1. Purpose. Per reference (a), this Training and Readiness (T&R) Manual, contained in enclosure (1), establishes training standards, regulations, and policies regarding the training of Marines in the Training Military Occupational Specialties (TMOS) occupational field.

2. Cancellation. NAVMC 3500.41A

3. Scope

a. Per reference (b), commanders will conduct an internal assessment of the unit's ability to execute its mission and develop long-, mid-, and short-range training plans to sustain proficiency and correct deficiencies. Training plans will incorporate these events to standardize training and provide objective assessment of progress toward attaining combat readiness. Commanders will keep records at the unit and individual levels to record training achievements, identify training gaps and document objective assessments of readiness associated with training Marines. References (c) and (d) provide amplifying information for effective planning and management of training within the unit.

b. Formal school and training detachment commanders will use references (a) and (e) to ensure programs of instruction meet skill training requirements established in this manual and provides career-progression training in the events designated for initial training in the formal school environment.

4. Information. Commanding General (CG), Training and Education Command (TECOM) will update this T&R Manual as necessary to provide current and relevant training standards to commanders. All questions pertaining to the Marine Corps Ground T&R Program and Unit Training Management should be directed to: CG, TECOM, Marine Air Ground Task Force Training and Education Standards Division (C 466), 1019 Elliot Road, Quantico, Virginia 22134.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

5. Command. This manual is applicable to the Marine Corps Total Force.
6. Certification. Reviewed and approved this date.

TMOS T&R MANUAL

CHAPTER 1

OVERVIEW

1000. INTRODUCTION

1. The T&R program is the Corps' primary tool for planning, conducting and evaluating training and assessing training readiness. The T&R manual is designed for use by unit commanders to determine performance requirements in preparation for training; for unit leaders to develop and execute training and to assess individual and unit proficiency; and for formal schools and training detachments to create programs of instruction.

2. This T&R manual is built around the Marine Corps tasks (MCTs) that are supported by the {occupational field name} occupational field/performed by {unit name}. All events contained in this manual relate directly to these MCTs. Linkage of T&R events to the MCTL enables objective assessment of training readiness in the Defense Readiness Reporting System (DRRS) in accordance with MCO 3500.10 and MCO 3000.13.

3. The T&R manual contains the individual and collective training requirements to prepare units to accomplish their mission. The T&R manual identifies the minimum standards that Marines must be able to perform in a combat environment. Using this tool, leaders can construct and execute an effective training plan that supports the unit's MCTs and the mission-essential task list (METL). The Ground T&R Program helps to ensure that training remains focused on mission accomplishment and that training readiness reported is tied to the unit's METL. More detailed information on the Marine Corps Ground T&R Program is found in reference (a).

1001. UNIT TRAINING

1. The training of Marines to perform as an integrated unit in combat lies at the heart of the T&R program; unit and individual readiness are directly related. Individual training and the mastery of individual core skills serve as the building blocks for unit combat readiness.

2. Commanders at all levels will ensure that all training is focused on achieving proficiency in the unit METL. The T&R manual is a tool to help develop the unit's training plan based on the unit METL.

1002. UNIT TRAINING MANAGEMENT

1. Effective Unit Training Management (UTM) focuses the overall organization on development of training plans based on the unit METL and standards-based community T&R events. This is accomplished in a manner that maximizes training results and focuses the training priorities of the unit in preparation for the conduct of its mission.

2. UTM techniques, described in references (b) and (c), provide commanders with the requisite tools and techniques to analyze, design, develop, implement, and evaluate the training of their unit. To maintain an efficient and effective training program, leaders at every level must understand and implement UTM. Guidance for UTM and the process for establishing effective programs are contained in references (b), (c) and (d).

1003. SUSTAINMENT AND EVALUATION OF TRAINING

1. Marines are expected to maintain proficiency in the training events for their MOS at the appropriate grade and billet to which assigned. Leaders are responsible for recording the training achievements of their Marines. Whether it involves individual or collective training events, they must ensure proficiency is sustained by requiring retraining of each event at or before expiration of the designated sustainment interval.

2. The evaluation of training is necessary to properly prepare Marines for combat. Evaluations are either formal or informal, and performed by members of the unit (internal evaluation) or from an external command (external evaluation). The purpose of formal and informal evaluation is to provide commanders with a process to determine a unit's/Marine's proficiency in the tasks that must be performed in combat. Informal evaluations are conducted during every training evolution. Formal evaluations are often scenario-based, focused on the unit's METs, based on collective training standards, and usually conducted during higher-level collective training events.

3. Evaluation is a continuous process that is integral to training management and is conducted by leaders at every level and during all phases of planning and the conduct of training. To ensure training is efficient and effective, evaluation is an integral part of the training plan. Ultimately, leaders remain responsible for determining if the training was effective. References (b) and (d) provide further guidance on the conduct of informal and formal evaluations using the Marine Corps Ground T&R Program.

