Your Role in Protecting the Security of the United States Mail

As a Postal Service employee you must preserve and protect the security of all mail in your custody from unauthorized opening, inspection, tampering, delay, reading of the contents or covers, or other unauthorized acts. With few exceptions, no one, except those employed by the Postal Service for that purpose (such as in the Dead Mail offices), may break or permit the breaking of the seals of any class mail matter without a federal search warrant, even though it may contain criminal or otherwise nonmailable matter, or would furnish evidence of the commission of a crime. Any postal employee committing or allowing any of these unauthorized acts is subject to administrative discipline and/or criminal prosecution. Mail security instructions are contained in section 115 of the *Domestic Mail Manual*.

Various federal laws provide for criminal penalties for the theft, delay, desertion, destruction, or obstruction of U.S. Mail. Title 18, United States Code, Section 1709, *Theft of Mail Matter by Officer or Employee*, states:

"Whoever, being a Postal Service officer or employee, embezzles any letter, postal card, package, bag, or mail, or any article or thing contained therein entrusted to him or which comes into his possession intended to be conveyed by mail, or carried or delivered by any carrier, messenger, agent, or other person employed in any department of the Postal Service, or forwarded through or delivered from any post office or station thereof established by authority of the Postmaster General or of the Postal Service; or steals, abstracts, or removes from any such letter, package, bag, or mail, any article or thing contained therein, shall be fined not more than \$2,000 or imprisoned not more than five years, or both."

Acknowledgment

I understand that it is my duty to report immediately to my supervisor or to a Postal Inspector any information I may have of any theft, pilferage, unlawful delay of mail, or evidence of intent to commit such a crime. I fully understand that it is a crime, punishable by fine or imprisonment, or both, to knowingly or willfully obstruct or delay the mail, or to steal or attempt to steal mail of any kind, even if it appears to be worthless, or to allow others to do so. My signature below indicates that I have read and fully understand the above and I will comply.

c. At the time that they accept custody of the mail from the serving unit mailroom each day, they must print the current date, print their full name, signature on the Unit/Mail Clerk Receipt Log in a neat and legible manner, to officially certify that they have received the mail for their section and that they are responsible for its safe, secure, efficient, and proper handling and delivery.

e. To assist in the timely and efficient delivery/forwarding of mail, they must make every effort to know every member of their section and what their current status is each day (TAD, on leave, UA, hospitalized, special liberty, transferred, secured early, etc.). They may use up-to-date rosters, morning reports and other official source documents to accomplish this.

4. HANDLING AND DELIVERY OF PERSONAL MAIL

a. DD Form 285 authorizes them to receipt for, handle, and deliver all forms of non-accountable personal mail addressed to the members of their section. They must understand that they are not authorized to handle or deliver personal accountable mail (registered, numbered insured, certified, and express). Any personal accountable mail that they may inadvertently receive from the mailroom must be **immediately** returned.

b. They must **personally deliver** all non-accountable personal mail that they receive from the serving unit mailroom, **directly to the individual** it is addressed to on the **same day** they receive it. Personal mail must never be left on racks, under doors, in or on desks, sent through guard mail, etc., in order to effect delivery. Likewise, personal mail may not be given to the addressee's OIC/NC OIC, roommate, squad leader, or any other individual for subsequent delivery to the addressee; unless that individual has been authorized by the addressee in writing to receipt for mail on his or her behalf. Proper delivery occurs when custody of a piece of U.S. mail is directly passed from the hand of the appointed individual to the hand of the addressee, or to the hand of an agent which the addressee has authorized in writing to receipt for mail, and then only after the identity of the addressee/agent has been properly verified.

c. They must **personally deliver** all PS Forms 3849 (Notice of Personal Accountable Mail) **directly to the addressee** as early as possible on the date they receive them. PS Form 3849 shall be treated/handled in the same manner as personal mail with regard to security and delivery procedures.

