MARINE CORPS ORDER 3500.41

From: Commandant of the Marine Corps
To: Distribution List

Subj: SIGNALS INTELLIGENCE TRAINING AND READINESS MANUAL (SHORT TITLE:
SIGINT T&R MANUAL)

Encl: (1) Locator Sheet

1. Purpose. To publish revised training standards, regulations, and policies, which prescribe a career continuum of training required of the signals intelligence community.
2. Cancellation. None.
3. Background. This manual reflects a holistic approach to training Marine Corps signals intelligence personnel with a standardized career training plan. The individual training standards contained in this Manual supersede the Individual Training Standards listed in MCO 1510.50A. That directive will remain in effect for approximately one year to support transition to the SIGINT T&R Manual by the Operating Forces and formal schools. This Manual incorporates both individual training standards and unit/section skills in a progressively more challenging, "building block" approach that leaders can use to develop both the individual abilities and the team skills required of signals intelligence Marines.
4. Reserve Applicability. This Manual is applicable to the Marine Corps Reserve.
5. Certification. Reviewed and approved this date.

W. E. GASKIN
By direction

CHAPTER 1

Signals Intelligence/Electronic Warfare Officer/2602

1001. INTRODUCTION. The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS). It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness Percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

1002. UNIT TRAINING

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R Manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-0A, Unit Training Management Guide (UTM).

1003. THE HOLISTIC APPROACH TO TRAINING. The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and Managed On-the-job Training (MOJT), with nontraditional sources such as civilian college courses, other service correspondence courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

1004. THE CORE CAPABILITIES METHODOLOGY

1. **Core Tasks** are those essential basic skills that "make" a Marine and qualify that Marine for an MOS and are introduced in entry level training (100 level). **Core Plus Tasks** are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME), the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in Appendix (A).

CHAPTER 1

1005. CAREER PROGRESSION

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.
2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.
3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.
4. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

1006. CAREER PROGRESSION PHILOSOPHY. The career progression philosophy contained in Appendix (B) describes the typical training progression for a Marine of this MOS.

1007. **EVALUATION OF TRAINING.** Evaluation of the academic portions of the T&R Manual will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

1008. COMPONENTS OF A T&R EVENT

1. **General.** An event contained within a T&R Manual is an individual or collective training standard and contains nine components.

Event code: The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level)

TASK: A unit of work expressed as a performance-oriented action (i.e., "Type a letter.").

CONDITION: The constraints that affect the performance of the task in a real-world environment.

CHAPTER 1

It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

STANDARD: The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms.

CONCEPT OF TASK: This paragraph is optional but may be used if the task requires further explanation.

PREREQUISITE(S): A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

REFERENCE(S): A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

ORDNANCE: A listing of ordnance types and quantities required to complete the task.

EXTERNAL SUPPORT REQUIREMENT(S): A listing of the external range, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

1009. CRP COMPUTATION

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP). The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual members of the section have low Individual CRP ratings in their 100-300 level training.

1010. **INDIVIDUAL TASK MATRIX**

1. The Individual Task Matrix, located at Appendix (C), summarizes the tasks that are applicable to specific billets. Utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities.

2. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CRP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

Components of the Individual Task Matrix

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks.

CRP (Combat Readiness Percentage) - Quantitative value assigned to each T&R task. Used to calculate Individual Combat Readiness Percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

Note 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MOS producing schools.

1011. **GUIDE TO TASK MATRIX**. The Section Task Matrix, located at Appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

1012. **COMBAT CAPABLE TRAINING (100 level)**. 100 level tasks are contained in Appendix (E).

1013. **COMBAT READY TRAINING (200 level)** . 200 level tasks are contained in Appendix (F).

1014. **COMBAT QUALIFICATION TRAINING (300 level)** . 300 level tasks are contained in Appendix (G).

1015. **SECTION SKILLS TRAINING (400 level)** - 400 level tasks are contained in Appendix (H) -

1016. **SPECIAL DESIGNATIONS.** Completion of the courses of instruction contained in Appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

1017. **ACADEMIC TRAINING.** The Academic Training contained in Appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

1018. **CAREER PROFESSIONAL READING.** The Career professional Reading contained in Appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to specific T&R tasks and require some type of product to be produced by the Marine.

1019. **UPDATE CHAINING.** Update- chaining is contained in Appendix (L)

1020. **BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE.** Billets, which require formal school attendance, are contained in Appendix (M)

1021. **EXPENDABLE ORDNANCE REQUIREMENTS.** Ordnance requirements are contained in Appendix (N), if required.

1022. **TRAINING REFERENCES.** The training references contained in Appendix (O) -shall be utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures.

CHAPTER 1

APPENDIX A

CORE CAPABILITIES

Core Capabilities List

- 1 plan, direct, and coordinate cryptologic collections management to satisfy operational requirements.
- 2 Plan, manage, and coordinate the receipt and processing of cryptologic intelligence information.
3. Plan, coordinate, and supervise the accurate and relevant analysis, assessment, production, and dissemination of cryptologic intelligence.
4. Assess cryptologic operations in order to increase the effectiveness of intelligence support.
5. Identify, prioritize, manage, and coordinate cryptologic intelligence requirements.
- 6 Identify, prioritize, manage, and coordinate cryptologic intelligence requirements for support to Information Operations.
7. Advise the commander on technical matters pertaining to cryptologic intelligence operations.
- 8 Direct, coordinate, and supervise the employment of intelligence systems in order to optimize cryptologic intelligence support throughout the MAGTF.
9. Plan, coordinate, and direct Tactical Electronic Reconnaissance Processing and Evaluation. system (TERPES) in support of Marine and Joint Air operations.
- 10* Provide technical guidance to system hardware/software design engineers for the maintenance and development of cryptologic intelligence support systems.
11. Plan, coordinate, and direct cryptologic activities to support computer network defense in support of MAGTF operations.
- 12 plan, coordinate, and direct computer network exploitation activities in support of MAGTF operations.
- 13 Provide technical guidance for development of cryptologic intelligence formal/MOJT training requirements.
- 14 Administer Operations and Maintenance (O&M) funds in support of cryptologic intelligence Systems.

SIGINT T&R MANUAL

CHAPTER 1

APPENDIX B

CAREER PROGRESSION PHILOSOPHY

The Career Progression Philosophy for the Marine Corps Signals Intelligence/Ground Electronic warfare (SIGINT/EW) Officer (MOS 2602) is supported by a structured training plan. The structured plan consists of three levels of individual training (100-300). Training at the 100 level consists of the System Officers Course conducted by Training Command at Quantico, VA. This training is designed to prepare 2602 Warrant Officers with the communications and Systems expertise necessary to function as SIGINT/EW officers at Radio Battalions, Intelligence Battalions, or VMAQ Squadrons. Assignment to VMAQ Squadrons also requires completion of appropriate TERPES-related 100 level training. Assignment to an Intelligence Battalion requires completion of the Collection Management Course conducted by the Defense Intelligence Agency, Bolling AFB, MD. Training at the 200 level is designed to provide network defense/exploitation core and core-plus skills for the 2602 Warrant Officer in preparation for Information Operations assignments. This level centers around attendance at formal schools, correspondence courses, and managed on-the-job training (MOJT) to provide knowledge of current and emerging technologies. Completion of the 200 level training and transition to the 300 level is normally marked by promotion to CW03 and attendance at the Network Technologies Course (CY-601) conducted by the National Cryptologic School at Fort Meade, MD. The 300 level training provides the SIGINT/EW Warrant Officer with core-plus skills through MOJT and formal programs (i.e., SNIP). This level of training is designed to further increase the SIGINT technical expertise and knowledge to further prepare the 2602 Warrant Officer for additional/future assignments at Theater Level, National Level, supporting establishment, or external agency.

CHAPTER 1

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

Purpose: The Career Progression Philosophy for the Marine Corps Signals Intelligence/Ground Electronic Warfare (SIGINT/EW) Officer (MOS 2602) is supported by a structured training plan. The structured plan consists of three levels of individual training (100-300). Training at the 100 level consists of the System Officers Course conducted by Training Command at Quantico, VA. This training is designed to prepare 2602 Warrant Officers with the communications and systems expertise necessary to function as SIGINT/EW officers at Radio Battalions, Intelligence Battalions, or VMAQ Squadrons. Assignment to VMAQ Squadrons also requires completion of appropriate TERPES-related 100 level training. Assignment to an Intelligence Battalion requires completion of the Collection Management Course conducted by the Defense Intelligence Agency, Bolling AFB, MD.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 1

Event code: 100-TRP

Task: Identify functions of TERPES components.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: TM for equipment inhise; AN/TSQ-90 System Manual.

Concept of task: Instruction focuses on functions and capabilities of each TERPES component.

Prerequisites: None.

CRP: 10 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual

Event code: 101-TRP

Task: Identify the databases that comprise the TERPES integrated database.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: TERPES Software User's Manual.

Concept ofTask: None.

Prerequisites: None.

CRP: 6.7 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): TERPES Software User's Manual

Event code: 102-TRP

Task: Identify the characteristics and parametric of radar signals.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical and lexical working aids.

Concept of task: Instruction focuses on an overview of radar internal and external signal characteristics and associated terminology.

Prerequisites: None.

CRP: 6.7 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

CHAPTER 1

Reference(s): ELINT Parametric Limits MCEPL) List

Event code: 103-TRP

Task: Identify TERPES analysis applications.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: TERPES Software Users Manual.

Concept of task: Instruction focuses on an overview of TERPES ELINT processor (TEP) , tactical fusion processor (TFP) intelligence analysis application (IAA), and tactical data correlator (TDC)

Prerequisites: None -

CRP: 3.3 **Sustainment Interval (months) :** 0

External Support Required: None.

Events updated: None.

Reference(s): TERPES Software User's Manual
TERPES Operator/Analyst Course
TERPES System Administrator Course
TERPES Applications Management Course

Event code: 104-TRP

Task: Identify capabilities of EA-6B Prowler.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: Prowler Tactics Guide Vol I-III.

Concept of task: Instruction focuses on receiver and transmitter operating frequencies, direction finding accuracy, recording capabilities, database functions, and limitations of the EA-6B.

Prerequisites: None.

CRP: 6.7 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): Prowler Tactics Guide Vol I-III

Event code: 105-TRP

Task: Define the concept of employment for TERPES.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

SIGINT T&R MANUAL

CHAPTER 1

Standard: MCWP 2-15.2, signals Intelligence.

Concept of task: Instruction focuses on effective employment of a TERPES system in support of MAGTF and Joint air operations.

Prerequisites: None -

CRP: 10 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): TERPES Concept Of Employment
TERPES Operational Requirements Document

MCWP 2-15.2, signals Intelligence

Event code: 106-TRP

Task: Identify the applicable ELINT reporting formats.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: USSID 300 series.

Concept of task: Instruction focuses on ELINT reporting formats (i.e., TECELINT, sensor reports, TechElint, Arbitrary ELINT notation reports, etc.).

Prerequisites: None.

CRP: 3.3 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): USSID 300 series

Event code: 107-TRP

Task: Develop an Operations and Maintenance (O&M) budget and management plan.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: Appropriate comptroller guidance.

Concept of task: Instruction focuses on allowable expenditures for the operations and maintenance of the AN\TSQ-90.

Prerequisites: None.

CRP: 6.7 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): MCO P4790.1, MIMMS Introduction Manual
MCO P4790.2, MIMMS Field Procedures

CHAPTER 1

Event code: 108-TRP

Task: State the mission of TERPES.

Condition: When assigned as a TERPES 010, provided with the appropriate references, materials, and equipment.

Standard: TERPES COE.

Concept of task: None.

Prerequisites: None.

CRP: 6.7 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): TERPES Concept Of Employment

SIGINT T&R MANUAL

CHAPTER 1

APPENDIX F

COMBAT READY TRAINING (200 LEVEL)

Purpose: Training at the 200 level is designed to provide network defense/exploitation core and core-plus skills for the 2602 Warrant Officer in preparation for Information Operations assignments. This level centers around attendance at formal schools, correspondence courses, and managed on-the-job training (MOJT) to provide knowledge of current and emerging technologies. Completion of the 200 level training and transition to the 300 level is normally marked by promotion to CW03 and attendance at the Network Technologies Course (CY-601} conducted by the National Cryptologic School at Fort Meade, MD.

Administrative Notes: None.

Prerequisites: None

CHAPTER 1

Event code: 200-CMA

Task: Identify the collection assets organic to the Marine Corps.

Condition: provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-1.

Concept of task: None.

Prerequisites: None -

CRP: 1.395 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-1

Event code: 201-CND

Task: Identify information protection strategies.

Condition: Provided with the appropriate references.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on current information protection strategies, i.e., filters, encryption, intrusion detection, patches, etc.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference (5) : Reference material under development

Event code: 202-CNE

Task: Identify network traffic externals.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on network traffic externals and their relationship to network configuration. The student should be able to identify the type of network by the externals.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference (5) : Reference material under development

CHAPTER 1

Event code: 203-PNR

Task: Advise on SIGINT Operational Tasking Authority (SOTA) policy as it applies to USMC tactical SIGINT units.

