INTRODUCTION

APPRENTICESHIP

Apprenticeship is training for jobs in technical trades that require special skills and knowledge. It involves technical schooling and planned on-the-job training under supervision. For young workers desiring to gain a skilled occupation, the apprenticeship program provides a step by step program of instruction and on-the-job training. This program will lead to advance standing in the technical skill or trade you have chosen.

The USMC Apprentice Program provides you with the opportunity to meet some requirements for advancement of your chosen skill area while on active duty. As you progress in your training in the Marine Corps and master the skills required of your trade, you will have the mastered skills recorded in your log. Your apprenticeship program allows you to make your work experience in the Marine Corps count twice. First, to fulfill your active duty obligation, in a productive manner. Second, to provide you with a usable skill if you should decide to return to civilian life. By having documented proof of Marine Corps schooling and work experience, you should qualify for a better job at higher pay.

Most apprenticeship terms range from 1 to 4 years, depending upon the trade involved. To master a particular trade requires: (1) Learning all or most of the skills of the trade; (2) Perfecting each specific skill; (3) Bringing each skill up to the speed and accuracy required of the job; and (4) Learning to use specific skills in combination with other skills.

MARINE CORPS APPRENTICESHIP PROGRAM

The purpose of establishing the Marine Corps Apprenticeship Program is to provide Marine Corps commanders an opportunity to implement programs of apprenticeship for military personnel in occupations closely related and applicable to private industry needs and requirements. Marine Corps school training and experience in the field will, if properly documented, satisfy private industry requirements for the training of apprentices in nationally recognized apprenticeshipable occupations.

The ultimate objective of the United States Marine Corps Apprenticeship Program is to provide registered certification of an individual Marine's skilled craft occupational training. The program has been designed to achieve recognition for Marines equal to their civilian counterparts.

Registration of the National Apprenticeship Standards for the United States Marine Corps with the Bureau of Apprenticeship and Training, U.S. Department of Labor, is beneficial to the Marine Corps, to individual Marines, and to private industry, management and labor. Acceptance of U.S. Marine Corps apprentices as skilled craft-workers by private industry, management and labor will enhance Marines' employment opportunities as veterans, shorten the term of private industry apprenticeship through the award of appropriate credit for previous military training experience, and provide a source of registered skilled personnel to meet national manpower requirements.

THE AUTOMOTIVE SERVICE MECHANIC APPRENTICESHIP PROGRAM

The purpose of this pamphlet is to announce the United States Marine Corps Apprenticeship Program for the trade of Automotive Service Mechanic.

Policies and procedures for participation in the program are contained in MCO 1550.22.

Marines holding a primary or secondary MOS indicated below and who are serving in that MOS may participate in the program.

- MOS 3521 Organizational Automotive Mechanic
- MOS 3522 Field Automotive Mechanic
- MOS 3529 Maintenance Chief
- MOS 3524 Fuel and Electrical Systems Repairperson

This is an 8000 hours program which leads to a certification of journeyman in the trade of Automotive Mechanic by the U.S. Department of Labor. Participation in the program is voluntary, and no membership in labor unions or professional associations is required. The work process schedule and schedule of related instruction are outlined in Appendixes A and B. The purpose of the work process schedule and the schedule of related instruction is as indicated below:

The work process schedule reflects categories of work experience required by Marine apprentices to qualify as Journeyman Automotive Mechanics.

The schedule of related instruction identifies courses which are available to Marine apprentices to satisfy the 144 hours of annual related instruction required for completion of the program.

Marines eligible for the program may enroll by contacting the Unit or Base Education Officer who will assist in the preparation of the application.

Apprentice logs and instructions on their use will be provided by the Education Officer at the time of registration. Marine apprentices will be required to maintain their log sheets on a daily basis. Log entries must be verified by the Marine apprentice's immediate supervisor on a weekly basis.

Marines who have partially completed an approved Federal or State registered civilian apprenticeship will be awarded credit within the constraints of the individual apprenticeship training program standards. Each training hour successfully completed in the occupation involved will be awarded credit upon presentation of authenticated documentation. Marines serving an enlistment beyond their initial enlistment, and therefore considered career Marines, may make application for the apprenticeship program in order to be certified as having completed an apprentice program. Career Marine apprentices must complete the same requirements as the first-term apprentice except that they will be given credit for one-half the hours required for the specific apprenticeship program in which they are enrolled provided their previous enlistment was served in an MOS applicable to the relevant apprenticeship program for which applying.