d. Any personal mail or PS Form 3849's that cannot be properly delivered as described above, are considered "undeliverable." As a authorized agent, they are **not authorized** to retain undeliverable personal mail overnight; therefore, all personal mail and PS Form 3849's which cannot be personally delivered to the addressee, **must** be returned to the serving unit mailroom for overnight storage or forwarding as appropriate, **on the same day** they receive them. When returning undeliverable personal mail and PS Form 3849's to the serving unit mailroom, they must provide the unit mailroom with written documentation (i.e., post-it note or other documentation) indicating the reason for non-delivery. They **must** never deface any piece of mail by writing directly onto it for any reason.

e. When delivering mail to the addressee, they must advise all personnel not using a correct and complete address to immediately notify their correspondents (preferably in writing) as to their correct mailing address.

5. **HANDLING AND DELIVERY OF OFFICIAL MAIL.** They must further understand that they are **NOT AUTHORIZED** to receipt for, handle, or deliver any form of official accountable mail (registered, express, numbered insured, return receipt for merchandise or certified). Official mail, which is addressed, to an individual by billet/duty title, (i.e., Legal Officer, Adjutant, Supply Chief, First Sergeant, Training NCO, etc.) may be delivered along with the sections mail. Any official mail that they **cannot deliver** on the date of receipt **must be returned** to the serving mailroom **immediately**, on the same day. The mail **may not be held over night** by the unit mail orderly.

6. **CERTIFICATION.** By my signature hereon, I certify that I have read this Statement of Understanding and fully understand my duties and responsibilities as outlined herein. Further, I have been personally briefed by my Section OIC/SNC OIC or Supervisor with regard to my duties and responsibilities, and fully understand the consequences of my failure to perform them precisely as described above. I have received a copy of this Statement of Understanding to guide me in the daily performance of my duties as an authorized mail orderly for this section.

Chapter 4

Postal Service Center (PSC)

1. General Information

a. A PSC shall be provided to facilitate mail delivery via mail delivery receptacles.

b. All Marine Corps activities and supported organizations that operate a PSC must comply with references (b), (n), and this chapter.

2. Receptacle Assignment

a. Receptacles are assigned to personnel where USPS does not provide mail delivery service. Do not issue receptacles to military retirees who are not authorized MPO privileges or reside in the U.S.

b. Exceptions to policy may be granted via a written request to the MACOM. Request must contain duration and special circumstance that serves the best interest of the command. Receptacles are not authorized to be used for any private business venture.

c. Assign receptacle according to latest issue date to member/sponsor of the command authorized to receipt for mail through the MPS.

d. Record the member's name, date of receptacle issue, receptacle combination, and the combination change date on a DD Form 2262, Receptacle Record (Figure 4-1). Transfer the last entry of completed receptacle record to subsequent DD Form 2262, as required. DD Form 2262 must be retained for two years after last recorded close date.

e. A DD Form 2262 database may be maintained locally. The DD Form 2262 electronic data shall be protected under the conditions of the Privacy Act of 1974.

f. Record the member's name, rank, EDIPI and receptacle assignment date on the DFC. List the sponsored dependent names in DROPPED block, and annotate receptacle number in UNIT ASSIGNED block. File the DFC per the DFC system requirements.

g. Label the rear of each assigned receptacle with the member's name. Retirees or restricted service receptacles must be labeled with prefix or suffix (R).

h. The prefix or suffix (R) must be part of the address. Retirees must comply with local host nation customs restrictions and requirements.

i. Retirees are limited to a 16 ounce single mailing. A SOU of limited MPO privileges shall be signed by the retiree and filed at the MPO.

j. Provide the combination or key to the member on DD Form 2263, Mailing Address/Combination Notice (Figure 4-2), or similar notice. Advise the sponsor to memorize the combination and to read the general instructions on the form. The combination must not be given to anyone other than the member.

k. Rows of receptacles may be closed out if this simplifies casing the mail and the receptacles are not needed. Receptacle rows are closed out by attrition rather than receptacle reassignment.