Condition: provided with the appropriate references, materials, and equipment.

Standard: USSID 2000.

Concept of task: None.

Prerequisites: None.

CRP: 0.465 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : USSID 2000
MCWP 2-15.2, Signals Intelligence

Event code: 204-TRP

Task: Plan ELINT support to VMAQ operations.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, Signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 0.1395 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES Software user's Manual
TERPES System Manual
VMAQ SOP
MCWP 2-15.2, Signals Intelligence

Event code: 205-CND

Task: Identify network hacking profiles.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on past and current hacking tools and profiles.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

CHAPTER 1

Events updated: None.

Reference(s) : Reference material under development

Event code: 206-CNE

Task: Identify types of network hardware components through network traffic.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Reference material under development

Event code: 207-PNR

Task: Describe USCS policies.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: U.S. Signals Intelligence Directive (USSID) 1, SIGINT operating Policy.

Concept of task: None

Prerequisites: None.

CRP: 0.45 **Sustainment Interval (months):** 12

External Support Required: None.

Events updated: None.

Reference(s): USSID series

Event code: 208-TRP

Task: Develop a pre-deployment checklist for the TERPES section.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, Signals Intelligence.

Concept of task: MOJT provides instruction on logistical, embarkation, and operational requirements that must be addressed prior to, during, and post-deployment. Structure of the check list must provide a time line for task initiation and completion dates.

Prerequisites: None.

CHAPTER 1

CRP: 0.465 **Sustainment Interval (months):** 12
External Support Required: None.
Events updated: None.
Reference(s): MCWP 2-15.2, signals Intelligence

Event code: 209-CND
Task: Identify methods of network intrusion.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Appropriate technical manuals.
Concept of task: None.
Prerequisites: None.
CRP: 0.93 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None.
Reference(s) : Reference material under development

Event code: 210-CNE
Task: Identify the existence of a PROXY server through network traffic.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Appropriate technical manuals.
Concept of task: None.

Prerequisites: None.
CRP: 0.93 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None.
Reference(s) : Reference material under development

Event code: 211-PNR
Task: Explain the tasking process of USCS systems.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Joint Tactical Exploitation of National Systems (J-TENS) Manual.
Concept of task: None.

Prerequisites: None.
CRP: 0.93 **Sustainment Interval (months):** 12
External Support Required: None.

CHAPTER 1

Events updated: None.
Reference(s): J-TENS Manual

Event code: 212-TRP

Task: Identify current and future software/hardware configuration requirements.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): VMAQ SOP
 TERPES System Manual
 MCO P4790.1, MIMMS Introduction Manual

Event code: 213-OND

Task: Identify computer security reporting vehicles.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on current computer security reports, such as CERTAINTY, BUGTRAQ, etc.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months) :** 1

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 214-CNE

Task: Recover network routing using multiple sources.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on procedures and sources for network routing recovery such as routing packets, HUMINT, etc.

Prerequisites: None.

CHAPTER 1

CRP: 0.93 **Sustainment Interval (months):** 3
External Support Required: None.
Events updated: None.
Reference(s) : Reference material under development

Event code: 215-PNR

Task: Coordinate with national and theater level managers on broadcast intelligence issues.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TDDS Handbook procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 6
External Support Required: None.
Events updated: None.
Reference(s): TDDS Handbook

Event code: 216-TRP

Task: Review calibration plan for maintenance support equipment.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.465 **Sustainment Interval (months):** 3
External Support Required: None.
Events updated: None.
Reference(s): MCO P4790.1, MIMMS Introduction Manual
MCO P4790.2, MIMMS Field Procedures VMAQ SOP

Event code: 217-CNP

Task: Identify network vulnerability analysis tools.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on current network vulnerability analysis tools, such as CYBER CLOP, ISS, etc.

CHAPTER 1

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 218-CNE

Task: Associate network addresses to users.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 219-PNR

Task: Task and organize personnel and equipment for cryptologic operations.

Condition: provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, Signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-15.2, Signals Intelligence

Event code: 220-TRP

Task: Review the preventive maintenance plan for the AN/TSQ-90.

Condition: When assigned as a TERPES OIC and provided with the appropriate

references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CHAPTER 1

CRP: 0.465 **Sustainment Interval (months):** 6
External Support Required: None.
Events updated: None
Reference(s): VMAQ SOP
TERPES System Manual

Event code: 221-CND

Task: Identify principles of network security architecture.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Appropriate technical manuals.
Concept of task: Instruction focuses on network security equipment, such as firewalls, filters, intrusion detection systems, etc.
Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None
Reference (5) : Reference material under development

Event code: 222-CNE

Task: Identify computer applications from network traffic.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Appropriate technical manuals.
Concept of task: Instruction focuses on procedures for recognition of computer applications such as web browsers, word processing, mail, etc., within network traffic.
Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3
External Support Required: one.
Events updated: None.
Reference(s) : Reference material under development

Event code: 223-TRP
Task: Establish reporting procedures to provide ELINT support to external units.
Condition: When assigned as a TERPES OIC and provided with the Appropriate references, materials, and equipment.
Standard: USSID 300 series.

CHAPTER 1

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): USSID 300 series
VMAQ SOP

Event code: 224-CND

Task: Identify symptoms of intrusion.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 225-CNE

Task: Identify security packages and encryption within network traffic.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on procedures for identification of security packages (trip wire, TCP wrappers, etc.) and encryption products (PGP, SSL, etc.) within network traffic.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 226-TRP

Task: Develop a TERPES capabilities brief.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

CHAPTER 1

Standard: Standard TERPES System Manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 12

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software Users Manual
VMAQ SOP

Event code: 227-CNE

Task: Identify the intrusion detection capabilities of a target system.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 228-TRP

Task: Conduct a TERPES capabilities brief.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software Users Manual
VMAQ SOP

Event code: 229-CNE

Task: Identify the security procedures of a target system.

CHAPTER 1

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 230-TRP

Task: Identify characteristics to evaluate the effectiveness of ELINT products.

Condition: When assigned as a TERPES OIC and provided with the appropriate

references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : USSID 300 series

Event code: 231-CNE

Task: Identify the standard practices of a target system.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 232-TRP

Task: Integrate ELINT support into the organization's intelligence effort.

Condition: When assigned as a TERPES OIC and provided with the appropriate

CHAPTER 1

references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-15.2, signals Intelligence
MCWP 2-1

Event code: 233-CNE

Task: Identify legal restrictions associated with CNE.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Instruction focuses on the documents and authorities governing CNE, such as USSID 18, Title 10, USSID 9, etc.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development
USSID 18
USSID 9

Event code: 234-TRP

Task: Supervise the establishment of a TERPES operations site.

Condition: When assigned as a TERPES OIC and provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 12

External Support Required: None.

Events updated: None.

Reference(s): VMAQ SOP

CHAPTER 1

Event code: 238-TRP

Task: Provide input to an EA-6B tactics review board.

Condition: When assigned as a TERPES GIC and provided with the appropriate references, materials, and equipment.

Standard: Prowler Tactics Guide Vol I-III.

Concept of task: None.

Prerequisites: None -

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Prowler Tactics Guide Vol I-III

Event code: 239-TRP

Task: Supervise the implementation of engineering change proposals to the
AN/TSQ-90.

Condition: When assigned as a TERPES OIC, and provided with the appropriate references, materials, and equipment.

Standard: MCO P4790.1, MIMMS Introduction Manual.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 12

External Support Required: None.

Events updated: None.

Reference(s): MCO P4790.1, MIMMS Introduction Manual
MCO P4790.2, MIMMS Field Procedures

Event code: 240-TRP

Task: Brief current adversary integrated air-defense situation.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: VMAQ SOP; NAIC Threats to Air Operations handbooks.

Concept of task: None.

Prerequisites: None.

CRP: 0.93 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

CHAPTER 1

SIGINT T&R MANUAL

CHAPTER 1

APPENDIX G

COMBAT QUALIFICATION TRAINING (300 LEVEL)

Purpose: The 300 level training provides the SIGINT/EW Warrant Officer with core-plus skill through MOJT and formal programs (i.e., SNIP) . This level of training is designed to further increase the SIGINT technical expertise and knowledge to further prepare the 2602 Warrant Officer for additional/future assignments at Theater Level, National Level, supporting establishment, or external agency.

Administrative Notes: None.

Prerequisites: None.

SIGINT T&R MANUAL

CHAPTER 1

Event code: 300-CND

Task: Direct the conduct of SIGINT support to Computer Network Defense.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: MOJT focuses on the requirements necessary to effectively safeguard friendly networks.

Prerequisites: None.

CRP: 1.395 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Reference material under development

Event code: 301-CNE

Task: Direct the conduct of Computer Network Exploitation activities.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: MGJT focuses on the legal and operational requirements for the conduct of CNE.

Prerequisites: None.

CRP: 1.395 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference (5) Reference material under development

SIGINT T&R MANUAL

CHAPTER 1

APPENDIX H

SECTION TRAINING (400 LEVEL)

Purpose: The purpose of the 400 level is to identify those tasks which are completed by the section. These tasks are directly tied to the core capabilities listed for this MOS.

Administrative Notes None.

Prerequisites None.

CHAPTER 1

Event code: 400-XXX

Task: Develop collection management plan.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Annex B of Operations Order.

Concept of task: None.

Prerequisites: None.

CRP: 0.495 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-1
Local SOP/LOI

Event code: 401-XXX

Task: provide SIGINT, EW, and indications and warning (I&W) in support of
MAGTF operations.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-1, Intelligence Operations
Local SOP/LOI

Event code: 402-XXX

Task: Maintain classified material security programs.

Condition: provided with the appropriate references, materials, and equipment.

Standard: OPNAVINST 5510.1, Department of the Navy Information and personnel Security program Regulation.

Concept of task: None.

Prerequisites: None.

CRP: 0.165 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): OPNAVINST 5510.1, Department of the Navy Information and personnel Security program Regulation

CHAPTER 1

Local SOP/LOI

Event code: 403-XXX

Task: provide input for the Annex B (Intel), Annex K (Corruns), and Annex C (Ops) to the Ops/Conpian.

Condition: provided with the appropriate references, materials, and equipment

Standard: FMFM 3-1, Command and Staff Action.

Concept of task: None.

Prerequisites: None.

CRP: 0.33 Sustainment Interval (months): 6

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-1, Intelligence Operations
MCWP 2-15.2, signals Intelligence

Local SOP/LOI

Event code: 404-XXX

Task: Coordinate SIGINT support to CND.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: provide SIGINT analysis and reporting related to friendly networks in support of MAGTF operations.

Prerequisites: None.

CRP: 0.495 Sustainment Interval (months): .5

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 405-XXX

Task: Coordinate CNE within the collection planning process.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Coordinate intelligence requirements that may be satisfied through CNE and advise on restrictions pertaining to CNE.

Prerequisites: None.

CHAPTER 1

CRP: 0.495 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 406-XXX

Task: Provide pre-mission planning support to VMAQ operations.

Condition: When assigned to VMAQ Squadron and provided with the appropriate references, materials, and equipment.

Standard: VMAQ SOP.

Concept of task: None.

Prerequisites: None.

CRP: 0.495 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software Users Manual
VMAQ SOP

Event code: 407-XXX

Task: Disseminate CNE-based reporting to satisfy intelligence requirements.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate technical manuals.

Concept of task: Provide intelligence reporting and technical data to appropriate recipients, in support of tactical, theater, and national information requirements.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development

Event code: 408-XXX

Task: Plan SIGINT/EW support to MAGTF operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, Signals Intelligence.

CHAPTER 1

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-1, Intelligence Operations
MCWP 2-15.2, Signals Intelligence
Local SOP/LOI
J-TENS Manual

Event code: 409-XXX

Task: Provide post-mission analysis support to VMAQ operations.

Condition: When assigned to VMAQ Squadron and provided with the appropriate references, materials, and equipment.

Standard: VMAQ SOP.

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software User's Manual
VMAQ SOP

Event code: 410-xxx

Task: Perform I&W, processing, analysis exploitation, production, and reporting of SIGINT information.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate USSIDs.

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): USSID 300 SERIES

CHAPTER 1

Event code: 411XXX

Task: Coordinate SIGINT/EW operations with MAGTF.

Condition: Provided with the appropriate references, materials, and equipment

Standard: CWP 2-15.2, Signals Intelligence.

Concept of task: None.

Prerequisites: None

CRP: 0.33 Sustainment Interval (Months): 6

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-1, Intelligence Operations
MCWP 2-15.2, Signals Intelligence

Local SOP/LOI

Event code: 412-XXX

Task: Establish TERPES operations site.

Condition: When assigned to VMAQ Squadron and provided with the appropriate references, materials, and equipment.

Standard: VMAQ SOP.

Concept of task: None.

Prerequisites: None

CRP: 0.165 Sustainment Interval (months): 12

External Support Required: None.

Events updated: None.

Reference(s): VMAQ SOP

Event code: 413-XXX

Task: Conduct sanitization of classified material.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: NSA Sanitization Guide.

