial reporting and the reliability of financial statements. Specially, this Circular lists the specific financial statement assertions for which each agency should be able to reasonably make and provide supporting documentation. Further, OMB Circular No. A-127 requires that "reports produced by the systems that provide financial information, whether used internally or externally, shall provide financial data that can be traced directly to the SGL accounts."

What is the issue?

As part of the documentation of the Marine Corps financial statement compilation process, we performed an analysis of the DDRS Statement of Budgetary Resources and Balance Sheet crosswalks for compliance with the Treasury Financial Manual (TFM). Our analysis found several instances of noncompliance.

The DDRS SBR crosswalks shows account 4620 on line 9A Unobligated Balance Apportioned – Currently Available, while the TFM shows this account on line 9B Unobligated Balance Exempted from Apportionment.

The DDRS Balance Sheet crosswalk shows Entity Funds separately from Non Entity Funds on the face of the financial statements. The TFM now requires this disclosure in the notes to the financial statements. The DDRS Balance Sheet crosswalk also fails to display federal loans receivable, account 1350, in a separate line. This account is crosswalked to Federal Other Assets in DDRS. Finally, the DDRS Balance Sheet crosswalk fails to display Entitlement Benefits Due and Payable, account 2160, in a separate line. This account is crosswalked to line 3F, Other Liabilities – Non Federal in the DDRS crosswalk.

What caused the issue?

The DDRS office has not updated the DDRS crosswalks to comply with current Treasury Financial Manual reporting requirements.

What is the impact of the issue?

If the DDRS crosswalks are not updated to comply with changes to laws and regulations, the USMC could be out of compliance with the Treasury's financial statement form and content guidelines. However, the Marine Corps does not report accounts 1350 and 2160, therefore non compliance with the TFM is limited to the display of Non Entity Funds and the crosswalking of account 4620.

What are recommendations for correction?

The Marine Corps should work with DDRS to ensure that all financial statement lines are crosswalked in accordance with current Treasury guidelines.

Observation #5– DDRS Trial Balance Reconciliations

Date Found: (03/01/2008)

Last Updated: (03/05/2008)

Date Closed: (N/A)

Status: (open)

Working Paper Reference: (ex. Task 1 – Tab 1 – A.x)

Location/Business Unit: (DFAS-KC/AFS)

Relevant Assertion: Completeness

Potential Error: Completeness

What is the requirement?

The Office of Management and Budget (OMB) Circular No. A-130 lists the policy and procedures for federal agencies to implement internal controls over the financial reporting and the reliability of financial statements. Specially, this Circular lists the specific financial statement assertions for which each agency should be able to reasonably make and provide supporting documentation. Further, OMB Circular No. A-127 requires that "reports produced by the systems that provide financial information, whether used internally or externally, shall provide financial data that can be traced directly to the SGL accounts."

What is the issue?

As part of the documentation of the Marine Corps financial statement compilation process, we performed several reconciliations to validate source documentation provided by DFAS-KC. First, a reconciliation was performed between the SABRS FY08 Q1 trial balance and the DDRS-B FY08 Q1 trial balance. Next, a reconciliation was performed between the DDRS-B FY08 Q1 trial balance and the DDRS-ASF FY08 Q1 trial balance. Numerous variances were found during both reconciliations.

Specifically, the SABRS FY08 Q1 trial balance to DDRS-B FY08 Q1 trial balance reconciliation resulted in 47 lines with variances out of 986 total lines, equivalent to 4.77% of the total lines, and the DDRS-B FY08 Q1 trial balance to DDRS-AFS FY08 Q1 trial balance reconciliation resulted in 388 lines with variances out of 552 total lines, equivalent to 70.29% of the total lines.

What caused the issue?

While the exact cause of the variances is unknown, the lack of a well controlled and documented process is likely a factor. DFAS-KC does not maintain files to support the unadjusted DDRS-B trial balance or the unadjusted DDRS-AFS trial balance. The DDRS systems maintains up to four versions of the trial balance reports, however this does not ensure that a trial balance report will be maintained in unadjusted form. Further, it appears that financial reporting personnel have the capability to make adjustments to the DDRS trial balance data outside of the normal journal voucher process. All adjustments to the trial balance data should be documented to allow for a completed audit trail.