1004. ORGANIZATION. The TMOS T&R Manual is comprised of 9 chapters. Chapter 1 is an overview of the Ground T&R Program. Chapter 2 lists the core Marine Corps tasks supported by the TMOS. Chapter 3 through 9 contain individual events specific to a particular MOS and/or billet, as noted.

1005. T&R EVENT COMPOSITION

1. An example of a collective T&R event is provided in figure 1-1 and an example of an individual T&R event is provided in figure 1-2. Events shown in figures are for illustrative purposes only and are not actual T&R events.

Figure 1-2: Example of an Individual T&R Event

2. Event Code. The event code consists of three sets of characters as shown in figure 1-3:

Figure 1-3: T&R Event Coding

a. The first set of characters indicates the main MOS or community (e.g., 0321, 1812, or INTL) that performs the event.

b. The second set of characters indicates functional or duty area (e.g., DEF, FSPT, MVMT, etc.). Categorizing events with the use of a recognizable code makes the type of skill or capability being referenced fairly obvious.

c. The third set of characters is broken down further into the event level, additional indicator (if applicable), and sequence.

(1) Event levels. The character in the thousands digit indicates the level and defines whether the event is performed by an individual (1000- and 2000-level) or by a collective unit, with the relative size of the unit performing the event indicated by the number (3000- through 9000-level). Note that the titles for the various echelons are examples only and are not exclusive. Some collective events levels may not apply to all T&R manuals. Event levels are shown in figure 1-4.

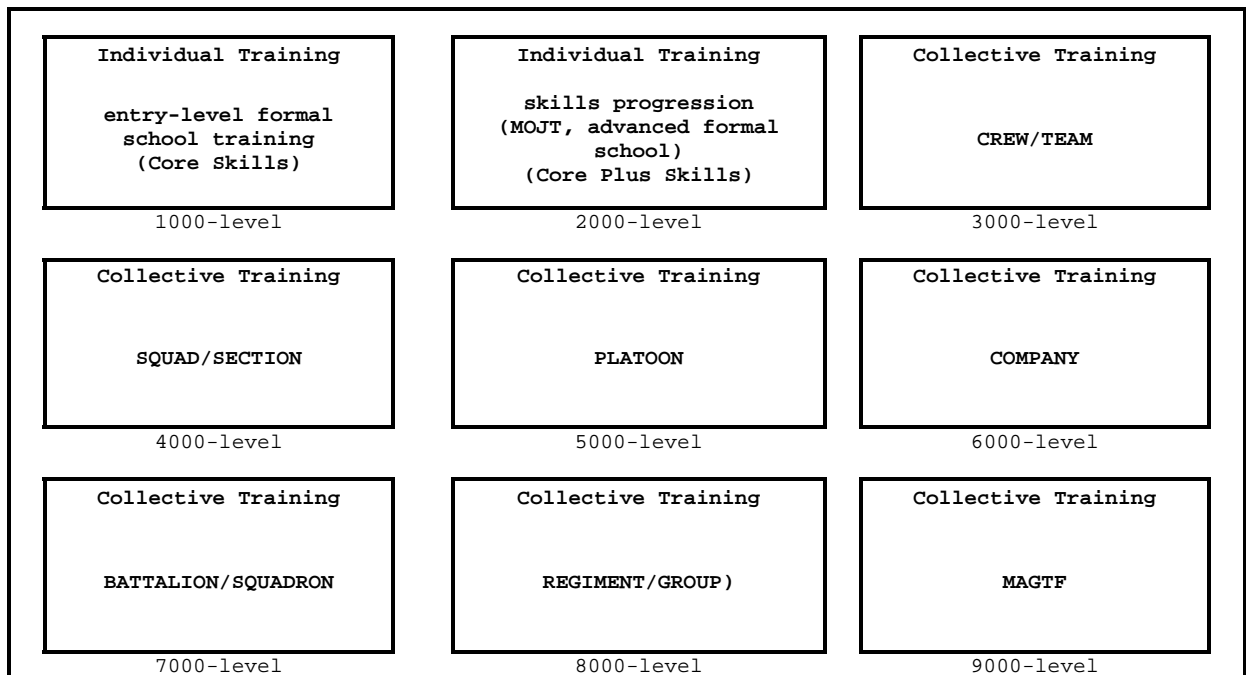

Figure 1-4: T&R Event Levels

(2) Additional indicator. The usage of a number used in the hundreds digit varies. When used in a T&R manual, the additional indicator methodology will be described in the relevant chapter(s).

(3) Sequence. The last two numbers indicate the sequence of the event. All events with the same MOS/community, functional area, and level codes will be grouped together.