Concept of task: None.

Prerequisites: None.

CRP: 0.165 Sustainment Interval (months): .5

External Support Required: None.

Events updated: None.

Reference(s): DOD TS-5105.21, (M-2)
Local SOP/LOI

CHAPTER 1

NSA Sanitization Guide

Event code: 414-XXX

Task: Maintain Tactical Electronic Order-of-Battle.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TERPES Software User's Manual.

Concept of task: Involves fusing national and tactical ELINT data for designated operations area and creation of queriable database.

Prerequisites: None.

CRP: 0.495 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software User's Manual

Event code: 415-XXX

Task: Perform preventive maintenance on current organic equipment and vehicles.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.165 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): MCO P4790
Local SOP/LOI

Event code: 416-XXX

Task: Establish a shipborne and field OCAC/TSCIF and provide appropriate input to communications connectivity.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, Signals Intelligence.

Concept of task: None.

Prerequisites: None.

CHAPTER 1

CRP: 0.165 **Sustainment Interval (months):** 6
External Support Required: None
Events updated: None.
Reference(s): MCWP 2-15.2, Signals Intelligence
 Local SOP/LOI

Event code: 417-XXX

Task: Operate TERPES system.

Condition: provided with the appropriate references, materials, and equipment.

Standard: AN/TSQ-90 System Manual.

Concept of task: Involves operation, system administration, and maintenance of the AN/TSQ-90 components.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** .5
External Support Required: None.
Events updated: None.
Reference(s): AN/TSQ-90 System Manual

Event code: 418-XXX

Task: Conduct COMSEC/CND monitoring for supported commander.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None.
Reference(s): MCWP 2-1, Intelligence Operations
 MCWP 2-15.2, Signals Intelligence
 Local SOP/LOI

Event code: 419-XXX

Task: Establish tactical, theater, and national intelligence systems connectivity.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

CHAPTER 1

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): OPNAVINST 5239.1, Department of the Navy ADP
Local SOP/LOI
MCWP 2-15.2, Signals Intelligence

Event code: 420-XXX

Task: Maintain TERPES integrated database.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TERPES Software User's Manual

Concept of task: Load and update, as required, all databases that comprise the TERPES integrated database (i.e., MIDB, EPL, EWIR, etc.).

Prerequisites: None.

CRP: 0.495 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software User's Manual

Event code: 421-XXX

Task: Maintain country files, technical databases, and deployment tech
- kits for geographic locations and functional areas.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.33 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP/LOI

Event code: 422-XXX

Task: Direct collection operations.

CHAPTER 1

Condition: Provided with the appropriate references, materials, and equipment

CHAPTER 2

Communication Signals Collection Analyst/2621

2001. **INTRODUCTION.** The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS) . It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness Percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

2002. **UNIT TRAINING**

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R Manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-OA, Unit Training Management Guide (UTM).

2003. **THE HOLISTIC APPROACH TO TRAINING.** The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and Managed On-the-Job Training (MOJT) , with nontraditional sources such as civilian college courses, other service correspondence courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

2004. **THE CORE CAPABILITIES METHODOLOGY**

1. Core Tasks are those essential basic skills that 'make" a Marine and qualify that Marine for an MOS and are introduced in entry level training (100 level) . Core Plus Tasks are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME), the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in Appendix (A)

CHAPTER 2

2005. **CAREER PROGRESSION**

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.
2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.
3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.
4. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

2006. **CAREER PROGRESSION PHILOSOPHY**. The career progression philosophy contained in appendix (B) describes the typical training progression for a Marine of this MOS.

2007. **EVALUATION OF TRAINING**. Evaluation of the academic portions of the T&R Manual will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

2008. **COMPONENTS OF A T&R EVENT**

1. **General**. An event contained within a T&R Manual is an individual or collective training standard and contains nine components.

Event code: The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level)

TASK: A unit of work expressed as a performance-oriented action (i.e., "Type a letter.").

CONDITION: The constraints that affect the performance of the task in a real-world environment.

CHAPTER 2

It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

STANDARD: The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms.

CONCEPT OF TASK: This paragraph is optional but may be used if the task requires further explanation.

PREREQUISITE(S) : A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

REFERENCE(S): A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

ORDNANCE: A listing of ordnance types and quantities required to complete the task.

EXTERNAL SUPPORT REQUIREMENT(S): A listing of the external range, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

2009. CRP COMPUTATION

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP) . The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. 400 level section tasks have a total CRP value of 100% and are not considered in conjunction with the 100-300 level Individual task CRP values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual

CHAPTER 2

members of the section have low Individual CRP ratings in their 100-300 level training.

2010. INDIVIDUAL TASK MATRIX

1. The Individual Task Matrix, located at Appendix (C), summarizes the tasks that are applicable to specific billets. Utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities.

2. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CEP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

Components of the Individual Task Matrix

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks.

CRP (Combat Readiness Percentage) - Quantitative value assigned to each T&R task. Used to calculate Individual Combat Readiness percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

Note 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MOS producing schools.

2011. SECTION TASK MATRIX. The Section Task Matrix, located at Appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

2012. COMBAT CAPABLE TRAINING (100 level) . 100 level tasks are contained in Appendix (E).

2013. COMBAT READY TRAINING (200 level) - 200 level tasks are contained in Appendix (F).

CHAPTER 2

2014. **COMBAT QUALIFICATION TRAINING (300 level)**. 300 level tasks are contained in Appendix (G)

2015. **SECTION SKILLS TRAINING (400 level)**. 400 level tasks are contained in Appendix (H)

2016. **SPECIAL DESIGNATIONS**. Completion of the courses of instruction contained in Appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

2017. **ACADEMIC TRAINING**. The Academic Training contained in Appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

2018. **CAREER PROFESSIONAL READING**. The Career professional Reading contained in Appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to specific T&R tasks and require some type of product to be produced by the Marine.

2019. **UPDATE CHAINING**. Update chaining is contained in Appendix (L).

2020. **BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE**. Billets, which require formal school attendance, are contained in Appendix (M)

2021. **EXPENDABLE ORDNANCE REQUIREMENTS**. Ordnance requirements are contained in Appendix (N), if required.

2022. **TRAINING REFERENCES**. The training references contained in Appendix (O) shall be utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures.

SIGINT T&R MANUAL

CHAPTER 2

APPENDIX A

CORE CAPABILITIES

Core Capabilities List

- 1 Provide timely and accurate tailored COMINT to the commander.
- 2 Process and analyze Signals Intelligence in an automated and non-automated environment.
3. Disseminate information and intelligence in an automated and non-automated environment.
4. Conduct Communications Intelligence collection in a tactical environment.

SIGINT T&R MANUAL

CHAPTER 2

APPENDIX B

CAREER PROGRESSION PHILOSOPHY

The career progression philosophy for the Communication Signals Collection Analyst consists of a structured career progression plan, containing three individual (100-300 level) training levels. These training levels combined with formal schools are designed to produce and mentor a successful Communications Signals Collector/Analyst. The 100 level of training will provide the Marine with those core skills necessary to function as a basic Communications Signal Collector. This training is conducted at the Naval Technical Training Center, Pensacola, FL. Those billets identified as needing Manual Morse collection skills will receive further 100 level training at Fort Huachuca, AZ. Those billets identified as needing Team Portable Collection System training will receive training also at Fort Huachuca. Those billets identified as needing Combat Direction Finding training will receive training at Pensacola, FL. The 200 level of training is designed to reinforce core skills and provide core plus skills culminating in attendance at the Intermediate Signals Collection and Analysis Course, Pensacola, FL, to prepare the Communications Signals Collector for the responsibilities of Team Leader/Analyst. This level is centered around structured managed on-the-job training (MOJT) and selected formal schools and courses. Upon completion of the Intermediate Signals Collection and Analysis Course, the Marine will enter the 300 level of training. This level is designed to provide additional core plus skills necessary for the COMINT collector to function as a Team Leader/Analyst. The 300 level of training is centered around structured MOJT and selected formal schools and courses.

CHAPTER 2

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

Purpose: The 100 level of training will provide the Marine with those core skills necessary to function as a basic Communications Signal collector. This training is conducted at the Naval Technical Training Center, Pensacola, Florida. Those billets identified as needing Manual Morse collection skills will receive further 100 level training at Fort Huachuca, Arizona. Those billets identified as needing Team Portable Collection System training will also receive it at Fort Huachuca. Those billets identified as needing Combat Direction Finding training will receive it at Pensacola, FL.

Administrative Notes: **Event** codes identified with the suffix PLC are intended for inclusion within the Communication Signal Collection and Processing Course, Pensacola, FL. Event codes identified with the suffix MMS are intended for inclusion within the Morse Interceptor Course at Fort Huachuca, AZ. Event codes identified with the suffix MMS are intended for inclusion within the Team Portable Collection System Course at Fort Huachuca, AZ.

Prerequisites: None.

CHAPTER 2

Event code: 100-FLC

Task: Operate intercept radio receivers.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TM for equipment in use.

Concept of task: None.

Prerequisites: None.

CRP: 2.2 Sustainment Interval (months): 0

External Support Required: None.

Events updated: None.

Reference(s) : Appropriate Technical Manuals

Event code: 101-MMS

Task: Intercept foreign morse communication transmissions.

Condition: provided with the appropriate references, materials, and equipment

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.3 Sustainment Interval (months): 0

External Support Required: None.

Events updated: None.

SIGINT T&R MANUAL

CHAPTER 2

APPENDIX F

COMBAT READY TRAINING (200 LEVEL)

Purpose: The 200 level of training is designed to reinforce core skills and provide core plus skills culminating in attendance at the Intermediate Signals Collection and Analysis Course, Pensacola, Florida, to prepare the Communications Signals Collector for the responsibilities of Team Leader/Analyst. This level is centered around structured Managed On-the-Job Training (MOJT) and selected formal schools and courses.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 2

Event code: 200-XXX

Task: Prepare general SIGINT briefings.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.235 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): MCDP 2, Intelligence
Local SOP

Event code: 201-XXX

Task: Identify MAGTF intelligence doctrine.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.235 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): FM 30-5, Combat, Intelligence
FMFM 3-21, MAGTF Intelligence Operations
MCDP 2, Intelligence
MCWP 2-15.2, Signals Intelligence
Local SOP

Event code: 202-XXX

Task: Apply the Marine Corps Intelligence Cycle.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.235 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

CHAPTER 2

APPENDIX G

COMBAT QUALIFICATION TRAINING (300 LEVEL)

Purpose: Upon completion of the Intermediate Signals Collection and Analysis Course, the Marine will enter the 300 level of training. This level is designed to provide additional core plus skills necessary for the COMINT collector to function as a Team Leader/Analyst. The 300 level of training is centered around structured Managed On-the-Job Training (MOJT) and selected formal schools and courses.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 2

Event code: 300-XXX

Task: Conduct SIGINT collection management operations.

Condition: Provided with the appropriate references, materials, and equipment -

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None -

CRP: 0.47 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): U.S. Signals Intelligence Directive (USSID) 300 series
Local SOP

Event code: 418-XXX

Task: Coordinate with other Intel nodes to plan, direct, and integrate SIGINT ops with other intelligence and reconnaissance operations.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 1.56 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): FM 30-S, Combat Intelligence
FMFM 3-21, MAGTF Intelligence Operations
Local SOP

CHAPTER 2

Event code: 419-XXX

Task: Maintain Tactical Electronic Order-of-Battle.

Condition: provided with the appropriate references, materials, and equipment -

Standard: Local Standard Operating procedures.

Concept of task: Involves fusing national and tactical ELINT data for designated operations area and creation of queriable database.

Prerequisites: None.

CRP: 4.69 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software User's Manual
VMAQ SOP
Local SOP

Event code: 420-XXX

Task: Perform preventive maintenance (PM) on current organic equipment and vehicles.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.13 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s) : Appropriate Technical Manuals
Local SOP

Event code: 421-XXX

Task: Conduct COMSEC monitoring for supported commander.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CHAPTER 2

CRP: 3.13 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : FM 34-1, Intelligence and Electronic Warfare Operations
FMFM 3-23, (C) Signals Intelligence/Electronic Warfare
Operations (U)
Local SOP

Event code: 424-XXX

Task: Maintain country files, technical databases, and deployment tech kits for geographic locations and functional areas.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.13 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): FM 30-5, Combat Intelligence
FMFM 3-21, MAGTF Intelligence Operations
Local SOP

Event code: 425-XXX

Task: Direct collection operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 4.69 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): U.S. Signals Intelligence Directive (USSID) 100 series
FMFM 3-21, MAGTF Intelligence Operations
Local SOP

Event code: 426-XXX

Task: Prepare and present SIGINT/EW/IG briefings.

CHAPTER 2

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 1.56 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): FM 30-5, Combat Intelligence
Local SOP

Event code: 427-XXX

Task: Establish a SIGINT collection site in a tactical environment.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 4.69 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): FMFM 3-23, (C) Signals Intelligence/Electronic Warfare
Operations (U)
Local SOP

Event code: 428-XXX

Task: Develop and maintain local unit analytical and collection operator working aids.