Organized related instruction for all United States Marine Corps apprentices will be defined by the individual apprenticeship program standards. Such related instruction will be provided on an hour-per-year basis, or the total hours may be achieved through the successful completion of a multiweek training course for the apprenticeable occupation involved at any United States Marine Corps training school, or other Service School (Army, Navy, etc.) providing such training.

Upon successful completion of apprenticeship training and experience requirements as prescribed by individual apprenticeship program standards, the apprentice will submit a request via the chain of command, accompanied by a letter from the appropriate commander or education officer, to the Office of National Industry Promotion, Bureau of Apprenticeship and Training, U.S. Department of Labor, Washington, D.C. 20213, for issuance of a Certificate of Completion of Apprenticeship (Enclosure 10). The Bureau of Apprenticeship and Training will issue all Certificates of Completion of Apprenticeship to the individual through Headquarters, U.S. Marine Corps (Code OTTE) to the appropriate commander.

The instruction may include supervised correspondence or self-study courses, as approved by law or by policy of the registration agency. A minimum of 144 hours each year of apprenticeship training is required. It may also include resident instruction at a DOD or civilian school. Normally, a minimum of 144 hours annually is required. However resident, formal schooling can satisfy total requirements for related instruction if over 360 hours are attained.

WORK PROCESS SCHEDULE FOR THE TRADE OF AUTOMOTIVE MECHANIC

Job Description. As a result of formal training received in conjunction with MOS qualification, participants are knowledgeable of the principles and theories applicable to the various systems that comprise the automotive vehicle, and the construction, principles of operation and functional interrelationship of components of those systems. They are also qualified to use the common/special tools, precision measuring instruments and portable testing equipment associated with the field of automotive repair. Duties include the performance of first, second, third, and fourth echelon maintenance on the engines, power transmissions, and brake, steering, suspension, fuel, and electrical systems employed in military tactical motor vehicles including 1/4 ton to 10 ton trucks and truck-tractors, and 1/4 ton to 60 ton trailers. Occasionally billet responsibilities may require the performance of similar functions on standard commercial vehicles. Specific duties involve the performance of: all inspections, services, and adjustments associated with routine and scheduled maintenance of automotive equipment; complete tune-up of fuel electrical systems; isolating the cause of malfunctions in the various automotive systems using appropriate diagnostic equipment and following approved troubleshooting procedures; and effecting the adjustments/repairs/replacements required to correct deficient conditions. Component repair and overhaul actions are performed on gasoline and diesel engines, automatic and standard transmissions, differentials, transfers and similar assemblies/components that reflect standard configuration and are manufactured by General Motors, Chrysler, Cummins, Continental, American-Bosch Arma, Delco-Remy, Prestolite, Borg-Warner, and other well known corporations.

INSTRUCTIONS FOR COMPLETING WORK EXPERIENCE LOG

This pamphlet is issued to each registered apprentice and identifies the occupation, work process training schedules, hours allocated to each training task increment in the work process schedule and supervisory certification requirement.

1. Marine applicant will:

a. Complete the apprentice registration application (enclosure 1) in triplicate.

(1) Submit the application to the commanding officer or his authorized representative.

(2) Obtain work experience log, which includes the Work Experience Functions. Obtain one year's supply (12 copies) of the Apprentice Work Experience Hourly Record (enclosure 2) from the commanding officer or education officer.

(3) Have one passport size picture made and complete the (Personal History), enclosure (3).

(4) Complete (Military Education), enclosure (4), and maintain up to date with certification.

(5) Complete (Civilian Education), enclosure (5), with certification from the Marine's Service Record Book.

(6) Maintain (Military Assignment), enclosure (6).

(7) Civilian Occupation, enclosure (7), if applicable, submit statement to program sponsor on employer letterhead, giving length of employment, position held and manner of performance.

b. Career oriented apprentice Marines must complete the same requirements as the first-term apprentice except that they will be given credit for one-half the hours required for the specific program in which they are enrolled. This is provided their previous enlistment was served in an MOS applicable to the relevant apprenticeship program for which they are applying.