3. Title. The name of the event. The event title contains one action verb and ideally, one object noun.

4. Evaluation Coded. A "Yes" indicates that a collective event is something that the Marine Corps has determined that a unit must be able to perform in order or that unit to be considered fully ready for operations. These evaluation-coded (E-coded) events represent the basic level of readiness for a unit. E-coded events are derived from the training measures of effectiveness for the METs assessed as a percentage of the successfully completed and current (within sustainment interval) E-coded events. Most E-coded events will be for battalion-sized units and higher since those are the

units that report in DRRS. However, if the Marine Corps has determined that the readiness of a lower echelon unit is vital to the accomplishment of the supported unit's MET, then that lower echelon collective event may also be E-coded. Other collective events and all individual events will have a "No" to indicate that they are not evaluation-coded.

5. Supported MCT(s). List all MCTs that are supported by the collective training event, even if those events are not listed as a measure of effectiveness (MOE) in a MET.

6. Sustainment Interval. This is the period, expressed as a number of months, between demonstration of performance mastery and the requirement for retraining if mastery is not demonstrated during that period.

7. Billet/MOS. These fields designate who is responsible for performing the event. When formal training is associated with event, individuals in the associated billet(s)/MOS(s).

8. Grade. This field indicates the rank at which Marines are required to perform the event.

9. Description. This field allows an explanation of the event purpose, objectives, goals, and requirements. It is a general description of an action requiring learned skills and knowledge (i.e., engage fixed target with crew-served weapons). Event descriptions are required for collective events, but optional for individual events.

10. Condition. Condition refers to the environment in which the task must be performed. It must also identify the limitations that may affect event performance in a real-world environment. It indicates what is provided (equipment, tools, materials, manuals, aids, etc.), environmental factors or conditions under which the task is to be performed, and any specific cues or indicators to which the performer must respond. Commanders can modify the conditions of the event to best prepare Marines to accomplish the assigned mission (e.g., in a desert environment; in a mountain environment; etc.). When resources or safety requirements limit the conditions, this should be stated. The content of the condition should be included in the event on a "by exception" basis. If there exists an assumption regarding the conditions under which all or most of the events in the manual will be performed, then only those additional or exceptional items required should be listed in the condition. The common conditions under which all the events in a chapter will be executed will be listed as a separate paragraph at the beginning of the chapter.

11. Standard. The performance standard indicates the basis for judging the effectiveness of the performance. It identifies the proficiency level expected when the task is performed. The standard provides the minimum acceptable performance parameters. The standard for collective events will likely be general, describing the desired end-state or purpose of the event. The standard for individual events will be objective, quantifiable, and readily observable. Standards will more specifically describe the proficiency level, specified in terms of accuracy, completeness, time required, and sequencing to which the event is to be accomplished.

12. Event Components/Performance Steps. This is a list of the actions that the event is composed of, or a list of subordinate T&R event descriptions. These help the user determine what must be accomplished and to properly plan for the event. Event components are used for collective events; performance steps are used for individual events.

a. The event components and performance steps will be employed as the basis for performance evaluation check lists by the operating forces.

b. Event components may be either lower level collective events or individual events, indicating aspects of the event that are performed by the entire unit and individuals within the unit. Event components will correspond with the task titles of the related events, allowing for chaining of the events (see below).

13. Prerequisite Events. Prerequisites are academic training or other T&R events that must be completed prior to attempting the event. They are lower-level events that give the individual/unit the skills required to accomplish the event. They can also be planning steps, administrative requirements, or specific parameters that build toward mission accomplishment.

14. Chained Events. Collective T&R events are supported by lower-level collective and individual T&R events. This enables unit leaders to effectively identify subordinate T&R events that ultimately support specific Marine Corps tasks. When the accomplishment of any upper-level events, by their nature, result in the performance of certain subordinate events, the events are "chained." The completion of higher level events will update sustainment interval credit (and CRP for E-coded events) for the subordinate level chained events.

15. Related ITEs. A list of all of the individual training events (1000-2000-level events) that directly support the accomplishment of another event of the same level.

16. Initial Training Setting. All individual events will designate the setting at which the skill is first taught, either through formal training (Formal), managed on the job training (MOJT), or distance learning (DL). Formal training is conducted at a formal school. MOJT occurs within the operating forces and is the responsibility of leaders. DL products include correspondence courses and training conducted via computer applications.

17. References. The training references assist the trainee in satisfying the performance standards, or the trainer in evaluating the effectiveness of task completion. T&R manuals are designed to be a training outline, not to replicate or replace doctrinal publications, reference publications or technical references. References are key to developing detailed lesson plans, determining grading criteria, and ensuring standardization of training. The references listing for each event is representative of those that are most commonly used and are not encyclopedic.

18. Distance Learning Products (DL). Distance learning products include: individual multimedia instruction (IMI), computer-based training (CBT), Marine Corps Institute (MCI), etc. This notation is included when the event

can be taught via one of these media vice attending a formal course of instruction or receiving MOJT.