Condition: provided with the appropriate references, materials, and equipment -

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.13 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): FMFM 3-23, (C) Signals Intelligence/Electronic Warfare
Operations (U)
Local SOP

CHAPTER 2

Event code: 429-XXX

Task: Maintain display of current enemy situation with target locations and priorities.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 1.56 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): FM 30-5, Combat Intelligence
FMFM 3-21, MAGTF Intelligence Operations
Local SOP

Event code: 430-XXX

Task: Review reports for significant developments, changes, and trends affecting enemy capabilities/courses of action.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.13 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): FM 30-S, Combat Intelligence
FMFM 3-21, MAGTF Intelligence Operations
Local SOP

Event code: 431-XXX

Task: Provide quality assurance of submitted Single Scope Background Investigation (SSBI)

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CHAPTER 2

CRP: 3.13 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

ACADEMIC TRAINING

Level Academic Tactic

- 200 Military Operations in Urban Terrain (MCI 03.66B), MCI
- 200 Basic Traffic Analysis (TA-103), National Security Agency
- 200 Exploitation of Manual Cryptosystems (CA-107) , National Security Agency
- 200 Principles of Collection Management (TM-201), National Security Agency
- 200 Introduction to Collection (TM-101) , NCS
- 200 Combat Direction Finding Operator, National Security Agency, Pensacola, FL
- 200 Light Armored Vehicle Leaders Course, Camp Pendleton, CA
- 200 ND-170 Introduction to Information System Security, National Security Agency
- 200 Appropriate area studies course (Area of Operations specific)
- 200 Briefing Skills (EG-243), National Security Agency
- 200 Introduction to Manual and Machine Cryptosystems (CA-104), National Security Agency
- 200 Infantry Squad Leader, Combat Leadership (MCI 03.80), MCI
- 200 Net Reconstruction (TA-104), National Security Agency
- 200 Desert Operations (MCI 03.54B), MCI
- 200 Reconnaissance Marine (MCI 03.32G), MCI
- 200 Introduction to Electronic Warfare (MCI 25.26B), MCI
- 200 Communications Security (MCI 2s.2SA), MCI
- 200 Communication for the FMF Marine (MCI 25.20C), MCI
- 200 Antenna Construction and Radio Wave Propagation (MCI 25.15G), MCI
- 200 The LAV Crewman (MCI 03.38), MCI
- 200 Direction Finding Operations (MCI 26.1A), MCI
- 200 UNIX Applications for Cryptanalysis (CA-212), National Security Agency

CHAPTER 2

Level	Academic Title
200	Infantry Squad Leader, Land Navigation (MCI 03.B1A), MCI
200	Introduction to COMSAT (EC124), National Security Agency
200	Introduction to Manual and Machine Cryptanalysis (CA-103), National Security Agency
200	Introduction to Joint Interoperable Systems (CK-201), National Security Agency
200	Communications Signals Measurement (EA-201), National Security Agency
200	Math for SIGINT (EA-183), National Security Agency
200	SIGINT Instrumentation and Measurement (EA-200), National Security Agency
200	Fundamentals of Digital Signal Processing (EA-181) , National Security Agency
200	Fundamentals of Speech Encipherment (EA-180), National security Agency
200	Modulation Methods (EA-162), National Security Agency
200	Introduction to Digital Signals Analysis (EA-106) , National Security Agency
200	Basic SIGINT Technology (EA-100), National Security Agency
200	Principles of Collection Management (TM-203), NCS
200	Introduction to SIGINT Technology (EA-010), National Security Agency
200	Introduction to UNIX/Pinsetter (TA-170), National Security Agency
200	MODEM Recognition and Analysis (EC-033), National Security Agency
200	Introduction to SIGINT Reporting (IS-180), National Security Agency
200	Introduction to ELINT Analysis and Reporting (IS-070), National Security Agency
200	The Art of Sanitization (IS-051), National Security Agency
200	Introduction to CRITIC Reporting (15-013), National Security Agency
200	UNIX/Pinsetter Applications for Traffic Analysis (TA-270), National Security Agency
200	Intermediate SOI Skills (TA-225), National Security Agency
200	Multichannel Traffic Analysis (TA-211), National Security Agency
200	Special Crypto-TA Techniques (TA-202), National Security Agency

CHAPTER 2

Level Academic Title

200	Introduction to Multichannel (RA- 030), National Security Agency
300	Senior Military Cryptologic Supervisor Course (CY-200), Fort Meade, MD
300	Undergraduate Intelligence Program, Bolling AFB, DC
300	CND/CNE Analyst Course, National Security Agency, Pensacola, FL
300	Advanced Cryptanalytic Techniques (CA-219), National Security Agency

CHAPTER 3

Electronic Intelligence Intercept Operator/Analyst/2631

3001. **INTRODUCTION.** The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS) . It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness Percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

3002. **UNIT TRAINING**

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R Manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-0A, Unit Training Management Guide (UTM).

3003. **THE HOLISTIC APPROACH TO TRAINING.** The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and Managed On-the-job Training (MOJT) , with nontraditional sources such as civilian college courses, other service correspondence. courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

3004. **THE CORE CAPABILITIES METHODOLOGY**

1. *Core Tasks* are those essential basic skills that "make" a Marine and qualify that Marine for a MOS and are introduced in entry level training (100 level). *Core-Plus Tasks* are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME), the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in Appendix (A).

CHAPTER 3

3005. **CAREER PROGRESSION**

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.
2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.
3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.
4. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

3006. **CAREER PROGRESSION PHILOSOPHY.** The career progression philosophy contained in appendix (B) describes the typical training progression for a Marine of this MOS.

3007. **EVALUATION OF TRAINING.** Evaluation of the academic portions of the T&R Manual will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

3008. **COMPONENTS OF A T&R EVENT**

1. **General.** An event contained within a T&R Manual is an individual or collective training standard and contains nine components.

Event code: The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level)

TASK: A unit of work expressed as a performance-oriented action (i.e., "Type a letter.")

CONDITION: The constraints that affect the performance of the task in a real-world environment.

CHAPTER 3

It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

STANDARD: The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms.

CONCEPT OF TASK: This paragraph is optional but may be used if the task requires further explanation.

PREREQUISITE(S) : A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

REFERENCE(S): A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

ORDNANCE: A listing of ordnance types and quantities required to complete the task.

EXTERNAL SUPPORT REQUIREMENT(S): A listing of the external range, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

3009. **CRP COMPETITION**

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP) . The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. 400 level section tasks have a total CRP value of 100% and are not considered in conjunction with the 100-300 level Individual task CRP values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual

CHAPTER 3

members of the section have low Individual CRP ratings in their 100-300 level training.

3010. INDIVIDUAL TASK MATRIX

1. The Individual Task Matrix, located at Appendix (C), summarizes the tasks that are applicable to specific billets. Utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities.

2. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CRP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

Components of the Individual Task Matrix

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks.

CRP (Combat Readiness Percentage) - Quantitative value assigned to each T&R task. Used to calculate Individual Combat Readiness Percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

Note 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MAS producing schools.

3011. SECTION TASK MATRIX. The Section Task Matrix, located at Appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

3012. COMBAT CAPABLE TRAINING (100 level). 100 level tasks are contained in Appendix (E)

3013. COMBAT READY TRAINING (200 level). 200 level tasks are contained in Appendix (F).

CHAPTER 3

3014. **COMBAT QUALIFICATION TRAINING (300 level)**. 300 level tasks are contained in Appendix (G).

3015. **SECTION SKILLS TRAINING (400 level)**. 400 level tasks are contained in Appendix (H).

3016. **SPECIAL DESIGNATIONS**. Completion of the courses of instruction contained in Appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

3017. **ACADEMIC TRAINING**. The Academic Training contained in Appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

3018. **CAREER PROFESSIONAL READING**. The Career Professional Reading contained in Appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to specific T&R tasks and require some type of product to be produced by the Marine.

3019. **UPDATE CRANING**. Update chaining is contained in Appendix (L).

3020. **BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE**. Billets, which require formal school attendance, are contained in Appendix (M)

3021. **EXPENDABLE ORDNANCE REQUIREMENTS**. Ordnance requirements are contained in Appendix (N), if required.

3022. **TRAINING REFERENCES**. 'The training references contained in Appendix (a) shall be utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures.

Core Capabilities List

- 1 Develop an adversary's parametric Electronic Order-of-Battle base line.
- 2 Describe basic satellite systems.
3. Apply national systems collection capabilities in the development of concept of operations.
4. Prepare the appropriate report/messages from analyzed electronic intelligence.
5. Operate current systems to receive and process ELINT data.
- 6 Brief an adversary's Electronic Order-of-Battle.
7. Generate air intelligence system products in support of MAGTF EW, suppression of Enemy Air-Defense (SEAD) , and strike operations.
- 8 Differentiate between friendly and adversary RADAR systems operating with similar parameterics.
9. Analyze an adversary's complete Integrated Air Defense System, i.e. visual observation posts, PERFORMA etc.
10. Operate tactical direction finding equipment.
- 11 Operate tactical electronic attack equipment.
- 12 Identify information meeting CRITIC criteria.
- 13 Operate radio sets with communication security (COMSEC) equipment.
- 14 Develop and maintain working aids.
- is Provide timely and accurate ELINT.
16. Provide applicable electronic intelligence through written and oral communications in an automated and non-automated environment.
- 17 Identify electronic intelligence requirements.
18. Identify electronic intelligence/electronic warfare support to information operations.

SIGINT T&R MANUAL

CHAPTER 3

APPENDIX B

CAREER PROGRESSION PHILOSOPHY

A structured career progression plan, consisting of three individual (100-300 level) training levels. These training levels combined with formal schools are designed to produce and mentor a successful Marine Corps Electronic Intelligence (ELINT) Analyst. The 100 level of training will provide those core skills necessary to function as a basic ELINT Analyst. This training is conducted at the Naval Technical Training Center, Pensacola, FL. The 200 level of training is designed to reinforce core skills and provide core-plus skills, culminating in the completion of EA-279 (Fundamentals of TechELINT) self-paced course and attendance at the National OpELINT Course at Naval Technical Training Center, Pensacola, FL. This level is centered around structured MOJT and selected formal schools and courses. Upon completion of EA-279 and National OpELINT Course, the Marine will enter the 300 level of training. This level is designed to provide additional core-plus skills necessary for the ELINT Analyst to function as an ELINT collection supervisor. The 300 level of training is centered around structured MOJT and selected formal schools and courses to broaden the SIGINT base of knowledge and prepare the Marine for a supervisory role.

CHAPTER 3

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

Purpose: The 100 level of training provides those core skills necessary to function as a basic ELINT Analyst. An ELINT analyst is defined as a Marine who has a solid foundation in technical ELINT (TechELINT) and knows how to apply operational ELINT (OPELINT) to support the warfighter. This training is conducted at the Naval Technical Training Center, Pensacola FL.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 3

Event code: 100-FLC

Task: Define the electronic magnetic spectrum.

Condition: provided with the appropriate references, materials, and equipment.

Standard: FMFM 3-3, Radio Operator's Handbook.

Concept of task: None.

Prerequisites: None.

CRP: 0.16 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s) : Basic ELINT course material

Event code: 101-FLC

Task: Identify RF modulation types.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Appropriate references.

Concept of task: None.

Prerequisites: None.

CRP: 0.16 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s) : Basic ELINT course material

Event code: 102-FLC

Task: Collect radar signals.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.16 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s) : Radio Operator's Guide
Local SOP

CHAPTER 3

Event code: 103-FLC

Task: Measure the radio frequency of a radar.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.16 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): Prowler Tactics Guide Vol I-III
Local SOP

Event code: 104-LC

Task: Measure a pulse width/pulse duration.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.16 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): Basic ELINT course material
Local SOP

Event code: 105-FLC

Task: Measure the pulse repetition frequency/pulse repetition interval.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 1.6 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

CHAPTER 3

Reference(s) : Basic ELINT course material
Local SOP

Event code: 106-FLC

Task: Identify electronic intelligence (ELINT) targets.

Condition: Provided with the appropriate references, materials, and
Equipment -

Standard: ELINT Parametric Limits (EPL) List.

Concept of task: None.

Prerequisites: None.

CRP: 0.24 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: 102-FLC, 103-FLC, 104-FLC, 105-FLC.

Reference(s): Prowler Tactics Guide Vol I-III
ELINT Parametric Limits (EPL) List

Event code: 107-FLC

Task: Identify threat systems based on electronic intelligence (ELINT)

Condition: provided with the appropriate references, materials, and
equipment.

Standard: ELINT Parametric Limits (EPL) List.

Concept of task: None.

Prerequisites: None.

CRP: 0.24 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

Reference(s): Prowler Tactics Guide Vol I-III
ELINT Parametric Limits (EPL) List

Event code: 108FLC

Task: Maintain target continuity through parametric analysis.

Condition: Provided with the appropriate references, materials, and
equipment.

Standard: U.S. Signals Intelligence Directive (USSID) 100 series.