3. Advanced Receptacle Issuance

a. An advance receptacle may be reserved/issued under the Sponsorship Program. Do not assign the receptacle earlier than 90 days prior to the first day of the reporting month.

b. Annotate DD Form 2258, Temporary Mail Disposition Instructions (Figure 4-3), with name, unit, estimated date of arrival, and point of contact/telephone number. Draw a red diagonal line across the face of the form to indicate arrival. Attach the DD Form 2258 to the receptacle.

c. If assignment is canceled reissue the receptacle. The combination/key does not have to be changed if they had never been given to the sponsor.

d. Issue mail receptacles only at the MPOs of assignment as indicated on PCS orders or housing area assignment.

e. The MPO may approve assignment exceptions when extenuating circumstances exist. The patron must furnish a letter of justification to the MPO stating the circumstance.

4. General Delivery Service

a. Provide general delivery service for members not expected to reside in barracks or quarters until a permanent quarters address is established.

b. General delivery service may not exceed 90 days after the residence is established.

c. General delivery mail must be delivered within 15 days of MPO receipt. Undelivered mail must be provided directory service i.e., personnel due to arrive, etc.

5. Receptacle Maintenance and Records

a. Coordinate receptacle numbering scheme with postal activity to maintain USPS addressing standards and avoid number duplication.

b. Do not make major repairs to receptacles. Facility Engineers are responsible for repairs.

c. Lubricate combination or key lock wheels with a small amount of powdered or flaked graphite on the moving parts of the lock.

d. Check the receptacle windows and doors frequently for damage.

e. Receptacles that cannot be secured/repaired shall be closed, and a new receptacle must be issued to the service member.

f. Maintain a separate DD Form 2262 for each receptacle. Keep separate files for active, unassigned, and inactive forms.

- (1) File forms for assigned receptacles numerically in active file.
- (2) File forms for unassigned receptacles pending final process numerically in a file marked, Do Not Issue.
- (3) Maintain an inactive file by the latest date closure for unassigned receptacles.

6. Checking Assigned Receptacles

a. PSC operations are required to back stamp each piece of mail prior to placement in receptacle. Check each assigned receptacle bi-weekly for excessive mail accumulation, old mail, or non-use. Contact member or command/section via source document for mail delay or mail disposition.

b. Prepare a DD Form 2258 when service member status is received from other than the member e.g., 1stSgt, section OIC, Unit Mail Clerk, unit diary, morning report, etc. Provide point of contact/telephone number in the special instructions block (Figure 4-4). Hold the mail until the member provides disposition instructions. Annotate the DFC and process the mail according to the information received.

c. If no information can be obtained and the mail is unclaimed for 30 days; return the mail to sender endorsed UNCLAIMED, close the receptacle, and annotate the DFC. Mail received after the receptacle has been closed shall be endorsed MOVED LEFT NO ADDRESS, and returned to sender.

d. Do not reissue a receptacle to a former member unless proof of MPO privilege status is established. Receptacles must only be reissued to a member twice for failure to claim mail. If the sponsor fails to claim mail from the receptacle, close the receptacle, and provide general delivery service.

7. Key/Combination Maintenance

a. Change the key lock cylinder or combination when believed to be compromised and when a receptacle is closed.

b. Closed receptacles shall be changed within 5 working days.

c. Record the member's name, receptacle issue date, and serial number of the key or the combination on the DD Form 2262.

d. Ensure an adequate supply of key lock cylinders are retained. Cylinders locks may be rotated with other separate nests of receptacles. Rotate cylinder locks from each nest every 3 months.

e. Receptacles must be maintained without charge to the customer. Retain at least two duplicate keys for each receptacle. The combination entered on the DD Form 2262 is the only combination retained. Keep duplicate keys and combinations in a safe place out of the customer's reach.

8. Receptacle Mail Delivery

a. Place matter authorized by USPS or MPS in mail delivery receptacles.

b. Compare the name on the address with the name label on the receptacle before placing the mail in the receptacle. Validate mail piece delivery against the directory when address name and label do not match.