19. Support Requirements. This is a list of the external and internal support the unit and Marines will need to complete the event. This is a key section in the overall T&R effort, as resources will eventually be tied directly to the training and future efforts to attain and allocate resources will be based on the requirements outlined in the T&R manual. The list includes, but is not limited to:

- Range(s)/Training Area
- Ordnance
- Equipment
- Materials
- Other Units/Personnel

Where applicable, the ordnance requirements for one year of training for the events in the T&R manual will be aggregated into a table contained in an appendix to the T&R.

20. Suitability of Modeling and Simulation for Sustainment. If the occupational advocate determines that an event can be trained to standard by use of modeling or simulation, this will be noted in the event title in a parenthetical remark. Figure 4-1 contains all acceptable codes for inclusion in this parenthetical remark. The specific modeling or simulation that is acceptable for optional or required training will be noted in the description block and in miscellaneous block. Modeling and simulation, per reference (a) is defined as: The use of models, including emulators, prototypes, simulators, and stimulators, either statically or over time, to develop data as a basis for making managerial or technical decisions. For events that have simulation as an optional choice, the specific portions of the event that may be trained by the identified simulator should be noted as well.

Code	Requirement
P	Event performed in platform only
L	Event able to be performed to standard only live environment
S	Event performed only with simulator
P/S	Event performed in platform preferred/simulator optional
S/P	Event performed in simulator preferred/platform optional
L/S	Event performed live preferred/simulator optional
S/L	Event performed in simulator preferred/live optional

Figure 4-1: Acceptable Codes

a. Simulation should be used in lieu of live training (particularly when resources to support the event are constrained); or at the commander's discretion, used as a precursor to live training in order to help maximize and enhance the live training event.

b. This task can be supported by self-paced, CBT, (e.g., MarineNet).

c. Modeling and Simulation Terms (terms are refined from reference (a) as necessary):

(1) Simulation - Any actions that will be performed to achieve effects on a notional enemy and/or actions undertaken that assume the presence of an enemy.

(2) Simulator - Any device external to or in place of the materials or conditions identified in the condition statement of a T&R event to assist in simulating the presence of the enemy.

(3) Combat - Marines conducting actions with actual table of equipment; actual higher, adjacent and subordinate forces; and live ammunition against live, hostile opponents.

(4) Live - Marines conducting actions with actual table of equipment; actual higher, adjacent and subordinate forces; and live ammunition against notional opponents. Implies integration between the various echelons.

(5) Live/Constructive - Marines conducting actions with actual table of equipment; actual or notional higher, adjacent and subordinate forces; and without live ammunition against notional opponents. If there are integrations between the various echelons, this is an integrated live/constructive environment.

(6) Constructive - Marines conducting actions with approximations of table of equipment; actual or notional higher, adjacent and subordinate forces; and without live ammunition against notional opponents. If there are integrations between the various echelons, this is an integrated constructive environment.

(7) Virtual - Marines conducting actions with approximations of table of equipment; notional higher, adjacent and subordinate forces; and without live ammunition against notional opponents.

(8) Distance Learning - Any instruction and evaluation delivered to the student electronically or via mail.

21. Miscellaneous

a. This field provides space for any additional information that will assist in the planning and execution of the event. Units and formal schools are cautioned not to disregard this information or to consider the information of lesser importance than what is contained in other parts of the T&R event. Miscellaneous fields provide an opportunity for the drafters of the T&R event to communicate vital information that might not fit neatly into any other available field. The list may include, but is not limited to:

- Admin Instructions
- Special Personnel Certifications
- Equipment Operating Hours
- Road Miles

1006. CHEMICAL, BIOLOGICAL, RADIOLOGICAL, AND NUCLEAR. In accordance with MCO 3400.3F all active duty Marines are required to conduct CBRN training on an annual basis. All training plans for the operating forces and supporting

establishments will include the Marine Corps Common Skills CBRN T&R events established to meet this service directed requirement. All units will ensure that personnel are able to execute individual and collective MOS requirements in a CBRN environment, based on resources, time available, and unit mission.

1007. OPERATIONAL RISK MANAGEMENT. All active duty Marines are required to conduct ORM training on an annual basis. The ORM process is used by Marines at all levels to increase operational effectiveness by anticipating hazards and reducing the potential for loss, thereby increasing the probability of a successful mission. ORM assists the commander in determining the balance between training realism and unnecessary risks in training, the impact of training operations on the environment, and the adjustment of training plans to fit the level of proficiency and experience of Sailors/Marines and leaders. Further guidance for ORM is found in MCO 3500.27B.

CHAPTER 3

MOS 0911 INDIVIDUAL EVENTS

3000. PURPOSE. This chapter details the individual events that pertain to MOS 0911, Drill Instructor. Each individual event provides an event title, along with the conditions events will be performed under, and the standard to which the event must be performed to be successful.