What is the impact of the issue?

Without a completely documented and supported financial statement compilation process, the Marine Corps cannot provide reasonable assurance during a financial audit that the necessary documentation or evidence is readily available to support the completeness of the financial statement compilation process. Additionally, if supporting evidence is not obtained to verify the accuracy and validity of each adjustment amount, then preparation of the financial statement will not comply with related legislation and regulation.

What are recommendations for correction?

The Marine Corps should implement a process to maintain all original files associated with the preparation of the financial statements. This documentation would include all unadjusted trial balances as well as all adjustment logs for the given reporting period.

Further, the Marine Corps should take steps to ensure that financial reporting personnel do not have the capability to alter system data outside of the normal journal voucher process.

Observation #6– Budgetary to Proprietary Relationships

Date Found: (03/01/2008)

Last Updated: (N/A)

Status: (open)

Working Paper Reference: (ex. Task 1 – Tab 1 – A.x)

Location/Business Unit: (DFAS-KC/AFS)

Relevant Assertion: Completeness

Potential Error: Completeness

What is the requirement?

Statement of Federal Financial Accounting Standards 7: Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting (SFFAS 7) requires that agencies reconcile budgetary and financial (proprietary) accounting information. Both the Statement of Financing and the Treasury Tie Point Project provide guidance on the normal relationships that must exist between budgetary and proprietary accounting.

What is the issue?

During our testing of the Marine Corps' FY08 Q1 Defense Departmental Reporting System – Audited Financial Statements (DDRS – AFS) trial balance, we found two instances of possible non compliance with budgetary to proprietary relationships.

First, we found a variance in the Unfilled Customer Order with Advance = Advances from Others relationship testing in the amount of \$34,783,894. This reconciliation variance appears to result from the DDRS-AFS reconciliation omitting of account 2310. DDRS does not show a value for this reconciliation. Account 2310 represents advances from others, which is a datacall journal voucher for the USMC. The only allowable variance here is for Treasury Transaction B142, disbursement of foreign currency on behalf of the operating fund. Explanation is needed as to why this account is not being included in this reconciliation. See Tab 2a, step #6 of the Budgetary to Proprietary Testing workbook.

Second, we found a variance in the Federal Receivables Proprietary = Receivables Budgetary relationship testing in the amount of -\$25,303,215. The variance is related to the amount of Public Receivables recorded in SABRS and included on the SF 133 and GLA 4251 (Foreign Military Sales & and other public entities on military bases with MOAs). Because there is no separate breakout of federal and nonfederal budgetary receivable accounts and this reconciliation only includes federal 1310, the amount of the variance is equal to the public receivables recorded in SABRS in GLA 4251. See DDRS-AFS/UFS Reconciliation Manual page 39. However, The USMC needs to shows proof of this authority (MOAs). See Tab 2a, step #9.

What caused the issue?

DFAS-KC reported that the USMC has MOAs allowing for the treatment of Foreign Military Sales and other activities with the public as a budgetary resource. However the cause for the variance between budgetary and proprietary accounting for advances is unknown.

What is the impact of the issue?

If the observed budgetary to proprietary relationship variances cannot be explained by valid accounting treatments the Marine Corps might not be presenting, disclosing, and/or recording certain financial transactions.

What are recommendations for correction?

To ensure that the Marine Corps is maintaining the proper accounting relationships, the MOAs allowing the Marine Corps to treat certain public receivables as a budgetary resource should be reviewed and made available as source documentation to support the current treatment of public receivables. The Marine Corps should also review the datacall transactions involving account 2310 to ensure that possible budgetary effects are not going unrecorded.

Observation #7 – DDRS-B Journal Voucher Documentation

Date Found: (3/26/2008)

Last Updated: (N/A)

Date Closed: (N/A)

Status: (open)

Working Paper Reference: C.3 Journal Voucher Detail Testing

Location/Business Unit: (DFAS-KC)

Potential Error: Completeness and Validity

What is the requirement?