(1) Mail addressed to the Commanding Officer of an individual must be delivered as official mail to the Commanding Officer.

(2) Mail addressed to Commander of a receptacle number that does not contain an addressee name or unit designation, must be endorsed with INSUFFICIENT ADDRESS and returned to sender.

(3) Do not deliver mail addressed as occupant or resident of a receptacle number. Endorse it with INSUFFICIENT ADDRESS and return to sender.

c. Use PS Form 3907, Post Office Box Mail Pickup Notice (Figure 4-5), to notify customers of large mail items or excess mail accumulation. Prepare the form the same day the articles are received with receptacle number, date, and last name of the addressee. These forms may be laminated to conserve use. Draw a line through previous entries before reusing the forms. Electronic notification e.g., database, email, etc., may be used to notify customers for timely delivery of mail.

d. Use DD Form 2258 for marking receptacles of members who are absent temporarily. The member's signature authorizes appropriate mail disposition. Members may provide a written designation for other authorized member to receipt for their mail during a temporary absence.

(1) DD Form 2258 is not authorized for more than 90 days from the effective date. An absence of more than 90 days shall require a receptacle closure. Customers must provide a forwarding address for a 90 day or more absence. Assign a new receptacle to customer on return.

(2) There is no limit to the number of times a customer may use a DD Form 2258. However, using consecutive DD Forms 2258 for the purpose of holding mail in a receptacle for longer than 90 consecutive days is not authorized.

e. Members in a confined, UA, or alleged deceased status shall be annotated on DD Form 2258. Update member status as required or until receptacle is closed.

9. Receptacle Withdrawal

a. Remove all mail from the receptacle and provide directory service.

b. Remove the name label and block the rear of the receptacle with PS Item 0-53A - Closures, Lockbox, Number 1 or other suitable device.

c. Remove the DD Form 2262 from the active file and record the date receptacle closed.

d. Record and change the key lock cylinder/combination.

15. Selecting Mail Class. The USPS divides mail by classification. Each class of mail has different features, service levels, postage prices, and presort requirements. The classification of official mail is determined by the type of item being sent, the weight of the item, and extra service requirements.

a. First Class Mail. First-Class mail are items weighing less than 13 ounces. Items mailed at the First Class rate are typed material, bills, account/invoice statements, etc.

b. Priority Mail

(1) Priority mail are items weighing 13 ounces to 70 pound max weight. Maximum combined length and girth is 108 inches. Priority mail is mailed at the First Class rate. Endorse each mail piece, Priority Mail.

(3) Commercial base prices are available to customers that meet specific postage payment methods. Items are required to meet eligible mailing standards.

International mail may only be sent to those countries with whom the USPS has established service agreements. Contact the local post office/MPO for applicable postage, customs forms, extra services, and restrictions.

17. Extra Services. The use of extra services is limited to law, DoD Instructions, or Marine Corps directives. Additional fees are charged for extra services. Extra services are authorized for Marine Corps use as follows:

a. Priority Mail Express. Priority Mail Express is expedited mail service. Careful consideration should be taken to ensure expedited service is an essential requirement to mission accomplishment and not a matter of convenience.

(1) CONUS Priority Mail Express service provides a 1-day or 2-day delivery guarantee. OCONUS Priority Mail Express service is only available to the International Service Center gateways.

(2) The following questions should be answered prior to using Priority Mail Express:

(a) What mission failure would result if document is not received the following day?

(b) What valid circumstance prevents the item from being ready in time for normal mail transit?

(c) Is a recipient available to accept document?

(d) Have other less expensive or alternatives been considered?

b. Registered Mail. Registered mail provides added mail security and evidence of mailing/delivery. Registered items must be sent as first-class or priority mail.

(1) Indemnity is not provided to U.S. Government mailings. The only registration fee to be charged is the least expensive postal registration fee available without postal insurance.