3001. EVENT CODING. Events in this T&R Manual are depicted with an up to 12-character, 3-field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology:

a. Field one. This field represents the community. This chapter contains the following community codes:

<u>Code</u>	<u>Description</u>
0911	Drill Instructor

b. Field two. This field represents the functional/duty area. This chapter contains the following functional/duty areas:

<u>Code</u>	<u>Description</u>
COD	Close Order Drill
FIT	Combat Conditioning
INST	Instruction
LEAD	Leadership
SAFE	Safety

c. Field three. This field provides the level at which the event is accomplished and numerical sequencing of events. This chapter contains the following event levels:

<u>Code</u>	<u>Description</u>
2000	Core Plus Skills
2500	Advanced Core Plus Skills

3002. IMPORTANCE OF CORE VALUES IN DRILL INSTRUCTOR TRAINING

a. Core Values training will be integral to Marine Corps training at all levels. Core Values will be emphasized at recruit training and reinforced and sustained throughout a Marine's career.

b. Because the recruit training experience is vital to the Marine Corps and to the nation, it is necessary to ensure that Core Values training infuses all training events at all times. To that end, this drill instructor T&R Manual contains a recurring theme calling for drill instructors to "instill core values" in Marines. Further, drill instructors are strictly

charged and required to include core values training in everything they do during recruit training. Curriculum developers at the drill instructor schools must include learning objectives that imbue all training events with core values to make explicit the connection between core values and everything that Marines do. In the words of the Commandant:

Whether fighting at sea or ashore, Marines have been guided by honor, courage and commitment. These core values have been the compass for every Marine's service throughout our rich history. Superior leadership, hard training, and a willingness to sacrifice have forged our Corps into one of the most capable fighting forces the world has ever known. Our Marine Corps has remained true to these values for 235 years ... and so it will during my service as your Commandant.

General James Amos, Commandant of the Marine Corps

c. The bottom line is that core values are the foundation of and integral to everything that a drill instructor is taught at the formal school and to everything that a drill instructor does.

3003. THE RELATIONSHIP BETWEEN DRILL INSTRUCTOR AND RECRUIT

a. The relation between drill instructors and recruits should in no sense be that of superior and inferior nor that of master and servant, but rather that of teacher and scholar. In fact, it should partake of the nature of the relation between father and son, to the extent that drill instructors are responsible for the physical, mental, and moral welfare, as well as the discipline and military training of the young recruits under their command who are serving the nation in the Marine Corps.

b. It must be kept in mind that recruits respond quickly and readily to the exhibition of qualities of leadership on the part of his drill instructors. Some of these qualities are industry, energy, initiative, determination, enthusiasm, firmness, kindness, justness, self-control, unselfishness, honor, and courage. Every drill instructor should endeavor by all means in his or her power to make themselves the possessor of these qualities and thereby fit to be a real leader of Marines.

c. This paraphrasing of Gen Lejeune's guidance is not meant to convey a change in the character of recruit training, but is rather to emphasize the fundamental character of Marine Corps leadership that applies to recruits and Marines.

0911-INST-2022: Reinforce Marine Corps Common Skills (MCCS)

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 3 months

DESCRIPTION: This event is included for two purposes. The first is to address the fact that although drill instructors are not the primary platform instructors responsible for Marine Corps Common Skills (MCCS) training they play in important role in remediation and reinforcement of these skills throughout recruit training. This event is designed to provide those skills required to conduct reinforcement of MCCS. The second purpose is that not all selected Marines report to Drill Instructor School with the requisite knowledge of Marine Corps Common Skills. This event allows for limited necessary remediation of common skills within the Drill Instructor School curriculum. The Marine Corps Common Skills that will be covered will include but are not limited to the following; Terrorism Awareness, Uniform Code of Military Justice, Interior Guard, Uniform Regulations, Law of Land Warfare/Code of Conduct, Marine Corps Troop Information Policies, Marine Corps History, Marine Corps Customs & Courtesies, Elements of Combat, and Marine Corps Organization.

GRADES: SGT, SSGT, GYSGT

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given personnel to be trained.

STANDARD: So that personnel can display an understanding and apply MCCS when required in accordance with NAVMC 3500.18.

PERFORMANCE STEPS:

1. Review Marine Corps Common Skills.
2. Apply knowledge of Marine Corps Common Skills.

0911-LEAD-2031: Reinforce Core Values through Values Based Training

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 3 months

DESCRIPTION: The realization of the responsibility on the part of drill instructors to instill core values is vital to the well-being of the Marine Corps. It is especially so, for the reason that so large a proportion of the individuals enlisting are under twenty-one years of age. These individuals are in the formative period of their lives, and drill instructors owe it to them, to their parents, and to the nation, that when discharged from the services they should be far better individuals physically, mentally, and morally than they were when they enlisted. To accomplish this task successfully a constant effort must be made by all drill instructors to fill each day with useful and interesting instruction. Values Based Training is the method for threading our Marine Corps Core Values, fundamental principles of leadership, and warrior ethos throughout recruit training. It encompasses the foundational aspects of the training continuum that prepared Marines to make ethical and moral choices over their careers, and during their lifetimes. Values Based Training also serves as the adhesive that bonds our Core Values to our organizational values and our time-honored traditions. This effort must be intelligent and passionate, the object being not only to do away with idleness, but to train and cultivate the bodies, the minds, and the spirit of our Marines.