The Office of Management and Budget (OMB) Circular No. A-130 lists the policy and procedures for federal agencies to implement internal controls over the financial reporting and the reliability of financial statements. Specially, this Circular lists the specific financial statement assertions for which each agency should be able to reasonably make and provide supporting documentation. The DoD Financial Management Regulation (FMR), Volume 6A, Chapter 2 requires that DFAS establish and maintain controls to allow proper preparation of and adequate support for Journal Vouchers (JVs) to ensure each accurately records the financial events and that documentation or a detailed audit trail exists.

What is the issue?

The Marine Corps cannot offer assurance that DFAS-Kansas City is reviewing, documenting, and approving JVs made in DDRS-B. During DDRS-B JV detail testing (See C.3), we noted that sufficient supporting documentation was not provided by DFAS-KC for three out of 13 JVs selected for testing.

What caused the issue?

DFAS-KC did not have procedures in place to ensure that supporting documentation was maintained for each JV posted to DDRS-B.

In addition, RFA did not have procedures in place to verify that DFAS-KC validated that the JV posted to DDRS-B was valid, reliable, and accurate.

What is the impact of the issue?

The Marine Corps RFA branch cannot provide reasonable assurance during a financial audit that the necessary documentation or evidence is readily available to support any JVs made to DDRS-B. Additionally, if evidence is not obtained to verify the accuracy and validity of the general ledger, then preparation of the financial statement will not comply with related legislation and regulation.

Finally, by not validating the accuracy of the JVs made to DDRS-B, the risk of reporting inaccurate data on the USMC Financial Statements increases.

What are recommendations for correction?

To help ensure that JVs to DDRS-B are accurate and that documentation or a detailed audit trail exists, we recommend that DFAS-KC improve its reconciliation procedures. Our specific recommendations focus on implementing processes for verifying the accuracy of the JVs made to DDRS-B, maintaining the necessary and appropriate supporting documentation, and clearly defining and implementing the processes to ensure consistency. It is essential that the Marine Corps provide guidance for improvement and support DFAS-KC throughout this improvement process.

Specifically, we recommend that DFAS-KC:

- Maintain the necessary supporting documentation for each JV in accordance with the Office of Management and Budget Circular No. A-130; the DoD Financial Management Regulation (FMR), Volume 6A, Chapter 2.
- Communicate the procedures for performing the JV to include processes for reviewing and approving the JVs and maintaining a log of JVs made to DDRS-B.
- Develop and implement internal controls to verify adherence to the documented policies and procedures.
- Provide staff with training to help them adequately utilize the procedures.

APPENDIX A
Data Call Recommendations

Data Call	Request and verify receipt of JV support documentation for JV summarized amounts	Reconcile the JV amounts to the supporting documentation for accuracy, completeness, and consistency	Conduct proper management review of JV amounts	Develop and implement Standard Operating Procedures	Develop and implement internal controls to verify adherence to documented policies and procedures

Introduction to Tab D

Purpose: Presents the source documentation represented in the process and procedures.

Tab B, USMC Segment Overview, defined and documented the standard operating procedures (SOPs), process flows, process memorandums, and key controls of processes within the Financial Statement Compilation Segment, while Tab C defined the verification procedures that were performed to confirm that sufficient support exists to validate that the documented procedures were performed in accordance with Marine Corps guidance.

The documents referenced below represent the source documents described in the process documentation (Tab B) and used in the verification efforts (Tab C) as performed on the Financial Statement Compilation segment. The results of the analysis of the below source documentation can be found in Tab C.1 through Tab C.7. The observations found during the analysis of the below source documents can be found in Tab C.8.