(1) A photocopy of Military Assignment, enclosure (6) of the work log with certification will be forwarded to MOS sponsor.

COMMANDING OFFICER
MOTOR TRANSPORT SCHOOL COMPANY
MARINE CORPS SERVICE SUPPORT SCHOOLS
MARINE CORPS BASE
CAMP LEJEUNE, NORTH CAROLINA 28542

(2) The program sponsor will then assign credit hours in accordance with MCO 1550.22 and return to the applicant's commanding officer.

2. Procedures for recording hourly work experience

a. Daily Record: Daily entries will be made by the apprentice.

b. Weekly certification by supervisor: Weekly certification will be completed by the shop chief for whom the Marine works.

c. Consolidation/Certification on Month/Yearly recapitulation: The signature line of the work experience hourly report will be signed by the commanding officer or his representative. This report will reflect the entries for the monthly work experience, enclosure (8) of work experience log.

3. Semiannual progress interview

a. Report to Education Officer within 5 to 8 months after date of this application and twice a year thereafter. Enclosure (9) will be completed and forwarded to CMC (Code OTTE).

b. The purpose of the interview is to determine the status of the apprentice and certify a photocopy of the last hourly record of work experience.

c. The Commanding Officer or Education Officer/ authorized representative will sign the Apprentice Progress! Status Report (enclosure (9)).

4. Interruption of Assignment

a. Rifle Range leave. Record on the experience hourly report the days away from regular assigned duty.

b. Separation from Active Duty. Status report will be submitted to CMC identifying the Marine as being discharged. Upon request, CMC will forward the records to Bureau of Apprenticeship and Training in the Marine's

home state of record

C. Sickness and hospitalization. Recorded by day on the Apprentice Work Hourly Report.

d. Voluntary Disenrollment. An apprentice must request suspension or cancellation. Suspension retains the apprentice in a temporary status for no more than one year. A request for suspension may be mailed directly to CMC (Code OTTE) via the chain of command by the apprentice. Cancellation removes the apprentice from the apprenticeship program. A request for cancellation requires the signature of the apprentice's Commanding Officer or Education Officer.

5. Documentation Required to Validate Related Instruction. Certification of completion or transcript of grades will be used to award credit hours toward completion of the apprenticeship program

6. Loss of Work Experience Log

a. Request a reissue of a blank log from the Education Officer of your command.

b. Request CMC to furnish data available in your records to bring the log up to date.

6. Self-explanatory.
7. A check "X" in the YES block signifies that the registrant is regarded as a Viet Name veteran by the Department of Labor.
8. Enter name of state which the registrant calls home.
9. Enter long title of apprenticeable trade. Example: Camera Repairer. Entries are limited to those apprenticeships authorized by the Commandant of the Marine Corps.
10. Enter 9-digit DOT code which matches the apprenticeable trade entered in Item 9. The Work Processes Schedule indicates this code.
11. No entry required.
12. Self-explanatory.
13. Self-explanatory.
14. Enter name and address of command forwarding application.
15. Enter total term of the apprenticeship (required hours for completion). Example: 6000. The Work Processes Schedule indicates the total term of the apprenticeship.
16. Enter hours of creditable work experience completed prior to registration, if any. A registrant may be credited with 1000 hours of previous work experience for each full year that his/her service record validates assignment to an MOS applicable to the apprenticeable trade. Applicable MOSs, if any, are listed at the bottom of the Work Processes Schedule for each authorized apprenticeable trade. However, credit for previous work experience completed prior to registration cannot exceed more than 50% of the term of the apprenticeship. Therefore, no more than 3000 hours of previous work experience can be credited to a 6000-hour apprenticeship. Portions or fractions of years of work experience will not be credited.
17. Enter the difference between Item 15 and Item 16. This difference is the number of work experience hours which must be completed by the apprentice.
18. Enter any comments regarding previous work experience, future assignment or next duty, or further explanation of any above item. Entry not mandatory.
19. Signature of commanding officer, education officer, or his authorized representative.
20. Title of registrar who signed Item 19.
21. Enter date that Item 19 was signed. This will be the effective beginning date of the apprenticeship.