CHAPTER 4

MOS 0913 INDIVIDUAL EVENTS

4000. PURPOSE. This chapter details the individual events that pertain to MOS 0913, Marine Combat Instructors. Each individual event provides an event title, along with the conditions events will be performed under, and the standard to which the event must be performed to be successful.

4001. EVENT CODING. Events in this T&R Manual are depicted with an up to 12-character, 3-field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology

a. Field one - This field represents the community. This chapter contains the following community codes:

<u>Code</u>	<u>Description</u>
0913	Marine Combat Instructor

b. Field two. This field represents the functional/duty area. This chapter contains the following functional/duty areas:

<u>Code</u>	<u>Description</u>
CMBH	Combat Hunter
COMM	Communications
COND	Combat Conditioning
CPFA	Casualty Prevention and First Aid
DEF	Defensive Tactical Measures and Operations
LEAD	Leadership
M16	M16 Events
M203	M203 Events
M240	M240 Events
M249	M249 Events
MUNI	Munitions
NAV	Land Navigation
OFF	Offensive Tactical Measures and Operations
OPTS	Optics
PAT	Patrolling

c. Field three. This field provides the level at which the event is accomplished and numerical sequencing of events. This chapter contains the following event levels:

<u>Code</u>	<u>Description</u>
1000	Core Skills

4002. INDEX OF INDIVIDUAL EVENTS

CHAPTER 5

MARINE CORPS MARTIAL ARTS PROGRAM INDIVIDUAL EVENTS

5000. PURPOSE. This chapter details the individual events that pertain to Marine Corps Martial Arts Program (MCMAP) which applies to all Marines. This chapter also provides the individual events that pertain to the MOS 0916, Martial Arts Instructor and MOS 0917, Martial Arts Instructor Trainer. The MCMAP user level belt events are broken down into five levels (Tan, Gray, Green, Brown, and Black). These events have been coded as Marine Corps Common Skills (MCCS). Each individual event provides an event title, along with the conditions events will be performed under, and the standard to which the event must be performed to be successful.

5001. EVENT CODING. Events in this T&R Manual are depicted with an up to 12-character, 3-field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology

a. Field one. This field represents the community. This chapter contains the following community codes:

<u>Code</u>	<u>Description</u>
MCCS	Marine Corps Common Skills
0916	Martial Arts Instructor
0917	Martial Arts Instructor Trainer
BIC	Basic Instructor Course
SIC	Senior Instructor Course

b. Field two. This field represents the functional/duty area. This chapter contains the following functional/duty areas:

<u>Code</u>	<u>Description</u>
TAN	Tan Belt
GRAY	Gray Belt
GREN	Green Belt
BRWN	Brown Belt
BLAK	Black Belt
ADMN	Administration
INST	Instruction
IMPL	Implement

c. Field three. This field provides the level at which the event is accomplished and numerical sequencing of events. This chapter contains the following event levels:

<u>Code</u>	<u>Description</u>
1000	Core Skills
2000	Core Plus Skills

0916-INST-2056: Reinforce Core Values through values based mental and character tie-ins

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 12 months

DESCRIPTION: The realization of the responsibility on the part of martial arts instructors to know, reinforce, and model our core values is an essential component to being an effective martial arts instructor. The mental and character disciplines-the bedrock of MCMAP-assist in making leaders and citizens imbued with our core values of honor, courage and commitment. To accomplish this task successfully a constant effort must be made by all martial arts instructors to fill each MCMAP training evolution with professional, dynamic and effective mental and character values based instruction. The values based tie-in is an effective method for threading our Marine Corps Core Values, fundamental principles of leadership, and warrior ethos throughout all MCMAP training. MCMAP is a service wide program that is essential to sustaining the "Transformation".

TMOS T&R MANUAL

CHAPTER 4

MARINE CORPS WATER SURVIVAL TRAINING PROGRAM EVENTS

6000. PURPOSE. This chapter details the individual qualification events required for the Marine Corps Water Safety/Survival Program (MCWSSP) which applies to all Marines. This chapter also provides the individual events that pertain to MOS 0918, Marine Corps Water Safety/Survival Instructor. The Marine Corps Water Safety/Survival Program qualification events are broken down into three levels (Basic, Intermediate, and Advanced). These events have been coded as Marine Corps Common Skills (MCCS). Each individual event contained in this chapter provides an event title, along with the conditions events will be performed under, and the standard to which the event must be performed to be successful.