Concept of task: None.

Prerequisites: None.

CRP: 0.24 **Sustainment Interval (months):** 0

CHAPTER 3

External Support Required: None.

Events updated: None.

Reference(s): Station working aids
U.S. Signals Intelligence Directive (USSID) 100 series

Event code: 109-FLC

Task: Operate current systems to receive and process ELINT data.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.24 **Sustainment Interval (months):** 0

External Support Required: None.

Events updated: None.

CHAPTER 3

APPENDIX F

COMBAT READY TRAINING (200 LEVEL)

Purpose: The 200 level of training is designed to reinforce core skills and provide core plus skills culminating in the completion of EA-279 (Fundamentals of TechELINT) self-paced course and attendance at the National OpELINT Course at Naval Technical Training Center, Pensacola FL. This level is centered around structured MOJT and selected formal schools and courses.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 3

Event code: 200-XXX

Task: Operate the Tactical Electronic Reconnaissance Processing and Evaluation System (TERPES)

Condition: Provided with the appropriate references, materials, and equipment.

Standard: VMAQ SOP.

Concept of task: None.

Prerequisites: None.

CRP: 0.54 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: 207-XXX, 208-XXX, 218-XXX.

Reference(s) : Applicable software User and Reference Guide

SIGINT T&R MANUAL

CHAPTER 3

APPENDIX G

COMBAT QUALIFICATION TRAINING (300 LEVEL)

Purpose: Upon completion of EA-279 and National OPELINT Course, the Marine will enter the 300 level of training. This level is designed to provide additional coreplus skills, necessary for the ELINT Analyst to function as an ELINT collection supervisor. The 300 level of training is centered around structured MOJT and selected formal schools and courses to broaden the SIGINT knowledge base and prepare the Marine for a supervisory role.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 3

Event code: 300-XXX

Task: Review the TRAP Data Dissemination System for coverage of an adversary

Condition: provided with the appropriate references, materials, and equipment

Standard: Information Management Element TTP.

Concept of task: None.

Prerequisites: None.

CRP: 0.54 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: 106-FLC, 107-FLC, 111-FLC.

Reference(s): Pacific Tactics, Techniques, and Procedures
Information Management Element TTP

Event code: 301-XXX

Task: Submit Broadcast ordering Change Requests.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TDDS procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.54 **Sustainment Interval (months):**

External Support Required: None.

Events updated: 309-XXX.

Reference(s): Pacific Tactics, Techniques, and Procedures

APPENDIX H

SECTION TRAINING (400 LEVEL)

Purpose: The purpose of the 400 level is to identify those tasks which are completed by the section. These tasks are directly tied to the core capabilities listed for this MOS.

Administrative Notes None.

Prerequisites None.

CHAPTER 3

Event code: 400-XXX

Task: Develop collection management plan.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None

CRP: 0.34 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 401-XXX

Task: Provide SIGINT, EW, indications and warning (I&W), and intelligence support to information operations in support of MAGTF operations.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 402-XXX

Task: Maintain classified material security programs.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 420-XXX

Task: Establish a shipborne and field OCAC/TSCIF and provide appropriate input to communications connectivity.

Condition: Provided with the appropriate references, materials, and equipment.

CHAPTER 3

Standard: MCWP 2-15.2, Signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
MCEPL 2-15.2, Signals Intelligence

Event code: 421-XXX

Task: Develop or review Radio Battalion TPFDD to support MAGTF operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 422-XXX

Task: Operate TERPES system.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TERPES Software User's Manual; AN/TSQ-90 System Manual; VMAQ SOP.

Concept of task: Involves operation, system administration, and maintenance of the AN/TSQ-90 components.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software User's Manual
VMAQ SOP
AN/TSQ-90 System Manual

Event code: 423-XXX

CHAPTER 3

Task: Conduct COMSEC monitoring for supported commander.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: Be deployed with the support commander.

CRP: 0.34 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 424-XXX

Task: Establish tactical, theater, and national intelligence Systems connectivity.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate USSTD.

Concept of task: None.

Prerequisites: None -

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
Appropriate USSIDS

Event code: 425-XXX

Task: Maintain TERPES integrated database.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TERPES Software User's Manual; VMAQ SOP.

Concept of task: Load and update, as required, all databases that comprise the TERPES integrated database (i.e., MIDB, EPL, EWIR, etc.).

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): TERPES System Manual
TERPES Software User's Manual

CHAPTER 3

VMAQ SOP

Event code: 426-XXX

Task: Conduct TRANSEC training.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 427-XXX

Task: Maintain country files, technical databases, and deployment tech kits for geographic locations and functional areas.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 428-XXX

Task: Prepare and present SIGINT/EW and intelligence support to Information Operations (IO) briefings.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

CHAPTER 3

Reference(s): Local SOP

Event code: 429-XXX

Task: Establish a SIGINT collection site in a tactical environment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 430-XXX

Task: provide input to determine intelligence requirements in support of exercise, operational, and contingency plans.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, Signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
MCWP 2-15.2, Signals Intelligence

Event code: 431-XXX

Task: Develop and maintain local unit analytical and collection operator

working aids.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

CHAPTER 3

Events updated: None.
Reference(s): Local SOP

Event code: 432-XXX

Task: Maintain display of current enemy situation with target locations and priorities.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 433-XXX

Task: Review reports for significant developments, changes, and trends affecting enemy capabilities/courses of action.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures

Concept of task: None.

Prerequisites: None.

CRP: 0.34 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

ACADEMIC TRAINING

Level Academic Title

200	15-070, Introduction to ELINT Analysis and Reporting
200	26.1 MCI, Introduction to HFDF
200	ND-170, Fundamentals of InfoSec
200	MCI 02.8, Introduction to Combat
200	JDISS Basic Operator Course (JBOC), on-site or Mobile Training Team
200	MCI 25.25A, Communications Security
200	MCI 03.38, The LAV Crewman
200	MCI 03.16J, Military Functions in Civil Disturbances
200	EA-162, NCS, Modulation Methods (CBT)
200	EA-172, NCS, Propagation
200	EA-171, NCS, Antenna Fundamentals
200	EA-164, NCS, Introduction to Satellites
200	EA-264, NCS, Satellite system Seminar
200	25.15 MCI, Radio Wave Propagation and Antenna Construction
200	15-232, NCS, Information Operations Awareness
200	EA-183, SIGINT Math
200	15-051, NCS, The Art of Sanitization
200	TM-101, NCS, Introduction to Collection
200	MCI 25.200, Communications for the FMF Marine
200	MCI 25.26 Introduction to EW
200	MCI 3.36B Military Operation in Urban Terrain
200	MCI 3.81 Infantry Squad Leader: Land Navigation
200	MCI 2.8, Introduction to Combat Intelligence
200	Eastern Europe Orientation Course (Hurbert Field, FL)
200	Indications and Warning Course (DIA)

CHAPTER 3

Level Academic Title

200 Middle East Orientation Course (Hurbert Field, FL)

200 MCI 2.10 Terrorism Awareness for Marines

200 MCI 2.01 Intelligence Brief: Southwest Asia

200 MCI 3.8, Infantry Squad Leader: Combat Leadership

200 EC-127, NCS, HFDF Theory (CBT)

200 Digitization Theory, Naval Course

200 Signals Technologies, Naval Course

200 RAMROD/ROSTER contractor-led training

200 OP-201, NCS, Operations Security

200 EA-164, NCS, Introduction to Satellites

200 signals Analysis Techniques, Naval Course

200 Pulse Analysis, Naval Course

200 Signals Analysis Tools (software)

200 Computer Networking, Naval Course

200 Standard Signals Analysis Equipment, Naval Course

200 Error Correction Codes, Naval Course

200 Recording Theory, Naval Course

200 AN/TSQ-90, System Administration Training, NMITC, VA

200 CLASSIC WIZARD training, (course converts to site OJT in FY01)

200 OP-300, NCS, Operations Security

200 Data Encoding, Naval Course

200 OP-380, NCS, Advanced Operations Security

200 AN/TSQ-90 Operator Course, NMITC, VA

200 Waveform Analysis, Naval Course

200 Modulation Theory, Naval Course

200 Multiplexing, Naval Course

200 Linear Recursive Sequences, Naval Course

200 MP-119, NCS, Introduction to UNIX, self-paced

SIGINT T&R MANUAL

CHAPTER 3

Level	Academic Title
300	ELINT professionalization through NSA/CSS
300	EW Advanced Applications NEC 1781 E6-E9 Prepares for senior EW role
300	Command and Control Tactical Analysis - NEC 9105. C2TA. performs network analysis of nodes to support 1W. ES-E7
300	Electronic Warfare Associates, Inc (EWA) provides a training systems development group in Orlando, FL. www.ewaorlan.com
300	TM-240, NCS, Overhead Collection Management
300	TM-203, NCS, principles of Collection Management
300	CK-155, NCS, Cryptologic Skill for Noncommissioned Officers
300	CY-200, NCS, Senior Enlisted Cryptologic Course
300	TA-103, NCS, Basic Traffic Analysis
300	TA-104, NCS, Net Reconstruction
300	MCI 25.40, Communications plans
300	IS-297, NCS, Overview of SIGINT Multi-media Reporting
300	EA-301, NCS, Interpretive ELINT Analysis
300	Military ELINT Signals Analyst program (MESAP)
300	Armed Forces Staff College, Information Operations Course
300	EA-380, NCS, Advanced TecELINT
300	EA-2B0, NCS, Intermediate, TechELINT
300	IS-292, GPASP Reporting

Intelligence Systems Administrators/2651

4001. **INTRODUCTION.** The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS). It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness Percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

4002. **UNIT TRAINING**

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R Manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-0A, Unit Training Management Guide (UTM).

4003. **THE HOLISTIC APPROACH TO TRAINING.** The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and Managed On-the-Job Training (MOJT), with nontraditional sources such as civilian college courses, other service correspondence courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

1004. **THE CORE CAPABILITIES METHODOLOGY**

1. *Core Tasks* are those essential basic skills that "make" a Marine and qualify that Marine for an MOS and are introduced in entry level training (100 level). *Core Plus Tasks* are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME), the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in Appendix (A)

CHAPTER 4

4005. **CAREER PROGRESSION**

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its Completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.
2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.
3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.
4. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

4006. **CAREER PROGRESSION PHILOSOPHY.** The career progression philosophy contained in appendix (B) describes the typical training progression for a Marine of this MOS.

4007. **EVALUATION OF TRAINING.** Evaluation of the academic portions of the T&R Manual will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

4008. **COMPONENTS OF A T&R EVENT**

1. **General.** An event contained within a T&R Manual is an individual or collective training standard and Contains nine Components.

Event code: The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level)

TASK: A unit of work expressed as a performance-oriented action (i.e., "Type a letter.")

CONDITION: The Constraints that affect the performance of the task in a real-world environment.

CHAPTER 4

It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

STANDARD: The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms.

CONCEPT OF TASK: This paragraph is optional but may be used if the task requires further explanation.

PREREQUISITE (S) : A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

REFERENCE(S) : A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

ORDNANCE: A listing of ordnance types and quantities required to complete the task.

EXTERNAL SUPPORT REQUIREMENT(S) A listing of the external rage, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

4009. **CRP COMPUTATION**

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP). The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. 400 level section tasks have a total CRP value of 100% and are not considered in conjunction with the 100-200 level Individual task CR? values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual

CHAPTER 4

members of the section have low Individual CRP ratings in their 100-300 level training.

4010. INDIVIDUAL TASK MATRIX

1. The Individual Task Matrix, located at Appendix (C), summarizes the tasks that are applicable to specific billets. Utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities.

2. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CRP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

Components of the Individual Task Matrix

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks

CRP (Combat Readiness Percentage) - Quantitative value assigned to each T&R task. Used to calculate Individual Combat Readiness Percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

Note 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MOS producing schools.

4011. SECTION TASK MATRIX. The Section Task Matrix, located at Appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

4012. COMBAT CAPABLE TRAINING (100 level). 100 level tasks are contained in Appendix (E).

4013. COMBAT READY TRAINING (200 level) . 200 level tasks are contained in Appendix (F)

CHAPTER 4

4014. **COMBAT QUALIFICATION TRAINING (300 level)**. 300 level tasks are contained in Appendix (G).

4015. **SECTION SKILLS TRAINING (400 level)** 400 level tasks are contained in Appendix (H)

4016. **SPECIAL DESIGNATIONS**. Completion of the courses of instruction contained in Appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

4017. **ACIDIC TRAINING**. The Academic Training contained in Appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

4018. **CAREER PROFESSIONAL READING**. The Career Professional Reading contained in Appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to specific T&R tasks and require some type of product to be produced by the Marine.

4019. **UPDATE CHAINING**. Update chaining is contained in Appendix (L).

4020. **BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE**. Billets, which require formal school attendance, are contained in Appendix (M).

4021. **EXPENDABLE ORDNANCE REQUIREMENTS**. Ordnance requirements are contained in Appendix (N), if required.

