MARINE CORPS UNACCOMPANIED HOUSING
GUARANTEES AND RESIDENT RESPONSIBILITIES

The Marine Corps Unaccompanied Housing (UH) program supports operational readiness by ensuring eligible service members aboard our installations are provided high-quality UH and related amenities. A commitment to providing a quality of life commensurate with our single and unaccompanied service members’ service and sacrifice is integral to recruitment and retention. The Marine Corps continues to optimize the UH program through investments in UH facilities, development of the UH workforce and refinement of policies, processes and oversight procedures.

The following codifies the guarantees pledged to our UH residents and articulates UH residents’ responsibilities and rules of conduct pertaining to their UH. Installation commanders are responsible for ensuring UH meet these standards.