(2) Registered mail is costly and is the slowest form of first/priority class mail. A chain of receipts is established at each transportation point within the postal system. Registered mail is authorized for mission essential mail requiring the highest degree of security. Registered may be used for:

(a) Criminal investigation evidence.

(b) Currency, original vouchers, or other high-value items.

(c) Mailable shipments of government-owned firearms.

(d) Classified documents as required by reference (p).

(e) One-of-a-kind, irreplaceable, sensitive, controlled, rare, or pilferable items having a replacement cost in excess of \$5,000. Items include but are not limited to calibration equipment, supply items, historical matter/film, library materials, original manuscripts, camera mechanicals, and art work.

c. Certified Mail. Certified mail provides evidence of mailing and a record of delivery. It may be used only for first-class or priority mail having no intrinsic value. It does not provide a chain of receipts while in transit. Certified may be used for:

(1) Controlled test material.

(2) Adverse enlisted and officer evaluation reports, etc.

(3) Letters of transmittal and active reserve order extensions.

(4) Traffic/driving violations, letters of revocation, or suspension of base privileges.

(5) Legal matters e.g., Special/General Court Martial records, court decisions, officer elimination cases, etc.

(6) Communication that is essential to create/preserve the rights granted to the U.S. Government in connection with criminal proceedings.

d. Exclusions. Registered or certified mailings that do not meet statutory requirements must request approval from the Installation Commander/OMM.

e. Insured Mail. Insured mail may be used for proof of delivery of valuable administrative/logistical equipment, supplies, and printed matter. No record of mailing is maintained at the office of mailing. Insured mail is treated in transit as ordinary mail. The U.S. Government is self-insured and must be charged the least expensive insurance rate.

f. Certificate of Mailing. A Certificate of Mailing, PS Form 3817, may be requested when only proof of mailing is required. It is to be used instead of insured, registered, or certified mail.

g. Receipt Record.

(1) Use Record of Receipt (OPNAV Form 5511/10), Transmittal of Official Documents (NAVMC 941), or Records Transmittal and Receipt (SF-135) as proof of delivery to another government agency. Instructions on how to complete and return are provided on the forms. These forms are placed inside the item being mailed.

(2) USPS Tracking service provides updates as an item travels to its destination, including the date and time of delivery or attempted delivery. The USPS Tracking service is available online or at your Post Office depending on the mail class.

(3) Signature Confirmation service provides a date and time of delivery or if delivery was attempted. A delivery record, including the recipient's signature, is maintained by the USPS and is available, via fax or mail, upon request. No acceptance record is kept at the office of mailing. Signature Confirmation service is available only at the time of mailing.

(4) A return receipt, PS Form 3811, provides the mailer with evidence of delivery. Return receipts may be obtained for insured, registered, and certified mail. Return receipts require additional postage fees. A return receipt is authorized for non-government addresses.

h. Restricted Delivery. Restricted delivery allows direct delivery to the addressee or agent. It may be obtained only for insured, registered, certified mail, or signature confirmation.

18. Official Mail Addresses. HQMC MFP-3 maintains the current list of authorized Marine Corps official mail addresses. Official mail addresses are updated annually. Official mail addresses are available at the HQMC MFP-3 website.

19. Address Standards. To ensure efficient mail delivery a current/correct formatted address must be used. The following addressing standards are required on all official mail:

a. Use complete official mailing address on both the return address and the delivery address (Figure 5-3).

b. Addresses must be print/machine typed. Return/delivery addresses shall be in black ink using upper case letters. Address characters must not touch and equally spaced. The print size for address characters is 10 to 12 points.

c. Use no punctuation except for the hyphen in the ZIP+4 code.

d. Use the correct address format. Delivery/return official addresses are limited to five lines and formatted with uniform left margin. The attention line is optional and can be inserted within the second line of the address. The attention line may be used for activity name, title/billet, section, etc.