4022. **TRAINING REFERENCES**. The training references contained in Appendix (O) shall be utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures.

SIGINT T&R MANUAL

CHAPTER 4

APPENDIX A

CORE CAPABILITIES

Core Capabilities List

- 1 Conduct Signal Intelligence communications operations in a tactical and garrison environment.
- 2 Perform intelligence system administrator functions.
3. Provide physical security and administration for the safe guard of special intelligence information.
4. Conduct computer network defense for intelligence automated Systems
- 5 - Integrate Marine Corps intelligence automated systems ashore and afloat.

SIGINT T&R MANUAL

CHAPTER 4

APPENDIX B

CAREER PROGRESSION PHILOSOPHY

The Intelligence Systems Administrators career progression plan, consists of three individual (100-300 level) training levels. These training levels combined with formal schools are designed to produce a complete Marine Corps Networked Intelligence Systems Administrator/Communicator. The 100 level training, with immediate follow-on training at the Integrated System Administrator (ISA) course, will provide the Marine with those core skills necessary to function as a basic Signals Intelligence Communicator and System Administrator. This training will be conducted at Naval Technical Training Center, Corry Station, Pensacola, FL. The 200 level training includes managed on-the-job training (MOJT), MCIs, professional reading, formal schools, and courses designed to reinforce core skills. The Navy Integrated Cryptologic Communications Systems (NICCS) or Network Security Vulnerability Technician (NSVT) are taught at NTTC, Corry Station. Upon completion of either of these courses the Marine will enter the 300 level training. This level is designed to provide additional core-plus skills necessary for a 2651 to function as an Intelligence System Administrator/chief. The 300 level of training is centered around structured MOJT and selected formal schools and courses.

CHAPTER 4

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

Purpose: The 100 level of training is conducted at the Cryptologic Technician (Communications) Apprentice course located at Naval Technical Training Center, Corry Station, Pensacola, FL. Immediate follow-on training at the Integrated System Administrator (ISA) course will provide the Marine with those core-skills necessary to function as a basic Signals Intelligence Communicator and System Administrator prior to entering the fleet. This training will be conducted at Naval Technical Training Center, Corry Station, Pensacola FL.

Administrative Notes: None.

Prerequisites: None

CHAPTER 4

Event code: 100-FLC
Task: Employ current ADP systems and tools.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Applicable software user and reference guide.
Concept of task: None.
Prerequisites: None.
CRP: 0.146 **Sustainment Interval (months):** 0
External Support Required: None.
Events updated: None.
Reference(s): AIS Operating System Administrator Manual(s)
 Local SOP
 Applicable communication equipment operator's manual
 Applicable software user and reference guide

Event code: 101-FLC
Task: Identify wire communications signals.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Appropriate Technical Manuals.
Concept of task: None.

Prerequisites: None.

CRP: 0.146 **Sustainment Interval (months):** 0
External Support Required: None.
Events updated: None.
Reference(s): FMFM 3-30, Communications
 Local SOP
 Appropriate Technical Manuals

Event code: 102-FLC

Task: Identify fiber optic cable signals.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Appropriate Technical Manuals.
Concept of task: None.

Prerequisites: None.

CRP: 0.146 **Sustainment Interval (months):** 0

CHAPTER 4

External Support Required: None.
Events updated: None.
Reference(s): Local SOP
Appropriate Technical Manuals

Event code: 103-FLC
Task: Maintain database integrity.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Applicable software user and reference guide.
Concept of task: None.

Prerequisites: None.
CRP: 0.146 **Sustainment Interval (months):** 0
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
AIS System Operators Manual
AIS Operating System Administrator Manual(s)

Event code: 104-FLC
Task: Initiate a communication service message.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: DOI-103, DSSCS Operating Instructions.
Concept of task: None.

Prerequisites: None.
CRP: 0.146 **Sustainment Interval (months):** 0
External Support Required: None.
Events updated: None.
Reference(s) : ACP 121, Communications Instructions - General
DOI-103, DSSCS Operating Instructions

Event code: 105-FLC
Task: Process a message using DOI-103 format.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: DOI-103, DSSCS Operating Instructions.

APPENDIX F

COMBAT READY TRAINING (200 LEVEL)

Purpose: The 200 level training includes Managed On-The-Job Training (MOJT), MCI's, and professional reading, designed to reinforce core skills.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 4

Event code: 200-XXX

Task: Install wiretap on network (dependent upon USMC policy) -

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 201-XXX

Task: Install fiber optic cable tap (dependent upon USCS policy).

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 202-xxx

Task: - Identify target communications access points.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
FMFM 3-30, Communications

Task: Conduct Computer Network Defense (CND) Operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
AIS Operating System Administrator Manual(s)

Event code: 254-XXX

Task: Define computer network attack.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 255-XXX

Task: Define target information architecture.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 3

External Support Required: None.

CHAPTER 4

Events updated: None.
Reference(s): Local SOP

Event code: 256-XXX

Task: perform video signal analysis.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
Appropriate Technical Manuals
AIS Operating System Administrator Manual(s)

Event code: 257-XXX

Task: Perform network analysis.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** .5

External support Required: None.

Events updated: None.

Reference(s): Local SOP
Appropriate Technical Manuals
AIS Operating System Administrator Manual(s)

Event code: 258-XXX

Task: Validate database information.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CHAPTER 4

CRP: 0.35 **Sustainment Interval (months):** .5
External Support Required: None.
Events updated: 224-XXX.
Reference(s): Local SOP
 Applicable software user and reference guide

Event code: 259-XXX
Task: Perform Nodal analysis.
Condition: provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating procedures.
Concept of task: None.

Prerequisites: None.
CRP: 0.175 **Sustainment Interval (months):** .5
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
 Applicable software user and reference guide

Event code: 260-XXX
Task: Conduct Transmission Security (TRANSEC) training.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating Procedures.
Concept of task: None.
Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
 ACP 125, Communication Instruction-Radio/telephone
 Procedures with US Supplements 1 and 2
 ACP 121, Communications Instructions General

Event code: 251-XXX
Task: Connect Windows NT platform to a network.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating Procedures.

CHAPTER 4

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
Applicable software user and reference guide

Event code: 262-XXX

Task: Identify appropriate CMS publications and directions.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: CMS-1A, Communications Security Material System (CMS) Policy and Procedures Manual.

Concept of task: None.

Prerequisites: None

CRP: 0.35 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
CMS-1A, Communications Security Material System (CMS)
Policy and Procedures Manual
DOD 5200.33R, Defense Courier Service Regulations

Event code: 263-XXX

Task: Identify capabilities/limitations of current Marine Corps Tactical communications systems/equipment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: FMFM 3-3, Radio Operator's Handbook.

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : Communications Handbook for Intelligence Personnel (S)

Event code: 264-XXX

CHAPTER 4

Task: Identify the capabilities/limitations of current Marine Corps SIGINT equipment.

Condition: Provided with the appropriate references, materials, and equipment

Standard: MCWP 2-15.2, signals Intelligence; PCN: 143 000063 00.

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Radio Battalion SOP
MCWP 2-15.2, signals Intelligence

Event code: 265-XXX

Task: Identify capabilities/limitations of current sister-service SIGINT equipment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: JTENS manual.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
FMFM 3-23, (C) Signals Intelligence/Electronic Warfare Operations (U)
NCWP 2-15.2, signals Intelligence
JTENS manual

Event code: 266-XXX

Task: Configure current communications software for external interfaces.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TERPES Software User's Manual.

Concept of task: None.

Prerequisites: None.

CRP: 0.525 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 4

Reference(s): Local SOP
Applicable software user and reference guide
Appropriate Technical Manuals
TERPES Software User's Manual

Event code: 267-XXX

Task: Perform signal direction finding (DF).

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCI 26.1, Direction Finding.

Concept of task: None.

Prerequisites: None.

CRP: 0.175 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
FM 30-476, Radio Direction-Finding (DF)

FM 34-86, Direction Finding Operations

CHAPTER 4

APPENDIX G

COMBAT QUALIFICATION TRAINING (300 LEVEL)

Purpose: This level is designed to provide additional core-plus skills necessary for a 2651 to function as an Intelligence System Administrator/chief. The 300 level of training is centered around structured Managed On-The-Job Training (MOJT) and selected formal schools and courses.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 4

Event code: 300-XXX

Task: Execute implementation of computer network defense operations.

Condition: Provided with the appropriate references, materials, and equipment

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 301-XXX

Task: Execute communications plan.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.525 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: 290-XXX, 291-XXX.

Reference(s): Local SOP

Event code: 302-XXX

Task: Assist in resolving meaconing, interference, jamming, and intrusion (MIJI) incidents.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCO 3430.3, Meaconing, Interference, Jamming, and Intrusion (MIJI)

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
MCO 3430.3, Meaconing, Interference, Jamming, and
Intrusion (MIJI)

CHAPTER 4

FMFM 3-30, Communications

Event code: 303-XXX

Task: Define liaison functions.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 304-XXX

Task: Advise commander and staff on Signals/Electronic Warfare (SIGINT/EW) communications.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.35 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP

Event code: 305-XXX

Task: Plan and design a field cable/wire distribution system.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.525 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

CHAPTER 4

Reference(s): Local SOP
 FMFM 3-30, Communications
 FM 24-20, Tactical Wire and Cable Techniques

Event code: 306-XXX

Task: Perform data communications systems planning and engineering.
Condition: provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating Procedures.
Concept of task: None.

Prerequisites: None.
CRP: 0.52 **Sustainment Interval (months):** 3
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
 FM 24-20, Tactical Wire and Cable Techniques
 FMFM 3-30, Communications

Event code: 307-XXX

Task: Plan Local Area Network (LAN) and Wide Area Networks (WAN).
Condition: Provided with the appropriate references, materials, and equipment
Standard: Local Standard Operating Procedures.
Concept of task: None.

Prerequisites: None.

CHAPTER 4

APPENDIX H

SECTION TRAINING (400 LEVEL)

Purpose: The purpose of the 400 level is to identify those tasks which are completed by the section. These tasks are directly tied to the core capabilities listed for this MOS.

Administrative Notes None.

Prerequisites None.

CHAPTER 4

Event code: 400-XXX

Task: Maintain classified material security programs.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 11.53 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
 CSP-1, Cryptographic Security policy and Procedures
 CMS-1, Communications Security Material System (CMS)
 Policy and Procedures Manual
 DOD S-5105.21, Department of Defense (DOD) 1 (M-1)

Event code: 401-XXX

Task: Provide input for the Annex B (Intell,) Annex K (Comms), and Annex C (Ops) to the Ops/Conplan.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: FMFM 3-1, Command and Staff Action.

Concept of task: None.

Prerequisites: None.

CRP: 7.69 **Sustainment Interval (months):** 3

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
 ACP 121, Communications Instructions - General
 FMFM 3-30, Communications
 MCWP 2-15.2, Signals Intelligence
 FMFM 3-1, Command and Staff Action

Event code: 402-XXX

Task: Coordinate SIGINT support to CND.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate Technical Manuals.

Concept of task: Provide SIGINT analysis and reporting related to friendly networks in support of MAGTF operations.

CHAPTER 4

Prerequisites: None.

CRP: 3.84 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): Reference material under development
Appropriate Technical Manuals

Event code: 403-XXX

Task: Coordinate CNE within the collection planning process.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate Technical Manuals.

Concept of task: Coordinate intelligence requirements that may be satisfied through CNE and advise on restrictions pertaining to CNE.

Prerequisites: None.

CRP: 3.84 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s) : Reference material under development
Appropriate Technical Manuals

Event code: 404-XXX

Task: Provide quality assurance of submitted Single Scope Background Investigation (SSHI)

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 11.53 **Sustainment Interval (months):** .5

External Support Required: None.

Events updated: None.

Reference(s): DOD S-5105.21, Department of Defense (DOD) 1 (M-1)

DOD S-5105.21, Department of Defense (DoD) 1 (M-1)

Event code: 407-XXX

Task: Supervise preventive maintenance (PM) on current organic equipment and vehicles.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating Procedures.
Concept of task: None.

Prerequisites: None.

CHAPTER 4

CRP: 3.84 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
 Appropriate Technical Manuals

Event code: 408-XXX

Task: Establish a shipborne and field OCAC/TSCIF and provide appropriate input to communications connectivity.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 7.69 **Sustainment Interval (months):** 3
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
 MCWP 2-15.2, signals Intelligence

Event code: 409-XXX

Task: Establish tactical, theater, and national intelligence systems connectivity.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate USSIDS.

Concept of task: None.

Prerequisites: None.

CRP: 11.53 **Sustainment Interval (months):** .5
External Support Required: None.
Events updated: None.
Reference(s): Local SOP
 FMFM 3-30, Communications
 MCWP 2-15.2, signals Intelligence
 Appropriate USSIDS

Event code: 410-XXX

Task: Conduct TRANSEC training.

Condition: Provided with the appropriate references, materials, and

CHAPTER 4

equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.84 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
FMFM 3-30, Communications

Event code: 411-XXX

Task: Process system software trouble reports.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: Identify, validate, and report system software program functions/shortfalls to System Support Activity (SSA) at NAWC Wpns.