Reference	Document	Description
D.1	SABRS Trial Balance	FY 2008 Quarter 1 SABRS Trial Balance. Due to size limitations, the SABRS Trial Balance can be found on the attached compact disc.
D.2	DDRS-B Trial Balance	The DDRS-B Trial Balance documents the DDRS-B Trial Balances used for the production of the USMC FY 2008 Quarter 1 financial statements and provides the input files for compilation testing.
D.3	DDRS-B Journal Voucher Log	The DDRS-B Journal Voucher Log documents the DDRS-B Journal Vouchers used for the production of the USMC FY 2008 Quarter 1 financial statements and provides the input files for compilation testing.
D.4	DDRS-AFS Trial Balance	The DDRS-AFS Trial Balance documents the DDRS-AFS Trial Balances used for the production of the USMC FY 2008 Quarter 1 financial statements and provides the input files for compilation testing.
D.5	DDRS-AFS Journal Voucher Log	The DDRS-AFS Journal Voucher Log documents the DDRS-AFS Journal Vouchers used for the production of the USMC FY 2008 Quarter 1 financial statements and provides the input files for compilation testing.
D.6	External Data Call List	The External Data Call List contains unique data call items and their respective appropriation and source.
D.7	DDRS Feeder and Financial Crosswalks	The DDRS Feeder and Financial Crosswalks documents the crosswalks used to create the DDRS-B trial balances from the SABRS trial balance and provides the input files for compilation testing.
D.8	Balance Sheet	Balance Sheet for FY 2008 Quarter 1
D.9	Statement of Budgetary Resources	Statement of Budgetary Resources for FY 2008 Quarter 1

**U.S Marine Corps
Financial Statement Compilation
SABRS Trial Balance FY08 Q1**

Title:	FY08 Q1 SABRS Trial Balance Extracts
Purpose:	To document the SABRS trial balances used for the production of the USMC FY08 Q1 Financial Statements and provide the input files for compilation testing.
Source:	Defense Finance and Accounting Services, Kansas City Office (DFAS-KC)
Scope:	FY08 Q1 SABRS Trial Balance Extracts for Marine Corps Stand Alone General Fund Financial Statement Appropriations
Methodology:	See Methodology Tab
Summary:	<p>The following monthly SABRS trial balance extractions were used to compile the USMC FY08 Q1 financial statements:</p> <p>FY08 Q1 Regular This tab contains the December 2007 trial balance extract that supports the FY08 Q1 financial statement compilation. These amounts represent Year to Date (YTD) transactions only. DDRS-B contains a roll forward beginning balance.</p> <p>FY08 Q1 - Undistributed This tab contains the December 2007 trial balance extract that supports the undistributed trial balance adjustments for the FY08 Q1 financial statement compilation. These amounts represents treasury (DCAS) inception to date balances for disbursements and collections. These are offset by DDRS undistributed journal vouchers to adjust the SABRS transaction based collection and disbursement accounts to match treasury.</p> <p>The following monthly SABRS trial balance extractions were used to compile the USMC monthly reports for October and November 2007:</p> <p>November 2007 - Regular This tab contains November 2007 Year to Date (YTD) balance. This is used for monthly reporting.</p> <p>November 2007 - Undistributed This tab contains November 2007 treasury (DCAS) inception to date balances for disbursements and collections. This is used for monthly reporting.</p> <p>October 2007 - Regular This tab contains October Year to Date (YTD) balance. This is used for monthly reporting.</p> <p>October 2007 - Undistributed This tab contains November 2007 treasury (DCAS) inception to date balances for disbursements and collections. This is used for monthly reporting.</p>

**U.S Marine Corps
Financial Statement Compilation
SABRS Trial Balance FY08 Q1**

Methodology:

DFAS - KC provided the SABRS trial balance extracts used for compilations/analysis.

The SABRS Feeder File Trial Balances cannot be extracted from DDRS. DFAS - KC stores the feeder files, extracted by DFAS Systems, in Excel and Text on the following drive path:

K drive: K/ACCTING/ACZ/gen ledger/DDRS-B/Monthly Feeder Files.

The SABRS version of the trial balance extract is in a data file, that can be downloaded -

QUAN7.GF\$SABRS.S71HAA60.DDRSBREG.G0046V00. These dataset are generation-- the one listed is the latest generation.

Note 1: The trial balance extractions contain year to date amounts only. The DDRS beginning balance is derived from the prior periods closing balance.

Note 2: The trial balance extractions contain more appropriations than are used in financial statement reporting. The Marine Corps only reports on the following basic symbols found in these trial balance extracts: 0735, 1105, 1106, 1107, 1108, 1109, 1149, 1160, 1319, 1508, 2115, 2116, 5095.

Note 3: The amounts extracted from SABRS are reformatted for use in DDRS. These reformatted amounts are shown in the Amount field.