6001. EVENT CODING. Events in this T&R Manual are depicted with an up to 12-character, 3-field alphanumeric system, i.e. XXXX-XXXX-XXXX. This chapter utilizes the following methodology

a. Field one. This field represents the community. This chapter contains the following community codes:

<u>Code</u>	<u>Description</u>
MCCS	Marine Corps Common Skill
0918	Marine Corps Water Safety/Survival Instructor

b. Field two. This field represents the functional/duty area. This chapter contains the following functional/duty areas:

<u>Code</u>	<u>Description</u>
WSB	Water Survival Basic
WSI	Water Survival Intermediate
WSA	Water Survival Advanced

c. Field three. This field provides the level at which the event is accomplished and numerical sequencing of events. This chapter contains the following event levels:

<u>Code</u>	<u>Description</u>
1000	Core Skills
2000	Core Plus Skills
2500	Advanced Core Plus Skills

6003. WATER SURVIVAL BASIC EVENTS

MCCS-WSB-1001: Execute 25 meter swim

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 24 months

MOS PERFORMING: MCCS

GRADES: PVT, PFC, LCPL, CPL, SGT, SSGT, GYSGT, MSGT, 1STSGT, SGTMAJ, MGYSGT, WO-1, CWO-2, CWO-3, CWO-4, CWO-5, 2NDLT, 1STLT, CAPT, MAJ, LTCOL, COL, BGEN, MAJGEN, LTGEN, GEN

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an aquatic environment with shallow water and while wearing the combat uniform.

STANDARD: Without touching the bottom or sides, without stopping and without assistance.

PERFORMANCE STEPS:

1. Enter the water.
2. Swim 25 meters.
3. Exit the water.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS: Survival strokes: Breaststroke, crawl stroke, elementary backstroke, left sidestroke, crawl stroke, right sidestroke, beginner stroke on front, and beginner stroke on back. The combat uniform is defined as follows; blouse, trousers, and boots. Shallow water is defined as greater than 3 feet and less than 5 feet of water. The swimmer is to be evaluated on the ability to safely swim 25 meters, not on the quality of the strokes used.

MCCS-WSB-1002: Conduct self-rescue

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 24 months

MOS PERFORMING: MCCS

GRADES: PVT, PFC, LCPL, CPL, SGT, SSGT, GYSGT, MSGT, 1STSGT, SGTMAJ, MGYSGT, WO-1, CWO-2, CWO-3, CWO-4, CWO-5, 2NDLT, 1STLT, CAPT, MAJ, LTCOL, COL, BGEN, MAJGEN, LTGEN, GEN

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an aquatic environment with deep water, a height of 8 to 15 feet, and while wearing the combat uniform.

STANDARD: Without injury, in performance step sequence, for 25 meters, utilizing one or more of the survival strokes, and without assistance or artificial flotation.

PERFORMANCE STEPS:

1. Enter the water from a height.
2. Orient to surface.
3. Clear a breathing space while surfacing.
4. Orient to safety.
5. Swim to safety utilizing one or a combination of survival strokes.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS: Survival strokes: Breaststroke, crawl stroke, elementary backstroke, left sidestroke, crawl stroke, right sidestroke, beginner stroke on front, and beginner stroke on back. The combat uniform is defined as follows; blouse, trousers, and boots. Deep water is defined as greater than 9 feet of water.

MCCS-WSB-1003: Stay on the surface

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 24 months

MOS PERFORMING: MCCS

GRADES: PVT, PFC, LCPL, CPL, SGT, SSGT, GYSGT, MSGT, 1STSGT, SGTMAJ, MGYSGT, WO-1, CWO-2, CWO-3, CWO-4, CWO-5, 2NDLT, 1STLT, CAPT, MAJ, LTCOL, COL, BGEN, LTGEN, GEN

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an aquatic environment with deep water and a Marine wearing the combat uniform.

STANDARD: For 4 minutes without touching the sides or bottom of the pool.

PERFORMANCE STEPS:

1. Enter the water.
2. Utilize one or a combination of personal water survival techniques.
3. Exit the water.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS: Surface survival techniques: Treading water, float on back, sweep method, T-method, blouse inflation, and trouser inflation. Inflations will not commence until the swimmer is not in contact with the wall. The combat uniform is defined as follows; blouse, trousers, and boots. Deep water is defined as greater than 9 feet of water.

MCCS-WSB-1004: Conduct gear shed

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 24 months

MOS PERFORMING: MCCS

GRADES: PVT, PFC, LCPL, CPL, SGT, SSGT, GYSGT, MSGT, 1STSGT, SGTMAJ, MGYSGT, WO-1, CWO-2, CWO-3, CWO-4, CWO-5, 2NDLT, 1STLT, CAPT, MAJ, LTCOL, COL, BGEN, MAJGEN, LTGEN, GEN

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an aquatic environment, while in shallow water, and wearing the combat uniform with a full combat load.

STANDARD: In less than 10 seconds, prior to surfacing until only the combat uniform remains.