Prerequisites: None.

CRP: 7.69 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): TERPES Software Users Manual
VMAQ SOP
Local SOP

Event code: 412-XXX

Task: Provide input to determine intelligence requirements in support of exercise, operational, and contingency plans.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: MCWP 2-15.2, signals Intelligence.

Concept of task: None.

Prerequisites: None.

CRP: 7.69 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 5

Signals Intelligence/Electronic Warfare Chief/2691

5001. INTRODUCTION. The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS) . It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

5002. UNIT TRAINING

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R Manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-CA, Unit Training Management Guide (UTM).

5003. THE HOLISTIC APPROACH TO TRAINING. The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and Managed On-the-Job Training (MOJT) , with nontraditional sources such as civilian college courses, other service correspondence courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

5004. THE CORE CAPABILITIES METHODOLOGY

1. **Core Tasks** are those essential basic skills that "make" a Marine and qualify that Marine for an MOS and are introduced in entry level training (100 level) . **Core-Plus Tasks** are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME) , the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in Appendix (A)

CHAPTER 5

5005. CAREER PROGRESSION

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.
2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.
3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.
4. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

5006. CAREER PROGRESSION PHILOSOPHY. The career progression philosophy contained in appendix (B) describes the typical training progression for a Marine of this MOS.

5007. EVALUATION OF TRAINING. Evaluation of the academic portions of the T&R Manual will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

5008. COMPONENTS OF A T&R EVENT

1. General. An event contained within a T&R Manual is an individual or collective training standard and contains nine components.

Event code: The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level)

TASK: A unit of work expressed as a performance-oriented action (i.e., "Type a letter.")

CONDITION: The constraints that affect the performance of the task in a real-world environment.

CHAPTER 5

It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

STANDARD: The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms

CONCEPT OF TASK: This paragraph is optional but may be used if the task requires further explanation.

PREREQUISITE(S) : A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

REFERENCE(S) : A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

ORDNANCE: A listing of ordnance types and quantities required to complete the task.

EXTERNAL SUPPORT REQUIREMENT(S): A listing of the external range, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

-

5009. CRP COMPUTATION

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP). The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. 400 level section tasks have a total CRP value of 100% and are not considered in conjunction with the 100-300 level Individual task CRP values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual

CHAPTER 5

members of the section have low Individual CRP ratings in their 100-300 level training.

5010. INDIVIDUAL TASK MATRIX

1. The Individual Task Matrix, located at Appendix (C), summarizes the tasks that are applicable to specific billets- utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities.

2. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CRP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

Components of the Individual Task Matrix

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks.

CRP (Combat Readiness percentage) - Quantitative value assigned to each T&R task. used to calculate Individual Combat Readiness percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

Note 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MOS producing schools.

5011. SECTION TASK MATRIX. The Section Task Matrix, located at Appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

5012. COMBAT CAPABLE TRAINING (100 level). 100 level tasks are contained in Appendix (E)

5013. COMBAT READY TRAINING (200 level) . 200 level tasks are contained in Appendix (F)

CHAPTER 5

5014. COMBAT QUALIFICATION TRAINING (300 level). 300 level tasks are contained in Appendix (G).

5015. SECTION SKILLS TRAINING (400 level) 400 level tasks are contained in Appendix (H).

5016. SPECIAL DESIGNATIONS. Completion of the courses of instruction contained in Appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

5017. ACADEMIC TRAINING. The Academic Training contained in Appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

5018. CAREER PROFESSIONAL READING. The Career Professional Reading contained in Appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to Specific T&R tasks and require some type of product to be produced by the Marine.

5019. UPDATE CHAINING. Update chaining is contained in Appendix (L).

5020. BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE. Billets, which require formal school attendance, are contained in Appendix (M)

5021. EXPENDABLE ORDNANCE REQUIREMENTS. Ordnance requirements are contained in Appendix (N), if required.

5022. TRAINING REFERENCES. The training references contained in Appendix (O) shall be utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures.

SIGINT T&R MANUAL

CHAPTER 5

APPENDIX A

CORE CAPABILITIES

Core Capabilities List

1. Assist and advise the SI/EW officer on SI/EW/lo matters.
2. Manage and coordinate SI/EW and 10 support requirements.
3. Plan, coordinate, and supervise SI/EW and 10 collection management.
4. Plan, manage, and coordinate the receipt and processing of SI/EWII information.
5. Plan, conduct, coordinate, and supervise the accurate and relevant analysis and production of SIGINT.
6. Plan, direct, and coordinate timely dissemination of SI/EW/lo information.
7. Provide and coordinate SIGINT support for I&W.
8. Coordinate and supervise SIGINT support for Force Protection.
9. Plan, direct, and provide current SI/EWIXO analysis concerning enemy Order of Battle.
10. Plan, coordinate, and supervise SI/EW/lo support to targeting and BDA to the MAGTF.
11. Direct, coordinate, and supervise the utilization and maintenance of SI/EW and SI communications Systems to optimize information management and usability of SIGINT information throughout the MAGTF.
12. Advise the SI/EW Officer and coordinate with appropriate staff counterparts on matters pertaining to SIGINT/EW/lo and SI communications.
13. Supervise personnel administration, security, and training duties as directed.
14. Task and organize SIGINT/EW/IG personnel and equipment in support of the SI/EW Plan.
15. Develop and execute the SIGINT/EW/lo portion of communications and operations annexes.
16. Establish and monitor OCAC operations.
17. Implement the SI/EW plans in support of MAGTF operations.

SIGINT T&R MANUAL

CHAPTER 5

APPENDIX B

CAREER PROGRESSION PHILOSOPHY

Upon promotion to MSgt, 2600 Marines (except 265ls) become 2691 SI/EW Chiefs and are expected to have a broad-based knowledge of all aspects of cryptologic operations, personnel leadership, and administrative skills in order to assist in the planning and conduct of cryptologic, EW, and 10 missions across all SIGINT disciplines at the battalion, MAGTF, component or JTF, and theater CinC staff level. To prepare them for these key leadership and staff roles, they should acquire extensive operational, personnel, leadership, and administrative experience through balanced Fleet Marine Force, Marine Support Battalion and joint duty assignments, augmented with formal education while at the SSgt and Gysgt level. They can develop their skills by holding additional duties such as Detachment NCOIC, career planner, training, supply, and fiscal ENCOs and by beginning to attend formal education and training such as CY-200, MECCAP, MINSAP, UGIP, MAGTF Intelligence Communications Course, Joint Information Warfare/Command and Control Course, etc. The 100 level of training is not applicable to this MOS. 2691s can continue to develop professionally at the 200 level through additional training, correspondence courses, and billet assignment. The 300 level of training is not applicable to this MOS.

CHAPTER 5

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

Purpose: The 100 level is not applicable to this MOS.

Administrative Notes:

Prerequisites:

CHAPTER 5

APPENDIX F

COMBAT READY TRAINING (200 LEVEL)

Purpose: The 200 level consists of experience gained throughout a 2600 Marine's career in operational, personnel administration, and leadership skills. To prepare these senior Marines for key leadership and staff roles they should acquire balanced experience by assignments in the Fleet Marine Force, Marine Support Battalion and Joint Duty assignments and hold additional duties such as Detachment NCOIC, career planner, training, and supply. Marines should also begin to attend formal education and training such as CY-200, MECCAP, MINSAP, UGIP, MAGTF Intelligence Communications Course etc.

Administrative Notes: None.

Prerequisites: None.

CHAPTER 5

Event code: 200-XXX

Task: Supervise cryptologic training.

Condition: provided with the appropriate references, materials, and equipment.

Standard: MCO 1500.40, USMC Training philosophy, Definitions, Priorities, and Training Requirements.

Concept of task: None.

Prerequisites: None.

CRP: 1.29 **Sustainment Interval (months):** .5

External Support Required: None.

CHAPTER 4

APPENDIX G

COMBAT QUALIFICATION TRAINING (300 LEVEL)

Purpose: The 300 level is not applicable to this MOS.

Administrative Notes:

Prerequisites:

SIGINT T&R MANUAL

CHAPTER 5

APPENDIX H

SECTION TRAINING (400 LEVEL)

Purpose: The purpose of the 400 level is to identify those tasks which are completed by the section. These tasks are directly tied to the core capabilities listed for this MOS.

Administrative Notes None.

Prerequisites None.

CHAPTER 5

Event code: 400-XXX

Task: Develop collection management plan.

Condition: Provided with the appropriate references, materials, and equipment

Standard: Appropriate USSIDS.

Concept of task: None.

Prerequisites: None.

CRP: 1.19 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Appropriate USSIDS
FM 30-5, Combat Intelligence
FMFM 3-21, MAGTF Intelligence Operations
FM 34-1, Intelligence and Electronic Warfare Operations

Event code: 401-XXX

Task: Provide SIGINT, EW, and indications and warning (I&W) in support of MAGTF operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.57 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Local SOP
FM 34-1, Intelligence and Electronic Warfare Operations

Event code: 402-XXX

Task: Conduct collection operations in a tactical environment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 3.57 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 5

Reference(s): Local SOP

Event code: 403-XXX

Task: Provide input for the Annex B (Intell), Annex K (Comms), and Annex C (Ops) to the Ops/Conplan.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: FMFM 3-1, Command and Staff Action.

Concept of task: None.

Prerequisites: None.

CRP: 3.57 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): FMFM 3-1, Command and Staff Action

Event code: 404-XXX

Task: Coordinate SIGINT support to CND.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate Technical Manuals.

Concept of task: Provide SIGINT analysis and reporting related to friendly networks in support of MAGTF operations.

Prerequisites: None.

CRP: 2.38 **Sustainment Interval (months):** .5

External Support Required: None

Events updated: None.

Reference(s): Reference material under development
Appropriate Technical Manuals

Event code: 405-XXX

Task: Coordinate CNE within the collection planning process.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Appropriate Technical Manuals.

Concept of task: Coordinate intelligence requirements that may be satisfied through CNE and advise on restrictions pertaining to CNE.

Prerequisites: None.

SIGINT T&R MANUAL

6001. INTRODUCTION. The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS). It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness Percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

6002. UNIT TRAINING

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R Manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-OA, Unit Training Management Guide (UTM).

6003. THE HOLISTIC APPROACH TO TRAINING. The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and Managed On-the-Job Training (MOJT), with nontraditional sources such as civilian college courses, other service correspondence courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

6004. THE CORE CAPABILITIES METHODOLOGY

1. **Core Tasks** are those essential basic skills that "make" a Marine and qualify that Marine for an MOS and are introduced in entry level training (100 level). **Core-Plus Tasks** are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME), the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS

CHAPTER 6

specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in Appendix (A)

6005. CAREER PROGRESSION

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.

2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.

3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.

4. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

6006. CAREER PROGRESSION PHILOSOPHY. The career progression philosophy contained in appendix (B) describes the typical training progression for a Marine of this MOS.

6007. EVALUATION OF TRAINING. Evaluation of the academic portions of the T&R Manual will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

6008. COMPONENTS OF A T&R EVENT

1. General. An event contained within a T&R Manual is an individual or collective training standard and contains nine components.

Event code: The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level)

CHAPTER 6

TASK: A unit of work expressed as a performance-oriented action (i.e., "Type a letter.").

CONDITION: The constraints that affect the performance of the task in a real-world environment. It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

STANDARD: The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms.

CONCEPT OW TASK: This paragraph is optional but may be used if the task requires further explanation.

PREREQUISITE(S) : A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

REFERENCE(S) : A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

ORDNANCE: A listing of ordnance types and quantities required to complete the task.

EXTERNAL SUPPORT REQUIREMENT(S): A listing of the external range, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

6009. CRP COMPUTATION

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP) . The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

CHAPTER 6

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. 400 level section tasks have a total CRP value of 100% and are not considered in conjunction with the 100-300 level Individual task CRP values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual members of the section have low Individual CRP ratings in their 100-300 level training.

6010. INDIVIDUAL TASK MATRIX

1. The Individual Task Matrix, located at Appendix (C), summarizes the tasks that are applicable to specific billets. Utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities.

2. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CRP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

Components of the Individual Task Matrix

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks.

CRP (Combat Readiness Percentage) - Quantitative value assigned to each T&R task. Used to calculate Individual Combat Readiness Percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

Note 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MOS producing schools.

6011. SECTION TASK MATRIX. The Section Task Matrix, located at Appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

CHAPTER 6

6012. COMBAT CAPABLE TRAINING (100 level) . 100 level tasks are contained in Appendix (E)

6013. COMBAT READY TRAINING (200 level) - 200 level tasks are contained in Appendix (F).

6014. COMBAT QUALIFICATION TRAINING (300 level). 300 level tasks are contained in Appendix (G).

6015. SECTION SKILLS TRAINING (400 level) . 400 level tasks are contained in Appendix (H).

6016. SPECIAL DESIGNATIONS. Completion of the courses of instruction contained in Appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

6017. ACADEMIC TRAINING. The Academic Training contained in Appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

6018. CAREER PROFESSIONAL READING. The Career Professional Reading contained in Appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to specific T&R tasks and require some type of product to be produced by the Marine.