20. Cost Management. OMMs shall use the following OMP cost saving measures.

a. Monitor mail practices and ensure mail is sent by the most economical means.

b. Provide training to personnel who originate or prepare mailings.

c. Use standard letter-size envelopes whenever possible. Large envelopes shall be used only when material may be damaged by folding.

d. Use eligible presorted or marketing mail discounts.

e. Ensure items can be mailed and not subject to surcharges.

f. Reduce mailing frequency and volume.

g. Review necessary mailings.

h. Update mailing lists annually or as changes become known.

i. Consider other alternatives for mailing publications.

j. Require adequate printing lead time for economical mail service.

k. Reduce publication weight by printing on both sides of the paper and selecting the lightest paper weight.

l. Ensure that contracts for printing and distribution contain DoD specifications.

m. Promote electronic formats that make maximum use of available print space to reduce the weight of mailings.

n. Consider alternatives to hard copy mailings, such as:

(1) Telephone, email, or fax

(2) Courier or Guard mail

(3) Distribution Management Office

(4) Commercial Carriers e.g., FEDEX, UPS, or DHL

(5) Naval Message

21. Mail Standards. The USPS has established minimum and maximum size standards for mechanical processing. Mail standards are designed to decrease cost by increasing mail volume.

a. All mail that is one-fourth of an inch or less in thickness must be:

(1) No less than 3.5 inches high and 5 inches long.

(2) Rectangular in shape.

b. Nonmailable. Small or flimsy pieces of mail that cause disruptions in automated processing are not authorized.

c. Nonmachinable. Nonmachinable mail shall be assessed a surcharge. Mail is considered Nonmachinable if one of the following applies:

(1) Its weight is 1 ounce or less.

(2) Its length exceeds 15 inches.

(3) Its height exceeds 12 inches.

(4) Its thickness exceeds 1/4 inch.

(5) Its aspect ratio, length divided by height, is less than 1.3 or more than 2.5.

d. Maximum Weight Limits. Parcels may not weigh more than 70 pounds.

e. Maximum Size Limits. The combined length and girth of a regular piece may not exceed 130 inches. Retail ground parcels that exceed 108 inches shall be assessed a surcharge. To compute the size of a parcel:

(1) Measure the longest side.

(2) Measure distance around the item at its thickest part (girth).

(3) Add both measurements.

f. The post office/MPO can provide information on other weight and size limitations that apply for articles sent to APO/FPO addresses.

22. Official Mail Processing

a. Procedures

(1) Letter Mail. All unclassified official correspondence weighing 13 ounces or less must be sent as first-class mail. Unclassified official correspondence weighing more than 13 ounces, consolidated mailings, or direct pouches shall be sent as priority mail.

(2) Classified Mail. Classified material must be prepared and transmitted as prescribed in reference (p).

(3) Substance Abuse Mailings. Urinalysis samples shall be prepared and transmitted as prescribed in the Substance Abuse Program Order (MCO 5300.17A). Commands shall use the most cost effective shipment to certified DoD/Navy drug screening laboratories.

(4) Publications and Blank Forms. All bulk distribution of publications e.g., directives, instructions, regulations, and manuals shall be sent at the qualifying media mail or retail ground rate. Blank forms must be sent at the retail ground rate. Exceptions to this are as follows:

(a) Communication systems publications or material that is classified, accountable, or critical to safety may be sent as first-class or priority mail.

(b) Bulk distribution of immediate-action publications, directives, or blank forms may be sent as first-class or priority mail. Other publications and blank forms may not be included as fillers.

(5) Periodicals. Periodicals not qualifying for media mail rate shall be sent as controlled circulation or eligible marketing rate. Ineligible periodicals must be sent as retail ground.

b. Consolidated Correspondence

(1) OMMs must ensure that official mailings are consolidated to reduce costs. Routine correspondence or documents shall be delivered to the OMC for consolidation prior to mailing.

(2) Use the smallest possible envelope for a single consolidated mailing. Minimum mailing standards must be strictly followed to avoid surcharges.

(3) Consolidated mailings must be addressed to the Commanding General/Officer of that activity. A bold mailing endorsement, CONTAINS CONSOLIDATED CORRESPONDENCE, shall be placed on address side and lower left quadrant of the consolidated container.