PERFORMANCE STEPS:

1. Submerge.
2. Remove gear.
3. Surface.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS: Head and body may surface; face must be under water while removing the combat load. The full combat load identified in the condition will be dependent on the unit each Marine is assigned. The minimum gear required is as follows; Flak w/ballistic inserts, service rifle, and a helmet. The combat uniform is defined as follows; blouse, trousers, and boots. Shallow water is defined as greater than 3 feet and less than 5 feet of water. Do not use raised platforms due to risk of injury.

MCCS-WSB-1005: Employ floatation gear

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 24 months

MOS PERFORMING: MCCS

GRADES: PVT, PFC, LCPL, CPL, SGT, SSGT, GYSGT, MSGT, 1STSGT, SGTMAJ, MGYSGT, WO-1, CWO-2, CWO-3, CWO-4, CWO-5, 2NDLT, 1STLT, CAPT, MAJ, LTCOL, COL, BGEN, MAJGEN, LTGEN, GEN

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an aquatic environment with deep water, using a properly waterproofed pack, and while wearing the combat uniform.

STANDARD: For a distance of 25 meters without loss of gear.

PERFORMANCE STEPS:

1. Waterproof pack.
2. Enter the water.
3. Gain control of pack.
4. Maintain control of pack.
5. Move to safety utilizing one of the pack retention methods.

MISCELLANEOUS:

ADMINISTRATIVE INSTRUCTIONS: Pack retention methods: Pack in abdomen face-down, pack in abdomen face-up, and grasping with one hand. No platform will be used due to risk of injury. The combat uniform is defined as follows; blouse, trousers, and boots. Deep water is defined as greater than 9 feet of water.

6004. WATER SURVIVAL INTERMEDIATE EVENTS

MCCS-WSI-1001: Employ floatation gear

EVALUATION-CODED: NO

SUSTAINMENT INTERVAL: 36 months

MOS PERFORMING: MCCS

GRADES: PVT, PFC, LCPL, CPL, SGT, SSGT, GYSGT, MSGT, 1STSGT, SGTMAJ, MGYSGT, WO-1, CWO-2, CWO-3, CWO-4, CWO-5, 2NDLT, 1STLT, CAPT, MAJ, LTCOL, COL, BGEN, MAJGEN, LTGEN, GEN

INITIAL TRAINING SETTING: FORMAL

CONDITION: Given an aquatic environment, a properly waterproofed pack, while wearing the combat uniform with a full combat load.

STANDARD: For a distance of 50 meters, in shallow and deep water, without loss of gear.

PERFORMANCE STEPS:

1. Waterproof pack.
2. Enter shallow water.
3. Remove combat load.
4. Secure combat load to a properly waterproofed pack.
5. Walk 25 meters in shallow water pushing or towing gear.
6. Swim 25 meters in deep water pushing or towing gear.
7. Exit water.

CHAPTER 7

FOREIGN WEAPONS INSTRUCTOR INDIVIDUAL EVENTS

7000. PURPOSE. This chapter details the individual events that pertain to Foreign Weapons Instructors. Each individual event provides an event title, along with the conditions events will be performed under, and the standard to which the event must be performed to be successful.

7001. EVENT CODING. Events in the T&R Manual are depicted with an up-to-12-field alphanumeric system, i.e. FWI-AK-2001. This chapter utilizes the following methodology:

a. Field one - This field represents the community. This chapter contains the following community codes:

<u>Code</u>	<u>Description</u>
FWI	Forgien Weapons Instructor

b. Field two. This field represents the functional/duty area. This chapter contains the following functional/duty areas:

<u>Code</u>	<u>Description</u>
AK	AK Series Weapon
FAL	FN/FAL Series Weapon
G3	G3 Series Weapon
SVD	SVD Series Weapon
RPD	RPD Series Weapon
PK	PK Series Weapon
DSHK	DSHK Series Weapon
RPG	RPG Series Weapon
82MM	82mm Mortar System
INST	Instruction

c. Field three. This field provides the level at which the event is accomplished and numerical sequencing of events. This chapter contains the following event levels:

<u>Code</u>	<u>Description</u>
2000	Core Plus Skills

7002. INDEX OF INDIVIDUAL EVENTS

EVENT CODE	EVENT	PAGE
2000-LEVEL		
FWI-AK-2001	Conduct a lesson on AK series weapons	7-3
FWI-GLOC-2005	Conduct a lesson on Glock series weapon.	7-4

CONDITION: Given a SL3 complete FN/FAL series weapon, ammunition, personnel, range, targetry, references and equipment.

STANDARD: In accordance with SAT and The FAL Rifle Classic Edition.

PERFORMANCE STEPS:

1. Instruct weapon characteristics.
2. Instruct maintenance procedures for FN/FAL series weapon.
3. Instruct weapons handling on a FN/FAL series weapons.
4. Instruct zeroing procedures for a FN/FAL series weapon.
5. Instruct the engagement of stationary targets with a FN/FAL series weapon.