6019. UPDATE CHAINING. Update chaining is contained in Appendix (L).

6020. BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE. Billets, which require formal school attendance, are contained in Appendix (M)

6021. EXPENDABLE ORDNANCE REQUIREMENTS. Ordnance requirements are contained in Appendix (N), if required.

6022. TRAINING REFERENCES. The training references contained in Appendix (O) shall be utilized to determine task performance steps, grading criteria, and ensure standardization of training procedures.

SIGINT T&R MANUAL

CHAPTER 6

APPENDIX A

CORE CAPABILITIES

Core Capabilities List

1. Maintain proficiency in a foreign language.
2. provide summaries (gist's) of intercepted foreign voice communications.
3. Translate foreign voice communications and text.
4. Transcribe foreign voice communications and text.
5. Operate tactical electronic surveillance equipment.
6. Operate tactical direction finding equipment.
7. Operate tactical electronic attack equipment.
8. Identify essential elements of information within foreign voice communications and text.
9. Identify information meeting CRITIC criteria.
10. Operate radio sets with communications security (COMSEC) equipment.
11. Maintain records concerning operational and technical characteristics of targeted communications.
12. Develop and maintain working aids.

SIGINT T&R MANUAL

CHAPTER 6

APPENDIX B

CAREER PROGRESSION PHILOSOPHY

The SIGINT language MOSs follow a structured career progression plan, consisting of three individual (100-300 level) and one (400 level) Section training levels. These training levels combined with formal schools are designed to produce and mentor a successful cryptologic linguist. The 100 level of training will provide the Marine with those core skills necessary to function as a basic cryptologic linguist. This training is conducted at the Defense Language Institute (DLI), Monterey, CA, with follow-on training conducted at the appropriate Cryptologic Linguist course, Goodfellow AFB, TX. Selected Marines assigned to FMF billets will attend additional follow on training at the Team Portable Collection System (TPCS) course at Ft. Huachuca, AZ. The 200 level of training is designed to reinforce core language skills through MOJT and annual structured language training. This structured training will emphasize target language military communications. Additionally, the 200 level of training will provide tactical collection and communication skills. Prior to entering 300 level training, the Marine will attend the Intermediate Language course at DLI, an NCS equivalent, or approved immersion studies program. The 300 level training continues to reinforce core language skills through MOJT and selected schools and courses. In addition, the Marine will attend formal schools in order to broaden the SIGINT base of knowledge and prepare the cryptologic linguist for a supervisory role.

CHAPTER 6

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

Purpose: The 100 level of training will provide the Marine with those core skills necessary to function as a basic cryptologic linguist. This training is conducted at the Defense Language Institute (DLI), Monterey, CA, with follow-on training conducted at the appropriate Cryptologic Linguist course, Goodfellow AFB, TX. These training requirements are set by the Formal Learning Center as universally standard. Selected Marines assigned to FMF billets will attend additional follow-on training at the Team Portable Collection System (TPCS) course at Ft. Huachuca, AZ.

Administrative Notes: None.

Prerequisites: None.

This Page is Intentionally Blank

CHAPTER 6

APPENDIX F

COMBAT READY TRAINING (200 LEVEL)

Purpose: The 200 level of training is designed to reinforce core language skills through MOJT and annual structured language training. This structured training will emphasize target language military communications. Additionally, the 200 level of training will provide tactical collection and communication skills. Prior to entering 300 level training, the Marine will attend the Intermediate Language course at DLI, an NCE equivalent, or approved immersion studies program.

Administrative Notes: None.

Prerequisites: None.

Task: Define MAGTF communication architecture.

CHAPTER 6

Condition: Provided with the appropriate references, materials, and equipment.

Standard: FMFM 3-30, Communications.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-15.2, Signals Intelligence
FMFM 3-30, Communications

Event code: 231-XXX

Task: Conduct an insertion/extraction.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): U.S. Army Ranger Handbook
Basic Reconnaissance Course materials
Local SOP

Event code: 232-xxx

Task: Perform procedure and chatter analysis.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Appropriate technical and lexical working aids
U.S. Signals Intelligence Directive (USSID) 200 series
Local SOP

CHAPTER 6

Event code: 233-XXX

Task: Collect foreign voice communications.

Condition: Provided with the appropriate references, materials, and equipment -

Standard: Local Standard operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.778 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : Appropriate technical and lexical working aids.
U.S. Signals Intelligence Directive (USSID) 100 series
Local SOP

Event code: 234-XXX

Task: Plan a specified mission in support of MAGTF operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): U.S. Army Ranger Handbook
Basic Reconnaissance Course materials
Local SOP

Event code: 235-XXX

Task: DF foreign voice communications.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 6

Reference(s): FM 30-476, Radio Direction-Finding (DF)
FM 34-86, Direction Finding Operations
Local SOP

Event code: 236-XXX

Task: Conduct a specified mission in support of MAGTF operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : U.S. Army Ranger Handbook

SIGINT T&R MANUAL

CHAPTER 6

APPENDIX G

COMBAT QUALIFICATION TRAINING (300 LEVEL)

Purpose: The 300 level training continues to reinforce core language skills through MOJT and selected schools and courses. In addition, the Marine will attend formal schools in order to broaden the SIGINT base of knowledge and prepare the cryptologic linguist for a supervisory role.

Administrative Notes. None.

Prerequisites: None.

CHAPTER 6

Event code: 300-XXX

Task: Conduct collateral level reporting.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s) : Appropriate technical and lexical working aids
MCDP 2-15.2, Signals Intelligence
U.S. Signals Intelligence Directive (DUSID) 300 series
Local SOP

Event code: 301-XXX

Task: Describe COMINT related TENCAP programs.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: TENCAP manual.

Concept of task: None.

Prerequisites: None.

CRP: 0.259 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): FMFM 3-21, MAGTF Intelligence Operations
TENCAP manual

Event code: 302-XXX

Task: Describe national/theater SIGINT support Systems.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: J-TENS Manual.

Concept of task: None.

Prerequisites: None.

CRP: 0.519 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 6

APPENDIX H

SECTION TRAINING (400 LEVEL)

Purpose: The purpose of the 400 level is to identify those tasks which are completed by the section. These tasks are directly tied to the core capabilities listed for this MOS.

Administrative Notes None.

Prerequisites None

H-1

CHAPTER 6

Event code: 400-XXX
Task: Develop collection management plan.
Condition: provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating procedures.
Concept of task: None.

Prerequisites: None.
CRP: 5 **Sustainment Interval (months):** 6
External Support Required: None.
Events updated: None.
Reference(s) : U.S. Signals Intelligence Directive (USSID) 100 series
 Local SOP

Event code: 401-XXX
Task: Provide SIGINT, EW, and I&W in support of MAGTF operations.
Condition: provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating Procedures.
Concept of task: None.

Prerequisites: None.
CRP: 7.5 **Sustainment Interval (months):** 6
External Support Required: None.
Events updated: None.
Reference(s): CWP 2-15.2, Signals Intelligence
 FM 34-1, Intelligence and Electronic Warfare Operations
 Local SOP

Event code: 402-XXX
Task: Conduct collection operations in a tactical environment.
Condition: Provided with the appropriate references, materials, and equipment.
Standard: Local Standard Operating procedures.
Concept of task: None.

Prerequisites: None.
CRP: 7.5 **Sustainment Interval (months):** 1
External Support Required: None.
Events updated: None.
Reference(s): U.S. Signals Intelligence Directive (USSID) 100 series
 MCWP 2-15.2, Signals Intelligence

CHAPTER 6

Local SOP

Event code: 403-XXK

Task: Provide input for the Annex B (Intel), Annex K (Comms), and Annex C (Ops) to the Ops/Conplan.

Condition: provided with the appropriate references, materials, and equipment.

Standard: FMFM 3-1, Command and Staff Action

Concept of task: None.

Prerequisites: None.

CRP: 2.5 **Sustainment Interval (months) :** 6

External Support Required: None.

Events updated: None.

Reference(s): FMFM 3-1, Command and Staff Action

Event code: 404-XXX

Task: Coordinate CNE within the collection planning process.

Condition: provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: Coordinate intelligence requirements that may be satisfied through CNE and advise on restrictions pertaining to CNE.

Prerequisites: None.

CRP: 2.5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Appropriate Technical Manuals
Local SOP

Event code: 405-XXX

Task: Provide SIGINT, EW, and I&W in support of MAGTF special operations.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 6

External Support Required: None.

CHAPTER 6

Events updated: None.

Reference(s): MCWP 2-15.2, Signals Intelligence
FM 34-1, Intelligence and Electronic Warfare Operations
Local SOP

Event code: 406-XXX

Task: Conduct direction finding (DF) operations in a tactical environment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-15.2, Signals Intelligence
Local SOP

Event code: 407-XXX

Task: Prepare SIGINT/EW/IO, OB.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Station working aids
Local SOP

Event code: 408-XXX

Task: Disseminate CNE-based reporting to satisfy intelligence requirements.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: Provide intelligence reporting and technical data to appropriate recipients, in support of tactical, theater.

CHAPTER 6

and national information requirements.
Prerequisites: None.

CRP: 2.5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s) : Appropriate Technical Manuals
 Local SOP

Event code: 409-XXX

Task: provide SIGINT, EW, and I&W during pre-assault, post-assault, or deep reconnaissance missions where the use of conventionally trained Radio station assets is not feasible.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 7.5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): MCWP 2-15.2, Signals Intelligence
 Local SOP

Event code: 410-XXX

Task: Conduct electronic attack (EA) in a tactical environment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): FM 34-1, Intelligence and Electronic Warfare Operations
 MCWP 2-15.2, Signals Intelligence
 Local SOP

Event code: 411-XXX

Task: Perform I&W, processing, analysis exploitation, production, and

CHAPTER 6

reporting of SIGINT information.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 7.5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): U.S. Signals Intelligence Directive (USSID) 200 series
U.S. Signals Intelligence Directive (USSID) 300 series
Local SOP

Event code: 412-xxx

Task: Conduct COSEC monitoring for supported commander.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): U.S. Signals Intelligence Directive (USSID) 100 series
Local SOP

Event code: 414-XXX

Task: Maintain country files, technical databases, and deployment tech kits for geographic locations and functional areas.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 6

Event code: 415-XXX

Task: Update SIGINT Order-of Battle.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

Reference(s): Station working aids
Local SOP

Event code: 416-XXX

Task: Prepare and present SIGINT/EWII briefings.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: S **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

Reference(s): Station working aids
Local SOP

Event code: 417-XXX

Task: Establish a SIGINT collection site in a tactical environment.

Condition: Provided with the appropriate references, materials, and equipment.

Standard: Local Standard Operating procedures.

Concept of task: None.

Prerequisites: None.

CRP: 5 **Sustainment Interval (months):** 1

External Support Required: None.

Events updated: None.

CHAPTER 6

Reference(s) MCWP 2-15.2, signals Intelligence
FM 34-1, Intelligence and Electronic Warfare Operations
Local SOP

Event code: 418-XXX

Task: Develop and maintain local unit analytical and collection
operator working aids.

Condition: Provided with the appropriate references, materials, and
equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: 2.5 **Sustainment Interval (months) :** 6

External Support Required: None.

Events updated: None.

Reference(s): Station working aids
Local SOP

Event code: 419-XXX

Task: Maintain display of current enemy situation with target locations
and priorities.

Condition: Provided with the appropriate references, materials, and
equipment.

Standard: Local Standard Operating Procedures.

Concept of task: None.

Prerequisites: None.

CRP: S **Sustainment Interval (months):** 6

External Support Required: None.

Events updated: None.

ACADEMIC TRAINING

Level	Academic Title
200	EG-243, Briefing Skills
200	EA-009/010, Introduction to Signals Technology
200	EA-171, Antenna Fundamentals
200	LG-231, Graphic Language Identification
200	LG-220/221/223, Aural Identification of Languages
200	Appropriate target language college courses
200	MCI 03.32G, Reconnaissance Marine (MCI)
200	MCI 25.15, Antenna Construction and Radio Wave Propagation
200	Basic Reading Comprehension Courses (Language specific)
200	Basic Transcription Courses (Language specific)
200	MCI 2520C, Communications for the FMF Marine
200	MCI 2525A, Communications Security
200	MCI 2526B, Introduction to Electronic Warfare
200	MCI 2532E, HF/UHF Field Radio Equipment
200	Basic Translation Courses (Language specific)
200	MCI 2538A, Single-Channel Ground
200	MCI 26IA, Direction Finding Operations
200	MCI 0381A, Infantry Squad Leader: Land Navigation
200	EA-183, Mathematics for SIGINT
300	TM-101, Introduction to Collection Management
300	Workshop/Seminar Training Courses (Language specific)
300	Military Language Programs (Language specific)
300	Advanced Language Courses (Language specific)
300	Dialect Courses (Language specific)
300	IS-012, Technical Reporting Using Klieg lights