(4) OMCs receiving mail endorsed CONTAINS CONSOLIDATED CORRESPONDENCE are authorized to open this mail and make appropriate distribution.

(5) The OMC shall determine which correspondence/documents are to be mailed, and which are to be sent by guard mail/courier for local geographic distribution.

23. Appropriated Funds Accounting

a. In 1992, DoD directed payment of official mail costs to be decentralized to the lowest level possible. HQMC is not responsible as the single point of payment for official mail costs. Each Marine Corps installation/activity is responsible for tracking and paying its own official mail costs.

b. Installations/activities are required to evaluate their OMP and seek ways to control their postage expenditures. Units are required to use the supporting OMC and not duplicate services.

c. Low volume mailers must evaluate the type of equipment/services required. Low volume mailers can use postage application alternatives for their mail operations to reduce cost e.g., web mailing platforms, Click N' Ship, stamp stock or USPS Post Office.

24. Web Mailing Platforms

a. Web mailing platforms can be used for an official mail volume variety. Web mailing platforms allow users to calculate/print ePostage without needing to visit the Installation OMC. The ePostage software accounts for postage available and expended. Web mailing platforms must be used as a primary processing method for official mailings.

b. Activities must coordinate with the serving MACOM to establish web mailing platform operations.

25. Postage Meters

a. The postage meter must be set at the official mail reporting site. Set postage amount to allow daily operations for a period of 3 months.

b. Activities shall use only prepaid postage. Postage must be paid for on receipt. Activities must pay USPS using one or more of the following:

(1) The U.S. Treasury Intergovernmental Payment and Collection Payment associated with the Official Mail Accounting System.

(2) The USPS Enterprise Payment System for associated commercial payments.

(3) Another Treasury approved means of paying the USPS.

c. Payments to USPS licensed providers can be made by U.S. Treasury payment methods via automated clearing house-electronic funds transfer or other approved means of payment.

26. Daily Record of Meter Register

a. Daily Record of Meter Register is made for each postage meter placed into service. The postage meter accounts for total postage available and expended.

b. The supervisor shall record the date, ascending/descending register, and serial number. A daily record/register print out can be used for records accountability.

c. At the end of each business day, the meter operator must verify the ascending/descending register and total.

d. Supervisor verification of the register is required prior to the setting of additional funds. Funds added to meter machine must be accounted/verified via logbook or computer printout. Registry discrepancies after vendor setting shall be reported to vendor for corrective action.

e. Your official mail control site shall report these amounts when required. Logbook or computer printout must be retained on file for 2 years from date of final entry.

27. Spoiled or Incorrect Postage

a. Per reference (q), credit the postage meter account for incorrect postage or spoiled tapes as follows:

(1) Complete/submit a PS Form 3533, Application for Voucher for Refund of Postage and Fees, to the local USPS representative.

(2) Attach voucher and unused meter stamps/tapes, ensuring that:

(a) Stamps/tapes are complete and legible.

(b) Stamps/tapes are affixed on envelope/wrapper bearing the name and address of the addressee. Attach the entire envelope as necessary.

(c) Loose stamps/tapes are submitted separately.

(3) The USPS representative shall complete the PS Form 3533. A copy of PS Form 3533 must be provided. Cash or checks must not be accepted from the USPS representative for the refund. A credit for amount shall be applied to meter account and invoice.

b. Spoiled meter tapes/stamps adjustments must be annotated in the postage expenditure report.

28. Meter Security

a. Access and operation of postage metering equipment is limited to authorized personnel. Remove the meter and place it in a locked safe/file cabinet or locked room when not in use.

b. Meters requiring a code or password for operation are not required to be removed during temporary operator absences.

c. Meters that lock in place on mailing machines are not required to be removed at night, as long as the mailing machine is in a secure area.

d. Keep extra keys and current meter combinations in a secure envelope. The meter operator and the OMM shall sign on the seal of the envelope to validate the security of the keys/combinations. The envelopes must be stored in a locked receptacle.

29. Postage Meter Supplies. Postal supplies required to support the metering system are to be ordered directly from the vendor. These invoices must be processed by local available funds.

30. Postage Stamps

a. A postage stamp inventory is intended for small volume mailers. Small volume mailer inventories shall not exceed a 90-day supply. Activities without a backup metering application may maintain no more than a 10-day emergency supply of postage stamps. Deployable units may maintain a 60-day supply of postage stamps for locations without meters.

b. OMMs are responsible for preventing the theft, misuse, waste/loss of postage stamps, stamped envelopes, and postal cards. The postage stamp inventory shall be centralized and closely controlled by the activity OMM. Inventory must be secured in a locked room or locked container e.g., safe, file cabinet, desk drawer, etc.

c. Monthly audits are required for active postage stamp inventories. Quarterly audits are required for reserve postage stamp inventories.

31. Postage Management Record

a. A postage management record can provide standard or custom data e.g., postage expense, date, mail class, unit/section mail volume, etc., as required. Locations that do not have electronic accountability must manually record standard postage management information.

b. The record of postage expended shall be analyzed by the OMM weekly. Analysis shall be used to identify large volume mailers and routine mail

class/special services used. Mailers shall be encouraged to use other economical means to improve the OMP.

c. The record is used for the annual Postage Expenditure Report.

32. Postage Expenditure Report

a. Per reference (r), HQMC MFP-3 must submit an annual OMM/GSA mail management report to the DoD OMM utilizing SMART via AMPS (Figure 5-4).

b. Installations and activities authorized to use web mailing platforms/meters or prepaid postage e.g., permit, BRM, etc., must submit expenditure reports as follows:

(1) Access to AMPS is authorized via the HQMC (MRP-3) OMM.

(2) Reports are submitted each fiscal year.

(3) The deadline to submit reports is no later than 7 days after the reporting period ends.

c. Each location shall report the following data, as applicable:

(1) USPS Single Piece Mailing by type of mail class with expenditures and number of pieces.

(2) USPS Permit Imprint by type of service with expenditures and number of pieces.

(3) Contract fees, vendor fees, etc.

(4) Comments section: This report covers the FY__.

33. Equipment Improvement Plan

a. Each Installation OMC must have an equipment improvement plan that incorporates a vision statement and a list of functions it must perform. The equipment improvement plan shall be updated annually.

b. The plan must include a cost-effective investment strategy that supports the activity's mission, reduces manual processing, replaces worn-out equipment, helps maintain the mail center's customer satisfaction, improves operational efficiencies, and postage discounts.

34. Official Mail Center Security Plan

a. Each Installation OMC shall develop and exercise a comprehensive mail security plan in accordance with force protection directives.

b. The security plan must include facilities, personnel, and postal effects. A performance improvement strategy shall be developed to counter deficiencies.

c. The security plan must be reviewed annually and exercised quarterly with a record of the exercise results. Mail security shall be handled in accordance with DoD regulations and local installation policies.

d. The security plan can be tailored to meet the smaller location security requirements. Many locations have OMCs where mail operations are performed in a small room, in a corner of a room, or on the corner of a desk. In these facilities, responsibility for processing mail is divided among OMM and support staff.

e. The security plan for small OMCs are limited by both the size of the facility and the resources available to develop/implement their plans. Small facilities shall adopt recommendations that are appropriate to them. Threats and vulnerabilities shall determine the measures to protect the facility.

f. OMMs must coordinate with their local security service and/or the U.S. Postal Inspection Service to develop mail security policies and plans. The OMC mail security plan must address the following:

- (1) Operating procedures.
- (2) Risk assessment.
- (3) A plan to protect staff and all other occupants of OMC facilities from hazards that might be delivered in the mail.
- (4) Responsiveness to various emergency situations by personnel.
- (5) A mail screening/managing threat plan.
- (6) Communications plan.
